## Management Discussion & Analysis

For the nine months ended June 30, 2023 and 2022

---

### 1. Date

This Management's Discussion and Analysis ("MD&A") of Cavalry Capital Corp. ("Cavalry" or the "Company") has been prepared by management as of August 25, 2023 and should be read in conjunction with the unaudited financial statements and related notes thereto of the Company for the nine months ended June 30, 2023 and 2022, which were prepared in accordance with International Accounting Standards using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and International Financial Reporting Interpretations Committee ("IFRIC").

This MD&A contains forward-looking information which reflects management's expectations regarding the Company's growth, results of operation, performance and business prospects and opportunities. The use of words such as "anticipate", "continue", "estimate", "expect", "may", "will", "project", "should", "believe", "outlook", "forecast" and similar expressions are intended to identify forward-looking statements.

Forward-looking statements in this MD&A include, but not limited to, the Company's expectation of future activities and results, of its working capital needs and its ability to identify, evaluate and pursue suitable business opportunity. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results of events to differ materially from those anticipated in these forward-looking statements. Readers should not put undue reliance on forward-looking information.

The Company undertakes no obligation to publicly update or review the forward-looking statements whether as a result of new information, future events or otherwise.

Historical results of operations and trends that may be inferred from the following discussions and analysis may not necessarily indicate future results from operations.

### 2. Overall Performance

The Company was incorporated pursuant to the provisions of the *Business Corporations Act* (British Columbia) on March 19, 2021, under the name 1295342 B.C. Ltd. and changed its name on August 21, 2021 to Cavalry Capital Corp.

The Company completed its initial public offering ("IPO") on May 4, 2022 and is a Capital Pool Company pursuant to the policies of the TSX Venture Exchange (the "Exchange"). The Company is in the development stage and its principal business is the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction, as defined by the policies of the Exchange. Such a transaction will be subject to shareholder and regulatory approval.

returns to shareholders and benefits to other stakeholders. The capital structure of the Company consists of cash and equity comprised of issued share capital.

The Company manages its capital structure and makes adjustments, when required, considering certain economic conditions. The Company, upon approval from its board of directors, will balance its overall capital structure through new share issues or by undertaking other activities as deemed appropriate under the specific circumstances.

### **7. Off-Balance Sheet Arrangements**

The Company does not utilize off-balance sheet arrangements.

### **8. Financial Instruments & Risk Management**

#### *Fair Values*

Fair value measurements are classified using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair values of financial instruments, which include cash and accounts payable and accrued liabilities, approximate their carrying values due to the relatively short-term maturity of these instruments.

#### *Credit Risk*

Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash. The Company limits its exposure to credit loss by placing its cash with high credit quality financial institutions. The carrying amount of financial assets represents the maximum credit exposure.

#### *Foreign Exchange Risk and Interest Rate Risk*

The Company is not exposed to any significant foreign exchange rate or interest rate risk.

#### *Liquidity Risk*

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations out of cash. The ability to do this relies on the Company raising equity financing in a timely manner and by maintaining adequate cash in excess of anticipated needs.
