Material facts

There are no material facts about the Units that have not been disclosed in this offering document or in any other document filed by the Company in the twelve months preceding the date of this offering document and the date the Company's most recent audited annual financial statements were filed.

What are the business objectives that we expect to accomplish using the available funds?

The net proceeds of the Offering are intended to fund planned exploration work at the Jarnet Project and for general working capital purposes.

USE OF AVAILABLE FUNDS

What will our available funds be upon the closing of the Offering?

Based on the Company's existing working capital as at October 31, 2023 of \$4,729,600, the Company's expected availability of funds following closing of the Offering is expected to be approximately \$8,629,600 assuming the full amount of the Offering is raised.

Assuming 100% of Offering

A	Amount to be raised by this Offering	\$2,500,000
---	--------------------------------------	-------------

B	Selling commissions and fees:	\$Nil
C	Estimated Offering costs: (e.g., legal, accounting, audit)	\$25,000
D	Net proceeds of Offering: ($D = A - (B + C)$)	\$2,475,000
E	Working capital as at most recent month end:	\$4,729,600
F	Additional sources of funding:	\$1,425,000 ¹
G	Total available funds: ($G = D + E + F$)	\$8,629,600

How will we use the available funds?

The Company intends on using the net proceeds of the Offering to fund planned exploration work at the Jarret Project and for general working capital purposes.

Intended Use of Available Funds	Assuming 100% of Offering
Exploration expenditures for the Jarret Project	\$2,500,000
Working capital purposes	\$6,129,600
Total:	\$8,629,600

The above noted allocation represents the Company's current intentions with respect to its use of proceeds based on current knowledge, planning and expectations of management of the Company. Although the Company intends to expend the proceeds from this Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Company's ability to execute on its business plan and financing objectives. The Company has had negative cash flow from operating activities and reported an income (loss) for the nine month ended of July 31, 2023. The Company anticipates that negative operating cash flows will continue as long as it remains in the exploration stage, and to the extent that the Company has negative cash flows from operating activities in the future periods, the net proceeds from this Offering may be used to fund such negative cash flow from operating activities in future periods.

The Company's most recent audited and interim financial statements included a going concern note. As the Company is in the exploration stage, the recoverability of amounts for exploration and evaluation of assets and the Company's ability to continue as a going concern is dependent upon its ability to generate future cash flows and/or obtain additional financing to complete their development and upon future profitable production or proceeds from the disposition thereof. The Offering is intended to permit the Company to continue to explore its properties and conduct additional drilling and is not expected to affect the decision to include a going concern note in the next annual financial statements of the Company.

¹ Represents proceeds from the November 3, 2023 closing of the Second Offering and FT Offering less \$82,500 in finder's fees.

How have we used the other funds we have raised in the past 12 months?

The Company has raised aggregate gross proceeds of \$5,000,000 pursuant to the First and Second Offering. The table below summarizes the expected use of proceeds from the First and Second Offering as disclosed in the Company's offering documents dated October 12 and 24, 2023:

Intended Use of Available Funds	Expected Use of Proceeds	Actual Use of Proceeds	Variance
Exploration expenditures for the Jarret Project	\$1,518,500	Nil	\$1,518,500
Jarret option agreement payment	\$60,000	Nil	\$60,000
Retirement of Existing Long-Term Debt ⁽¹⁾	\$771,208	\$771,208	Nil
Working capital purposes	\$4,428,592	Nil	\$4,428,592
Total:	\$6,778,300	\$771,208	\$6,007,092

Variances noted above reflect that the Company has yet to use proceeds in full in accordance with the 'Use of Available Funds' disclosure in the offering documents dated October 12 and 24, 2023. The Company does not anticipate that the variances will impact the Company's ability to achieve its business objectives and milestones disclosed in the offering documents dated October 12 and 24, 2023.

Who are the dealers or finders that we have engaged in connection with this Offering, if any, and what are their fees?
