Notes to The Condensed Interim Consolidated Financial Statements

For the periods ended September 30, 2023 and 2022

*(in thousands of Canadian dollars, except percentages, shares and per share amounts, unaudited)***1 General information and basis of preparation**

DATA Communications Management Corp. ("DCM" or the "Company") is a marketing and business communications partner that helps companies simplify the complex ways they communicate and operate, so they can accomplish more with fewer steps and less effort. For over 60 years, DCM has been serving major brands in vertical markets including financial services, retail, healthcare, energy, other regulated industries, and the public sector. On April 24, 2023, DCM completed the acquisition of Moore Canada Corporation (see note 4 for further details).

DCM's revenue is subject to mailing patterns of certain customers. Typically, higher revenues and profit are generated in the first quarter relative to the other three quarters, however this can vary from time to time by changes in customers' purchasing decisions throughout the year. As a result, DCM's revenue and financial performance for any single quarter may not be indicative of revenue and financial performance which may be expected for the full year.

These financial statements have been prepared using International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS") applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they become due.

The Company's ability to continue as a going concern is dependent upon management's ability to meet forecast revenue and profitability targets for at least the next twelve months in order to comply with its financial covenants on its credit facilities or to obtain financial covenant waivers from its lenders if necessary.

The estimate of future cash flows in the Company's forecasts for the period to December 31, 2024 took into consideration the expected impact on future results of the April 2023 acquisition of Moore Canada Corporation ("MCC"), the Canadian operations of R.R. Donnelley & Sons and amended debt facilities used to finance the acquisition (notes 4 and 9), the increased demand experienced in 2022 that has continued into 2023 and the uncertainty of the continued impact of inflationary pressures resulting from global supply chain challenges, rising interest rates and the prospect of an economic recession on the ongoing demand for the Company's services.

While estimated forecast compliance with financial covenants is sensitive to key assumptions used for forecast revenues, gross margins and expenses (which in turn impact earnings before interest, income taxes, depreciation and amortization (EBITDA)), management are satisfied that the Company's forecasts and projections, taking account of reasonably possible changes in results and other uncertainties will not result in any breach of the financial covenants on its credit facilities. For this reason, management continues to believe that there is no material uncertainty regarding the ability of the Company to continue as a going concern.

The common shares of DCM are listed on the Toronto Stock Exchange ("TSX") under the symbol "DCM" and trade on OTCQX under the symbol "DCMDF". The address of the registered office of DCM is 9195 Torbram Road, Brampton, Ontario. These condensed interim consolidated financial statements were approved by the Board of Directors ("Board") of DCM, on November 8, 2023.

2 Significant accounting policies

DCM prepares its condensed interim consolidated financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS"). These condensed interim consolidated financial statements have been prepared in accordance with IFRS applicable to the preparation of interim financial reports, including International Accounting Standard ("IAS") 34 "Interim Financial Reporting". The accounting policies followed in these condensed interim consolidated financial statements are the same as those applied in DCM's consolidated financial statements for the year ended December 31, 2022, except for certain new accounting pronouncements which have been adopted by DCM on January 1, 2023 and disclosed in note 3 and for

Notes to The Condensed Interim Consolidated Financial Statements

For the periods ended September 30, 2023 and 2022

(in thousands of Canadian dollars, except percentages, shares and per share amounts, unaudited)

the application of IFRS 5 to certain assets being held for sale. Where applicable, DCM has consistently applied the same accounting policies throughout all periods presented, as if these policies had always been in effect.

ASSETS HELD FOR SALE

As at September 30, 2023, DCM has assets that meet the held for sale criteria as disclosed in note 13. Pursuant to IFRS 5, non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such an asset, the appropriate level of management must be committed to a plan to sell the asset and an active program to locate a buyer and complete the plan must have been initiated. Further, the asset must be actively marketed for sale at a price that is reasonable in relation to its current fair value and the sale is highly probable to complete within one year from the date of classification, except as permitted under certain events and circumstances. If the aforesaid criteria are no longer met, DCM ceases to classify the asset as held for sale.

Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell and are presented separately in the Statement of Financial Position. DCM does not depreciate or amortize a non-current asset while it is classified as held for sale. Immediately before the initial classification of the assets as held for sale, the carrying amounts of the asset are measured in accordance with applicable IFRS. Non-current assets are not classified as held for sale within the comparative period presented for the Statement of Financial Position.

The accounting policies applied in these condensed interim consolidated financial statements are based on IFRS effective for the year ending December 31, 2023, as issued and outstanding as of November 8, 2023, the date the Board of Directors ("Board") approved these condensed interim consolidated financial statements.

The condensed interim consolidated financial statements should be read in conjunction with DCM's consolidated annual financial statements for the year ended December 31, 2022 which have been prepared in accordance with IFRS.

3 Change in accounting policies, significant accounting estimates, assumptions and judgements*a) New and amended standards adopted***IFRS 7 NET FAIR VALUE (GAINS) LOSSES ON FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS**

In accordance with IAS 8 to provide more reliable and relevant information about the effects of transactions, other events or conditions on the entity's financial position, financial performance or cash flows, DCM applied IFRS 7 paragraph 20 to disclose net gains or net losses on financial assets or financial liabilities measured at fair value through profit or loss separately on the condensed interim consolidated statement of operations.

The following table summarizes the impact on DCM's condensed interim consolidated statement of operations for the three months ended September 30, 2022:

AMENDMENTS TO IAS 1, PRESENTATION OF FINANCIAL STATEMENTS AND IAS 8, ACCOUNTING POLICIES, CHANGES IN ACCOUNTING ESTIMATES AND ERRORS

These standards were amended to introduce the definition of an accounting estimate and include other amendments to IAS 8 to help entities distinguish changes in accounting estimates from changes in accounting policies. The amendments were adopted effective January 1, 2023 and did not have an impact on the condensed interim consolidated financial statements.

AMENDMENTS TO IAS 12, DEFERRED TAXES RELATED TO ASSETS AND LIABILITIES ARISING FROM A SINGLE TRANSACTION

This standard was amended to require companies to recognize deferred tax on particular transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. The amendments were adopted effective January 1, 2023 and did not have an impact on the condensed interim consolidated financial statements.

b) Future accounting standards not yet adopted

IAS 1 PRESENTATION OF FINANCIAL STATEMENTS: CLASSIFICATION OF LIABILITIES AS CURRENT OR NON-CURRENT

In January 2020, the IASB issued Classification of Liabilities as Current or Non-current (Amendments to IAS 1). The amendments aim to promote consistency in applying the requirements by helping companies determine whether debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current. The amendments include clarifying the classification requirements for debt a company might settle by converting it into equity. On October 31, 2022, the IASB published an amendment to clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. The amendments are effective for reporting periods beginning on or after January 1, 2024. DCM is currently evaluating the impact on the condensed interim consolidated financial statements.

There are no other IFRS or International Financial Reporting Interpretations Committee ('IFRIC') interpretations that are not yet effective that would be expected to have a significant impact on DCM.

Notes to The Condensed Interim Consolidated Financial Statements

For the periods ended September 30, 2023 and 2022

*(in thousands of Canadian dollars, except percentages, shares and per share amounts, unaudited)***4 Business Acquisition****ACQUISITION OF MOORE CANADA CORPORATION (MCC)**

On April 24, 2023 (the "Closing Date"), DCM acquired 100% of the share capital of MCC for a total cash purchase price of \$130,835, subject to post-closing working capital adjustments. During the nine months ended September 30, 2023, the post-closing working capital adjustments to the purchase price were \$4,922 for a total cash purchase price of \$135,757. With the completion of the acquisition, MCC is a wholly-owned subsidiary of DCM. The acquisition of MCC provides a strategic opportunity to accelerate DCM's growth agenda. Bringing together two similar sized businesses, DCM will have a significantly larger presence in the Canadian market, an enhanced portfolio of products and services, and an expanded customer base across a broad range of industry verticals. The acquisition was funded through a revolving, floating rate credit facility from a Canadian chartered bank, which includes up to \$90,000 of revolving credit capacity; a \$30,000 floating rate bridge facility from the bank; and a new \$50,000 fixed rate credit facility from Fiera Private Debt (see note 9 for further information).

The acquisition is being accounting for as a business combination using the acquisition method and the consideration paid and the preliminary allocation of the consideration to the fair values of the assets acquired and liabilities assumed in the acquisition as of the Closing Date were as follows:

Recognized amounts of identifiable assets acquired and liabilities assumed	Total as at June 30, 2023	Adjustments	Total as at September 30, 2023
Cash and cash equivalents	\$ 4,804	\$ —	\$ 4,804
Trade receivables	57,134	1,106	58,240
Inventories	22,981	—	22,981
Prepaid expenses and other assets	1,542	—	1,542
Other non-current assets	704	—	704
Deferred income tax assets	2,443	(2,443)	—
Property, plant and equipment	49,442	23,403	72,845
Right-of-use assets	35,138	10,347	45,485
Intangible assets	12,700	—	12,700
Income taxes receivable	316	1,075	1,391
Trade payables and accrued liabilities	(26,276)	(3,419)	(29,695)
Deferred revenue	(1,688)	—	(1,688)
Lease liabilities	(33,925)	3,891	(30,034)
Provisions	(680)	—	(680)
Deferred income tax liabilities	—	(6,868)	(6,868)
Pension obligations	(13,695)	—	(13,695)
Other post-employment benefits plans	(848)	—	(848)
Asset retirement obligation	(1,213)	(238)	(1,451)
Total identifiable net assets	108,879	26,854	135,733
Goodwill	26,878	(26,854)	24
Total	\$ 135,757	\$ —	\$ 135,757

The initial accounting for the business combination is incomplete as the valuation of the acquired property, plant and equipment, right of use assets and intangible assets is not yet finalized. As such there may be further adjustments to the purchase accounting and those adjustments could be material.

Notes to The Condensed Interim Consolidated Financial Statements

For the periods ended September 30, 2023 and 2022

(in thousands of Canadian dollars, except percentages, shares and per share amounts, unaudited)

For the quarter ended on September 30, 2023, the adjustments to the purchase price allocation primarily related to updates to property, plant and equipment and lease valuations. Notably, these included a favorable lease term adjustment of \$14,000 recorded in the right-of-use assets and an equipment fair market value adjustment of \$20,128 recorded in property, plant and equipment. As a result, the preliminary goodwill decreased to \$24. The goodwill is not tax deductible.

The fair value of trade receivables is \$58,240. The gross contractual amount of trade receivables due is \$57,905 of which \$771 was deemed uncollectible. The identifiable intangible assets acquired primarily relate to customer relationships and trademarks which will be amortized over an expected useful life of nine to ten years.

Acquisition and integration costs recognized in three and nine months ended September 30, 2023 were \$244 and \$10,199 (year ended December 31, 2022 – \$1,870). Of this \$10,199 of acquisition and integration costs incurred during the nine months ended September 30, 2023, \$5,543 relates specifically to acquisition costs.

The revenue and net loss contributed by MCC and included in the condensed interim consolidated statement of operations for the three months ended September 30, 2023 were \$63,150 and \$3,437 and for the nine months ended September 30, 2023 were \$113,455 and \$4,995 respectively. If the acquisition had occurred on January 1, 2023, the estimated revenue and net income contributed by MCC for the nine months ended September 30, 2023 would have been approximately \$203,879 and \$9,176 respectively, adjusting net income for additional depreciation and amortization that would have been charged assuming the fair value adjustments to property, plant and equipment and intangible assets had applied from January 1, 2023 together with the consequential tax effect.

5 Trade receivables

	September 30, 2023	December 31, 2022

During the three and nine months ended September 30, 2023, DCM modified certain leases by entering into renewal and/or amending agreements to extend lease terms and/or increase/reduce the lease payments. Specifically, during the three months ended September 30, 2023, DCM executed renewal agreements for its Brampton and Toronto facilities. The original lease term for the Brampton facility, initially set to expire on December 31, 2025, was extended by an additional 15 years. This extension includes 10 years of the initial lease term and an additional 5 years of an extension option, now expiring on December 31, 2040. Similarly, the original lease term for the Toronto facility, originally set to expire on December 18, 2026, was also extended by an additional 10 years, now expiring on December 18, 2036.

On June 8, 2023, DCM entered into a sale and leaseback of its Oshawa, Ontario warehouse facility, which was acquired as part of the Company's acquisition of MCC (note 4). Gross proceeds realized on the sale were \$24.1 million, and, after deducting closing commissions, rent deposit, and other expenses, net proceeds of \$23.1 million have been applied towards the \$30 million balance outstanding on the Company's Real Estate Bridge Loan with a Canadian chartered bank. The Real Estate Bridge Loan had been entered into in connection with financing of the MCC acquisition (note 9). DCM also recorded a capital improvement allowance of \$1.5 million for certain identified building maintenance and repairs as a leasehold incentive receivable held in escrow (which included in other non-current assets on the consolidated statement of financial position). No gain or loss was recognized on the sale and leaseback transaction. The related closing costs and other expenses associated with the sale of the Oshawa facility of \$559 were reflected in the condensed interim consolidated statement of operations for the three months ended June 30, 2023.

As of September 30, 2023, the carrying amount of the ROU assets includes an amount of \$3,155 for asset retirement obligations associated with certain lease arrangements.

TERMINATION PROVISIONS

During the three and nine months ended September 30, 2023, DCM commenced its planned initiatives to drive synergies in connection with the acquisition of MCC, including initiatives to align its organizational structure and optimize its operational footprint (note 4). Notably, during the three months ended September 30, 2023, DCM announced its decision to close in the fourth quarter the Edmonton, Alberta manufacturing facility and transfer production to Calgary, Alberta manufacturing facility.

During the three and nine months ended September 30, 2023, these initiatives resulted in \$7,009 and \$9,738 respectively of restructuring expenses due to headcount reduction across DCM's operations including senior executive management. During the nine months ended September 30, 2023, cash payments of \$2,580 (2022 - \$2,388) were made to former employees for severances and other restructuring costs. During the nine months ended September 30, 2022, an additional payment of \$550 was made to a landlord for closure of a manufacturing location in Edmonton, Alberta. The remaining severance and restructuring accruals are expected to be paid in 2023 and 2024.

8 Lease liabilities

DCM currently leases manufacturing, warehouse and office space, office equipment and production equipment. A lease liability has been recognized equal to the present value of remaining lease payments discounted at the interest rate implicit in the lease, or if that rate cannot be readily determined, DCM's weighted average incremental borrowing rate.

Notes to The Condensed Interim Consolidated Financial Statements

Current			\$ 8,195
Non-current			\$ 144,332

All extension options that are reasonably certain to be exercised have been included in the measurement of the lease obligation. The Company reassesses the likelihood of extension option to be exercised when there was a significant event or change in circumstances. During the nine months ended September 30, 2023, extension options that are not reflected in the measurement of the lease liability total \$9,350 (December 31, 2022 - \$650).

CREDIT AGREEMENTS**BANK FACILITIES**

DCM has established a revolving credit facility (the "New Bank Credit Facility") pursuant to a third amended and restated credit agreement (the "Bank Credit Agreement") with a Canadian chartered bank (the "Bank") as part of the financing of the acquisition of MCC on April 24, 2023. Under the terms of the amended Bank Credit Agreement, the maximum principal amount available under the New Bank Credit Facility was increased from \$15,000 to \$90,000. The New Bank Credit Facility also includes an "accordion" feature which can provide up to an additional \$20,000 of capacity under the revolving facility. The New Bank Credit Facility matures on November 8, 2026. The New Bank Credit Facility is available to be drawn by way of either Prime Rate loans, Base Rate loans, Canadian Dollar Offered Rate ("CDOR") loans, Secured Overnight Financing Rate (SOFR loans), and/or Letters of Credit. Prime rate loans charge interest based on the prime rate plus a margin whereby the prime rate is the greater of the Bank's published reference rate on Canadian Dollar denominated commercial loans and the CDOR rate for a period of 30 days plus 100 basis points per annum. Under the Bank Credit Agreement, the Canadian Overnight Repo Rate Average (CORRA) plus 0.3% will replace the CDOR rate when the CDOR rate ceases at the end of June 2024. Currently, advances under the New Bank Credit Facility may not, at any time, exceed the lesser of \$90,000 and a fixed percentage of DCM's aggregate accounts receivable and inventory (less certain amounts). Advances under the New Bank Credit Facility are subject to floating interest rates based upon the Canadian prime rate plus an applicable margin of 1.25% for a rate of 8.45% as at September 30, 2023. The amendment to the revolving credit facility was accounted for as an extinguishment of the previous facility which was derecognized along with the remaining unamortized balance of prior transaction costs and unamortized debt premium and the new debt was then recorded at fair value along with associated transaction costs of \$1,088.

Notes to The Condensed Interim Consolidated Financial Statements

For the periods ended September 30, 2023 and 2022

(in thousands of Canadian dollars, except percentages, shares and per share amounts, unaudited)

As part of the refinancing of the MCC acquisition, DCM also established a \$30,000, one-year committed senior secured credit facility (the "Real Estate Bridge Loan") which is intended to be repaid from the proceeds of the sale and leaseback of the acquired real estate properties or at the first anniversary of the acquisition close. The Real Estate Bridge Loan is available by way of Prime Rate loans and CDOR loans. The Real Estate Bridge Loan matures on April 24, 2024 and is subject to a floating interest rate based upon the Canadian prime rate plus an applicable margin of 1.75% for a rate of 8.95%.

In June 2023, DCM entered into a sale and leaseback for its Oshawa facility for net proceeds of \$23,100 (note 8), which proceeds were used to partially repay the loan, the balance of which as of September 30, 2023 was \$6,939. DCM has entered into agreements of purchase and sale of its Fergus and Trenton, Ontario facilities, each of which is expected to be completed within the next three to six months. The expected net proceeds from the sale of each, being approximately \$6,500 and \$8,700, respectively, are intended to be applied firstly to pay off the balance of the Real Estate Bridge Loan, and the balance to be applied towards paying down the New Bank Credit Facility.

On November 8, 2021, DCM established a term loan ("Bank Term Loan") with the Bank for \$10,000 to partially refinance a partial facility with Crown Credit Partners. The Bank Term Loan was repaid as part of the acquisition (note 4) and was subject to a floating interest rate based upon the Canadian prime rate plus an applicable margin of 3.50%.

As at September 30, 2023, DCM had access to \$15,528 of available credit under the New Bank Credit Facility and had cash and cash equivalents of \$22,310 as shown on the condensed interim consolidated statement of financial position as at September 30, 2023.

FPD FACILITIES

DCM has two amortizing term loan facilities (the "FPD VI Credit Facilities") with Fiera Private Debt VI L.P. ("FPD VI"), which is a fund managed by Fiera Private Debt Fund GP Inc. ("FPD") pursuant to an amended and restated credit agreement dated as of April 24, 2023 (the "FPD Credit Agreement").

DCM established a new \$50,000 committed term loan with Fiera Private Debt VI L.P. ("FPD VI New Term Loan" and, together with the New Bank Credit Facility and the Bank Term Loan, the "Credit Facilities") at an interest rate of 8.08% to partially finance the acquisition of MCC (see note 4). 71.5% of the FPD New Term Loan must be repaid in fifty-nine (59) equal monthly payments of principal plus accrued interest on the outstanding principal amount and the remaining 28.5%, together with accrued interest, must be repaid on the maturity date on April 21, 2028. DCM elected to defer principal payments on this facility for the first twelve months following the closing of the MCC acquisition. The associated transaction costs of this new loan was \$714.

As part of the MCC acquisition, in April 2023, the maturity dates of pre-existing loans with FPD IV and FPD V, two other funds managed by Fiera Private Debt GP Inc. were extended to December 31, 2023 at an interest rate of 8.08%. As of September 30, 2023, the balances of these loans were fully repaid using the proceeds from the Offering (as defined in note 10).

COVENANT REQUIREMENTS

Each of the Bank Credit Agreement and the FPD Credit Agreement contains customary representations and warranties, certain financial covenant requirements, as well as certain restrictive covenants which limit the discretion of the Board and management with respect to certain business matters including the declaration or payment of dividends on the common shares of DCM without the consent of the Bank and FPD VI, as applicable. As of September 30, 2023, DCM was in compliance with all of its financial covenants.

The continued ability to comply with financial covenants under the Company's credit facilities for at least the next twelve months is contingent on management's ability to meet budgeted revenue, profitability and working capital targets. The estimate of future cash flows in the Company's 2023 budget (adjusted for the acquisition in note 4)

Notes to The Condensed Interim Consolidated Financial Statements

For the periods ended September 30, 2023 and 2022

(in thousands of Canadian dollars, except percentages, shares and per share amounts, unaudited)

include a number of key assumptions to support the financial covenant calculations, specifically related to forecast revenues and gross margins (which in turn impact earnings before interest, income taxes, depreciation and amortization (EBITDA)). Management are satisfied that the Company's forecasts and projections, taking account of reasonably possible changes in results and other uncertainties will not result in any breach of the financial covenants on its credit facilities within the next year.

A failure by DCM to comply with its obligations under the Bank Credit Agreement or the FPD Credit Agreement, together with certain other events, including a change of control of DCM and a change in DCM's Chief Executive Officer, President or Chief Financial Officer (unless a replacement officer acceptable to FPD, acting reasonably, is appointed within 60 days of the effective date of such officer's resignation), could result in an event of default which, if not cured or waived, could permit acceleration of the indebtedness outstanding under each of those agreements. DCM anticipates it will be in compliance with the covenants in its credit facilities for the next twelve months or that it shall be able to receive waivers from its lenders to the extent required; however there can be no assurance that DCM will be successful in achieving the results targeted in its operating plans or in complying with its covenants, or obtaining waivers from its lenders over the next twelve months.

INTER-CREDITOR AGREEMENT

DCM's obligations under the New Bank Credit Facility, the Real Estate Bridge Loan and the FPD VI Credit Facility are secured by conventional security charging all of the property and assets of DCM and its subsidiaries. DCM has entered into an inter-creditor agreement between the Bank and FPD VI which, among other things, establishes the rights and priorities of the respective liens of the Bank and FPD VI on the present and after-acquired property of DCM and its subsidiaries.

The movement in credit facilities during the nine months ended September 30, 2023 and for the year ended December 31, 2022 are as follows:

2028	22,024
	\$117,698

10 Shares and warrants**SHARES**

DCM is authorized to issue an unlimited number of common shares. The common shares have a stated capital of one dollar. Each common share is entitled to one vote at any meeting of shareholders. Each holder of the common shares will be entitled to receive dividends if, as and when declared by the Board. In the event of the liquidation, dissolution, winding up of DCM or other distribution of assets of DCM among its shareholders for the purpose of winding up its affairs, the holders of the common shares will be entitled to receive assets of DCM upon such a distribution. Such distribution will be made in equal amounts per share on all the common shares at the time outstanding without preference or distinction.

The following summarizes the change in number of issued and outstanding common shares during the periods below:

	Number of Common shares		Amount
Balance – December 31, 2022	44,062,831	\$	256,478
Exercise of warrants – April 3, 2023	138,157	\$	167

Shares issued – May 25, 2023	8,707,200	\$	24,480
Balance – September 30, 2023	55,022,883	\$	283,738

	Number of Common shares		Amount
Balance – January 1 and September 30, 2022	44,062,831	\$	256,478

During the nine months ended September 30, 2023, DCM completed a private placement (the "Offering") of common shares of the Company ("Common Shares"). Upon closing of the Offering, the Company issued 8,707,200 Common Shares at a price per share of \$3.00 for gross proceeds of \$26,121 (or \$24,221 after closing costs). A total of \$478 was recorded in equity as the deferred tax impact on the share issue costs. In connection with the Offering, the Company issued Agent broker warrants (see further discussion below).

Notes to The Condensed Interim Consolidated Financial Statements

For the periods ended September 30, 2023 and 2022

*(in thousands of Canadian dollars, except percentages, shares and per share amounts, unaudited)***WARRANTS**

A summary of warrant activities for the nine months ended September 30, 2023, and the year ended December 31, 2022 is as follows:

	Nine months ended September 30, 2023		Year ended December 31, 2022	
	Number of Warrants	Weighted average Exercise Price	Number of Warrants	Weighted average Exercise Price
Warrants outstanding – beginning of period / year	1,648,157	\$ 0.30	1,863,607	\$ 0.28
Granted	261,216	3.16	—	—
Expired	—	—	(215,450)	0.185
Exercised	(1,648,157)	0.30	—	—
Warrants outstanding – end of period / year	261,216	\$ 3.16	1,648,157	\$ 0.30

The outstanding warrants had an exercise price range as follows:

	September 30, 2023 Number of Warrants	December 31, 2022 Number of Warrants
\$3.16	261,216	—
\$0.99	—	77,078
\$0.32	—	61,079
\$0.26	—	1,510,000
Warrants outstanding	261,216	1,648,157

During the nine months ended September 30, 2023, 1,648,157 warrants were exercised for total proceeds of \$489.

In connection with the Offering, DCM issued 261,216 broker warrants. Each warrant entitles the holder to acquire one Common Share at an exercise price of \$3.16 for a period of 2 years, commencing on May 25, 2023. The fair value of the warrants issued was estimated to be \$219 using the Black-Scholes option-pricing model, assuming a risk-free interest of 4.23%, a weighted average life of 2.0 years, a dividend yield of nil and an expected volatility of 55.95% based on comparable companies.

SHARE-BASED COMPENSATION

DCM has adopted a Long-Term Incentive Plan ("LTIP") to: recruit and retain highly qualified directors, officers, employees and consultants (the "Participants"); provide Participants with an incentive for productivity and an opportunity to share in the growth and the value of DCM; and, align the interests of Participants with those of the shareholders of DCM. Awards to Participants are primarily based on the financial results of DCM and services provided. The aggregate maximum number of common shares available for issuance from DCM's treasury under the LTIP is 5,502,288 common shares or 10% of the issued and outstanding common shares of DCM.

DCM's share-based compensation plan consists of five types of awards: restricted share unit ("RSUs"), options, deferred share unit ("DSUs"), restricted shares or stock appreciation right ("SARs") awards. No SARs have been granted to date.

(a) Restricted share unit ("RSU")

Notes to The Condensed Interim Consolidated Financial Statements

For the periods ended September 30, 2023 and 2022

(in thousands of Canadian dollars, except percentages, shares and per share amounts, unaudited)

Under the RSU portion of the LTIP, selected employees are granted RSUs where each RSU represents the right to receive a distribution from DCM in an amount equal to the fair value of one DCM common share. RSUs granted are performance and non-performance based. The performance component is based on Company specific financial targets approved by the Board and the non-performance component is based on continued employment. RSUs generally vest over three years, require continued employment with DCM for the duration of the vesting period and settle in cash upon final vesting.

A liability for RSUs is measured at fair value on the grant date and is subsequently adjusted for changes in fair value. The liability is recognized on a graded vesting basis over the vesting period, with a corresponding charge to compensation expense, as a component of costs of revenues, selling, commissions and expenses, and general and administration expenses. The RSUs payable are included in trade payables and accrued liabilities. Compensation expenses for RSUs incorporate an estimate for expected forfeiture rates based on which the fair value is adjusted.

	September 30, 2023	December 31, 2022
	Number of RSUs	Number of RSUs
Balance - beginning of period/year	3,154,305	2,400,715
Units granted	348,110	904,207
Units forfeited	(94,924)	—
Units paid out	(1,188,558)	(150,617)
Balance - end of period/year	2,218,933	3,154,305

During the nine months ended September 30, 2023, the Chief Executive Officer ("CEO") of DCM was granted 143,506 RSUs (nine months ended September 30, 2022 – 224,652 RSUs) and 204,604 RSUs (nine months ended September 30, 2022 – 312,126 RSUs) were awarded to other members of DCM's management.

Of the total outstanding RSUs at September 30, 2023, nil (December 31, 2022 – nil) have vested and are payable. The carrying amount of the liability relating to the RSUs at September 30, 2023 was \$5,033 (December 31, 2022 – \$3,501).

During the three and nine months ended September 30, 2023, compensation expense of \$519 and \$3,982 (three and nine months ended September 30, 2022 – \$668 and \$1,022) was recognized in the net fair value (gains) losses on financial liabilities at fair value through profit or loss in the condensed interim consolidated statement of operations related to vesting of RSUs granted, and fair value adjustments. RSUs and DSUs are categorized as level 2 inputs in the fair value hierarchy given their valuations include inputs other than quoted prices for which all significant inputs are observable, either directly or indirectly. There were no transfers between levels 1, 2 or 3 during the period.

(b) Options ("Options")

A summary of Options activities for the nine months ended September 30, 2023, and the year ended December 31, 2022 is as follows:

	Nine months ended September 30, 2023		Year ended December 31, 2022	
	Number of Options	Weighted average Exercise Price	Number of Options	Weighted average Exercise Price
Options outstanding - beginning of period/year	4,700,886	\$ 0.97	3,950,886	\$ 0.91
Granted	750,000	3.42	750,000	1.30
Exercised	(671,886)	1.38	—	—
Options outstanding - end of period/ year	4,779,000	\$ 1.31	4,700,886	\$ 0.97
Exercisable	2,987,333	\$ 0.89	2,867,553	\$ 0.99

The outstanding Options had an exercise price range as follows:

	September 30, 2023 Number of Options	December 31, 2022 Number of Options
\$0.69	2,500,000	2,500,000
\$0.85	—	125,000
\$1.29	654,000	654,000
\$1.30	750,000	750,000
\$1.38	125,000	671,886
\$3.42	750,000	—
Options outstanding	4,779,000	4,700,886

On April 27, 2023, options to purchase up to 750,000 common shares were awarded to a member of management. Once vested, the options are exercisable for a period of seven years from the grant date at an exercise price of \$3.42 per share, representing the fair value of the Common Shares on the date of grant. The 750,000 options vest at a rate of 1/3 each year beginning on April 27, 2024. The Black-Scholes option-pricing model inputs used to compute compensation expense for the options granted under the fair value-based method include a risk-free interest of 2.92%, a weighted average life of 7.0 years, a dividend yield of nil and an expected volatility of 60.00% based on comparable companies.

During the nine months ended September 30, 2023, 671,886 options were exercised in exchange for 604,695 common shares (as a result of the net settlement of certain options) for total proceeds of \$751.

During the three and nine months ended September 30, 2023, compensation expense of \$255 and \$524 (three and nine months ended September 30, 2022 – \$90 and \$238) was recognized in the condensed interim consolidated statement of operations related to the vesting of options granted.

(c) Deferred share unit ("DSU")

Each director is required to receive at least half of his or her annual retainer in DSUs and has the option to elect to receive all or any other part of his or her other compensation in DSUs.

Each DSU represents the right to receive a distribution from DCM in an amount equal to the fair value of one DCM common share on the date of the termination of service of the respective director. The number of DSUs payable to each director is determined by multiplying the total Director Fees payable by the percent elected to be paid in DSUs and dividing the product by the Fair Value of one DCM common share on the grant date. A liability for DSUs is

Notes to The Condensed Interim Consolidated Financial Statements

For the periods ended September 30, 2023 and 2022

(in thousands of Canadian dollars, except percentages, shares and per share amounts, unaudited)

measured at fair value on the grant date and is subsequently adjusted for changes in fair value. The DSUs payable is included in trade payables and accrued liabilities.

During the nine months ended September 30, 2023, 142,113 (nine months ended September 30, 2022 - 271,878) DSUs were granted. The carrying amount of the liability relating to the 2,575,816 DSUs outstanding at September 30, 2023 was \$7,624 (December 31, 2022 – \$3,529 and 2,433,703 DSUs outstanding).

During the three and nine months ended September 30, 2023, \$198 and \$4,096 (three and nine months ended September 30, 2022 – \$540 and \$464) was recognized in the net fair value (gains) losses on financial liabilities at fair value through profit or loss in the condensed interim consolidated statement of operations related to DSUs granted, and fair value adjustments.

13 Assets Held for sale

During the three months ended September 30, 2023, DCM announced its decision to close within the next eighteen to twenty four months the Fergus, Ontario and Trenton, Ontario manufacturing facilities and transfer production to other locations within our production network facilities. DCM commenced a program to find buyers for these two facilities and in September 2023 DCM entered into an agreement to sell the Fergus facility and signed a letter of intent to sell the Trenton facility and the agreement was finalized in October 2023. Both sale transactions are subject to customary closing conditions and are expected to close in the next three to six months. Both of these sales transactions includes a leaseback arrangement for terms of twelve to twenty four months to allow the Company sufficient time to plan for the closure of these facilities.

A summary of cost and accumulated depreciation of Fergus and Trenton facilities as of September 30, 2023 is as follows:

	Fergus, Edmonton	Trenton, Ontario
Cost	\$ 6,657	\$ 8,928
Accumulated Depreciation	(207)	(208)
	\$ 6,450	\$ 8,720

Furthermore, as of September 30, 2023, in connection with the planned closure of its Edmonton, Alberta facility announced during the quarter, DCM is actively engaged in evaluating alternatives for the Edmonton facility which is subject to long term lease agreement and is in the process of finalizing a purchase and sale agreement for certain equipment located at its Edmonton facility with an arms-length third party. The transaction is expected to be completed in the fourth quarter of 2023 and as of September 30, 2023, this equipment has a cost of \$1,233 and an accumulated depreciation of \$107. During the fourth quarter, DCM commenced the transfer of the rest of the assets located at Edmonton, Alberta facility to Calgary, Alberta facility. The transfer of assets is expected to be completed by the end of the fourth quarter.

As the carrying amounts of these facilities and equipment will be recovered through sale transactions, these assets have been classified as assets held for sale as of September 30, 2023. As of September 30, 2023, DCM measured the assets held for sale at the lower of their carrying amount and fair value less costs to sell as follows:

Notes to The Condensed Interim Consolidated Financial Statements

(in thousands of Canadian dollars, except percentages, shares and per share amounts, unaudited)

	September 30, 2023
Fergus, Ontario Facility	6,450
Trenton, Ontario facility	8,650
Heidelberg presses equipment	1,126
	\$16,226

14 Commitments and Contingencies

DCM and its subsidiaries are subject to various claims, potential claims and lawsuits. While the outcome of these matters is not determinable, DCM's management does not believe that the ultimate resolution of such matters will have a material adverse impact on DCM's financial position.

Directors and officers are indemnified by the Company for various items including, but not limited to, costs to settle lawsuits or actions due to their association with the Company, subject to certain restrictions. DCM has purchased directors' and officers' liability insurance to mitigate the costs of any potential future lawsuits or actions. The term of the indemnification covers the period during which the indemnified party served as a director or officer of the Company.

In the normal course of business, DCM has entered into agreements that include indemnities in favour of third parties, such as purchase and sale agreements, confidentiality agreements, engagement letters with advisors and consultants, leasing contracts and license agreements. These indemnification arrangements may sometimes require such third parties to compensate counterparties for losses as a result of breaches in representations, covenants and warranties provided by the Company or as a result of litigation or other third party claims or statutory sanctions that may be suffered by the counterparties as a consequence of the relevant transaction. In some instances, the terms of these indemnities are not explicitly defined. No accruals have been required to be made as at September 30, 2023 with respect to these agreements.

Executive employment agreements allow for additional payments of approximately \$4,128 if the individuals are terminated without cause, and approximately \$4,128 in the event of a change in control.

15 Segmented information

The CEO of DCM is the chief operating decision maker ("CODM").

DCM has a single operating segment, being the Company as a whole, reflecting the manner in which the operating results are being reviewed by the CODM to make decisions about resources to be allocated and to assess the Company's performance. The recently acquired MCC business exhibits similar economic characteristics to DCM, particularly in terms of nature of its product and services, nature of its production process, type of customers and methods used to provide its product and services.

Management evaluates the performance of its reportable segment based on income before finance costs, other income and income taxes. Certain corporate expenses, certain non-recurring expenses, interest expense, finance costs and income taxes are not taken into account in the evaluation of the performance of the reporting segment.

(in thousands of Canadian dollars, except percentages, shares and per share amounts, unaudited)

All significant external sales are to customers located in Canada. DCM established operations in Chicago, Illinois in order to service the U.S. operations of a large customer and is seeking to grow its U.S. sales, however at September 30, 2023, U.S. sales were not significant to disclose separately.

DCM has disclosed revenue on a disaggregated basis based on the nature of the major products and services it provides to its customers as follows:

<i>(in thousands of Canadian dollars, unaudited)</i>	For the three months ended September 30, 2023	For the three months ended September 30, 2022
Product sales	\$ 107,976	\$ 55,921
