

FARSTARCAP INVESTMENT CORP.

CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in Canadian Dollars)
For the Years Ended September 30, 2023 and 2022

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Farstarcap Investment Corp.:

Opinion

We have audited the consolidated financial statements of Farstarcap Investment Corp. (the “Company”), which comprise the consolidated statements of financial position as at September 30, 2023 and 2022, and the consolidated statements of operations and comprehensive loss, consolidated statements of changes in equity and consolidated statements of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at September 30, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the consolidated financial statements, which describes the conditions indicating that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended September 30, 2023. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Except for the matter described in the *Material Uncertainty Related to Going Concern* section of our auditor's report, we have determined that there are no other key audit matters to communicate in our report.

Other Information

Management is responsible for the other information. The other information comprises the information included in the Management's Discussion and Analysis filed with the relevant Canadian securities commissions.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit and remain alert for indications that the other information appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Aycha Aziz.

FARSTARCAP INVESTMENT CORP.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Years Ended September 30, 2023 and 2022
(Expressed in Canadian Dollars)

1. ORGANIZATION AND NATURE OF OPERATIONS AND GOING CONCERN

Farstarcap Investment Corp. (the “Company”) was incorporated under the Business Corporations Act of British Columbia on September 22, 2016. The Company was formed for the primary purpose of completing an Initial Public Offering (“IPO”) on the TSX Venture Exchange (the “Exchange”) as a Capital Pool Company (“CPC”) as defined in Policy 2.4 of the Exchange. The Company’s principal business is to identify, evaluate and acquire assets, properties or businesses which would constitute a qualifying transaction (“Qualifying Transaction”) in accordance with Policy 2.4 of the Exchange. The Company’s head office is located at 1100-1199 West Hastings Street, Vancouver, BC V6E 3T5. On February 13, 2019, the Company completed its IPO and was listed on the Exchange.

As a CPC, the Company is subject to certain cash restrictions. Proceeds raised from the issuance of common shares from the IPO may only be used to identify and evaluate assets or businesses for future investment, with the exception that no more than the lesser of 30% of the gross proceeds from the issuances of shares, or \$210,000 may be used to cover prescribed costs of issuing the common shares or administrative general expenses of the Company. The restrictions apply until completion of a Qualifying Transaction by the Company in accordance with Policy 2.4 of the Exchange. On February 19, 2021, the Company received final approval from the Exchange to remove the consequences of failing to complete a Qualifying Transaction within 24 months of listing, such as, requiring a transfer to the NEX Board and cancelling certain seed shares, and amended the escrow share release terms (Note 5).

As at September 30, 2023, the Company had no business operations and its only significant asset was cash. The ability of the Company to fund potential future operations and commitments is dependent upon its ability to obtain additional financing. There is no assurance that the Company will complete a Qualifying Transaction or be able to finance such an investment or acquisition. Furthermore, there is no assurance that the business will be profitable. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern.

2. BASIS OF PRESENTATION

Statement of compliance

The consolidated financial statements have been prepared in compliance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

These consolidated financial statements were approved by the Board of Directors for use on January 25, 2024.

Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis. The accrual basis of accounting has been applied in preparing the consolidated financial statements, except for cash flow information.

FARSTARCAP INVESTMENT CORP.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Years Ended September 30, 2023 and 2022
(Expressed in Canadian Dollars)

Basis of consolidation

The consolidated financial statements incorporate the assets and liabilities of the Company and its subsidiary and the results of the Company and its subsidiary for the year ended September 30, 2023. During the year ended September 30, 2021, the Company incorporated 1299840 B.C. Ltd under the Business Corporations Act of British Columbia. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The results of any entity over which the Company has control, will be included in the consolidated financial statements of the Company until the date that the Company's control over the entity ceases.

Details of the Company's subsidiary are as follows:

	Incorporation	Percentage owned	Percentage owned
		2023	2022
1299840 B.C. Ltd.	Canada	100%	100%

All intercompany accounts and transactions between the Company and its subsidiary have been eliminated upon consolidation.

3. SIGNIFICANT ACCOUNTING POLICIES

Financial instruments

Recognition and classification

The Company recognizes a financial asset or financial liability on the consolidated statement of financial position when it becomes party to the contractual provisions of the financial instrument.

The Company classifies its financial instruments in the following categories: at fair value through profit or loss ("FVTPL"), at fair value through other comprehensive income (loss) ("FVTOCI") or at amortized cost. The Company determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics.

Equity instruments that are held for trading are classified as FVTPL. For other equity instruments, on the date of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or if the Company has opted to measure them at FVTPL.

Measurement

Financial assets at FVTOCI

Elected investments in equity instruments at FVTOCI are initially recognized at fair value plus transaction costs. Subsequently they are measured at fair value, with gains and losses recognized in other comprehensive income (loss).

FARSTARCAP INVESTMENT CORP.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Years Ended September 30, 2023 and 2022
(Expressed in Canadian Dollars)

Financial assets and liabilities at amortized cost

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost using the effective interest method less any impairment. The effective interest rate is the rate that discounts estimated future cash payments over the expected life of the financial instrument, or where appropriate, a shorter period. Gains and losses are recognized in profit or loss when the financial instrument is derecognized as well as through the amortization process.

Financial assets and liabilities at FVTPL

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in profit or loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in profit or loss in the period in which they arise. Where management has opted to recognize a financial liability at FVTPL, any changes associated with the Company's own credit risk will be recognized in other comprehensive income (loss).

Impairment of financial assets at amortized cost

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost.

At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to the twelve month expected credit losses. The Company shall recognize in profit or loss, as a gain or impairment loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

Derecognition

Financial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity.

Financial liabilities

The Company derecognizes financial liabilities only when its obligations under the financial liabilities are discharged, cancelled or expired or its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

Gains and losses on derecognition are generally recognized in profit or loss.

Earnings or loss per share

Basic earnings or loss per share represents the income or loss for the year, divided by the weighted average number of common shares outstanding during the year. Diluted earnings per share represents the income for the year, divided by the weighted average number of common shares outstanding during the year plus the weighted average number of dilutive potential ordinary shares resulting from the

FARSTARCAP INVESTMENT CORP.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the Years Ended September 30, 2023 and 2022
(Expressed in Canadian Dollars)

exercise of stock options, warrants and other similar instruments where the inclusion of these would not be anti-dilutive. The number of dilutive potential ordinary shares are determined using the Treasury Stock Method which assumes that any proceeds received from the instruments are used to repurchase outstanding shares at the average market price for the year. Diluted loss per share is equal to basic loss per share, as the effect of inclusion of potentially dilutive instruments would be anti-dilutive.

Shares that are held in escrow until completion of a Qualifying Transaction are included in the calculation of basic and diluted loss per share as they are not subject to cancellation prior to completion of a Qualifying Transaction.

Foreign currencies

The consolidated financial statements for the Company are prepared using its functional currency. Functional currency is the currency of the primary economic environment in which an entity operates. The functional and presentation currency of the Company and its subsidiary is the Canadian dollar.

Foreign currency transactions are translated into the functional currency using exchange rates prevailing at the dates of the transactions. At the end of each reporting period, monetary assets and liabilities that are denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary assets and liabilities are translated using the historical rate on the date of the transaction. Non-monetary assets and liabilities that are stated at fair value are translated using the historical rate on the date that the fair value was determined. All gains and losses on translation of these foreign currency transactions are charged to profit or loss.

Income tax

Income tax expense comprises current and deferred tax. Income tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable income or loss. In addition, deferred tax is not recognized for taxable temporary differences arising on the initial recognition of goodwill. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but where those entities intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at

FARSTARCAP INVESTMENT CORP.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the Years Ended September 30, 2023 and 2022
(Expressed in Canadian Dollars)

each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Share capital

Common shares are classified as equity. Transaction costs directly attributable to the issue of common shares are recognized as a deduction from equity. Transaction costs related to shares not yet issued are recorded as deferred financing costs. These costs are deferred until the issuance of the shares to which the costs relate, at which time the costs will be charged against the related share capital. The costs are charged to profit or loss if the shares are not issued.

Share-based payments

The fair value of all share-based awards granted is recorded, at the measurement date fair value, as an asset, share issuance cost or a charge to profit or loss and as a credit to share-based payment reserves under the graded vesting method.

The fair value of share-based awards granted to employees and others providing similar services which vest immediately is recorded at the date of grant. The fair value of share-based awards which vest in the future is recognized over the vesting period, as adjusted for the expected level of vesting of the options. The fair value of share-based awards is estimated using the Black-Scholes option pricing model.

Share-based awards granted to parties other than employees and those providing similar services are measured at the fair value of the goods and services received on the date of receipt. If the fair value of the goods and services received cannot be reliably measured, their value is estimated using the Black-Scholes option pricing model.

Any consideration received on the exercise of share-based awards together with the related portion of reserves attributed to the exercised share-based awards is credited to share capital. When share-based awards expire unexercised the amounts recorded in share-based payment reserves with respect to those share-based awards are not reclassified within equity.

Standards and interpretations issued but not yet effective

At the date of authorization of these consolidated financial statements, the IASB has not issued any new or revised standards expected to have a material impact on the consolidated results and consolidated financial position of the Company when adopted.

FARSTARCAP INVESTMENT CORP.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the Years Ended September 30, 2023 and 2022
(Expressed in Canadian Dollars)

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions based on currently available information that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated financial statements and reported amounts of expenses during the reporting period. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual results could differ. By their nature, these estimates are subject to measurement uncertainty and the effect on the consolidated financial statements of future periods could be material. In the process of applying the Company's accounting policies, management has not identified any significant estimates or judgements which have a material effect on the amounts recognized in the consolidated financial statements.

5. SHARE CAPITAL

- a) Authorized:** Unlimited common shares without par value.
Unlimited preferred shares issuable in series.

The Company did not complete any financings or issue any shares during the years ended September 30, 2023 and 2022.

On February 20, 2018, the Company entered into an Escrow Agreement (the "Escrow Agreement") in accordance with the Exchange CPC Policy 2.4, with certain shareholders and 2,000,001 common shares were placed in escrow. Subject to the said Policy, the escrowed common shares will be released from escrow as follows: 10% on the completion of Qualifying Transaction, and 15% on each of the dates 6 months, 12 months, 18 months, 24 months, 30 months and 36 months following the initial release.

On February 19, 2021, the Exchange approved an amendment to the escrowed share release terms to be as follows: 25% on the completion of Qualifying Transaction, and 25% on each of the dates 6 months, 12 months and 18 months following the initial release.

At September 30, 2023, 2,020,001 (2022 – 2,020,001) commons shares were held in escrow.

b) Stock options

On December 1, 2017, the Company adopted a stock option plan (the "Stock Option Plan"), whereby the maximum number of non-transferable options to purchase common shares reserved for issuance will not exceed 10% of the issued and outstanding common shares. Additionally, the maximum number of non-transferable options to purchase common shares reserved for issuance to any one individual upon exercise of all stock options held by such individual may not exceed 5% of the issued common shares, if the individual is a director or officer, or 2% of the issued common shares, if the individual is a technical consultant. All options granted under the Stock Option plan will expire not later than the date that is ten years from the date that such options are granted. Options may be exercised the greater of 12 months after Completion of the Qualifying Transaction and 90 days following cessation of the optionee's position with the Company, provided that if the cessation of office, directorship, or technical consulting arrangement was reason of death, the option may be exercised within a maximum period of one year after such death, subject to the expiry date of such option. Options granted under the Stock

FARSTARCAP INVESTMENT CORP.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Years Ended September 30, 2023 and 2022

(Expressed in Canadian Dollars)

Option Plan are not transferable or assignable other than by will or other testamentary instrument pursuant to the laws of succession.

The balance of stock options outstanding and exercisable as at September 30, 2023 and 2022 and the changes for the periods then ended is as follows:

	Number of Options #	Weighted Average Exercise Price \$	Weighted Average Life Remaining (years)
Balance, September 30, 2021	250,000	0.10	2.37
Balance, September 30, 2022	250,000	0.10	1.37
Balance, September 30, 2023	250,000	0.10	0.37

As at September 30, 2023, the Company's stock options outstanding were as follows:

Expiry Date	Exercise price \$	Remaining life (years)	Options outstanding and exercisable
February 13, 2024	0.10	0.37	250,000

c) Loss per share

The calculation of basic and diluted loss per share for the year ended September 30, 2023, was based on the loss attributable to common shareholders of \$51,110 (2022 - \$34,192) and the weighted average common shares outstanding of 5,610,001 (2022 – 5,610,001).

During the year ended September 30, 2023, potentially dilutive common shares totaling 250,000 (2022 – 250,000) were not included in the calculation of basic and diluted loss per share because their effect was anti-dilutive.

FARSTARCAP INVESTMENT CORP.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the Years Ended September 30, 2023 and 2022
(Expressed in Canadian Dollars)

6. INCOME TAXES

The following table reconciles the expected income tax recovery at the Canadian statutory income tax rates to the amounts recognized in the statement of operations for the years ended September 30, 2023 and 2022:

	2023	2022
Statutory tax rate	27.00%	27.00%
Loss for the year before income taxes	\$ (51,110)	\$ (34,192)
Expected income tax recovery	(13,800)	(9,232)
Change in deferred tax assets not recognized	13,800	9,232
Total income tax recovery	-	-

Deferred taxes reflect the tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax values. Deferred tax assets (liabilities) at September 30, 2023 and 2022 are comprised of the following:

	2023 \$	2022 \$
Share issuance costs	-	2,716
Non-capital loss carry forwards	118,445	101,929
Total deferred income tax assets not recognized	118,445	104,645

The Company has non-capital loss carry forwards of approximately \$439,000 which may be carried forward to apply against future years income tax for Canadian income tax purposes, subject to the final determination by taxation authorities, expiring in the years 2037 to 2043.

7. RELATED PARTY TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence, related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. Related party transactions that are in the normal course of business and have commercial substance are measured at the exchange amount.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly. Key management personnel include the Company's executive officers and members of the Board of Directors.

FARSTARCAP INVESTMENT CORP.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the Years Ended September 30, 2023 and 2022
(Expressed in Canadian Dollars)

As at September 30, 2023, the Company had \$nil (2022 - \$nil) owing to related parties. Compensation paid or accrued to key management or companies controlled by key management personnel during the years ended September 30, 2023 and 2022 was \$nil.

8. MANAGEMENT OF CAPITAL

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern and to maintain a flexible capital structure which optimizes the cost of capital within a framework of acceptable risk. In the management of capital, the Company includes the components of equity, which totaled \$22,316 at September 30, 2023 (2022 - \$73,426).

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new shares, issue debt or acquire assets. The Company's strategy for managing capital did not change during the year ended September 30, 2023.

The Company is dependent on the capital markets as its primary source of operating capital and the Company's capital resources are largely determined by its ability to compete for investors and associated financings.

The Company is not subject to any externally imposed capital requirements.

9. FINANCIAL INSTRUMENTS

Financial Instruments Hierarchy

The Company has categorized fair value measurements of its financial instruments using a fair value hierarchy that reflects the reliability of inputs used in making the measurements as follows:

- Level 1: Valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Valuations based on directly or indirectly observable inputs, other than Level 1 prices, in active markets for similar assets or liabilities, such as quoted interest or currency exchange rates; and
- Level 3: Valuations based on significant inputs that are not derived from observable market data, such as discounted cash flow methodologies based on internal cash flow forecasts.

The Company's financial instruments consist of cash and accounts payable and accrued liabilities. The Company classified and measured cash and accounts payable and accrued liabilities at amortized cost. The fair values of the Company's financial instruments approximate their carrying values due to their short terms to maturity.

The risks associated with financial assets and liabilities are as follows:

Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Credit risk arises from cash held with banks and financial institutions. The maximum exposure to credit risk is equal to the carrying value of the Company's cash.

FARSTARCAP INVESTMENT CORP.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Years Ended September 30, 2023 and 2022
(Expressed in Canadian Dollars)

The Company's cash is held with the Bank of Montreal. Accordingly, the Company believes it is not exposed to significant credit risk. The Company's exposure to and management of credit risk has not changed materially from that of the year ended September 30, 2022.

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Company manages its liquidity risk by continuously monitoring forecasted and actual cash flows, as well as anticipated investing and financing activities. As at September 30, 2023, all of the Company's liabilities were short-term and due on demand. At September 30, 2023, the Company had working capital of \$22,316 (2022 - \$73,426). The Company's exposure to and management of liquidity risk has not changed materially from that of the year ended September 30, 2022.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign exchange risk and other price risk. The Company's exposure to and management of market risk has not changed materially from that of the year ended September 30, 2022.

- **Interest Rate Risk**

Interest rate risk is the risk that the future cash flows or fair value of a financial instrument will fluctuate because of changes in market interest rates. The Company believes it is not exposed to significant interest rate risk as the Company's cash is earning interest at market rates, and the Company has no interest bearing financial liabilities.

- **Foreign Exchange Risk**

Foreign exchange risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in foreign exchange rates. The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. As a result, the Company believes it is not exposed to significant foreign exchange risk.

- **Other Price Risk**

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer by factors affecting all similar financial instruments traded in the market. The Company believes it is not exposed to significant other price risk.

10. SEGMENTED INFORMATION

At September 30, 2023, the Company has one reportable operating segment being the identification and evaluation of assets or a business and, once identified or evaluated, to negotiate an acquisition or participation in a business subject to receipt of shareholder approval, if required, and acceptance by regulatory authorities. All of the Company's assets are located in Canada.

11. PROPOSED TRANSACTION

On September 11, 2023, the Company entered into a letter of intent with HerdWhistle Technologies Inc. ("HWT") regarding a proposed transaction to acquire all the issued and outstanding securities of HWT (the "Transaction"). On October 24, 2023, the Company entered into an agreement to amend the letter of intent with HWT (the "LOI").

Pursuant to the LOI, subject to the execution of a definitive agreement, HWT will conduct a private capital raise of up to \$1,500,000 at a price of \$0.60 per unit of HWT and issue up to 2,500,000 units of HWT (the "HWT Units") (the "Initial Private Offering"). Each HWT Unit consists of one common share of HWT (a "HWT Share") and one common share purchase warrant of HWT (a "HWT Warrant"), with each HWT Warrant exercisable into a HWT Share at an exercise price of \$1.20 per share for a period of three years. The Initial Private Offering will continue until the earlier of either (i) HWT issuing a total of 2,500,000 HWT Units or (ii) ten days before the closing of the Transaction.

The closing of the Transaction will be conditional upon HWT completing a private placement financing of subscription receipts (the "Subscription Receipts") at a price of \$0.60 per subscription receipt unit, each of which will, prior to the effective time of the Transaction, automatically convert into one HWT Share (the "Sub Receipt Share") and one HWT Warrant (the "Sub Receipt Warrant"), with each Sub Receipt Warrant exercisable into a HWT Share at an exercise price of \$1.20 per share for a period of three years, for no additional consideration upon the satisfaction of certain escrow release conditions, including the conditional approval of the Exchange for the Transaction and satisfaction or waiver of all of the conditions precedent to the Transaction as set out in the definitive agreement. The Transaction is subject to regulatory approval.

HWT is a private company and was incorporated on January 6, 2021 pursuant to the laws of Alberta, Canada. HWT's innovative solutions empower farmers to enhance animal welfare, optimize resource utilization, and drive agricultural productivity.
