Non-GAAP Measures

EverGen uses certain financial measures referred to in this press release to quantify its results that are not prescribed by IFRS. The terms EBITDA, adjusted EBITDA and working capital are not recognized measures under IFRS and may not be comparable to that reported by other companies. EverGen believes that, in addition to measures prepared in accordance with IFRS, the non-IFRS measurement provide useful information to evaluate the Company’s performance and ability to generate cash, profitability and meet financial commitments. These non-IFRS measures are intended to provide additional information and should not be considered in isolation or as a substitute for other measures of performance prepared in accordance with IFRS. EBITDA is defined as net income (loss) before interest, tax and depreciation and amortization. Adjusted EBITDA is EBITDA adjusted for share-based payment expenses, unusual or non-recurring items, contingent consideration gains and losses and non-controlling interests in adjusted EBITDA. Working capital is calculated as current assets less current liabilities.
