NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

FOR THE THREE AND NINE MONTH PERIODS ENDED SEPTEMBER 30, 2021 AND 2020

1. INCORPORATION AND NATURE OF OPERATIONS

Spackman Equities Group Inc. (the "Company" or "SEGI") was incorporated on May 18, 2006 under the Canada Business Corporations Act and its shares are publicly traded on the TSX Venture Exchange ("TSXV") under the symbol SQG.

SEGI carries on the business of identifying and investing into or acquiring small/medium sized growth companies. The Company focuses on investing into or acquiring growth companies in Asia, principally in the Republic of Korea ("Korea") at attractive valuations, building a diversified portfolio of such growth companies and, ultimately, delivering the collective value derived from the performance of these businesses to the shareholders.

These unaudited interim condensed financial statements have been prepared on a going concern basis, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The Company has not yet realized profitable operations and has incurred significant losses to date resulting in a cumulative deficit of \$12,553,379 as at September 30, 2021 (December 31, 2020 - \$12,919,677). Management believes that it has the ability to raise the required additional funding. While management has been historically successful in raising the necessary capital, it cannot provide assurance that it will be able to execute on its business strategy or be successful in future financing activities. These events represent material uncertainties which may cast significant doubt on the Company's ability to continue as a going concern. As at September 30, 2021, the Company had current assets of \$1,584,966 (December 31, 2020 - \$1,120,075) to cover current liabilities of \$978,513 (December 31, 2020 - \$879,920).

The global outbreak of COVID-19 (coronavirus) has had a significant impact on businesses through the restrictions put in place by the Canadian, provincial and municipal governments regarding travel, business operations and isolation/quarantine orders. These travel restrictions are also prevalent in most parts of Asia, where the majority of the Company's investments are held. At this time, it is unknown the extent of the impact the COVID-19 outbreak may have on the Company as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. Preventative measures are in place to ensure the well-being of employees and contractors and no risks were noted at the end of the reporting period. Management continues to monitor the situation at the site and corporate office to identify any issues that may affect operational or financial reporting activities.

2. BASIS OF PRESENTATION

Investment Entity Status

The Company does not qualify as an investment entity as the concentration of its investments is not sufficiently diversified. It is determined that the company's main investee company, Spackman Entertainment Group Limited (SEGL), is considered an investment, as the Company is considered not to have significant influence over it. This investment is accounted for as a financial instrument under IFRS 9 at fair value through profit and loss.

In the prior years, it was determined that the Company did not qualify as an investment entity as the concentration of its investments was not sufficiently diversified. Accordingly, the Company re-assessed all of its investments to determine whether fair value reporting is still acceptable. It was also determined that the company's main investee company, Spackman Entertainment Group Limited (SEGL), is considered an associate as the Company is considered to have significant influence over it. As the Company considers itself to be a venture capital organization, and as permitted under IAS 28, it has elected the option to record the investment in SEGL at fair value through profit and loss.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3 Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The determination of what constitutes observable data, requires significant judgement by the Company. The Company considers observable data to be market data that is readily available, reliable, verifiable and provided from independent transactions.
