## 1. Reporting entity and going concern

KDA Group Inc. (“KDA” or the “Corporation”) is incorporated under the Business Corporations Act (Québec). The Corporation is a publicly traded company listed on the TSX Venture Exchange (“TSXV”) under the symbol “KDA”. The Corporation’s head office is 300-1351 Notre-Dame East, Thetford Mines, Québec, G6G 0G5.

The Condensed Consolidated Interim financial statements of the Corporation for the three months ended October 31, 2022, include the Corporation and its subsidiaries. The Corporation provides a range of solutions and services to pharmacies and pharmaceutical companies in Canada as well as technological platform for the health industry.

These Condensed Consolidated Interim financial statements have been prepared based on accounting principles applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of operations as they become due. In assessing whether the going concern assumption is appropriate, management considers all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period.

For the three months ended October 31, 2022, the Corporation reported a net loss and comprehensive loss of \$243,779 (\$1,989,691 in 2021), a negative working capital of \$15,324,585 (\$14,559,285 as of July 31, 2022) and an accumulated deficit attributable to shareholders of \$33,217,290 at that date (\$32,974,139 as of July 31, 2022).

The Corporation’s recent operating results lend significant doubt as to the ability of the Corporation to meet its obligations as they come due, more specifically toward the promissory notes and preferred shares totaling \$14,764,014 held by a shareholder and maturing on December 31, 2022, and accordingly the appropriateness of the use of the accounting principles applicable to a going concern.

Management is implementing several initiatives to improve its financial structure, drive increased revenues and improve operating profitability. The ability of KDA to ultimately achieve its business plan in the longer term is dependent on some factors outside KDA management’s control. These undertakings, while significant, may not be sufficient in and of themselves to enable the Corporation to fund all aspects of its operations and, accordingly, management may need to pursue other financing alternatives to fund the Corporation’s operations, so it can continue as a going concern.

These consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and financial position classifications that would be necessary if the Corporation were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

## **2. Basis of preparation**

### **a) Statement of compliance:**

These Condensed Consolidated Interim financial statements of the Corporation have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by International Accounting Standard Board (“IASB”) and with IAS 34 Interim Financial Reporting. These Condensed Consolidated Interim financial statements do not include all the information required for full annual financial statements and should be read in conjunction with the most recent audited annual consolidated financial statements and the notes thereto for the year ended July 31, 2022.

These condensed consolidated interim financial statements were approved and authorized for issue by the Board of Directors on December 14, 2022.

### **b) Basis of measurement:**

These Condensed Consolidated Interim financial statements have been prepared on the historical cost basis except for the following material item in the Condensed Consolidated Interim statements of financial position:

- Derivative instruments are measured at fair value.
- Miscellaneous equity investments are measured at fair value.

The Condensed Consolidated Interim financial statements have been prepared on a going concern basis, meaning the Corporation would be able to realize its assets and discharge its liabilities in the normal course of action.

### **c) Functional and presentation currency**

The Condensed Consolidated Interim financial statements are presented in Canadian dollars, which is the Corporation’s functional currency.

### **d) Use of estimates and judgements**

In preparing these condensed interim financial statements, management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Corporation’s accounting policies and the key sources of estimation uncertainty were the same as those described in the July 31, 2021, audited annual financial statements.

### 3. Long-term debt (continued)

- (1) On July 31, 2021, the Corporation entered into an agreement with the holders of the promissory notes and preferred shares. In accordance with this agreement, the bearing interest is 9% starting July 31, 2021 (previously 18% annually). A crediting factor is applicable on repayment. These notes are no longer convertible into Class A Shares of the Corporation.

A crediting factor is applicable on repayment which constitutes an embedded derivative requiring bifurcation. The fair value of the prepayment option bifurcated from the Promissory note was a derivative asset with a nominal value of \$0 as of October 31 and July 31, 2022 and is presented net of the current portion of the long-term debt.

The change in the carrying value of the Promissory Notes was as follows:

	\$
Balance on July 31, 2022	6,550,599
Change in fair value	-
Accreted interest	15,963
Accrued interest	139,580
<b>Balance on October 31, 2022</b>	<b>6,706,143</b>

- (2) The debentures are convertible into Class A shares of the corporation anytime by the holder at a conversion price equal to \$0.15 per share.
- (3) If the loan is not repaid in full by December 31, 2023, the entire loan can be converted in a term loan, bearing interest at the rate of 5%, payable monthly, without payment of capital before maturity, and maturing on December 31, 2025.
- (4) As of October 31, 2022, the Corporation complies with both of its financial covenant under the Loan from a private lending institution

### 4. Preferred shares

On June 30, 2021, the Corporation entered into an agreement with the holders of the series A Preferred Shares. Under this agreement, series A were cancelled, and series B-1 and B-2 were created. The interest payable was added to the principal of the Preferred Shares and a portion was added to the Promissory Notes (note 12). They bear a 9% interest on an annual basis and the maturity date is December 31, 2022.

	<i>Series B <sup>(1)</sup></i>
Balance on July 31, 2022	7,873,881
<b>Accrued interest</b>	183,990
<b>Balance on October 31, 2022</b>	<b>8,057,871</b>

<sup>(1)</sup> The Corporation has authorized an unlimited number of Series B preferred shares. However, no issuance of new or existing Preferred Shares can be made without the consent of two thirds of the then outstanding Series B Preferred Shares.

A crediting factor will be applied to repayment of the Promissory Notes and repurchase of Preferred shares as follows:

From August 1 to December 31, 2021 (expired)	2.50x
From January 1 to June 30, 2022 (expired)	1.50x
From July 1 to December 31, 2022	1.25x

Notwithstanding the crediting factor, the minimum payment by the Corporation to repay the Promissory Notes and repurchase the Preferred Shares is \$8 million. The carrying value of the Promissory Notes and repurchase of the Preferred Shares includes assumptions regarding the estimated timing of payments. As a result of changes in the assumptions regarding the timing of the payments, losses of \$2,457,975 were recorded in the year ended July 31, 2022. No losses were recorded for the three-month period ended October 31, 2022, as no changes in assumptions were made since July 31, 2022.

### 4. Preferred shares (continued)

The nominal value of the Preferred Shares amount is \$7,506,633 as of October 31 and July 31, 2022. There is no conversion option. The crediting factor is applicable on repayment which constitutes an embedded derivative requiring bifurcation (refer to Note 15). The fair value of the prepayment option bifurcated from the Serie B Preferred Shares was a derivative asset with a nominal value of \$3,089,797 as of October 31 and July 31, 2022 and is presented net of the current portion of the Preferred Shares. The value has been recorded using the best estimate of the payment applying the crediting factor. The amounts were discounted at 9%, the interest rate of the Promissory Notes and Preferred shares. Previously, in accordance with IAS 32, Financial Instruments: Presentation ("IAS 32"), the Corporation had determined that the conversion option together with the redemption option feature (collectively the "Conversion Options") constituted an embedded derivative financial instrument.

### 5. Share capital and other components of equity

#### SHARE CAPITAL

No common shares were issued during the three-month period ended October 31, 2022.

#### WARRANTS
