The Allocated Mining Capacity shall be at least one hundred (100) Petahash per second (PH/s) on the Utilization Date and throughout the Term of the Loan. The Allocated Mining Capacity shall be recalibrated by the Lender as follows if, in the opinion of the Lender, the Net Liquidation Proceeds are not, or will not be, sufficient to cover an amount representing at least 150% of a Monthly Instalment for any month during the Term of the Loan:

The Lender shall have full discretion with respect to the method of liquidation, including the counterparty, and shall have the right, but not the obligation, to acquire the Cryptocurrencies for its own account. In determining the best liquidation method, the Lender shall apply best execution principles, taking into account various criteria including, but not limited to, prices, liquidity and the likelihood and speed of settlement. Any change or amendment to the liquidation process requires the approval of the Borrower and the Lender in writing, excluding the method of liquidation, which as per the above, is at the full discretion of the Lender.
