Lomiko Metals announces results of the 2024 Annual General Meeting and appointment of CEO to the board of directors

December 20th, 2024 – Montreal, Québec: **Lomiko Metals Inc. (TSX.V: LMR)** (“Lomiko Metals” or the “Company”) is pleased to announce that on December 19, 2024, shareholders approved all the resolutions put forth at the Annual and Special Meetings of Shareholders.

The number of Directors was set at four and each of the following individuals was elected as directors of the Company: Belinda Labatte, Dominique Dionne, Lee Arden Lewis and Mary Juetten.

In addition, subsequent to the meeting, the Board of Directors appointed Belinda Labatte as Executive Chair of the Board, Dominique Dionne as Lead Independent Director, Dominique Dionne as Chair of the CCG&C Committee and Mary Juetten as Chair of the Audit Committee. The Board also appointed Gordana Slepcev as President and CEO, and director to the Board and Jacqueline Michells as the CFO.

The Company is pleased that Mary Juetten, CA, CPA, Esq., GCB.D, CDI.D, CCB.D has been elected to the board of directors (the “Board”). Ms. Juetten is an accomplished executive and entrepreneur with 30+ years of experience in board, advisory, and committee roles and experience in international mine finance. Ms. Juetten brings to the Board decades of international experience managing comprehensive portfolios across diverse industries including engineering and construction, natural resources and technology, as well as project execution consulting for international clients. Lomiko is pleased to have been introduced to Mary Juetten through collaboration with the Femina Collective.

The appointment of Dale Matheson Carr-Hilton Labonte LLP, Chartered Professional Accountants, as the auditors of the Company, and the authorization for the directors to fix the remuneration to be paid to the auditors, was approved. The 2024 Omnibus Incentive Plan was re-approved.

About Lomiko Metals Inc.

The Company holds mineral interests in its La Loutre graphite development in southern Quebec. The La Loutre project site is within the Kitigan Zibi Anishinabeg (KZA) First Nation's territory. The KZA First Nation is part of the Algonquin Nation, and the KZA traditional territory is situated within the Outaouais and Laurentides regions. Located 180 kilometers northwest of Montreal, the property consists of one large, continuous block with 76 mineral claims totalling 4,528 hectares (45.3 km²).

The Property is underlain by rocks from the Grenville Province of the Precambrian Canadian Shield. The Grenville was formed under conditions that were very favorable for the development of coarse-grained, flake-type graphite mineralization from organic-rich material during high-temperature metamorphism.

Lomiko Metals published an updated Mineral Resource Estimate (MRE) in a [NI 43-101 Technical Report and Mineral Resource Estimate Update for the La Loutre Project, Quebec, Canada, prepared by InnovExplo](#) on May 11th, 2023, which estimated 64.7 million tonnes of Indicated Mineral Resources averaging 4.59% Cg per tonne for 3.0 million tonnes of graphite, a tonnage increase of 184%. Indicated Mineral Resources increased by 41.5 million tonnes as a result of the 2022 drilling campaign, from 17.5 million tonnes in 2021 MRE with additional Mineral resources reported down-dip and within marble units resulted in the addition of 17.5 million tonnes of Inferred Mineral Resources averaging 3.51% Cg per tonne for 0.65 million tonnes of contained graphite; and the additional 13,107 metres of infill drilling in 79 holes completed in 2022 combined with the refinement of the deposit and structural models contributed to the addition of most of the Inferred Mineral Resources to the Indicated Mineral Resource category, relative to the 2021 Mineral Resource Estimate. The MRE assumes a US\$1,098.07 per tonne graphite price and a cut-off grade of 1.50% Cg (graphitic carbon).

In addition to La Loutre, Lomiko has earned-in its 49% stake in the Bourier Project from Critical Elements Lithium Corporation as per [the option agreement announced on April 27th, 2021](#). The Bourier project site is located near Nemaska Lithium and Critical Elements south-east of the Eeyou Istchee James Bay territory in Quebec, which consists of 203 claims for a total ground position of 10,252.20 hectares (102.52 km²), in Canada's lithium triangle near the James Bay region of Quebec that has historically housed lithium deposits and mineralization trends.

On behalf of the Board,
Belinda Labatte
CEO and Director, Lomiko Metals Inc.

Cautionary Note Regarding Forward-Looking Information

This news release contains "forward-looking information" within the meaning of the applicable Canadian securities legislation that is based on expectations, estimates, projections and interpretations as at the date of this news release. The information in this news release about the Company; and any other information herein that is not a historical fact may be "forward-looking information" ("FLI"). All statements, other than statements of historical fact, are FLI and can be identified by the use of statements that include words such as "anticipates", "plans", "continues", "estimates", "expects", "may", "will", "projects", "predicts", "proposes", "potential", "target", "implement", "scheduled", "intends", "could", "might", "should", "believe" and similar words or expressions. FLI in this new release includes, but is not limited to: the total gross proceeds of the Offering, the use of proceeds of the Offering, the timing and successful completion of the Offering; the Company's ability to successfully fund, or remain fully funded for the implementation of its business strategy and for exploration of any of its projects (including from the capital markets);, and the expected timing of announcements in this regard. FLI involves known and unknown risks, assumptions and other factors that may cause actual results or performance to differ materially.

The FLI in this news release reflects the Company's current views about future events, and while considered reasonable by the Company at this time, are inherently subject to significant uncertainties and contingencies. Accordingly, there can be no certainty that they will accurately reflect actual results. Assumptions upon which such FLI is based include, without limitation: the Company's, ability to implement its overall business strategy and to fund, explore, advance and develop each of its projects, including results therefrom and timing thereof, the impact of increasing competition in the mineral exploration business, including the Company's competitive position in the industry, and general economic conditions, including in relation to currency controls and interest rate fluctuations.

The FLI contained in this news release are expressly qualified in their entirety by this cautionary statement, the "Forward-Looking Statements" section contained in the Company's most recent management's discussion and analysis (MD&A), which is available on SEDAR+ at www.sedarplus.ca. All FLI in this news release are made as of the date of this news release. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on such forward-looking information. The Company does not undertake to update or revise any forward-looking information contained herein to reflect new events or circumstances, except as may be required by applicable securities laws.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this news release.
