PROSPECTUS SUPPLEMENT To the Short Form Base Shelf Prospectus Dated October 27, 2021

New Issue

December 30, 2022

GOLD MINING

GOLDMINING INC.

Up to US\$50,000,000
Common Shares

This prospectus supplement (the "**prospectus supplement**") of GoldMining Inc. ("**GoldMining**" or the "**Company**"), together with the accompanying short form base shelf prospectus to which this prospectus supplement relates dated October 27, 2021 (the "**prospectus**") qualifies the distribution (the "**Offering**") of common shares (the "**Offered Shares**") of the Company having an aggregate sale price of up to US\$50,000,000 (or the equivalent in Canadian dollars, determined using the daily exchange rate posted by the Bank of Canada on the date the Offered Shares are sold). See "*Plan of Distribution*".

The issued and outstanding common shares (the "**Common Shares**") of the Company are listed and posted for trading on the Toronto Stock Exchange ("**TSX**") and on the NYSE American LLC ("**NYSE American**") under the symbol "GOLD" and "GLDG", respectively. On December 29, 2022, the last trading day before the date of this prospectus supplement, the closing price of the Common Shares on the TSX was \$1.49 per Common Share and on the NYSE American was US\$1.11 per Common Share. The TSX has conditionally approved the listing of the Offered Shares distributed under the Offering, subject to the Company fulfilling all of the requirements of the TSX. The Company has also received authorization to list the Offered Shares distributed under the Offering on the NYSE American.

The Company has entered into an equity distribution agreement dated December 30, 2022 (the "**Distribution Agreement**") with BMO Nesbitt Burns Inc., Haywood Securities Inc. and Laurentian Bank Securities Inc. (the "**Canadian Agents**") and BMO Capital Markets Corp., H.C. Wainwright & Co., LLC and Roth Capital Partners, LLC (the "**U.S. Agents**" and, together with the Canadian Agents, the "**Agents**"), pursuant to which the Company may distribute up to US\$50,000,000 (or the equivalent in Canadian dollars, determined using the daily exchange rate posted by the Bank of Canada on the date the Offered Shares are sold) of Offered Shares in the Offering from time to time through the Agents, as agents, in accordance with the terms of the Distribution Agreement. See "*Plan of Distribution*". The Offering is being made concurrently in Canada under the terms of this prospectus supplement and in the United States under the terms of the Company's registration statement on Form F-10, as amended (File No. 333-255705) (the "**Registration Statement**"), filed with the United States Securities and Exchange Commission (the "**SEC**") of which this prospectus supplement forms a part.

Sales of Offered Shares, if any, under this prospectus supplement will only be made in transactions that are deemed to be "at-the-market distributions" as defined in National Instrument 44-102 — *Shelf Distributions* ("**NI 44-102**"), involving sales made directly on the TSX, the NYSE American or on any other trading market for the Common Shares in Canada or the United States. The Offered Shares will be distributed at market prices prevailing at the time of the sale. As a result, prices may vary as between purchasers and during the period of distribution. The Agents are not required to sell any specific number or dollar amount of Offered Shares but will use their commercially reasonable efforts to sell the Offered Shares pursuant to the terms and conditions of the Distribution Agreement. **There is no minimum amount of funds that must be raised under the Offering. This means that the Offering may terminate or complete after only raising a small portion of the offering amount set out above, or none at all. The Canadian Agents are not registered as broker-dealers in the United States and, accordingly, will only sell Offered Shares on marketplaces in Canada, the U.S. Agents are not registered as investment dealers in any Canadian jurisdiction and, accordingly, will only sell Offered Shares on marketplaces in the United States. See "*Plan of Distribution*".**

The Company will pay the Agents a commission for their services in acting as agents in connection with the sale of Offered Shares pursuant to the Distribution Agreement (the "**Commission**"). The amount of the Commission shall not exceed 2.50% of the gross sales price per Offered Share sold; provided that the Company shall not be obligated to pay the Commission on any sale of Offered Shares that is not possible to settle due to: (i) a suspension or material limitation in trading in securities generally on the TSX or the NYSE American; (ii) a material disruption in securities settlement or clearance services in the United States or Canada; or (iii) failure by the applicable Agent to comply with its obligations under the terms of the Distribution Agreement. In addition, the Company has agreed to reimburse the Agents for certain expenses incurred in connection with the Offering. The Company estimates that the total expenses that it will incur related to the commencement of the Offering, excluding compensation payable to the Agents under the terms of the Distribution Agreement, will be approximately C\$350,000 (exclusive of taxes and disbursements). See "*Plan of Distribution*".

The Company is permitted, under the multi-jurisdictional disclosure system adopted by the United States and Canada ("MJDS"), to prepare this prospectus supplement and the accompanying prospectus in accordance with Canadian disclosure requirements. Purchasers of the Offered Shares should be aware that such requirements are different from those of the United States. Financial statements incorporated herein by reference have been prepared in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board ("IFRS"), and are reported in Canadian dollars, and may not be comparable to financial statements of United States companies.

Purchasers of the Offered Shares should be aware that the acquisition of the Offered Shares may have tax consequences both in the United States and in Canada. Such consequences for purchasers who are resident in, or citizens of, the United States or who are resident in Canada may not be described fully herein. Purchasers of the Offered Shares should read the tax discussion contained in this prospectus supplement and consult their own tax advisors. See "*Certain Canadian Federal Income Tax Considerations*" and "*Certain United States Federal Income Tax Considerations*".

The enforcement by investors of civil liabilities under United States federal securities laws may be affected adversely by the fact that the Company is incorporated under the laws of Canada, certain of the officers and directors are not residents of the United States, that some or all of the Agents or experts named in this prospectus supplement and in the accompanying prospectus are not residents of the United States, and that a substantial portion of the assets of the Company and such persons are located outside the United States. See "*Enforceability of Certain Civil Liabilities*".

NEITHER THE SEC NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED THE OFFERED SHARES NOR PASSED UPON THE ACCURACY OR ADEQUACY OF THE PROSPECTUS AND THIS PROSPECTUS SUPPLEMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE.

Investing in the Offered Shares is highly speculative and involves significant risks that you should consider before purchasing such Offered Shares. The risks outlined in this prospectus supplement, the accompanying prospectus and in the documents incorporated by reference herein and therein should all be carefully reviewed and considered by prospective investors in connection with an investment in the Offered Shares. See "*Risk Factors*".

In connection with the sale of the Offered Shares on our behalf, the Agents may be deemed to be an "underwriter" within the meaning of Section 2(a)(11) of the United States Securities Act of 1933, as amended (the "**U.S. Securities Act**"), and the compensation of the Agents may be deemed to be underwriting commissions or discounts. The Company has agreed to provide indemnification and contribution to the Agents against certain liabilities, including liabilities under the U.S. Securities Act.

As sales agents, the Agents will not engage in any transactions to stabilize or maintain the price of the Common Shares. No underwriter of the at-the-market distribution, and no person or company acting jointly or in concert with an underwriter, may, in connection with the distribution, enter into any transaction that is intended to stabilize or maintain the market price of the securities or securities of the same class as the securities distributed under this prospectus supplement and the related prospectus, including selling an aggregate number or principal amount of securities that would result in the underwriter creating an over-allocation position in the securities. See "*Plan of Distribution*".

Bank of Montreal, an affiliate of BMO Nesbitt Burns Inc. and BMO Capital Markets Corp., is the lender under the BMO Margin Loan Agreement (as defined in this prospectus supplement). The Company may repay the BMO Credit Facility (as defined in this prospectus supplement), from time to time, in accordance with the terms of the BMO Margin Loan Agreement, utilizing net proceeds of the Offering. Consequently, the Company may be considered a "connected issuer" of BMO Nesbitt Burns Inc. under applicable securities laws and a "conflict of interest" may be deemed to exist under FINRA Rule 5121(f)(5)(C)(i) if five percent of the net Offering proceeds, not including Agents' compensation, are intended to be used to reduce or retire the balance of the

BMO Credit Facility. However, the Company does not expect to use five percent or more of the net Offering proceeds to reduce or retire the BMO Credit Facility. See "*Plan of Distribution*" and "*Relationship between the Company and the Agents*".

The Company's head office is located at 1030 West Georgia Street, Suite 1830, Vancouver, British Columbia V6E 2Y3, and its registered and records office is located at 925 West Georgia Street, Suite 1000, Vancouver, British Columbia V6C 3L2.

The second part, the prospectus, gives more general information, some of which may not apply to the Offered Shares. This prospectus supplement is deemed to be incorporated by reference into the accompanying prospectus solely for the purposes of the Offering constituted by this prospectus supplement.

You should rely only on the information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. If the description of the Offered Shares or any other information varies between this prospectus supplement and the accompanying prospectus (including the documents incorporated by reference herein and therein on the date hereof), you should rely on the information in this prospectus supplement. We have not, and the Agents have not, authorized anyone to provide you with different or additional information. If anyone provides you with any different, additional, inconsistent or other information, you should not rely on it. Neither the Company nor the Agents are making an offer to sell or seeking an offer to buy the Offered Shares in any jurisdiction where the offer or sale is not permitted. You should not assume that the information contained in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein is accurate as of any date other than the date on the front of this prospectus supplement, the accompanying prospectus or the respective dates of the documents incorporated by reference herein and therein, as applicable, regardless of the time of delivery of this prospectus supplement or of any sale of the Offered Shares pursuant hereto. Our business, financial condition, results of operations and prospects may have changed since those dates. Information contained on our website should not be deemed to be a part of this prospectus supplement, the accompanying prospectus or incorporated by reference herein and should not be relied upon by prospective investors for the purpose of determining whether to invest in the Offered Shares.

This prospectus supplement shall not be used by anyone for any purpose other than in connection with the Offering.

Unless the context otherwise requires, references to "we", "us", "our" or similar terms, as well as references to "GoldMining" or the "Company", refer to GoldMining Inc. together with our subsidiaries.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION

This prospectus supplement and the accompanying prospectus, including the documents incorporated by reference herein and therein, contain "forward-looking information" within the meaning of applicable Canadian securities laws and "forward-looking statements" within the meaning of securities laws in the United States (collectively, "**Forward-Looking Statements**"). These statements relate to the expectations of management about future events, results of operations and the Company's future performance (both operational and financial) and business prospects. All statements other than statements of historical fact are Forward-Looking Statements. The use of any of the words "anticipate", "plan", "contemplate", "continue", "estimate", "expect", "intend", "propose", "might", "may", "will", "shall", "project", "should", "could", "would", "believe", "predict", "forecast", "target", "aim", "pursue", "potential", "objective" and "capable" and the negative of these terms or other similar expressions are generally indicative of Forward-Looking Statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such Forward-Looking Statements. No assurance can be given that these expectations will prove to be correct and such Forward-Looking Statements should not be unduly relied on. These statements speak only as of the date hereof. In addition, this prospectus supplement and the accompanying prospectus may contain Forward-Looking Statements attributed to third party industry sources. Without limitation, this prospectus supplement contains Forward-Looking Statements pertaining to the following: future sales of Offered Shares under the Offering; the completion of future transactions, including the completion of the planned public offering of US GoldMining (as defined herein); receipt of future payments under the NevGold Option Agreement (as defined herein) and expectations regarding NevGold Corp.'s proposed work programs and the expected benefits of the transactions under the NevGold Option Agreement; use of funds; capital expenditure programs and the timing and method of financing thereof; the requirement for additional financing in order to maintain the Company's operations and exploration activities; expectations respecting the receipt of necessary licences and permits, including obtaining extensions thereof; the Company's ability to raise the capital necessary to fund its operations and the potential development of its properties; the Company's ability to obtain the resources to conduct exploration and development activities on its properties; forecasts relating to mining, development and other activities at the Company's operations; potential increases in the ultimate recovery of gold from its properties; forecasts relating to market developments and trends in global supply and demand for gold; future royalty and tax payments and rates; future work on the Company's non-material properties; and the Company's mineral reserve and mineral resource estimates.

Forward-Looking Statements are based on a number of material assumptions, including those listed here, which could prove to be significantly incorrect: current gold, silver, base metal and other commodity prices will be sustained, or will improve; the proposed development of the Company's projects will be viable operationally and economically and will proceed as expected; any additional

financing required by the Company will be available, and on reasonable terms; the accuracy of any mineral reserve and mineral resource estimates; the accuracy of budgeted exploration and development costs and expenditures; the price of other commodities such as fuel; future currency exchange rates and interest rates; political and regulatory stability; the receipt of governmental and third party approvals, licences and permits on favourable terms; obtaining required renewals for existing approvals, licences and permits and obtaining all other required approvals, licences and permits on favourable terms; and the Company will not experience any material accident, labour dispute or failure of plant or equipment.

Actual results could differ materially from those anticipated in these Forward-Looking Statements as a result of, among other things, the risk factors set forth below and included elsewhere in this prospectus supplement and accompanying prospectus, including the following: risks related to the exploration, development, and operation of early-stage mineral properties, including the speculative nature of exploration and development projects, the possibility of diminishing quantities or grades of mineralization, the inability to recover certain expenditures and the exposure to operational hazards typically encountered in the exploration, development and production of mineral properties; risks related to the uncertainty of Mineral Resource estimates; risks related to the potential dilution of voting power or earnings per share as a result of the exercise of convertible securities of the Company, future financings or future acquisitions financed by the issuance of equity; risks related to potential acquisitions of additional mineral properties; risks related to the Company's ability to renegotiate existing agreements related to certain of its projects; risks related to obtaining and maintaining all necessary government permits, approvals and authorizations related to the continued exploration and development of the Company's current and future projects and operations; risks related to government regulations and government and community approvals, acceptance, agreements and permissions (generally referred to as "social licence"), including the ability to obtain and maintain such approvals, the impact of changing government regulations and shifting political climates, and the ability of regulatory authorities to impose fines or shut down operations in cases of noncompliance; risks related to the presence of artisanal miners; risks inherent in mining and development, including risks related to accidents, labour disputes, environmental hazards, unfavourable operating conditions, or other unanticipated difficulties with or interruptions in operations; risks related to natural phenomena, terrorism, civil unrest and public health concerns (including health epidemics or pandemics such as COVID-19); risks related to property and mineral title, including defective title to mineral claims or property; risks related to environmental regulation and liability; risks related to uncertainty of the performance of contractors; costs, delays and other risks associated with statutory and regulatory compliance; risks related to general economic conditions; risks related to gold and other commodity price fluctuations and volatility; risks related to the fact that the Company has no known Mineral Reserves and that no economic reserves may exist on the Company's projects; risks related to the uncertainty of profitability, as the Company has no history of earnings; risks related to competitive conditions in the mineral exploration and mining industry; risks related to foreign exchange fluctuations; global financial conditions, including market reaction to COVID-19; risks related to the ability of the Company to retain skilled and experienced personnel, contractors, management and employees; risks related to potential litigation; risks related to foreign operations; risks related to possible conflicts of interest; uninsurable risks; the Company's broad discretion relating to the use of proceeds raised hereunder; and additional factors described under the heading "Risk Factors" herein, in the accompanying prospectus and in the section titled "Risk Factors" in the Company's annual information form for the fiscal year ended November 30, 2021, dated February 28, 2022 (the "**Annual Information Form**") and incorporated by reference herein.

Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in Forward-Looking Statements. Forward-Looking Statements are based on management's beliefs, estimates and opinions on the date the statements are made and the Company undertakes no obligation to update Forward-Looking Statements if these beliefs, estimates and opinions or other circumstances should change, other than as required by applicable laws. Investors are cautioned against attributing undue certainty to Forward-Looking Statements.

Please carefully consider the risk factors set out herein under "*Risk Factors*", in the accompanying prospectus and in the Annual Information Form.

CAUTIONARY NOTE TO U.S. INVESTORS REGARDING PRESENTATION OF MINERAL RESERVE AND MINERAL RESOURCE ESTIMATES

This prospectus supplement and the accompanying prospectus, including the documents incorporated by reference herein and therein, as applicable, have been prepared in accordance with the requirements of Canadian securities laws, which differ from the requirements of United States securities laws. Unless otherwise indicated, mining terms used herein and the accompanying prospectus and in any document incorporated by reference but not otherwise defined have the meanings set forth in National Instrument 43-101 – Standards of Disclosure for Mineral Projects ("**NI 43-101**"), which references the guidelines set out in the Canadian Institute of Mining, Metallurgy and Petroleum (the "**CIM**") classification system, the *CIM Definition Standards on Mineral Resources and Mineral Reserves* ("**CIM Definition Standards**"), adopted by the CIM Council. NI 43-101 permits disclosure of a "historical estimate" (as defined in NI 43-101) using historical terminology if the disclosure: (a) identifies the source and date of the historical estimate; (b) comments on the relevance and reliability of the historical estimate; (c) the extent known, provides the key assumptions, parameters, and methods used to prepare the historical estimate; (d) states whether the historical estimate uses categories other than those prescribed by NI 43-101 and, if so, includes an explanation of the difference; (e) includes any more recent estimates or data available; (f) comments on what work needs to be done to upgrade or verify the historical estimate as current mineral resources or mineral reserves; and (g) states with equal prominence that (i) a qualified person has not done sufficient work to classify the historical estimate as current mineral resources or mineral reserves, and (ii) the disclosing company is not treating the historical estimate as current mineral resources or mineral reserves.

In addition, the terms "Mineral Resource", "Measured Mineral Resource", "Indicated Mineral Resource" and "Inferred Mineral Resource" are defined in and required to be disclosed by NI 43-101. Investors are cautioned not to assume that any part or all of the mineral deposits in these categories will ever be converted into a higher category of mineral resources or mineral reserves. "Inferred Mineral Resources" have a greater amount of uncertainty as to whether they can be mined legally or economically. Under Canadian securities laws, estimates of Inferred Mineral Resources may not form the basis of feasibility or prefeasibility studies, except in certain specific cases. Additionally, disclosure of "contained ounces" in a resource is permitted disclosure under Canadian securities laws.

Mining disclosure under U.S. securities law was previously required to comply with SEC Industry Guide 7 ("**SEC Industry Guide 7**") under the U.S. Securities Exchange Act of 1934, as amended (the "**Exchange Act**"). The SEC has adopted rules to replace SEC Industry Guide 7 with new mining disclosure rules under sub-part 1300 of Regulation S-K ("**Regulation S-K 1300**") of the U.S. Securities Act which became mandatory for U.S. reporting companies beginning with the first fiscal year commencing on or after January 1, 2021.

Under Regulation S-K 1300, the SEC now recognizes estimates of "Measured Mineral Resources", "Indicated Mineral Resources" and "Inferred Mineral Resources". In addition, the SEC has amended its definitions of "Proven Mineral Reserves" and "Probable Mineral Reserves" to be substantially similar to the corresponding CIM Definition Standards. As a foreign private issuer filing this prospectus supplement and the accompanying prospectus with the SEC pursuant to MJDS, the Company is not required to provide disclosure on its mineral properties under Regulation S-K 1300 and will continue to provide disclosure under NI 43-101 and the CIM Definition Standards. However, if the Company either ceases to be a "foreign private issuer" or ceases to be entitled to file reports under MJDS, then the Company will be required to provide disclosure on its mineral properties under Regulation S-K 1300.

United States investors are cautioned that despite efforts to harmonize U.S. mining disclosure rules with NI 43-101 and other international requirements, there are differences between the terms and definitions used in Regulation S-K 1300 and mining terms defined in the CIM Definition Standards, which definitions have been adopted by NI 43-101, and there is no assurance that any mineral reserves or mineral resources that the Company may report as "proven mineral reserves", "probable mineral reserves", "measured mineral resources", "indicated mineral resources" and "inferred mineral resources" under NI 43-101 would be the same had the Company prepared the reserve or resource estimates under Regulation S-K 1300.

Information contained in this prospectus supplement and the accompanying prospectus and the portions of documents incorporated by reference herein or therein contain descriptions of the Company's mineral deposits that may not be comparable to similar information made public by U.S. companies who prepare their disclosure in accordance with U.S. federal securities laws and the rules and regulations thereunder.

TECHNICAL AND THIRD PARTY INFORMATION

This prospectus supplement and accompanying prospectus, including the documents incorporated by reference therein, includes market information, industry data and forecasts obtained from independent industry publications, market research and analyst reports, surveys and other publicly available sources. Although the Company believes these sources to be generally reliable, market and industry data is subject to interpretation and cannot be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties inherent in any statistical survey. Accordingly, the accuracy and completeness of this data is not guaranteed. Actual outcomes may vary materially from those forecast in such reports, surveys or publications, and the prospect for material variation can be expected to increase as the length of the forecast period increases. The Company has not independently verified any of the data from third party sources referred to herein nor ascertained the underlying assumptions relied on by such sources.

As of the date of this prospectus supplement, the Company considers its La Mina Gold Project and its Titiribi Gold-Copper Project, located in Colombia, Whistler Gold-Copper Project, located in Alaska, United States, and São Jorge Gold Project, located in the State of Pará, northeastern Brazil to be its material properties for the purposes of NI 43-101.

For the São Jorge Gold Project, with respect to the exploration licenses represented by administrative proceeding No. 850.275/2003, 850.556/2013 and 850.193/2017 to 850.196/2017 held by the Company, for which the first 3-year term has expired, the Company has submitted preliminary exploration reports and license renewal applications for an additional 3-year term to the Brazilian National Mining Agency (the "ANM"). Proceeding No. 850.556/2013 was denied in renewal in the first instance, for which the Company has submitted an appeal and is awaiting a decision. In addition, the Company submitted a final report to ANM for exploration concession ANM no. 850.058/2002, which report remains under review. Such report must be accepted by ANM, subject to rights of appeal, in order to maintain the concession. If approved, the Company will have one year to apply to convert the exploration concession overlying the deposit to a mining concession, which will require further development studies and an environmental license. There is no assurance that such studies or reports will be accepted or that such renewal applications will be approved by the ANM and Secretaria de Estado de Meio Ambiente/Pará.

This strategy is focused on identifying and acquiring projects that present compelling value for our shareholders.

The Company does not have any current operating income or cash flow from its properties, nor does it have a history of income from operations. The Company's operations and cash flow are primarily funded by and derived from equity financings. The Company will continue to assess new mineral projects and will seek to acquire interests in additional projects if the Company determines such projects have sufficient geological or economic merit and if it has adequate financial resources to complete such acquisitions.

RECENT DEVELOPMENTS

Advancement of the Whistler Gold-Copper Project

On February 28, 2022, the Company announced that its board of directors had approved a strategy to advance the Whistler Gold-Copper Project, located in Alaska, as a stand-alone entity that would conduct an initial public offering or similar transaction. Any such

transaction would be subject to final review and approval by the board of directors of the Company and there can be no assurance that such transaction will be completed as currently contemplated or at all.

Since the date of such announcement, the Company has undertaken steps to reorganize its majority-owned subsidiary, U.S. GoldMining Inc. (formerly BRI Alaska Corp.) ("**US GoldMining**"), which holds title to the Whistler Gold-Copper Project, to realize its advancement strategy, including appointment of management and a full board of directors.

On June 30, 2022, the Company submitted an Application for Permit to Mine in Alaska ("**APMA**") to Alaska's Department of Natural Resources ("**ADNR**") for the issuance of permits that will allow for future exploration work on the Whistler Gold-Copper Project and on September 22, 2022, the ADNR approved Multi-Year 2022-2026 Exploration and Reclamation Permit Number 2778 for Hardrock Exploration – Skwentna River - Yentna Mining District. In addition ADNR approved Reclamation Plan Approval Number 2778. The Whistler Multi-Year 2022-2026 Exploration and Reclamation Permit allows the Company to conduct exploration including drilling, geophysical surveying, mapping and surface geochemical sampling, as well as to operate and maintain a camp including taking of fresh water and discharge of wastewater, transportation and storage of fuel and accommodation for up to 50 personnel.

In September 2022, US GoldMining issued 635,000 shares of performance-based restricted common stock to directors, officers and other personnel, representing approximately 6.3% of the outstanding shares of US GoldMining. The performance based restricted shares are subject to restrictions and forfeiture, if such performance conditions are not met within applicable periods.

NevGold Option Agreement

On July 5, 2022, the Company closed the grant of an option (the "**Almaden Option**") to acquire a 100% interest in the Company's Almaden Gold Project, located in Idaho, U.S.A. (the "**Almaden Project**") pursuant to the terms of the NevGold Option Agreement dated June 13, 2022. Of the total consideration for the grant of up to \$16.5 million, the Company received initial consideration of \$3.0 million, payable through the issuance of 4,444,444 common shares of NevGold ("**NevGold Shares**"). The balance of the consideration payable is comprised of further contingent payments of up to \$7.5 million tied to success-based project milestones.

Concurrent with the closing of the grant of the Almaden Option, the Company completed its strategic investment in NevGold by subscribing for 1,481,481 NevGold Shares at a price of \$0.675 per NevGold Share for a total subscription of \$1.0 million.

In connection with the closing of the grant of the Almaden Option and the strategic investment in NevGold, the Company and NevGold entered into an investor rights agreement on customary terms, which provides for, among other things, the grant of certain anti-dilution rights by NevGold to the Company.

Subsequent to the year ended November 30, 2022, the Company participated in NevGold's private placement offering, which closed on December 5, 2022, and acquired 2,976,200 units of NevGold for a total subscription price of \$1,250,004. Each unit of NevGold consists of one NevGold Share and one-half of a warrant, with each whole warrant entitling the Company to purchase a NevGold Share.

BMO Margin Loan

On October 27, 2022, the Company entered into an amended and restated margin loan agreement with the Bank of Montreal and BMO Nesbitt Burns Inc., amending and restating the margin loan agreement dated October 28, 2021, as amended (the "**BMO Margin Loan Agreement**") to: (a) reduce the Company's existing loan facility (the "**BMO Credit Facility**") from up to US\$20 million to up to US\$10 million; (b) extend the Final Maturity Date (as defined in the BMO Margin Loan Agreement) to October 27, 2023; and (c) provide for a mechanism to release common shares of Gold Royalty Corp. ("**GROY**") pledged as security under the BMO Credit Facility.

The BMO Credit Facility is available for general corporate purposes, acquisitions and to continue to advance Company projects. The BMO Credit Facility is subject to an interest rate of 3-month USD adjusted Term Secured Overnight Financing Rate (SOFR) plus 5.65% per annum and customary margin requirements. The BMO Credit Facility is secured by common shares of GROY owned by the Company.

CONSOLIDATED CAPITALIZATION

Since November 30, 2021, there has been no drawdown under the BMO Credit Facility, and the Company has made a principal repayment of US\$2.9 million.

On December 10, 2021, the Company entered into an equity distribution agreement for an at-the-market equity distribution program and, during the year ended November 30, 2022, a total of 12,653,643 Common Shares were distributed by the Company under such

program through the facilities of the TSX and NYSE American for gross proceeds of \$6.9 million and US\$8.9 million, respectively. An additional 1,218,413 Common Shares were distributed subsequent to November 30, 2022, for additional gross proceeds of \$0.6 million and US\$1.2 million, respectively.

Additionally, stock options of the Company have been exercised into an aggregate of 691,501 Common Shares and restricted share rights of the Company have vested into an aggregate of 72,564 Common Shares subsequent to November 30, 2021 and on or before December 29, 2022.

As a result of the Offering, the shareholder's equity of the Company will increase by the amount of the net proceeds of the Offering and the number of issued and outstanding Common Shares will increase by the number of Offered Shares actually distributed under the Offering.

Other than as set forth above and herein under "*Prior Sales*", there have been no material changes in the Company's share or loan capital on a consolidated basis since November 30, 2021.

USE OF PROCEEDS

The Company intends to use the net proceeds from the Offering, if any, to fund the exploration and development of its mineral properties, to fund future acquisitions as may be determined by the Company, and for working capital. The Company has a negative cash flow from operating activities in its most recently completed financial year, and, if necessary, proceeds may be used to fund negative cash flow from operating activities in future periods. The Company may, from time to time, issue securities (including equity and debt securities) other than pursuant to this prospectus supplement.

The net proceeds from the Offering, if any, are not determinable in light of the nature of the distribution. Sales of Offered Shares, if any, will be made in transactions that are deemed to be "at-the-market distributions" as defined in NI 44-102, including sales made by the Agents directly on the TSX, the NYSE American or any other trading market for the Common Shares in Canada or the U.S. Any proceeds that the Company receives will depend on the number of Offered Shares actually sold and the offering price of such Offered Shares. The net proceeds to the Company of any given distribution of Offered Shares through the Agents in an "at-the-market distribution" under the Distribution Agreement will represent the gross proceeds of the Offering, after deducting the applicable Commission, any transaction or filing fees imposed by any governmental, regulatory, or self-regulatory organization in connection with any such sales of Offered Shares and the expenses of the Offering. The gross proceeds of the Offering will be up to US\$50,000,000. The Agents will receive the Commission of up to 2.50% of the gross proceeds from the sale of the Offered Shares. Any Commission paid to the Agents will be paid out of the proceeds from the sale of Offered Shares. There is no minimum amount of funds that must be raised under the Offering. This means that the Offering may terminate after raising only a portion of the Offering amount set out above, or none at all. See "*Plan of Distribution*".

Although the Company intends to expend the net proceeds from the Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be prudent or necessary, and may vary materially from that set forth above. In addition, management of the Company will have broad discretion with respect to the actual use of the net proceeds from the Offering. See "*Risk Factors*".

PLAN OF DISTRIBUTION

The Company has entered into the Distribution Agreement with the Agents under which the Company may issue and sell from time to time Offered Shares having an aggregate sale price of up to US\$50,000,000 (or the equivalent in Canadian dollars, determined using the daily exchange rate posted by the Bank of Canada on the date the Offered Shares are sold) in each of the provinces and territories of Canada and in the United States pursuant to placement notices delivered by the Company to the Agents from time to time in accordance with the terms of the Distribution Agreement. Sales of Offered Shares, if any, will be made in transactions that are deemed to be "at-the-market distributions" as defined in NI 44-102, including sales made by the Agents directly on the TSX, the NYSE American or any other trading market for the Common Shares in Canada or the United States. Subject to the pricing parameters in a placement notice, the Offered Shares will be distributed at the market prices prevailing at the time of the sale. As a result, prices may vary as between purchasers and during the period of distribution. The Company cannot predict the number of Offered Shares that it may sell under the Distribution Agreement on the TSX, the NYSE American or any other trading market for the Common Shares in Canada or the United States, or if any Offered Shares will be sold.

The Agents will offer the Offered Shares subject to the terms and conditions of the Distribution Agreement from time to time as agreed upon by the Company and the Agents. The Company will designate the maximum amount of Offered Shares to be sold pursuant to any single placement notice to the applicable Agent or Agents. The Company will identify in the placement notice which Agent or Agents

will affect the placement. Subject to the terms and conditions of the Distribution Agreement, the Agents will use their commercially reasonable efforts to sell, on the Company's behalf, all of the Offered Shares requested to be sold by the Company. The Company may instruct the Agents not to sell Offered Shares if the sales cannot be effected at or above the price designated by the Company in a particular placement notice. Any placement notice delivered to an applicable Agent or Agents shall be effective upon delivery unless and until (i) the applicable Agent or Agents declines to accept the terms contained in the placement notice or such Agent or Agents does not promptly confirm the acceptability of such placement notice, (ii) the entire amount of Offered Shares under the placement notice are sold, (iii) the Company suspends or terminates the placement notice in accordance with the terms of the Distribution Agreement, (iv) the Company issues a subsequent placement notice with parameters superseding those of the earlier placement notice, or (v) the Distribution Agreement is terminated in accordance with its terms. No Agent will be required to purchase Offered Shares as principals pursuant to the Distribution Agreement.

Either the Company or the Agents may suspend the Offering upon proper notice to the other party. The Company and the Agents each have the right, by giving written notice as specified in the Distribution Agreement, to terminate the Distribution Agreement in each party's sole discretion at any time.

The Company will pay the Agents the Commission for their services in acting as agents in connection with the sale of Offered Shares pursuant to the Distribution Agreement. The amount of the Commission will be up to 2.50% of the gross sales price per Offered Share sold, provided however, that the Company shall not be obligated to pay the Agents any Commission on any sale of Offered Shares that it is not possible to settle due to (i) a suspension or material limitation in trading in securities generally on the TSX or the NYSE American, (ii) a material disruption in securities settlement or clearance services in the U.S. or Canada, or (iii) failure by the applicable Agent to comply with its obligations under the terms of the Distribution Agreement. The sales proceeds remaining after payment of the Commission and after deducting any expenses payable by the Company and any transaction or filing fees imposed by any governmental, regulatory, or self-regulatory organization in connection with the sales, will equal the net proceeds to the Company from the sale of any such Offered Shares.

The applicable Agent or Agents will provide written confirmation to the Company following close of trading on the trading day on which such Agent has made sales of the Offered Shares under the Distribution Agreement setting forth (i) the number of Offered Shares sold on such day (including the number of Offered Shares sold on the TSX, on the NYSE American or on any other marketplace in Canada or the United States), (ii) the average price of the Offered Shares sold on such day (including the average price of Offered Shares sold on the TSX, on the NYSE American or on any other marketplace in Canada or the United States), (iii) the gross proceeds, (iv) the Commission payable by the Company to the Agents with respect to such sales, and (v) the net proceeds payable to the Company.

The Company will disclose the number and average price of the Offered Shares sold under this prospectus supplement, as well as the gross proceeds, Commission and net proceeds from sales hereunder in the Company's annual and interim financial statements and related management's discussion and analysis, annual information forms and annual reports on Form 40-F, filed on www.sedar.com and with the SEC on EDGAR at www.sec.gov, for any quarters or annual periods in which sales of Offered Shares occur.

Settlement for sales of Offered Shares will occur, unless the parties agree otherwise, on the second trading day on the applicable exchange following the date on which any sales were made in return for payment of the gross proceeds (less Commission) to the Company. There is no arrangement for funds to be received in an escrow, trust or similar arrangement. Sales of Offered Shares in the United States will be settled through the facilities of The Depository Trust Corporation or by such other means as the Company and the Agents may agree upon and sales of Offered Shares in Canada will be settled through the facilities of The Canadian Depository for Securities or by such other means as the Company and the Agents may agree.

The Canadian Agents are not registered as broker-dealers in the United States and, accordingly, will only sell Offered Shares on marketplaces in Canada, the U.S. Agents are not registered as investment dealers in any Canadian jurisdiction and, accordingly, will only sell Offered Shares on marketplaces in the United States.

In connection with the sales of the Offered Shares on the Company's behalf, each of the Agents may be deemed to be an "underwriter" within the meaning of the U.S. Securities Act, and the compensation paid to the Agents may be deemed to be underwriting commissions or discounts. The Company has agreed in the Distribution Agreement to provide indemnification and contribution to the Agents against certain liabilities, including liabilities under the U.S. Securities Act and under Canadian securities laws. In addition, the Company has agreed to pay the reasonable expenses of the Agents in connection with the Offering, pursuant to the terms of the Distribution Agreement.

The Agents and their affiliates will not engage in any transactions to stabilize or maintain the price of the Common Shares in connection with any offer or sales of Offered Shares pursuant to the Distribution Agreement. No underwriter of the at-the-market distribution, including the Agents, and no person or company acting jointly or in concert with an underwriter, may, in connection with the distribution, enter into any transaction that is intended to stabilize or maintain the market price of the securities or securities of the same class as the

securities distributed under this prospectus supplement and the related prospectus, including selling an aggregate number or principal amount of securities that would result in the underwriter creating an over-allocation position in the securities.

The total expenses related to the commencement of the Offering to be paid by the Company, excluding the Commission payable to the Agents under the Distribution Agreement, are estimated to be approximately C\$350,000.

Pursuant to the Distribution Agreement, the Offering will terminate upon the earliest of (i) November 27, 2023, (ii) the issuance and sale of all of the Offered Shares subject to the Distribution Agreement, and (iii) the termination of the Distribution Agreement as permitted therein.

The Agents and their affiliates may in the future provide various investment banking, commercial banking and other financial services for the Company and its affiliates, for which services they may in the future receive customary fees. To the extent required by Regulation M under the Exchange Act, the Agents will not engage in any market making activities involving the Common Shares while the Offering is ongoing under this prospectus supplement.

Bank of Montreal, an affiliate of BMO Nesbitt Burns Inc. and BMO Capital Markets Corp., is the lender under the BMO Margin Loan Agreement, providing for the BMO Credit Facility. The Company may repay the BMO Credit Facility, from time to time, in accordance with the terms of the BMO Margin Loan Agreement, utilizing net proceeds of the Offering. Consequently, the Company may be considered a "connected issuer" of BMO Nesbitt Burns Inc. under applicable securities laws and a "conflict of interest" may be deemed to exist under FINRA Rule 5121(f)(5)(C)(i) if five percent of the net Offering proceeds, not including Agents' compensation, are intended to be used to reduce or retire the balance of the BMO Credit Facility. However, the Company does not expect to use five percent or more of the net Offering proceeds to reduce or retire the BMO Credit Facility. See "*Relationship between the Company and the Agents*".

The Common Shares are listed on the TSX and the NYSE American. The TSX has conditionally approved the listing of the Offered Shares distributed under the Offering, subject to the Company fulfilling all of the requirements of the TSX. The NYSE American has authorized the listing of certain Offered Shares distributed under the Offering.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Sangra Moller LLP, Canadian counsel to the Company, and DLA Piper (Canada) LLP, Canadian counsel to the Agents, the following is, as of the date hereof, a general summary of the principal Canadian federal income tax considerations under the Income Tax Act (Canada) (the "**Tax Act**") and the regulations thereunder (the "**Regulations**") generally applicable to a holder who acquires Offered Shares as beneficial owner pursuant to the Offering and who, at all relevant times, for the purposes of the Tax Act, deals at arm's length with the Company and the Agents, is not affiliated with the Company or the Agents, and will acquire and hold such Offered Shares as capital property (each, a "**Holder**"). Offered Shares will generally be considered to be capital property to a Holder unless the Holder holds or uses the Offered Shares or is deemed to hold or use the Offered Shares in the course of carrying on a business of trading

or dealing in securities or has acquired them or is deemed to have acquired them in a transaction or transactions considered to be an adventure or concern in the nature of trade.

This summary does not apply to a Holder (a) that is a "financial institution" for purposes of the "mark-to-market property" rules in the Tax Act; (b) an interest in which is or would constitute a "tax shelter investment" (as defined in the Tax Act); (c) that is a "specified financial institution" (as defined in the Tax Act); (d) that reports its "Canadian tax results" for purposes of the Tax Act in a currency other than Canadian currency; (e) that is exempt from tax under the Tax Act; (f) that has entered into, or will enter into, a "synthetic disposition arrangement" or a "derivative forward agreement" (as those terms are defined in the Tax Act) with respect to the Offered Shares; or (g) that is a corporation resident in Canada that is, or becomes, as part of a transaction or event or series of transactions or events that includes the acquisition of Offered Shares, controlled by a non-resident person or a group of persons comprised of any combination of non-resident corporations, non-resident individuals or non-resident trusts that do not deal with each other at arm's length, for the purposes of the "foreign affiliate dumping" rules in Section 212.3 of the Tax Act. Any such Holders should consult their own tax advisors to determine the particular Canadian federal income tax consequences to them of acquiring Offered Shares pursuant to the Offering.

This summary does not address the deductibility of interest by a Holder who has borrowed money or otherwise incurred debt in connection with the acquisition of Offered Shares.

This summary is based upon the current provisions of the Tax Act and the Regulations in force as of the date hereof, specific proposals to amend the Tax Act and the Regulations (the "**Tax Proposals**") which have been announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof, the current provisions of the *Canada-United States Tax Convention (1980)*, as amended (the "**Canada-U.S. Tax Convention**"), and counsel's understanding of the current published administrative policies and assessing practices of the Canada Revenue Agency (the "**CRA**"). This summary assumes that the Tax Proposals will be enacted in the form proposed and does not take into account or anticipate any other changes in law, whether by way of judicial, legislative or governmental decision or action, nor does it take into account provincial, territorial or foreign income tax legislation or considerations, which may differ from the Canadian federal income tax considerations discussed herein. No assurances can be given that the Tax Proposals will be enacted as proposed or at all, or that legislative, judicial or administrative changes will not modify or change the statements expressed herein.

This summary is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in Offered Shares. This summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice to any particular Holder. Holders should consult their own tax advisors with respect to the tax consequences applicable to them based on their own particular circumstances.

Currency Conversion

Subject to certain exceptions that are not discussed in this summary, for the purposes of the Tax Act, all amounts relating to the acquisition, holding or disposition of Offered Shares must be determined in Canadian dollars based on the Bank of Canada rate for the day on which such amount arose or such other rate as is acceptable to the CRA.

Residents of Canada

The following portion of this summary is generally applicable to a Holder who, for the purposes of the Tax Act, is resident or deemed to be resident in Canada at all relevant times (each, a "**Resident Holder**"). Certain Resident Holders whose Offered Shares might not otherwise qualify as capital property may be entitled to make an irrevocable election pursuant to subsection 39(4) of the Tax Act to have the Offered Shares, and every other "Canadian security" (as defined by the Tax Act) owned by such Resident Holder in the taxation year of the election and in all subsequent taxation years, deemed to be capital property. Resident Holders should consult their own tax advisors for advice as to whether an election under subsection 39(4) of the Tax Act is available or advisable in their particular circumstances.

Taxation of Dividends

Dividends received or deemed to be received on the Offered Shares will be included in computing a Resident Holder's income. In the case of a Resident Holder who is an individual (including certain trusts), dividends (including deemed dividends) received on the Offered Shares will be included in the Resident Holder's income and be subject to the gross-up and dividend tax credit rules applicable to "taxable dividends" received by an individual from "taxable Canadian corporations" (each as defined in the Tax Act). An enhanced gross-up and dividend tax credit will be available to individuals in respect of "eligible dividends" designated by the Company in accordance with the provisions of the Tax Act. There may be limitations on the ability of the Company to designate dividends as "eligible dividends".

In the case of a Resident Holder that is a corporation, such dividends (including deemed dividends) received on the Offered Shares will be included in the Resident Holder's income and will normally be deductible in computing such Resident Holder's taxable income, subject to all restrictions under the Tax Act. In certain circumstances, subsection 55(2) of the Tax Act will treat a taxable dividend received (or deemed to be received) by a Resident Holder that is a corporation as proceeds of disposition or a capital gain. Resident Holders that are corporations should consult their own tax advisors having regard to their own circumstances.

A Resident Holder that is a "private corporation" or "subject corporation" (as such terms are defined in the Tax Act) may be liable to pay a tax under Part IV of the Tax Act (which generally is refundable, subject to the detailed rules of the Tax Act) on dividends received or deemed to be received on the Offered Shares to the extent that such dividends are deductible in computing the Resident Holder's taxable income for the year. A "subject corporation" is generally a corporation (other than a private corporation) resident in Canada and controlled directly or indirectly by or for the benefit of an individual (other than a trust) or a related group of individuals (other than trusts).

Dividends received by a Resident Holder who is an individual (including certain trusts) may result in such Resident Holder being liable for minimum tax under the Tax Act. Resident Holders who are individuals should consult their own tax advisors in this regard.

Dispositions of Offered Shares

A Resident Holder who disposes of, or is deemed to have disposed of, an Offered Share (other than a disposition to the Company that is not a sale in the open market in the manner in which shares are normally purchased by any member of the public in the open market) will realize a capital gain (or incur a capital loss) equal to the amount by which the proceeds of disposition in respect of the Offered Share exceed (or are exceeded by) the aggregate of the adjusted cost base to the Resident Holder of such Offered Share immediately before the disposition or deemed disposition and any reasonable expenses incurred for the purpose of making the disposition. The adjusted cost base to a Resident Holder of an Offered Share will be determined by averaging the cost of that Offered Share with the adjusted cost base (determined immediately before the acquisition of the Offered Share) of all other Common Shares held as capital property at that time by the Resident Holder. The tax treatment of capital gains and capital losses is discussed in greater detail below under the subheading "*Residents of Canada – Taxation of Capital Gains and Losses*".

Taxation of Capital Gains and Losses

Generally, one-half of any capital gain (a "**taxable capital gain**") realized by a Resident Holder must be included in the Resident Holder's income for the taxation year in which the disposition occurs. Subject to and in accordance with the provisions of the Tax Act, one-half of any capital loss incurred by a Resident Holder (an "**allowable capital loss**") must generally be deducted from taxable capital gains realized by the Resident Holder in the taxation year in which the disposition occurs. Allowable capital losses in excess of taxable capital gains for the taxation year of disposition generally may be carried back and deducted in the three preceding taxation years or carried forward and deducted in any subsequent year against net taxable capital gains realized in such years, in the circumstances and to the extent provided in the Tax Act.

A capital loss realized on the disposition of an Offered Share by a Resident Holder that is a corporation may in certain circumstances be reduced by the amount of dividends which have been previously received or deemed to have been received by the Resident Holder on the Offered Share, or a share substituted for such share, to the extent and in the circumstances specified by the Tax Act. Similar rules may apply where a Resident Holder that is a corporation is, directly or indirectly through a trust or partnership, a member of a partnership or a beneficiary of a trust that owns Offered Shares. A Resident Holder to which these rules may be relevant is urged to consult its own tax advisor.

A Resident Holder that is throughout the relevant taxation year a "Canadian-controlled private corporation" (as defined in the Tax Act) may be liable to pay an additional tax (which generally is refundable, subject to the detailed rules of the Tax Act) on its "aggregate investment income" (as defined in the Tax Act) for the year, which is defined to include an amount in respect of taxable capital gains. Tax Proposals released on August 9, 2022 are intended to extend this additional tax and refund mechanism in respect of "aggregate investment income" to "substantive CCPCs" as defined in such Tax Proposals. Resident Holders are advised to consult their own tax advisors regarding the possible implications of these Tax Proposals in their particular circumstances.

Capital gains realized by a Resident Holder who is an individual (including certain trusts) may result in such Resident Holder being liable for minimum tax under the Tax Act. Resident Holders who are individuals should consult their own tax advisors in this regard.

Non-Residents of Canada

The following portion of this summary is generally applicable to a Holder who, for purposes of the Tax Act and at all relevant times, is neither resident nor deemed to be resident in Canada and does not use or hold, and will not be deemed to use or hold, Offered Shares in a business carried on in Canada (each, a "**Non-Resident Holder**"). The term "U.S. Holder," for the purposes of this summary, means a Non-Resident Holder who, for purposes of the Canada-U.S. Tax Convention, is at all relevant times a resident of the United States and is a "qualifying person" within the meaning of the Canada-U.S. Tax Convention. In some circumstances, persons deriving amounts through fiscally transparent entities (including limited liability companies) may be entitled to benefits under the Canada-U.S. Tax Convention. U.S. Holders are urged to consult their own tax advisors to determine their entitlement to benefits under the Canada-U.S. Tax Convention based on their particular circumstances.

Special considerations, which are not discussed in this summary, may apply to a Non-Resident Holder that is an insurer that carries on an insurance business in Canada and elsewhere or an authorized foreign bank (as defined in the Tax Act). Such Non-Resident Holders should consult their own advisors.

Taxation of Dividends

Subject to an applicable tax treaty or convention, dividends paid or credited, or deemed to be paid or credited, to a Non-Resident Holder on the Offered Shares will be subject to Canadian withholding tax under the Tax Act at the rate of 25% of the gross amount of the dividend. Such rate is generally reduced under the Canada-U.S. Tax Convention to 15% of the gross amount of the dividend if the beneficial owner of such dividend is a U.S. Holder. The rate of withholding tax is further reduced to 5% if the beneficial owner of such dividend is a U.S. Holder that is a company that owns, directly or indirectly, at least 10% of the voting stock of the Company. In addition, under the Canada-U.S. Tax Convention, dividends may be exempt from such Canadian withholding tax if paid to certain U.S. Holders that are qualifying religious, scientific, literary, educational or charitable tax exempt organizations or qualifying trusts, companies, organizations or arrangements operated exclusively to administer or provide pension, retirement or employee benefits that are exempt from tax in the United States and that have complied with specific administrative procedures. Non-Resident Holders should consult their own tax advisors to determine their entitlement to benefits under any applicable tax treaty or convention based on their particular circumstances.

Disposition of Offered Shares

A Non-Resident Holder will not be subject to tax under the Tax Act in respect of any capital gain realized by such Non-Resident Holder on a disposition of Offered Shares, unless the Offered Shares constitute "taxable Canadian property" (as defined in the Tax Act) of the Non-Resident Holder at the time of the disposition and are not "treaty-protected property" (as defined in the Tax Act) of the Non-Resident Holder at the time of the disposition.

Provided the Offered Shares are listed on a "designated stock exchange" (as defined in the Tax Act) (which currently includes the TSX) at the time of disposition, the Offered Shares will not constitute taxable Canadian property of a Non-Resident Holder at that time, unless at any time during the 60-month period immediately preceding the disposition the following two conditions are met concurrently: (a) one or any combination of (i) the Non-Resident Holder, (ii) persons with whom the Non-Resident Holder does not deal at arm's length, or (iii) partnerships whose members include, either directly or indirectly through one or more partnerships, the Non-Resident Holder and/or persons who do not deal at arm's length with the Non-Resident Holder, owned 25% or more of the issued shares of any class or series of shares of the capital stock of the Company, and (b) more than 50% of the fair market value of the Offered Shares was derived directly or indirectly, from one or any combination of real or immovable property situated in Canada, "Canadian resource properties", "timber resource properties" (each as defined in the Tax Act), and options in respect of or interests in, or for civil law rights in, any such property (whether or not such property exists).

Notwithstanding the foregoing, an Offered Share may otherwise be deemed to be taxable Canadian property to a Non-Resident Holder for purposes of the Tax Act in certain circumstances. **Non-Resident Holders should consult their own tax advisors as to whether their Offered Shares constitute "taxable Canadian property" in their own particular circumstances.**

If Offered Shares are taxable Canadian property (or deemed to be taxable Canadian property) of a Non-Resident Holder and are not treaty-protected property of the Non-Resident Holder at the time of their disposition, the consequences above under "*Residents of Canada — Disposition of Offered Shares*" and "*Residents of Canada — Taxation of Capital Gains and Capital Losses*" will generally apply.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following is a general summary of certain anticipated U.S. federal income tax considerations applicable to a U.S. Holder (as defined below) arising from and relating to the acquisition, ownership and disposition of Offered Shares acquired pursuant to this prospectus supplement.

This summary is for general information purposes only and does not purport to be a complete analysis or listing of all potential U.S. federal income tax considerations that may apply to a U.S. Holder as a result of the acquisition, ownership and disposition of Offered Shares acquired pursuant to this prospectus supplement. This summary does not take into account the individual facts and circumstances of any particular U.S. Holder that may affect the U.S. federal income tax considerations applicable to such U.S. Holder of Offered Shares. Accordingly, this summary is not intended to be, and should not be construed as, legal or U.S. federal income tax advice with respect to any U.S. Holder. U.S. Holders should consult their own tax advisors regarding the U.S. federal, U.S. state and local, and non-U.S. tax consequences relating to the acquisition, ownership and disposition of Offered Shares.

No ruling from the U.S. Internal Revenue Service (the "**IRS**") or legal opinion has been requested, or will be obtained, regarding the potential U.S. federal income tax considerations applicable to U.S. Holders as discussed in this summary. This summary is not binding on the IRS, and the IRS is not precluded from taking a position that is different from, and contrary to, the positions taken in this summary. In addition, because the authorities on which this summary is based are subject to various interpretations, the IRS and the U.S. courts could disagree with one or more of the positions taken in this summary.

Scope of this Summary

Authorities

This summary is based on the Internal Revenue Code of 1986, as amended (the "**Code**"), regulations promulgated by the Department of the Treasury (whether final, temporary or proposed) ("**Treasury Regulations**"), U.S. court decisions published rulings and administrative positions of the IRS, and the Canada-U.S. Tax Convention, in each case, in effect as of the date of this prospectus supplement. Any of the authorities on which this summary is based could be changed in a material and adverse manner possibly with retroactive effect, at any time. Except as provided herein, this summary does not discuss the potential effects of any proposed legislation.

U.S. Holder

For purposes of this section, a "**U.S. Holder**" is a beneficial owner of Offered Shares acquired pursuant to this prospectus supplement that is (a) an individual who is a citizen or resident of the United States for U.S. federal income tax purposes; (b) a corporation, or other entity treated as a corporation for U.S. federal income tax purposes, that is created or organized in or under the laws of the United States or any state in the United States or the District of Columbia; (c) an estate if the income of such estate is subject to U.S. federal income tax regardless of the source of such income; or (d) a trust if (i) such trust has validly elected to be treated as a U.S. person for U.S. federal income tax purposes, or (ii) a U.S. court is able to exercise primary supervision over the administration of such trust and one or more U.S. persons have the authority to control all substantial decisions of such trust.

Non-U.S. Holder

For purposes of this summary, a "**Non-U.S. Holder**" is a beneficial owner of Offered Shares that is neither a U.S. Holder nor a partnership (or other "pass-through" entity) for U.S. federal income tax purposes. This summary does not address the U.S. federal income tax considerations applicable to Non-U.S. Holders relating to the acquisition, ownership and disposition of Offered Shares. Accordingly, Non-U.S. Holders should consult their own tax advisors regarding the U.S. federal, U.S. state and local, and non-U.S. tax consequences (including the potential application of and operation of the Canada-U.S. Tax Convention or any other tax treaties) relating to the acquisition, ownership, and disposition of Offered Shares.

U.S. Holders Subject to Special US Federal Income Tax Rules Not Addressed

This summary does not address the U.S. federal income tax considerations applicable to U.S. Holders that are subject to special provisions under the Code, including: (a) U.S. Holders that are tax-exempt organizations, qualified retirement plans, individual retirement accounts or other tax deferred accounts; (b) U.S. Holders that are financial institutions, underwriters, insurance companies, real estate investment trusts or regulated investment companies or that are broker-dealers, dealers, or traders in securities or currencies that elect to apply a mark-to-market accounting method; (c) U.S. Holders that have a "functional currency" other than the U.S. dollar; (d) U.S. Holders that own Offered Shares as part of a straddle, hedging transaction, conversion transaction, constructive sale or other integrated transaction; (e) U.S. Holders that acquired Offered Shares in connection with the exercise of employee stock options or

otherwise as compensation for services; (f) U.S. Holders that hold Offered Shares other than as a capital asset (generally property held for investment purposes) within the meaning of Section 1221 of the Code; (g) U.S. Holders that are partnerships or other flow-through entities; (h) U.S. Holders that are subject to special tax accounting rules with respect to the Offered Shares for US federal income tax purposes; (i) U.S. Holders that are subject to taxing jurisdictions other than, or in addition to, the United States; or (j) U.S. Holders that own, directly, indirectly or by attribution, 10% or more, by voting power or value, of the outstanding shares of the Company. The summary below also does not address the impact of the Offering on persons who are U.S. expatriates or former long-term residents of the United States subject to Section 877 or 877A of the Code. U.S. Holders and others that are subject to special provisions under the Code, including U.S. Holders described immediately above, should consult their own tax advisors regarding the U.S. federal income tax consequences relating to the acquisition, ownership and disposition of Offered Shares.

If a partnership (or other entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds Offered Shares, the tax treatment of a partner in the partnership (or other entity or arrangement treated as a partnership for U.S. federal income tax purposes) will generally depend on the status of the partner and the activities of the partnership. Partners in partnerships (or other entities or arrangements treated as partnerships for U.S. federal income tax purposes) that are beneficial owners of Offered Shares should consult their own tax advisors regarding the U.S. federal income tax consequences arising from and relating to the acquisition, ownership and disposition of Offered Shares.

Tax Considerations Other than U.S. Federal Income Tax Considerations Not Addressed

This summary does not address the U.S. state and local tax, U.S. estate, gift, and generation-skipping tax, U.S. federal net investment income, U.S. federal alternative minimum tax, or non-U.S. tax considerations to U.S. Holders relating to the acquisition, ownership, and disposition of Offered Shares. In addition, except as specifically set forth below, this summary does not discuss applicable tax reporting requirements. Each U.S. Holder should consult its own tax advisor regarding the U.S. state and local tax, U.S. estate, gift, and generation-skipping tax, U.S. federal net investment income, U.S. federal alternative minimum tax and non-U.S. tax consequences relating to the acquisition, ownership, and disposition of Offered Shares.

US Federal Income Tax Considerations of the Acquisition, Ownership and Disposition of Offered Shares

Classification as a Passive Foreign Investment Company

As discussed below under "*Passive Foreign Investment Company Rules – PFIC Status of the Company*", although the Company has not made a formal determination as to whether it was a "passive foreign investment company" under Section 1297 of the Code ("**PFIC**") for the taxable year ended November 30, 2022, the Company believes there is a significant risk that it was a PFIC for the taxable year ended November 30, 2022, and anticipates that there will be a significant risk that it will be a PFIC in subsequent years. If the Company is classified as a PFIC in any taxable year in which a U.S. Holder holds Offered Shares, the Company generally will be considered a PFIC with respect to such Offered Shares in subsequent taxable years even if the Company is otherwise not a PFIC in such subsequent taxable years. If the Company is considered to be a PFIC with respect to a U.S. Holder's Offered Shares, such holder generally will be liable to pay income tax at the highest ordinary income tax rate on any "excess distribution" from the Company and on the U.S. Holder's gain from the disposition of Offered Shares as if such excess distribution or gain had been recognized ratably over the U.S. Holder's holding period for the Offered Shares, plus interest on such amount as if it were treated as a series of underpayments of tax in such prior years. Each U.S. Holder should consult its own tax advisor regarding the classification of the Company as a PFIC and the consequences of such classification.

Distributions on Offered Shares

Subject to the PFIC rules discussed below, a U.S. Holder that receives a distribution with respect to an Offered Share will be required to include the amount of such distribution in gross income as a dividend (without reduction for any Canadian income tax withheld from such distribution) to the extent of the current or accumulated "earnings and profits" of the Company, as computed for U.S. federal income tax purposes. To the extent that a distribution exceeds the current and accumulated "earnings and profits" of the Company, such distribution will be treated first as a tax-free return of capital to the extent of a U.S. Holder's tax basis in the Offered Shares, and thereafter as a gain from the sale or exchange of such Offered Shares (see "*Sale or Other Taxable Disposition of Offered Shares*" below). However, the Company does not expect to determine its current and accumulated earnings and profits in accordance with U.S. federal income tax principles, and U.S. Holders should therefore assume that any distribution by the Company with respect to Offered Shares will constitute dividend income. Dividends received on Offered Shares will not be eligible for the "dividends received deduction" allowed to corporations under the Code with respect to dividends received from domestic corporations.

Subject to applicable limitations and provided the Company is eligible for the benefits of the Canada-U.S. Tax Convention or the Offered Shares are readily tradable on a United States securities market, dividends paid by the Company to non-corporate U.S. Holders, including

individuals, generally will be eligible for the preferential tax rates applicable to long-term capital gains for dividends, provided certain holding period and other conditions are satisfied, including that the Company is not classified as a PFIC in the tax year of distribution or in the preceding tax year. Dividends paid to a U.S. Holder that do not result in qualified dividend income generally will be taxed at ordinary income tax rates. The dividend rules are complex, and each U.S. Holder should consult its own tax advisor regarding the application of such rules.

Sale or Other Taxable Disposition of Offered Shares

Subject to the PFIC rules discussed below, upon the sale or other taxable disposition of Offered Shares, a U.S. Holder generally will recognize gain or loss in an amount equal to the difference between (a) the amount of cash plus the fair market value of any property received and (b) its tax basis in such Offered Shares sold or otherwise disposed of. Such gain or loss will be a long-term capital gain or loss if the Offered Shares have been held for more than one year and will be short-term gain or loss if the holding period is equal to or less than one year. Such gain generally will be treated as "U.S. source" for purposes of applying the US foreign tax credit rules unless the gain is subject to tax in Canada and is re-sourced as "foreign source" under the Canada-U.S. Tax Convention and such U.S. Holder elects to treat such gain or loss as "foreign source" (see a more detailed discussion at "*Foreign Tax Credit*" below). Long-term capital gains of certain non-corporate U.S. Holders are eligible for reduced rates of taxation. Deductions for capital losses are subject to complex limitations.

Foreign Tax Credit

A U.S. Holder who pays (whether directly or through withholding) Canadian income tax with respect to dividends paid on Offered Shares generally may elect to deduct or credit such tax. This election is made on a year-by-year basis and applies to all foreign taxes paid (whether directly or through withholding) by a U.S. Holder during a year.

Complex limitations apply to the foreign tax credit, including the general limitation that the credit cannot exceed the proportionate share of a U.S. Holder's US federal income tax liability that such U.S. Holder's "foreign source" taxable income bears to such U.S. Holder's worldwide taxable income. In applying this limitation, a U.S. Holder's various items of income and deduction must be classified, under complex rules, as either "foreign source" or "US source." In addition, this limitation is calculated separately with respect to specific categories of income. Dividends paid by the Company generally will constitute "foreign source" income and generally will be categorized as "passive category income". Because the foreign tax credit rules are complex, U.S. Holders should consult their own tax advisors regarding the foreign tax credit rules, including the source of any dividends paid to U.S. Holders.

Subject to certain specific rules, foreign income and withholding taxes paid with respect to any distribution in respect of stock in a PFIC should qualify for the foreign tax credit. The rules relating to distributions by a PFIC are complex, and a U.S. Holder should consult with its own tax advisor with respect to any distribution received from a PFIC.

Receipt of Foreign Currency

The amount of any distribution paid in foreign currency to a U.S. Holder in connection with the ownership of Offered Shares, or on the sale, exchange or other taxable disposition of Offered Shares, generally will be equal to the U.S. dollar value of such foreign currency based on the exchange rate applicable on the date of actual or constructive receipt (regardless of whether such foreign currency is converted into U.S. dollars at that time). If the foreign currency received is not converted into U.S. dollars on the date of receipt, a U.S. Holder will have a basis in the foreign currency equal to its U.S. dollar value on the date of receipt. A U.S. Holder that receives foreign currency and converts such foreign currency into U.S. dollars at a conversion rate other than the rate in effect on the date of receipt may have a foreign currency exchange gain or loss, which generally would be treated as U.S. source ordinary income or loss for foreign tax credit purposes. Different rules may apply to U.S. Holders subject to the accrual method of tax accounting. U.S. Holders should consult their own U.S. tax advisors regarding the U.S. federal income tax consequences of receiving, owning and disposing of foreign currency.

Passive Foreign Investment Company Rules

If the Company is a PFIC within the meaning of Section 1297 of the Code at any time during a U.S. Holder's holding period, then certain different and potentially adverse tax consequences would apply to such U.S. Holder's acquisition, ownership and disposition of Offered Shares.

PFIC Status of the Company

The Company generally will be a PFIC if, for a given tax year, (a) 75% or more of the gross income of the Company for such tax year is passive income (the "**income test**") or (b) 50% or more of the assets held by the Company either produce passive income or are held

for the production of passive income, based on the quarterly average of the fair market value of such assets (the "**asset test**"). "Gross income" generally includes all income less the cost of goods sold, and "passive income" includes, for example, dividends, interest, certain rents and royalties, certain gains from the sale of stock and securities, and certain gains from commodities transactions. Active business gains arising from the sale of commodities generally are excluded from passive income if substantially all of a foreign corporation's commodities are stock in trade or inventory, depreciable property used in a trade or business, or supplies regularly used or consumed in a trade or business.

For purposes of the PFIC income test and asset test described above, if the Company owns, directly or indirectly, 25% or more of the total value of the outstanding shares of another corporation, the Company will be treated as if it (a) held a proportionate share of the assets of such other corporation and (b) received directly a proportionate share of the income of such other corporation. In addition, for purposes of the PFIC income test and asset test described above, "passive income" does not include any interest, dividends, rents or royalties that are received or accrued by the Company from a "related person" (as defined in Section 954(d)(3) of the Code), to the extent such items are properly allocable to the income of such related person that is not passive income.

Under certain attribution rules, if the Company is a PFIC, U.S. Holders will be deemed to own their proportionate share of any subsidiary of the Company which is also a PFIC (a "**lower-tier PFIC**"), and will be subject to U.S. federal income tax on (a) a distribution on the shares of a lower-tier PFIC and (b) a disposition of shares of a lower-tier PFIC, both as if the U.S. Holder directly held the shares of such lower-tier PFIC.

The Company believes there is a significant risk that it was a PFIC for the tax year ended November 30, 2022, and anticipates that there will be a significant risk that it will be a PFIC in subsequent years. The determination of whether the Company (or a subsidiary of the Company) was, or will be, a PFIC for a tax year depends, in part, on the application of complex U.S. federal income tax rules, which are subject to differing interpretations. In addition, whether the Company (or subsidiary) will be a PFIC for any tax year depends on the assets and income of the Company (and each such subsidiary) over the course of each such tax year and, as a result, cannot be predicted with certainty as of the date of this prospectus supplement. Accordingly, there can be no assurance that the IRS will not challenge any determination made by the Company (or subsidiary) concerning its PFIC status or that the Company (and any subsidiary) was not, or will not be, a PFIC for any tax year. U.S. Holders should consult their own tax advisors regarding the PFIC status of the Company and any subsidiary of the Company.

Default PFIC Rules under Section 1291 of the Code

If the Company is a PFIC, the U.S. federal income tax consequences to a U.S. Holder of the acquisition, ownership and disposition of Offered Shares will depend on whether such U.S. Holder makes a Qualified Electing Fund Election under Section 1295 of the Code ("**QEF Election**") or makes a mark-to-market election under Section 1296 of the Code (a "**Mark-to-Market Election**") with respect to Offered Shares. A U.S. Holder that does not make either a QEF Election or a Mark-to-Market Election will be referred to in this summary as a "**Non-Electing U.S. Holder.**"

A Non-Electing U.S. Holder will be subject to the rules of Section 1291 of the Code with respect to (a) any gain recognized on the sale or other taxable disposition of Offered Shares and (b) any excess distribution paid on the Offered Shares. A distribution generally will be an "excess distribution" to the extent that such distribution (together with all other distributions received in the current tax year) exceeds 125% of the average distributions received during the three preceding tax years (or during a U.S. Holder's holding period for the Offered Shares, if shorter).

If the Company is a PFIC, under Section 1291 of the Code any gain recognized on the sale or other taxable disposition of Offered Shares (including an indirect disposition of shares of a lower-tier PFIC), and any excess distribution paid on Offered Shares (or a distribution by a lower-tier PFIC to its shareholder that is deemed to be received by a U.S. Holder) must be ratably allocated to each day of a Non-Electing U.S. Holder's holding period for the Offered Shares, as applicable. The amount of any such gain or excess distribution allocated to the tax year of disposition or excess distribution and to years before the Company became a PFIC, if any, would be taxed as ordinary income. The amounts allocated to any other tax year would be subject to US federal income tax at the highest tax rate applicable to ordinary income in each such year without regard to the U.S. Holder's other tax attributes, and an interest charge would be imposed on the tax liability for each such year, calculated as if such tax liability had been due in each such year. A Non-Electing U.S. Holder that is not a corporation must treat any such interest paid as "personal interest," which is not deductible.

If the Company is a PFIC for any tax year during which a Non-Electing U.S. Holder holds Offered Shares, the Company will continue to be treated as a PFIC with respect to such Non-Electing U.S. Holder, regardless of whether the Company ceases to be a PFIC in one or more subsequent years. If the Company ceases to be a PFIC, a Non-Electing U.S. Holder may terminate this deemed PFIC status with respect to Offered Shares by electing to recognize gain (which will be taxed under the rules of Section 1291 of the Code discussed above) as if such Offered Shares were sold on the last day of the last tax year for which the Company was a PFIC.

QEF Election

If the Company is a PFIC and a U.S. Holder makes a QEF Election for the first tax year in which its holding period of its Offered Shares begins, such U.S. Holder generally will not be subject to the rules of Section 1291 of the Code discussed above with respect to its Offered Shares. However, a U.S. Holder that makes a QEF Election will be subject to US federal income tax on such U.S. Holder's pro rata share of (a) the net capital gain of the Company, which will be taxed as long-term capital gain to such U.S. Holder, and (b) the ordinary earnings of the Company, which will be taxed as ordinary income to such U.S. Holder. Generally, "net capital gain" is the excess of (a) net long-term capital gain over (b) net short-term capital gain, and "ordinary earnings" are the excess of (a) "earnings and profits" over (b) net capital gain. A U.S. Holder that makes a QEF Election will be subject to US federal income tax on such amounts for each tax year in which the Company is a PFIC, regardless of whether such amounts are actually distributed to such U.S. Holder by the Company. However, a U.S. Holder that makes a QEF Election may, subject to certain limitations, elect to defer payment of current U.S. federal income tax on such amounts, subject to an interest charge. If such U.S. Holder is not a corporation, any such interest paid will be treated as "personal interest," which is not deductible.

A U.S. Holder that makes a timely and effective QEF Election generally (a) may receive a tax-free distribution from the Company to the extent that such distribution represents "earnings and profits" of the Company that were previously included in income by the U.S. Holder because of such QEF Election and (b) will adjust such U.S. Holder's tax basis in the Offered Shares to reflect the amount included in income or allowed as a tax-free distribution because of such QEF Election. In addition, a U.S. Holder that makes a QEF Election generally will recognize capital gain or loss on the sale or other taxable disposition of Offered Shares.

The procedure for making a QEF Election, and the U.S. federal income tax consequences of making a QEF Election, will depend on whether such QEF Election is timely. A QEF Election will be treated as timely if it is made for the first year in the U.S. Holder's holding period for the Offered Shares in which the Company was a PFIC. A U.S. Holder may make a timely QEF Election by filing the appropriate QEF Election documents at the time such U.S. Holder files a U.S. federal income tax return for such year.

A QEF Election will apply to the tax year for which such QEF Election is timely made and to all subsequent tax years, unless such QEF Election is invalidated or terminated or the IRS consents to revocation of such QEF Election. If a U.S. Holder makes a QEF Election and, in a subsequent tax year, the Company ceases to be a PFIC, the QEF Election will remain in effect (although it will not be applicable) during those tax years in which the Company is not a PFIC. Accordingly, if the Company becomes a PFIC in a subsequent tax year, the QEF Election will be effective, and the U.S. Holder will be subject to the QEF rules described above during a subsequent tax year in which the Company qualifies as a PFIC.

U.S. Holders should be aware that, for each tax year, if any, that the Company is a PFIC, the Company intends to satisfy the record-keeping requirements and make available to U.S. Holders a PFIC Annual Information Statement and any other information such U.S. Holders require to make a QEF Election with respect to the Company or any subsidiary that also is classified as a PFIC. Accordingly, it is expected that U.S. Holders will be able to make a QEF Election with respect to the Company or its subsidiaries.

Mark-to-Market Election

A U.S. Holder may make a Mark-to-Market Election only if the Offered Shares are marketable stock. The Offered Shares generally will be "marketable stock" if they are regularly traded on (a) a national securities exchange that is registered with the SEC; (b) the national market system established pursuant to section 11A of the Securities and Exchange Act of 1934; or (c) a foreign securities exchange that is regulated or supervised by a governmental authority of the country in which the market is located, provided that (i) such foreign exchange has trading volume, listing, financial disclosure and other requirements and the laws of the country in which such foreign exchange is located, together with the rules of such foreign exchange, ensure that such requirements are actually enforced; and (ii) the rules of such foreign exchange ensure active trading of listed stocks. If such stock is traded on such a qualified exchange or other market, such stock generally will be "regularly traded" for any calendar year during which such stock is traded, other than in de minimis quantities, on at least 15 days during each calendar quarter.

A U.S. Holder that makes a Mark-to-Market Election with respect to its Offered Shares generally will not be subject to the rules of Section 1291 of the Code discussed above. However, if a U.S. Holder does not make a Mark-to-Market Election beginning in the first tax year of such U.S. Holder's holding period for Offered Shares or such U.S. Holder has not made a timely QEF Election, the rules of Section 1291 of the Code discussed above will apply to certain dispositions of, and distributions on, the Offered Shares if the Company is a PFIC.

A U.S. Holder that makes a Mark-to-Market Election will include in ordinary income, for each tax year in which the Company is a PFIC, an amount equal to the excess, if any, of (a) the fair market value of the Offered Shares, as of the close of such tax year over (b)

such U.S. Holder's tax basis in such Offered Shares. A U.S. Holder that makes a Mark-to-Market Election will be allowed a deduction in an amount equal to the excess, if any, of (i) such U.S. Holder's adjusted tax basis in the Offered Shares over (ii) the fair market value of such Offered Shares (but only to the extent of the net amount of previously included income as a result of the Mark-to-Market Election for prior tax years).

U.S. Holders that make a Mark-to-Market Election generally also will adjust their tax basis in the Offered Shares to reflect the amount included in gross income or allowed as a deduction because of such Mark-to-Market Election. In addition, upon a sale or other taxable disposition of Offered Shares, a U.S. Holder that makes a Mark-to-Market Election will recognize ordinary income or loss (not to exceed the excess, if any, of (a) the amount included in ordinary income because of such Mark-to-Market Election for prior tax years over (b) the amount allowed as a deduction because of such Mark-to-Market Election for prior tax years). Losses that exceed this limitation are subject to the rules generally applicable to losses provided in the Code and Treasury Regulations.

A Mark-to-Market Election applies to the tax year in which such Mark-to-Market Election is made and to each subsequent tax year, unless the Offered Shares cease to be "marketable stock" or the IRS consents to revocation of such election. U.S. Holders should consult their own tax advisors regarding the availability of, and procedure for making, a Mark-to-Market Election. Each U.S. Holder should consult its own tax advisors regarding the availability of, and procedure for making, a Mark-to-Market Election.

Although a U.S. Holder may be eligible to make a Mark-to-Market Election with respect to Offered Shares, no such election may be made with respect to the stock of any lower-tier PFIC that a U.S. Holder is treated as owning because such stock is not marketable. Hence, the Mark-to-Market Election will not be effective to eliminate the interest charge described above with respect to deemed dispositions of lower-tier PFIC stock or distributions from a lower-tier PFIC.

The PFIC rules are complex, and U.S. Holders should consult their own tax advisors regarding the PFIC rules and how they may affect the U.S. federal income tax consequences of the acquisition, ownership, and disposition of Offered Shares in the event the Company is a PFIC at any time during the holding period for such Offered Shares.

Information Reporting and Backup Withholding

Certain U.S. Holders are required to report information relating to an interest in Offered Shares, subject to certain exceptions (including an exception for Offered Shares held in accounts maintained by certain financial institutions), by attaching a completed IRS Form 8938, Statement of Specified Foreign Financial Assets, with their tax return for each year in which they hold an interest in Offered Shares. Failure to do so could result in substantial penalties and in the extension of the statute of limitations with respect to such holder's U.S. federal income tax returns. In addition, if U.S. Holders hold Offered Shares in any tax year in which we are classified as a PFIC, such U.S. Holders will generally be required to file an IRS Form 8621, Information Return by a Shareholder of a Passive Foreign Investment Company or Qualified Electing Fund, for such tax year. U.S. Holders are urged to consult their own tax advisors regarding information reporting requirements relating to their ownership of the Offered Shares.

Payments made within the United States, or by a U.S. payor or U.S. middleman, of dividends on Offered Shares, and proceeds arising from certain sales or other taxable dispositions of Offered Shares, may be subject to information reporting and backup withholding tax, currently at the rate of 24%, if a U.S. Holder (a) fails to furnish such U.S. Holder's correct U.S. social security or other taxpayer identification number (generally on Form W-9); (b) furnishes an incorrect U.S. taxpayer identification number; (c) is notified by the IRS that such U.S. Holder has previously failed to properly report items subject to backup withholding tax; or (d) fails under certain circumstances to certify, under penalty of perjury, that such U.S. Holder has furnished its correct U.S. taxpayer identification number and that the IRS has not notified such U.S. Holder that it is subject to backup withholding tax. However, U.S. Holders that are corporations generally are excluded from these information reporting and backup withholding rules. Backup withholding is not an additional tax. Any amounts withheld under the U.S. backup withholding rules will be allowed as a credit against a U.S. Holder's U.S. federal income tax liability, if any, or will be refunded, if such U.S. Holder timely furnishes the required information to the IRS.

The discussion of reporting requirements set forth above is not intended to constitute a complete description of all reporting requirements that may apply to a U.S. Holder. A failure to satisfy certain reporting requirements may result in an extension of the time period during which the IRS can assess a tax, and under certain circumstances, such an extension may apply to assessments of amounts unrelated to any unsatisfied reporting requirement. U.S. Holders should consult their own tax advisors regarding the information reporting and backup withholding tax rules.

THE ABOVE SUMMARY IS NOT INTENDED TO CONSTITUTE A COMPLETE ANALYSIS OF ALL TAX CONSIDERATIONS APPLICABLE TO U.S. HOLDERS WITH RESPECT TO THE ACQUISITION, OWNERSHIP, AND DISPOSITION OF OFFERED SHARES. U.S. HOLDERS SHOULD CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSIDERATIONS APPLICABLE TO THEM IN THEIR OWN PARTICULAR CIRCUMSTANCES.

RISK FACTORS

Investing in our securities is speculative and involves a high degree of risk due to the nature of our business and the present stage of its development. The following risk factors, as well as risks currently unknown to us, could materially adversely affect our future business, operations and financial condition and could cause them to differ materially from the estimates described in forward-looking statements relating to the Company, or its business, property or financial results, each of which could cause purchasers of our securities to lose part or all of their investment. The risks set out below are not the only risks we face; risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially and adversely affect our business, financial condition, results of operations and prospects. In addition to the other information contained in this prospectus supplement and the accompanying prospectus, including the documents incorporated by reference therein, you should carefully consider the risks described below as they relate to the Offering under this prospectus supplement, as well as the risks described under the "Risk Factors" section of the Annual Information Form, as they relate to the business of the Company, our Common Shares and more, before purchasing the Offered Shares.

Risks Related to the Offering

Net Proceeds to the Company

There is no certainty that the maximum amount of US\$50,000,000 (or the equivalent in Canadian dollars, determined using the daily exchange rate posted by the Bank of Canada on the date the Offered Shares are sold) will be raised under the Offering. The Agents have agreed to use their commercially reasonable efforts to sell, on the Company's behalf, the Offered Shares designated by the Company, but the Company is not required to request the sale of the maximum amount offered or any amount and, if the Company requests a sale, the Agents are not obligated to purchase any Offered Shares that are not sold. As a result of the Offering being made on a commercially reasonable efforts basis with no minimum, and only as requested by the Company, the Company may raise substantially less than the maximum total offering amount or nothing at all.

Use of Proceeds

The Company intends to use the net proceeds from the Offering as described under "*Use of Proceeds*". However, management will have discretion in the actual application of the proceeds, and may elect to allocate proceeds differently from that described under "*Use of Proceeds*" if it believes that it would be in the best interests of the Company to do so or if circumstances change. Management may spend a portion or all of the net proceeds from the Offering in ways that shareholders of the Company may not desire or that may not yield a significant return or any return at all. Purchasers may not agree with the manner in which management chooses to allocate and spend the use of proceeds. The failure by management to apply these funds effectively could have a material adverse effect on the business of the Company.

High Risk, Speculative Nature of Investment

An investment in the securities of the Company carries a high degree of risk, should be considered speculative by investors and may result in the loss of an investor's entire investment. The Company has no history of earnings, a limited business history, has not paid dividends, and is unlikely to pay dividends in the immediate or near future. The Company's operations are not sufficiently established such that it can mitigate the risks associated with the Company's planned activities.

At-the-Market Offering

Investors who purchase Offered Shares in this Offering at different times will likely pay different prices, and so may experience different outcomes in their investment results. The Company will have discretion, subject to market demand, to vary the timing, prices and numbers of Offered Shares sold, and there is no minimum or maximum sales price. Investors may experience a decline in the value of their Offered Shares as a result of Common Share sales made at prices lower than the prices they paid.

Liquidity Concerns and Future Financing Requirements

The Company has negative cash flow from operating activities in its most recently completed financial year and may require additional financing in order to fund its business plan. The Company's ability to arrange such financing in the future will depend in part on prevailing capital market conditions, as well as the Company's business success. There can be no assurance that it will be successful in its efforts to arrange additional financing on satisfactory terms, or at all. If additional financing is raised by the issuance of Common Shares or securities exchangeable for or convertible into Common Shares, control of the Company may change and its shareholders may suffer additional dilution. If adequate funds are not available, or are not available on acceptable terms, the Company may not be

able to operate its businesses at its maximum potential, to expand, to take advantage of other opportunities or to otherwise remain in business.

"Passive Foreign Investment Company" Risk

Prospective investors who are "U.S. Holders" (as defined above in "Certain United States Federal Income Tax Considerations") should be aware that they could be subject to certain adverse U.S. federal income tax consequences if the Company is classified as a PFIC for U.S. federal income tax purposes. The determination of whether we are a PFIC for a taxable year depends, in part, on the application of complex U.S. federal income tax rules, which are subject to differing interpretations, and such determination will depend on the composition of our income and assets from time to time and the nature of our activities. The Company believes there is a significant risk that it will be a PFIC for the taxable year ended November 30, 2022, and anticipates that there will be a significant risk that it will be a PFIC in subsequent years. If the Company is classified as a PFIC in any taxable year in which a U.S. Holder holds Offered Shares, the Company generally will be considered a PFIC with respect to such Offered Shares in subsequent taxable years even if the Company is otherwise not a PFIC in such subsequent taxable years. If the Company is considered to be a PFIC with respect to a U.S. Holder's Offered Shares, such holder generally will be liable to pay income tax at the highest ordinary income tax rate on any "excess distribution" from the Company and on the U.S. Holder's gain from the disposition of Offered Shares as if such excess distribution or gain had been recognized ratably over the U.S. Holder's holding period for the Offered Shares, plus interest on such amount as if it were treated as a series of underpayments of tax in such prior years. Prospective investors who are U.S. Holders should also be aware that, for each taxable year, if any, that the Company is a PFIC, the Company intends to satisfy the record-keeping requirements and make available to U.S. Holders a PFIC annual information statement and any other information such U.S. Holders require to make a "QEF Election" (as defined above in "Certain United States Federal Income Tax Considerations") with respect to the Company or any subsidiary that also is classified as a PFIC. Accordingly, it is expected that U.S. Holders will be able to make a QEF Election with respect to the Company or its subsidiaries. Prospective investors who are U.S. Holders should consult their own tax advisors regarding the likelihood and consequences of the Company being treated as a PFIC for U.S. federal income tax purposes, including the availability, advisability and implications of making tax elections to mitigate possible adverse U.S. federal income tax consequences but that may result in an inclusion in gross income without receipt of such income.

Risks Related to the Company

Completion of US GoldMining Go-Public Transaction

There is no certainty that US GoldMining will complete its initial public offering or similar transaction. Even if completed, US GoldMining may require additional funds in order to advance the Whistler Gold-Copper Project towards development and further additional financing to construct a mine should development prove to be warranted. If no initial public offering or similar transaction is completed, the Company may have to contribute funds to US GoldMining in order to continue to advance the Whistler Gold-Copper Project towards development.

ENFORCEMENT OF JUDGMENTS AGAINST FOREIGN PERSONS

We are a company incorporated under the *Canada Business Corporations Act*. Additionally, certain of the Company's directors and officers reside outside of Canada. The directors and officers named below have appointed the following agent for service of process:

<u>Name of Director</u>	<u>Name and Address of Agent</u>
Gloria Ballesta	Sangra Moller LLP, 1000 Cathedral Place, 925 West Georgia Street, Vancouver, British Columbia, V6C 3L2
Mario Bernardo Gernerio	Sangra Moller LLP, 1000 Cathedral Place, 925 West Georgia Street, Vancouver, British Columbia, V6C 3L2

Purchasers are advised that it may not be possible for investors to enforce judgments obtained in Canada against any person that resides outside of Canada, even if the party has appointed an agent for service of process. It may also be difficult for holders of securities who reside in the United States to realize in the United States upon judgments of courts of the United States predicated upon our civil liability and the civil liability of our directors, officers and experts under the United States federal securities laws. We have been advised that a judgment of a U.S. court predicated solely upon civil liability under U.S. federal securities laws or the securities or "blue sky" laws of any state within the United States, would likely be enforceable in Canada if the United States court in which the judgment was obtained has a basis for jurisdiction in the matter that would be recognized by a Canadian court for the same purposes. We have also been advised,

however, that there is substantial doubt whether an action could be brought in Canada in the first instance on the basis of the liability predicated solely upon U.S. federal securities laws.

LEGAL MATTERS

Certain legal matters in connection with the Offering will be passed upon on behalf of the Company by Sangra Moller LLP, with respect to Canadian legal matters, and by Haynes and Boone, LLP, with respect to United States legal matters, and on behalf of the Agents by DLA Piper (Canada) LLP with respect to Canadian legal matters and DLA Piper LLP (US), with respect to United States legal matters.

As of the date hereof, the partners and associates, as a group, of each of Sangra Moller LLP and DLA Piper (Canada) LLP beneficially own, directly and indirectly, less than 1% of the issued and outstanding Common Shares of the Company or any of its associates or affiliates.

As noted above, Paulo Pereira is currently the President of the Company. Mr. Pereira owns Common Shares and has been granted stock options through the course of his employment, however, the interests held by Mr. Pereira throughout his employment term at all times represented less than one percent of the issued and outstanding Common Shares.

Except as otherwise disclosed herein, none of the foregoing experts, nor any partner, employee or consultant of such an expert who participated in and who was in a position to directly influence the preparation of the applicable statement, report or valuation, has, has received, or is expected to receive, registered or beneficial interests, direct or indirect, in Common Shares or other property of the Company or any of its associates or affiliates representing 1% or more of the outstanding Common Shares.

RELATIONSHIP BETWEEN THE COMPANY AND THE AGENTS

Bank of Montreal, an affiliate of BMO Nesbitt Burns Inc. and BMO Capital Markets Corp., is the lender under the BMO Margin Loan Agreement, providing for the BMO Credit Facility. The Company may repay the BMO Credit Facility, from time to time, in accordance with the terms of the BMO Margin Loan Agreement, utilizing net proceeds of the Offering. Consequently, the Company may be considered a "connected issuer" of BMO Nesbitt Burns Inc. under applicable securities laws and a "conflict of interest" may be deemed to exist under FINRA Rule 5121(f)(5)(C)(i) if five percent of the net Offering proceeds, not including Agents' compensation, are intended to be used to reduce or retire the balance of the BMO Credit Facility. However, the Company does not expect to use five percent or more of the net Offering proceeds to reduce or retire the BMO Credit Facility.

ELIGIBILITY FOR INVESTMENT

In the opinion of Sangra Moller LLP, counsel to the Company, and DLA Piper (Canada) LLP, counsel to the Agents, based on the current provisions of the Tax Act and the Regulations, the Offered Shares, if issued on the date hereof, would be "qualified investments" under the Tax Act and the Regulations for trusts governed by a "registered retirement savings plan", "registered retirement income fund", "tax-free savings account", "registered education savings plan", "registered disability savings plan", "first home savings account" (collectively referred to as "**Registered Plans**") and a "deferred profit sharing plan" (each as defined in the Tax Act), provided that the Offered Shares are listed on a designated stock exchange for the purposes of the Tax Act (which currently includes the TSX and NYSE American) or the Company qualifies as a "public corporation" (as defined in the Tax Act).

Notwithstanding that an Offered Share may be a qualified investment for a Registered Plan, if an Offered Share is a "prohibited investment" within the meaning of the Tax Act for the Registered Plan, the holder, annuitant or subscriber of the Registered Plan, as the case may be, will be subject to a penalty tax as set out in the Tax Act. The Offered Shares will not generally be a "prohibited investment" for a Registered Plan if the holder, annuitant or subscriber, as the case may be, (i) deals at arm's length with the Company for the purposes of the Tax Act and (ii) does not have a "significant interest" (as defined in the Tax Act) in the Company. In addition, the Offered Shares will not be a "prohibited investment" if the Offered Shares are "excluded property" within the meaning of the Tax Act, for the Registered Plan.

Holders, annuitants and subscribers of Registered Plans should consult their own tax advisors with respect to whether Offered Shares would be a "prohibited investment" having regard to their particular circumstances.

STATUTORY EXEMPTIONS

Pursuant to a decision of the Autorité des marchés financiers dated April 29, 2021, the Company was granted exemptive relief from the requirement that this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein be publicly filed in both the French and English languages. For the purposes of this prospectus supplement, the Company is not required to publicly file French versions of this prospectus supplement and the documents incorporated by reference herein.

PURCHASERS' STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

The following is a description of a purchaser's statutory rights in connection with any purchase of Offered Shares pursuant to the Offering, which supersedes and replaces the statement of purchasers' rights in the prospectus under the heading "Statutory Rights of Withdrawal and Rescission" solely with regard to the Offering.

Securities legislation in some provinces and territories of Canada provides purchasers of securities with the right to withdraw from an agreement to purchase securities and with remedies for rescission or, in some jurisdictions, revisions of the price, or damages if the prospectus, prospectus supplement and any amendment relating to securities purchased by a purchaser are not sent or delivered to the purchaser. However, purchasers of Offered Shares distributed under an at-the-market distribution by the Company do not have the right to withdraw from an agreement to purchase the Offered Shares and do not have remedies of rescission or, in some jurisdictions, revisions of the price, or damages for non-delivery of the prospectus, prospectus supplement and any amendment relating to the Offered Shares purchased by such purchaser because the prospectus, prospectus supplement and any amendment relating to the Offered Shares purchased by such purchaser will not be sent or delivered, as permitted under Part 9 of NI 44-102.

Securities legislation in some provinces and territories of Canada further provides purchasers with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus, prospectus supplement and any amendment relating to securities purchased by a purchaser contains a misrepresentation. Those remedies must be exercised by the purchaser within the time limit prescribed by securities legislation. Any remedies under securities legislation that a purchaser of Offered Shares distributed under an at-the-market distribution by the Company may have against the Company or the Agents for rescission or, in some jurisdictions, revisions of the price, or damages if the prospectus, prospectus supplement and any amendment relating to securities purchased by a purchaser contain a misrepresentation will remain unaffected by the non-delivery of the prospectus referred to above.

A purchaser should refer to applicable securities legislation for the particulars of these rights and should consult a legal adviser.

The consideration for any such acquisition may consist of the Securities

The Company is permitted, under a multi-jurisdictional disclosure system adopted by the securities regulatory authorities in Canada and the United States, to prepare this Prospectus in accordance with the disclosure requirements of Canada. Prospective investors in the United States should be aware that such requirements are different from those of the United States. The financial statements incorporated by reference herein have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS") and may not be comparable to financial statements of United States companies.

The enforcement by investors of civil liabilities under the United States federal securities laws may be affected adversely by the fact that the Company is governed by the laws of Canada, that some of its officers and directors are residents of a foreign country, that some of the experts named in this Prospectus are, and the underwriters, dealers or agents named in any Prospectus Supplement may be, residents of a foreign country, and a substantial portion of the assets of the Company and said persons may be located outside of the United States. See "*Enforceability of Certain Civil Liabilities*".

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION (THE "SEC") NOR ANY STATE SECURITIES COMMISSION NOR HAS THE SEC OR ANY STATE SECURITIES COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE.

Investing in Securities of the Company involves a high degree of risk. You should carefully review the risks outlined in this Prospectus (together with any Prospectus Supplement) and in the documents incorporated by reference in this Prospectus and any Prospectus Supplement and consider such risks in connection with an investment in such Securities. See "*Risk Factors*".

Prospective investors should be aware that the acquisition of the Securities may have tax consequences in Canada and the United States. Such consequences may not be described fully herein or in any applicable Prospectus Supplement. Prospective investors should read the tax discussion contained in this Prospectus under the heading "*Certain Federal Income Tax Considerations*" as well as the tax discussion, if any, contained in the applicable Prospectus Supplement with respect to a particular offering of Securities.

of the Warrants, and any procedures that will result in the adjustment of those numbers, the exercise price, the dates and periods of exercise, the currency in which the Warrants are issued and any other specific terms; (iv) in the case of Subscription Receipts, the number of Subscription Receipts being offered, the offering price, whether the Subscription Receipts are being offered for cash, the terms, conditions and procedures for the conversion of the Subscription Receipts into other Securities, the designation, number and terms of such other Securities, the currency in which such other Securities are issued and any other terms specific to the Subscription Receipts; (v) in the case of Debt Securities, the specific designation of the Debt Securities, whether such Debt Securities are senior or subordinated, the aggregate principal amount of the Debt Securities being offered, the currency or currency unit in which the Debt Securities may be purchased, authorized denominations, any limit on the aggregate principal amount of the Debt Securities of the series being offered, the issue and delivery date, the maturity date, the offering price (at par, at a discount or at a premium), the interest rate or method of determining the interest rate, the interest payment date(s), any conversion or exchange rights that are attached to the Debt Securities, any redemption provisions, any repayment provisions, and any other specific terms; and (vi) in the case of Units, the number of Units being offered, the offering price and the designation, number and terms of the Securities comprising the Units. A Prospectus Supplement relating to a particular offering of Securities may include terms pertaining to the Securities being offered thereunder that are not within the terms and parameters described in this Prospectus. Where required by statute, regulation or policy, and where the Securities are offered in currencies other than Canadian dollars, appropriate disclosure of foreign exchange rates applicable to the Securities will be included in the Prospectus Supplement describing the Securities.

All information permitted under applicable securities laws to be omitted from this Prospectus will be contained in one or more Prospectus Supplements that will be delivered to purchasers together with this Prospectus to the extent required by applicable securities law. Each Prospectus Supplement will be incorporated by reference into this Prospectus for the purposes of securities legislation as of the date of the Prospectus Supplement and only for the purposes of the distribution of the Securities to which the Prospectus Supplement pertains. Prospective investors should read this Prospectus and any applicable Prospectus Supplement carefully before investing in any Securities issued pursuant to this Prospectus.

This Prospectus constitutes a public offering of the Securities only in those jurisdictions where they may be lawfully offered for sale and only by persons permitted to sell the Securities in those jurisdictions. The Company may offer and sell the Securities to or through underwriters or dealers purchasing as principals, and may also sell directly to one or more purchasers or through agents or pursuant to exemptions from registration or qualifications under applicable securities law. The Prospectus Supplement relating to each issue of Securities will identify each underwriter, dealer or agent, as the case may be, engaged by the Company in connection with the offering and sale of the Securities, and will set forth the terms of the offering of such Securities, including, to the extent applicable, any fees, discounts or any other compensation payable to underwriters, dealers or agents in connection with the offering, the method of distribution of the Securities, the initial issue price (in the event that the offering is a fixed price distribution), the proceeds that the Company will or expects to receive, and any other material terms of the plan of distribution. This Prospectus may qualify an "at-the-market distribution" as defined in National Instrument 44-102 – *Shelf Distributions* ("NI 44-102").

The Securities may be sold from time to time in one or more transactions at a fixed price or prices or at non-fixed prices. If offered on a non-fixed price basis, the Securities may be offered at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at prices to be negotiated with purchasers at the time of sale, which prices vary as between purchasers and during the period of distribution of the Securities.

In connection with any offering of Securities (unless otherwise specified in a Prospectus Supplement), other than an "at-the-market" distribution, the underwriters, dealers or agents may over-allot or effect transactions which stabilize or maintain the market price of the Securities offered at a level above that which might otherwise prevail in the open market. Such transactions may be commenced, interrupted or discontinued at any time. No underwriter, dealer or agent involved in an "at-the-market distribution" under this Prospectus, no affiliate of such an underwriter, dealer or agent and no person or company acting jointly or in concert with such an underwriter, dealer or agent will over-allot Securities in connection with such distribution or effect any other transactions that are intended to stabilize or maintain the market price of the Securities, including selling an aggregate number or principal amount of Securities that would result in the underwriter, dealer or agent creating an over-allotment position in the Securities. See "*Plan of Distribution*".

No underwriter has been involved in the preparation of the Prospectus or performed any review of the contents of the Prospectus.

Unless otherwise specified in the applicable Prospectus Supplement, each series or issue of Securities (other than Common Shares) will not be listed on any securities exchange. Accordingly, there is currently no market through which the Securities (other than Common Shares) may be sold and purchasers may not be able to resell such Securities purchased under this Prospectus. This may affect the pricing of such Securities in the secondary market, the transparency and availability of trading prices, the liquidity of such Securities and the extent of issuer regulation. See "*Risk Factors*".

The Company's head office and principal address is located at 1030 West Georgia Street, Suite 1830, Vancouver, British Columbia, V6E 2Y3 and the registered office is located at 1000 Cathedral Place, 925 West Georgia Street, Vancouver, British Columbia, V6C 3L2.

ABOUT THIS PROSPECTUS

We are a company incorporated under the federal laws of Canada. Our common shares are registered under Section 12(b) of the *United States Securities Exchange Act of 1934*, as amended (the "**Exchange Act**"). Our common shares are traded in Canada on the TSX under the symbol "GOLD" and in the United States on the NYSE American under the symbol "GLDG".

This Prospectus is a base shelf prospectus that:

- we have filed with the securities commissions in each of the provinces and territories of Canada, (the "**Canadian Qualifying Jurisdictions**") in order to qualify the offering of the Securities described in this Prospectus in accordance with NI 44-102; and

CAUTIONARY NOTE TO U.S. INVESTORS REGARDING PRESENTATION OF MINERAL RESERVE AND MINERAL RESOURCE ESTIMATES

This Prospectus, including the documents incorporated by reference herein, has been prepared in accordance with the requirements of the securities laws in effect in Canada, which differ from the requirements of United States securities laws. All mining terms used herein but not otherwise defined have the meanings set forth in National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* ("**NI 43-101**"), which references the guidelines set out in the Canadian Institute of Mining, Metallurgy and Petroleum (the "**CIM**") – CIM Definition Standards on Mineral Resources and Mineral Reserves ("**CIM Standards**"), adopted by the CIM Council.

In addition, the terms "**Mineral Resource**", "**Measured Mineral Resource**", "**Indicated Mineral Resource**" and "**Inferred Mineral Resource**" are defined in and required to be disclosed by NI 43-101. Investors are cautioned not to assume that any part or all of the mineral deposits in these categories will ever be converted into reserves. "**Inferred Mineral Resources**" have a great amount of uncertainty as to their existence, and great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of an Inferred Mineral Resource will ever be upgraded to a higher category. Under Canadian

securities laws, estimates of Inferred Mineral Resources may not form the basis of feasibility or prefeasibility studies, except in certain specific cases. Additionally, disclosure of "contained ounces" in a resource is permitted disclosure under Canadian securities laws.

The SEC adopted amendments to its disclosure rules to modernize the mineral property disclosure requirements for issuers whose securities are registered with the SEC under the Exchange Act. These amendments became effective February 25, 2019 (the "**SEC Modernization Rules**") with compliance required for the first fiscal year beginning on or after January 1, 2021. Under the SEC Modernization Rules, the historical property disclosure requirements for mining registrants included in SEC Industry Guide 7 was rescinded and replaced with the disclosure requirements in subpart 1300 of SEC Regulation S-K. Following the transition period, as a foreign private issuer that is eligible to file reports with the SEC pursuant to the multi-jurisdictional disclosure system, the Company is not required to provide disclosure under the SEC Modernization Rules and will continue to provide disclosure under NI 43-101. As a result of the adoption of the SEC Modernization Rules, the SEC now recognizes estimates of "measured mineral resources", "indicated mineral resources" and "inferred mineral resources". In addition, the SEC has amended its definitions of "proven mineral reserves" and "probable mineral reserves" to be "substantially similar" to the corresponding definitions under the CIM Standards, as required under NI 43-101.

United States investors are cautioned that there are differences in the definitions under the SEC Modernization Rules and the CIM Standards. Accordingly, there is no assurance any mineral reserves or mineral resources that the Company may report as "proven mineral reserves", "probable mineral reserves", "measured mineral resources", "indicated mineral resources" and "inferred mineral resources" under NI 43-101 would be the same had the Company prepared the reserve or resource estimates under the standard adopted under the SEC Modernization Rules. Accordingly, information contained in this Prospectus and the documents incorporated by reference herein containing descriptions of the Company's mineral deposits may not be comparable to similar information made public by U.S. companies subject to the reporting and disclosure requirements of United States federal securities laws and the rules and regulations thereunder.

COVID-19

The Company is closely monitoring the ongoing COVID-19 pandemic which continues to cause significant widespread global infections and fatalities. It has materially adversely affected global economic activity, caused significant market volatility and resulted in numerous governments declaring emergencies and implementing measures, such as travel bans, quarantines, business closures, shelter-in-place and other restrictions.

In response to the COVID-19 pandemic, the Company implemented various measures designed to ensure the health and safety of its personnel and other stakeholders, including instituting protocols and work from home procedures at its head office and other offices and operations.

In addition, as a result of the above-described restrictions and other measures, the Company determined to delay certain work programs that were planned for 2020 on certain of its projects due to restrictions on the ability of its personnel and contractors to attend sites. Other than the aforementioned delay of scheduled work, the COVID-19 pandemic has not had a significant impact on the Company's operations.

In the first half of 2021, many governments, including in Canada, began the roll-out of vaccinations and commenced easing restrictions on certain economic and social activities. However, certain jurisdictions in which the Company has projects, such as Brazil and Colombia, have not eased and are experiencing continued outbreaks. For both of these jurisdictions, cases and fatalities remain at or near their highest levels since the start of the pandemic, due to the rise of variants and the slower than expected roll-out of vaccination programs, which may have socioeconomic impacts. The extent to which COVID-19 will continue to impact the Company's operations and projects, including its exploration and development plans, will depend on future developments which are highly uncertain and cannot be predicted at this time. These future developments include the speed of vaccine roll-outs in the jurisdictions in which the Company operates, the measures taken by various government authorities to contain the virus and its variants spread for future waves. See "*Risk Factors*" in the AIF for further information.

CONSOLIDATED CAPITALIZATION

Other than as described herein, there have been no material changes in the share and loan capital of the Company, on a consolidated basis, since the date of the Interim Financial Statements.

The applicable Prospectus Supplement will describe any material change in, and the effect of such material change on, the share and loan capital of the Company that will result from the issuance of Securities pursuant to such Prospectus Supplement.

USE OF PROCEEDS

The use of proceeds from the sale of Securities will be described in the applicable Prospectus Supplement relating to a specific offering and sale of Securities. Among other potential uses, the Company may use the net proceeds from the sale of Securities to fund the exploration and development, as warranted, of its mineral properties, working capital and other corporate opportunities as they arise, and for other general corporate purposes.

Management of the Company will retain broad discretion in allocating the net proceeds of any offering of Securities under this Prospectus and the Company's actual use of the net proceeds will vary depending on the availability and suitability of investment opportunities and its operating and capital needs from time to time. All expenses relating to an offering of Securities and any compensation paid to underwriting dealers or agents as the case may be, will be paid out of the proceeds from the sale of Securities, unless otherwise stated in the applicable Prospectus Supplement.

The Company may, from time to time, issue securities (including Securities) other than pursuant to this Prospectus.

The Company is an exploration stage company and has not generated cash flow from operations. As at November 30, 2020 and during the three and nine months ended August 31, 2021, the Company had negative cash flow from operating activities. The Company expects to continue to incur negative consolidated operating cash flow and losses until such time as it achieves commercial production at a particular project. As a result, the Company may need to allocate a portion of the proceeds of any offering of Securities to fund any such negative operating cash flow in future periods.

EARNINGS COVERAGE RATIO

Earnings coverage ratios will be provided as required in the applicable Prospectus Supplement(s) with respect to the issuance of Debt Securities pursuant to this Prospectus.

PLAN OF DISTRIBUTION

The Company may from time to time during the 25-month period that this Prospectus, including any amendments hereto, remains effective, offer for sale and issue up to an aggregate of \$130,000,000 in Securities hereunder.

The Company may offer and sell the Securities to or through underwriters or dealers purchasing as principals, and may also sell directly to one or more purchasers or through agents or pursuant to applicable statutory exemptions. Each Prospectus Supplement relating to a particular offering of Securities will identify each underwriter, dealer or agent, as the case may be, engaged by the Company in connection with the offering and sale of the Securities, and will set forth the terms of the offering of such Securities, including, to the extent applicable, any commission, fees, discounts or any other compensation payable to underwriters, dealers or agents in connection with the offering, the method of distribution of the Securities, the initial issue price, the proceeds that the Company will receive and any other material terms of the plan of distribution. If Securities sold pursuant to a Prospectus Supplement are acquired by underwriters for their own account, they may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase Securities will be subject to the conditions precedent agreed upon by the parties and the underwriters will be obligated to purchase all Securities under that offering if any are purchased. Any initial offering price and discounts, concessions or commissions allowed or reallocated or paid to dealers may be changed from time to time.

In addition, the Securities may be offered and issued in consideration for the acquisition of other businesses, assets or securities by the Company or its subsidiaries. The consideration for any such acquisition may consist of the Securities separately, a combination of Securities or any combination of, among other things, Securities, cash and assumption of liabilities.

The Securities may be sold, from time to time in one or more transactions at fixed prices (which may be changed from time to time), at market prices prevailing at the time of sale, at varying prices determined at the time of sale, at prices related to prevailing market prices or at negotiated prices, including sales in transactions that are deemed to be "at-the-market distributions" as defined in NI 44-102 made through the facilities of the TSX, the NYSE American or other existing trading markets for the Common Shares. A description of such pricing will be disclosed in the applicable Prospectus Supplement. The price at which the Securities will be offered and sold may vary as between purchasers and during the period of distribution of the applicable Securities. If, in connection with the offering of Securities at a fixed price or prices, the underwriters, dealers or agents have made a bona fide effort to sell all of the Securities at the initial offering price fixed in the applicable Prospectus Supplement, the public offering price may be decreased and thereafter further changed, from time to time, to an amount not greater than the initial offering price fixed in such Prospectus Supplement, in which case the compensation realized by the underwriters, dealers or agents will be decreased by the amount that the aggregate price paid by purchasers for the Securities is less than the gross proceeds paid by the underwriters, dealers or agents to the Company.

In connection with the sale of the Securities, underwriters, dealers or agents may receive compensation from the Company or from other parties, including in the form of underwriters', dealers' or agents' fees, commissions or concessions. Underwriters, dealers and agents that participate in the distribution of the Securities may be deemed to be underwriters for the purposes of applicable Canadian securities legislation and any such compensation received by them from the Company and any profit on the resale of the Securities by them may be deemed to be underwriting commissions.

In connection with any offering of Securities, except as otherwise set out in a Prospectus Supplement relating to a particular offering of Securities and other than in relation to an "at-the-market" distribution, the underwriters, dealers or agents, as the case may be, may over-allot or effect transactions intended to fix, stabilize, maintain or otherwise affect the market price of the Securities at a level other than those which otherwise might prevail on the open market. Such transactions may be commenced, interrupted or discontinued at any time. No underwriter, agent or dealer involved in an "at-the-market distribution", as defined in NI 44-102, no affiliate of such an underwriter, agent or dealer and no person or company acting jointly or in concert with such an underwriter, agent or dealer may in connection with such distribution, enter into any transaction that is intended to stabilize or maintain the market price of the Securities distributed under an "at-the-market" Prospectus Supplement, including an aggregate number or principal amount of Securities that would result in the underwriter, agent or dealer creating an over-allotment position in the Securities.

Underwriters, dealers or agents who participate in the distribution of the Securities may be entitled, under agreements to be entered into with the Company, to indemnification by the Company against certain liabilities, including liabilities under the U.S. Securities Act and Canadian securities legislation, or to contribution with respect to payments which such underwriters, dealers or agents may be required to make in respect thereof. Such underwriters, dealers and agents may be customers of, engage in transactions with, or perform services for, the Company in the ordinary course of business.

Unless otherwise specified in the applicable Prospectus Supplement, each series or issue of Securities (other than Common Shares) will be a new issue of Securities with no established trading market. Accordingly,

there is currently no market through which the Securities (other than Common Shares) may be sold and purchasers may not be able to resell such Securities purchased under this Prospectus or any Prospectus Supplement. This may affect the pricing of such Securities in the secondary market, the transparency and availability of trading prices, the liquidity of such Securities and the extent of issuer regulation. Subject to applicable laws, certain dealers may make a market in the Securities (other than Common Shares), as applicable, but will not be obligated to do so and may discontinue any market making at any time without notice. No assurances can be given that a market for trading in Securities (other than Common Shares) of any series or issue will develop or as to the liquidity of any such market, whether or not the Securities are listed on a securities exchange.

The Company's board of directors is empowered to fix the number of Preferred Shares and the rights to be attached to the Preferred Shares of each series, including the rate, amount or kind of dividends and any conversion, voting and redemption rights. Subject to the Company's by-laws and applicable law, the holders of Preferred Shares, as a class, are not entitled to receive notice of or attend or vote at meetings of the Company's shareholders.

- whether and under what circumstances we will be required to pay any additional amounts for withholding or deduction for Canadian taxes with respect to the Debt Securities, and whether and on what terms we will have the option to redeem the Debt Securities rather than pay the additional amounts;
- the terms and conditions under which we may be obligated to redeem, repay or purchase the Debt Securities pursuant to any sinking fund or analogous provisions or otherwise;
- the terms and conditions upon which we may redeem the Debt Securities, in whole or in part, at our option;
- the covenants applicable to the Debt Securities;
- the terms and conditions for any conversion or exchange of the Debt Securities for any other Securities;
- the extent and manner, if any, to which payment on or in respect of the Debt Securities of the series will be senior or will be subordinated to the prior payment of other liabilities and obligations of the Company;
- whether the Debt Securities will be secured or unsecured;
- whether the Debt Securities will be issuable in registered form or bearer form or both, and, if issuable in bearer form, the restrictions as to the offer, sale and delivery of the Debt Securities which are in bearer form and as to exchanges between registered form and bearer form;
- whether the Debt Securities will be issuable in the form of registered global securities ("**Global Securities**"), and, if so, the identity of the depository for such registered Global Securities;
- the denominations in which registered Debt Securities will be issuable, if other than denominations of \$1,000, integral multiples of \$1,000 and the denominations in which bearer Debt Securities will be issuable, if other than \$5,000;

- the applicability of, and any changes or additions to, the provisions for defeasance described under "Defeasance" below;
- whether the holders of any series of Debt Securities have special rights if specified events occur; and
- any other terms, conditions, rights or preferences of the Debt Securities which apply solely to the Debt Securities.

If we denominate the purchase price of any of the Debt Securities in a currency or currencies other than United States dollars or a non-United States dollar unit or units, or if the principal of and any premium and interest on any Debt Securities is payable in a currency or currencies other than United States dollars or a non-United States dollar unit or units, we will provide investors with information on the restrictions, elections, general tax considerations, specific terms and other information with respect to that issue of Debt Securities and such non-United States dollar currency or currencies or non-United States dollar unit or units in the applicable Prospectus Supplement.

Each series of Debt Securities may be issued at various times with different maturity dates, may bear interest at different rates and may otherwise vary.

The terms on which a series of Debt Securities may be convertible into or exchangeable for Common Shares or other securities of the Company will be described in the applicable Prospectus Supplement. These terms may include provisions as to whether conversion or exchange is mandatory, at the option of the holder or at the option of the Company, and may include provisions pursuant to which the number of Common Shares or other securities to be received by the holders of such series of Debt Securities would be subject to adjustment.

To the extent any Debt Securities are convertible into Common Shares or other securities of the Company, prior to such conversion the holders of such Debt Securities will not have any of the rights of holders of the securities into which the Debt Securities are convertible, including the right to receive payments of dividends or the right to vote such underlying securities.

Guarantees

Our payment obligations under any series of Debt Securities may be guaranteed by certain of our direct or indirect subsidiaries. In order to comply with certain registration statement form requirements under U.S. law, these guarantees may in turn be guaranteed by the Company. The terms of such guarantees will be set forth in the applicable Prospectus Supplement.

Ranking and Other Indebtedness

Unless otherwise indicated in an applicable Prospectus Supplement, and except to the extent prescribed by law, each such series of Debt Securities shall be senior, unsubordinated and unsecured obligations of the Company and shall rank *pari passu* and ratably without preference among themselves and *pari passu* with all other senior, unsubordinated and unsecured obligations of the Company. The Debt Securities will be structurally subordinated to all existing and future liabilities, including trade payable and other indebtedness, of our subsidiaries.

Our Board of Directors may establish the extent and manner, if any, to which payment on or in respect of a series of Debt Securities will be senior, senior subordinated or will be subordinated to the prior payment of the Company's other liabilities and obligations, and whether the payment of principal, premium, if any, and interest, if any, will be guaranteed by any other person and the nature and priority of any security.

Debt Securities in Global Form

The Depository and Book-Entry

Unless otherwise specified in the applicable Prospectus Supplement, a series of the Debt Securities may be issued in whole or in part in global form as a "global security" and will be registered in the name of or issued in bearer form and be deposited with a depository, or its nominee, each of which will be identified in the applicable Prospectus Supplement relating to that series. Unless otherwise permitted by the terms of the Indenture or until exchanged, in whole or in part, for the Debt Securities in definitive registered form, a global security may not be transferred except as a whole by the depository for such global security to a nominee of the depository, by a nominee of the depository to the depository or another nominee of the depository or by the depository or any such nominee to a successor of the depository or a nominee of the successor.

The specific terms of the depository arrangement with respect to any portion of a particular series of the Debt Securities to be represented by a global security will be described in the applicable Prospectus Supplement relating to such series. The Company anticipates that the provisions described in this section will apply to all depository arrangements.

Upon the issuance of a global security, the depository therefor or its nominee will credit, on its book entry and registration system, the respective principal amounts of the Debt Securities represented by the global security to the accounts of such persons, designated as "participants", having accounts with such depository or its nominee. Such accounts shall be designated by the underwriters, dealers or agents participating in the distribution of the Debt Securities or by the Company if such Debt Securities are offered and sold directly by the Company. Ownership of beneficial interests in a global security will be limited to participants or persons that may hold beneficial interests through participants. Ownership of beneficial interests in a global security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the depository therefor or its nominee (with respect to interests of participants) or by participants or persons that hold through participants (with respect to interests of persons other than participants). The law of some states in the United States may require that certain purchasers of securities take physical delivery of such securities in definitive form.

So long as the depository for a global security or its nominee is the registered owner of the global security or holder of a global security in bearer form, such depository or such nominee, as the case may be, will be considered the sole owner or holder of the Debt Securities represented by the global security for all purposes under the Indenture. Except as provided below, owners of beneficial interests in a global security will not be entitled to have a series of the Debt Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of such series of the Debt Securities in definitive form and will not be considered the owners or holders thereof under the Indenture.

Any payments of principal, premium, if any, and interest, if any, on global securities registered in the name of a depository or securities registrar will be made to the depository or its nominee, as the case may be, as the registered owner of the global security representing such Debt Securities. None of the Company, any trustee or any paying agent for the Debt Securities represented by the global securities will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests of the global security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The Company expects that the depository for a global security and its nominee, upon receipt of any payment of principal, premium, if any, or interest, if any, will credit participants' accounts with payments in amounts

proportionate to their respective beneficial interests in the principal amount of the global security as shown on the records of such depository or its nominee. The Company also expects that payments by participants to owners of beneficial interests in a global security held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in "street name", and will be the responsibility of such participants.

Discontinuance of Depository's Services

If a depository for a global security representing a particular series of the Debt Securities is at any time unwilling or unable to continue as depository or, if at any time the depository for such series shall no longer be registered or in good standing under the Exchange Act, and a successor depository is not appointed by us within 90 days, the Company will issue such series of the Debt Securities in definitive form in exchange for a global security representing such series of the Debt Securities. If an event of default under the Indenture has occurred and is continuing, Debt Securities in definitive form will be printed and delivered upon written request by the holder to the appropriate trustee. In addition, the Company may at any time and in the Company's sole discretion determine not to have a series of the Debt Securities represented by a global security and, in such event, will issue a series of the Debt Securities in definitive form in exchange for all of the global securities representing that series of Debt Securities.

Debt Securities in Definitive Form

A series of the Debt Securities may be issued in definitive form, solely as registered securities, solely as unregistered securities or as both registered securities and unregistered securities. Registered securities will be issuable in denominations of \$1,000 and integral multiples of \$1,000 and unregistered securities will be issuable in denominations of \$5,000 and integral multiples of \$5,000 or, in each case, in such other denominations as may be set out in the terms of the Debt Securities of any particular series. Unless otherwise indicated in the applicable Prospectus Supplement, unregistered securities will have interest coupons attached.

Unless otherwise indicated in the applicable Prospectus Supplement, payment of principal, premium, if any, and interest, if any, on the Debt Securities in definitive form will be made at the office or agency designated by the Company, or at the Company's option the Company can pay principal, interest, if any, and premium, if any, by check mailed to the address of the person entitled at the address appearing in the security register of the trustee or electronic funds wire transfer to an account of persons who meet certain thresholds set out in the Indenture who are entitled to receive payments by wire transfer. Unless otherwise indicated in the applicable Prospectus Supplement, payment of interest, if any, will be made to the persons in whose name the Debt Securities are registered at the close of business on the day or days specified by the Company.

At the option of the holder of Debt Securities, registered securities of any series will be exchangeable for other registered securities of the same series, of any authorized denomination and of a like aggregate principal amount/ If, but only if, provided in an applicable Prospectus Supplement, unregistered securities (with all unmatured coupons, except as provided below, and all matured coupons in default) of any series may be exchanged for registered securities of the same series, of any authorized denominations and of a like aggregate principal amount and tenor. In such event, unregistered securities surrendered in a permitted exchange for registered securities between a regular record date or a special record date and the relevant date for payment of interest shall be surrendered without the coupon relating to such date for payment of interest, and interest will not be payable on such date for payment of interest in respect of the registered security issued in exchange for such unregistered security, but will be payable only to the holder of such

coupon when due in accordance with the terms of the Indenture. Unless otherwise specified in an applicable Prospectus Supplement, unregistered securities will not be issued in exchange for registered securities.

The applicable Prospectus Supplement may indicate the places to register a transfer of Debt Securities in definitive form. Service charges may be payable by the holder for any registration of transfer or exchange of the Debt Securities in definitive form, and the Company may, in certain instances, require a sum sufficient to cover any tax or other governmental charges payable in connection with these transactions.

We shall not be required to:

- issue, register the transfer of or exchange any series of the Debt Securities in definitive form during a period beginning at the opening of 15 days before any selection of securities of that series of the Debt Securities to be redeemed and ending on the relevant date of notice of such redemption, as provided in the Indenture;
- register the transfer of or exchange any registered security in definitive form, or portion thereof, called for redemption, except the unredeemed portion of any registered security being redeemed in part;
- exchange any unregistered security called for redemption except to the extent that such unregistered security may be exchanged for a registered security of that series and like tenor; provided that such registered security will be simultaneously surrendered for redemption; or
- issue, register the transfer of or exchange any of the Debt Securities in definitive form which have been surrendered for repayment at the option of the holder, except the portion, if any, of such Debt Securities not to be so repaid.

Provision of Financial Information

In the event that the Company is not required to remain subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, or otherwise report on an annual and quarterly basis on forms provided for such annual and quarterly reporting pursuant to rules and regulations promulgated by the SEC, continue to file with the SEC and provide the trustee:

- within 140 days after the end of each fiscal year, annual reports on Form 20-F, 40-F, or Form 10-K, as applicable (or any successor form), containing audited financial statements and the other financial information required to be contained therein (or required in such successor form); and
- within 60 days after the end of each of the first three fiscal quarters of each fiscal year, reports on Form 6-K or Form 10-Q (or any successor form), containing unaudited financial statements and the other financial information which, regardless of applicable requirements shall, at a minimum, contain such information required to be provided in quarterly reports under the laws of Canada or any province thereof to security holders of a corporation with securities listed on the TSX, whether or not the Company has any of its securities so listed.

Events of Default

Unless otherwise specified in the applicable Prospectus Supplement relating to a particular series of Debt Securities, the following is a summary of events which will, with respect to any series of the Debt Securities, constitute an event of default under the Indenture with respect to the Debt Securities of that series:

- the Company fails to pay principal of, or any premium on any Debt Security of that series when it is due and payable;

- the Company fails to pay interest payable on any Debt Security of that series when it becomes due and payable, and such default continues for 30 days;
- the Company fails to make any required sinking fund or analogous payment when due for that series of Debt Securities;
- the Company fails to observe or perform any of its covenants or agreements in the Indenture that affect or are applicable to the Debt Securities of that series for 90 days after written notice to the Company by the trustees or to the Company and the trustees by holders of at least 25% in aggregate principal amount of the outstanding Debt Securities of that series;
- certain events involving the Company's bankruptcy, insolvency or reorganization; and
- any other event of default provided for in that series of Debt Securities.

A default under one series of Debt Securities will not necessarily be a default under another series. A trustee may withhold notice to the holders of the Debt Securities of any default, except in the payment of principal or premium, if any, or interest, if any, if in good faith it considers it in the interests of the holders to do so and so advises the Company in writing.

If an event of default for any series of Debt Securities occurs and continues (other than a bankruptcy-related event of default), a trustee or the holders of at least 25% in aggregate principal amount of the Debt Securities of that series may require the Company to repay immediately:

- the entire principal and interest of the Debt Securities of the series; or
- if the Debt Securities are discounted securities, that portion of the principal as described in the applicable Prospectus Supplement.

If an event of default relates to events involving the Company's bankruptcy, insolvency or reorganization, the principal of all Debt Securities will become immediately due and payable without any action by the trustee or any holder.

Subject to certain conditions, the holders of a majority of the aggregate principal amount of the Debt Securities of the affected series can rescind and annul an accelerated payment requirement. If Debt Securities are discounted securities, the applicable Prospectus Supplement will contain provisions relating to the acceleration of maturity of a portion of the principal amount of the discounted securities upon the occurrence or continuance of an event of default.

Other than its duties in case of a default, a trustee is not obligated to exercise any of the rights or powers that it will have under the Indenture at the request or direction of any holders, unless the holders offer the trustee reasonable security or indemnity. If they provide this reasonable security or indemnity, the holders of a majority in aggregate principal amount of any series of Debt Securities may, subject to certain limitations, direct the time, method and place of conducting any proceeding for any remedy available to a trustee, or exercising any trust or power conferred upon a trustee, for any series of Debt Securities.

The Company will be required to furnish to the trustees a statement annually as to its compliance with all conditions and covenants under the Indenture and, if the Company is not in compliance, the Company must specify any defaults.

No holder of a Debt Security of any series will have any right to institute any proceeding with respect to the Indenture, or for the appointment of a receiver or a trustee, or for any other remedy, unless:

- the holder has previously given to the trustees written notice of a continuing event of default with respect to the Debt Securities of the affected series;
- the holders of at least 25% in principal amount of the outstanding Debt Securities of the series affected by an event of default have made a written request, and the holders have offered reasonable indemnity, to the trustees to institute a proceeding as trustees; and
- the trustees have failed to institute a proceeding, and have not received from the holders of a majority in aggregate principal amount of the outstanding Debt Securities of the series affected by an event of default a direction inconsistent with the request, within 60 days after receipt of the holders' notice, request and offer of indemnity.

However, such above-mentioned limitations do not apply to a suit instituted by the holder of a Debt Security for the enforcement of payment of the principal of or any premium, if any, or interest on such Debt Security on or after the applicable due date specified in such Debt Security.

Defeasance

When the Company uses the term "defeasance", it means discharge from certain obligations (other than obligations that survive such defeasance, as specified in the Indenture) with respect to any Debt Securities of or within a series under the Indenture. Unless otherwise specified in the applicable Prospectus Supplement, if the Company deposits with a trustee cash, government securities or a combination thereof sufficient to pay the principal, interest, if any, premium, if any, and any other sums due to the stated maturity date or a redemption date of the Debt Securities of a series, then at the Company's option:

- the Company will be discharged from the obligations with respect to the Debt Securities of that series; or
- the Company will no longer be under any obligation to comply with certain restrictive covenants under the Indenture and certain events of default will no longer apply to the Company.

If this happens, the holders of the Debt Securities of the affected series will not be entitled to the benefits of the Indenture except for registration of transfer and exchange of Debt Securities and the replacement of lost, stolen, destroyed or mutilated Debt Securities. These holders may look only to the deposited fund for payment on their Debt Securities.

To exercise the defeasance option, the Company must deliver to the trustees:

- an opinion of counsel in the United States to the effect that the holders of the outstanding Debt Securities of the affected series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of a defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the defeasance had not occurred;
- an opinion of counsel in Canada or a ruling from the Canada Revenue Agency to the effect that the holders of the outstanding Debt Securities of the affected series will not recognize income, gain or loss for Canadian federal, provincial or territorial income or other tax purposes as a result of a defeasance and will be subject to Canadian federal, provincial or territorial income tax and other tax on the same amounts, in the same manner and at the same times as would have been the case had the defeasance not occurred; and
- a certificate of one of the Company's officers and an opinion of counsel, each stating that all conditions precedent provided for relating to defeasance have been complied with.

If the Company is to be discharged from its obligations with respect to the Debt Securities and not just from the Company's covenants, the U.S. opinion must be based upon a ruling from or published by the United States Internal Revenue Service or a change in law to that effect.

In addition to the delivery of the opinions described above, the following conditions must be met before the Company may exercise its defeasance option:

- no event of default or event that, with the passing of time or the giving of notice, or both, shall constitute an event of default shall have occurred and be continuing for the Debt Securities of the affected series;
- the Company is not an "insolvent person" within the meaning of applicable bankruptcy and insolvency legislation; and
- other customary conditions precedent are satisfied.

Modification and Waiver

Modifications and amendments of the Indenture may be made by the Company and the trustees pursuant to one or more Supplemental Indentures (a "**Supplemental Indenture**") with the consent of the holders of at least a majority in aggregate principal amount of the outstanding Debt Securities of each series affected by the modification. However, without the consent of each holder affected, no such modification may:

- change the stated maturity of the principal of, premium, if any, or any instalment of interest, if any, on any Debt Security;
- reduce the principal, premium, if any, or rate of interest, if any, or change any obligation of the Company to pay any additional amounts;
- reduce the amount of principal of a debt security payable upon acceleration of its maturity or the amount provable in bankruptcy;
- change the place or currency of any payment;
- affect the holder's right to require the Company to repurchase the Debt Securities at the holder's option;
- impair the right of the holders to institute a suit to enforce their rights to payment;
- adversely affect any conversion or exchange right related to a series of Debt Securities;
- reduce the percentage of Debt Securities required to modify the Indenture or to waive compliance with certain provisions of the Indenture; or
- reduce the percentage in principal amount of outstanding Debt Securities necessary to take certain actions.

The holders of at least a majority in principal amount of outstanding Debt Securities of any series may on behalf of the holders of all Debt Securities of that series waive, insofar as only that series is concerned, past defaults under the Indenture and compliance by the Company with certain restrictive provisions of the Indenture. However, these holders may not waive a default in any payment or principal, premium if any, or interest on any Debt Security or compliance with a provision that cannot be modified without the consent of each holder affected.

The Company may modify the Indenture pursuant to a Supplemental Indenture without the consent of any holders to:

- evidence its successor under the Indenture;
- add covenants of the Company or surrender any right or power of the Company for the benefit of holders;
- add events of default;
- provide for unregistered securities to become registered securities under the Indenture and make other such changes to unregistered securities that in each case do not materially and adversely affect the interests of holders of outstanding Debt Securities;
- establish the forms of the Debt Securities as permitted by the Indenture;
- appoint a successor trustee under the Indenture;
- add provisions to permit or facilitate the defeasance and discharge of the Debt Securities as long as there is no material adverse effect on the holders;
- cure any ambiguity, correct or supplement any defective or inconsistent provision or make any other provisions in each case that would not materially and adversely affect the interests of holders of outstanding Debt Securities, if any; or
- change or eliminate any provisions of the Indenture where such change takes effect when there are no Debt Securities outstanding which are entitled to the benefit of those provisions under the Indenture.

Governing Law

To the extent the Indenture is governed by the Trust Indenture Act, the Indenture and the Debt Securities will be governed and construed in accordance with the laws of the State of New York.

The Trustee

The Trustee under the Indenture or its affiliates may provide banking and other services to the Company in the ordinary course of their business.

The Indenture will contain certain limitations on the rights of the Trustee, as long as it or any of its affiliates remains the Company's creditor, to obtain payment of claims in certain cases or to realize on certain property received on any claim as security or otherwise. The Trustee and its affiliates will be permitted to engage in other transactions with the Company. If a Trustee acquires any conflicting interest as defined in the Trust Indenture Act it must eliminate such conflict within 90 days, apply to the SEC for permission to continue as trustee (if the Indenture has been qualified under the Trust Indenture Act) or resign.

Resignation and Removal of Trustee

A trustee may resign or be removed with respect to one or more series of the Debt Securities and a successor trustee may be appointed to act with respect to such series.

Consent to Jurisdiction and Service

Under the Indenture, the Company will irrevocably appoint an authorized agent upon which process may be served in any suit, action or proceeding arising out of or relating to the Debt Securities or the Indenture that may be instituted in any United States federal or New York state court located in The City of New York, and will submit to such non-exclusive jurisdiction.

PRIOR SALES

Information in respect of the Common Shares that were issued within the previous twelve-month period, Common Shares that were issued upon the exercise of options and restricted share rights, and in respect of the grant of options and restricted share rights will be provided as required in any applicable Prospectus Supplement.

TRADING PRICE AND VOLUME

The Common Shares are listed and posted for trading on the TSX in Canada and the NYSE American in the United States under the symbol "GOLD" and "GLDG", respectively. Trading price and volume of the Common Shares will be provided as required in each Prospectus Supplement to this Prospectus.

CERTAIN FEDERAL INCOME TAX CONSIDERATIONS

The applicable Prospectus Supplement may describe certain Canadian federal income tax consequences to an investor who is a non-resident of Canada or to an investor who is a resident of Canada of acquiring, owning and disposing of any of the Securities offered thereunder. The applicable Prospectus Supplement may also describe certain U.S. federal income tax consequences of the acquisition, ownership and disposition of any of the Securities offered thereunder by an initial investor who is a U.S. person (within the meaning of the *U.S. Internal Revenue Code of 1986*). Investors should read the tax discussion in any Prospectus Supplement with respect to a particular offering and consult their own tax advisors with respect to their own particular circumstances.

EXEMPTIONS

Pursuant to a decision of the Autorité des marchés financiers dated April 29, 2021, the Company was granted a permanent exemption from the requirement to translate into French this Prospectus as well as the documents incorporated by reference therein and any Prospectus Supplement to be filed in relation to an "at-the-market" distribution. This exemption is granted on the condition that this Prospectus and any Prospectus Supplement (other than in relation to an "at-the-market" distribution) be translated into French if the Company offers Securities to Québec purchasers in connection with an offering other than in relation to an "at-the-market" distribution.

RISK FACTORS

Before deciding to invest in any Securities, prospective purchasers of the Securities should consider carefully the risk factors and the other information contained and incorporated by reference in this Prospectus and the applicable Prospectus Supplement relating to a specific offering of Securities before purchasing the Securities. An investment in the Securities offered hereunder is speculative and involves a high degree of risk. Information regarding the risks affecting the Company and its business is provided in the documents incorporated by reference in this Prospectus, including in the AIF under the heading "*Risk Factors*". Additional risks and uncertainties not known to the Company or that management currently deems immaterial may also impair the Company's business, financial condition, results of operations or prospects. See "*Documents Incorporated by Reference*".

Negative Cash Flow from Operating Activities

The Company is an exploration stage mining company, and has not yet generated positive operating cash flow. The Company will continue to experience negative cash flow from operations in the foreseeable future. The Company has incurred net losses in the past and may incur losses in the future unless it can derive sufficient revenues from its business and operations. Such future losses could have an adverse effect on the market price of the Company's securities, which could cause investors to lose part or all of their investment.

No Assurance of Active or Liquid Market

No assurance can be given that an active or liquid trading market for the Common Shares will be sustained. If an active or liquid market for the Common Shares fails to be sustained, the prices at which such Common Shares trade may be adversely affected. Whether or not the Common Shares will trade at lower prices depends on many factors, including the liquidity of the Common Shares, prevailing interest rates and the markets for similar securities, general economic conditions and the Company's financial condition, historic financial performance and future prospects.

There is no public market for the Preferred Shares, Warrants, Subscription Receipts, Debt Securities or Units and, unless otherwise specified in the applicable Prospectus Supplement, the Company does not intend to apply for listing of such Securities on any securities exchanges. If the Preferred Shares, Warrants, Subscription Receipts, Debt Securities or Units are traded after their initial issue, they may trade at a discount from their initial offering prices depending on prevailing interest rates (as applicable), the market for similar securities and other factors including general economic conditions and the Company's financial condition. There can be no assurance as to the liquidity of the trading market for the Preferred Shares, Warrants, Subscription Receipts, Debt Securities or Units or that a trading market for these securities will develop.

Public Markets and Share Prices

The market price of the Common Shares and any other Securities offered hereunder that become listed and posted for trading on the TSX, the NYSE American or any other stock exchange could be subject to significant fluctuations in response to variations in the Company's financial results, the global economy or other factors. In addition, fluctuations in the stock market may adversely affect the market price of the Common Shares and any other Securities offered hereunder that become listed and posted for trading on the TSX or any other stock exchange regardless of the financial performance of the Company. Securities markets have also experienced significant price and volume fluctuations from time to time. In some instances, these fluctuations have been unrelated or disproportionate to the financial performance of issuers. Market fluctuations may adversely impact the market price of the Common Shares and any other Securities offered hereunder that become listed and posted for trading on the TSX or any other stock exchange. There can be no assurance of the price at which the Common Shares or any other Securities offered hereunder that become listed and posted for trading on the TSX, the NYSE American or any other stock exchange will trade.

Additional Issuances and Dilution

The Company may issue and sell additional securities of the Company to finance its operations or future acquisitions. The Company cannot predict the size of future issuances of securities of the Company or the effect, if any, that future issuances and sales of securities will have on the market price of any Securities of the Company issued and outstanding from time to time. Sales or issuances of substantial amounts of securities of the Company, or the perception that such sales could occur, may adversely affect prevailing market prices for securities of the Company issued and outstanding from time to time. With any additional

sale or issuance of securities of the Company, holders will suffer dilution with respect to voting power and may experience dilution in the Company's earnings per share. Moreover, this Prospectus may create a perceived risk of dilution resulting in downward pressure on the price of the Company's issued and outstanding Common Shares, which could contribute to progressive declines in the prices of such securities.

Discretion Concerning the Use of Proceeds

Our management will have substantial discretion concerning the use of proceeds of an offering under any Prospectus Supplement as well as the timing of the expenditure of the proceeds thereof. As a result, investors will be relying on the judgment of management as to the specific application of the proceeds of any offering of Securities under any Prospectus Supplement. Management may use the net proceeds of any offering of Securities under any Prospectus Supplement in ways that an investor may not consider desirable. The results and effectiveness of the application of the net proceeds are uncertain.

Different Shareholder Protections between the United States and Canada

We are organized and exist under the laws of Canada and, accordingly, are governed by the *Canada Business Corporations Act* (the "CBCA"). The CBCA differs in certain material respects from laws generally applicable to United States corporations and shareholders, including the provisions relating to interested directors, mergers and similar arrangements, takeovers, shareholders' suits, indemnification of directors and inspection of corporation records.

The Company is a Foreign Private Issuer within the Meaning of the Rules under the Exchange Act, and is Exempt from Certain Provisions Applicable to United States Domestic Public Companies

Because we are a "foreign private issuer" under the Exchange Act, we are exempt from certain provisions of the securities rules and regulations in the United States that are applicable to U.S. domestic issuers, including:

- the rules under the Exchange Act requiring the filing of quarterly reports on Form 10-Q or current reports on Form 8-K with the SEC;
- the sections of the Exchange Act regulating the solicitation of proxies, consents or authorizations in respect of a security registered under the Exchange Act;
- the sections of the Exchange Act requiring insiders to file public reports of their stock ownership and trading activities and liability for insiders who profit from trades made in a short period of time; and
- the selective disclosure rules by issuers of material non-public information under Regulation FD.

We are required to file an annual report on Form 40-F with the SEC within three months of the end of each fiscal year. We do not intend to voluntarily file annual reports on Form 10-K and quarterly reports on Form 10-Q in lieu of Form 40-F requirements. For so long as we choose to only comply with foreign private issuer requirements, the information we are required to file with or furnish to the SEC will be less extensive and less timely compared to that required to be filed with the SEC by U.S. domestic issuers. As a result, you may not be afforded the same protections or information which would be made available to you if you were investing in a U.S. domestic issuer.

The Company May Be Treated as a "Passive Foreign Investment Company" under the U.S. Internal Revenue Code, Which Could Result in Adverse U.S. Federal Income Tax Consequences for U.S. Investors

Prospective U.S. investors should be aware that they could be subject to certain adverse U.S. federal income tax consequences if we are classified as a passive foreign investment company ("PFIC") for U.S. federal income tax purposes. The determination of whether we are a PFIC for a taxable year depends, in part, on the application of complex U.S. federal income tax rules, which are subject to differing interpretations, and such determination will depend on the composition of our income, expenses and assets from time to time and the nature of the activities performed by our officers and employees. Prospective U.S. investors should consult their own tax advisors regarding the likelihood and consequences of the Company being treated as a PFIC for U.S. federal income tax purposes, including the advisability of making certain elections that may mitigate certain possible adverse income tax consequences but may result in an inclusion in gross income without receipt of such income.

COVID-19

The outbreak of COVID-19 has caused, and may cause further, disruptions to the Company's business and operational plans. Such disruptions may result from (i) restrictions that governments and communities impose to address the COVID-19 outbreak, (ii) restrictions that the Company and its contractors and subcontractors impose to ensure the safety of employees and others, (iii) shortages of employees and/or unavailability of contractors and subcontractors, and/or (iv) interruption of supplies from third parties upon which the Company relies. Further, it is presently not possible to predict the extent or durations of these disruptions. These disruptions may have a material adverse effect on the Company's business, financial condition and results of operations, which could be rapid and unexpected.

ENFORCEMENT OF JUDGMENTS AGAINST FOREIGN PERSONS OR COMPANIES

<u>Name of Person</u>	<u>Name and Address of Agent</u>
Gloria Ballesta	Sangra Moller LLP, 1000 Cathedral Place, 925 West Georgia Street, Vancouver, British Columbia, V6C 3L2
Mario Bernardo Garnero	Sangra Moller LLP, 1000 Cathedral Place, 925 West Georgia Street, Vancouver, British Columbia, V6C 3L2

Each of (a) Paulo Pereira, Joseph A. Kantor, Robert E. Cameron, Mauricio Castañeda and Scott E. Wilson, each of whom is a "qualified person" required to file a consent with this Prospectus, resides outside of Canada and (b) SRK Consulting (U.S.) Inc. and GE21 Consultoria Mineral Ltda, each of which is a company incorporated, continued or otherwise organized under the laws of a foreign jurisdiction; are named experts required to file a consent with this Prospectus.

Purchasers are advised that it may not be possible for investors to enforce judgments obtained in Canada against any person or company that is incorporated, continued or otherwise organized under the laws of a foreign jurisdiction or resides outside of Canada, even if the person or company has appointed an agent for service of process in Canada.

ENFORCEABILITY OF CERTAIN CIVIL LIABILITIES

The Company is governed by the laws of Canada and its principal place of business is outside the United States. Certain of the directors and officers of the Company and certain experts named under "*Interests of Experts*" herein are resident outside of the United States and a substantial portion of the Company's assets and the assets of such persons are located outside of the United States. Consequently, it may be difficult for United States investors to effect service of process within the United States on the Company, its directors or officers or such experts, or to realize in the United States on judgments of courts of the United States predicated on civil liabilities under the U.S. Securities Act. Investors should not assume that Canadian courts would enforce judgments of United States courts obtained in actions against the Company or such persons predicated on the civil liability provisions of the United States federal securities laws or the securities or "blue sky" laws of any state within the United States or would enforce, in original actions, liabilities against the Company or such persons predicated on the United States federal securities or any such state securities or "blue sky" laws. A final judgment for a liquidated sum in favour of a private litigant granted by a United States court and predicated solely upon civil liability under United States federal securities laws would, subject to certain exceptions identified in the law of individual provinces of Canada, likely be enforceable in Canada if the United States court in which the judgment was obtained had a basis for jurisdiction in the matter that would be recognized by the domestic Canadian court for the same purposes. There is a significant risk that a given Canadian court may not have jurisdiction or may decline jurisdiction over a claim based solely upon United States federal securities law on application of the conflict of laws principles of the province in Canada in which the claim is brought.

The Company filed with the SEC, concurrently with the Registration Statement, an appointment of agent for service of process on Form F-X. Under the Form F-X, the Company appointed C T Corporation System, with an address at 28 Liberty Street, New York, New York 10005, as its agent for service of process in the United States in connection with any investigation or administrative proceeding conducted by the SEC, and any civil suit or action brought against or involving the Company in a United States court arising out of or related to or concerning the offering of Securities under the Registration Statement.

CONTRACTUAL RIGHTS OF RESCISSION

Original purchasers of Securities which are convertible, exchangeable or exercisable for other securities of the Company, including Subscription Receipts and Warrants if offered separately without any other

Securities, will have a contractual right of rescission against the Company in respect of the conversion, exchange or exercise of such Securities. The contractual right of rescission will entitle such original purchasers to receive, in addition to the amount paid on original purchase of the Subscription Receipt or Warrant, as the case may be, the amount paid upon conversion, exchange or exercise, upon surrender of the underlying securities gained thereby, in the event that this Prospectus, the relevant Prospectus Supplement or an amendment thereto contains a misrepresentation, provided that: (i) the conversion, exchange or exercise takes place within 180 days of the date of the purchase of such Securities under this Prospectus and the applicable Prospectus Supplement; and (ii) the right of rescission is exercised within 180 days of the date of the purchase of such Securities under this Prospectus and the applicable Prospectus Supplement. This contractual right of rescission will be consistent with the statutory right of rescission described under section 131 of the *Securities Act* (British Columbia), and is in addition to any other right or remedy available to original purchasers under section 131 of the *Securities Act* (British Columbia) or otherwise at law.

STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Unless provided otherwise in a Prospectus Supplement, the following is a description of a purchaser's statutory rights of withdrawal and rescission.

Securities legislation in certain of the provinces and territories of Canada provides purchasers of securities with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In certain of the provinces and territories of Canada, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory.

However, purchasers of Securities distributed under an "at-the-market" distribution by the Company do not have the right to withdraw from an agreement to purchase the Securities and do not have remedies of rescission or, in some jurisdictions, revisions of the price, or damages for non-delivery of the Prospectus, Prospectus Supplement, and any amendment relating to the Securities purchased by such purchaser because the Prospectus, Prospectus Supplement, and any amendment relating to the Securities purchased by such purchaser will not be sent or delivered, as permitted under NI 44-102. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of these rights or consult with a legal advisor.

Any remedies under securities legislation that a purchaser of Securities distributed under an "at-the-market" distribution by the Company may have against the Company or its agents for rescission or, in some jurisdictions, revisions of the price, or damages if the Prospectus, Prospectus Supplement, and any amendment relating to the Securities purchased by a purchaser containing a misrepresentation will remain unaffected by the non-delivery of the Prospectus referred to above.

In an offering of securities that are convertible, exchangeable or exercisable into other securities, purchasers are cautioned that the statutory right of action for damages for a misrepresentation contained in a prospectus is limited, in certain provincial and territorial securities legislation, to the price at which such securities are offered to the public under the prospectus offering. This means that, under the securities legislation of certain provinces or territories, if the purchaser pays additional amounts upon conversion, exchange or exercise of such securities, those amounts may not be recoverable under the statutory right of action for damages that applies in those provinces. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of these rights, or consult with a legal advisor.
