

**FORM 51-102F3
MATERIAL CHANGE REPORT**

ITEM 1 Name and Address of Company:

Brigadier Gold Limited (the "Company")
Suite 300, Bellevue Centre
235 – 15th Street
West Vancouver, BC, V7T 2X1 Canada

ITEM 2 Date of Material Change:

October 26, 2020 and November 2, 2020.

ITEM 3 News Release:

A news release dated November 2, 2020 was distributed and subsequently filed on the System for Electronic Document Analysis and Retrieval (SEDAR) at www.sedar.com.

ITEM 4 Summary of Material Change:

On November 2, 2020, the Company announced that Mr. Steve Vanry had been appointed as Chief Operating Officer of the Company, subject to approval by the TSX Venture Exchange (the "Exchange"). Mr. Vanry's appointment as Chief Operating Officer is effective as of October 30, 2020 and follows his appointment to the Board of Directors of the Company, at the annual and special general meeting held October 26, 2020.

ITEM 5 Full Description of Material Change:

5.1 – Full Description of Material Change:

On November 2, 2020, the Company announced that Mr. Steve Vanry had been appointed as Chief Operating Officer of the Company, subject to approval by the Exchange. Mr. Vanry's appointment as Chief Operating Officer is effective as of October 30, 2020 and follows his appointment to the Board of Directors of the Company, at the annual and special general meeting held October 26, 2020.

The Board of Directors of the Company is now comprised of Messrs. Ranjeet Sundher, Dillon Sharan, Garry Clark, Steve Vanry and Ms. Bev Funston.

In connection with Mr. Vanry's appointment as Chief Operating Officer of the Company and his signing of a management services agreement, Mr. Vanry is entitled to receive, in addition to his salary, a signing bonus payable by the issuance of 600,000 common shares in the capital of the Company (the "Common Shares"). The Common Shares, subject to approval by the Exchange, are subject to a hold period expiring four months and one day from the date of issuance.

5.2 – Disclosure for Restructuring Transactions:

Not applicable.

ITEM 6 Reliance on subsection 7.1(2) or (3) of National Instrument 51-102:

Not Applicable.

ITEM 7 Omitted Information:

Not Applicable.

ITEM 8 Executive Officer:

Further information relating to this Material Change Report may be obtained from:

Leah Hodges, Corporate Secretary

Telephone: (604) 377-0403

ITEM 9 Date of Report:

DATED as of November 2, 2020.

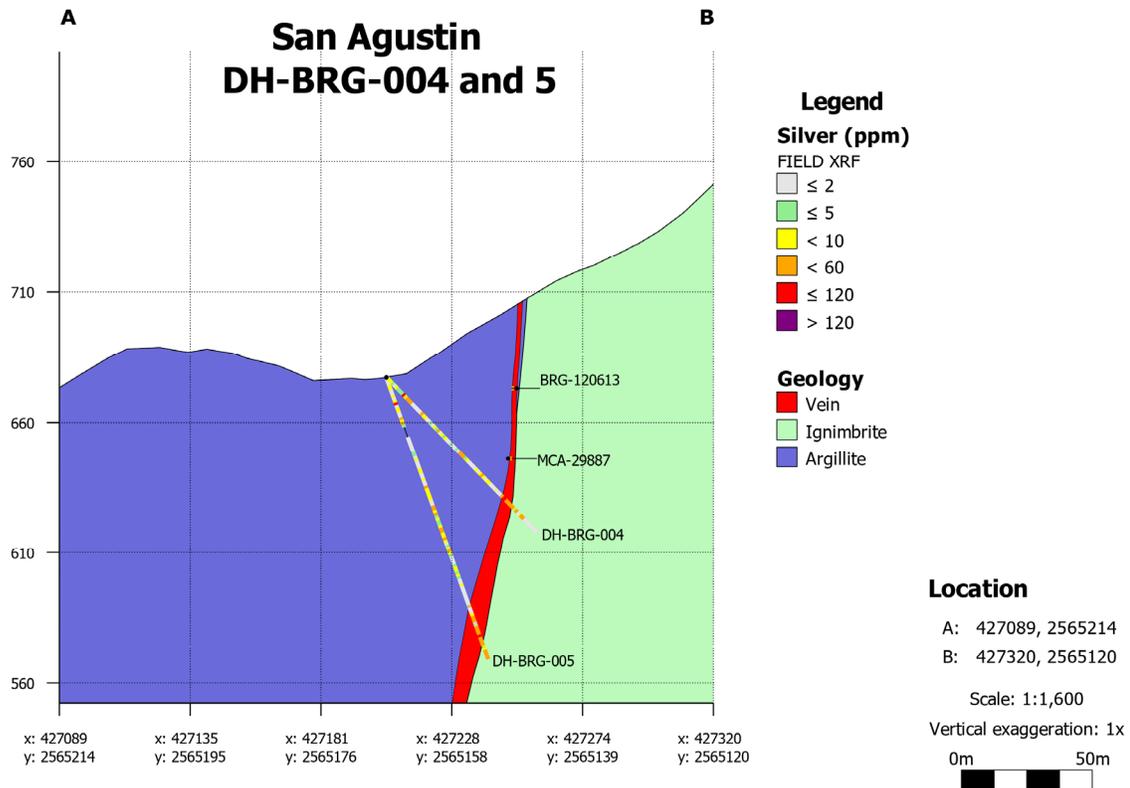

Brigadier Steps-Out 23 Metres and Drills Two More Holes Intersecting Vein Hosting High-Grade Historical Gold Mine

Vancouver, British Columbia – November 2, 2020 - Brigadier Gold Limited (the "**Company**" or "**Brigadier**") (TSXV: BRG, FSE: B7LM, USA: BGADF) is pleased to announce that the first five diamond core drill holes of a 5000 metre, 40-hole program at its Picachos Property ("**Picachos**") have intersected the San Agustín vein up to 180 metres below surface. Core from holes BRG-001 to BRG-005 has been received by SGS Labs in Durango. Assays will be made public upon completion of the analytical work.

The 3,954 hectare Picachos Gold-Silver Property is centered over the historic "Viva Zapata" National Mineral Reserve, Sinaloa, Mexico and features 46 veins including San Agustín. The San Agustín mine was the subject of underground channel sampling by a prior operator which returned an average grade of 81.22 grams per ton (g/t) gold (Au) and 73.36 g/t silver (Ag) across 1.2 m (Thunderbird Projects news release dated 18 June 1997). Values of 185 g/t Au were cut across the bottom of a production shaft (sample HBM-73175).

Holes BRG-004 and BRG-005 are collared below the southwestern part of a historic exploration drift accessed from the El Carrito Adit. Underground rock-chip channel sample BRG-120613 from this drift yielded an SGS lab result of 8.02 g/t gold, 63 g/t silver, 446 ppm Cu, 0.3% Pb and 0.5% Zn across 1 metre. Historic underground rock-chip channel sample MCA-29887 from extraction Level 646 contained 125.52 g/t Au and 76 g/t Ag across 1.5 metres. Drill hole BRG-004 is angled at -46 degrees towards the southeast (azimuth 112 degrees) and tested the San Agustín Vein 16 metres below MCA-29887. Anomalous silver that is expected to correlate with gold was identified using a Niton FXL benchtop XRF analyzer at several locations in the hole. The XRF silver anomaly associated with the San Agustín Vein peaks at 86 ppm Ag and occurs between 63 and 76 metres down-hole in BRG-004.

Drill hole BRG-005 is angled at -70 degrees towards the southeast (azimuth 114 degrees). It tested the San Agustín Vein 51 metres below the intercept of BRG-004. The XRF silver anomaly associated with the San Agustín Vein peaks at 68 ppm Ag and occurs between 92 and 115 metres down-hole in BRG-005. The upper part of this silver anomaly is associated with quartz-specularite veining in argillite. The lower part is located at the contact of argillite in the hanging wall, and porphyritic ignimbrite correlated to the Tarahumara Formation in the footwall. This contact is faulted and mineralized with precious metal bearing microcrystalline and crustiform quartz. Panned pulp samples from both quartz-specularite and microcrystalline quartz veinlets show gold.

Cross-Section of San Agustin Vein. Sample pulps cut every metre or half metre along the core axis were analyzed in the field using a Niton FXL benchtop XRF analyzer for metals and major elements. Rock chip-channel sample line BRG-120613 is 7 metres northeast of (behind) this cross section.

Appointment of Officer

The Company is pleased to announce that Mr. Steve Vanry has been appointed as Chief Operating Officer of the Company.

Mr. Vanry has 25-years professional experience in senior management positions with public and private companies, providing expertise in capital markets, strategic planning, corporate finance, mergers and acquisitions, regulatory compliance, accounting and financial reporting. His breadth of experience spans various industries, including; mining, oil and gas, renewable energy, high-technology and manufacturing. Mr. Vanry regularly consults for other listed companies in the role of director and/or senior executive. Mr. Vanry holds the right to use the Chartered Finance Analyst (CFA) and Canadian Investment Manager (CIM) designations and is a member of the CFA Institute and the Vancouver Society of Financial Analysts. Mr. Vanry's appointment is subject to approval by the TSX Venture Exchange (the "**Exchange**").

In connection with Mr. Vanry's appointment, subject to approval by the Exchange, Mr. Vanry is entitled to receive, in addition to his salary, a signing bonus payable by the issuance of 600,000 common shares in the capital of the Company (the "**Common Shares**"). The Common Shares would be subject to a hold period expiring four months and one day from the date of issuance.

National Instrument 43-101 Disclosure

The technical content of this press release has been reviewed and approved by Ms. Michelle Robinson, MAsc., P.Eng., and a Qualified Person as defined by National Instrument 43-101. Core and sample handling procedures are documented in the Company's press release dated October 21, 2020. It is the Qualified Person's opinion that the technical information disclosed in this press release is reliable.

About Brigadier Gold Limited

Brigadier was formed to leverage the next major bull market in the natural resource sector, particularly precious metals. Our mandate is to acquire undervalued and overlooked projects with demonstrable potential for advancement.

Led by a management team with decades of experience in mineral exploration and capital markets development, we are focused on advanced exploration opportunities in politically stable jurisdictions.
