Notes to the Condensed Interim Consolidated Financial Statements

For the three months ended December 31, 2025 and 2024

(Unaudited - Presented in Canadian dollars)

## 1. Nature of operations

Visionary Copper and Gold Mines Inc. ("Visionary" or the "Company") was incorporated on April 21, 2011, under the British Columbia Business Corporations Act for the purpose of receiving certain cash, equipment, common shares, and exploration and evaluation assets from Callinan Royalties Corporation (formerly Callinan Mines Limited) ("Callinan") in exchange for common shares of the Company by way of a plan of arrangement as approved by the shareholders of Callinan on June 7, 2011. The effective date of the transaction with Callinan was July 13, 2011. Since the plan of arrangement, the Company has been directly engaged in the exploration of mineral properties in Canada. Effective August 25, 2025, the Company changed its name from Callinex Mines Inc. to Visionary Copper and Gold Mines Inc. and its TSX Venture Exchange trading symbol from CNX to VCG. Effective January 1, 2026, the Company moved to the OTCQB Venture Market trading under the symbol VCGMF.

The Company's head office and registered and records office address is 1100 – 1199 West Hastings Street, Vancouver, British Columbia, Canada V6E 3T5.

## 2. Basis of presentation, principals of consolidation and going concern

The condensed interim consolidated financial statements of the Company have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB) applicable to the preparation of financial statements ("IFRS Accounting Standards"). The condensed interim consolidated financial statements have been prepared under the historical cost convention, except for certain financial instruments carried at fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

These condensed interim consolidated financial statements include the interim financial statements of the Company and its 100% controlled subsidiary, Osawi Gold Corporation, which was incorporated on August 12, 2025. Subsidiaries are entities controlled by the Company and are included in the condensed interim consolidated financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries are changed where necessary to align them with the policies adopted by the Company. All intercompany balances, transactions, equity income, expenses, and unrealized gains and losses arising from intercompany transactions are eliminated on consolidation.

These condensed interim consolidated financial statements of the Company are presented in Canadian dollars, which is also the functional currency of the Company.

These condensed interim consolidated financial statements were approved by the Board of Directors for use on March 2, 2026.

### Going Concern

The Company has primarily incurred losses since inception and expects to incur further losses in the development of its business. As of December 31, 2025, the Company had a working capital deficit of \$1,360,683 (September 30, 2025 – \$1,292,057) and at that date, the Company also had an accumulated deficit of \$53,237,952 (September 30, 2025 – \$53,120,524) which has been funded primarily by the issuance of equity. For the three months ended December 31, 2025, the Company realized an increase in cash of \$2,372,680 (2024 – reduction in cash of \$1,154,714).

The Company's ability to continue as a going concern is dependent upon its ability to obtain the necessary financing to meet its general operating expenses and to continue to explore its mineral

properties. Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms acceptable to the Company. These factors give rise to material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business. These condensed interim consolidated financial statements do not reflect the adjustments to the carrying values of the assets and liabilities, the reported expenses and the statements of financial position classifications that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

### Cash and cash equivalents

Cash and cash equivalents include cash on deposit and highly liquid short-term interest-bearing investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. As at December 31, 2025, cash and cash equivalents includes \$1,330,001 (September 30, 2024 - \$Nil) raised from the December 2025 flow-through financing (Note 11) which was being held in escrow by a third party to be released as qualified expenditures are incurred.

### 3. New and future accounting standards and pronouncements

In April 2024, the IASB issued IFRS 18 – Presentation and Disclosure in Financial Statements (“IFRS 18”) to replace IAS 1 – Presentation of Financial Statements. This standard focuses on updates to the statement of profit or loss, including: (a) the structure of the statement of profit or loss; (b) required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and (c) enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general. It will be effective for the Company for the annual period beginning September 1, 2027, and will be required to be applied retrospectively. The Company is currently assessing the effect of this new standard on its consolidated financial statements.

Apart from IFRS 18, other new standards or amendments to existing standards issued but which have not yet been applied by the Company based on the effective date are not currently expected to have a material impact on the Company's consolidated financial statements.

### 4. Accounting policy judgements and estimation uncertainty

#### a) Accounting policy judgments

The preparation of these condensed interim consolidated financial statements requires making judgments that affect the amounts reported. Accounting judgments that management has made in the process of applying accounting policies and that have the most significant effect on the amounts recognized in the condensed interim consolidated financial statements include, but are not limited to, the following:

#### **Going concern**

The Company's management has assessed the Company's ability to continue as a going concern. The factors considered by management include, among other things, the Company's cash position on December 31, 2025; its projected exploration and general operating costs; its ability to raise financing and its intention to continue operating the Company.

(Unaudited - Presented in Canadian dollars)

## **Impairment assessment of exploration and evaluation assets**

At the end of each reporting period, management applies judgement in assessing whether there are any impairment indicators relating to exploration and evaluation assets. When assessing whether there are impairment indicators management considers whether (i) the period for which the Company has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed; (ii) substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned; (iii) exploration for and evaluation of mineral resources and the Company has decided to discontinue such activities in the specific area; and (iv) whether sufficient data exists to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale. In considering these factors, management did not identify any impairment indicators for the three months ended December 31, 2025.

## **b) Significant estimates**

There were no key assumptions made concerning the future or other key sources of estimation uncertainty that have a significant risk of resulting in a material adjustment to the carrying amount of assets and liabilities within the next fiscal year.

## **Flin Flon Area, Manitoba**

### Pine Bay project

The Company owns a 100% interest, with certain mineral leases and claims within the Pine Bay Project being subject to a Net Smelter Return ("NSR") royalty ranging from 0%-1% (of which 0.5% NSR can be repurchased for \$500,000) and a Net Profit Interest.

On June 18, 2024, the Company entered into a Grant Agreement with the MMDF for a grant of \$250,000 to support exploration on the Company's 100% owned Pine Bay Project in Flin Flon, MB. The first tranche of \$125,000 was received by the Company during the year ended September 30, 2024. The second tranche of \$125,000 was received by the Company during the year ended September 30, 2025.

### Flin Flon project

The Company owns a 100% interest in the project, subject to a 2% NSR royalty of which 1% may be purchased for \$1,000,000.

### Gossan Gold project

The Company owns a 100% interest in the project, subject to a 2% NSR royalty.

### Alberts Lake project

On August 8, 2024, the Company announced the closing of its option agreement with Voyageur Mineral Explorers Corp. ("Voyageur") whereby the Company has optioned a 100% interest in the Alberts Lake Project, Manitoba. Under the terms of the option agreement, Visionary will acquire a 100% interest in the Alberts Lake Project by making the following share issuances to Voyageur:

- \$75,000 of common shares on August 6, 2024 (issued 70,093 common shares as full satisfaction of the consideration);
- \$125,000 of common shares on the first anniversary; (issued 116,822 common shares as full satisfaction of the consideration);
- \$150,000 of common shares on the second anniversary; and
- \$150,000 of common shares on the third anniversary.

The number of shares to be issued on each applicable date will be based upon the greater of (i) the 5-day volume weighted average trading price of the common shares calculated 2 days prior to the applicable date; and (ii) \$1.07. The Company can, at its sole discretion, elect to (i) pay the cash value of an anniversary payment indicated above, in lieu of issuing common shares; and/or (ii) accelerate the payment or issuance of any common shares prior to the particular anniversary payment date.

Upon Visionary acquiring a 100% interest in the Alberts Lake Project, Voyageur will be granted a 1.5% net smelter return royalty, of which 0.5% may be repurchased with a one-time payment of \$500,000.

On December 23, 2024, Visionary entered into a termination and assumption agreement (the "Termination Agreement") with Teck Resources Limited ("Teck") and Voyageur, and on the same date entered into an Amending Agreement with Voyageur, whereby Teck (as a successor to Aur Resources Inc.) agreed to terminate its back-in right to acquire up to an additional 90% of certain mineral claims of the Alberts Lake project. In consideration thereof, Visionary issued to Teck, on January 10, 2025: (i) 150,000 common shares of the Company (the "Shares") and (ii) 75,000 common share purchase

In addition, Teck will receive a one-time cash payment of \$1,000,000 within sixty (60) days of a decision being made to commence construction of a mine on the Alberts Lake property (the “Milestone Payment”). The Milestone Payment will be the responsibility of the owner of the property (i.e. either Voyageur or Visionary as the case may be). Under the Amending Agreement, Voyageur agreed to waive its right to the originally receivable fourth anniversary payment of \$150,000 of common shares of the Company.

### Nash Creek and Superjack projects, New Brunswick

The Company owns a 100% interest in the projects.

### Pt. Leamington project, Newfoundland and Labrador

The Company owns a 100% interest in the project, subject to a 1% NSR royalty which may be purchased for \$1,000,000.

### Other, Manitoba

The Company has an interest in other properties in Manitoba. The other properties are in good standing and do not require any further commitments. These include the Sneath Lake property, Moak Lake property, Herblet Lake property, Headway North claim, and the Island Lake properties.

#### Headway Project

During the year ended September 30, 2025, the Company wrote off \$20,000 representing the previously capitalized costs associated with the Headway Project as the Company did not renew the claims in the Headway project thereby ceasing to hold the project.

#### Headway North claim

The Company owns a 100% interest in the project, which expands the Headway Project, subject to a 1% NSR royalty, of which half can be purchased at any time for \$500,000.

the date of issue. In addition, subsequent to December 31, 2025, amounts included in accounts payable were renegotiated (Note 17).

### 8. Loan payable

During May 2020, the Company received \$40,000 in the form of a Canada Emergency Business Account (“CEBA”) loan. CEBA was part of the economic assistance program launched by the Government of Canada to ensure that businesses had access to capital during the COVID-19 pandemic and could only be used to pay non-deferrable operating expenses. During the period from receipt of the CEBA loan to December 31, 2023 (previously December 31, 2022), the “Initial Term”, no interest was charged on the amount outstanding. An extension to the interest free period was announced by the Government of Canada to extend the Initial Term to January 18, 2024 (the “Government Announcement”). The Company did not repay the CEBA loan as of January 18, 2024, accordingly, from January 19, 2024, to December 31, 2026 (the “Extended Term”), interest is payable monthly at a rate of 5% per annum on the outstanding balance and has been paid monthly as incurred. The balance of the CEBA loan is fully repayable on or before the end of the Extended Term.

As at December 31, 2025, the loan payable was due for settlement within 12 months and accordingly presented as a current liability. At September 30, 2025, management determined that the loan would not be repaid until the end of the Extended Term and, accordingly, presented the outstanding balance as non-current.

### 9. Deferred income tax liability

A reconciliation between the Company’s income tax provision computed at statutory rates to the reported income tax provision is as follows:

	December 31, 2025	December 31, 2024
Statutory tax rate	27%	27%
	\$	\$
Loss for the period before taxes	(259,710)	(145,314)

Non-capital losses	6,035,503	5,960,178
Deferred tax assets	6,396,631	6,323,260
Unrecognized deferred tax assets	(143,000)	(143,000)
Net deferred tax assets	6,253,631	6,180,260
<i>Deferred tax liabilities:</i>		
Resource property	(8,468,895)	(8,537,806)
Deferred tax liabilities	(8,468,895)	(8,537,806)
<b>Net deferred tax liabilities</b>	<b>(2,215,264)</b>	<b>(2,357,546)</b>

The potential benefit of deferred tax assets arising from the carry forward of capital losses are not recognized in these condensed interim consolidated financial statements when it is not considered probable that sufficient future taxable capital gains will allow the deferred tax asset to be recovered.

As of December 31, 2025, the Company has approximately \$1,059,000 (September 30, 2025 - \$1,059,000) of capital losses without any expiry that are available to be carried forward to reduce any future taxable capital gains.

In addition, as of December 31, 2025, the Company has approximately \$22,353,000 (September 30, 2025 - \$22,074,000) of non-capital losses for Canadian income tax purposes that may be carried forward to reduce taxable income derived in future years. Their expiry dates range from 2031 – 2046 (September 30, 2025 (2031 – 2045)).

### 10. Flow-Through premium liability

During the three months ended December 31, 2025, the Company recognised flow-through premium of \$725,649 (2024 - \$473,019) of which \$717,425 was outstanding at December 31, 2025 (2024 - \$Nil). During the three-month periods ended December 31, 2025 and 2024 flow-through premium recoveries of \$8,224 and \$102,808, respectively, were recognized in profit or loss, with the flow-through premium recoveries representing the pro-rata portion of Qualifying CEE incurred during the year from the prior issuance of the flow-through shares. The flow-through premium recognized during the three months ended December 31, 2025 arose with respect to the flow-through unit financing (Note 11) closed on December 18, 2025. The Company is committed to incurring, on or before December 31, 2026, qualifying Canadian exploration expenses as defined under the *Income Tax Act (Canada)* (the "Qualifying Expenditures") in the aggregate amount of \$1,830,001. None of the qualifying CEE will be available to the Company for future deduction from taxable income.

With respect to a flow-through share financing completed during July 2024, the Company was committed to incurring, on or before December 31, 2025, qualifying Canadian exploration expenses as defined under the *Income Tax Act (Canada)* (the "Qualifying Expenditures") in the amount of \$1,152,644. None of the qualifying CEE will be available to the Company for future deduction from taxable income.

---

Management fees for the three months ended December 31, 2025, and 2024 include salary earned by (i) the Chief Executive Officer ("CEO"), and (ii) the Exploration Manager of the Company. Management fees of \$Nil (2024 - \$37,500) have been capitalised to exploration and evaluation assets during the three months ended December 31, 2025.

During the three months ended December 31, 2025, the Company incurred professional fees of \$11,098 (2024 - \$15,682) for the provision of non-CFO accounting and advisory support services charged by a company controlled by the CFO of the Company.

During the three months ended December 31, 2025, the Company incurred office rental expense of \$9,000 (2024 - \$9,000) for the provision of office space sub-let to the Company by the CEO of the Company, which replaced a prior third-party office rental agreement with a monthly cost of \$5,450 (\$64,500 annually).

Included in accounts payable and accrued liabilities as of December 31, 2025, are amounts due to related parties of \$100,333 (September 30, 2025 - \$352,089) owing to the CEO and to a company controlled by the CFO for the provision of CFO, and non-CFO accounting and advisory support services. These amounts also include working capital advances from the CEO of \$Nil (September 30, 2025 - \$50,536). These amounts are non-interest bearing and due on normal commercial terms.

### 13. Financial instruments

The Company's financial instruments consist of cash and cash equivalents, deposits, accounts payable and accrued liabilities and loan payable. The Company's cash and cash equivalents, and deposits are measured at amortized cost. The accounts payable and accrued liabilities and loan payable are designated as amortized cost. The carrying value of the Company's financial instruments approximates their fair value due to their short-term nature and no material impact of changes in credit risk since initial recognition. Accordingly, the fair value hierarchy of the financial instruments where carrying value approximates fair value has not been disclosed.

Discussions of risks associated with financial assets and liabilities are detailed below:

#### **Credit risk**

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations.

The Company's maximum exposure to credit risk is the carrying value of its cash and cash equivalents and deposits balances. The Company's cash and cash equivalents are held at a Schedule I Canadian bank in interest bearing accounts. As at December 31, 2025, the Company does not believe it is exposed to significant credit risk.

#### **Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through its capital management as outlined in Note 14 to these condensed interim consolidated financial statements. Accounts payable relating to exploration and evaluation assets and other accounts payable and accrued liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms. The CEBA loan is required to be repaid on December 31, 2026. As of December 31, 2025, the Company had a cash balance of \$2,426,210 (September 30, 2025 - \$53,530) to settle current liabilities of \$1,491,397 (September 30, 2025 - \$1,503,714) (Notes 2, 7 and 17).

## Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and the price of publicly traded marketable securities.

### a) Interest rate risk

The Company has cash balances and no debt liabilities which are currently interest-bearing, other than the CEBA loan which carries interest at a fixed rate of 5% per annum. The Company's current policy is to invest excess cash in short-term deposit certificates issued by its banking institutions. The Company does not believe it is exposed to significant interest rate risk.

### b) Foreign currency risk

The Company conducts all its business in Canada and is therefore not exposed to significant foreign currency risk.

## 14. Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern to pursue the exploration and evaluation of its exploration and evaluation assets, to acquire additional mineral property interests and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk. In the management of capital, the Company includes its components of shareholders' equity.

The capital structure of the Company consists of equity attributable to common shareholders, comprised of issued capital, warrants, options, equity reserve and deficit. The Company maintains and adjusts its capital structure based on changes in economic conditions and the Company's planned requirements. The Company may adjust its capital structure by issuing new equity, issuing new debt, or acquiring or disposing of assets, and controlling the capital expenditure program. The Company is not subject to externally imposed capital requirements.

The Company's mineral property interests are in the exploration stage. As such, the Company is dependent on external financing to develop its properties and fund its activities. To carry out its planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed and if available, may even dispose of some or all of its mineral property interests.

Management reviews its capital management policies on an ongoing basis. There were no changes in the Company's approach to capital management during the three months ended December 31, 2025.
