What am I voting on?

The holders of the common shares (the “**Common Shares**”) in the capital of TeraGo Inc. (“**TeraGo**” or the “**Company**”) are voting on (i) the fixing of the number of directors of the Company (the “**Board**”) at seven (7); (ii) the election of directors to the Board; (iii) the re-appointment of KPMG LLP as auditors for the Company and authorizing the directors to fix the remuneration of the auditors; (iv) to increase the number of shares reserved for issuance under the Directors’ Share Compensation Program by 300,000 common shares.

Who is entitled to vote?

You are entitled to vote if you were a holder of Common Shares as of the close of business on May 5, 2023 (the “**Record Date**”). Each Common Share entitles its holder to one vote on those items of business identified in the Notice of Annual and Special Meeting of Shareholders.

How do I vote?

If you are a registered holder, you may vote online ahead of the Meeting, virtually at the Meeting or you may sign the enclosed form of proxy appointing the persons named in the proxy or some other person you choose, who need not be a shareholder, to represent you as proxy holder and vote your Common Shares at the virtual Meeting.

There are two ways that you can vote your Common Shares if they are held by your nominee (a bank, trust company, securities broker, trustee or other). As required by Canadian securities legislation, you will have received from your nominee either a request for voting instructions or a form of proxy for the number of Common Shares you hold. Each nominee has its own signing and return instructions, which you should follow carefully to ensure your Common Shares will be voted.

Since the Company has limited access to the names of its non-registered Shareholders, if you plan on attending the virtual Meeting, the Company may have no record of your Common Share holdings or of your entitlement to vote unless your nominee has appointed you as proxy holder. Therefore, if you wish to vote at the Meeting, please insert your own name in the space provided on the request for voting instructions or form of proxy and return same by following the instructions provided. Do not otherwise complete the form as your vote will be taken at the Meeting.

These securityholder materials are being sent to both registered and non-registered owners of the securities. Please return your voting instructions as specified in the request for voting instructions.

The Company also intends to pay for an intermediary to deliver the proxy-related materials and related forms to objecting non-registered Shareholders.

United States Beneficial holders: To attend and vote at the virtual Meeting, you must first obtain a valid legal proxy from your broker, bank or other agent and then register in advance to attend the Meeting. Follow the instructions from your broker or bank included with these proxy materials or contact your broker or bank to request a legal proxy form. You will receive a confirmation of your registration by email after we receive your registration materials. You may attend the Meeting and vote your shares at <https://meetnow.global/MVT2J7H> during the Meeting. Please note that you are required to register your appointment at www.computershare.com/Terago.

Who is soliciting my proxy?

The enclosed form of proxy is being solicited by or on behalf of management of the Company and the associated costs will be borne by the Company. The solicitation will be primarily by mail but may also be made by telephone, in writing or in person by the directors, officers or regular employees of the Company.

What if I sign the form of proxy enclosed with this Management Information Circular?

Signing the enclosed form of proxy gives authority to Kenneth Campbell or Matthew Gerber, each of whom is a director of the Company, or to another person you have appointed, to vote your Common Shares at the Meeting.

Can I appoint someone other than these directors to vote my Common Shares?

Yes. Write the name of this person, who need not be a Shareholder, in the blank space provided in the form of proxy.

It is important to ensure that any other person you appoint is attending the Meeting and is aware that he or she has been appointed to vote your Common Shares. That person or company representative must attend the Meeting to vote your Common Shares by online ballot through the live webcast platform. If you do not insert a name in the blank space, the two director representatives named above are appointed to act as your proxyholder. If you wish to appoint another person or company to be your proxyholder, you must complete the additional step of registering such proxyholder with Computershare at <http://www.computershare.com/Terago> after submitting your form of proxy. Failure to register the proxyholder with Computershare will result in the proxyholder not receiving a control number to participate in the Meeting and such proxyholder would only be able to attend the Meeting as a guest.

What do I do with my completed proxy?

Return it to the Company's transfer agent, Computershare Investor Services Inc., either by entering your votes online using the instructions you received, in the envelope provided via mail, or by facsimile at (416) 263-9524 or 1-866-249-7775, so that it arrives not later than 5:00 p.m. (Toronto time) on Monday, June 12, 2023, at least two business days prior to the date of the Meeting or any adjournment or postponement thereof. This will ensure your vote is recorded.

If I change my mind, can I take back my proxy once I have given it?

Yes. If you change your mind and wish to revoke your proxy, prepare a written statement to this effect. The statement must be signed by you, or your attorney as authorized in writing or, if the shareholder is a corporation, under its corporate seal or by an officer or attorney of the corporation duly authorized. This statement must be delivered to the General Counsel & Corporate Secretary of the Company at the following address no later than 9:00 a.m. (Toronto time) on Tuesday, June 13, 2022:

Copies of the above and other disclosure documents of the Company may also be examined and/or obtained on SEDAR.

2. Number of Directors

The articles of the Company (the "**Articles**") provide that the number of directors shall be a minimum of one and a maximum of ten. The Board is currently composed of seven (7) directors. It is proposed that the number of directors to be elected to the Board at the Meeting be fixed at seven (7).

Unless otherwise instructed, the persons designated in the form of proxy intend to **VOTE FOR** the fixing of the number of directors of the Company at seven (7).

3. Election of the Board of Directors

Pursuant to a subscription agreement dated April 14, 2021, between the Company and Cymbria Corporation, acting at the direction of its portfolio manager, EdgePoint Investment Group Inc. ("**Cymbria**"), the Company granted certain nomination rights to Cymbria (the "**Nomination Right**") whereby it will have the right to specify an individual to be nominated to the Board so long as Cymbria owns more than 10% of the outstanding Common Shares. All nominees have established their eligibility and willingness to serve as directors. Nominees elected as directors will hold office until the close of the next annual meeting of shareholders or until their successors are elected or appointed.

The Company has adopted a majority voting policy pursuant to which, notwithstanding the Company's by-laws and the *Canada Business Corporations Act*, if any director nominee receives a greater number of votes "withheld" from his or her election than votes "for" such election, then, provided the election is uncontested in accordance with the policy, such director nominee must following the receipt of the final scrutineer's report relating to such meeting, immediately submit to the Board his or her offer of resignation, which will take effect only upon the acceptance of such resignation by the Board. The Board, will, within 90 days following such meeting of shareholders, determine either to accept or not accept the subject director's offer to resign, and the Board will cause the Company to promptly disclose publicly, via press release, the Board's determination, including, in cases where the Board has determined not to accept the resignation, the reasons therefor. It is generally expected that the Board will accept such resignation, absent exceptional circumstances.

The following sets forth the names of proposed nominees for election as directors, together with their respective province/state and country of residence, the year they became a director, their respective principal occupations or employment, their respective memberships with the Board committees, and the number of Common Shares beneficially owned, directly or indirectly, or over which control or direction is exercised by each of them as of the date of this Management Information Circular.

5. Increasing the number of shares reserved for issuance under the Directors’ Share Compensation Program:

In accordance with the Corporation’s directors’ share compensation program (the “**Directors’ Share Compensation Program**”), non-management directors receive annual and committee retainers in the form of Common Shares, as part of the overall compensation paid to directors. See “Board of Directors’ Compensation” below for additional information.

The Directors’ Share Compensation Program is intended to: (i) promote the achievement of the Corporation’s long-term objectives by linking part of the compensation of non-management directors to the interests of the Corporation’s shareholders, and (ii) attract and retain directors of outstanding competence.

The total number of Common Shares currently reserved for issuance under the Directors’ Share Compensation Program is 800,000. To date, an aggregate of 751,333 Common Shares have been issued under the Directors’ Share Compensation Program, representing approximately 3.8% of the issued and outstanding Common Shares as at the

Record Date. Accordingly, 48,667 Common Shares remain available for issuance pursuant to the Directors' Share Compensation Program.

In order to enable the Corporation to continue its practice of paying directors' retainer fees in Common Shares and thereby to maintain an alignment of interests between directors and shareholders, the Board believes that it is important to increase the number of Common Shares reserved for issuance under the Directors' Share Compensation Program. Therefore, the Board has, subject to receipt of requisite shareholder approval and passed a resolution to approve the updated Directors' Share Compensation Program and reserve and set aside for issuance under the Directors' Share Compensation Program an additional 300,000 Common Shares.

Under the Directors' Share Compensation Program, the Board may, without TSX and shareholder approval, amend the amount of compensation payable to directors under the Directors' Share Compensation Program. Other amendments to the Directors' Share Compensation Program will be subject to receipt of shareholder approval and the approval of the Toronto Stock Exchange ("TSX"), to the extent required. The rights and benefits under the Directors' Share Compensation Program are neither assignable nor transferrable.

If approved, the total number of Common Shares reserved for issuance under the Directors' Share Compensation Program will be 1,100,000 Common Shares, representing approximately 5.6% of the outstanding Common Shares as at the Record Date.

Unless otherwise instructed, the persons designated in the form of proxy intend to **VOTE FOR** the Directors' Share Compensation Program Resolution.

6. Receive information on the diversity of the Company's directors and senior management team;

The Company recently surveyed the Board and senior management to determine the number and proportion of individuals that self-identified as belonging to one or more of the designated groups. Participation in the survey was voluntary and, as such, the results represent only those individuals who elected to participate and may not be entirely representative of the designated groups at the Board or senior management level.

Currently, the Board is comprised of one female director (14%) and six male directors (86%). No directors have identified as either visible minorities (0%), indigenous persons (0%) or a person with disabilities (0%). One director preferred not to disclose any information as part of the self-identification survey.

The Company's Senior Leadership Team, which is comprised of senior director level positions and higher, includes: 2 females, representing 29% of the Senior Leadership Team. 1 individual in this group has identified as visible minority representing 14% of Senior Leadership Team, and none who have identified as indigenous persons (0%) or a person with disabilities (0%).

There is currently a deep pool of talent who are within the designated groups holding high potential and mid-level managerial positions at the Company whom the Company looks to support and to provide opportunities for growth.

2. Compensation Discussion and Analysis

Compensation Philosophy

The Company is a dynamic organization which has recently made strategic acquisitions and has transitioned the Company into a multi-product IT services company focused on securely managing its customers' data flow. It currently provides businesses across Canada with network connectivity, cloud and colocation services. The level of talent required to drive the business and to carry out its strategy while competing with large, well-established organizations and brands can be challenging to develop and/or recruit. The Compensation Committee of the Board (the "**Compensation Committee**") and the Board view the recruitment and retention of top industry talent as a key corporate priority in the seamless operation and performance of the Company. In order to accomplish its goals and to ensure that the compensation program is consistent with its direction, strategy, stated mission and goals, the Company is committed to a "pay for performance" culture. The Compensation Committee, the Board and management place significant emphasis on the impact of its executive compensation and total rewards program.

The executive compensation and total rewards program is intended to:

- provide competitive compensation vehicles that are consistent with the Company's business plan, strategy, financial objectives and operating performance;
- attract highly qualified individuals necessary to expand the business;
- retain and motivate executives to achieve higher levels of performance and be appropriately rewarded for that effort;
- emphasize a "pay-for-performance" variable incentive structure that rewards individual, team and corporate performance, while supporting company goals, with a view toward increasing Shareholder value; and
- align the interests of shareholders and executives.

The Company is committed to growing, developing and enriching the careers of the top talent within the Company. In addition, it is widely recognized that the success of the organization internally and in the marketplace is driven by the success and leadership of the executive team. As such, there is considerable time, energy and focus committed to the talent and succession review and planning process. While each executive is assessed on their own personal contributions, the accomplishments of the executive group as a team is viewed with great importance as it drives the business, culture and shareholder value.

The Compensation Committee's decisions about executive compensation policies and practices are made within the context of the Company's goals and strategies. To this end, the Compensation Committee's mandate is to oversee management in the attraction and retention of talented and highly motivated people that will excel in a fast-paced and challenging environment.

Compensation Committee

The Compensation Committee provides oversight of overall compensation philosophy, policies, practices and programs. The Compensation Committee works closely with management as well as external compensation consulting firms from time to time to ensure they are knowledgeable regarding the most current market data and trends. The Compensation Committee makes recommendations to the Board concerning the level, nature and mix of compensation payable to the executive officers of the Company. This review includes the Chief Executive Officer and the other NEOs. The Compensation Committee also makes recommendations to the Board concerning annual incentive levels, executive perquisites, short-term incentives and long-term incentives, as well as compensation for the directors.

The Committee currently consists of Laurel Buckner (Chair) and Richard Brekka, each of whom is "independent" within the meaning of the corporate governance disclosure rules adopted by the Canadian Securities Administrators. The Board as a whole reviews the recommendations of the Compensation Committee and gives final approval on compensation matters for the Company's executive officers, as well as on major policy changes related to remuneration.

The Board is of the view that the members of the Committee collectively have the relevant skills and experience necessary to enable the Committee to make decisions as to the suitability of the Company's compensation policies and practices. All committee members have a thorough understanding of policies, principles, and governance related to human resources and executive compensation, and the necessary financial acumen to apply to the evaluation of executive compensation programs. They have acquired this knowledge through direct experience in existing and prior roles that is relevant to their responsibilities in executive compensation. This ensures a strong overlap and broader perspective related to the organization's financial results, risk profile, and compensation outcomes. For more information on the occupations, skills, experience, and independence of each Committee member, please refer to each director's biographical information contained in this Management Information Circular.

Compensation Consultant and Advisor

The Compensation Committee has the authority to retain consulting firms from time to time to assist in carrying out the Compensation Committee's responsibilities, including determining the compensation of the President and Chief Executive Officer and other executive officers. In 2020, the Compensation Committee engaged the services of external compensation consultants, Mercer (Canada) Limited, to assist the Compensation Committee in its review of executive compensation design and market trends. The following were fees paid to Mercer (Canada) Limited in 2022 and 2021:

Consultant/Advisor	Executive Compensation-Related Fees		All Other Fees	
	2022	2021	2022	2021
Mercer (Canada) Limited	\$Nil	\$400	\$Nil	\$Nil

Input from Management

The Compensation Committee also meets with the Chief Executive Officer and other members of management and will consider management recommendations regarding:

- Executive compensation, including base salary, target bonus, long-term incentives and perquisites;
- Short-term incentive design and metrics;
- Long-term incentive performance metrics; and
- Review of corporate and individual performance achievement.

Benchmarking

The Company operates in a highly competitive industry. It is critical that the organization is in a position to both attract and retain key talent from a variety of organizations and industries. As such, benchmarking data from time to time of a comparable group of companies, made up of competitors of all sizes as well as other Canadian companies of similar size is valuable to the success of the executive and director compensation and total rewards program.

Periodically, the Company undertakes a competitive market benchmarking for executive and director positions. Due to the fact that the Company operates within a diverse and dynamic industry, current market data and trends, as well as position specific information, are imperative reference points for the Compensation Committee. These periodic reviews highlight areas of opportunity and risk regarding executive and director compensation and executive and director talent. The Compensation Committee is confident in its approach and recommendations designed to drive the attraction, retention and motivation of successful executives and directors with a focus on performance.

In 2017, with the assistance of Mercer (Canada) Limited, the Compensation Committee conducted a benchmarking exercise to facilitate determination of overall compensation for its executive officers. As advised, the benchmark group included similar technology and IT service companies in Canada with comparable market capitalization and financials. This benchmark group is relevant as the Compensation Committee believes the companies that make up this group serve as the Company's main competitors for talent.

The Compensation Committee is committed to having all relevant data available to shape practices regarding executive base salaries, short-term and long-term incentives. The Compensation Committee seeks to find a balance between pay for performance, retention and alignment with objectives of the Company's shareholders.

Risk Assessment and Oversight

The Company has conducted an assessment of its compensation programs, policies and practices for its executives relative to risk and whether they create a reasonable likelihood of a material adverse effect on the Company. Based on this assessment, which also considered the control environment and approval processes in place, the Compensation Committee has not identified any risks arising from the Company's compensation policies and practices that would be likely or would reasonably cause a material adverse effect on the Company. The Compensation Committee believes that the Company's executive compensation program encourages the taking of risks that are reasonable, appropriate and properly managed, while not encouraging management to take unreasonable risks relating to the Company's business. Executives are not rewarded for taking excessive or inappropriate risks or those which would have a material adverse effect on the Company for the following reasons: (i) the total compensation package consists of both base (fixed) and variable compensation; (ii) the performance metrics for variable compensation include key strategic objectives for the Company, including revenue, net monthly recurring revenue, end of year cash position and Adjusted EBITDA; (iii) the restricted share units and performance-based restricted share units are subject to three-year vesting periods, reducing incentives on the part of executives to any imprudent short-term risks; and (iv) the Company has strict internal financial controls.

3. Components of Executive Compensation

The mix of the Company's executive compensation and total rewards structure include:

- base salary;
- performance-based annual incentive;
- long-term incentive plans; and
- executive benefits and perquisites.

In determining the appropriate mix of pay for each NEO, the Compensation Committee considers the most recent benchmarking data available, as well as the experience, skills, qualifications, ability, future potential, retention risk and overall performance of each individual. The Compensation Committee's due diligence in determining the pay mix includes thorough analysis of various scenarios and the impact on each pay lever.

Base Salary

Annual base salaries for the NEOs are established at levels which are designed to be competitive within the Canadian marketplace. Base salaries are determined following an internal assessment and external review. Internally, the executive officer's individual performance, experience, scope and responsibility, as well as impact of position with the Company is assessed. Externally, a market benchmarking review is undertaken periodically, which considers comparable companies.

On an annual basis, the Compensation Committee reviews and makes recommendations to the Board concerning the base salaries payable to the NEOs.

Annual Incentives

Annual incentives provide the executive with the opportunity to earn cash incentives based on the achievement of pre-established performance goals approved annually by the Board. The allocation of annual incentives to the executive officers is determined annually by the Board based on recommendations from the Compensation Committee.

The following table outlines the minimum, target and maximum annual incentive for each NEO in 2022, as a percentage of the executive’s base salary:

NEO Name	Minimum Annual Incentive (% of salary)	Target Annual Incentive (% of salary)	Maximum Annual Incentive (% of salary)
MATTHEW GERBER ⁽¹⁾ <i>President & Chief Executive Officer</i>	0%	40%	49.1%
PHILIP JONES ⁽²⁾ <i>Chief Financial Officer</i>	0%	40%	49.1%
OSMAN MOHAMEDNUR..... <i>Vice President Engineering & Operations</i>	0%	40%	49.1%
JIM ABRAMS <i>Interim Vice President Sales and Marketing</i>	0%	0% ⁽³⁾	n/a ⁽³⁾
ANDY RAMSEY ⁽⁴⁾ <i>Former Vice President, Finance & Interim Chief Financial Officer</i>	0%	40%	49.1%
BLAKE WETZEL ⁽⁵⁾ <i>Former Chief Revenue Officer & Chief Operating Officer</i>	0%	52.5%	n/a ⁽⁶⁾

- (1) Effective June 12, 2023, Mr. Gerber shall cease to be Chief Executive Officer of the Company.
- (2) Mr. Jones joined the Company April 1, 2022 and was appointed Chief Financial Officer on May 24, 2022.
- (3) Mr. Abrams’ variable compensation was based only on achievement of sales-related targets of the Company and is not subject to a maximum.
- (4) Mr. Ramsey resigned his position with the Company on May 25, 2022.
- (5) Mr. Wetzel resigned his position with the Company on March 16, 2023.
- (6) A portion of Mr. Wetzel’s annual incentive was based on the achievement against sales-related targets of the Company and was not subject to a maximum.

The annual incentive plan includes corporate performance metrics against which all executives are measured. In addition, and in alignment with the “pay for performance” culture, each NEO has measurable and individual performance goals, specific to their functional area of responsibility. In accordance with the terms of the Company’s 2022 Annual Incentive Program for NEOs, if a corporate performance measure is achieved, 100% of the target award value for that measure is paid to the executive. A stretch payment for achievement above a particular metric may also be payable for certain metrics.

Each year, the Board determines the performance measures to be used for awarding annual cash incentives and the various weightings to be applied to those criteria. Corporate performance measures and weightings for the 2022 Annual Incentive Program for NEOs consisted of:

Metric	Target	Weight
Revenue	\$25,752,000	40%
Adjusted EBITDA	\$4,229,000	25%
Net Monthly Recurring Revenue (MRR)	\$132,000	25%
End of Year Cash Balance	\$4,962,000	10%

The following conditions apply to payouts under the 2022 Annual Incentive Program:

- Each corporate target is independent of each other;
- Certain individual objective achievement can stretch up to 135%; and
- Overall corporate objective achievement can stretch up to a maximum of 122.75%.

The Compensation Committee reviews the actual financial and operational results against the previously approved annual targets to determine the recommended annual incentive payments. In 2022, the corporate performance achievement for eligible NEOs was 65% of target. Certain of the performance metrics and targets are based on non-IFRS financial measures such as “Adjusted EBITDA” and “Net MRR” which do not have a standard meaning and may not be a reliable way of comparison as against other companies. The Company calculates certain of these performance metrics and targets either from financial figures disclosed in its 2022 Financial Statements and MD&A or through internally tracked financial figures. Non-IFRS financial measures such as “Adjusted EBITDA” are identified in the MD&A and are reconciled back to IFRS financial figures.

Long Term Incentive Plans

The Compensation Committee believes that long term incentive awards should comprise a large portion of the total compensation package for executive officers, which is consistent with market practice and the corporate executive compensation and total reward philosophy. Ultimately, the goal of this component of the compensation mix is to:

- **Attract and retain high performing executives** - Long-term incentives should be competitive, have upside potential and be regarded by participants as being fair and appropriate.
- **Alignment with Shareholders** - Long-term incentives need to reward value creation that will benefit shareholders.
- **Focus and Motivate** - Long-term incentives should reward for performance with a focus on continuous improvement. The program should drive and increase executive engagement.

The Company utilizes both its Share Option Plan and its RSU Plan as long-term incentive vehicles for executive officers. The Compensation Committee makes option, RSU and PSU grant recommendations to the Board based on the above noted goals. Such grants are expected to be made in the future on a periodic basis, at the discretion of the Compensation Committee and based on performance in connection with the review of an executive officer’s compensation package. Grants under these long-term incentive plans may also be made upon hire or promotion and as special recognition for extraordinary performance.

Share Option Plan

Share Option Plan - The Company has adopted the Share Option Plan, pursuant to which the Board may in its discretion grant stock options from time to time to employees, directors and officers of the Company.

See “Business of the Meeting - Approval to Amend Share Option Plan and Reservation of Additional Common Shares Issuance Under the Plan” for a detailed description of the Share Option Plan.

RSU Plan

The RSU Plan was established to retain and motivate employees and officers of the Company and to promote a greater alignment of interests between these individuals and the shareholders of the Company. As part of the Company’s long-term incentive program, the RSU Plan gives the Company flexibility in delivering a mix of executive compensation and total rewards. See “Components of Executive Compensation” for additional information.

Both restricted share units (“**RSUs**”) and performance share units (“**PSUs**”) (each referred to as a “**Unit**”) may be granted under the RSU Plan. The fair value attributable to each Unit on the grant date is the closing price of each Common Share on date of grant as quoted on the TSX. RSUs generally vest based on time and a holder of RSUs will generally not be entitled to receive Common Shares and/or a cash payment until the holder has held the corresponding RSUs for a specified period of time. PSUs on the other hand generally vest based on both time and achievement of certain performance metrics over a performance period as determined by the Board. The achievement against such

metrics will affect the aggregate number of Units that ultimately vest for the holder and would be a fraction of the original number of Units granted for any underachievement, or a multiple of the original number of Units granted for an overachievement.

RSUs and PSUs generally have a maximum vesting period of three years and, unless stipulated otherwise under agreement with the holder or employee, will vest if there has been continuous employment by an employee until the vesting date. RSUs and PSUs are granted to eligible employees and officers based on individual performance, potential and market competitiveness.

Vested RSUs and PSUs entitled participants to receive upon settlement, at the discretion of the Company: (i) cash equal to the market value of the equivalent number of Common Shares, (ii) Common Shares delivered to the holder through the purchase of such Common Shares on the open market, (iii) Common Shares delivered to the holder through the issuance of Common Shares from treasury, or (iv) a combination of any of the foregoing. "Market value" on a particular date is defined in the RSU Plan as the arithmetic average of the closing price of the Common Shares traded on the TSX for the five trading days on which a board lot was traded immediately preceding such date.

There is an acceleration of vesting of RSUs and PSUs in the event of a change of control transaction involving the Company.

At the Company's annual and special meeting of shareholders held on June 20, 2019, shareholders approved a resolution to amend the RSU Plan to reserve and set aside for issuance under the plan, an aggregate of 300,000 Common Shares to allow for the treasury issuance of Common Shares to settle vested RSUs and PSUs (the "**RSU Plan Reserve**").

There is no maximum as to the number of Units issuable to a participant of the Plan within any one-year period nor a maximum issuable to a participant at any time. In 2022, the Board did not approve a grant for any RSU's or PSU's. Any compensation under the Long Term Incentive Plan was fulfilled with the issue of stock options. As of the Record Date, an aggregate of 42,198 RSUs and 16,956 PSUs have been granted and are outstanding, representing approximately 0.30% of the issued and outstanding Common Shares. 240,846 Common Shares remain in the RSU Plan Reserve.

Under the RSU Plan, the Board may, without shareholder approval:

- (a) make non-material and/or minor amendments to the terms of the Plan that are of a "housekeeping nature";
- (b) make amendments to the terms of any RSU or PSU granted under the Plan, including with respect to the vesting terms and vesting period, performance metrics (if any) associated with such Units, and the effect of termination of a participant's employment with the Company;
- (c) accelerate vesting of any Units; or
- (d) suspend the Plan in whole or in part and may at any time terminate the Plan.

Other amendments to the RSU Plan will be subject to receipt of shareholder approval, including in the case of: (i) any amendment to the RSU Plan's amendment provision itself; (ii) any increase in the maximum number of Shares in the RSU Plan Reserve; or (iii) any matters or amendments that may require shareholder approval under applicable law or TSX rules.

The rights and benefits under the RSU Plan are neither assignable nor transferrable.

Benefits and Perquisites

The Company offers group life, health and dental insurance, disability insurance, vacation and other benefits to the NEOs and other executives. These benefits are competitive while containing costs. Additionally, the organization currently provides a limited number of perquisites in the form of car allowance and club memberships to certain NEOs.

In 2022, the directors of the Company were compensated on the following basis, in accordance with the Company's directors' share compensation program (the "**Directors' Share Compensation Program**"). The Directors' Share Compensation Program is used for the payment to non-management directors for annual and committee retainers in the form of Common Shares, as part of the overall compensation paid to directors. The Directors' Share Compensation Program is intended to (i) promote the achievement of the Company's long-term objectives by linking part of the compensation of non-management directors to interests of the Company's shareholders, and (ii) attract and retain directors of outstanding competence.

VI. COMMON SHARE PERFORMANCE GRAPH

Since June 26, 2007, the Common Shares have been listed and posted for trading on the TSX under the symbol “TGO”. The following graph compares the cumulative total shareholder return for \$100 invested in the Common Shares with the total cumulative total return for \$100 invested in each of the S&P/TSX Composite Index and S&P/TSX Small Cap Index for the five-year period from December 31, 2017 to December 31, 2022. The Common Shares are not included in either of the S&P/TSX Composite Index or S&P/TSX Small Cap Index.

The Compensation Committee believes that the performance of the Company in general as compared to the comparative indices used is reflective in total NEO compensation over such period.

VII. TERMINATION AND CHANGE OF CONTROL BENEFITS

1. Employment Agreements

Each NEO has entered into an employment agreement with either TeraGo Networks Inc. or TeraGo Networks (U.S.) Inc. (collectively, “TNI”), each of which is a wholly owned subsidiary of the Company. These agreements are subject to review and change as determined and approved by the Board and the NEO, as applicable, from time to time.

If TNI terminates the employment of any NEO, other than for cause, such NEO shall be entitled to a severance payment from TNI in an amount equal to the aggregate of:

- In the case of Mr. Gerber, the base salary that would otherwise have been paid to such officer had his employment continued for a period of 18 months following the termination date, plus 1.5 times his Average

Annual Bonus.

- In the case of Mr. Jones, Mr. Wetzel, Mr. Abrams and Mr. Mohamednur, the base salary that would otherwise have been paid to the officer had his employment continued for a period of 12 months following the termination date, plus 100% of Average Annual Bonus.

“Average Annual Bonus” is defined in each NEO employment agreement as the average bonus payments received by the NEO for the three completed years (or such lesser completed fiscal years, as applicable) prior to his/her termination.

Each NEO has also entered into a non-solicitation and confidentiality agreement with TNI which provides for, among other things, non-solicitation and non-compete covenants in favour of TNI. These covenants will apply during the term of employment and for a specified period following the termination of their employment by TNI for any reason.

2. Stock Options

Under the terms of the Company’s Share Option Plan, in the event of a proposed change of control transaction, the vesting of all outstanding options will accelerate immediately prior to the completion of any such transaction.

3. RSUs and PSUs

Under the terms of the RSU Plan, in the event of a proposed change of control transaction, the vesting of all outstanding RSUs or PSUs will accelerate immediately prior to the completion of any such transaction.

4. Potential Payments Upon Termination or Change of Control Accompanied with Termination

The following table shows potential payments to each NEO currently employed with the Company, as if the officer’s employment had been terminated or a change in control accompanied with a termination had occurred as of December 31, 2022. If applicable, amounts in the table were calculated using \$2.90, the closing price of the Common Shares on the TSX on December 31, 2022. The actual amounts that would be paid to any NEO can only be determined at the time of an actual termination of employment and would vary from those listed below. The estimated amounts listed below are in addition to any other benefits that are available to our salaried employees generally.

(1) Mr. Wetzel resigned his position with the Company on March 16, 2023.

A change of control management carve-out plan was also established during the 2022 fiscal year. Subject to their employment with the Company at the time of change of control transaction, certain members of the senior leadership team (Matthew Gerber, Philip Jones, Osman Mohamednur and Blake Wetzel) will share 10% of the change in equity

value should a change of control transaction occur at a share price at or greater than \$8.00 per common share. Equity value is calculated based on TERAGO's Inc.'s common share price multiplied by the number of outstanding shares. The change in equity value is calculated as the equity value per the change of control transaction less the Equity value based upon the \$8.00 common share price. Any other change of control benefits would be offset against the carve-out amount.

The goal of the director orientation process is to ensure that new directors fully understand the nature and operation of the business of the Company, the role of the Board and its Committees, and the contribution that individual directors are expected to make. New directors are provided with materials containing details of the Company's organizational structure, the structure of the Board and its Committees, relevant position descriptions, compliance requirements for directors, corporate policies and by-laws. One-on-one meetings are often arranged with the executive officers of the Company to enable the new directors to learn about the various functions and activities of the Company.

Directors are expected to attend all Board and Committee meetings. Directors are also expected to prepare thoroughly in advance of each meeting in order to actively participate in the deliberations and decisions. On an ongoing basis, as part of regular Board meetings, directors receive presentations on various aspects of the Company's operations.

5. Ethical Business Conduct

The Board has adopted the TeraGo Inc. Code of Business Conduct and Ethics (the "**Code**"), which provides a framework for directors, officers and employees on the conduct and ethical decision-making integral to their work. The Board, through its Corporate Governance Committee, reviews the operation of, and monitors compliance with, the Code. On an annual basis, the Code will be reviewed by the Company's Legal and Human Resources departments to ensure that it complies with applicable legal requirements and is in alignment with general best practices. In the event that amendments are needed, recommendations are made to the Corporate Governance Committee and the Board for approval. The Code has been filed with the Canadian securities regulatory authorities at www.sedar.com and is available on the Company's website at www.terago.ca. A waiver of the Code will be granted only in exceptional circumstances and shall be granted by the Board only. To date, no such waivers have been granted.

The Board has also adopted the TeraGo Inc. Whistleblower Policy (the "**Whistleblower Policy**") which allow officers and employees who believe that a violation of the Code or applicable laws has occurred to report this violation on a confidential and anonymous basis. The procedures allow concerns regarding accounting, internal accounting controls or auditing matters to be reported on a confidential and anonymous basis. Complaints can be made to the head of either the Legal Department or Human Resources Department, or the Chair of the Audit Committee.

Directors, officers and employees are asked to acknowledge, on an annual basis, that they have read and understand the Code and Whistleblower Policy (amongst other policies) and certify that they are in compliance with the principles set forth in the Code.

The Board believes that providing a forum for officers and employees to raise concerns about ethical conduct and treating all complaints with the appropriate level of seriousness foster a culture of ethical conduct within the Company.

Where the personal or business relationships or interests of directors may conflict with those of the Company, directors are required to disclose in writing the nature and extent of the conflict of interest. In the event of a conflict of interest, the director will leave the relevant portion of a meeting and the director will not vote or participate in the decision.

6. Nomination of Directors

The Board derives its strength from the background, diversity, qualities, skills and experience of its members. Directors are elected by the shareholders at each annual meeting of shareholders to serve for a term expiring on the date of the next annual meeting.

The Corporate Governance Committee is responsible for identifying and recommending to the Board suitable director candidates. As part of the process, the Corporate Governance Committee considers the competencies and skills that the Board, as a whole, should possess, assesses the skill sets of current Board members and identifies any additional skill sets deemed to be beneficial when considering Board candidates in light of the opportunities and risks facing the Company. The Corporate Governance Committee may engage outside advisors to assist in identifying qualified candidates. Potential candidates are screened to ensure that they have the attributes of integrity and accountability; ability to engage in informed judgment; financial literacy; excellent communication skills; and the ability to work effectively as a team. These skills and attributes are necessary in order to execute their duties and responsibilities. The Corporate Governance Committee also considers the positions held with other organizations and the other business and personal commitments of prospective director candidates to determine whether they would be able to fulfill their duties as Board members.

Pursuant to a subscription agreement dated April 14, 2021, between the Company and Cymbria Corporation, acting at the direction of its portfolio manager, EdgePoint Investment Group Inc. (“**Cymbria**”), the Company granted certain nomination rights to Cymbria (the “**Nomination Right**”) whereby it will have the right to specify an individual to be nominated to the Board so long as Cymbria owns more than 10% of the outstanding Common Shares. Cymbria currently has ownership of, or control or direction over 3,618,300 Common Shares, representing approximately 18.30% of the outstanding Common Shares as of the Record Date. Cymbria has designated Mr. Pinnes as its “Board Designee” pursuant to such Nomination Right and the Company has nominated Mr. Pinnes to stand as a nominee for election at the upcoming Meeting.

More information regarding the composition of the Corporate Governance Committee, as well as a summary of its responsibilities, powers and operation, is set out below under the heading “Board Committees - Corporate Governance Committee”.

7. Tenure of Directors

It is proposed that each of the persons nominated and elected as a director at the Meeting will serve until the close of the next annual meeting of the Company or until his or her successor is elected or appointed. On February 24, 2015, the Board adopted a term limit of eight (8) years of service (the “**Director Term Limit**”) for directors of the Company (except the CEO). The Director Term Limit is effective on February 24, 2015, on a go forward basis and any service of a director to the Company prior to such date will not be counted towards the Director Term Limit. For clarity, a director that has reached the Director Term Limit may serve on the Board until the next annual general meeting of the shareholders. The Board believes that the Director Term Limit will balance the need and value of experience and continuity amongst board members and the imposition of new perspectives and expertise from new directors being appointed or elected at the end of a director’s term. The Mandate of the Corporate Governance Committee specifically sets out as a duty for the Corporate Governance Committee to consider the term served by existing directors when planning for the composition of the Board and to ensure that there is a range in the tenure of the directors.

The Board also conducts self-assessments (See “Assessments” below) to evaluate the effectiveness of the Board and each Board Committee. The Board relies on such assessments as one determination on whether the Board is in need of additional or new directors.

As of December 31, 2022, two out of the current seven directors (or 29%) of the current Board, has served on the Board for three (3) years or less, one of whom (or 14%) of the current Board, has served on the Board for less than one (1) year.

8. Diversity

The Mandate of the Corporate Governance Committee encourages and values diversity in the composition of the Board and requires periodic review of the composition of the Board as a whole to recommend, if necessary, measures to be taken so that the Board reflects the appropriate balance of qualifications, experience, and skills required for the Board as a whole. The Mandate of the Corporate Governance Committee sets out as a duty for the Corporate Governance Committee to consider demographics, and also in particular the level representation of certain designated groups (as defined below) on the Board when making decisions with respect to the composition of the Board. In carrying out this duty, the Corporate Governance Committee may retain outside advisors or experts as it deems necessary, which may include the identification and nomination of candidates who are female, visible minorities, indigenous peoples or people with a disability, for the Board should the Corporate Governance Committee determine an exclusive search for such a candidate is necessary.

The Company does not have specific targets for Board or Senior Leadership Team representation of women, indigenous peoples, persons with disabilities, 2SLGBTQ+, or members of visible minorities (the “designated groups”). They are factors that are considered in the identification process, and ultimately it is the skills, experience, expertise, character and behavioral qualities that are most important in determining the value that an individual could bring to the Board or the management team.

The Company also ensures the most talented and strongest leaders are recruited, developed and retained to achieve its business objectives and recognizes the value of diversity, including knowledge, experience, skills, expertise, gender and background in making its decisions. In the Company’s “Recruitment Policy” which establishes the process of recruitment and selection of employees and includes the hiring of managerial level positions and executive officers, the Company will consider the current level of representation of designated groups in managerial positions when seeking and hiring candidates. An example of how this consideration is carried out is in the direction and instructions that the Company may provide when using external agencies for screening candidates and hiring. In addition, the Company’s “Accessibility Policy” seeks to eliminate employment barriers against persons with disability from the recruitment process to ultimate employment, and its “Respect in the Workplace Policy” ensures inclusiveness and prohibition against discrimination or harassment of individuals in the designated groups (amongst others).

The Company recently surveyed the Board and senior management to determine the number and proportion of individuals that self-identified as belonging to one or more of the designated groups. Participation in the survey was voluntary and, as such, the results represent only those individuals who elected to participate and may not be entirely representative of the designated groups at the Board or senior management level.

Currently, the Board is comprised of one female director (14%) and six male directors (86%). No directors have identified as either visible minorities (0%), indigenous persons (0%) or a person with disabilities (0%). One director preferred not to disclose any information as part of the self-identification survey.

The Company’s Senior Leadership Team, which is comprised of senior director level positions and higher, includes: 2 females, representing 29% of the Senior Leadership Team. 1 individual in this group has identified as visible minority representing 14% of Senior Leadership Team, and none who have identified as indigenous persons (0%) or a person with disabilities (0%).

There is currently a deep pool of talent who are within the designated groups holding high potential and mid-level managerial positions at the Company whom the Company looks to support and to provide opportunities for growth.

9. Board Committees

To assist in exercising its responsibilities, the Board has established four standing Committees: the Audit Committee; the Corporate Governance Committee; the Compensation Committee and the Executive Committee.

The roles and responsibilities of each Committee are set out in formal written Mandates, copies of which are available on our website at www.terago.ca. These Mandates are reviewed annually to ensure they reflect best practices as well as applicable regulatory requirements.

Audit Committee

The current members of the Audit Committee are Gary Sherlock (Chair), Pietro Cordova and Laurel Buckner. All of the members of the Audit Committee are “independent” within the meaning of the audit committee requirements adopted by the Canadian Securities Administrators (CSA).

The Audit Committee oversees the integrity of the Company’s financial reporting, its internal control, disclosure control and internal audit function, and its compliance with legal and regulatory requirements. The Audit Committee also reviews and assesses the qualifications, independence and performance of the Company’s auditors. In addition to being “independent”, the Board has determined that each member of the Audit Committee is “financially literate”, as such term is defined under CSA rules.

At each quarterly meeting of the Audit Committee, members of the Audit Committee meet separately (without management present) with the Company’s auditors to review specific issues. The Audit Committee requires management to implement and maintain appropriate internal controls. Annually, the Committee reviews and approves the internal control policy and audit mandate. The Audit Committee meets quarterly with the auditors and management on matters of internal control. It also meets regularly with the auditors and management to assess the adequacy and effectiveness of the internal control systems. The Audit Committee also pre-approves all audit and non-audit work performed by the auditors.

Additional information relating to the Audit Committee is included in the Company’s Annual Information Form under the heading “Audit Committee” which is available on SEDAR at www.sedar.com.

Corporate Governance Committee

The current members of the Corporate Governance Committee are Martin Pinnes (Chair), Richard Brekka and Pietro Cordova.

The Corporate Governance Committee identifies and recommends candidates for nomination to the Board, as described above, monitors the orientation program for new directors and maintains a process for assessing the performance of the Board, its committees and individual directors. The Corporate Governance Committee receives periodic reports on the Company’s corporate social responsibility efforts and programmes, monitors best practices for governance and annually reviews the Company’s governance practices and disclosures to ensure that it continues to exemplify high standards of corporate governance. The Corporate Governance Committee reviews all Board and Committee Mandates, standing corporate policies and position descriptions to ensure that they meet all applicable regulatory requirements and best practices.

Compensation Committee

The current members of the Compensation Committee are Laurel Buckner (Chair), Richard Brekka and Kenneth Campbell. All of the members of the Compensation Committee are independent.

The Compensation Committee’s primary responsibilities include evaluating and making recommendations to the Board regarding compensation of executive officers and directors, equity incentive plans, and general policies and programs related to compensation and benefits.

The Compensation Committee annually reviews, and recommends for Board approval, directors’ and executive compensation to ensure it is competitive and consistent with the responsibilities and risks involved in being an effective director and/or officer.

The Compensation Committee reviews and approves goals and objectives that the Chief Executive Officer is responsible for meeting each year. The Compensation Committee also conducts an annual assessment of the Chief Executive Officer’s performance in relation to those objectives and reports the results of the assessment to the Board.

The Compensation Committee has the authority to retain consulting firms from time to time to assist in carrying out the Compensation Committee’s responsibilities, including determining the compensation of the Chief Executive Officer and other executives, which also facilitates objectivity for making compensation decisions.

The Compensation Committee reviews succession planning for the Chief Executive Officer and other senior management, including planning in the event of an emergency or retirement. The Company’s succession planning process involves identifying critical senior leadership roles; assessing the capabilities of our executive officers;

developing succession plans for all executive officer roles; and developing a leadership “pipeline” comprised of the Company’s most talented individuals.

Executive Committee

The Executive Committee is comprised of three members of the Board (none of whom are members of management). The current members of the Executive Committee are Richard Brekka (Chair), Kenneth Campbell and Gary Sherlock.

The primary function of the Executive Committee is to assist the Board by acting in the Board’s place and stead, particularly with respect to the preliminary consideration and approval of matters of significance. While it is intended that all such matters first be brought before the full Board for consideration, it is recognized that the Executive Committee may be required to meet and exercise the powers of the Board when the full Board is not in session or cannot reasonably be called in session.

In addition to any other duties and responsibilities assigned to it from time to time by the Board, the Executive Committee, when the Board is not in session, may exercise powers vested in and exercisable by the Board, subject to applicable law.

The Executive Committee refers back to the full Board for ratification, confirmation and approval of all such matters as the Executive Committee may deem appropriate. The Executive Committee may retain or appoint, at the Company’s expense, outside advisors or experts as it deems necessary to carry out its duties.

10. Assessments

To serve the interests of shareholders and other stakeholders, the Company’s governance system is subject to ongoing review and assessment. One of the ways the Board and the Board Committees do this is through self-assessments conducted from time to time.

11. Strategic Planning

The Board approves the Company’s strategic plans. In addition to addressing key initiatives, these plans include details of the opportunities, risks, competitive position, financial projections and other key performance indicators for each of the principal business groups. An annual strategy session enables directors to gain a fuller appreciation of planning priorities and progress being made in relation to the strategic plans. It also provides an opportunity for directors to give constructive feedback to management. Throughout the year, directors receive strategic updates as part of regular Board meetings.

12. Disclosure Policy

The Board has approved a Disclosure, Confidentiality and Insider Trading Policy (the “**Disclosure Policy**”) covering the timely dissemination of all material information. The Disclosure Policy, which is reviewed annually, establishes consistent guidance for determining what information is material and how it should be disclosed to avoid selective disclosure and to ensure that material information is widely disseminated. The Company also has a Disclosure Committee comprised of members of senior management, including the Chief Executive Officer, the Chief Financial Officer and the General Counsel and Corporate Secretary of Legal. The Disclosure Committee is responsible for reviewing all continuous disclosure documents and ensuring their timely public release.

Shareholders, employees, stakeholders and other interested parties may communicate directly with the Company through its Investor Relations representatives by telephone at (949) 574-3860 or by e-mail at TGO@gatewayir.com.

(2) Notwithstanding Section 4.03(1), in the event of a proposed Change of Control, the vesting of all Options will accelerate immediately prior to the completion of any such transaction.

4.04 Black Out Periods

If the date on which an Option expires pursuant to an Option Agreement occurs during or within 10 days after the last day of a Black Out Period, the Expiry Date for the Option will be the last day of such 10-day period.

4.05 Early Expiry

(1) Unless otherwise determined by the Committee, an Option will expire before its Expiry Date in the following events and manner:

- (a) if an Optionholder dies, only the portion of the Option that is exercisable at the date of death of the Optionholder may be exercised by the personal representatives of the Optionholder during the period ending six months after the death of the Optionholder, after which period all Options terminate;
- (b) if the employment of an Optionholder is terminated without cause, including a constructive dismissal, only the portion of the Option that is exercisable at the Termination Date may be exercised by the Optionholder during the period ending 90 days after the Termination Date, after which period all Options expire; and
- (c) an Option will expire 60 days from the date on which the Optionholder ceases to be an Eligible Person as a result of his or her voluntary resignation, or immediately upon being dismissed from his or her office or employment for cause including where an Eligible Person resigns his or her office or employment after being requested to do so by the Corporation as an alternative to being dismissed or terminated by the Corporation for cause,

subject in all cases to the earlier expiration of an Option on its applicable Expiry Date. For greater certainty, the retirement of an Optionholder pursuant to the provisions of a retirement plan of the Corporation or a Related Entity or an Optionholder's cessation of employment due to permanent disability will not affect the terms of outstanding Options.

(2) Notwithstanding the provisions of Section 4.05(1), the Committee may, in its discretion, at any time prior to or following any event contemplated in Section 4.05(1), permit the exercise of any or all Options held by an Optionholder in the manner and on the terms authorized by the Committee, provided that the Committee will not, in any case, authorize the exercise of an Option after its applicable Expiry Date.

(3) On the expiry of an Option all rights of a participant thereunder, whether unexercisable or not yet exercisable, will automatically expire and be cancelled without any compensation being paid therefor.

4.06 **Assignment**

(1) An Optionholder may assign Options to a Permitted Assign of the Optionholder. For greater certainty, the terms of the Plan continue to apply to assigned Options except that the assigned Options are exercisable by the Permitted Assign.

(2) Except as provided in Section 4.05(1)(a), an Option may be exercised only by the Optionholder or a Permitted Assign of the Optionholder and is not assignable in law or in equity, and any purported assignment is void and of no force and effect whatsoever.

4.07 **Participation**

(1) Participation in this Plan will be entirely voluntary and any decision not to participate will not affect an Eligible Person's employment or other relationship with the Corporation or any Related Entity.

(2) Nothing in this Plan or in any Option Agreement will confer on any Optionholder any right to remain as an employee or officer of the Corporation or any Related Entity.

(3) An Optionholder will only have rights as a shareholder of the Corporation with respect to Common Shares that the Optionholder acquires through the exercise of an Option in accordance with its terms.

4.08 **Adjustments to Common Shares**

(1) Subject to the right of the Board to make such additional or other adjustments as it considers appropriate in the circumstances:

- (a) upon a subdivision of the Common Shares into a greater number of Common Shares, a consolidation of the Common Shares into a lesser number of Common Shares or the issue of a stock dividend to holders of the Common Shares (other than dividends in the ordinary course), the number of Common Shares authorized to be issued under the Plan, the number of Common Shares receivable on the exercise of an Option and the Exercise Price thereof will be increased or reduced proportionately and the Corporation will deliver upon the exercise of an Option, in addition to or in lieu of the number of Optioned Shares in respect of which the right to purchase is being exercised and without the Optionholder making any additional payment, such greater or lesser number of Common Shares as results from the subdivision, consolidation or stock dividend;
- (b) upon the distribution by the Corporation to holders of the Common Shares of shares of any class (whether of the Corporation or another corporation, but other than Common Shares), rights, options or warrants, evidences of indebtedness or cash (other than dividends in the ordinary course), other securities or other assets, either the Exercise Price of the Optioned Shares will be reduced proportionately or the Corporation will deliver upon exercise of an Option, in addition to the number of Optioned Shares in respect of which the right to purchase is being exercised and without the Optionholder making any additional payment, such other securities, evidence of indebtedness or assets as result from such distribution; and
- (c) upon a capital reorganization, reclassification or change of the Common Shares, a consolidation, merger, amalgamation, arrangement or other form of corporate reorganization or combination of the Corporation with another corporation or a sale, lease or exchange of all or substantially all of the assets of the Corporation, the Corporation will deliver upon exercise of an Option, in lieu of the Optioned Shares in respect of which the right to purchase is being exercised, the kind and amount of shares or other securities or assets as result from such event.

The purpose of such adjustments is to ensure that any Optionholder exercising an Option after any such event will be in substantially the same position as such Optionholder would have been in if he or she had exercised the Option prior to such event.

(2) Subject to Section 4.03(2), and notwithstanding any other provision herein, in the event of a proposed Change of Control, the Board may, as deemed necessary or equitable by the Board in its sole discretion, determine the manner in which all unexercised Options granted under the Plan will be treated including, for example, requiring the acceleration of the time for the fulfillment of any conditions or restrictions on such exercise. All determinations of the Board under this Section will be binding for all purposes of the Plan. If the Board elects to accelerate the timing the exercise of rights under any or all outstanding Options immediately prior to the completion of any such transaction, it may also determine that all such outstanding Options will be purchased by the Corporation or a Related Entity for an amount per Option equal to the “Transaction Price” (as defined below), less the applicable Exercise Price (except that where the Exercise Price exceeds the Transaction Price, the amount per Option for such Options will be \$0.01), as of the date such transaction is determined to have occurred or as of such other date prior to the transaction closing date as the Board may determine. For purposes of this paragraph, “Transaction Price” means the fair market value of a Common Share based on the consideration payable in the applicable transaction as determined by the Board.

(3) If, at any time when an Option granted under the Plan remains unexercised, an offer to purchase all of the Common Shares of the Corporation is made by a third party, the Corporation will use its best efforts to bring such offer to the attention of the Optionholder as soon as practicable.

(4) An adjustment will take effect at the time of the event giving rise to the adjustment, and the adjustments provided for in this Section are cumulative.

(5) The Corporation will not be required to issue fractional Common Shares or other securities under the Plan and any fractional interest in a Common Share or other security that would otherwise be delivered upon the exercise of an Option will be cancelled.

(6) Except as expressly provided in this Section 4.08 or as determined by the Board, neither the issue by the Corporation of shares of any class or securities convertible into or exchangeable for shares of any class, nor the conversion or exchange of such shares or securities, affects, and no adjustment by reason thereof is to be made with respect to, the number of Common Shares that may be acquired on the exercise of any outstanding Option or the Exercise Price of any outstanding Option.

ARTICLE 5 - EXERCISE OF OPTIONS

5.01 Manner of Exercise

An Optionholder (or the personal representatives of a deceased Optionholder) who wishes to exercise an Option may do so by delivering the following to the Corporation before the expiry of the Option:

- (a) a completed Notice of Exercise and

- (b) subject to the provisions of Section 5.04, a cheque (which need not be a certified cheque) or bank draft payable to the Corporation for the aggregate Exercise Price for the Optioned Shares being acquired.

If the Optionholder is deceased, the personal representatives of the Optionholder must also deliver to the Corporation evidence of their status. An Option may not be exercised for less than 100 Optioned Shares at any one time, except where a smaller number of Optioned Shares remains exercisable pursuant to an Option, in which case the Option may be exercised for such smaller number at one time.

5.02 **Cashless Exercise**

In lieu of paying the Exercise Price for the Optioned Shares to be issued pursuant to such exercise, the Optionholder may elect to acquire the number of Optioned Shares determined by subtracting the Exercise Price from the Market Price of the Common Shares as of the date of exercise, multiplying the difference by the number of Common Shares in respect of which the Option was otherwise being exercised and then dividing that product by the Market Price of the Common Shares as of the date of exercise. For the purpose of the foregoing calculation, if no trades are reported on any one of the five trading days immediately preceding the date of exercise, the Market Price will be determined by reference to the closing trading price on the last trading day preceding such five trading day period. Upon an Optionholder electing to exercise an Option in the foregoing manner, the Corporation will deliver to the Optionholder a certificate representing the appropriate number of fully paid and non-assessable Common Shares.

5.03 **Delivery of Share Certificate**

Not later than three business days after receipt of the Notice of Exercise and payment in full for the Optioned Shares being acquired as provided in Section 5.01, the Corporation will direct its transfer agent to issue a certificate in the name of the Optionholder (or, if deceased, the Optionholder's estate) for the number of Optioned Shares purchased by the Optionholder (or the Optionholder's estate), which will be issued as fully paid and non-assessable Common Shares.

5.04 **Withholding**

The Corporation will withhold taxes to the extent required by applicable law in respect of any amounts under this Plan.

ARTICLE 6 - ADMINISTRATION

6.01 **Administration**

- (1) The Plan will be administered by the Board with the assistance of the Committee.

(2) The Board has the authority to interpret the Plan, to adapt, amend, rescind and waive rules and regulations to govern the administration of the Plan (all subject to limits and requirements under applicable regulatory authority or stock exchange rules) and to determine all questions arising out of the Plan (and the Committee will assist the Board with regards to the

foregoing) and any Option granted pursuant to the Plan, which interpretations and determinations will be conclusive and binding on the Corporation and all other affected persons.

6.02 **Amendment and Termination**

(1) The Board may, at any time and from time to time, make non-material and/or minor amendments to the terms of the Plan that are of a “housekeeping nature”, suspend or terminate the Plan at any time, provided that no such amendment, suspension or termination may be made without obtaining any required approval of any regulatory authority or stock exchange or materially prejudice the rights of any Optionholder under any Option previously granted to the Optionholder without the consent or deemed consent of the Optionholder.

(2) Notwithstanding the provisions of Section 6.02(1), the Board may not, without the approval of the security holders of the Corporation, make amendments to the Plan for any of the following purposes:

- (a) to increase the maximum number of Common Shares that may be issued pursuant to Options granted under the Plan as set out in Section 3.03, subject to adjustment pursuant to Section 4.08;
- (b) to reduce the Exercise Price of Options to less than the Market Price;
- (c) to reduce the Exercise Price of Options for the benefit of an Insider;
- (d) to extend the Expiry Date of Options for the benefit of an Insider;
- (e) any amendment to remove or to exceed the Insider Participation Limit; and
- (f) to amend the provisions of this Section 6.02(2).

(3) In addition to the changes that may be made pursuant to Section 6.02(1), the Board may, at any time and from time to time, without the approval of the security holders of the Corporation, amend any term of any outstanding Option (including, without limitation, the Exercise Price, vesting and expiry of the Option), provided that:

- (a) any required approval of any regulatory authority or stock exchange is obtained;
- (b) if the amendments would reduce the Exercise Price or extend the Expiry Date of Options granted to Insiders other than as authorized pursuant to Section 4.08, approval of the holders of the outstanding Common Shares must be obtained;
- (c) the Board would have had the authority to initially grant the Option under the terms as so amended; and
- (d) the consent or deemed consent of the Optionholder is obtained if the amendment would materially prejudice the rights of the Optionholder under the Option.

6.03 **Compliance with Laws and Exchange Rules**

The Plan, the grant and exercise of Options under the Plan and the Corporation's obligation to issue Common Shares on exercise of Options will be subject to all applicable federal, provincial and foreign laws, rules and regulations and the rules of any regulatory authority or stock exchange on which the securities of the Corporation are listed. No Option will be granted, and no Common Shares will be issued under the Plan where such grant or issue would require registration of the Plan or of such Common Shares under the securities laws of any foreign jurisdiction and any purported grant of any Option or issue of Common Shares in violation of this provision will be void. Common Shares issued to Optionholders pursuant to the exercise of Options may be subject to limitations on sale or resale under applicable securities laws.
