To Whom It May Concern:

Dear Sir/Madam:

This cover letter is in support of the re-filing of the Technical Report for the JOY Project, British Columbia. This *Technical Report Summarizing Exploration Work on the JOY Project, Toodoggone Region, British Columbia, Canada* was previously filed on SEDAR on May 15, 2020 under Project #3058914 (Amarc Resources Ltd.)

This report has been re-filed to reflect the following:

- Typographical errors in the equation for Copper Equivalent in Table 6-5, footnote 6 and Table 6-6, footnote 5 have been changed. It now reads $CuEQ\% = Cu\% + (Au\text{ g/t} * (Au\text{ recovery} / Cu\text{ recovery}) * (Au\text{ US\$ per oz} / 31.1034768) / (Cu\text{ US\$ per lb} * 22.04623)) + (Ag\text{ g/t} * (Ag\text{ recovery} / Cu\text{ recovery}) * (Ag\text{ US\$ per oz} / 31.1034768) / (Cu\text{ US\$ per lb} * 22.04623)) + (Mo\% * (Mo\text{ recovery} / Cu\text{ recovery}) * (Mo\text{ US\$ per lb} / Cu\text{ US\$ per lb}))$.

There have been no other changes to the report.

Yours truly,

AMARC RESOURCES LTD.
