1. Nature of operations and going concern

Sokoman Minerals Corp. ("Sokoman" or "Company") is a public company listed on the TSX Venture Exchange (TSXV-SIC) and operating under the laws of the Province of British Columbia. The Company is an exploration-stage company that is in the process of exploring its mineral properties located in Canada and has not yet determined whether these properties contain reserves that are economically recoverable. The Company's registered office is 82 Richmond Street East, Toronto, Ontario M5C 1P1.

These unaudited condensed interim consolidated financial statements have been prepared using IFRS® Accounting Standards ("IFRS") applicable to a going concern which assumes continuity of operations and realization of assets and settlement of liabilities in the normal course of business for the foreseeable future, which is at least, but not limited to, one year from September 30, 2025. At September 30, 2025, the Company has an accumulated deficit of \$49,459,554 (June 30, 2025 - deficit of \$48,187,075) and has working capital of \$1,906,606 (June 30, 2025 - \$1,382,165). The Company's ability to continue as a going concern is dependent upon its ability to generate sufficient funds and continue to obtain sufficient capital from investors to meet its current and future obligations. The Company is subject to risks and challenges similar to other exploration stage companies. As a result of these risks, a material uncertainty exists that cast's significant doubt as to the appropriateness of the going concern assumption. There is no assurance that the Company's funding initiatives will continue to be successful and these unaudited condensed interim consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and consolidated statements of financial position classifications that would be necessary if the going concern assumption was inappropriate. These adjustments could be material. The Company will have to raise additional funds to advance its exploration and development efforts and, while it has been successful in doing so in the past, there can be no assurance that it will be able to do so in the future.

2. Material accounting policies

Statement of compliance

These unaudited condensed interim consolidated financial statements have been prepared in accordance with IFRS as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34 - Interim Financial Reporting. The accounting policies followed in these unaudited condensed interim consolidated financial statements are the same as those applied in the audited annual financial statements of the Company for the year ended June 30, 2025.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRS issued and outstanding as of November 28, 2025, the date the Audit Committee approved the statements.

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities and disclosures of contingent assets and contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant accounts that require estimates as the basis for determining the stated amounts include exploration and evaluation assets, share-based payments, allocation of financing proceeds, and income taxes. Differences may be material.

New and future accounting pronouncements not yet effective

Certain pronouncements have been issued by the IASB that are mandatory for accounting periods after September 30, 2025. Management is still evaluating and does not expect any such pronouncements to have a significant impact on the Company's consolidated financial statements upon adoption.

IFRS 18 - Presentation and disclosure in financial statements ("IFRS 18")

In April 2024, the IASB issued IFRS 18, focusing on presentation and disclosure in financial statements. Key changes would impact the structure of the statement of loss and comprehensive loss and amendments to disclosure requirements for certain profit or loss performance measures. IFRS 18 will replace IAS 1, effective reporting period beginning on January 1, 2027. This will also impact comparative information at the point of adoption. An assessment of the impact of the new standard will be performed on the financial statements to which the pronouncement applies.

IFRS 9 - Financial Instruments ("IFRS 9") and IFRS 7 - Financial Instruments: Disclosures ("IFRS 7")

In May 2024, the IASB issued amendments to IFRS 9 and IFRS 7. The amendments clarify the derecognition of financial liabilities and introduces an accounting policy option to derecognize financial liabilities that are settled through an electronic payment system. The amendments also clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features and the treatment of non-recourse assets and contractually linked instruments (CLIs). Further, the amendments mandate additional disclosures in IFRS 7 for financial instruments with contingent features and equity instruments classified at FVOCI. The amendments are effective for annual periods starting on or after January 1, 2026. Retrospective application is required and early adoption is permitted.

Management does not expect any material impact to the Company's consolidated financial statements upon adoption of these amendments.
