TIDEWATER MIDSTREAM AND INFRASTRUCTURE LTD.

General

Tidewater's business objective is to build a diversified midstream and infrastructure company in the North American natural gas, natural gas liquids, crude oil, refined product, and renewable energy value chain. Its strategy is to profitably grow and create shareholder value through the acquisition and development of conventional and renewable energy infrastructure. To achieve its business objective, Tidewater is focused on providing customers with a full service, vertically integrated value chain through the acquisition and development of energy infrastructure, including downstream facilities, natural gas processing facilities, natural gas liquids infrastructure, pipelines, railcars, export terminals, storage, and various renewable initiatives. To complement its infrastructure asset base, the Corporation also markets crude, refined product, natural gas, NGLs and renewable products and services to customers across North America.

The Corporation has an expanding value chain supported by long term contracts and is primarily focused on natural gas, NGL and crude oil midstream infrastructure and light oil refining within the liquids-rich Western Canadian Sedimentary Basin including the Montney, Edmonton and Deep Basin core areas as well as Prince George, British Columbia. Through its network of vertically integrated assets, Tidewater is able to offer Canadian producers increased value for: (i) light crude oil by utilizing the PGR and crude oil value chain; and (ii) NGLs by utilizing its railcar assets to bring producer volumes to end markets. Tidewater is actively pursuing end-market development opportunities for Canadian crude oil, Natural Gas and NGLs in an effort to access better pricing for producers' products. The Corporation has assets strategically located near Prince George, British Columbia, around Edmonton and throughout the Deep Basin, which include significant light oil refining, gas processing, NGL handling and extraction and pipeline infrastructure. These strategic assets provide Tidewater with the opportunity to develop its own crude oil, natural gas and NGL network, which offers significant takeaway/egress options to producers.

Through Tidewater Renewables—the Corporation's recently formed renewable energy platform—Tidewater is also focused on the production of low carbon fuels, including renewable diesel, renewable hydrogen and renewable natural gas, as well as carbon capture through future initiatives. The Tidewater Renewables IPO and the Acquisition were structured to capture the valuation gap that exists between midstream and energy transition assets—resulting in a go-forward vehicle equipped to optimally fund a deep roster of impactful growth projects utilizing the best available cost of capital.

The net proceeds to be derived from the sale of Securities will be the offering price less any commission paid in connection therewith and the expenses relating to the particular offering of Securities. Unless otherwise indicated in a Prospectus Supplement relating to a particular offering of Securities, the Corporation intends to use the net proceeds from the sale of Securities for general corporate purposes, to complete asset and corporate acquisitions, to, directly or indirectly, finance future growth opportunities and to repay indebtedness. The amount of net proceeds to be used for any such purposes will be set forth in a Prospectus Supplement. The Corporation may invest funds which it does not immediately use. Such investments may include short-term marketable investment grade securities. The Corporation may, from time to time, issue securities (including debt securities) other than pursuant to this Prospectus.

EARNINGS COVERAGE RATIO

The following earnings coverage ratios are calculated on a consolidated basis for the twelve-month periods ended December 31, 2021 and June 30, 2022 and are calculated from amounts derived from the Annual

The earnings coverage ratios are equal to net income attributable to shareholders of the Corporation plus interest expense and income taxes divided by interest expense plus capitalized interest. The earnings coverage ratio calculations do not give effect to the distribution of any Securities pursuant to this Prospectus since the aggregate initial offering amount of Securities that will be distributed hereunder and the terms of distribution are not presently known.

The interest expense requirements of Tidewater for the twelve-month periods ended December 31, 2021 and June 30, 2022 were \$52.97 million and \$44.84 million, respectively. The earnings of the Corporation before interest and income tax expense for the twelve-month periods ended December 31, 2021 and June 30, 2022 were \$144.82 million and \$125.74 million, respectively, representing earnings coverage ratios of 2.7 times and 2.8 times, respectively.

PLAN OF DISTRIBUTION

The Corporation may offer and sell Securities to or through underwriters or dealers and also may sell Securities directly to one or more purchasers pursuant to applicable statutory exemptions, or through agents. These Securities may be offered and sold in Canada and elsewhere where permitted by law. Securities may be distributed in one or more transactions, separately or together, in amounts, at a fixed price or prices or at non-fixed prices and on such terms and conditions as may be determined from time to time depending on, among other things, the Corporation's financing requirements, market conditions at the time of sale and other factors, including sales in transactions that are deemed to be "at-the-market distributions" as defined in NI 44-102, including sales made directly on the TSX or other existing trading markets for the Securities. If offered on a non-fixed price basis, Securities may be offered at market prices prevailing at the time of sale, at prices determined by reference to the prevailing price of a specified security in a specified market or at prices to be negotiated with purchasers, which prices may vary as between purchasers and during the period of distribution. If Securities are offered on a non-fixed price basis, the underwriters', dealers' or agents', as applicable, compensation will be increased or decreased by the amount by which the aggregate price paid for Securities by the purchasers exceeds or is less than the gross proceeds paid by the underwriters, dealers or agents to the Corporation.

Sales of Securities under an "at-the-market distribution", if any, will be made pursuant to an accompanying Prospectus Supplement. Sales of Securities under any "at-the-market" program will be made in transactions that are "at-the-market distributions" as defined in NI 44-102. The volume and timing of any "at-the-market distributions" will be determined at the Corporation's sole discretion.

The applicable Prospectus Supplement for any of the Securities being offered will set forth the terms of the offering of those Securities, including the name or names of any underwriters, dealers or agents, the purchase price of the Securities, the proceeds to the Corporation from that sale if determinable, any underwriting fees or discounts and other items constituting underwriters' compensation, any public offering price, and any discounts or concessions allowed or re-allowed or paid to dealers or agents. Only underwriters named in the applicable Prospectus Supplement are deemed to be underwriters in connection with the Securities offered by that Prospectus Supplement.

If underwriters purchase Securities as principal, the Securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase those Securities will be subject to certain conditions precedent, and the underwriters will be obligated to purchase all of the Securities offered by the applicable Prospectus Supplement if any of such Securities are purchased. Any public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time. The Securities may also be sold directly by the Corporation at prices and upon terms agreed to by the purchaser and the Corporation or through agents designated by the Corporation from time to time. Any agent involved in the offering and sale of the Securities pursuant to this Prospectus will be named, and any commissions payable by the Corporation to that agent will be set forth in the applicable Prospectus Supplement. Unless otherwise indicated in the applicable Prospectus Supplement, any agent would be acting on a best efforts basis for the period of its appointment.

The Corporation may agree to pay the underwriters a commission for various services relating to the distribution of any Securities offered by this Prospectus. Any such commission will be paid out of the Corporation's general funds. Underwriters, dealers and agents who participate in the distribution of the Securities may be entitled under agreements to be entered into with the Corporation to indemnification against certain liabilities, including liabilities under securities legislation, or to contribution with respect to payments that those underwriters, dealers or agents may be required to make in respect thereof.

Any offering of Preferred Shares, Debt Securities, Subscription Receipts, Warrants, Share Purchase Contracts or Units will be a new issue of securities with no established trading market. Unless otherwise specified in a Prospectus Supplement, the Preferred Shares, Debt Securities, Subscription Receipts, Warrants, Share Purchase Contracts or Units will not be listed on any securities exchange or on any automated dealer quotation system. This may affect the pricing of the Preferred Shares, Debt Securities, Subscription Receipts, Warrants, Share Purchase Contracts and Units in the secondary market, the transparency and availability of trading prices, the liquidity of the Preferred Shares, Debt Securities, Subscription Receipts, Warrants, Share Purchase Contracts and Units and the extent of issuer regulation.

Certain broker-dealers may make a market in the Debt Securities, Subscription Receipts, Warrants, Share Purchase Contracts or Units, but will not be obligated to do so and may discontinue any market making at any time without notice. The Corporation cannot assure purchasers that any broker-dealer will make a market in the Preferred Shares, Debt Securities, Subscription Receipts, Warrants, Share Purchase Contracts or Units of any series or as to the liquidity of the trading market, if any, for such Securities.

In connection with any offering of Securities, other than an "at-the-market distribution" (as defined under applicable Canadian securities legislation), unless otherwise specified in a Prospectus Supplement, any underwriters, dealers or agents, when purchasing as principal, may over-allot or effect transactions intended to fix or stabilize or maintain the market price of the Securities at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be interrupted or discontinued at any time. No underwriter, dealer or agent involved in an "at-the-market distribution" under this Prospectus, no affiliate of such an underwriter, dealer or agent and no person or company acting jointly or in concert with such underwriter, dealer or agent will over-allot Securities in connection with such distribution or effect any other transactions that are intended to stabilize or maintain the market price of the Securities.

Unless otherwise specified in a Prospectus Supplement, the Securities have not and will not be registered under the U.S. Securities Act or any of the securities laws of any state in the United States and, subject to certain exceptions, may not be offered or sold or otherwise transferred or disposed of in the United States or to or for the account of U.S. persons absent registration or pursuant to an applicable exemption from the U.S. Securities Act and applicable U.S. state securities laws. In addition, until 40 days after closing of an offering of Securities, an offer or sale of the Securities within the United States by any dealer (whether or not participating in such offering) may violate the registration requirement of the U.S. Securities Act if such offer or sale is made other than in accordance with Rule 144A or another exemption under the U.S. Securities Act.

DESCRIPTION OF COMMON SHARES

The Preferred Shares of each series will have priority over the Common Shares in payment of dividends and in the distribution of assets or return of capital in the event of liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary, or any other return of capital or distribution of the assets of the Corporation among its shareholders for the purpose of winding up the affairs of the Corporation.

Registration of Debt Securities

Debt Securities in Book Entry Form

Debt Securities of any series may be issued in whole or in part in the form of one or more global securities ("**Global Securities**") registered in the name of a designated clearing agency (a "**Depository**") or its nominee and held by or on behalf of the Depository in accordance with the terms of the applicable Debt Indenture. The specific terms of the depositary arrangement with respect to any portion of a series of Debt Securities to be represented by a Global Security will, to the extent not described herein, be described in the Prospectus Supplement relating to such series.

A Global Security may not be transferred, except as a whole between the Depository and a nominee of the Depository or as between nominees of the Depository, or to a successor Depository or nominee thereof, until it is wholly exchanged for Debt Securities in certificated non-book-entry form in accordance with the terms of the applicable Debt Indenture. So long as the Depository for a Global Security, or its nominee, is the registered owner of such Global Security, such Depository or such nominee, as the case may be, will

be considered the sole owner or holder of the Debt Securities represented by such Global Security for all purposes under the applicable Debt Indenture and payments of principal and interest, if any, on the Debt Securities represented by a Global Security will be made by the Corporation to the Depository or its nominee.

Owners of beneficial interests in a Global Security will not be entitled to have the Debt Securities represented by such Global Security registered in their names, will not receive or be entitled to receive physical delivery of such Debt Securities in certificated non-book-entry form, will not be considered the owners or holders thereof under the applicable Debt Indenture and will be unable to pledge Debt Securities as security.

No Global Security may be exchanged in whole or in part for Debt Securities registered, and no transfer of a Global Security in whole or in part may be registered, in the name of any person other than the Depository for such Global Security or any nominee of such Depository unless:

- (a) there is a requirement to do so under applicable law;
- (b) the book-entry system ceases to exist;
- (c) the Corporation or the Depository advises the Trustee that the Depository is no longer willing or able to properly discharge its responsibilities as depository with respect to the Debt Securities and the Corporation is unable to locate a qualified successor;
- (d) the Corporation decides, at its option, to terminate the book-entry system through the Depository; or
- (e) if provided for in the Debt Indenture, after the occurrence of an event of default thereunder (provided the Trustee has not waived the event of default in accordance with the terms of the Debt Indenture), participants acting on behalf of beneficial holders representing, in aggregate, a threshold percentage of the aggregate principal amount of the Debt Securities then outstanding advise the Depository in writing that the continuation of a book-entry system through the Depository is no longer in their best interest,

whereupon such Global Security shall be exchanged for certificated non-book-entry Debt Securities of the same series in an aggregate principal amount equal to the principal amount of such Global Security and registered in such names and denominations as the Depository may direct.

Principal and interest payments, if any, on the Debt Securities represented by a Global Security registered in the name of a Depository or its nominee will be made to such Depository or its nominee, as the case may be, as the registered owner of such Global Security. Neither the Corporation, the Trustee nor any paying agent for such Debt Securities will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in such Global Security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The Corporation, any underwriters, dealers or agents and any Trustee identified in an accompanying Prospectus Supplement, as applicable, will not have any liability or responsibility for (i) records maintained by the Depository relating to beneficial ownership interests in the Debt Securities held by the Depository or the book-entry accounts maintained by the Depository, (ii) maintaining, supervising or reviewing any records relating to any such beneficial ownership interests, or (iii) any advice or representation made by or with respect to the Depository and contained in this Prospectus or in any Prospectus Supplement or Debt Indenture with respect to the rules and regulations of the Depository or at the direction of Depository participants.

Unless otherwise stated in the applicable Prospectus Supplement, CDS Clearing and Depository Services Inc. or its successor will act as Depository for any Debt Securities represented by a Global Security.

Debt Securities in Certificated Form

Debt Securities of any series may be issued in whole or in part in registered form as provided in the applicable Debt Indenture.

If the Debt Securities are issued in certificated non-book-entry form, principal and interest, if any, will be payable, the transfer of such Debt Securities will be registerable and such Debt Securities will be exchangeable for Debt Securities in other denominations of a like aggregate principal amount at the office or agency maintained by the Corporation. Payment of principal and interest, if any, on Debt Securities in certificated non-book-entry form may be made by cheque mailed to the address of the holders entitled thereto.

Subject to the foregoing limitations, Debt Securities of any authorized form or denomination issued under the applicable Debt Indenture may be transferred or exchanged for Debt Securities of any other authorized form or denomination or denominations. Any such transfer or exchange must be for an equivalent aggregate principal amount of Debt Securities of the same series and carry the same rate of interest and same redemption and other provisions as the Debt Securities so transferred or exchanged. Exchanges of Debt Securities of any series may be made at the offices of the applicable Trustee and at such other places as the Corporation may from time to time designate with the approval of the applicable Trustee and, if applicable, will be specified in the applicable Prospectus Supplement. Unless otherwise specified in the applicable Prospectus Supplement, the applicable Trustee will be the registrar and transfer agent for the Debt Securities issued under the applicable Debt Indenture.

Each Unit will be issued so that the holder of the Unit is also the holder of each Security included in the Unit. Thus, the holder of a Unit will have the rights and obligations of a holder of each included Security. A unit agreement, if any, under which a Unit is issued may provide that the securities included in the Unit may not be held or transferred separately, at any time or at any time before a specified date.

The particular terms and provisions of Units offered by any Prospectus Supplement, and the extent to which the general terms and provisions described below may apply to them, will be described in the Prospectus Supplement filed in respect of such Units. This description will include, where applicable:

- (a) the designation and terms of the Units and of the Securities comprising the Units, including whether and under what circumstances those Securities may be held or transferred separately;
- (b) any provisions for the issuance, payment, settlement, transfer or exchange of the Units or of the Securities comprising the Units;
- (c) whether the Units will be issued in fully registered or global form; and
- (d) any other material terms and conditions of the Units.

The Corporation reserves the right to include in a Prospectus Supplement specific terms pertaining to the Units which are not within the options and parameters set forth in this Prospectus. In addition, to the extent that any particular terms of the Units described in a Prospectus Supplement differ from any of the terms described in this Prospectus, the description of such terms set forth in this Prospectus shall be deemed to have been superseded by the description of such differing terms set forth in such Prospectus Supplement with respect to such Units.

CERTAIN INCOME TAX CONSIDERATIONS

The applicable Prospectus Supplement may describe certain Canadian federal income tax consequences which may be applicable to a purchaser of Securities offered thereunder, and may also include a discussion of certain United States federal income tax consequences to the extent applicable.

RISK FACTORS

Investment in the Securities is subject to various risks including those risks inherent to the industries in which Tidewater operates. Discussions of certain risk factors affecting us in connection with our businesses are provided below as well as in our disclosure documents filed from time to time with the securities commission or similar securities regulatory authority in each of the provinces of Canada which are incorporated by reference or deemed to be incorporated by reference in this Prospectus. In particular, see "Risk Factors" in the Annual Information Form.

Before deciding whether to invest in any Securities, prospective purchasers should consider carefully the risk factors below as well as those risk factors incorporated by reference in this Prospectus (including subsequently filed documents incorporated by reference) and those described, or incorporated by

reference, in a Prospectus Supplement relating to a specific offering of Securities as well as the other information contained in and incorporated by reference in this Prospectus and in the applicable Prospectus Supplement.

Future sales or issuances of debt or equity securities may result in dilution to the Corporation's shareholders

We may sell or issue additional debt or equity securities in offerings to finance our operations, development, acquisitions or other projects. Our significant shareholders may also sell the Common Shares or other securities they hold or may hold in the future.

We cannot predict the size of future sales and issuances of debt or equity securities or the effect, if any, that future sales and issuances of debt or equity securities will have on the market price of the Common Shares.

Sales or issuances of a substantial number of equity securities, or the perception that such sales could occur, may adversely affect prevailing market prices for the Corporation's Common Shares. With any additional sale or issuance of equity securities, investors will suffer dilution of their voting power and may experience dilution in the Corporation's earnings per share. Sales of our Common Shares by shareholders might also make it more difficult for us to sell equity securities at a time and price that we deem appropriate.

Market price of our Common Shares may fluctuate

Our Common Shares are listed and posted for trading on the TSX. An investment in the Corporation's Securities is highly speculative. The market prices for the Securities of companies in the NGL midstream infrastructure, refining of light crude oils and logistics industry have historically been highly volatile. Market price fluctuations in the Common Shares may be due to the Corporation's operating results failing to meet the expectations of securities analysts or investors in any quarter, downward revision in securities analysts' estimates, governmental regulatory action, adverse change in general market conditions or economic trends, acquisitions, dispositions or other material public announcements by the Corporation or its competitors, along with a variety of additional factors, including, without limitation, those set forth under "Cautionary Note Regarding Forward-Looking Statements". In addition, the market price for securities in the stock markets, including the TSX, recently experienced significant price and trading fluctuations. These fluctuations have resulted in volatility in the market prices of securities that often has been unrelated or disproportionate to changes in operating performance. These broad market fluctuations may adversely affect the market prices of the Common Shares.

The use of proceeds may vary from planned use

While detailed information regarding the use of proceeds from the sale of our Securities will be described in the applicable Prospectus Supplement, the Corporation will have broad discretion over the use of the net proceeds from an offering by the Corporation of its Securities. Because of the number and variability of factors that will determine the Corporation's use of such proceeds, the Corporation's ultimate use might vary substantially from its planned use. You may not agree with how the Corporation allocates or spends the proceeds from an offering of its Securities. The Corporation may pursue acquisitions, collaborations or other opportunities that do not result in an increase in the market value of its Securities, including the market value of its Common Shares.

Industry Volatility

Recent market events and conditions, including global excess oil and natural gas supply, actions taken by the Organization of the Petroleum Exporting Countries, the impacts of the COVID-19 pandemic, slowing growth in certain global economies, market volatility, and sovereign debt levels in various countries, have caused significant weakness and volatility in commodity prices. The outbreak of conflict between Russia and Ukraine strongly influenced crude oil prices to their highest levels since 2008. The possibility of a

disruption to Russian crude oil exports has introduced significant risk to global crude oil markets, exacerbating uncertainty around future supply and inventory levels. These geopolitical tensions have recently been countered by rising economic risks and the continuation of a global pandemic, leading to elevated levels of volatility in crude oil prices. The events between Russia and Ukraine have had no immediate effect on North American natural gas balances, but the conflict's impact on competing fuel prices has contributed to a volatile pricing environment.

These events and conditions could cause a significant decrease in the valuation of oil and gas companies and a decrease in confidence in the NGL midstream infrastructure, refining of light crude oils and logistics industry which could have a negative effect on the Corporation's ability to raise additional funds in the future or if it is able to do so, to do so on unfavourable terms.

CONTRACTUAL RIGHTS OF RESCISSION

Original purchasers of convertible, exchangeable or exercisable securities in Canada will have a contractual right of rescission against the Corporation. The contractual right of rescission will entitle such original purchasers to receive the amount paid upon conversion, exchange or exercise of the security, or the amount paid for the convertible, exchangeable or exercisable security if no amount was paid upon conversion, exercise or exchange, upon surrender of the underlying securities gained thereby, in the event that this Prospectus contains a misrepresentation, provided that both the conversion, exchange or exercise occurs, and the right of rescission is exercised, within 180 days of the date of the purchase of the convertible, exchangeable or exercisable security under this Prospectus. This contractual right of rescission will be consistent with the statutory right of rescission described under section 203 of the *Securities Act* (Alberta), and is in addition to any other right or remedy available to original purchasers under section 203 of the *Securities Act* (Alberta) or otherwise at law.

STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in certain of the provinces of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces, securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of

the price or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province.

However, purchasers of Securities distributed under an "at-the-market distribution" do not have the right to withdraw from an agreement to purchase the Securities and do not have remedies of rescission or, in some jurisdictions, revisions of the price, or damages for non-delivery of the prospectus, prospectus supplement, and any amendment relating to Securities purchased by such purchaser because the prospectus, prospectus supplement, and any amendment relating to the Securities purchased by such purchaser will not be sent or delivered, as permitted under Part 9 of NI 44-102. Any remedies under securities legislation that a purchaser of the Securities distributed under an "at-the-market distribution" may have against the Corporation or its agents for rescission or, in some jurisdictions, revisions of the price, or damages if the prospectus, prospectus supplement, and any amendment relating to securities purchased by a purchaser contain a misrepresentation will remain unaffected by the non-delivery of the prospectus referred to above. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of these rights or consult with a legal adviser.

In an offering of convertible, exchangeable or exercisable securities, purchasers are cautioned that the statutory right of action for damages for a misrepresentation contained in the prospectus or any prospectus supplement is limited, in certain provincial securities legislation, to the price at which the convertible, exchangeable or exercisable securities are offered to the public under the prospectus offering. This means that, under the securities legislation of certain provinces, if the purchaser pays additional amounts upon the conversion, exchange or exercise of the security, those amounts may not be recoverable under the statutory right of action for damages that applies in those provinces. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of these rights or consult with a legal adviser.
