PERIMETER MEDICAL IMAGING AI, INC.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

For the three and nine months ended September 30, 2025 and 2024

(Dollar amounts in US Dollars)

1. Reporting entity

Perimeter Medical Imaging AI, Inc. (the "Company" or "Perimeter") is a medical technology company driven to transform cancer surgery with ultra-high resolution, real-time, advanced imaging tools that address unmet medical needs. Perimeter is listed as a Tier 1 issuer on the TSX Venture Exchange ("TSXV") under the symbol PINK. The Company's registered office is located at 1600 - 925 West Georgia Street, Vancouver, British Columbia V6C 3L2. The Company's head office is located at 555 Richmond Street West, Suite 511, Toronto, Ontario M5V 3B1.

The Company was formed in British Columbia on June 29, 2020, pursuant to an amalgamation agreement between a non-reporting issuer New World Resource Corp. ("New World") and Perimeter Medical Imaging Inc., when the Company completed a reverse takeover ("RTO") transaction on June 29, 2020.

The Company has one wholly owned subsidiary, Perimeter Medical Imaging Corp., a Delaware corporation.

2. Basis of presentation

These unaudited condensed consolidated interim financial statements for the three and nine months ended September 30, 2025, and 2024 (the "interim financial statements") have been prepared in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB").

These interim financial statements do not include all the disclosures required by IFRS Accounting Standards for annual consolidated financial statements and accordingly should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2024, prepared in accordance with IFRS Accounting Standards. The accounting policies used are consistent with those used in the audited financial statements. There were no new accounting standards adopted for the nine months ended September 30, 2025.

On April 9, 2024, the IASB issued IFRS 18 *Presentation and Disclosure in Financial Statements* to improve reporting of financial performance. IFRS 18 replaces IAS 1 *Presentation of Financial Statements*. It carries forward many requirements from IAS 1. IFRS 18 applies to annual reporting periods beginning on or after January 1, 2027. Earlier application is permitted. The key new concepts introduced in IFRS 18 relate to: the structure of the statement of profit or loss; required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements; and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes. The Company is currently assessing the impact and efforts related to adopting IFRS 18.

On May 30, 2024, the IASB issued amendments to IFRS 9 and IFRS 7 *Classification and Measurement of Financial Instruments*. These amendments clarify the date of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system; add new disclosures for certain instruments with contractual terms that can change cash flows (such as some instruments with features linked to the achievement of environment, social and governance (ESG) targets); and update the disclosures for equity instruments designated at fair value through other comprehensive income (FVOCI). These amendments apply to

annual reporting periods beginning on or after January 1, 2026. Earlier application is permitted. The Company is currently assessing the impact and efforts related to the amendments to IFRS 9 and IFRS 7.

The accompanying interim financial statements include the Company and its subsidiary on a consolidated basis. All intercompany transactions and balances are eliminated on consolidation.

The accompanying interim financial statements were reviewed, approved and authorized for issue by the Company's Board of Directors on November 12, 2025.

3. Going concern

These interim financial statements have been prepared in accordance with the basis of presentation outlined in Note 2 on the assumption that the Company is a going concern and will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business.

For the nine months ended September 30, 2025, the Company reported a net loss of \$10,931,971 (September 30, 2024 – \$9,972,024) and cash used in operating activities of \$7,841,051 (September 30, 2024 - \$11,578,486). Additional financing will be required before the Company expects to generate positive cash flow.

The Company's ability to continue as a going concern is dependent on its ability to realize positive cash flows from operations. The ability to generate positive cash flows from operations is dependent on obtaining financing in order to continue its product development, including developing patents and commercializing advanced in-procedural medical imaging tools.

The Company intends to continue to pursue opportunities to raise additional capital in the form of equity and/or debt to fund its product development, clinical research, and commercialization activities. There is no assurance of the success or sufficiency of any of these initiatives. Failure to raise such financing or obtain it on favourable terms would result in the delay or indefinite postponement of business objectives.

The above conditions indicate the existence of a material uncertainty that may cast significant doubt as to the Company's ability to continue as a going concern. The interim financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. If the going concern basis was not appropriate for these interim financial statements, then adjustments would be necessary to the carrying value of assets and liabilities, the reported expenses, and the interim statement of financial position classification used. Such adjustments could be material.

4. Functional and presentation currency

The Company has a functional currency of Canadian dollars, and the functional currency of its subsidiary is US dollars. Functional currencies are determined based on facts and circumstances relevant for each of the entities. The Company's presentation currency of US dollars differs from its functional currency, and as such the assets and liabilities of the Company are translated from the functional currency into the presentation currency at the exchange rates as at the reporting date. The income and expenses of the Company are translated at rates approximating the exchange rates at the dates of the transactions. Exchange differences arising from the translation of the financial

statements of the Company are recognized in other comprehensive loss.

Transactions in currencies other than the functional currency of the Company or its subsidiary are recorded at exchange rates prevailing on the dates of the transactions. At the end of each reporting period, monetary assets and liabilities of the Company that are denominated in foreign currencies are translated at the rate of exchange at the statement of financial position date. Revenue and expenses are translated at the exchange rates approximating those in effect on the date of the transactions. Foreign exchange gains and losses arising on translation into the Company's functional currency are recognized as foreign exchange gain (loss) in the Condensed Consolidated Interim Statements of Loss and Comprehensive Loss.

5. Critical accounting estimates and judgements

The interim financial statements for the three and nine months ended September 30, 2025, have been prepared using the same policies as the annual consolidated financial statements of the Company. Refer to note 4 of the Company's annual audited consolidated financial statements for the year ended December 31, 2024, for more information on accounting estimates and judgements applied.

6. DEFERRED REVENUE

Deferred revenue represents billings to customers in excess of revenue recognized and arise on the sale of consumable inventory, placement of equipment, preventative maintenance services, and warranty contracts. The components of deferred revenue were as follows:

Cancer Prevention and Research Institute of Texas ("CPRIT")

On February 22, 2020, the Company entered into a product development grant agreement with the Cancer Prevention and Research Institute of Texas ("CPRIT"). Pursuant to the terms of the agreement, CPRIT will grant the Company up to \$7,446,844 to fund activities related to its artificial intelligence software (B-Series). The agreement expired on August 31, 2025. For twelve years following the first commercial sale of commercial products (i.e., anything that is based on, utilizes or is developed from, or materially incorporates, the results of the grant-funded project and that is capable of being sold, licensed, transferred or conveyed to another party or is capable of otherwise being exploited or disposed of, whether in exchange for consideration or not), the Company is required to pay CPRIT a royalty of 2.5 percent of revenue until such time that 250.0 percent of grant proceeds have been repaid and 0.5 percent thereafter for the remaining twelve-year term.

For the three and nine months ended September 30, 2025, the Company recognized grant income of \$nil (September 30, 2024: \$544,697) and \$nil (September 30, 2024: \$1,629,654), respectively, as a reduction of project-related costs.

Additionally, for the three and nine months ended September 30, 2025, the Company recognized grant income of \$nil (September 30, 2024: \$12,259) and \$nil (September 30, 2024: \$36,777), respectively, related to depreciation of OCT equipment used in the project.

10. FINANCIAL INSTRUMENTS**A. Accounting classification and fair values**

The following tables show the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

The tables do not include fair value information for financial assets and financial liabilities measured at amortized cost where the carrying amount is a reasonable approximation of fair value.

B. Measurement of fair values

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 – Inputs to the valuation methodology are quoted prices unadjusted for identical assets or liabilities in active markets.

Level 2 – Inputs to valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The warrant liability is comprised of warrants designated as derivatives (see Note 11). The warrant liability is classified as FVTPL and valued using Level 2 fair value hierarchy in the unaudited condensed consolidated interim statement of financial position. The valuation technique used to measure the fair value of the warrant liability at September 30, 2025 was the Black-Scholes option pricing model using a weighted average risk-free rate of the bond-equivalent yield of 2.47 percent (September 30, 2024: 2.84 percent), an expected life of the time to maturity of 1.33 years

(September 30, 2024: 2.30 years), and an expected volatility of 85 percent (September 30, 2024: 100 percent).

The valuation technique used to measure the fair value of the warrant liability at December 31, 2024, was the Black-Scholes option pricing model using a weighted average risk-free rate of the bond-equivalent yield of 2.93 percent, an expected life of the time to maturity of 2.07 years, and an expected volatility of 80 percent.

The Company did not have any Level 3 financial instruments or significant unobservable inputs used for the reporting periods.

There were no transfers between levels for the periods reported.

11. SHARE CAPITAL

A. Authorized

Unlimited common shares without par value.

B. Share capital

All common shares rank equally with regard to the Company's residual assets. Holders of these shares are entitled to one vote per share at general meetings of the Company.

There were no share purchase options exercised in the nine months ended September 30, 2025. During the nine months ended September 30, 2024, the Company issued 5,210 common shares on the exercise of share purchase options with a weighted-average exercise price of \$0.04 (CAD\$0.05) per share for proceeds of \$18 (CAD\$25). In relation to the exercises, the fair value of the options of \$4,571 (CAD\$6,252) was reallocated from contributed surplus to share capital.

On May 29, 2025, Perimeter entered into an Agency Agreement to offer Units and pre-funded units of the Company. The offering consisted of units of the Company ("**Units**") The Offering was conducted on a reasonable "best efforts" agency basis for the issuance of a minimum of 8,333,334 Securities at a price of \$0.30 per Unit for gross proceeds of at least \$2,500,000 with expected participation from healthcare focused U.S. institutional investors as well as participation from one or more control persons of the Company. Each Unit will consist of one common share (each, a "**Common Share**") and one common share purchase warrant (each, a "**Warrant**") Each Warrant will entitle the holder thereof to purchase one Common Share (each, a "**Warrant Share**") at an exercise price of \$0.35 per Warrant Share at any time until 5:00 p.m. (Toronto time) on the date that is 60 months following the Closing Date), subject to adjustment in certain events.

On June 3, 2025, an aggregate of 10,432,801 Units were issued at a price of \$0.30 CAD (\$0.22 USD) per unit for gross proceeds of \$3,129,840 CAD (\$2,263,475 USD). Each Unit is comprised of one common share in the capital of the Company and one common share purchase warrant. Each warrant entitles the holder to acquire an additional common share for a period of 60 months, at an exercise price of \$0.35 CAD (\$0.26 USD).

On July 29, 2025, the Company executed a second and final close of the Offering dated May 29, 2025, consisting of 7,416,668 Units at a price of \$0.30 CAD (\$0.22 USD) per Unit, for gross proceeds of \$2,225,000 CAD (\$1,625,384 USD). Each Unit is comprised of one Common Share and one

(Dollar amounts in US Dollars)

Common Share purchase warrant at an exercise price of \$0.35 CAD (\$0.26 USD) for a period of 60 months.

Pursuant to the terms of the Agency Agreement, the agency was entitled to receive a cash fee equal to 7.0 percent of the gross proceeds raised under the Offering, and compensation options equal to 5.0 percent of the aggregate number of Units issued under the Offering (the "Compensation Options"), with a reduced cash commission of 3.5 percent and Compensation Options equal to 2.5 percent payable in respect of Units sold to certain purchasers on a president's list. In addition, the Agent did not receive cash commission or Compensation Options with respect to sales to certain insiders of the Company. Each Compensation Option entitles the Agent to buy one Common Share at the same price as the price per Unit under the Offering. The Compensation Options are exercisable until that date which is 36 months following the closing date. The Agent was issued 465,879 broker warrants and \$507,388 was paid in related transaction fees and commission.

Referencing IAS 32 *Financial Instruments*, the Company applied the "fixed for fixed" principle in that the warrant contract that obligates Perimeter to deliver a fixed number of an equity instrument (shares) in exchange for a fixed amount of cash (1 share at \$0.35 CAD) and therefore classified the warrants as equity.

On January 27, 2022, the Company executed a private placement of units (each, a "Unit") for gross proceeds of \$38,314,649 (CAD\$48,702,999), 29,326,222 (CAD \$37,277,517) after issuing costs and allocation of transaction price to warrants on a non-brokered basis at a price of \$2.36 (CAD\$3.00) per Unit for a total of 16,234,333 Units. Each Unit consisted of one common share (each, a "Common Share") and a total of one warrant to purchase an additional Common Share (a "Warrant Share"). Of the Warrants issued in the Private Placement, 80.0 percent have a strike price of \$3.14 (CAD\$3.99) and 20.0 percent have a strike price of \$3.54 (CAD\$4.50).

Half of the Warrants at each strike price are subject to accelerated expiry if the 60-day volume weighted average trading price of Perimeter's Common Shares is greater than the strike price during the applicable period. Due to the Company's option to accelerate the expiry of these Warrants, and that there will be a fixed number of common shares issued for a fixed amount, the relative standalone fair value of these Warrants is included in the common share equity portion of the transaction price.

The other half of the Warrants are not subject to accelerated expiry, and instead they may be exercised at the option of the holder for cash or exercised the warrants using a cashless exercise feature at any time prior to expiry. Due to the holder's option to exercise on a cashless basis, the number of common shares to be issued upon exercise is not fixed. As such, at January 27, 2022, the relative standalone fair value proportion of the transaction price of these Warrants was \$8,268,490 (CAD\$11,199,362) and allocated to warrant liability and classified as FVTPL. For the nine months ended September 30, 2025, and September 30, 2024, the warrant liability for these warrants is \$2,194 and \$438,509 (December 31, 2024: \$53,182), respectively. The change in revaluation is recorded in Net finance income (expense) and the exchange difference on the revaluation of the warrant liability is recorded in other comprehensive (loss) income.
