Looking ahead in Thailand, we expect an announcement from the government sometime between mid- December 2025 and January 2026."

  - External service costs were \$0.2 million in the third quarter of 2025 and 2024. These costs mainly related to professional fees for legal, audit, tax services, and information technology.
  - Public company and other costs were \$0.1 million in the third quarter of 2025 and 2024. These costs were incurred for maintaining the Company's status as a public company and mainly related to shareholder reporting and meeting, TSXV fees, transfer agent, insurance and directors' fees.

## Outlook

The third quarter of 2025 saw activities focused mainly on the Sawn Lake sales process, with these activities expected to continue into year end. Looking ahead in Thailand, we expect an announcement from the government sometime between mid-December 2025 and January 2026.

## Liquidity and Capital Resources

As at September 30, 2025, CanAsia does not have sufficient resources available to fund expected activity levels over the next 12 months. The Company will require additional capital to support general corporate activities, general and administrative costs and the ongoing maintenance of Sawn Lake, for any evaluation and exploration program in respect of a Thailand concession in the event the Company is successful in the Thailand bid round and, in the event that CanAsia is unable to divest of its interests in Sawn Lake, for the potential development of Sawn Lake.

The amount and timing of the capital required to fund the ongoing operations of CanAsia, including the evaluation and exploration program for a potential Thailand concession and any future development of Sawn Lake, is not known. However, it is reasonably certain that the amount of capital required is in excess of the working capital currently held by CanAsia.

In order to continue as a going concern and fund its ongoing operations, CanAsia will require additional funds through debt or equity financings or other available means, including a divestiture of its interests in Sawn Lake. However, there is no assurance that CanAsia will be able to obtain adequate financing or divest of its interests in Sawn Lake on terms satisfactory to CanAsia or at all.
