QUARTERHILL INC.

Quarterhill is a growth-oriented Canadian company listed on the TSX (TSX: QTRH and QTRH.DB) and the OTCQX Best Market (OTCQX: QTRHF) operating in the intelligent transportation systems industry. Quarterhill's objective is to be a global leader in the rapidly growing intelligent transportation systems industry (the "ITS Industry") by organically growing its existing tolling and enforcement businesses, while also working to acquire other companies in the ITS Industry that provide a strong foundation for growth. Quarterhill targets acquisition opportunities in the ITS Industry that have reasonable valuations, recurring revenues, predictable cashflows and gross profit, industry leading technologies, intimate customer relationships and dedicated management teams among other considerations. In appropriate circumstances, we may also divest certain assets if favourable conditions for such a divestiture are presented. To gain efficiencies and solidify our platform for future growth, Quarterhill launched an integration program in 2022 across our ITS Industry operating subsidiaries to help create a shared services organization providing centralized finance, information technology, legal and human resources support.

SUMMARY DESCRIPTION OF THE BUSINESS

Intelligent Transportation Systems

The ITS Industry is a developing, multi-disciplinary technology area growing alongside, among other things, existing analog and digital technologies, population growth, burgeoning public and private vehicle ownership, environmental and economic concerns, national security interests and the availability and connectedness of fixed, mobile and handheld equipment and networks.

An "intelligent transportation system" is a combination of information and communication technologies applied in transportation networks and infrastructure to facilitate vehicle-to-vehicle and vehicle-to-infrastructure communication and the collection and transfer of information. Intelligent transportation systems can enhance safety, traffic management and environmental performance of roadways, railways, aviation and maritime transportation. The ITS Industry benefits different means of transportation, including roadways, railways, aviation and maritime, aiming to provide improved safety, mobility and efficiency across these transportation networks. The ITS Industry comprises companies that offer various intelligent transportation system products, solutions and services. Many of these companies both collaborate and compete with one another.

For any jurisdiction, enabling population mobility safely and efficiently while minimizing negative environmental impact is a key priority. Quarterhill management believes that intelligent transportation systems can provide and are providing a growing source of revenues for governments at all levels to help bridge the gap between infrastructure funding and needs through both traditional tolling and emerging user-funded infrastructure programs. Providing residents with intelligent transportation systems can also save their time, help make economic progress and make cities more efficient. Intelligent transportation systems aim to reduce traffic congestion and greenhouse emissions, increase safety, reduce travel time and make the travel experience more convenient.

Based on market research, Quarterhill management believes the global ITS Industry market is expected to grow from more than US\$50.7 billion in 2024 to exceeding US\$70.7 billion by 2029, at a compound annual growth rate of 6.9% between 2024 and 2029.¹ Factors such as infrastructure stimulus spending, increasing concern for public safety, traffic congestion problems, initiatives taken by governments for effective traffic management, increasing concerns about protecting the environment and the development of smart cities across the world appear to be the current major driving forces for the ITS Industry.

¹Intelligent Transportation System Market Global Forecast to 2029, MarketsandMarkets, Report code SE 2415, Jul-2024.

ETC's back-office, reporting and interoperability technology complements IRD's widely deployed lane-embedded sensors and toll audit systems.

IRD is working to make highways and cities safer, greener and more efficient. In appropriate circumstances, Quarterhill may also divest certain assets if favourable conditions for such a divestiture are presented.

There are no issued or outstanding special preferred shares or Preferred Shares. On July 15, 2025, 116,861,264 Common Shares were issued and outstanding. In addition, the following securities, which are convertible into Common Shares, were outstanding on July 15, 2025: (i) options outstanding to purchase up to 4,086,040 Common Shares; (ii) 372,475 deferred share units outstanding; (iii) 2,835,676 restricted share units outstanding, and (iv) 1,852,248 performance stock units outstanding. In addition, on July 15, 2025, there were Convertible Debentures with an aggregate principal amount of \$57,500,000 outstanding.

Pursuant to this Prospectus, Quarterhill may also offer and issue, from time to time, Common Shares, Preferred Shares, Debt Securities, Warrants, Subscription Receipts, Units, or any combination thereof, as the case may be.

The following is a summary of the rights, privileges, restrictions and conditions attaching to our Common Shares, special preferred shares and Preferred Shares.

Common Shares

The holders of Common Shares are entitled to notice of and to vote at all meetings of shareholders (except meetings at which only holders of a specified class or series of shares are entitled to vote) and are entitled to one (1) vote per share. Subject to the preferences accorded to holders of Preferred Shares and any other shares ranking senior to the Common Shares from time to time with respect to the payment of dividends, holders of Common Shares are entitled to receive, if, as and when declared by our Board such dividends as may be declared thereon by our Board from time to time. In the event of the liquidation, dissolution or winding-up of Quarterhill, or any other distribution of assets among our shareholders for the purpose of winding-up our affairs (any such event, a "**Distribution**"), holders of Common Shares, subject to the preferences accorded to holders of Preferred Shares and any of Quarterhill's other shares ranking senior to the Common Shares from time to time with respect to payment on a Distribution, are entitled to share equally, share for share, in our remaining property.

Special Preferred Shares

The holders of our special preferred shares are not entitled, subject to applicable law, to receive notice of or to attend any meeting of Quarterhill's shareholders and are not entitled to vote at such meetings. The special preferred shares rank ahead of all other classes of our shares with respect to the payment of dividends and the holders are entitled to receive a fixed non-cumulative dividend up to a maximum of \$3.50 per year. In the event of a Distribution, the holders of special preferred shares are entitled to receive \$50.00 per share together with any declared but unpaid dividends prior to any payment or distribution to any of our other classes of shares, but shall not be entitled to share any further in the Distribution. Our Board may, at its option, redeem all or any of the special preferred shares at any time for \$50.00 per share plus the amount of any declared but unpaid dividends. Each holder of special preferred shares may require Quarterhill to redeem all or any of their shares at any time after April 28, 2000 for \$50.00 plus the amount of any declared but unpaid dividends.

Preferred Shares

Our Preferred Shares at any time and from time to time may be issued in one or more series, each series to consist of such number of shares as may, before the issuance thereof, be determined by our Board. From time to time our Board may fix, before the designation of a series, the rights, privileges, restrictions and conditions attaching to each series of Preferred Shares including, without limiting the generality of the foregoing: the amount, if any, specified as being payable preferential to such series on a Distribution; the extent, if any, of further participation in a Distribution; voting rights, if any; and dividend rights (including whether such dividends be preferential, or cumulative or non-cumulative), if any. In the event of the voluntary or involuntary liquidation, dissolution or winding-up of Quarterhill, or any other Distribution, holders of each series of Preferred Shares will be entitled, in priority to holders of Common Shares and any of our other shares ranking junior to the Preferred Shares from time to time with respect to payment on a Distribution, to be paid rateably with holders of each other series of Preferred Shares the amount, if any, specified as being payable preferentially to the holders of such series on a Distribution. The holders of each series of Preferred Shares will be entitled, in priority to holders of Common Shares and any of our other shares ranking junior to the Preferred Shares from time to time with respect to the payment of dividends, to be paid rateably with holders of each other series of Preferred Shares, the amount of accumulated dividends, if any, specified as being payable preferentially to the holders of such series.

The issuance of Preferred Shares and the terms selected by our Board could decrease the amount of earnings and assets available for distribution to holders of our Common Shares or adversely affect the

rights and powers, including the voting rights, of the holders of our Common Shares without any further vote or action by the holders of our Common Shares. The issuance of Preferred Shares, or the issuance of rights to purchase Preferred Shares, could make it more difficult for a third-party to acquire a majority of our outstanding voting shares and thereby have the effect of delaying, deferring or preventing a change of control of Quarterhill or an unsolicited acquisition proposal or of making the removal of management more difficult. Additionally, the issuance of Preferred Shares may have the effect of decreasing the market price of our Common Shares.

Any Prospectus Supplement relating to the Preferred Shares offered will contain a description of the specific terms of that series of Preferred Shares as fixed by the Board, including, as applicable:

- the number of Preferred Shares offered and the offering price of the Preferred Shares;
- the designation and any stated value of the Preferred Shares;
- the dividend rate(s), period(s), payment date(s) or method(s) of calculation of such rates, periods or dates applicable to the Preferred Shares;
- the date from which dividends on the Preferred Shares will accumulate, if applicable;
- the liquidation rights of the Preferred Shares;
- the procedures for auction and remarketing, if any, of the Preferred Shares;
- the sinking fund provisions, if applicable, for the Preferred Shares;
- the redemption provisions, if applicable, for the Preferred Shares;
- whether the Preferred Shares will be convertible into or exchangeable for other securities and, if so, the terms and conditions of the conversion or exchange, including the conversion price or exchange ratio and the conversion or exchange period (or the method of determining the same);
- whether the Preferred Shares will have voting rights and the terms of any voting rights;
- whether the Preferred Shares will be listed on any securities or stock exchange or on any automated dealer quotation system;
- whether the Preferred Shares will be issued with any other securities and, if so, the amount and terms of these securities; and
- any other specific terms, preferences or rights of, or limitations or restrictions on, the Preferred Shares.

We may also sell any of the Debt Securities for a foreign currency or currency unit, and payments on the Debt Securities may be payable in a foreign currency or currency unit. In any of these cases, we will describe certain income tax consequences and other special considerations in the applicable Prospectus Supplement.

Unless otherwise indicated in the applicable Prospectus Supplement, the Company may issue a series of Debt Securities with terms different from those of a series of Debt Securities previously issued and, without the consent of the holders of such series, reopen a previous issue of a series of Debt Securities and issue additional Debt Securities of such series.

The terms on which Debt Securities may be convertible into or exchangeable for Common Shares or other securities of the Company will be described in the applicable Prospectus Supplement. These terms may include provisions as to whether conversion or exchange is mandatory, at the option of the holder or at the option of the Company, and may include provisions pursuant to which the number of Common Shares or other securities to be received by the holders of such series of Debt Securities would be subject to adjustment.

To the extent any Debt Securities are convertible into Common Shares or other securities of the Company, prior to such conversion the holders of such Debt Securities will not have any of the rights of holders of the securities into which the Debt Securities are convertible, including the right to receive payments of dividends or the right to vote such underlying securities.

PLAN OF DISTRIBUTION

We may offer and sell Securities directly to one or more purchasers, through agents, or through underwriters or dealers designated by us from time to time. We may distribute the Securities from time to time in one or more transactions at a fixed price or prices (which may be changed from time to time), at market prices prevailing at the times of sale, at prices related to prevailing market prices or at negotiated prices. A description of such pricing will be disclosed in the applicable Prospectus Supplement. We may offer Securities in the same offering, or we may offer Securities in separate offerings.

A Prospectus Supplement will describe the terms of each specific offering of Securities, including (i) the terms of the Securities to which the Prospectus Supplement relates, including the type of Security being offered; (ii) the name or names of any agents, underwriters or dealers involved in such offering of Securities; (iii) the purchase price of the Securities offered thereby (or the manner of determination thereof if offered on a non-fixed price basis) and the proceeds to, and the portion of expenses borne by, the Company from the sale of such Securities; (iv) any agents' commission, underwriting discounts and other items constituting compensation payable to agents, underwriters or dealers; and (v) any discounts or concessions allowed or re-allowed or paid to agents, underwriters or dealers. Any public offering price and any discounts or concessions allowed or re-allowed or paid to agents, underwriters or dealers may be changed from time to time.

If underwriters are used in an offering, the Securities offered thereby will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions at a fixed public offering price or at varying prices determined at the time of sale. Securities may be offered to the public either through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. Only underwriters named in a Prospectus Supplement are deemed to be underwriters in connection with the Securities offered thereby. The obligations of the underwriters to purchase Securities will be subject to the conditions precedent agreed upon by the parties and the underwriters will be obligated to purchase all Securities under that offering if any are purchased.

The Securities may also be sold: (i) directly by the Company at such prices and upon such terms as agreed to; or (ii) through agents designated by the Company from time to time. Any agent involved in the offering and sale of the Securities in respect of which this Prospectus is delivered will be named, and any commissions payable by the Company to such agent will be set forth, in the Prospectus Supplement for such offering of Securities. Unless otherwise indicated in the Prospectus Supplement, any agent is acting on a best efforts basis for the period of its appointment.

We may agree to pay the underwriters, agents or dealers a commission for various services relating to the issue and sale of any Securities offered under any Prospectus Supplement. Agents, underwriters or dealers who participate in the distribution of Securities may be entitled under agreements to be entered into with the Company to indemnification by the Company against certain liabilities, including liabilities under securities legislation, or to contribution with respect to payments which such underwriters, dealers or agents may be required to make in respect thereof.

Agents, underwriters or dealers may make sales of Securities in privately negotiated transactions or any other method permitted by law or sales made to or through a market maker other than on an exchange. In connection with any offering of Securities, underwriters, agents or dealers may over-allot or effect transactions which stabilize or maintain the market price of the offered Securities at a level above that which might otherwise prevail in the open market. Such transactions may be commenced, interrupted or discontinued at any time.

We may authorize agents or underwriters to solicit offers by eligible institutions to purchase Securities from us at the public offering price set forth in the applicable Prospectus Supplement under delayed delivery contracts providing for payment and delivery on a specified date in the future. The conditions to these contracts and the commissions payable for solicitation of these contracts will be set forth in the applicable Prospectus Supplement.

Each class or series of Securities, other than the Common Shares, will be a new issue of Securities with no established trading market. Unless otherwise specified in the applicable Prospectus Supplement, the Preferred Shares, Debt Securities, Warrants, Subscription Receipts or Units will not be listed on any securities exchange. **Unless otherwise specified in the applicable Prospectus Supplement, there is no market through which the Preferred Shares, Debt Securities, Warrants, Subscription Receipts or Units may be sold and purchasers may not be able to resell Preferred Shares, Debt Securities, Warrants, Subscription Receipts or Units purchased under this Prospectus or any Prospectus Supplement. This may affect the pricing of the Preferred Shares, Debt Securities, Warrants, Subscription Receipts or Units in the secondary market, the transparency and availability of trading prices, the liquidity of the securities, and the extent of issuer regulation.** Subject to applicable laws, certain dealers may make a market in the Preferred Shares, Debt Securities, Warrants, Subscription Receipts or Units, as applicable, but will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given that any dealer will make a market in the Preferred Shares, Debt Securities, Warrants, Subscription Receipts or Units or as to the liquidity of the trading market, if any, for the Preferred Shares, Debt Securities, Warrants, Subscription Receipts or Units.

CERTAIN CANADIAN AND UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The applicable Prospectus Supplement will include a general summary of certain Canadian federal income tax consequences which may be applicable to a purchaser of Securities thereunder. The applicable Prospectus Supplement may also describe certain United States federal income tax consequences which may be applicable to a purchaser of Securities thereunder by an initial investor who is a United States person (within the meaning of the United States Internal Revenue Code of 1986, as amended). Prospective investors should read the tax discussion in any Prospectus Supplement with respect to a particular offering of our Securities and consult their own tax advisors with respect to their own particular circumstances.

RISK FACTORS

Investment in Securities is subject to various risks including those risks inherent to the industries in which Quarterhill operates. Discussions of certain risk factors affecting us in connection with our businesses are provided below as well as in our disclosure documents filed from time to time with the securities commission or similar securities regulatory authority in Canada which are incorporated by reference or deemed to be incorporated by reference in this prospectus. In particular, see "*Risk Factors*" in the AIF.

Before making an investment decision, prospective purchasers of Securities should carefully consider the information described in this Prospectus and the documents incorporated by reference herein, including the applicable Prospectus Supplement. Additional risk factors relating to a specific offering of Securities will be described in the applicable Prospectus Supplement. Some of the risk factors described in the documents incorporated by reference herein, as well as in the applicable Prospectus Supplement are interrelated and, consequently, investors should treat such risk factors as a whole. If any event arising from these risks occurs, our business, prospects, financial condition, results of operations or cash flows, or your investment in the Securities could be materially adversely affected. Additional risks and uncertainties of which we currently are unaware or that are unknown or that we currently deem to be immaterial could have a material adverse effect on our business, financial condition and results of operation. We cannot assure you that we will successfully address any or all of these risks.

Future sales or issuances of debt or equity securities may result in dilution to Quarterhill's shareholders.

We may sell or issue additional debt or equity securities in offerings to finance our operations, development, acquisitions or other projects. Our significant shareholders may also sell the Common Shares or other securities they hold or may hold in the future.

We cannot predict the size of future sales and issuances of debt or equity securities or the effect, if any, that future sales and issuances of debt or equity securities will have on the market price of the Common Shares.

Sales or issuances of a substantial number of equity securities, or the perception that such sales could occur, may adversely affect prevailing market prices for Quarterhill's Common Shares. With any additional sale or issuance of equity securities, investors will suffer dilution of their voting power and may experience dilution in Quarterhill's earnings per share. Sales of our Common Shares by shareholders might also make it more difficult for us to sell equity securities at a time and price that we deem appropriate.

Market price of our Common Shares may fluctuate

Our Common Shares are listed and posted for trading on the TSX and the OTCQX. An investment in Quarterhill's Securities is highly speculative, and the market prices for these Securities can be volatile. Market price fluctuations in the Common Shares may be due to Quarterhill's operating results failing to meet the expectations of securities analysts or investors in any quarter, downward revision in securities analysts' estimates, governmental regulatory action, adverse change in general market conditions or economic trends, acquisitions, dispositions or other material public announcements by Quarterhill or its competitors, along with a variety of additional factors, including, without limitation, increases in interest rates and those set forth under "*Note Regarding Forward-Looking Statements*". In addition, the market price for securities in the stock markets, including the TSX and OTCQX, have experienced significant price and trading fluctuations. These fluctuations have resulted in volatility in the market prices of securities that often has been unrelated or disproportionate to changes in operating performance. These broad market fluctuations may adversely affect the market prices of the Common Shares.

The use of proceeds may vary from planned use

While detailed information regarding the use of proceeds from the sale of our Securities will be described in the applicable Prospectus Supplement, Quarterhill will have broad discretion over the use of the net proceeds from an offering by Quarterhill of its Securities. Because of the number and variability of factors that will determine Quarterhill's use of such proceeds, Quarterhill's ultimate use might vary substantially from its planned use. You may not agree with how Quarterhill allocates or spends the proceeds from an offering of its Securities. Quarterhill may pursue acquisitions, collaborations or other opportunities that do not result in an increase in the market value of its Securities, including the market value of its Common Shares.

There is no assurance of a sufficient liquid trading market for the Common Shares in the future

Shareholders of the Company may be unable to sell significant quantities of Common Shares into the public trading markets without a significant reduction in the price of their Common Shares, or at all. There can be no assurance that there will be sufficient liquidity of the Company's Common Shares on the trading market, and that the Company will continue to meet the listing requirements of the TSX or OTCQX or achieve listing on any other public listing exchange.

Quarterhill has outstanding stock options, which, if exercised, could cause dilution to existing shareholders

Quarterhill has outstanding stock options which are exercisable to acquire Common Shares. The exercise of the stock options and the subsequent resale of such Common Shares in the public market could adversely affect the prevailing market price and Quarterhill's ability to raise equity capital in the future at a time and price which deems it appropriate. Quarterhill may also enter into commitments in the future which

would require the issuance of additional Common Shares and Quarterhill may grant additional stock options. Any share issuances from Quarterhill's treasury will result in immediate dilution to existing shareholders' percentage interest in Quarterhill.

LEGAL MATTERS

Unless otherwise specified in the Prospectus Supplement relating to the Securities, the issue and sale of the Securities will be passed upon on our behalf by DLA Piper (Canada) LLP. The partners, counsel and associates of DLA Piper (Canada) LLP, as a group, beneficially own, directly or indirectly, less than one percent (1%) of any class of our securities.

In addition, certain legal matters in connection with any offering of Securities will be passed upon for any underwriters, dealers or agents by counsel to be designated at the time of the offering by such underwriters, dealers or agents, as the case may be.

AUDITORS, REGISTRAR AND TRANSFER AGENT

The Company's external auditor is Ernst & Young LLP, located at 100 Adelaide Street West, Toronto, Ontario, M5H 0B3. Ernst & Young LLP has advised the Company that it is independent in the context of CPA Code of Professional Conduct of the Chartered Professional Accountants of Ontario.

The transfer agent and registrar of our Common Shares is Computershare Investor Services Inc. at its principal office in Toronto, Ontario.

PURCHASER'S STATUTORY RIGHTS OF WITHDRAWAL & RESCISSION

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may only be exercised within two (2) business days after receipt or deemed receipt of a prospectus or a prospectus supplement relating to the securities purchased by a purchaser and any amendments thereto. In several of the provinces and territories, the securities legislation further provides the purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus or a prospectus supplement relating to the securities purchased by a purchaser and any amendments thereto contain a misrepresentation or is not delivered to the purchaser, provided that such remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for the particulars of these rights or consult with a legal advisor.

In addition, original purchasers of convertible, exchangeable or exercisable Preferred Shares, Subscription Receipts, Warrants (unless the Warrants are reasonably regarded by the Company as incidental to the applicable offering as a whole) or convertible or exchangeable Debt Securities (or Units comprised partly thereof) will have a contractual right of rescission against the Company in respect of the conversion, exchange or exercise of the convertible, exchangeable or exercisable Preferred Share, Subscription Receipt, Warrant or the convertible or exchangeable Debt Security. The contractual right of rescission will be further described in any applicable Prospectus Supplement, but will, in general, entitle such original purchasers to receive the amount paid for the applicable convertible, exchangeable or exercisable Security (and any additional amount paid upon conversion, exchange or exercise) upon surrender of the underlying securities acquired thereby, in the event that this Prospectus (as supplemented or amended) contains a misrepresentation, provided that: (i) the conversion, exchange or exercise takes place within 180 days of the date of the purchase of the convertible, exchangeable or exercisable Security under this Prospectus; and (ii) the right of rescission is exercised within 180 days of the date of the purchase of the convertible, exchangeable or exercisable security under this Prospectus.

In an offering of convertible, exchangeable or exercisable Preferred Shares, Subscription Receipts, Warrants or convertible or exchangeable Debt Securities (or Units comprised partly thereof), investors are

cautioned that the statutory right of action for damages for a misrepresentation contained in the prospectus is limited, in certain provincial and territorial securities legislation, to the price at which convertible, exchangeable or exercisable Preferred Shares, Subscription Receipts, Warrants or convertible or exchangeable Debt Securities (or Units comprised partly thereof) are offered to the public under the prospectus offering. This means that, under the securities legislation of certain provinces and territories, if the purchaser pays additional amounts upon the conversion, exchange or exercise of the Security, those amounts may not be recoverable under the statutory right of action for damages that applies in those provinces or territories. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for the particulars of this right of action for damages or consult with a legal adviser.
