The accompanying notes are an integral part of these condensed consolidated interim financial statements.

Minco Silver Corporation

Notes to the Condensed Consolidated Interim Financial Statements

For the three and nine months ended September 30, 2021 and 2020

(Unaudited, expressed in Canadian dollars, unless otherwise stated)

1. Nature of operations

Minco Silver Corporation (“Minco Silver” or the “Company”) is engaged in exploring, evaluating and developing precious metals mineral properties and projects. Minco Silver was incorporated on August 20, 2004 under the laws of British Columbia, Canada and its common shares are listed on the Toronto Stock Exchange (“TSX”) and trades under the symbol “MSV”. The Company’s registered office is 2060 – 1055 West Georgia Street, Vancouver, British Columbia, Canada.

Since February 2020, the coronavirus (“COVID-19”) has caused a slowdown in the global economy and caused volatility in the global financial markets. It has also limited the Company’s property investigation and acquisition activities. Continuing rapid spread of COVID-19 may have an adverse effect on the Company’s financial position, results of operations and cash flows in future periods. In particular, there may be increased risk of the recoverability of the Company’s outstanding note receivable (note 6).

2. Basis of preparation

These condensed consolidated interim financial statements include the accounts of the Company and its subsidiaries, Minco Investment Holding HK Ltd. (“Minco HK”), Minco Resource Limited (“Minco Resources”), Changfu Minco Mining Co. Ltd., (“Changfu Minco”), Minco Mining (China) Co. Ltd. (“Minco China”), Tibet Minco Mining Co. Ltd. (“Tibet Minco”), and its 51% interest in Mingzhong Mining Co. Ltd. (“Mingzhong”). Changfu Minco is subject to a 10% net profit interest held by Guangdong Geological Bureau (“GGB”), a Chinese government department.

Information of the Company’s subsidiaries as at September 30, 2021 is as follows:

Name	Principal activities (ownership interest)	Country of Incorporation
Minco HK	Holding company (100%)	China
Changfu Minco	Exploring, evaluating and developing mineral properties (90%)	China
Minco Resources	Holding company (100%)	China
Minco China	Exploring and evaluating mineral properties (100%)	China
Tibet Minco	Exploring and evaluating mineral properties (100%)	China
Mingzhong	Exploring and evaluating mineral properties (51%)	China

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the IASB applicable to the preparation of interim financial statements, including IAS 34, *Interim Financial Reporting*. These condensed consolidated interim financial statements should be read in conjunction with the Company’s annual consolidated financial statements for the year ended December 31, 2020, which were prepared in accordance with IFRS as issued by the IASB.

These condensed consolidated interim financial statements were approved by the board of directors for issue on November 12, 2021.

Minco Silver Corporation

Notes to the Condensed Consolidated Interim Financial Statements

For the three and nine months ended September 30, 2021 and 2020

(Unaudited, expressed in Canadian dollars, unless otherwise stated)

2. Basis of preparation (continued)

In preparing these condensed consolidated interim financial statements, management has made judgments and estimates that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual amounts incurred by the Company may differ from these values.

The Company's accounting policies and significant judgements and estimates applied in these condensed consolidated interim financial statements are consistent with those of the annual consolidated financial statements for the year ended December 31, 2020.

3. Cash and cash equivalents

6. Note receivable

During 2018, the Company entered into a preliminary agreement (the “Proposed Acquisition”) to acquire 70% of the equity interests in Changing Longxin Mining Co., Ltd. (“Longxin Mining”), a Chinese mining company which holds a 100% interest in the Longwangshan Gold Mine. The estimated purchase price for the 70% equity interest in Longxin Mining under the preliminary agreement was a range of 147 to 168 million RMB (approximately \$28-32 million).

In conjunction with the Proposed Acquisition, on August 6, 2018, Minco China entered into a loan agreement with Longxin Mining and its shareholders pursuant to which Minco China provided the shareholders of Longxin Mining with a loan of \$14,630,621 (RMB 73.8 million) (the “Note”). The Note was due and payable nine months from issuance, bears interest at the rate of 10% per annum, and is secured by 100% equity interest in Longxin Mining and all assets of the Longwangshan Gold Mine. In addition, the Note is guaranteed by both Longxin Mining’s shareholders and a real estate company controlled by them. The Note was meant to form part of the consideration for the Proposed Acquisition.

On February 4, 2019, the maturity of the Note was extended to June 30, 2019 with an increased interest rate of 12% per annum. The maturity of the Note was further extended to December 31, 2019 with no change in the interest rate (12 % per annum). During 2020, Minco China received a full interest payment of \$783,042 (RMB 4.2 million) for the interest accrued in 2019.

On November 21, 2020, a third supplemental agreement (the “3rd Agreement”) was reached and the maturity of the Note was further extended to March 31, 2021 with no change in the interest rate of 12% and RMB 20.8 million of repayments in 2020 would offset by the principal first, if Longxin Mining had fulfilled the following terms:

- (a) by December 10, 2020, Longxin Mining would fully pay off the balance of the interest accrued between January 1, 2020 and December 10, 2020 at 12% of annum interest rate for a total of \$1,181,118 (RMB 6,079,333);
- (b) On March 31, 2021, Longxin Mining would fully pay off the outstanding principal and accrued interests;
- (c) If Longxin Mining failed to pay off \$1,181,118 (RMB 6,079,333) of the agreed interest by December 10, 2020, the Company shall have the right at any time (i) to request Longxin Mining to pay off all outstanding principal and accrued interests immediately; (ii) to calculate the interest at 24% of an annum rate from January 1, 2020 until the principal and accrued interest are fully paid off; (iii) to offset the accrued interests first instead of the principal first on payments in 2020.

The Company had only received \$971,421 (RMB 5,000,000) of the interest payment in December 2020 and did not receive any payments during the nine months ended September 30, 2021. In April 2021, Minco China entered into a legal service agreement (the “Anheli Service Agreement”) with Beijing Anheli Law Firm (“Anheli”) for a legal action to recover the outstanding Note principal and accrued interest. On May 11, 2021, the Company filed a lawsuit to the court for legally freezing the Note collaterals and recovering \$10,918,704 (RMB 55,424,433) of the outstanding Note principal plus \$629,085 (RMB 3,253,625) of interests accrued up to April 1, 2021 at an annum interest rate of 24% for the period between January 1, 2020 and August 19, 2020 then at 15.4% of an annum interest rate thereafter.

As at September 30, 2021, the outstanding Note principal was \$10,918,704 (RMB 55,424,433) (\$9,589,148 (RMB 49,200,000) was recorded as at December 31, 2020) and the accrued interest receivable was \$1,495,722 (RMB 7,592,434) (\$283,880 (RMB 1,456,533) was recorded as at December 31, 2020), as a result of \$1,329,556 (RMB 6,224,433) payments received by the Company in 2020 now offset the accrued interest first instead of the principal first. In addition, the annum interest rate was changed from 12% to 24% for the period between January 1, 2020 and August 19, 2020 then at 15.4% of annum rate thereafter as claimed in the Company’s court filing.

6. Note receivable (continued)

Pursuant to Anheli Service Agreement, the Company paid \$58,005 (RMB 300,000) of legal fees and will pay to Anheli a success fee which equals to 10% of the total principal and interests recovered by the Company from this legal action. The Company accrued such 10% as a provision for legal fees of \$1,198,471 (RMB 6,083,561) as at September 30, 2021.

In September 2021, the competent court in China granted a property preservation order in favour of the Company with respect to its legal collection action.

7. Mineral interests

In the past, the Company experienced a delay in the renewal of exploration permits of both the Fuwan Silver Project and Changkeng Gold Project. As a result, during 2019, the Company impaired \$60,246,258 of exploration and evaluation costs incurred in the Fuwan Silver Project and Changkeng Gold Project.

A value in use calculation was not applicable as the Company does not have any expected cash flows from using these mineral properties at this stage of operations. In estimating the fair value less cost of disposal, management did not have observable or unobservable inputs to estimate the recoverable amount greater than \$Nil. As this valuation technique requires management's judgment and estimates of the recoverable amount, it is classified within Level 3 of the fair value hierarchy.

In November 2020, the renewal for the Changkeng Gold Project exploration permit was obtained. In March 2021, the Company received the new exploration permit on the Fuwan Silver Project. Now that both exploration permits have been renewed, the Company plans to resume its permitting, obtaining a mining license and exploration activities on its Changkeng Gold Project and Fuwan Silver Projects.

Fuwan Silver Project

Minco Silver has a 90% interest in Changfu Minco, the Company's operating subsidiary in China and permit holder for the Fuwan Silver Project, subject to a 10% net profit interest held by GGB. There will be no distributions to, or participation by, GGB, until such time as Minco Silver's investment in the project is recovered. GGB is not required to fund any expenditures related to the Fuwan Silver Project. The Exploration Permit for the Fuwan Silver Project is the Luoke-Jilinggang exploration permit which was renewed in March 2021 for five years with an expiry date of March 8, 2026.

Changkeng Gold Project

The Company holds a 51% interest in Mingzhong which owns the Changkeng Gold Project. The Changkeng Gold Project immediately adjoins the Fuwan Silver Project. The Changkeng exploration permit was renewed in 2020 for two years with an expiry date of November 21, 2022.

Field expenses and property investigation

During the nine months ended September 30, 2021 the Company expensed \$205,052 (2020 - \$502,507) of field salary, consulting, insurance, permitting and general administration etc.

The Company is also focused on the acquisition of advanced high-quality mineral projects around the world. During the nine months ended September 30, 2021, the Company spent \$246,087 (2020 - \$284,726) of salary, consulting and other expenses related to the property investigations.

8. Investment accounted for using the equity method

In May 2020, the Company participated a private placement investment in Hempnova Lifetech Corporation (“Hempnova”) by purchasing 7,950,000 common shares at a price of \$0.40 per share for a total investment amount of \$3,180,000. Hempnova is not traded on any exchange. The Company’s investment represented approximately 12.7% of the issued and outstanding common shares of Hempnova after closing of the Hempnova private placement.

Hempnova is involved in industrial hemp related services and products and it was incorporated in British Columbia and conducts its principal business through its wholly owned subsidiary, Hempnova Lifetech (USA) Corp. that was incorporated in the USA.

Management assessed and determined that the Company has significant influence over Hempnova despite its shareholding being below 20%. This is because the Company has the ability to influence decision making due to the fact that the Company and Hempnova have certain directors and management in common; in addition, certain directors and management also directly and/or indirectly own Hempnova common shares. As a result, the Company accounts for this investment using the equity method.

As at September 30, 2021 and December 31, 2020, the Company owned 12.7% of Hempnova. The continuity of this investment is as follows:

	Total
	\$
Carrying value, at January 1, 2020	-
Acquisition	3,180,000
Share of Hempnova’s income	152,177
Share of Hempnova changes in reserve and equity portion of convertible debenture	78,548

Carrying value, at December 31, 2020	3,333,695
Share of Hempnova’s loss	(874,806)
Share of Hempnova changes in reserve and equity portion of convertible debenture	1,471
Share of other comprehensive loss of Hempnova	(15,347)
Carrying value, at September 30, 2021	2,445,013

A summary of Hempnova’s balance sheets and a reconciliation to the carrying value of the Company’s investment is as follows:

Reconciliation to carrying amounts:

Minco Silver's share of net assets of Hempnova	842,333	1,731,015
Goodwill	1,602,680	1,602,680
Carrying value of investment in Hempnova	2,445,013	3,333,695

A summary of Hempnova's income statement for the nine months ended September 30, 2021 is as follows:

	Hempnova	Minco Silver share
	\$	\$
Net loss	(6,888,240)	(874,806)
Other comprehensive gain	(120,840)	(15,347)
Comprehensive loss	(7,009,080)	(890,153)

Management assesses whether there is objective evidence that its investment in Hempnova is impaired. Management applies significant judgment in assessing whether indicators of impairment exist that would necessitate impairment testing. Impairment indicators may include loss events such as (i) significant financial difficulty of Hempnova (ii) significant changes with an adverse effect that have taken place in the market, economic or legal environment in which the Hempnova operates and (iii) evidence of significant or prolonged decline in fair value of the Associate below its carrying value. As at September 30, 2021 and December 31, 2020, there were no indicators of impairment for the investment in Hempnova.

10. Leases

The Company's recognized right-of-use assets and liabilities are mainly comprised of the present values of all future lease payments of two leases for offices located in Vancouver, Canada and Beijing, China.

The Vancouver lease is for a shared office with other companies related to it by virtue of certain directors and management in common. The lease started in 2018 and will end on April 30, 2023. Each beginning of the year, the cost sharing agreement was reviewed and the sharing percentage was changed if necessary.

The Company also entered into a lease agreement with the Company's CEO for an office located in Beijing, China (note 13(b)). The lease started on April 1, 2019 and would end on August 31, 2021. During the nine months ended September 30, 2021, the lease term was extended to August 31, 2026.

Such leases were classified as operating leases under IAS 17. The right-of-use assets and lease obligations were measured at the present value of the lease payments and discounted using an incremental borrowing rate of 8%.

(b) Long-term Incentive Plan

The Company may grant up to 15% of its issued and outstanding shares as options, restricted share units, performance share units and deferred share units, to its directors, officers, employees and consultants under its long-term incentive plan.

Stock Options

The Company's long-term incentive plan allows the board of directors to grant options for periods of up to ten years, with vesting periods determined at its sole discretion and at prices equal to or greater than the closing market price on a date preceding the date the options are granted. These options are equity settled.

During the year ended December 31, 2020, the Company granted 1,500,000 stock options to purchase common shares to employees, consultants and directors at an exercise price of \$0.455 per common share. These options vest over an 18-month period from the grant date and expire on April 6, 2025.

During the nine months ended September 30, 2021, there was no stock option granted and the Company recorded \$125,872 of the stock option component as the share-based compensation (2020 - \$ 342,619) for the stock option granted in 2020. A continuity of the options outstanding is as follows:

	Number outstanding	Weighted average exercise price

12. Share capital (continued)

(b) Long-term Incentive Plan (continued)

The Company used the Black-Scholes option pricing model to determine the fair value of the options.

Option pricing models require the use of subjective estimates and assumptions including the expected stock price volatility. The stock price volatility is calculated based on the Company's historical volatility. Changes in the underlying assumptions can materially affect the fair value estimates.

Performance share units ("PSU")

A summary of the PSUs outstanding is as follows:

	Number outstanding	Fair value per unit
	#	\$
Balance, January 1, 2020	950,000	1.40
Expired	(950,000)	1.40
Balance, December 31, 2020 and September 30, 2021	-	-

On February 20, 2017, the Company granted 1,000,000 PSUs to employees and consultants of the Company, whereby 50% of these PSU vest upon the receipt of the final approval for the Environmental Impact Assessment (EIA) report for the Fuwan Silver Project, the Changkeng Gold Project or the Combination of both. The remaining 50% vests upon the receipt of the mining license issued by Ministry of Land and Resources ("MOLAR") for the Fuwan Silver Project, the Changkeng Gold Project, or the combination of both (collectively the "Performance Criteria").

PSU are vested when each of the Performance Criteria is met on or before February 20, 2020, the end of the three-year performance cycle. Each PSU will become one common share of the Company when it is vested.

The fair value of the PSU's was estimated as \$1.40 per unit at the grant date based on the share price on that date. The Company recognizes compensation expenses equal to the market value of the PSU granted over the vesting period using the Black-Scholes option pricing model taking into consideration forfeiture estimates made based on the Company's history.

During 2019, the Company fully impaired the Fuwan Silver Project and Changkeng Gold Project. Management decided the performance criteria would not be met before the expiry. Consequently, the share-based compensation recorded to the Company's statement of operation and to the share-based compensation capitalized to mineral interests from fiscal 2017 up to the September 30, 2019 had been reversed. These 950,000 PSU expired in February 2020.

(i) including living allowance, medical insurance and apartment rental for the CEO in China.

(b) Rental agreement with the CEO

On April 1, 2019, the Company's wholly owned subsidiary, Minco China, entered into a lease agreement for the use of an office in Beijing, China with the Company's CEO, the owner of the property, with an effective date on April 1, 2019 and expiry date on August 31, 2021. During the nine months ended September 30, 2021, the lease term had been extended to August 31, 2026. The monthly rent is \$17,401 (RMB 90,000), of which 20% was shared with and paid by Hemnova since January 1, 2020.

Pursuant to the lease agreement, the Company was required to pay lease improvement expenses. During the nine months ended September 30, 2021, the Company paid an additional lease improvement of \$22,917 (RMB 118,529). During the year ended December 31, 2020, the Company capitalized the lease improvement in progress of \$414,798 (RMB 2,135,008).

(c) Shared office expenses

Minco Silver, Minco Capital Corp. ("Minco Capital") and Hemnova have certain directors and management in common. These three companies share certain offices and administrative expenses. During the year ended December 31, 2020, Minco Base Metals Corporation ("MBM") shared certain expenses as well and the Company's CEO has a control interest in MBM.

During the three months ended September 30, 2021, the Company paid or accrued \$13,415 (September 30, 2020 – \$8,930) in respect of rent and \$60,589 (September 30, 2020 – \$61,743) in shared head office expenses and administration costs to Minco Capital.

During the nine months ended September 30, 2021, the Company paid or accrued \$36,428 (September 30, 2020 – \$26,517) in respect of rent and \$179,512 (September 30, 2020 – \$187,052) in shared head office expenses and administration costs to Minco Capital.

(d) Trust arrangement with MBM

During 2018, the Company disposed two former subsidiaries (Minco Yinyuan Co. and Minco International Resources Limited) to MBM. After the disposition, Minco Yinyuan has a trust arrangement with Minco China, a wholly owned subsidiary of the Company, to continue holding certain cash and short-term investments for Minco China. As at September 30, 2021, the amount held by Minco Yinyuan in trust for Minco China was \$157,390 (December 31, 2020 - \$156,559).

Lease obligations, non-current	604,216	45,547
Deferred tax liabilities	367,041	64,081

Financial assets and liabilities that are recognized on the balance sheet at fair value can be classified in a hierarchy that is based on the significance of the inputs used in making the measurements. The levels in the hierarchy are:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Financial instruments that are not measured at fair value on the balance sheet are represented by cash and cash equivalent, short-term investments, receivables, note receivable, due to and from related parties, account payable and accrued liabilities. The fair values of these financial instruments approximate their carrying value due to their short-term nature.

Financial risk factors

The company's activities expose it to a variety of financial risks: market risk (including currency risk and interest rate risk), credit risk, and liquidity risk. Risk management activities are carried out by management, who identifies and evaluates the financial risks.

15. Financial instruments and fair value measurements (continued)

Credit risk

Counterparty credit risk is the risk that the financial benefits of contracts with a specific counterparty will be lost if the counterparty defaults on its obligations under the contract. This includes any cash amounts owed to the Company by these counterparties, less any amounts owed to the counterparty by the Company where a legal right of set-off exists and also includes the fair value contracts with individual counterparties which are recorded in the consolidated financial statements. The Company considers its Cash and cash equivalent, short-term investments, and note receivable to be exposed to credit risk.

In order to manage credit risk, the Company:

- limits its credit exposure on cash and cash equivalents by holding its deposits mainly with high credit quality financial institutions in Canada, Hong Kong and China,
- Obtain adequate collateral to secure the recoverability of the note receivable (also refer note 6).

Foreign exchange risk

The functional currency of Minco Silver is the Canadian dollar and the functional currency of its Chinese subsidiaries is RMB. Most of the foreign currency risk is related to US dollar funds held by Minco Silver and its Chinese subsidiaries. Therefore, the Company's net loss is impacted by fluctuations in the valuation of the US dollar in relation to the Canadian dollar and RMB.

The Company does not hedge its exposure to currency fluctuations. The Company has completed a sensitivity analysis to estimate the impact that a change in foreign exchange rates would have on the net loss of the Company, based on the Company's net US \$3.4 million monetary assets at September 30, 2021. This sensitivity analysis shows that a change of +/- 10% in US\$ foreign exchange rate would have a +/- US \$0.34 million impact on net income (loss).

Interest rate risk

Financial instruments that expose the Company to interest rate risk are cash and cash equivalents and short-term investments. The Company does not hold cash and cash equivalent, short-term investments and note receivable at variable rates. As a result, the Company is not exposed to significant interest rate risk.

Liquidity risk

Liquidity risk includes the risk that the Company cannot meet its financial obligations as they fall due. The Company has in place a planning and budgeting process to help determine the funds required to support the Company's normal operating requirements and its exploration and development plans. The annual budget is approved by the Company's board of directors. As at September 30, 2021, the Company has a positive working capital of approximately \$44 million and non-current liabilities of \$1 million that need to be fulfilled. Management concludes that the Company has sufficient funds to meet its current operating and exploration expenditures.
