TDb SPLIT CORP.
SEMI-ANNUAL REPORT
(UNAUDITED)

This report may contain forward-looking statements about the Company. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Company action, is also forward-looking. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Company and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Company. Any number of important factors could contribute to any divergence between what is anticipated and what actually occurs, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technology change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

The above-mentioned list of important factors is not exhaustive. You should consider these and other factors carefully before making any investment decisions and you should avoid placing undue reliance on forward-looking statements. While the Company currently anticipates that subsequent events and developments may cause the Company’s views to change, the Company does not undertake to update any forward-looking statements.

TDb SPLIT CORP.
SEMI-ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE
MAY 31, 2022

This is the semi-annual Management Report of Fund Performance (MRFP) for the period ended May 31, 2022. This MRFP contains financial highlights but does not contain the complete financial statements of the Company. The semi-annual financial statements and accompanying notes are attached to this report.

Investors may also obtain a copy of the Company's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure by visiting our website at www.tdbsplit.com or by writing to the Company at Investor Relations, 200 Front Street West, Suite 2510, Toronto, Ontario M5V 3K2.

These reports are available to view and download at www.tdbsplit.com or www.sedar.com.

INVESTMENT OBJECTIVES AND STRATEGIES

TDb Split Corp. invests primarily in common shares of the Toronto-Dominion Bank ("TD Bank").

The Company offers two types of shares:

Priority Equity shares (XTD.PR.A)

The investment objectives with respect to the Priority Equity shares are as follows:

1. to provide holders of Priority Equity shares with cumulative preferential monthly cash dividends in the amount of \$0.04375 per share to yield 5.25% annually; and
2. on or about the termination date of December 1, 2024 (subject to further 5 year extensions thereafter), to pay an amount of \$10.00 per Priority Equity share.

Class A shares (XTD)

The investment objectives with respect to the Class A shares are as follows:

1. to provide holders of Class A shares with regular monthly cash dividends in the amount of \$0.05 per Class A share when the net asset value per unit exceeds \$12.50; and
2. to permit such holders to participate in all growth in the net asset value of the Company above \$10.00 per unit.

RISK

The risks of investing in the Company remain as discussed in the Annual Information Form dated February 23, 2022. In addition, note 5 of the financial statements ("Management of Risk of Financial Instruments") contains disclosure on specific types of risks related to the financial investments held by the Company.

RESULTS OF OPERATIONS

After generally peaking in the early months of the calendar year, North American markets experienced a confluence of conditions that created significant headwinds and market volatility during the remainder of the period ended May 31, 2022.

Increasing actual and expected inflation became a significant factor during the period as inflation rates reached the highest levels in decades. The underlying contributors included ongoing supply chain disruptions and labour shortages caused by the pandemic, including lockdowns in China, the Bank of Canada's sustained low interest rate monetary policy and quantitative easing measures, the Russian invasion of Ukraine that severely impacted and exacerbated the rising costs of energy, food and other commodities and the increase in demand for goods and services resulting from the lifting of pandemic restrictions.

In an effort to slowdown demand and reign in soaring inflation, the Bank of Canada focused on tightening monetary policy during the period, increasing interest rates by 0.75% and signaling further increases for the remainder of the year. Bond market rates and mortgage rates reacted to these signals and reached levels not seen for several years.

As a result of these significant changes, market participants began factoring in a higher probability of a recession which caused a decline in market prices across a broad range of sectors.

The market price of TD bank appreciated by 7.2% during the period.

The net assets per unit (consisting of one Priority Equity share and one Class A share) finished at \$15.13 as at May 31, 2022, after the payment of \$0.56 in combined distributions to Priority Equity shares and Class A shares. A combined total of \$15.03 has been paid in distributions since inception.

On December 2, 2021, the Company announced the commencement of an at-the-market equity program ("ATM Program") that allows the Company to issue shares of the Company to the public from time to time, at the Company's discretion. Any Class A shares or Priority Equity shares sold in the ATM Program will be sold through the TSX or any other marketplace in Canada on which the Class A shares and Priority Equity shares are listed, quoted or otherwise traded at the prevailing market price at the time of sale.

During the period ended May 31, 2022, 92,500 Priority Equity shares were sold through the ATM Program at an average selling price of \$10.30 per Priority Equity share. Gross proceeds, net proceeds and commissions on the Priority Equity share sales were \$952,660, \$929,535 and \$23,125, respectively.

During the period ended May 31, 2022, 92,500 Class A shares were sold through the ATM Program at an average selling price of \$5.36 per Class A share. Gross proceeds, net proceeds and commissions on the Class A share sales were \$495,943, \$492,024 and \$3,919, respectively.

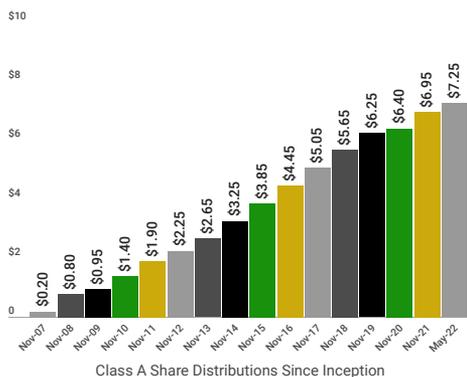

Net assets of the Company finished the period at \$91.3 million.

The dividend income from the common shares of TD Bank is supplemented by income received from a selective covered call writing program.

In response to regulatory changes, effective June 1, 2022, the Company will discontinue the payment of the service fee which is currently paid to dealers whose clients hold Priority Equity shares of the Company.

Class A shares - Distributions

Class A shareholders are entitled to receive monthly cash dividends targeted to be \$0.05 per Class A Share to yield 6% per annum on the original issue price, if and when the net asset value per unit exceeds \$12.50. Total distributions during the period amounted to \$0.30 per Class A share.

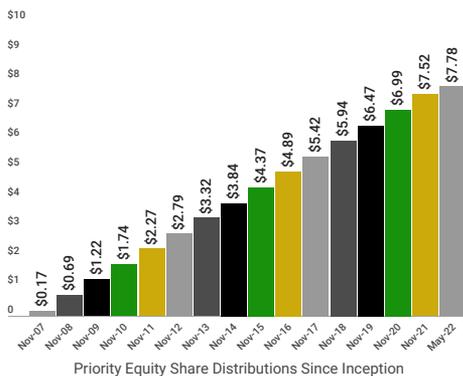

7.25

Cumulative total of distributions paid to Class A share since inception

Priority Equity shares - Distributions

Priority Equity shareholders are entitled to receive monthly cash dividends in the amount of \$0.04375 per Priority Equity Share to yield 5.25% per annum on the \$10.00 repayment amount. Distributions during the period were at the fixed rate for a total of \$0.2625 per Priority Equity share.

7.78

Cumulative total of distributions paid to Priority Equity share since inception

RECENT DEVELOPMENTS

Financial markets and equity markets in particular have experienced significant volatility in response to the Covid-19 pandemic. The investment portfolio of the Company has been subject to these market fluctuations and may continue to experience significant volatility as the situation evolves.

RELATED PARTY TRANSACTIONS

Quadravest Capital Management Inc. ("Quadravest") as investment manager and manager earns fees from the Company as described below in the Management Fees section.

FINANCIAL HIGHLIGHTS

The following tables show selected financial information about the Company and are intended to help you understand the Company's financial performance for the past five years. This information is derived from the Company's semi-annual financial statements and previous audited annual financial statements. The information in the following table is presented in accordance with National Instrument ("NI") 81-106 and, as a result, does not act as a continuity of opening and closing net assets per unit.

The Company's net assets per unit

- (1) Net assets per unit is the difference between the aggregate amount of the Company's assets and the aggregate amount of its liabilities, excluding Priority Equity shares and net assets attributable to holders of redeemable Class A shares, at the valuation date, divided by the number of units then outstanding.
- (2) Total increase (decrease) from operations is before the payment of Class A shares and Priority Equity shares and other income (charges) related to the Priority Equity shares and is calculated based on the weighted average number of units outstanding during the period.
- (3) Distributions on the Priority Equity shares and Class A shares are based on the number of Priority Equity shares and Class A shares outstanding on the record date for each distribution in the period and were paid in cash. Characterization of distributions is based on the tax treatment that is received by investors (for semi-annual periods ended May 31, it is based on the actual characterization for the most recently completed annual period and will be updated at year end).

RATIOS AND SUPPLEMENTAL DATA

	May 31, 2022	Γ 2021	Years ended November 30			Γ 2017
		2020	2019	2018	2017	
Net asset value (millions) ⁽¹⁾	\$91.3	\$86.3	\$60.0	\$53.6	\$54.0	\$56.1

Base Management expense ratio ⁽³⁾	1.16%	1.14%	1.11%	1.25%	1.27%	1.24%
Management expense ratio including secondary offering issue costs ⁽⁴⁾	1.33%	2.01%	3.44%	1.25%	1.27%	1.24%
Management expense ratio per Class A share ⁽⁵⁾	13.06%	20.88%	40.60%	12.49%	11.22%	12.62%
Portfolio turnover rate ⁽⁶⁾	0.56%	4.63%	108.2%	0.0%	0.0%	9.8%
Trading expense ratio ⁽⁷⁾	0.02%	0.03%	0.08%	0.02%	0.01%	0.02%
Closing market price (TSX): Priority Equity shares	\$10.11	\$10.50	\$10.03	\$10.18	\$10.00	\$10.30
Closing market price (TSX): Class A shares	\$5.63	\$5.01	\$3.00	\$6.29	\$6.18	\$6.45

- (1) This information is provided as at May 31 or November 30.
- (2) At times when there is an unequal number of Class A and Priority Equity shares outstanding, a notional unit amount will be determined based on the net assets attributable to each of the Class A and Priority Equity shares as a proportion of the net asset value of the Company.
- (3) A separate base management expense ratio per unit has been presented to reflect the ongoing operating expenses of the Company. The base management expense ratio per unit is based on total expenses for the stated period, excluding commissions and other portfolio transaction costs, distributions on Priority Equity shares and any one time offering expenses and is expressed as an annualized percentage of the average net asset value of the Company during the period.
- (4) Share issue expenses including all agents' fees and other offering expenses are one time initial expenses connected with the launch of the Company or any subsequent secondary offering. Any expenses incurred with secondary offerings were offset by the accretion to net asset value per unit of such offerings.
- (5) Management expense ratio per Class A share is based on the requirements of NI 81-106. This instrument requires that all split share companies produce an expense ratio which allocates all ongoing operating expenses of the Company (excluding commissions and other portfolio transaction costs), all distributions on Priority Equity shares and all issuance costs to the Class A shares and expresses this as an annualized percentage of the average net asset value attributable to the Class A shares during the period. The management expense ratio per Class A share should not be interpreted as the required return necessary for the Company or the Class A shares to cover the operating expenses of the Company. This calculation is based only on a portion of the Company's assets whereas the Company utilizes its entire assets to generate investment returns. Management believes that the base management expense ratio per unit disclosed in the table above is the most representative ratio in assessing the ongoing efficiency of the administration of the Company, making comparisons to the expense ratios of single unit mutual funds or determining the minimum investment returns necessary by the Company to achieve growth in net asset value per unit.
- (6) The Company's portfolio turnover rate indicates how actively Quadravest manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to the Company buying and selling all of the securities in its portfolio once in the course of the period. The Company employs a covered call writing strategy which can cause the portfolio turnover rate to be higher than conventional mutual funds. The higher the Company's portfolio turnover rate in a period, the greater the trading costs payable by the Company in the period and the greater chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of the Company.
- (7) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the average net asset value of the Company during the period.

MANAGEMENT FEES

Pursuant to the terms of the investment management agreement, Quadrainvest is entitled to a base management fee payable in arrears at an annual rate equal to 0.55% of the net asset value of the Company, which includes the outstanding Priority Equity shares, calculated as at each month-end valuation date.

Pursuant to the management agreement, Quadrainvest is entitled to an administration fee payable monthly in arrears at an annual rate equal to 0.1% of the net asset value of the Company, which includes the outstanding Priority Equity shares, calculated as at each month-end valuation date and an amount equal to the service fee payable to dealers on the Class A shares at a rate of 0.50% per annum. No service fee will be paid in any calendar quarter if regular dividends are not paid to holders of Class A shares in respect of each month in such calendar quarter. On May 31, 2022, Quadrainvest announced that effective June 1, 2022, the Company will discontinue the payment of the service fee.

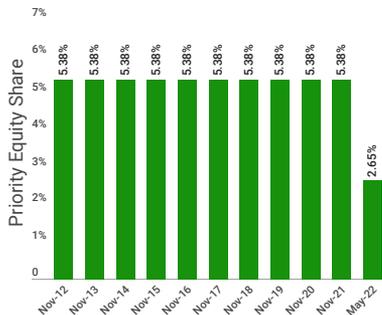

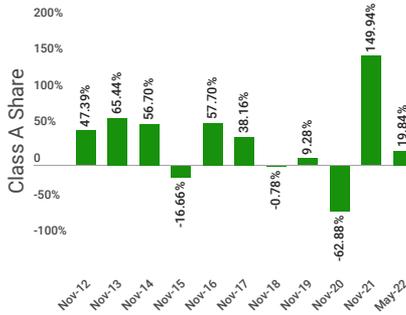

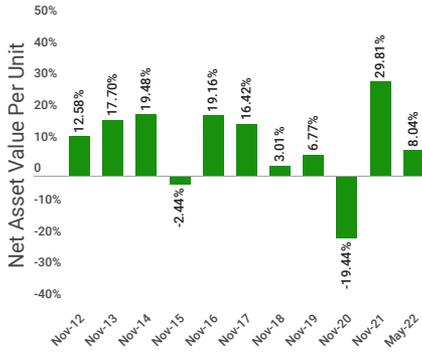

The base management fee was used by Quadrainvest to provide investment analysis, make investment decisions, and make brokerage arrangements for the purchase and sale of securities including the covered call writing program. The administration fee was used to provide or arrange administrative services required by the Company which includes all operational services, financial accounting, shareholder reporting and regulatory reporting.

PAST PERFORMANCE

Year-by-Year Returns

The past performance of 1) the net asset value per unit; 2) the Priority Equity share on a net asset value basis; and 3) the Class A share on a net asset value basis for each of the last ten years are presented in the bar charts below. Each bar in the chart reflects the change in percentage terms of how a unit, a Priority Equity share or a Class A share would have increased or decreased during the applicable year. In respect to the charts displayed below, please note the following:

- The performance information shown assumes that all cash distributions made by the Company during the years shown were reinvested in the applicable additional securities of the Company;
- The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance; and
- Past performance of the Company does not necessarily indicate how it will perform in the future.

SUMMARY OF INVESTMENT PORTFOLIO
All holdings as at May 31, 2022

Name	Weighting (%)
Toronto-Dominion Bank	95.8
Cash	5.0

TDb SPLIT CORP.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIODS ENDED MAY 31, 2022 AND 2021 (UNAUDITED)

1. Incorporation

TDb Split Corp. (the "Company") is a mutual fund corporation established under the laws of the Province of Ontario on May 24, 2007 that began investment operations on August 7, 2007. The manager and the investment manager of the Company is Quadravest Capital Management Inc. ("Quadravest" or "Manager"). The termination date of the Company is December 1, 2024 and may be extended thereafter at the Company's discretion for additional terms of five years each. The Company's principal office is located at 200 Front Street West, Suite 2510, Toronto, Ontario M5V 3K2. The Company invests in the common shares of Toronto-Dominion Bank ("TD Bank"). The Company employs an active covered call writing program to generate additional income in addition to the dividends received.

A significant decline in the share price of TD Bank resulted in the need to implement the Company's Priority Equity Portfolio Protection Plan in March 2020. This plan is intended to ensure that the Priority Equity share repayment amount (\$10.00 per share) will be paid in full to holders of the Priority Equity shares on the termination date of December 1, 2024 and requires that the Company liquidate a portion of the shares held of TD Bank to hold cash or acquire permitted debt securities. Under the plan, the amount of the Company's net assets, if any, required to be allocated to cash or permitted securities (the "Permitted Repayment Securities") will be determined such that (i) the net asset value of the Company, less the value of the Permitted Repayment Securities held by the Company, is at least 125% of (ii) the Priority Equity share repayment amount, less the amount anticipated to be received by the Company in respect of its Permitted Repayment Securities on the termination date. The Priority Equity Portfolio Protection Plan was unwound in February 2021.

2. Basis of presentation

These financial statements have been prepared in compliance with International Financial Reporting Standards ("IFRS"), as applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34, Interim Financial Reporting. These financial statements should be read in conjunction with the annual financial statements for the year ended November 30, 2021, which were prepared in accordance with IFRS.

These financial statements were approved by the Board of Directors of the Company on July 21, 2022.

3. Summary of significant accounting policies

The following is a summary of the significant accounting policies followed by the Company.

Investments and financial instruments

The Company classifies its investments, including derivatives, based on both the Company's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Company is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Company has not taken the option to irrevocably designate any equity securities as fair value in other comprehensive income ("FVOCI"). Consequently, all investments, including derivatives are measured at fair value through profit or loss.

The Company's obligations for net assets attributable to holders of redeemable Class A shares are presented at the annual redemption amount, which approximates their fair value. All other financial assets and liabilities are recognized initially at fair value and subsequently measured at amortized cost, which approximates fair value.

TDB SPLIT CORP.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIODS ENDED MAY 31, 2022 AND 2021 (UNAUDITED)

The Company recognizes regular purchases and sales of financial instruments on the trade date, which is the date on which it commits to purchase or sell the instrument. Transaction costs, such as brokerage commissions, related to financial assets and financial liabilities at fair value through profit or loss ("FVTPL") are expensed as incurred and transaction costs related to financial instruments not at FVTPL are included in the carrying amounts thereof. A financial asset is derecognized when the rights to receive cash flows from the investment have expired or have been transferred and when the Company has transferred substantially all the risks and rewards of ownership of the asset. Dividends are recognized as income on the ex-dividend date. Realized gains and losses and unrealized appreciation and depreciation are determined on an average cost basis. The cost of investments is determined using the average cost method.

Written option premiums received by the Company are, so long as the options are outstanding, reflected as a liability, in the Statements of Financial Position and are valued at an amount equal to the current market value of an option that would have the effect of closing the position. Gains or losses realized upon expiration or exercise of the option are included in net realized gain (loss) on investments and derivatives in the Statements of Comprehensive Income/(Loss).

The Priority Equity shares rank prior to the Class A and Class B shares and are thus not subordinate to all other classes of puttable instruments and therefore, the shares have been classified as financial liabilities. These shares are carried at amortized cost. Amortization of premiums or discounts on the issuance of Priority Equity shares is included in the Statements of Comprehensive Income/(Loss).

The Class B shares are subordinate to the Priority Equity shares but rank prior to the Class A shares and are thus not subordinate to all other classes of puttable instruments and therefore, the shares have been classified as financial liabilities. These shares are carried at amortized cost.

The Class A shares may be retracted monthly, annually, or on the termination date of the Company. As a result, the shares contain multiple contractual obligations, and therefore, have been presented as financial liabilities.

The net asset value of the Company is determined in accordance with requirements of law, including National Instrument 81-106, Investment Fund Continuous Disclosure, and is used to process shareholder transactions. For financial reporting purposes, net assets of the Company is determined as the difference between the aggregate amount of the Company's assets and the aggregate amount of its liabilities, excluding Priority Equity shares and net assets attributable to holders of redeemable Class A shares ("Net Assets of the Company"). At times when there is an unequal number of Class A and Priority Equity shares outstanding, a notional unit amount will be determined based on the net assets attributable to each of the Class A and Priority Equity shares as a proportion of the net asset value of the Company.

Valuation of investments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded shares and options) are based on the last traded prices at the close of trading on the reporting date. The Company uses the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the specific facts

TDB SPLIT CORP.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIODS ENDED MAY 31, 2022 AND 2021 (UNAUDITED)

and circumstances. The Company's policy is to recognize transfers into and out of the fair value hierarchy levels as of the date of the event or change in circumstances giving rise to the transfer.

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date. Valuation techniques include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and others commonly used by market participants and which make the maximum use of observable inputs. Refer to note 5 for further information about the Company's fair value measurements.

Cash

Cash is comprised of demand deposits with a financial institution.

Translation of foreign currencies

The Company's functional and presentation currency is Canadian dollars. The fair value of investments and other assets and liabilities in foreign currencies are translated into the Company's functional currency at the rates of exchange prevailing at each measurement date. Purchases and sales of investments, income and expenses are translated at the rates of exchange prevailing on the respective dates of such transactions.

Management fees and administration fees

Management fees and administration fees are accrued by the Company over time, as services are rendered by Quadravest. Refer to note 7 for further information about the calculation of management and administration fees of the Company.

Increase (decrease) in net assets attributable to holders per redeemable Class A share

Increase (decrease) in net assets attributable to holders per redeemable Class A share is based on the increase or decrease in net assets attributable to holders of redeemable Class A shares divided by the weighted average number of such shares outstanding during the period. Refer to note 8 for the calculation.

Taxation

The Company qualifies as a mutual fund corporation under the Income Tax Act (Canada) (the "Tax Act") and it is subject to income tax in each taxation year on the amount of its net income for the taxation year, including net realized taxable capital gains, if any, at the rate applicable to mutual fund corporations. The general income tax rules associated with a public corporation also apply to a mutual fund corporation with the exception that taxes payable on net realized capital gains are refundable on a formula basis when its shares are redeemed or when it pays capital gains dividends out of its capital gains dividend account to its shareholders.

Interest and foreign income are taxed at normal corporate rates applicable to mutual fund corporations and can be reduced by permitted deductions for tax purposes.

All of the Company's expenses including management fees, administration fees and operating expenses will be taken into account in determining its overall tax liability.

TDB SPLIT CORP.**NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIODS ENDED **MAY 31, 2022** AND **2021** (UNAUDITED)

As a mutual fund corporation, taxable dividends received from taxable Canadian corporations are subject to a Part IV tax of 38 1/3%. Such taxes are fully refundable upon payment of taxable dividends to its shareholders on a basis of \$1.15 for every \$3 of dividends paid. Any such tax paid is reported as an amount receivable until recovered through the payment to shareholders of dividends out of net investment income. All tax on net taxable realized capital gains is refundable when the gains are distributed to shareholders as capital gains dividends or through redemption of shares at the request of shareholders, while the Company qualifies as a mutual fund corporation. As a result of the capital gains refund mechanism and Part IV tax refunds, the Company recovers any Canadian income taxes paid in respect of its capital gains and taxable Canadian dividends. As a result, the Company has determined that it is in substance not taxable. Consequently, the tax benefit of capital and non-capital losses and other temporary differences have not been reflected in the Statements of Financial Position as deferred income tax assets or liabilities.

The Company has estimated accumulated non capital losses for tax purposes as at May 31, 2022 of \$5,658,772 (November 30, 2021-\$5,658,772) that are available to lower taxable income in future periods if required and expire after the scheduled termination date of the Company on December 1, 2024. The Company also has estimated accumulated capital losses for tax purposes of \$5,474,745 (November 30, 2021-\$5,474,745) which may be used to lower future capital gains if required and which do not expire.

4. Critical Accounting Estimates and Judgments

The preparation of these financial statements include estimates and assumptions by management based on past experiences, present conditions and expectations of future events. Where estimates were made, the reported amounts for assets, liabilities, income and expenses may differ from the amounts that would otherwise be reflected if the ultimate outcome of all uncertainties and future events were known at the time these financial statements were prepared. The Company's most significant estimates involve the measurement of investments and derivatives at fair value as described in note 5.

5. Management of Risk of Financial Instruments

The Company classifies fair value measurements within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and lowest priority to unobservable inputs. The three levels of the fair value hierarchy are:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can assess at the measurement date;

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 - Inputs that are unobservable for the asset or liability.

The following table illustrates the classification of the Company's financial instruments within the fair value hierarchy as at May 31, 2022 and November 30, 2021:

Financial assets and liabilities at fair value as at May 31, 2022

	Level 1	Level 2	Level 3	Total
Equities	\$87,458,935	-	-	\$87,458,935
Options	(\$68,725)	-	-	(\$68,725)
	<u>\$87,390,210</u>	<u>-</u>	<u>-</u>	<u>\$87,390,210</u>

TDB SPLIT CORP.**NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIODS ENDED **MAY 31, 2022** AND **2021** (UNAUDITED)

Financial assets and liabilities at fair value as at November 30, 2021

	Level 1	Level 2	Level 3	Total
Equities	\$85,084,472	-	-	\$85,084,472
Options	<u>(\$63,000)</u>	<u>-</u>	<u>-</u>	<u>(\$63,000)</u>
	\$85,021,472	-	-	\$85,021,472

All fair value measurements above are recurring and fair values are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. There were no transfers or reclassifications between levels for the period ended May 31, 2022 or the year ended November 30, 2021.

The Company's investment activities expose it to a variety of financial risks: market risk (including price risk, interest rate risk and currency risk), credit risk and liquidity risk.

Any sensitivity analysis presented below may differ from actual results and the difference could be material.

Market Price Risk

All securities investments present a risk of loss of capital.

The market price risk is affected by three main components: price risk, interest rate risk and foreign currency movements.

Price risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk).

Financial markets and equity markets in particular have experienced significant volatility in response to the Covid-19 pandemic. The investment portfolio of the Company has been subject to these market fluctuations and may continue to experience significant volatility as the situation evolves.

The supplemental covered call writing program generates an additional stream of income to the portfolio which may also help mitigate against market price declines during periods in which a covered call option is written against a position in TD Bank.

The Company is exposed to other price risk from its investment in equity securities and written options. As at May 31, 2022, had the prices on the respective stock exchanges for these equity securities increased by 10%, with all other variables held constant, Net Assets of the Company would have increased by approximately \$8,147,000 (November 30, 2021-\$8,278,000). Similarly, had the prices on the respective stock exchanges for these equity securities decreased by 10%, with all other variables held constant, Net Assets of the Company would have decreased by approximately \$8,708,000 (November 30, 2021-\$8,474,000).

Interest rate risk

Interest rate risk is the risk that the fair value of interest bearing financial instruments will fluctuate due to changes in market interest rates. The majority of the Company's financial assets and liabilities are non interest bearing and as such are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates (consistent with previous period). The Priority Equity share Portfolio Protection Plan, which was implemented in March 2020 and unwound in February 2021, provides that if the net asset value of the Company declines below a specified level, QuadraVest will liquidate a portion of TD Bank

TDB SPLIT CORP.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIODS ENDED MAY 31, 2022 AND 2021 (UNAUDITED)

common shares held by the Company and hold cash or acquire permitted debt securities. If debt securities were held, the Company would be subject to interest rate risk. During the time the plan was implemented, only cash was held. The intent of this strategy is to help preserve capital and provide the Priority Equity shares with full repayment of \$10.00 per Priority Equity share.

Currency risk

Currency risk is the risk that financial instruments that are denominated in a currency other than the Canadian dollar, which is the Company's reporting currency, will fluctuate due to changes in exchange rates. The portfolio holdings and other net assets of the Company are denominated in Canadian dollars and therefore there is no currency risk (consistent with previous period).

Other risks

Credit risk

Credit risk is the risk that a counterparty will be unable to pay amounts in full when due. All of the Company's transactions are in listed securities and options and are settled and paid for using approved brokers. The risk of default is considered minimal as delivery of securities sold is only made once the broker has received payment. Payment is made on purchase once the securities have been received by the broker. Credit risk of cash is considered low as it is held at a AA-rated Canadian bank (consistent with prior period).

Liquidity risk

Liquidity risk is the risk that the Company may not be able to settle or meet its obligations on time or at a reasonable price. The Company is exposed to liquidity risk primarily through its monthly and annual retractions of Class A shares and Priority Equity shares. The Company receives adequate notice for all retraction requests. The Company's portfolio is invested in TD Bank which is a highly liquid large capitalization stock that trades on the Toronto Stock Exchange ("TSX") (consistent with previous period). All Class A shares and Priority Equity shares outstanding are redeemable on a monthly and annual basis but are scheduled to be redeemed upon termination of the Company. All other financial liabilities are payable within three months from the end of the period.

Concentration risk

The Company's only equity holding is concentrated in the common shares of TD Bank and as such will be exposed to the specific factors that affect this stock (consistent with previous period).

The Company's investment portfolio is concentrated in the following segments as at:

	May 31, 2022	November 30, 2021
TD Bank common shares	95.8%	98.6%
Call options written	-0.1%	-0.1%
Other assets less liabilities (excluding Priority Equity shares)	4.3%	1.5%
	100%	100%

TDB SPLIT CORP.**NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIODS ENDED **MAY 31, 2022** AND **2021** (UNAUDITED)

6. Redeemable Units**Priority Equity shares**

The Company is authorized to issue an unlimited number of Priority Equity shares.

<u>Priority Equity share transactions</u>	May 31, 2022	May 31, 2021
Beginning of period	5,941,760	4,954,760
Issued during the period	92,500	987,000
End of period	<u>6,034,260</u>	<u>5,941,760</u>

Priority Equity shares are entitled to cumulative monthly cash dividends of \$0.04375 per Priority Equity share. All Priority Equity shares outstanding on the termination date will be redeemed by the Company on that date. The Priority Equity shares have been presented as liabilities in the financial statements.

Priority Equity shares trade under the symbol "XTD.PRA" on the TSX. The trading price of Priority Equity shares on the TSX was \$10.11 as at May 31, 2022 (November 30, 2021-\$10.50). Priority Equity shares may be surrendered at any time for retraction at specified retraction amounts, but will be retracted only on the last day of each month. Shareholders who concurrently retract a Priority Equity share and a Class A share (together, a "unit") in the month of December in each year will be entitled to receive an amount equal to the net asset value per unit calculated on the last day of December. Priority Equity shares retracted in any other month will receive a retraction price based on a discounted specified retraction formula. Under the terms of a recirculation agreement, the Company may, but is not obligated to, require the recirculation agent to use its best efforts to find purchasers for any Priority Equity shares or Class A shares tendered for retraction.

The Priority Equity shares rank in priority to the Class A shares and Class B shares with respect to the payment of dividends. Priority Equity shares rank in priority to the Class A shares upon termination of the Company.

On December 2, 2021, the Company announced the commencement of an at-the-market equity program ("ATM Program") that allows the Company to issue shares of the Company to the public from time to time, at the Company's discretion. Any Class A shares or Priority Equity shares sold in the ATM Program will be sold through the TSX or any other marketplace in Canada on which the Class A shares and Priority Equity shares are listed, quoted or otherwise traded at the prevailing market price at the time of sale.

During the period ended May 31, 2022, 92,500 Priority Equity shares were sold through the ATM Program at an average selling price of \$10.30 per Priority Equity share. Gross proceeds, net proceeds and commissions on the Priority Equity share sales were \$952,660, \$929,535 and \$23,125, respectively.

The Company issued 987,000 Priority Equity shares at \$10.00 per share for gross proceeds of \$9,870,000 pursuant to a secondary offering that was completed on April 7, 2021. Agents' fees and issuance costs were \$356,357 in connection with this offering.

TDB SPLIT CORP.**NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIODS ENDED **MAY 31, 2022** AND **2021** (UNAUDITED)

Class A shares and Class B sharesAuthorized

An unlimited number of Class A shares

1,000 Class B shares

<u>Class A share transactions</u>	May 31, 2022	May 31, 2021
Beginning of period	5,941,760	4,954,760
Issued during the period	<u>92,500</u>	<u>987,000</u>
End of period	6,034,260	5,941,760

Class A shares were originally issued at \$10.00 per share. Class A share distributions are targeted at \$0.05 per month per share, when the net asset value per unit exceeds \$12.50. All Class A shares outstanding on the termination date will be redeemed by the Company on that date. Class A shares trade under the symbol "XTD" on the TSX. The trading price of Class A shares on the TSX was \$5.63 as at May 31, 2022 (November 30, 2021-\$5.01). Class A shares may be surrendered at any time for retraction at specified retraction amounts, but will be retracted only on the last day of each month. Shareholders who concurrently retract a Class A share and a Priority Equity share in the month of December in each year will be entitled to receive an amount equal to the net asset value per unit calculated on the last day of December. Class A shares retracted in any other month will receive a retraction price based on a discounted specified retraction formula. Under the terms of a recirculation agreement, the Company may, but is not obligated to, require the recirculation agent to use its best efforts to find purchasers for any Priority Equity shares or Class A shares tendered for retraction. Gains or losses from the redemption of shares, if any, are recorded in gain (loss) on redemptions on the Statements of Comprehensive Income/(Loss).

The Priority Equity shares rank in priority to the Class A shares with respect to the payment of dividends. Upon the termination of the Company, Class A shareholders will receive an amount equal to the net asset value per unit less \$10.00 (the repayment value of the Priority Equity shares). During the period ended May 31, 2022, 92,500 Class A shares were sold through the ATM Program at an average selling price of \$5.36 per Class A share. Gross proceeds, net proceeds and commissions on the Class A share sales were \$495,943, \$492,024 and \$3,919, respectively.

The Company issued 987,000 Class A shares at \$5.20 per share for gross proceeds of \$5,132,400 pursuant to a secondary offering that was completed on April 7, 2021. Agents' fees and issuance costs were \$316,877 in connection with this offering.

The holders of Class B shares are not entitled to receive dividends. The Class B shares are retractable at a price of \$1.00 per share. Class B shareholders are entitled to one vote per share. On May 29, 2007, the Company issued 1,000 Class B shares to TDb Split Corp. Holding Trust, for cash consideration of \$1,000.

7. Expenses

The Company is responsible for all expenses incurred in connection with the operation and administration of the Company, including, but not limited to, accounting and administration fees, custodian fees, transfer agent fees, legal and audit expenses, fees payable to the independent directors of the Company and the Company's independent review committee, regulatory filing and stock exchange fees, costs of reporting to shareholders and costs and expenses arising as a result of complying with all applicable laws, regulations and policies.

Pursuant to the management agreement, Quadravest is entitled to an administration fee payable monthly in arrears at an annual rate of 0.10% of the net asset value of the Company, which includes

TDB SPLIT CORP.**NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIODS ENDED **MAY 31, 2022** AND **2021** (UNAUDITED)

the outstanding Priority Equity shares, calculated as at each month-end valuation date and an amount equal to the service fee payable to dealers on the Class A shares at a rate of 0.50% of the net asset value attributable to Class A shares per annum. No service fee will be paid in any calendar quarter if regular dividends are not paid to holders of Class A shares in respect of each month in such calendar quarter. On May 31, 2022, Quadravest announced that effective June 1, 2022, the Company will discontinue the payment of the service fee.

Pursuant to the terms of the investment management agreement, Quadravest is entitled to a base management fee payable in arrears at an annual rate equal to 0.55% of the net asset value of the Company, which includes the outstanding Priority Equity shares, calculated as at each month-end valuation date.

The monthly discount to net asset value of 2% applicable to the redemption of Priority Equity shares and Class A shares is payable to Quadravest. Redemption fees paid for the period ending May 31, 2022 were \$NIL (May 31, 2021-\$NIL).

Total management fees of \$301,864 (May 31, 2021-\$232,278) incurred during the period include the administration fee and base management fee. As at May 31, 2021, \$49,724 (November 30, 2021-\$47,222) was payable to the Manager with respect to management and administrative fees.

The brokerage commissions paid during the period by the Company for its portfolio transactions were \$7,075 (May 31, 2021-\$16,042).

8. Increase (decrease) in net assets attributable to holders per redeemable Class A share

The increase (decrease) in net assets attributable to holders per redeemable Class A share for the periods ended May 31, 2022 and 2021 is calculated as follows:

	2022	2021
Increase (decrease) in net assets attributable to holders of redeemable Class A shares	\$5,448,223	\$12,448,641
Weighted average Class A shares outstanding	5,983,410	5,283,760
Increase (decrease) in net assets attributable to holders of redeemable Class A shares per share	\$0.91	\$2.36

9. Distributions

Distributions per share were as follows:

	May 31, 2022	May 31, 2021
Priority Equity shares	\$0.2625	\$0.2625
Class A shares	\$0.30	\$0.25

TDB SPLIT CORP.**NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIODS ENDED **MAY 31, 2022** AND **2021** (UNAUDITED)

10. Capital Management

The Company considers its capital to consist of Class A, Class B and Priority Equity shares.

The Company's objectives in managing its capital are:

- i) to provide holders of Priority Equity shares with fixed cumulative preferential monthly cash dividends in an amount of \$0.04375 per Priority Equity share to yield 5.25% per annum on the Priority Equity Share Repayment Amount and to return the Priority Equity Share Repayment Amount on the termination date; and
- ii) to provide holders of Class A shares with regular monthly cash distribution targeted to be \$0.05 per Class A share when the net asset value per unit exceeds \$12.50 and to permit such holders to participate in all growth in the net asset value of the Company above \$10.00 per unit.

In order to manage its capital structure, the Company may adjust the amount of dividends paid to shareholders or return capital to shareholders.

11. Reconciliation of net asset value per Class A share to net assets attributable to holders per redeemable Class A share

As at May 31, 2022 and November 30, 2021, there were no differences between net asset value per Class A share used for transactional purposes and net assets attributable to holders per redeemable Class A share for financial reporting purposes.

QUADRAVEST CAPITAL MANAGEMENT INC.

Quadravest Capital Management Inc. was formed in 1997 and is focused on the creation and management of enhanced yield products for retail investors. The investment strategy combines fundamental based equity investing with covered call writing. Guided by four key principles, Quadravest sets attainable investment objectives that allow the team to stay focused on a long-term investment strategy.

The four principles – innovation in financial products, discipline in investment management, solid results for investors, and excellence in client service – form the foundation of Quadravest. Each member of the firm’s tight-knit team is committed to upholding these principles, ensuring a coherence and dedication that is unique to the Company.

Quadravest has raised over \$2.5 billion in initial public offerings.
