### **1. Corporate Information and Going Concern**

Warrior Gold Inc., formerly War Eagle Mining Company Inc. (the “Company” or “Warrior Gold”) was incorporated under the laws of British Columbia on March 6, 1984. The Company is engaged in the acquisition and exploration of mineral resource properties. The Company is listed on the TSX Venture Exchange (the “TSX-V”), under the symbol “WAR”, as a Tier 2 mining issuer. The address of the Company’s corporate office and principal place of business is 25 Adelaide Street East, Suite 1400, Toronto, Ontario, Canada, M5C 3A1.

These condensed consolidated interim financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has not generated revenue from operations. The Company has not generated revenue from operations. The Company incurred a loss of \$511,934 during the six months ended September 30, 2021 (September 30, 2020 – \$806,713) and, as of that date the Company’s deficit was \$47,233,040 (March 31, 2021 - \$46,721,106). The Company had cash of \$1,033,353 at September 30, 2021 (March 31, 2021 - \$409,534). As the Company is in the exploration stage, the recoverability of the costs incurred to date on exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties and upon future profitable production or proceeds from the disposition of the properties and deferred exploration expenditures. The Company will periodically have to raise funds to continue operations and pursue the acquisition and exploration of mineral resource properties. Although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future.

These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern.

These condensed consolidated interim financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

On March 11, 2020, the World Health Organization declared the outbreak of the novel coronavirus, COVID-19, a global pandemic. This has impacted the global economy with restrictions on travel and mobility being imposed by numerous countries to help reduce new infections. These countries include locations where the Company operates. The Company is committed to providing safe and healthy work environments for its employees, contractors and the communities in which it operates. The Company has developed a comprehensive mobilization protocol for the resumption of field activities and is observing social distancing and other protective measures in accordance with such protocols. Given the rapid developments and uncertainty surrounding COVID-19, it is not possible to predict the impact that COVID-19 will have on the Company’s business, financial position and operating results in the future.

### **2. Basis of Presentation**

#### *a) Statement of compliance*

These condensed consolidated interim financial statements for the six months ended September 30, 2021 have been prepared in accordance with IAS 34 ‘Interim Financial Reporting’. They do not include all of the information required in annual financial statements in accordance with International Financial Reporting Standards (“IFRS”), and should be read in conjunction with the consolidated financial statements for the year ended March 31, 2021.

The Company’s board of directors approved the release of these condensed consolidated interim financial statements on November 22, 2021.

### 2. Basis of Presentation (continued)

#### b) *Basis of measurement*

Depending on the applicable IFRS requirements, the measurement basis used in the preparation of these financial statements is cost, net realizable value, fair value or recoverable amount. These financial statements, except for the statement of cash flows, are based on the accrual basis. The condensed consolidated interim financial statements are presented in Canadian dollars, which is also the Company's functional currency.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the condensed consolidated interim financial statements are disclosed in Note 3.

#### c) *Principles of consolidation*

These condensed consolidated interim financial statements include the accounts of Warrior Gold Inc. and its wholly-owned subsidiaries. The principle subsidiaries are:

	<u>Incorporation</u>	<u>Percentage of Ownership</u>	
		<u>2021</u>	<u>2020</u>
Champagne Resources Limited ("Champagne")	Canada	100%	100%
RD Minerals S.A. de C.V. (owned by Champagne)	Mexico	100%	100%

All significant intercompany transactions have been eliminated.

### 3. Critical Accounting Estimates and Judgements

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgements are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

Information about critical judgements in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are the same as those applied to the Company's March 31, 2021 annual financial statements.

The Company makes critical judgements in the determination of going concern of operations, capitalized value of evaluation and exploration assets, title to mineral property interests and critical estimates in computing the value of share-based transactions and recoverability of receivables.

In September 2021, the Company issued 5,000,000 flow-through units and 6,250,000 charity flow-through units for gross proceeds of \$1,156,250. These flow-through and charity flow-through units were issued in a non-brokered private placement at a premium to the market price in recognition of the tax benefits accruing to subscribers. The flow-through premium liability was calculated to be \$256,250. The flow-through premium is derecognized through income as the qualifying expenditures are incurred. As of September 30, 2021, the Company is committed to incurring approximately \$1,486,000 of qualifying expenditures.

In December 2020, the Company issued 1,809,000 flow-through units and 3,106,001 charity flow-through units for gross proceeds of \$605,330. These flow-through and charity flow-through units were issued in a non-brokered private placement at a premium to the market price in recognition of the tax benefits accruing to subscribers. The flow-through premium liability was calculated to be \$156,495. The flow-through premium is derecognized through income as the qualifying expenditures are incurred. During the year ended March 31, 2021, the Company incurred qualifying expenditures of \$297,067. As of March 31, 2021, the Company is committed to incurring approximately \$330,000 of qualifying expenditures.

In June 2020, the Company issued 8,333,334 flow-through units for gross proceeds of \$725,000. These flow-through shares issued in a non-brokered private placement were issued at a premium to the market price in recognition of the tax benefits accruing to subscribers. The flow-through premium liability was calculated to be \$225,000. The flow-through premium is derecognized through income as the qualifying expenditures are incurred. During the year ended March 31, 2021, the Company satisfied all of the commitment by incurring qualifying expenditures of \$725,000.

**5. Right of use assets & lease liabilities**

As at September 30, 2021, the Company had one operating lease for office premises. The lease liability was measured at the present value of the remaining lease payments, discounted using the Company's incremental borrowing rates applied to the lease liability. The weighted average incremental borrowing rate applied to the lease liability in the six months ended September 30, 2021 was 9.9% per annum. The lease term remaining as at September 30, 2021 is approximately 1.66 years. The details of the lease liability recognized at inception is as follows:

### **6. Exploration and Evaluation Assets**

The Goodfish-Kirana Project (“Goodfish-Kirana” or the “Property”)

On February 9, 2018, the Company completed the amalgamation with Champagne, through a “three-cornered amalgamation” whereby Champagne merged with Andromeda and became a subsidiary of the Company. In that amalgamation, the Company acquired the Goodfish-Kirana Project. Goodfish-Kirana is comprised of 20 patented mining claims and 66 staked claims. The Property is now wholly owned by the Company subject to various net smelter royalty arrangements.

During the year ended March 31, 2019, the Company acquired eight additional patented claims contiguous to Goodfish-Kirana for \$161,728. There is a 1.5% net smelter royalty (“NSR”) on the claims, 1% of which can be purchased for \$1,000,000.

During the year ended March 31, 2019, the Company acquired a 24-claim package (the “Sutton claims”) (304.04 hectares) adjacent to the northeast portion of Goodfish-Kirana, together with three contiguous new claims (50.64 hectares) staked by the Company. These two strategic additions bring the Company’s land package in the Kirkland Lake Gold Camp to 3,704 hectares. The claims were acquired in exchange for a 1.5% NSR. The Company has the right to buy-back 1% of the NSR for \$1,000,000.

In April 2020, the Company acquired an additional prospective and contiguous block of claims, (16 claims (263 hectares) transferred from Danièle Spethmann, the Company’s chief executive officer (“CEO”), for acquisition costs of \$800 (map staking costs of \$50/claim). The Company’s land package is now comprised of 233 operational cells, totalling 4,251.54 hectares (10,505.6 acres) up from 217 operational cells, and 3,859 hectares (9,536 acres).

In September 2020, the Company acquired a private property on Airport Road within the Goodfish-Kirana property boundary and on the Goodfish patented claims. The property is four acres and includes installed hydro, a portable schoolroom building, a shipping container and the infrastructure for a septic system. The costs were \$65,000 payable in cash, of which, \$35,000 was paid at the time of acquisition and the balance of \$30,000 was paid in December 2020. The Company also incurred \$6,131 in legal costs relating to the acquisition.

In July 2021, the Company acquired the Arnold Claims, comprised of 25 operational cells, totalling 538 ha (1,329.4 acres) (the “Arnold Property”). The Arnold Property is hosted in the same rock package as the Upper Beaver deposit, the Blake River mafic volcanics, and is transacted by a 5½ km stretch of the Mulven Lake Fault, a deep crustal feature that recent studies by MERC (Mineral Exploration Research Centre, a research centre based out of Laurentian University, Sudbury, Ontario) have shown to be potentially as deep as, or a substructure of the Larder Lake Cadillac Break (“LLCB”), a 250 km long regional structure associated with many of the gold deposits in the Abitibi Gold Belt. Under the terms of the purchase agreement, the Company issued 350,000 common shares of Warrior Gold to the vendors. The Vendors will retain a 1.5% Net Smelter Return (NSR) on the property with Warrior Gold having the right to purchase two-thirds of the NSR (or 1%) for \$1,000,000.

In August 2021, the Company entered into an option agreement with an arm’s length party to acquire a 100% interest in the KL West (“KLW”) and KL Central (“KLC”) land packages. The KLW land package comprises 107 mining claims totaling 11,792 hectares and the KLC land package comprises eight mining claims totaling 2,302 hectares for an aggregate of 115 claims totaling 14,094 hectares. The KLW land package is contiguous to and west of the Company’s Goodfish-Kirana project and the KLC land package is contiguous to Warrior Gold’s Arnold claim block which is adjacent to both Agnico Eagle’s Kirkland Lake Project and New Found Gold’s Lucky Strike Project. Following the acquisition, Warrior Gold’s land position consists of 378 claims and 29 patented claims, totaling 19,350 hectares, ranking the Company as one of the largest landholders in the camp.

**6. Exploration and evaluation assets (continued)**

Under the terms of the option agreement, the Company has paid \$10,000 in cash and issued 1,000,000 common shares, pay cash of \$15,000 on the first anniversary, \$20,000 on the second anniversary, and \$25,000 on the third anniversary. The option agreement is also subject to the issuance of 1,000,000 common shares upon the delivery of a Pre-Feasibility Study as defined in accordance with a National Instrument 43-101 technical report prepared by Warrior Gold and a 1.5% NSR. The Company has the right to purchase 1% of the NSR for \$1,000,000. The common shares are subject to a four-month hold period pursuant to applicable securities laws.

**8. Share-Based Compensation**

In September 2021, the shareholders of the Company re-approved the Company's incentive stock option plan (the "Stock Option Plan") which provides that the aggregate number of common shares of the Company's capital issuable pursuant to options granted may not exceed 10% of the issued and outstanding shares. If the aggregate number of options granted exceeds the maximum allowed under the Stock Option Plan, exercise of the options will require Warrior Gold shareholder approval. Options granted under the Plan may have a maximum term of ten years and the exercise price of options granted will not be less than the discounted market price of the common shares as of the award date. The board of directors has the authority to set the vesting terms of options granted, subject to the rules of the TSX-V regarding options granted for investor relations services.

The weighted average grant-date fair value of options awarded in the six months ended September 30, 2021 was \$0.05 (September 30, 2020 - \$0.05). The Company employed the Black-Scholes option-pricing model using the following weighted average assumptions:

Six months ended September 30	2021	2020
Share price	\$0.07	\$0.06
Exercise price	\$0.07	\$0.10
Annualized stock price volatility	109.60%	119.51%
Risk-free interest rate	1.26%	0.43%
Expected option life (years)	5 years	5 years
Dividend yield	0.0%	0.0%

The stock price volatility was determined using the historical fluctuations in the Company's share price.

A summary of stock option activity to September 30, 2021 is as follows:

	Number of options	Weighted average exercise price \$
March 31, 2020	6,221,957	0.16
Granted	400,000	0.10

### 10. Related-Party Transactions

The Company entered into the following transactions with related parties not disclosed elsewhere in these condensed consolidated interim financial statements:

#### Key management personnel compensation

Six months ended September 30	2021	2020
	\$	\$
Management fees	115,012	114,000
Share-based compensation	61,455	13,800
	<u>176,467</u>	<u>127,800</u>

The short-term management fees were paid or accrued to officers and directors or personal companies owned by officers and directors of the Company.

As at September 30, 2021, \$52,873 (March 31, 2021 - \$98,125) is due to related parties, which amount is included in accounts payable and accrued liabilities.

Related-party balances bear no interest and are unsecured. Transactions with related parties are conducted in the normal course of business and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

### 11. Capital Management

The Company's objectives when managing its capital are to safeguard the Company's ability to continue as a going concern in order to support ongoing exploration programs, to provide sufficient working capital to meet its ongoing obligations and to pursue other potential investments. The Company prepares expenditure budgets, which are updated as necessary depending on varying factors including current and forecast prices, successful capital deployment and general industry conditions.

The Company considers its capital to include equity and working capital. In order to maintain financial flexibility, the Company may from time to time issue shares and adjust its spending to manage current and projected capital levels. To assess capital and operating efficiency and financial strength, the Company regularly monitors its working capital which is calculated as follows:

	September 30	March 31
	2021	2021
	\$	\$
Current assets	1,440,147	532,065
Current liabilities	(548,725)	(342,159)
Working capital	<u>891,422</u>	<u>189,906</u>

The Company is not subject to external capital restrictions. The Company has not paid or declared any dividends since the date of incorporation, nor are any contemplated in the foreseeable future. There were no changes to the Company's approach to capital management during the six months ended September 30, 2021.

### **12. Financial Instruments**

#### *Fair Value*

The Company's financial instruments include cash, receivables, and accounts payable and accrued liabilities. Fair value amounts disclosed in these condensed consolidated interim financial statements represent the Company's estimate of the price at which a financial instrument could be exchanged in a market in an arm's length transaction between knowledgeable, willing parties who are under no compulsion to act. These estimates may change in subsequent reporting periods due to market conditions or other factors.

A fair value hierarchy is used to categorize the inputs used to measure fair value. Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are as follows:

Level 1 - include financial assets and liabilities that are measured in whole or in significant part by reference to published quotes in an active market at the measurement date. A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Level 2 - include financial assets and liabilities using valuation techniques based on assumptions that are supported by prices from observable current market transactions.

The Company has no assets or liabilities in this category.

Level 3 - include financial assets and liabilities measured using valuation techniques based on nonmarket observable inputs. This means that fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The Company has no assets or liabilities in this category.

The carrying value of cash, receivables and accounts payable and accrued liabilities approximate their fair value due to the short-term nature and limited credit risk of these assets and liabilities.

#### *Financial Instruments Risk Management*

The Company has exposure to credit, liquidity and market risks from its use of financial instruments. This note provides information about the Company's exposure to each of these risks, and the Company's objectives, policies and processes for measuring and managing such risks. The board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

#### *Market risk*

The Company's profitability and long-term viability will depend, in large part, on the market price of base metals. The market prices for metals can be volatile and are affected by numerous factors beyond the Company's control, including: global or regional consumption patterns; the supply of, and demand for, these metals; speculative activities; the availability and costs of metal substitutes; expectations for inflation; and political and economic conditions, including interest rates and currency values. The Company cannot predict the effect of these factors on metal prices.

The market price of these minerals and metals may not remain at current levels. In particular, an increase in worldwide supply and consequent downward pressure on prices may result over the longer term from increased base metal production from mines developed or expanded as a result of current metal price levels.

### **12. Financial Instruments (continued)**

#### *Foreign currency exchange rate risk*

The Company's exposure to foreign currency fluctuations is negligible from the cash on hand denominated in US dollars. There are no exchange rate contracts in place. A 10% change in the US dollar would have an immaterial effect on profit/loss.

#### *Interest rate risk*

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk as it did not hold any funds in interest bearing accounts.

#### *Liquidity risk*

Liquidity risk is the risk that the Company will encounter difficulty in paying obligations as they come due. The Company's financial liabilities consist of accounts payable and accrued liabilities. Accounts payable consists of invoices payable to trade suppliers for capital expenditures, field operating activities, and general corporate expenses. Substantially, all of the Company's financial liabilities have contractual maturities of less than 90 days and are subject to normal trade terms.

As at September 30, 2021, the Company has working capital of \$891,422.

#### *Credit Risk*

Credit risk is the risk of loss associated with a counterparty's inability to fulfil its payment obligations. Financial instruments that potentially subject the Company to a significant concentration of credit risk consist primarily of receivables.

### **13. Segment Reporting**

The Company's activities are in one industry segment - mineral property acquisition and exploration. Substantially all administrative expenses are incurred in Canada.

### **14. Contingencies and Commitments**

#### **Compensation Agreements**

The Company has a compensation agreement with the president and chief executive officer for \$15,000 per month, which is automatically renewable for successive one-year terms.
