## Notes to the Condensed Interim Financial Statements

For the three and nine months ended September 30, 2025 and 2024

(Unaudited - expressed in thousands of Canadian dollars, except per share amounts)

## 1. Nature of Operations

1911 Gold Corporation ("1911 Gold" or the "Company") is engaged in the exploration and extraction of precious metals. The Company owns and operates the Rice Lake property which holds the True North gold mine and mill ("True North"), as well as the Apex property near Snow Lake, Manitoba and the Denton-Keefer property near Timmins, Ontario. The Company was incorporated under the British Columbia Business Corporations Act on May 3, 2018 and its common shares are traded on the TSX Venture Exchange ("TSX-V") under the symbol "AUMB" and are quoted on the OTCQB under the symbol "AUMBF". The Company's principal place of business is located at 400 Burrard Street, Suite 1050, Vancouver, BC V6C 3A6.

### Going concern

These condensed interim financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to meet its commitments, continue operations and realize its assets and discharge its liabilities in the normal course of business for at least twelve months from the period end. At September 30, 2025 the Company had working capital (current assets less current liabilities) of \$6,160 (December 31, 2024 - \$5,498). During the nine months ended September 30, 2025 the Company incurred a loss of \$12,276 (year ended December 31, 2024 - \$4,796) and used cash for operating activities of \$10,294 (year ended December 31, 2024 - \$5,764). Subsequent to period end, the Company announced a "best efforts" Listed Issuer Financing Exemption ("LIFE") offering and private placement for a total of \$20,000 that is expected to close on or around December 4, 2025 (note 18).

The Company has a history of operating losses, has limited financial resources, and no assurance that sufficient funding will be available to enable the Company to continue exploration activities. The Company's ability to continue as a going concern is dependent upon its ability to obtain the financing necessary to fund its mineral properties through the issuance of common shares, through entering into joint ventures or by realizing proceeds from the disposition of its mineral interests. Management plans to continue to secure the necessary financing through a combination of equity financing or other forms of financing such as joint venture partnerships; however, there can be no assurance that the Company will be successful in these actions. There is a material uncertainty related to these conditions that may cast significant doubt on the Company's ability to continue as a going concern, and the Company may be unable to realize its assets and discharge its liabilities in the normal course of business.

These condensed interim financial statements do not give effect to adjustments to the carrying values and classification of assets and liabilities that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

## 2. Basis of Presentation

### Statement of compliance and functional currency

These condensed interim financial statements have been presented in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, *Interim Financial Reporting*. These financial statements were approved by the Board of Directors on November 17, 2025. These financial statements have been prepared on a historical cost basis except for certain financial instruments which are measured at fair value.

These financial statements are presented in Canadian dollars, which is the functional currency of the Company.

## Notes to the Condensed Interim Financial Statements

### For the three and nine months ended September 30, 2025 and 2024

(Unaudited - expressed in thousands of Canadian dollars, except per share amounts)

#### Consistency of Presentation

The Company retains the presentation and classification of items in the financial statements from the previous period. However, some items on the condensed interim statements of loss and comprehensive loss were reclassified in order to improve the presentation of the financial statements and provide more relevant information. The table below provides a summary of how the previous period presentation was amended accordingly to be consistent with the current presentation:

### 3. Material Accounting Policies

In the preparation of these condensed interim financial statements, the Company has used the same accounting policies and methods of computation as in the most recent audited annual financial statements for the Company for the year ended December 31, 2024.

#### Accounting standards issued but not yet effective

In April 2024, the IASB issued IFRS 18, *Presentation and Disclosure of Financial Statements* (“IFRS 18”), which replaces IAS 1, *Presentation of Financial Statements*. IFRS 18 introduces a specified structure for the income statement by requiring income and expenses to be presented into the three defined categories of operating, investing and financing, and by specifying certain defined totals and subtotals. Where company-specific measures related to the income statement are provided, IFRS 18 requires companies to disclose explanations around these measures, which are referred to as management-defined performance measures. IFRS 18 also provides additional guidance on principles of aggregation and disaggregation which apply to the primary financial statements and the notes. IFRS 18 will not affect the recognition and measurement of items in the financial statements, nor will it affect which items are classified in other comprehensive income and how these items are classified. The standard is effective for reporting periods beginning on or after January 1, 2027, including for interim financial statements. Retrospective application is required, and early application is permitted. We are currently assessing the effect of this new standard on our financial statements.

## Notes to the Condensed Interim Financial Statements

For the three and nine months ended September 30, 2025 and 2024

(Unaudited - expressed in thousands of Canadian dollars, except per share amounts)

On May 30, 2024, the IASB issued targeted amendments to IFRS 9 and IFRS 7 to respond to recent questions arising in practice, and to include new requirements not only for financial institutions but also for corporate entities. These amendments clarify the date of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system; clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion; add new disclosures for certain instruments with contractual terms that can change cash flows (such as some financial instruments with features linked to the achievement of environment, social and governance targets); and update the disclosures for equity instruments designated at fair value through other comprehensive income (FVOCI). These amendments are effective for reporting periods beginning on or after January 1, 2026. We are currently assessing the impact of these amendments on our financial statements.

As at September 30, 2025, there are no other IFRS Accounting Standards or IFRIC interpretations with future effective dates that are expected to have a material impact on the Company.

#### 4. Critical Accounting Estimates and Judgments

The preparation of financial statements in conformity with IFRS Accounting Standards requires management to make estimates and assumptions about future events that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the annual financial statements and the reported amounts of revenues and expenses during the reporting period. Such estimates and assumptions, which by their nature are uncertain, affect the carrying value of assets, impact decisions as to when exploration and evaluation costs should be capitalized or expensed. The Company regularly reviews its estimates and assumptions; however, actual results could differ from these estimates and these differences could be material. Revisions to estimates and the resulting impacts on the carrying amounts of the Company's assets and liabilities are accounted for prospectively.

The Company's critical accounting estimates and judgments applied in the preparation of these condensed interim financial statements are consistent with those reported in our 2024 annual financial statements.

#### Leasing of the True North Mill Complex

On July 18, 2023, the Company entered into a letter agreement (the “Grid Agreement”) with Grid Metals Corp. (“Grid”) to lease the True North mill complex for future processing of spodumene pegmatite (lithium ore) from Grid’s Donner Lake Lithium Project. The agreement involved a series of milestone payments as well as a net smelter royalty of 1% from the sale of any lithium concentrate from ore processed by the True North mill complex and ongoing payments to cover operating and depreciation costs during the term of the lease.

On February 12, 2025, the Company signed an amending agreement to terminate the Grid Agreement. The termination requires Grid to make \$450 in additional payments, payable monthly, by October 2025 (\$300 paid).

During the three and nine months ended September 30, 2025, the Company recognized \$100 and \$300 of lease payments from the Grid Agreement in rental revenues and other in profit or loss (2024 - \$nil and \$100).

#### Data Centre Agreements

The Company entered into three agreements in June, September and November of 2022 for the lease of a 0.35-hectare parcel of land on the True North site for the purpose of hosting a data processing centre, for a term of 3 to 5 years (the “Data Centre Agreement”). This data centre is independently operated and maintained and will utilize excess hydroelectric power available at site for the purposes of providing data processing services to third parties. During the three and nine months ended September 30, 2025, the Company recognized \$975 and \$2,916 from the Data Centre Agreements in rental revenues and other in profit or loss (three and nine months ended September 30, 2024 - \$902 and \$3,127).

## 9. Deferred Share Units ("DSUs")

On June 26, 2024, the shareholders of the Company approved a new long-term incentive plan, which is a rolling 10% plan that provides for the grant of Stock Options, Restricted Share Units ("RSUs") and DSUs. Under the plan, the DSUs can be granted to directors as part of their long-term compensation package, entitling them to receive the payout in either cash or shares. Should the payout be in cash, the cash value of the payout would be determined by multiplying the number of DSUs at the payout date by the closing price of the Company's shares on the day the individual ceased to be a director. Should the payout be in shares, each DSU represents an entitlement to one common share of the Corporation.

## 11. RECLAMATION OBLIGATIONS

The reclamation obligations are related to True North and are estimated based upon the present value of expected cash flows using estimates of inflation and a credit-adjusted discount rate. The undiscounted amount of cash flows required to settle the reclamation obligations was estimated at \$9,004 as at September 30, 2025 (December 31, 2024 – \$9,004).

The key assumptions on which the provision estimates were based in the periods ended September 30, 2025 and December 31, 2024 are:

- Expected timing of the cash flows occurs between 2039-2044 based on the expected activities of True North.
- The inflation rate used for the period ended September 30, 2025 is 2.00% (year ended December 31, 2024 – 2.00%).
- The discount rate used for the period ended September 30, 2025 is 7.37% (year ended December 31, 2024 – 7.37%).

The following table provides a summary of changes in the reclamation obligations:

The total share-based payment expense recorded during the three and nine months ended September 30, 2025 related to the RSUs was \$7 and \$19 (2024: \$nil and \$nil).

Subsequent to period end, the Company granted 300,000 RSUs to an officer of the company.

## 13. SEGMENT INFORMATION

The Company’s has one operating segment, the Rice Lake property, which is located in Manitoba, Canada. All non-current assets are located within this operating segment.

## 14. RELATED PARTY TRANSACTIONS

### Key Management Compensation

Key management includes directors and executive officers of the Company. During the three and nine months ended September 30, 2025 and 2024, the Company incurred the following charges by key management of the Company and by companies controlled by them:

	Three months ended September 30		Nine months ended September 30	
	2025	2024	2025	2024
Salaries and wages	\$ 169	\$ 147	\$ 507	\$ 430

Share-based payments	768	22	1,199	59
	<b>996</b>	<b>213</b>	<b>1,883</b>	<b>591</b>

Of the \$507 in salaries and wages, \$330 was recorded in salaries and benefits expense and \$177 in exploration and evaluation expense (2024 – \$288 and \$141, respectively). Director fees are also recorded in salaries and benefits expense.

Of the consulting fees, \$21 was recorded in professional fees and advisory and \$45 in exploration and evaluation expense (2024 - \$15 and \$28, respectively).

As at September 30, 2025, \$130 was owing to directors, officers or companies controlled by them related to their director fees, salaries, and professional fees (December 31, 2024 - \$230).

Other than the amounts disclosed above, there was no other compensation paid or payable to key management for employee services for the reported periods.

## 15. FINANCIAL INSTRUMENTS AND CAPITAL MANAGEMENT

### Capital Management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern so that it can provide returns for shareholders and benefits for other stakeholders, and to explore and develop assets with a view to building a diversified mineral resource company.

The capital structure of the Company consists of equity attributable to common shareholders of \$34,818.

The Company manages the capital structure and adjusts it based on changes in economic conditions and the risk characteristics of the mineral property assets. In order to maintain or adjust the capital structure, the Company may issue new shares through equity offerings or sell assets to fund activities. Management reviews its capital management approach on a regular basis. The Company is not subject to externally imposed capital requirements. There were no changes in the Company's approach to capital management during the nine months ended September 30, 2025.

### Financial Instruments

#### Fair value

Financial instrument disclosures establish a fair value hierarchy that requires the Company to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The Company primarily applies the market approach for recurring fair value measurements. This section describes three input levels that may be used to measure fair value:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide information on an ongoing basis.

Level 2 – quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – unobservable inputs that are supported by little or no market activity.

## Notes to the Condensed Interim Financial Statements

### For the three and nine months ended September 30, 2025 and 2024

(Unaudited - expressed in thousands of Canadian dollars, except per share amounts)

The Company's financial instruments consist of cash and cash equivalents, restricted cash, marketable securities, accounts payable and accrued liabilities. The carrying values of cash and cash equivalents, accounts payable and accrued liabilities approximate their fair values due to the short-term nature of these financial instruments. Restricted cash is measured at fair value. Marketable securities are recorded at FVTPL and are measured at fair value using Level 1 inputs. There have been no movements between levels of the fair value hierarchy during the nine months ended September 30, 2025.

The Company's activities potentially expose it to a variety of financial risks, including liquidity risk, credit risk and market risk. These risks are described below and have not changed during the nine months ended September 30, 2025.

#### ***Liquidity risk***

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset (see Note 1). The Company closely monitors and reviews its costs incurred and actual cash flows against the approved budget on a monthly basis to ensure the Company's access to funds is adequate to support the Company's operations on an ongoing basis. The Company expects to be able to meet its commitments, continue operations and realize its assets and discharge its liabilities in the normal course of operations for at least twelve months from period end. At September 30, 2025, the Company had working capital (current assets less current liabilities) of \$6,160 (December 31, 2024 – \$5,498). Future operations or exploration programs will require additional financing primarily through equity markets or other forms of financing such as joint venture partnerships.

#### ***Credit risk***

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. Credit risk arises from cash and cash equivalents, and restricted cash held with banks and financial institutions. The maximum exposure to credit risk is equal to the carrying value of these financial assets. The Company considers credit risk with respect to its cash and cash equivalents, and restricted cash to be immaterial as all of these instruments are held in large Canadian financial institutions.

#### ***Market risk***

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. There has been no change to this risk during the nine months ended September 30, 2025.

#### ***Interest rate risk***

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company has cash balances, interest-bearing bank accounts and no interest-bearing debt. Therefore, the Company considers this risk to be immaterial.

#### ***Currency risk***

Currency risk is the risk that future cash flows will fluctuate because of changes in foreign exchange rates. The Company is not exposed to significant currency risk.

#### ***Other price risk***

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer or by factors affecting all similar financial

instruments traded in the market. The Company is exposed to other price risk in respect of its marketable securities. The Company considers this risk to be immaterial.

## 16. SUPPLEMENTAL CASH FLOW INFORMATION

Investing and financing activities that do not require the use of cash are excluded from the statements of cash flows.

The following transactions were excluded from the statement of cash flows:

During the nine months ended September 30, 2025:

- The recognition of an asset in property, plant and equipment and related lease obligation in the amount of \$292 related to the lease of two compressors; and
- The movement of \$241 of plant and equipment included in accounts payable during the period; and
- The movement of \$62 from stock option reserve to equity as the result of option exercises during the period; and
- The compensation options issued as part of the non-cash share issuance costs in the LIFE Offering (note 12(d)) in the amount of \$209.

During the nine months ended September 30, 2024:

- \$11 from the issuance of common shares as DSU settlement.

The Company paid or accrued \$nil for income taxes during the nine months ended September 30, 2025 (2024 - \$nil).

## 17. COMMITMENTS AND CONTINGENCIES

### True North Mine Closure Plan and Financial Security

In connection with the Company's reclamation obligations (Note 11), the Company is obligated to provide financial security to the Province of Manitoba. In 2021 the Company provided partial financial security through the provision of a third-party surety for \$800 which included a cash deposit of \$400 held by the third-party surety provider with the remaining \$400 covered by the surety insurance. This cash deposit is included in restricted cash on the Statements of Financial Position. In addition to the financial security amounts to be added to the surety above, the Company will pledge certain physical assets, notably the plant and equipment, as security against the entirety of the reclamation obligations, until such time as the financial security adequately covers the closure costs.

## 18. SUBSEQUENT EVENTS

### **Private placement**

On October 20, 2025, the Company received notice from the TSX-V Venture Exchange that it would not approve the \$17,000 “Best Efforts” LIFE offering and private placement announced on September 19, 2025. The Company subsequently appealed this decision; however, the appeal was denied by the TSX-V on November 6, 2025.

On November 12, 2025, the Company commenced a \$20,000 “Best Efforts” LIFE offering and private placement, which is anticipated to close on or about December 4, 2025.

### **Issuance of DSUs**

Subsequent to September 30, 2025, the Company issued 125,000 DSUs to directors of the Company. Each DSU entitles the holder to receive one share of the Company, or in certain circumstances, a cash payment equal to the value of one share of the Company, when the holder ceases to be a director of the Company.

### **Issuance of RSUs**

Subsequent to period end, the Company granted 300,000 RSUs to an officer of the company.

### **Issuance of stock options**

Subsequent to September 30, 2025, the Company granted 1,650,000 share options to officers and employees of the company.

### **Issuance of common shares from the exercise of options**

250,000 common shares from the exercise of options for a value of \$58.

### **Issuance of common shares from the exercise of warrants**

1,881,429 common shares from the exercise of share purchase warrants for a value of \$188.
