INFORMATION CIRCULAR

(As at August 28, 2018, except as indicated)

Carlin Gold Corporation (the “**Company**”) is providing this Information Circular and a form of proxy in connection with management’s solicitation of proxies for use at the annual general meeting (the “**Meeting**”) of the Company to be held on October 3, 2018 and at any adjournments thereof. The Company will conduct its solicitation by mail and officers and employees of the Company may, without receiving special compensation, also telephone or make other personal contact. The Company will pay the cost of solicitation.

APPOINTMENT OF PROXYHOLDER

The purpose of a proxy is to designate persons who will vote the proxy on a shareholder’s behalf in accordance with the instructions given by the shareholder in the proxy. The persons whose names are printed in the enclosed form of proxy are officers or Directors of the Company (the “**Management Proxyholders**”).

A shareholder has the right to appoint a person other than a Management Proxyholder, to represent the shareholder at the Meeting by striking out the names of the Management Proxyholders and by inserting the desired person’s name in the blank space provided or by executing a proxy in a form similar to the enclosed form. A proxyholder need not be a shareholder.

VOTING BY PROXY

Only registered shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Shares represented by a properly executed proxy will be voted or be withheld from voting on each matter referred to in the Notice of Meeting in accordance with the instructions of the shareholder on any ballot that may be called for and if the shareholder specifies a choice with respect to any matter to be acted upon, the shares will be voted accordingly.

If a shareholder does not specify a choice and the shareholder has appointed one of the Management Proxyholders as proxyholder, the Management Proxyholder will vote in favour of the matters specified in the Notice of Meeting and in favour of all other matters proposed by management at the Meeting.

The enclosed form of proxy also gives discretionary authority to the person named therein as proxyholder with respect to amendments or variations to matters identified in the Notice of the Meeting and with respect to other matters which may properly come before the Meeting. At the date of this Information Circular, management of the Company knows of no such amendments, variations or other matters to come before the Meeting.

COMPLETION AND RETURN OF PROXY

Completed forms of proxy must be deposited at the office of the Company's registrar and transfer agent, Computershare Investor Services Inc., by mail or by hand at:

Proxy Dept, 100 University Avenue, 8th Floor, Toronto, Ontario, M5J 2Y1

Fax within North America: 1-888-453-0330

Fax outside North America: (416) 263-9524

no later than forty-eight (48) hours, excluding Saturdays, Sundays and holidays, prior to the time of the Meeting, unless the chairman of the Meeting elects to exercise his discretion to accept proxies received subsequently.

NON-REGISTERED HOLDERS

Only shareholders whose names appear on the records of the Company as the registered holders of shares or duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Company are "non-registered" shareholders because the shares they own are not registered in their names but instead registered in the name of a nominee such as a brokerage firm through which they purchased the shares; bank, trust company, trustee or administrator of self-administered RRSP's, RRIF's, RESP's and similar plans; or clearing agency such as The Canadian Depository for Securities Limited (a "**Nominee**"). If you purchased your shares through a broker, you are likely a non-registered holder.

In accordance with securities regulatory policy, the Company has distributed copies of the Meeting materials, being the Notice of Meeting, this Information Circular and the Proxy, to the Nominees for distribution to non-registered holders.

Nominees are required to forward the Meeting materials to non-registered holders to seek their voting instructions in advance of the Meeting. Shares held by Nominees can only be voted in accordance with the instructions of the non-registered holder. The Nominees often have their own form of proxy, mailing procedures and provide their own return instructions. If you wish to vote by proxy, you should carefully follow the instructions from the Nominee in order that your Shares are voted at the Meeting.

If you, as a non-registered holder, wish to vote at the Meeting in person, you should appoint yourself as proxyholder by writing your name in the space provided on the request for voting instructions or proxy provided by the Nominee and return the form to the Nominee in the envelope provided. Do not complete the voting section of the form as your vote will be taken at the Meeting.

Non-registered holders who have not objected to their Nominee disclosing certain ownership information about themselves to the Company are referred to as "non-objecting beneficial owners" ("**NOBOs**"). Those non-registered holders who have objected to their Nominee disclosing ownership information about themselves to the Company are referred to as "objecting beneficial owners" ("**OBOs**").

The Company is not sending the Meeting materials directly to NOBOs in connection with the Meeting, but rather has distributed copies of the Meeting materials to the Nominees for distribution to NOBOs.

The Company does not intend to pay for Nominees to deliver the Meeting materials and Form 54-101F7 – *Request for Voting Instructions Made by Intermediary* to OBOs. As a result, OBOs will not receive the Meeting Materials unless their Nominee assumes the costs of delivery.

NOTICE-AND-ACCESS

The Company is not sending the Meeting materials to shareholders using “notice-and-access”, as defined under NI 54-101.

REVOCABILITY OF PROXY

In addition to revocation in any other manner permitted by law, a shareholder, his or her attorney authorized in writing or, if the shareholder is a corporation, a corporation under its corporate seal or by an officer or attorney thereof duly authorized, may revoke a proxy by instrument in writing, including a proxy bearing a later date. The instrument revoking the proxy must be deposited at the registered office of the Company, at any time up to and including the last business day preceding the date of the Meeting, or any adjournment thereof, or with the chairman of the Meeting on the day of the Meeting.

VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

The Company is authorized to issue an unlimited number of common shares without par value (the “**shares**”), of which 88,939,464 shares are issued and outstanding as at August 28, 2018. Persons who are registered shareholders at the close of business on August 28, 2018 will be entitled to receive notice of and vote at the Meeting and will be entitled to one vote for each share held. The Company has only one class of shares.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The Company's compensation philosophy for its senior management is designed to attract well qualified individuals in what is essentially an international market by paying competitive base management fees plus long term incentive compensation in the form of stock options or other suitable long term incentives. The Board of Directors meets to discuss and determine executive compensation without reference to

formal objectives, criteria or analysis. In making its determinations regarding the various elements of executive compensation, the Board of Directors does not benchmark its executive compensation program, but from time to time does review compensation practices of companies of similar size and state of development to ensure the compensation paid is competitive within the Company's industry and geographic location while taking into account the financial and other resources of the Company.

The duties and responsibilities of the President and CEO are typical of those of a business entity of the Company's size in a similar business and include direct reporting responsibility to the Board, overseeing the activities of all other executive and management consultants, representing the Company, providing leadership and responsibility for achieving corporate goals and implementing corporate policies and initiatives.

Stock Option Plan

The Company's executive compensation policy consists of the payment of fees on the basis of time expended at competitive rates for technical consulting, management and administrative services paid to the executives or their companies, and long term incentives in the form of stock options granted under the Company's rolling stock option plan (the "**Stock Option Plan**").

Options are granted at the discretion of the Board of Directors, which considers factors such as how other junior exploration companies grant options and the potential value that each optionee is contributing to the Company. The number of options granted to an individual is based on such considerations.

Granting of options is a variable and discretionary element of compensation. The Company's Stock Option Plan has been and will be used to provide share purchase options which are granted in consideration of the level of responsibility of the executive as well as his or her impact or contribution to the longer-term operating performance of the Company. In determining the number of options to be granted to the Named Executive Officers, the Board takes into account the number of options, if any, previously granted to each Named Executive Officer, and the exercise price of any outstanding options to ensure that such grants are in accordance with the policies of the TSX Venture Exchange (the "**Exchange**"), and closely align the interests of such executive officers with the interests of shareholders.

Named Executive Officers

For the purposes of the remainder of this Circular, a Named Executive Officer of the Company means each of the following individuals:

- (a) the Chief Executive Officer of the Company ("**CEO**");
- (b) the Chief Financial Officer of the Company ("**CFO**");
- (c) the most highly compensated executive officer of the Company other than the individuals identified in paragraphs (a), (b) and (c) above, at December 31, 2017, whose total compensation was more than \$150,000; and
- (d) each individual who would be named an executive officer under paragraph (d) but for the fact that the individual was not an executive officer of the Company, and was not acting in a similar capacity, at December 31, 2017.

(collectively the "**Named Executive Officers**" or "**NEOs**").

Oversight and Description of Director and Named Executive Officer Compensation

The Board of Directors considers the implications of the risks associated with the Company’s compensation policies and practices when determining rewards for its officers. Commencing in 2012, the Board of Directors reviews at least once annually the risks, if any, associated with the Company’s compensation policies and practices at such time.

The Board of Directors has established a Compensation Committee, which as at the year ended December 31, 2017 was comprised of Robert Culbert, Kenneth Rye, and Brian C. Irwin, all of whom are independent within the meaning of section 1.4 of National Instrument 52-110 *Audit Committees*.

The Compensation Committee has responsibility for determining compensation for the Directors and Named Executive Officers. To determine compensation payable, the Compensation Committee considers compensation paid for Directors and CEOs of companies of similar size and stage of development in the mineral exploration and development industry and determines an appropriate compensation reflecting the need to provide incentive and compensation for the time and effort expended by the Directors and senior management while taking into account the financial and other resources of the Company. The Compensation Committee also has the responsibility to administer the compensation policies related to the executive management of the Company, including option-based awards.

Executive compensation is comprised of short-term fee compensation and long-term ownership through the Company’s Stock Option Plan. This structure ensures that a significant portion of executive compensation (stock options) is both long-term and “at risk” and, accordingly, is directly linked to the achievement of business results and the creation of long term shareholder value. As the benefits of such compensation, if any, are not realized by officers until a significant period of time has passed, the ability of officers to take inappropriate or excessive risks that are beneficial to their compensation at the expense of the Company and the shareholders is extremely limited. Furthermore, the short-term component of executive compensation (base salary) represents a relatively small part of the total compensation. As a

result, it is unlikely an officer would take inappropriate or excessive risks at the expense of the Company or the shareholders that would be beneficial to their short-term compensation when their long-term compensation might be put at risk from their actions.

For each NEO, neither total compensation nor significant elements thereof are tied to performance criteria or goals, such as milestones, agreements or transactions. No significant events have occurred during the most recently completed financial year that have significantly affected executive compensation. The process through which the Company determines the amount to be paid for each significant element of executive compensation is based on a subjective internal determination of the Company, and is not based on objective, identifiable measures. The Company does not engage in a peer group analysis to determine executive compensation. No significant changes to the Company's compensation policies were made during or after the most recently completed financial year that could or will have an effect on director or NEO compensation.

Due to the small size of the Company and the current level of the Company's activity, the Board of Directors is able to closely monitor and consider any risks which may be associated with the Company's compensation policies and practices. Risks, if any, may be identified and mitigated through regular Board meetings during which financial and other information of the Company are reviewed. No risks have been identified arising from the Company's compensation policies and practices that are reasonably likely to have a material adverse effect on the Company.

The Company has not adopted a policy prohibiting Directors or officers from purchasing financial instruments that are designed to hedge or offset a decrease in market value of the Company's securities granted as compensation or held, directly or indirectly, by Directors or officers. However, the Company is not aware of any Directors or officers having entered into this type of transaction.

Pension Disclosure

The Company does not have a pension plan that provides for payments or benefits to the Named Executive Officers or Directors at, following, or in connection with retirement.

In certain cases, the Company’s practices comply with the guidelines, however, the Board considers that some of the guidelines are not suitable for the Company at its current stage of development and therefore these guidelines have not been adopted. Independence of Members of Board

The Company’s Board consists of seven Directors, five of whom are independent based upon the tests for independence set forth in NI 52-110. Brian C. Irwin, Robert Culbert, Robert D. Thomas, Jr., Jay Sujir and Kenneth Rye are independent. K. Wayne Livingstone is not independent as he is the President and CEO of the Company. Aris Morfopoulos is not independent as he is the CFO and Secretary of the Company.

Management Supervision by Board

The size of the Company is such that all the Company’s operations are conducted by a small management team which is also represented on the Board. The Board considers that management is effectively supervised by the independent Directors on an informal basis as the independent Directors are actively and regularly involved in reviewing and supervising the operations of the Company and have regular and full access to management. The independent Directors are however able to meet at any time without any members of management including the non-independent Directors being present. Further supervision is performed through the audit committee which is composed of a majority of independent Directors who meet with the Company’s auditors without management being in attendance. The independent Directors also have access to the Company’s auditors without management being in attendance. The independent Directors also have access to the Company’s legal counsel and its officers.

Risk Management

The Board of Directors is responsible for the adoption of a strategic planning process, identification of principal risks and implementing risk management systems, succession planning and the continuous disclosure requirements of the Company under applicable securities laws and regulations.

The audit committee is responsible for the risk management items set out in the audit committee charter.

Participation of Directors in Other Reporting Issuers

The participation of the Directors in other reporting issuers is described in the table provided under “Election of Directors” in this Information Circular.

Orientation and Continuing Education

While the Company does not have formal orientation and training programs, new Board members are provided with:

1. information respecting the functioning of the Board of Directors, committees and copies of the Company’s corporate governance policies;

2. access to recent, publicly filed documents of the Company, technical reports and the Company's internal financial information; and
3. access to management and technical experts and consultants.

Board members are encouraged to communicate with management, auditors and technical consultants; to keep themselves current with industry trends and developments and changes in legislation with management's assistance; and to attend related industry seminars and visit the Company's operations. Board members have full access to the Company's records.

Ethical Business Conduct

The Board views good corporate governance as an integral component to the success of the Company and to meet responsibilities to shareholders. The Board has adopted a Code of Conduct that is posted on its website at www.carlingold.com and has instructed its management and employees to abide by the Code.

Nomination of Directors

The Board has responsibility for identifying potential Board candidates. The Board assesses potential Board candidates to fill perceived needs on the Board for required skills, expertise, independence and other factors. Members of the Board and contacts in the mineral exploration and development industry are consulted for possible candidates.

Compensation of Directors and the CEO

The members of the Compensation Committee are Brian C. Irwin, Robert Culbert and Kenneth Rye, each of whom is independent. The Compensation Committee has responsibility for determining compensation for the Directors and senior management.

To determine compensation payable, the Compensation Committee considers compensation paid for Directors and CEOs of companies of similar size and stage of development in the mineral exploration and development industry and determines an appropriate compensation reflecting the need to provide incentive and compensation for the time and effort expended by the Directors and senior management while taking into account the financial and other resources of the Company.

Board Committees

As the Directors are actively involved in the operations of the Company and the size of the Company's operations does not warrant a larger Board of Directors, the Board has determined that additional committees are not necessary at this stage of the Company's development.

Assessments

The Board does not consider that formal assessments would be useful at this stage of the Company's development. The Board conducts informal annual assessments of the Board's effectiveness, the individual Directors and each of its committees. To assist in its review, the Board conducts informal surveys of its Directors, receives information reports from the Compensation Committee on its assessment of the functioning of the Board and information reports from each committee respecting its own effectiveness. As part of the assessments, the Board or the individual committee may review their respective mandate or charter and conduct reviews of applicable corporate policies.

AUDIT COMMITTEE CHARTER

1.0 PURPOSE

- 1.1 The Audit Committee (the “**Committee**”) is a standing committee of the Board of Directors (the “**Board**”) of the Company charged with assisting the Board in fulfilling its responsibility to the shareholders and investment community. Its role is to:
- (a) serve as an independent and objective party to oversee the Company’s accounting and financial reporting processes, internal control system and audits of its financial statements;
 - (b) review and appraise the audit efforts of the Company’s external auditors; and
 - (c) provide an open avenue of communication among the external auditors, financial and senior management and the Board.

2.0 COMMITTEE MEMBERSHIP

- 2.1 The Board of the Company will annually appoint a minimum of three Directors to the Committee and for so long as the shares of the Company are listed on the Exchange, a majority of whom will, to the extent possible, be Directors of the Company who are independent of management and free from any material relationship that, in the opinion of the Board, would interfere with the Director’s exercise of independent judgment as a member of the Committee.
- 2.2 All members of the Committee must be financially literate, or if not financially literate at the time of their appointments, must become so within a reasonable period of time following their appointments. For the purposes of this Charter, the definition of “financially literate” is the ability to read and understand a balance sheet, an income statement and a cash flow statement that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the Company’s financial statements. The definition of “accounting or related financial management expertise” is the ability to analyze and interpret a full set of financial statements, including the notes attached thereto, in accordance with Canadian generally accepted accounting principles.
- 2.3 Members of the Committee will be appointed at the first meeting of the Board of Directors typically held following the Annual General Meeting of the Company.
- 2.4 A member may resign from the Committee and may be removed and replaced at anytime by the Board of Directors. A member of the Committee will automatically cease to be a member at such time as that individual ceases to be a Director of the Company.

- Monitor that follow-up matters are being addressed.
- Direct the Committee's meetings in a manner that facilitates the exchange of constructive and objective points of view and opinions, that encourages all Committee members to participate and that is conducive to good decision-making. Also arrange for private sessions that allow the Committee to meet with the external auditors separately from management and vice-versa.
- Monitor that the meetings' minutes properly reflect the discussions, recommendations and disagreements, if any, and that they are circulated in a timely fashion to the other members of the Committee and to the Board subsequently. The Chair is responsible for reporting to the Board the findings of the Committee.
- Maintain a close liaison with the Chair of the Board and cooperate with the Chair on any issue facing the Committee or any special request the Chair might have.
- Maintain a direct and personal line of communication with the external auditors in a manner to facilitate their full independence from management. The Committee will cooperate with the external auditors to find the best process to address any concern that they may have regarding the affairs of the Company.
- Promote the annual review of the Committee's performance including the review of the Chair's performance on a planned basis and encourage ways and means to facilitate that the scope of the mandate consistently reflects the requirements of the various regulators, as well as accounting and auditing profession standards.
- Review disclosure regarding the Audit Committee's work and duties in the information circular for accuracy.

PARTICULARS OF OTHER MATTERS TO BE ACTED UPON

Approval and Ratification of Stock Option Plan

The Board of Directors of the Company implemented a Stock Option Plan (the “**Plan**”) effective May 10, 2011, which was approved by the Exchange and the shareholders of the Company. The number of common shares which may be issued pursuant to options previously granted and those granted under the Plan is a maximum of 10% of the issued and outstanding common shares at the time of the grant. In addition, the number of shares which may be reserved for issuance to any one individual may not exceed 5% of the issued shares on a yearly basis or 2% if the optionee is engaged in investor relations activities or is a consultant. Under Exchange policy, all such rolling Stock Option Plans which set the number of common shares issuable under the plan at a maximum of 10% of the issued and outstanding common shares must be approved and ratified by shareholders on an annual basis.

The purpose of the Plan is to allow the Company to grant options to Directors, officers, employees and consultants, as additional compensation, and as an opportunity to participate in the success of the Company. The granting of such options is intended to align the interests of such persons with that of the shareholders. Options will be exercisable over periods of up to five years as determined by the Board of Directors of the Company and are required to have an exercise price no less than the closing market price of the Company’s shares prevailing on the day that the option is granted less a discount of up to 25%, the amount of the discount varying with market price in accordance with the policies of the Exchange. Pursuant to the Plan, the Board of Directors may from time to time authorize the issue of options to Directors, officers, employees and consultants of the Company and its subsidiaries or employees of companies providing management or consulting services to the Company or its subsidiaries. The Plan contains no vesting requirements, but permits the Board of Directors to specify a vesting schedule in its discretion. The Plan provides that if a change of control, as defined therein, occurs, all shares issuable subject to options shall immediately become vested and may thereupon be exercised in whole or in part by the option holder.

Therefore, at the Meeting, shareholders will be asked to pass a resolution in the following form:

“UPON MOTION IT WAS RESOLVED that the Company approve and ratify, subject to regulatory approval, the Stock Option Plan, pursuant to which the Directors may, from time to time, authorize the issuance of options to Directors, officers, employees and consultants of the Company and its subsidiaries to a maximum of 10% of the issued and outstanding common shares at the time of the grant, with a maximum of 5% of the Company’s issued and outstanding shares being reserved to any one person on a yearly basis.”

The full text of the Stock Option Plan is available for viewing up to the date of the Meeting at 10th Floor, 595 Howe Street, Vancouver, British Columbia, V6C 2T5, and will also be available for viewing at the Meeting.

Unless such authority is withheld, the persons named in the enclosed Proxy intend to vote for the approval of the Stock Option Plan.
