# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 1. NATURE OF OPERATIONS AND GOING CONCERN

Klondike Silver Corp. (the “Company”) was incorporated on March 2, 2005 under the laws of the Province of British Columbia, Canada. The Company is a public company listed on the TSX Venture Exchange (the “TSX.V”), trading under the “KS” symbol. The address of the Company’s corporate records office and principal place of business is Suite 804 – 750 West Pender Street, Vancouver, British Columbia V6C 2T7. The principal business of the Company is the exploration of mineral properties in Canada and it is considered to be an exploration company.

The Company incurred a net loss and comprehensive loss of \$249,375 for the six months ended November 30, 2025 (November 30, 2024 - \$356,859) and had current liabilities in excess of current assets at November 30, 2025 of \$4,913,095 (May 31, 2025 - \$4,680,775) and a deficit of \$34,039,374 (May 31, 2024 - \$33,789,999). These statements have been prepared on a going concern basis, which presumes the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. The Company’s ability to continue as a going concern is dependent upon achieving profitable operations and upon obtaining additional financing. While the Company is expending its best efforts in this regard, the outcome of these matters cannot be predicted at this time.

The Company is in the process of acquiring, exploring and developing its exploration and evaluation assets and has not yet determined whether the properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets and related deferred exploration costs are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production. The operations of the Company have primarily been funded by the issuance of common shares and ancillary income. Continued operation of the Company is dependent on the Company’s ability to complete equity financing or generate profitable operations in the future. Management’s plan in this regard is to secure additional funds through future equity financings, which may not be available or may not be available on reasonable terms. These factors may cast significant doubt on the Company’s ability to continue as a going concern. Accordingly, the financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities, contingent obligations and commitments other than in the normal course of business and at amounts different from those in the financial statements. Such adjustments could be material.

### 2. BASIS OF PRESENTATION

#### a) Statement of Compliance

These financial statements have been prepared in accordance with IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

#### b) Basis of Measurement and Presentation

These financial statements have been prepared on a historical cost basis except for financial instruments that have been measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. In the opinion of management, all adjustments (including normal recurring accruals), considered necessary for a fair presentation have been included.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 2. BASIS OF PRESENTATION (Continued)

#### c) Foreign Currencies

The presentation currency of the Company and the functional currency of the Company is the Canadian dollar.

Transactions in currencies other than the functional currency are recorded at the rates of exchange prevailing on the dates of the transactions. At each financial position reporting date, monetary assets and liabilities that are denominated in foreign currencies are translated at the rates prevailing at the date of the statement of financial position. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

#### d) Critical Accounting Judgments and Estimates

The preparation of these financial statements requires management to make judgments and estimates that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these judgments and estimates. The financial statements include judgments and estimates, which, by their nature, are uncertain. The impacts of such judgments and estimates are pervasive throughout the financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate occurs and may affect both current and future periods.

Significant assumptions about the future and other sources of judgments and estimates that management has made at the statement of financial position date, that could result in a material adjustment to the carrying amounts of assets and liabilities, relate to, but are not limited to, the following:

#### i) Recoverability of asset carrying values

Management is required to assess impairment in respect of exploration and evaluation assets. Note 7 discloses the carrying value of these assets. The triggering events for the impairment of exploration and evaluation assets are defined in *IFRS 6 Exploration for and Evaluation of Mineral Resources*.

Impairment of exploration and evaluation assets is assessed at the CGU level. The Company has used each of its mineral properties to establish its CGUs. In making the assessment, management is required to make judgments on the status of each project and the future plans towards finding commercial reserves. The nature of exploration and evaluation activity is such that only a proportion of projects are ultimately successful and some assets are likely to become impaired in future periods.

The Company assesses its mill and equipment for possible impairment if there are events or changes in circumstances that indicate that carrying values of the assets may not be recoverable, or at least annually.

The assessment of any impairment of mill and equipment is dependent upon estimates of recoverable amounts that take into account factors such as economic and market conditions affecting prices, timing of cash flows, future development costs, and the useful lives of assets and their related salvage values.

### 2. BASIS OF PRESENTATION (Continued)

#### d) Critical Accounting Judgments and Estimates (Continued)

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### ii) Decommissioning liabilities

Provisions for decommissioning liabilities associated with the Company's operations are based on current legal and constructive requirements, technology, price levels and expected plans for remediation. Amounts recorded for decommissioning liabilities require the use of management's best estimates of future decommissioning expenditures, expected timing of expenditures and future inflation rates. The estimates are based on internal and third-party information and actual costs and cash outflows can differ from estimates due to changes in laws and regulations, public expectations, prices, discovery and analysis of site conditions, and changes in clean up technology.

### iii) Accrued liabilities

The Company has applied judgment in recognizing accrued liabilities, including judgment as to whether the Company has a present obligation (legal or constructive) as a result of a past event; whether it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and whether a reliable estimate can be made of the amount of the obligation.

### iv) Share-based compensation

The Company uses the Black-Scholes Option Pricing Model for valuation of share-based compensation and other equity-based payments. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate, and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company's earnings and equity reserves.

### v) Deferred income tax assets

The Company has applied judgment in the inputs used in assessing the recoverability of deferred income tax assets to the extent that the deductible temporary differences will reverse in the foreseeable future and that the Company will have future taxable income.

### vi) Convertible debenture

The convertible debentures are separated into their liability and equity components on the statements of financial position. The liability component is initially recognized at fair value, calculated at the present value of the liability based upon non-convertible debt issued by comparable issuers and accounted for at amortized cost using the effective interest rate method. The effective interest rate used is the estimated rate for non-convertible debt with similar terms at the time of issue.

### vii) Going concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay its ongoing operating expenditures and meet its liabilities for the ensuing year involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 3. MATERIAL ACCOUNTING POLICY INFORMATION

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

#### a) Financial Instruments and Risk Management

##### i) Classification

The Company classifies its financial instruments in the following categories: at fair value through profit or loss ("FVTPL"), at fair value through other comprehensive income (loss) ("FVTOCI") or at amortized cost. The Company determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Company's business model for managing financial assets and their contractual cash flow characteristics. Equity instruments that are held for trading are classified as FVTPL. For other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL or if the Company has opted to measure them at FVTPL.

The following table shows the classification under IFRS 9:

<b>Financial assets/liabilities</b>	<b>Classification IFRS 9</b>
Cash	FVTPL
Reclamation bonds	FVTPL
Receivables	Amortized cost
Accounts payable	Amortized cost
Due to related parties	Amortized cost
Loans	Amortized cost
Mortgage payable	Amortized cost
Convertible debenture	Amortized cost
CEBA loan	Amortized cost

##### ii) Measurement

###### *Financial assets and liabilities at amortized cost*

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively and subsequently carried at amortized cost less any impairment.

###### *Financial assets and liabilities at FVTPL*

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the statements of operations. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in the statements of operations in the period in which they arise.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### a) Financial Instrument and Risk Management (Continued)

#### iii) Impairment of financial assets at amortized cost

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If, at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to the twelve month expected credit losses. The Company shall recognize in the statements of operations, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

#### iv) Derecognition of financial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity. Gains and losses on derecognition are generally recognized in the statements of operations. The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when the terms of the liability are modified such that the terms and/or cash flows of the modified instrument are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value. Gains and losses on derecognition are generally recognized in the statements of operations.

#### v) Derecognition of financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when the terms of the liability are modified such that the terms and/or cash flows of the modified instrument are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value. Gains and losses on derecognition are generally recognized in the statements of operations.

#### vi) Financial instruments risks

Financial instruments are exposed to credit, liquidity and market risks.

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. Market risk is that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of price risk: currency risk, interest rate risk and other price risk.

Liquidity risk is significant to the Company's statement of financial position. The Company manages these risks by actively pursuing additional share capital issuances to settle its obligations in the normal course of its operating, investing and financing activities. The Company's ability to raise share capital is indirectly related to changing metal prices and the price of gold, silver, zinc and lead in particular. To mitigate this market risk, management of the Company actively pursues a diversification strategy with property holdings focusing on base metals as well as precious metals.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### b) Cash and Cash Equivalents

Cash and cash equivalents consist of balances with banks, guaranteed investment certificates which are redeemable without penalty and investments in financial instruments with maturities within three months held for the purpose of meeting short-term cash commitments rather than for investing or other purposes. The Company places its cash and cash equivalents with institutions of high-credit worthiness. As at November 30, 2025 and May 31, 2025 the Company only held cash.

#### c) Mill and Equipment

The mill comprises a used ore processing plant, used buildings and related equipment stated at cost less accumulated amortization. Amortization on the mill and equipment is provided on the straight line method over their estimated useful lives ranging from three to twenty years.

#### d) Exploration and Evaluation Assets

Exploration and evaluation expenditures include the costs of acquiring licenses, costs associated with exploration and evaluation activities and the fair value (at acquisition date) of exploration and evaluation assets acquired in a business combination. Exploration and evaluation expenditures are capitalized as incurred. Costs incurred before the Company has obtained the legal rights to explore an area are recognized in profit or loss. Ancillary income received while the properties are in the exploration stage is credited to the carrying value of the mineral properties. Cost recoveries are credited against specific property costs, as received.

Exploration and evaluation assets are assessed for impairment if (i) sufficient data exists to determine technical feasibility and commercial viability and (ii) facts and circumstances suggest that the carrying amount exceeds the recoverable amount.

Facts and circumstances relating to impairment as defined in *IFRS 6 Exploration for and Evaluation of Mineral Resources* are as follows:

- the period for which the entity has the right to explore in the specific area has expired during the period or will expire in the near future and is not expected to be renewed;
- substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;
- exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the entity has decided to discontinue such activities in the specific area;
- sufficient data exist to indicate that although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

In making the assessment, management is required to make judgments on the status of each project and the future plans towards finding commercial reserves. The nature of exploration and evaluation activity is such that only a proportion of projects are ultimately successful and some assets are likely to become impaired in future periods.

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, which management has determined to be indicated by a feasibility study, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified to mining property and development assets.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### d) Exploration and Evaluation Assets (Continued)

Recoverability of the carrying amount of any exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, sale of the respective areas of interest.

It is management's judgment that none of the Company's exploration and evaluation assets have reached the development stage and as a result are all considered to be exploration and evaluation assets.

Although the Company has taken steps to verify title to exploration and evaluation assets in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

#### e) Impairment of Non-financial Assets

Impairment tests on intangible assets with indefinite useful economic lives are undertaken annually at the financial year-end. Other non-financial assets, including the mill, equipment and exploration and evaluation assets are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount, which is the higher of value in use and fair value less costs to sell, the asset is written down accordingly.

Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the asset's cash-generating unit, which is the lowest group of assets in which the asset belongs for which there are separately identifiable cash inflows that are largely independent of the cash inflows from other assets. The Company has one cash-generating unit for which impairment testing is performed.

An impairment loss is recognized in the statement of operations, except to the extent they reverse gains previously recognized in other comprehensive income or loss.

#### f) Decommissioning Liabilities

The Company is subject to various government laws and regulations relating to environmental disturbances caused by exploration and evaluation activities. The Company records the present value of the estimated costs of legal and constructive obligations required to restore the exploration sites in the period in which the obligation is incurred. The nature of the rehabilitation activities includes restoration, reclamation and re-vegetation of the affected exploration sites.

The rehabilitation provision generally arises when the environmental disturbance is subject to government laws and regulations. When the liability is recognized, the present value of the estimated costs is capitalized by increasing the carrying amount of the related mining assets. Over time, the discounted liability is increased for the changes in present value based on current market discount rates and liability specific risks.

Additional environmental disturbances or changes in rehabilitation costs will be recognized as additions to the corresponding assets and rehabilitation liability in the period in which they occur.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### g) Provisions

Provisions are recognized where a legal or constructive obligation has been incurred as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. If material, provisions are measured at the present value of the expenditures expected to settle the obligation. The increase in any provision due to the passage of time is recognized as accretion expense.

#### h) Share Capital

##### i) Non-monetary consideration

Agent's warrants issued as purchase consideration in non-monetary transactions are recorded at fair value determined by management using the Black-Scholes Option Pricing Model. The fair value of the shares issued as consideration for exploration and evaluation assets is based on the trading price of those shares on the TSX.V on the date of the agreement to issue shares as determined by the Board of Directors. Proceeds from unit placements are allocated between shares and warrants issued using the residual method. The residual value method first allocates value to the more easily measurable component based on fair value and then the residual value, if any, to the less easily measurable component.

The fair value of common shares issued as part of private placements units was determined to be the more easily measurable component and are valued at their fair value, as determined by the closing quoted bid price on the announcement date. The balance, if any, is allocated to attached warrants. Any fair value attributed to warrants is recorded to reserves.

##### ii) Flow-through shares

The Company will from time to time, issue flow-through common shares to finance a significant portion of its exploration program. Pursuant to the terms of the flow-through share agreements, these shares transfer the tax deductibility of qualifying resource expenditures to investors. On issuance, the Company bifurcates the flow-through share into: i) a flow-through share premium, equal to the estimated premium, if any, investors pay for the flow-through feature, which is recognized as a liability and ii) share capital. Upon expenses being incurred, the Company derecognizes the liability and recognizes a deferred tax liability for the amount of tax reduction renounced to the shareholders. The premium is recognized as other income and the related deferred tax is recognized as a tax provision.

The Company may also be subject to a Part XII.6 tax on flow-through proceeds, renounced under the Look-Back Rule, in accordance with Government of Canada flow-through regulations. When applicable, this tax is accrued as a financial expense until paid.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### h) Share Capital (Continued)

##### iii) Share-based payments

The share option plan allows Company employees and consultants to acquire shares of the Company. The fair value of options granted is recognized as an employee or consultant expense with a corresponding increase in equity. An individual is classified as an employee when the individual is an employee for legal or tax purposes (direct employee) or provides services similar to those performed by a direct employee.

The fair value is measured at grant date and each tranche is recognized over the period during which the options vest. The fair value of the options granted is measured using the Black-Scholes Option Pricing Model taking into account the terms and conditions upon which the options were granted. At each financial position reporting date, the amount recognized as an expense is adjusted to reflect the actual number of share options that are expected to vest.

In situations where equity instruments are issued to non-employees and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured at the fair value of the share-based payment. Otherwise, share-based payments are measured at the fair value of goods or services received.

##### iv) Share issuance costs

Costs directly attributable to the raising of share capital financing are charged against share capital. Share issuance costs incurred in advance of share subscriptions are recorded as non-current deferred assets. Share issuance costs related to uncompleted share subscriptions are charged to operations.

##### i) Loss Per Share

Basic loss per share is calculated by dividing the loss for the period by the weighted average number of common shares issued and outstanding during the period. Diluted loss per share is calculated using the treasury stock method. Under the treasury stock method, the weighted average number of common shares outstanding used for the calculation of diluted loss per share assumes that the proceeds to be received on the exercise of dilutive stock options and warrants are used to repurchase common shares at the average market price during the period. Basic and diluted loss per share is equal as outstanding stock options and warrants were all anti-dilutive.

##### j) Income Taxes

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in net income except to the extent that they relate to a business combination or items recognized directly in equity or in other comprehensive income or loss.

Current income taxes are recognized for the estimated income taxes payable or receivable on taxable income or loss for the current fiscal year and any adjustment to income taxes payable in respect of previous years. Current income taxes are determined using tax rates and tax laws that have been enacted or substantively enacted by the year-end date.

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting nor taxable profit or loss.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### j) Income taxes (Continued)

Recognition of deferred tax assets for unused tax losses, tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available against which the deferred tax asset can be utilized. At the end of each fiscal year the Company reassesses unrecognized deferred tax assets. Deferred income tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority.

#### k) Convertible Debenture

The Company classifies convertible debentures into debt and equity components based on the residual method. The liability component is calculated at the present value of the principal and interest, discounted at the estimated interest rate applicable to the non-convertible debenture at the time the debenture was issued. This discount on the convertible debenture is accreted over its term to the full principle value using the effective interest rate method. The equity element of the convertible debenture comprises the value of the conversion option, being the difference between the face value of the convertible debt and the liability component. Upon recognition, the equity component is recorded to reserves.

#### j) Exploration Tax Credits

The Company recognizes mineral exploration tax credits against the exploration and evaluation assets when the amount to be received can be reasonably estimated and collection is reasonably assured.

#### k) Accounting standards issued but not yet effective

##### IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 introduces three sets of new requirements to give investors more transparent and comparable information about companies' financial performance for better investment decisions.

1. Three defined categories for income and expenses—operating, investing and financing—to improve the structure of the income statement, and require all companies to provide new defined subtotals, including operating profit.
2. Requirement for companies to disclose explanations of management-defined performance measures (MPMs) that are related to the income statement.
3. Enhanced guidance on how to organize information and whether to provide it in the primary financial statements or in the notes.

This new standard is effective for reporting periods beginning on or after January 1, 2027. The Company is currently in the process of assessing its impact on future consolidated financial statements.

### 4. RECEIVABLES

Receivables are summarized as follows:

	Nov. 30, 2025		May 31, 2025
GST receivable	\$ 4,067	\$	2,450
BCMETC (Note 7)	10,014		51,911
	\$ 14,081	\$	54,361

### 5. RECLAMATION BONDS

The reclamation bonds at August 31, 2025 of \$245,500 (May 31, 2024 - \$245,500) are recorded at fair value and consist of deposits made by the Company for indemnification of site restoration costs for the Silvana Mine, Sandon Mill and exploration sites located in BC. Reclamation bonds in the amount of \$75,000 are held in trust for the Company by a company controlled by a former director.

### 6. MILL AND EQUIPMENT

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 6. MILL AND EQUIPMENT (Continued)

The Company's Rosebery building and land, which had net book values as at November 30, 2025 of \$20,665 and \$62,773 (May 31, 2025 - \$23,248 and \$62,773) respectively, are encumbered by a first mortgage (Note 14).

\*\* Of the gross amortization the Company capitalized its mill and related equipment amortization of \$Nil (November 30, 2024 - \$64,752) to Exploration and Evaluation Assets (Note 7), with its office equipment amortization of \$57,050 (November 30, 2024 - \$390) being expensed.

### 7. EXPLORATION AND EVALUATION ASSETS

	<b>(1,303,483)</b>	(1,303,483)
<b>Balance</b>	<b>\$17,470,829</b>	\$17,420,165

#### British Columbia Properties

The Slocan Silver Camp covers an area of approximately 114 square kilometres. The claims include legacy claims, crown-granted claims and acquired or converted mineral claims. All mineral claims are contiguous.

In December 2021 the Company optioned 4 mineral claims contiguous to existing claims. \$1,000 was paid on signing and five additional \$1,000 payments due annually from 2022 to 2026. Annual payments due for 2023 and 2024 have not been made. No notice of default has been received. There is a 2.5% net smelter royalty on these 4 mineral claims of which 1.5% can be purchased back at any time for \$500,000.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 7. EXPLORATION AND EVALUATION ASSETS (Continued)

#### Yukon Property

The Company sold its interest in the Yukon Property for \$75,000 during the period.

#### BCMETC

During the six months ended November 30, 2025 the Company accrued \$Nil (May 31, 2025 - \$Nil) for the estimated BCMETC for exploration expenditures incurred during the period (Note 7).

### 8. ACCRUED LIABILITIES

Accrued liabilities are summarized as follows:

	Nov. 30, 2025	May 31, 2025
Professional fees	\$ -	30,000
Consulting	10,000	10,000
Constructive obligation	839,727	839,727
	<u>\$ 849,727</u>	<u>\$ 879,727</u>

The constructive obligation is an estimate of the current work required at the property to clear Ministry orders. The largest of the estimates are the completion of the Carpenter Creek bank fortification and the redesign of the slopes on the tailings management facility ponds.

### 9. RESTORATION PROVISION

The Company has calculated the fair value of the restoration provision as at November 30, 2025 using a pre-tax discount rate of 5% (November 30, 2024 – 5%). The estimated total future undiscounted cash flows to settle the restoration provision at May 2030 is \$573,000.

	Nov. 30, 2025	May 31, 2025
Balance, beginning of year	\$ 448,932	\$ 427,554
Accretion	10,668	21,378
Balance, end of period	<u>\$ 459,600</u>	<u>\$ 448,932</u>

The obligation consists of costs estimated for the removal of equipment currently used at the property as well as costs associated with the reclamation of the camp and work sites on the property at the end of the useful life of the Silvana Mine and Sandon Mill. It is the Company's intention to continue exploration work on the property until at least the current mineral claim expiry, for which the key ground is currently July 31, 2030. The estimate of future asset retirement obligations is subject to change based on amendments to applicable laws, management's intentions and mineral claim renewals.

The Company may be contingently liable for other decommissioning liabilities. However, such obligations are not recognized since the fair value cannot be reasonably estimated due to the uncertainty of the extent of reclamation and remediation work and the settlement dates.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 10. RELATED PARTY BALANCES AND TRANSACTIONS

Due to related party balances consist of the following\*:

	<b>Nov. 30, 2025</b>	May 31, 2025
Due to Directors and Officers*	<b>\$ 117,381</b>	\$ 65,000
	<b>\$ 117,381</b>	\$ 65,000
Loans and accrued interest to family members of Officer and Director (Notes 12)	<b>\$ 231,691</b>	\$ 189,235
Convertible Debenture due to a major shareholder**		
Convertible debenture cash value **	<b>\$ 2,754,100</b>	\$ 2,621,630
Convertible debenture statement value	<b>\$ 2,754,100</b>	\$ 2,621,630
	<b>Nov. 30, 2025</b>	May 31, 2025
Accounts payable owing to Directors and Officers*	<b>\$ 22,619</b>	\$ 22,619

\*Unsecured, non-interest bearing, with no fixed terms of repayment.

\*\* See Note 11.

The Company entered into the following transactions with related parties:

- a) The Company accrued \$22,381 (November 30, 2024 - \$Nil) due to a director for services to the Company included in compensation and consulting expenses.
- b) The Company accrued \$8,469 (November 30, 2024 - \$8,327) in interest on the loans to family members of an officer and director of the Company (Note 12).
- c) The Company accrued \$132,470 (November 30, 2024 - \$119,941) in interest on the convertible debenture to a company controlled by a major shareholder (Note 11).

### 11. CONVERTIBLE DEBENTURE

The Company has a Convertible Debenture agreement with a major shareholder with the provision that the major shareholder may make multiple advances to the Company up to a total amount of \$2,500,000. The debenture bears interest at the rate of 10% per annum, compounded monthly and matures on January 31, 2027. Advances under the Convertible Debenture agreement may be converted, in whole or in part, into Units at a conversion price equal to the then prevailing market price of the Company's common shares and the exercise price of future warrants will be equal to the then prevailing market price of the Company's common shares. The Convertible Debenture is secured by the Company's mill, equipment and under surface rights.

Changes in convertible debenture during the year:

	<b>Six months ended Nov. 30, 2025</b>	Year ended May 31, 2025
Beginning balance	<b>\$ 2,621,630</b>	\$ 2,283,525
Additions	-	29,880
Accretion	-	61,339
Interest accrual (Note 10)	<b>132,470</b>	246,886
Ending balance	<b>\$ 2,754,100</b>	\$ 2,621,630

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 12. LOANS AND ACCRUED INTEREST

As at November 30, 2025, the Company owed \$557,221 consisting of \$456,788 in loans and \$100,433 in accrued interest as follows:

- a) \$200,000 (May 31, 2025 - \$200,000) in loans payable bearing interest at 10% and currently past due with \$58,123 (May 31, 2025 - \$48,437) in accrued interest.
- b) \$12,000 (May 31, 2025 - \$12,000) in loans payable bearing interest at 10% with no fixed due date and \$2,365 (May 31, 2025 - 1,877) in accrued interest.
- c) \$1,200 (May 31, 2025 - \$1,200) in loans payable bearing interest at 12% with no fixed due date and \$252 (May 31, 2025 - \$175) in accrued interest.
- d) \$243,588 (May 31, 2025 - \$194,895) in loans payable bearing interest at 15% with no fixed due date and \$39,331 (May 31, 2025 - \$28,338) in accrued interest.
- e) \$362 (May 31, 2025 - \$315) in accrued interest on repaid loan.

Changes in Loans during the period:

	<b>Six months ended Nov. 30, 2025</b>	<b>Year ended May 31, 2025</b>
Opening balance	\$ 487,237	\$ 345,841
Loans received	48,693	105,295
Loans paid	-	(8,500)
Interest accrued	21,291	44,601
Ending balance	<u>\$ 557,221</u>	<u>\$ 487,237</u>

### 13. CEBA LOANS

The Company received \$60,000 through the Canadian Emergency Business Account Program ("CEBA Loan"), which provided financial relief for Canadian small businesses during the COVID-19 pandemic. Effective January 19, 2024, the outstanding balance on the loans bears interest at a rate of 5% per annum. To November 30, 2025, interest of \$4,834 (November 30, 2024 - \$1,508) has been recognized in the statement of comprehensive loss. The Company plans to repay the loans in the year ending May 31, 2026. The Company has repaid \$41,898 during the period.

### 14. MORTGAGE PAYABLE

The Company has a first mortgage on the Rosebery property located in Rosebery, British Columbia, Canada, in the amount of \$151,989 (May 31, 2025 - \$146,693) (Note 6). Interest payments of \$1,218 calculated at 9.95% per annum are due monthly. The mortgage renews annually in December. As at November, 2025 payments of interest on the mortgage were 12 months in arrears.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 15. SHARE CAPITAL

- a) Authorized: Unlimited common shares without par value.
- b) Issued during the year ended May 31, 2025

On July 22, 2024 the Company closed a private placement first announced April 10, 2024. The gross proceeds were \$14,500 through the issuance of 290,000 Units at a price of \$0.05 per each Unit. The Company had received \$2,000 in the prior year which was recognized as share subscription received. Each Unit consists of one common share and one share purchase warrant, with each warrant exercisable for five years at a price of \$0.05 per share in year one and two then \$0.08 per share in years three, four and five.

- c) Issued during the year ended May 31, 2024

On August 21, 2023, the Company closed a private placement tranche for total proceeds of \$150,000. The Company had received \$15,000 in the prior year which was recognized as share subscriptions received. The terms were: 3,000,000 units at a price of \$0.05 per unit. All units consist of one common share and one share purchase warrant. Each warrant entitles the holder to purchase one additional common share for three years at a price of \$0.05 per share.

On October 11, 2023, the Company issued 2,233,072 units in settlement of \$100,000 of loans and \$11,654 of interest. All units consist of one common share and one share purchase warrant. Each warrant entitles the holder to purchase one additional common share for five years at a price of \$0.05 per share.

On December 19, 2023, the Company closed a private placement tranche for total proceeds of \$20,000. The terms were: 400,000 units at a price of \$0.05 per unit. All units consist of one common share and one share purchase warrant. Each warrant entitles the holder to purchase one additional common share for three years at a price of \$0.05 per share.

- d) Warrants

In estimating the fair value of warrants issued to brokers, The Company uses the Black-Scholes Option Pricing Model, the Company is required to make assumptions. The expected volatility assumption is based on the Company's historical volatility. The risk-free interest rate assumption is based on yield curves on Canadian government zero-coupon bonds with a remaining term equal to the warrants' expected life. The Company uses historical data to estimate warrant exercise, and forfeiture within the valuation model. The Company has historically not paid dividends on its common stock.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 15. SHARE CAPITAL (Continued)

A summary of the changes in warrants is as follows:

	NUMBER OF WARRANTS OUTSTANDING	WEIGHTED AVERAGE EXERCISE PRICE
Balance, May 31, 2023	24,825,000	\$ 0.05
Issued	5,633,072	0.05
Expired	(9,825,000)	0.05
Balance, May 31, 2024	20,663,072	0.05
Issued	290,000	0.05
Expired	(15,000,000)	0.05
Balance, May 31, 2025 and Nov. 30, 2025	<b>5,923,072</b>	<b>\$ 0.05</b>

As at November 30, 2025, the following share purchase warrants were outstanding:

TOTAL NUMBER OF WARRANTS	EXERCISE PRICES	EXPIRY DATES
3,000,000	\$ 0.05	August 21, 2026
400,000	\$ 0.05	December 19, 2026
2,233,072	\$ 0.05	October 11, 2028
290,000	\$ 0.05	July 22, 2029
5,923,072		

As at November 30, 2025 the weighted average remaining contractual life of the share purchase warrants was 1.13 years (November 30, 2024 – 0.84 years) and the weighted average exercise price was \$0.05 (November 30, 2024 - \$0.05).

#### e) Stock Options

The Company has a stock option plan that provides for the issuance of options to its directors, officers, employees and consultants. The maximum number of outstanding options must be no more than 10% of the issued and outstanding shares at any point in time.

On June 27, 2023 the Company granted 19,400,000 incentive stock options exercisable for a period of three years at a price of \$0.05. The fair value of these stock based compensation options granted was estimated on the date of grant in the amount of \$291,000 using the Black-Scholes Option Pricing Model valuation model with the following assumptions: i) exercise price per share of \$0.05; ii) expected share price volatility of 91%; iii) risk free interest rate of 4.19; iv) no dividend yield; v) expected life of three years; and vi) fully vested on grant.

In estimating the fair value of options granted using the Black-Scholes Option Pricing Model, the Company is required to make assumptions. The expected volatility assumption is based on the Company's historical volatility. The risk-free interest rate assumption is based on yield curves on Canadian government zero-coupon bonds with a remaining term equal to the stock options' expected life. The Company uses historical data to estimate option exercise, forfeiture and employee termination within the valuation model. The Company has historically not paid dividends on its common stock.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 15. SHARE CAPITAL (Continued)

The following is a summary of the changes in stock options:

	NUMBER OF OPTIONS	WEIGHTED AVERAGE EXERCISE PRICE
Outstanding and exercisable at May 31, 2023	6,950,000	\$ 0.15
Options granted	19,400,000	0.05
Options expired	(6,950,000)	0.15
Outstanding and exercisable at May 31, 2024	19,400,000	\$ 0.05
Options cancelled	(10,100,000)	0.05
Outstanding and exercisable at May 31, 2025 and November 30, 2025	<b>9,300,000</b>	<b>\$ 0.05</b>

As at November 30, 2025 the following stock options were outstanding and exercisable:

NUMBER OF OPTIONS OUTSTANDING	EXERCISE PRICES	EXPIRY DATES
9,300,000	\$ 0.05	June 26, 2026

As at November 30, 2025 the weighted average remaining contractual life of the stock options was 0.58 years (November 30, 2024 – 1.57 years) and the weighted average exercise price was \$0.05 (November 30, 2024 – \$0.05).

#### f) Equity Portion of Convertible Debenture

The Company recognized the equity portion of the convertible debenture based on the residual method after calculating the fair value of the debt.

#### g) Nature and Purpose of Reserves

The reserves recorded in equity on the Company's statement of financial position from time to time will include "Contributed Surplus", "Warrant Reserve" and "Share-based Payment Reserve".

- "Contributed Surplus" recognizes amounts contributed to the Company shareholders either by way of direct contribution of cash or assets to the Company or delivery of assets to the Company having a fair value in excess of consideration paid by the Company.
- "Warrant Reserve" is used to recognize the fair value of share warrants prior to exercise or expiry.
- "Share-based Payment Reserve" is used to recognize the fair value of stock option grants prior to exercise, expiry or cancellation and the fair value of other share-based consideration paid at the date of payment.

### 16. ADMINISTRATIVE PENALTIES

The Company has been assessed \$110,000 by the Ministry of Mining and Critical Minerals of British Columbia with respect to delays in communicating and complying with Ministry orders with respect to the Company's tailings pond facility. Management is in the process of working with its engineering contractor to address the outstanding issues. The penalty amount has been accrued. The Company's appeal resulted in the appeal board confirming the penalty and payment was due March 4, 2025 and remains outstanding. The company has been assessed \$9,000 by the Ministry of Forests of British Columbia with respect to construction, maintenance and use for industrial purposes of the Idaho Peak Forest Service Road without authorization. The payment was due April 25, 2024 and \$340 in interest has been accrued.

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 17. MANAGEMENT OF CAPITAL

The Company manages its cash, common shares, stock options and warrants as capital. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of its exploration and evaluation assets and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk. The Board of Directors does not establish a quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management team to sustain the future development of the business.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue debt, acquire or dispose of assets or adjust the amount of cash and cash equivalents.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. In order to maximize exploration efforts, the Company does not pay out dividends. The Company's investment policy is to keep its cash treasury on deposit in an interest bearing Canadian chartered bank account.

There were no changes in the Company's approach to capital management during the periods ended November 30, 2025 and 2024. The Company is not subject to externally imposed capital requirements.

### 18. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial assets and financial liabilities are measured on an ongoing basis at fair value or amortized cost. The disclosures in the notes to these financial statements describe how the categories of financial instruments are measured and how income and expenses, including fair value gains and losses, are recognized.

As at November 30, 2025, the classification of the financial instruments, as well as their carrying values and fair values, are shown in the table below:

	LEVEL	FVTPL	LOANS AND RECEIVABLES/ AMORTIZED COST	TOTAL CARRYING VALUE	FAIR VALUE
<b>Financial assets</b>					
Cash	1	\$ 368	\$ -	\$ 368	\$ 368
Reclamation bonds	2	245,500	-	245,500	245,500
		\$ 245,508	\$ -	\$ 245,508	\$ 245,508
<b>Financial liabilities</b>					
Accounts payable (a)	2	\$ -	\$ (354,849)	\$ (354,849)	\$ (354,849)
Due to related parties (a)	2	-	(117,381)	(117,381)	(117,381)
Mortgage payable (a)	2	-	(151,989)	(151,989)	(151,989)
Loans and accrued interest (b)	2	-	(557,221)	(557,221)	(557,221)
Convertible debenture (c)	2	-	(2,754,100)	(2,754,100)	(2,754,100)
CEBA loans (d)	2	-	(22,937)	(22,937)	(22,937)
		\$ -	\$ (3,958,477)	\$ (3,958,477)	\$ (3,958,477)

(a) Fair value approximates the carrying amounts due to the short-term nature

(b) Face value of \$456,788 and accrued interest of \$100,433

(c) Face value of \$1,587,060 and accrued interest of \$1,167,040

(d) Face value of \$18,103 and accrued interest of \$4,834

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 18. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Continued)

The carrying values of the Company's financial liabilities were a reasonable approximation of fair value, other than where noted.

The Company is exposed to potential loss from various risks including commodity price risk, interest rate risk, currency risk, credit risk and liquidity risk. Based on the Company's operations the liquidity risk and commodity price risk are considered the most significant.

a) Commodity Price Risk

The Company's ability to raise capital to fund exploration or development activities is subject to risk associated with fluctuations in the market prices of base and precious metals including gold, silver, zinc and lead and the outlook for these metals. The Company does not have any hedging or other derivative contracts respecting its operations.

Market prices for metals historically have fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, levels of worldwide production, short-term changes in supply and demand, industrial and retail demand, central bank lending and forward sales by producers and speculators. The Company has elected not to actively manage its commodity price risk, as the nature of Company's business is in exploration.

b) Liquidity Risk

The liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due. The Company manages its liquidity risk through careful management of its financial obligations in relation to its cash position. Using budgeting processes, the Company manages its liquidity requirements based on expected cash flow to ensure there are adequate funds to meet the short term obligations during the year. In the past the Company has been able to maintain its liquidity position through private placements. However, the variable market conditions make it uncertain whether the Company can continue to raise adequate funds to meet its financial obligations. All of the liabilities presented as accounts payable and accrued liabilities are due within 90 days of May 31, 2025. Liquidity risk is assessed as high.

c) Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's primary exposure to credit risk is on cash which is held in a Canadian financial institution. The Company has minimal credit risk.

d) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company is not exposed to significant interest rate risk as it has not variable interest-bearing instruments.

### 19. INCOME TAXES

a) Provision for Income Taxes

The Company's provision for income taxes for the year ended May 31, 2025 and 2024 differs from the amounts computed by applying the statutory income tax rates to the loss before income taxes as a result of the following:

# KLONDIKE SILVER CORP.

## NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025 (Expressed in Canadian Dollars)

### 19. INCOME TAXES (Continued)

	Nov. 30, 2025	May 31, 2025
Statutory Canadian corporate tax rate	27%	27%
Expected current income tax (recovery)	\$ (211,000)	\$ (211,000)
Non-deductible permanent differences	(8,000)	(8,000)
True up of prior year differences	(733,000)	(733,000)
Change in tax assets not recognized	952,000	952,000
Income tax recovery	\$ -	\$ -

#### b) Deferred Income Tax Assets and Liabilities

The estimated tax effect of the significant components within the Company's deferred tax liability was as follows:

	Nov 30, 2025	May 31, 2025
Mineral properties	\$ (789,000)	\$ (789,000)
Convertible debenture	-	-
Asset retirement obligation	121,000	121,000
Non-capital losses carried forward	4,351,000	4,351,000
Capital assets	524,000	524,000
Share issuance costs	-	-
Valuation allowance	(4,207,000)	(4,207,000)
Net deferred income tax liabilities	\$ -	\$ -

The Company's non-capital losses in the amount of approximately \$16,269,000 begin to expire in 2026.
