

## **Sokoman Iron Corp. Announces Flow-Through Financing**

**December 29, 2017 – Sokoman Iron Corp., TSX-V SIC** (the “Company” or “SIC”) is pleased to announce that it has filed documents with the TSX Venture Exchange (the “Exchange”) seeking approval for a non-brokered Flow-Through private placement (the "Placement") for gross proceeds of \$174,960 consisting of 2,916,000 flow-through units at a price of \$0.06 per unit. The purchaser is Pavilion Flow-Through L.P. (2017).

Each flow-through unit under the Placement consists of one flow-through common share and one half warrant. Each full warrant will entitle the holder to purchase one additional non flow-through common share of the Company at an exercise price of \$0.09 during the 24 months from the closing date. All securities issued in the Placement are subject to a four month hold period. In connection with the Placement, the Company will issue 109,350 finders warrants having the same terms as the flow through warrants issued under the Placement, and pay commissions totaling \$13,122.00.

The Company plans on using the proceeds from the Placement on the Moosehead and Clarks Brook Gold Projects in Central Newfoundland. The acquisition of the Moosehead Gold project is subject to approval by the Exchange. The Company will use best efforts to ensure that such Canadian Exploration Expenses qualify as a "flow-through mining expenditure" for purposes of the Income Tax Act (Canada), related to the exploration of the Company's exploration projects.

### **About Sokoman Iron Corp.**

Sokoman Iron Corp. is a discovery-focused company with projects in Newfoundland & Labrador, Canada. The Company's primary focus is its portfolio of gold projects in Central Newfoundland including the recently acquired (pending Exchange approval) Moosehead Gold Project, the Clarks Brook Project, and the East Alder/Crippleback Lake Projects, all straddling major gold bearing structures in the region. The Company also has a 100% interest in the Iron Horse Project in the eastern Labrador Trough, and an early stage antimony (Sb) property in central Newfoundland.
