Total financial liabilities	-	5,728	5,728

Note that the fair values approximate the carrying values due to their short-term nature.

Financial and capital risk management

The Company thoroughly examines the various financial instruments and risks to which it is exposed and assesses the impact and likelihood of those risks. These risks include foreign currency risk, interest rate risk, credit risk, and liquidity risk. Where material, these risks are reviewed and monitored by the Board of Directors.

The Board of Directors has overall responsibility for the determination of the Company's risk management objectives and policies. The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility.

Discussions of risks associated with financial assets and liabilities are detailed below:

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The risk that the Company will realize a cash loss is limited as the Company's liabilities are non-interest bearing. The Company considers this risk to be immaterial.

b) Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. Credit risk arises from cash held with banks and financial institutions. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The Company considers credit risk with respect to its cash to be immaterial as cash is held through large Canadian financial institutions.

c) Liquidity risk

Liquidity risk is the risk that the Company is not able to meet its financial obligations as they become due. The Company manages its liquidity risk by continuously monitoring forecasted and actual cash flows, as well as anticipated investing and financing activities. Accounts payable and accrued liabilities have contractual maturities of 30 days or are due on demand, and are subject to normal trade terms. The Company has working capital of \$736,457 at August 31, 2022.

Management of capital

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the exploration of and retention of its mineral properties. In the management of capital, the Company includes its components of shareholders' equity.

The capital structure of the Company consists of equity attributable to common shareholders, comprised of issued capital, reserves and deficit.

The Company maintains and adjusts its capital structure based on changes in economic conditions and the Company's planned requirements. The Company may adjust its capital structure by issuing new equity, issuing new debt, or acquiring or disposing of assets, and controlling the capital expenditures program. The Company is not subject to externally imposed capital requirements.

The Company does not have a source of revenue. As such, the Company is dependent on external financing to fund its activities. In order to pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed.

Management reviews its capital management policies on an ongoing basis. There were no changes in the Company's approach to capital management during the nine months ended August 31, 2022.

CRITICAL JUDGMENTS IN APPLYING ACCOUNTING POLICIES

The critical judgments that the Company's management has made in the process of applying the Company's accounting policies with the most significant effect on the amounts recognized in the Company's financial statements are as follows:

Railtown Capital Corp.
Management's Discussion and Analysis for the period ended August 31, 2022

a) Going concern

In preparing the financial statements on a going concern basis, Management's critical judgment is that the Company will be able to meet its obligations and continue its operations for the next twelve months. As at August 31, 2022, the Company had a deficit of \$321,321 (November 30, 2021 - \$263,007), and working capital of \$736,457 (November 30, 2021 - \$794,771). During the nine months ended August 31, 2022, the Company recorded a loss of \$58,314 (2021 - \$225,906) and recorded cash outflows used in operating activities of \$60,185 (2021 - \$153,925). The Company estimates it has sufficient funds to continue operations for the next 12 months.

KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of financial statements requires that the Company's management make assumptions and estimates of effects of uncertain future events on the carrying amounts of the Company's assets and liabilities at the end of the reporting period. Actual results may differ from those estimates as the estimation process is inherently uncertain. Actual future outcomes could differ from present estimates and assumptions, potentially having material future effects on the Company's financial statements. Estimates are reviewed on an ongoing basis and are based on historical experience and other facts and circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively.

The significant assumptions about the future and other major sources of estimation uncertainty as at the end of the reporting period that have a significant risk of resulting in a material adjustment to the carrying amounts of the Company's assets and liabilities are as follows:

a) Deferred income taxes

Deferred income tax assets and liabilities are measured using enacted or substantively enacted tax rates at the reporting date in effect for the period in which the temporary differences are expected to be recovered or settled. The effect on deferred income tax assets and liabilities of a change in tax rates is recognized as part of the provision for income taxes in the period that includes the enactment date. The recognition of deferred income tax assets is based on the assumption that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized.

b) Share-based compensation

Management uses the Black-Scholes option pricing model to determine the fair value of employee stock options. This model requires assumptions of the expected future price volatility of the Company's common shares, expected life of the options, future risk-free interest rates and the dividend yield of the Company's common shares.

statements for the three and nine months ended August 31, 2022, and this accompanying MD&A (together, the "Interim Filings").

In contrast to the full certificate under NI 52-109 the Venture Issuer Basic Certificate does not include representations relating to the establishment and maintenance of disclosure controls and procedures and internal control over financial reporting, as defined in NI 52-109. For further information, the reader should refer to the Venture Issuer Basic Certificates filed by the Company with its filings on SEDAR at www.sedar.com.

RISKS AND UNCERTAINTIES

Financing risks

The Company has incurred losses since inception. The continued operations of the Company are dependent on its ability to generate future cash flow and obtain additional financing. The Company has financed its cash requirements through the issuance of common shares. As at August 31, 2022, the Company estimates it has sufficient funds to continue its operations for the next 12 months.

FORWARD-LOOKING INFORMATION

The Company's condensed interim financial statements for the period ended August 31, 2022, and this accompanying MD&A, contain statements that constitute "forward-looking statements" within the meaning of National Instrument 51-102, Continuous Disclosure Obligations of the Canadian Securities Administrators. It is important to note that, unless otherwise indicated, forward-looking statements in this MD&A describe the Company's expectations up to the date of the MD&A.

Forward-looking statements often, but not always, are identified by the use of words such as "seek", "anticipate", "believe", "plan", "estimate", "expect", "targeting" and "intend" and statements that an event or result "may", "will", "should", "could", or "might" occur or be achieved and other similar expressions. Forward-looking statements in this MD&A include statements regarding the Company's future plans and expenditures, the satisfaction of rights and performance of obligations under agreements to which the Company is a part, the ability of the Company to hire and retain employees and consultants and estimated administrative assessment and other expenses. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Factors that could cause the actual results to differ include market prices, continued availability of capital and financing, inability to obtain required regulatory approvals and general market conditions. These statements are based on a number of assumptions, including assumptions regarding general market conditions, the timing and receipt of regulatory approvals, the ability of the Company and other relevant parties to satisfy regulatory requirements, the availability of financing for proposed transactions and programs on reasonable terms acceptable to the Company and the ability of third-party service providers to deliver services in a timely manner. Some of these risks and uncertainties are identified under the heading "**RISKS AND UNCERTAINTIES**" as disclosed elsewhere in this MD&A. Additional information regarding these factors and other important factors that could cause results to differ materially may be referred to as part of particular forward-looking statements.

Forward-looking statements contained herein are made as of the date of this MD&A and the Company disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise except as required by securities law. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.
