Sonoro Energy Completes Drilling at the Countess Well in Alberta

Calgary, Alberta – Sonoro Energy Ltd. (“Sonoro” or the “Company”) (TSXV: SNV) announces that it has successfully completed drilling operations at the Countess exploration well, located approximately 10 kilometers west of Brooks, Alberta.

The well was drilled safely to a total depth of 1,180 metres, approximately 20 metres deeper than initially planned, in order to fully penetrate the target formation. During operations, oil was observed to surface in mud returns, and the well encountered approximately 4-5 metres of potential oil pay within the target zone. The calculated average porosity level over the zone was 6%, below thresholds required to justify completing the well. As a result, the well will be cemented and plugged, and the data gathered will be integrated with seismic interpretations to further evaluate the prospective area and the Company’s Pekisko play.

By drilling the Countess Well, Sonoro earned a 100% working interest in 3.5 sections of prospective leases held by Badlands Resources. The Company is currently analyzing the drilling and geological results and may consider drilling a second well on the earned acreage, depending on its technical and economic assessment. Sonoro is the operator of the well and holds a 100% working interest in the project.

In addition to its Canadian operations, the Company continues to advance its strategic initiatives in the Middle East and will provide further updates to shareholders as material developments occur.

About Sonoro Energy Ltd.

Sonoro Energy Ltd. (TSXV: SNV) is a Calgary-based oil and gas exploration company focused on identifying and developing high-quality resource opportunities in Western Canada and in the Middle East. The Company is committed to responsible energy development and delivering value through operational excellence.

Forward-looking Statements

Certain information in this news release constitutes forward-looking statements under applicable securities laws. Any statements that are contained in this news release that are not statements of historical fact may be deemed to be forward-

looking statements. Forward-looking statements are often identified by terms such as "may," "should," "anticipate," "expects," "estimates," "seeks" and similar expressions. In particular, without limiting the generality of the foregoing, this news release contains forward-looking information regarding: the ability of the parties to negotiate satisfactory terms for, and to execute, the Definitive Agreement; the satisfaction of all conditions precedent to the completion of the Proposed Transaction, including receipt of TSX Venture Exchange, regulatory and shareholder approvals; the Company's ability to continue as a going concern, general business, economic, competitive, political, and social uncertainties; delay or failure to receive applicable approvals; and the results of operations.

Forward-looking statements necessarily involve known and unknown risks, including, without limitation, risks associated with oil and gas exploration, development, exploitation, production, marketing and transportation, loss of markets, volatility of commodity prices, currency fluctuations, imprecision of resource and reserve estimates, environmental risks, competition from other producers, inability to retain drilling rigs and other services, delays resulting from or inability to obtain required regulatory approvals, changes in legislation including but not limited to income tax, environmental laws and regulatory matters, the effectiveness of the technology to be employed by the Company, the Company's ability to access sufficient capital from internal and external sources. Readers are cautioned that the foregoing list of factors is not exhaustive.

Readers are cautioned not to place undue reliance on forward-looking statements as there can be no assurance that the plans, intentions or expectations upon which they are placed will occur. Such information, although considered reasonable by management at the time of preparation, may prove to be incorrect and actual results may differ materially from those anticipated. Forward-looking statements contained in this news release are expressly qualified by this cautionary statement.

Additional information on these and other factors that could affect Sonoro's operations or financial results are included in Sonoro's reports on file with Canadian securities regulatory authorities and may be accessed through the SEDAR+ website (www.sedarplus.ca) or by contacting Sonoro. The forward-looking statements contained in this news release are made as of the date of this news release and Sonoro does not undertake any obligation to update publicly or to revise any of the included forward-looking statements, whether as a result of new information, future events or otherwise, except as expressly required by securities law.

Neither the TSX Venture Exchange nor its Regulation Service Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
