APPOINTMENT AND REVOCATION OF PROXIES

The persons named in the accompanying form of proxy (the "**Proxy**") are officers of the Corporation. **A registered shareholder has the right to appoint a person (who need not be a shareholder) other than the persons named as the proxy of the shareholder and may exercise this right either by inserting that person's name in the blank space provided in the Proxy and striking out the other names or by completing another proper form of proxy.** To be effective, Proxies must be deposited at the office of the Corporation's registrar and transfer agent, Computershare Trust Company of Canada, 100 University Avenue, Toronto, Ontario, M5J 2Y1, not less than 48 hours (excluding Saturdays, Sundays and holidays) before the time of the Meeting or adjournment thereof.

Proxies given by registered shareholders for use at the Meeting may be revoked at any time before their use. In addition to revocation in any other manner permitted by law, a Proxy may be revoked by depositing an instrument in writing signed by the registered shareholder, or by the registered shareholder's attorney duly authorized in writing, at the registered office of the Corporation, Suite 318, 1199 West Pender Street, Vancouver, British Columbia V6E 2R1 on or before the last business day preceding the day of the Meeting, or any adjournment thereof, or with the chair of the Meeting on the day of the Meeting, or any adjournment thereof.

Voting and Discretion of Proxies

The common shares of the Corporation represented by the Proxies solicited by management of the Corporation pursuant to this Circular will be voted or withheld from voting in accordance with the directions contained therein. **If no directions are given, the common shares will be voted FOR the fixing of the number of directors at five, FOR the election of management's nominees as directors of the Corporation, FOR the appointment of management's nominee as auditors of the Corporation and authorizing the directors to fix their remuneration, FOR the amendment of the stock option plan and FOR the adoption of the new set of articles.** The Proxy confers discretionary authority on the persons named therein in respect of amendments or variations to the matters referred to in the Notice and in respect of other matters that may properly come before the Meeting, or any adjournment thereof.

As at the date of this Circular, management knows of no such amendments or variations or other matters that may properly come before the Meeting but, if any such amendments, variations or other matters are properly brought before the Meeting, the persons named in the Proxies will vote thereon in accordance with their best judgment.

Non-Registered Holders

Only registered shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Corporation are “non-registered” shareholders because the shares they own are not registered in their names but are instead registered in the name of the brokerage firm, bank or trust company through which they purchased the shares. More particularly, a person is not a registered shareholder in respect of shares which are held on behalf of that person (the “**Non-Registered Holder**”) but which are registered either: (a) in the name of an intermediary (an “**Intermediary**”) that the Non-Registered Holder deals with in respect of the shares (Intermediaries include, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered RRSPs, RRIFs, RESPs and similar plans); or (b) in the name of a clearing agency (such as the Canadian Depository for Securities Limited, of which the Intermediary is a participant).

Non-Registered Holders who have not objected to their Intermediary disclosing certain ownership information about themselves to the Corporation are referred to as “NOBOs.” Those Non-Registered Holders who have objected to their Intermediary disclosing ownership information about themselves to the Corporation are referred to as “OBOs.” In accordance with applicable securities laws, the Corporation has elected to send the notice and access notification directly to the NOBOs, and indirectly through Intermediaries to the OBOs. The Intermediaries (or their service companies) are responsible for forwarding the notice and access notification to each OBO, unless the OBO has waived the right to receive them.

The Meeting Materials are being made available to both registered shareholders and Non-Registered Holders. If you are a Non-Registered Holder and the Corporation or its agent has sent the notice and access notification directly to you, your name and address and information about your holdings of securities have been obtained in accordance with applicable securities regulatory requirements from the Intermediary holding on your behalf. In this event, by choosing to send the notice and access notification to you directly, the Corporation (and not the Intermediary holding on your behalf) has assumed responsibility for (i) making available the Meeting Materials to you; and (ii) executing your proper voting instructions. Please return your voting instructions as specified in the request for voting instructions.

The Corporation does not intend to pay for the Intermediary to deliver the notice and access notification or Meeting Materials to OBOs and, as a result, OBOs will not be sent paper copies of such notice and access notification or Meeting Materials unless their Intermediary assumes the costs. Intermediaries will frequently use service companies to forward the notice and access notification and/or Meeting Materials to the Non-Registered Holders. Generally, a Non-Registered Holder who has not waived the right to receive Meeting Materials will either:

- a) be given a form of proxy which has already been signed by the Intermediary (typically by a facsimile, stamped signature), which is restricted as to the number of shares beneficially owned by the Non-Registered Holder and must be completed, but not signed, by the Non-Registered Holder and deposited with Computershare Investor Services Inc.; or
- b) more typically, be given a voting instruction form which is not signed by the Intermediary, and which, when properly completed and signed by the Non-Registered Holder and returned to the Intermediary or its service company, will constitute voting instructions which the Intermediary must follow.

In either case, the purpose of this procedure is to permit Non-Registered Holders to direct the voting of the shares which they beneficially own. Should a Non-Registered Holder who receives one of the above forms wish to vote at the Meeting in person, the Non-Registered Holder should strike out the names of the management proxyholder named in the form and insert the Non-Registered Holder's name in the blank space provided. Non-Registered Holders should carefully follow the instructions of their Intermediary, including those regarding when and where the Proxy or proxy authorization form is to be delivered.

Oversight and Description of Director and Named Executive Officer Compensation

Compensation of Directors

Compensation of directors is determined by a recommendation of the President & CEO and approval of the board of directors. Non-executive directors received fees as outlined in the Summary Compensation Table above. Long term incentives (stock options) are granted from time to time, based on an existing complement of long term incentives, corporate performance and to be competitive with other companies of similar size and scope.

Compensation of Named Executive Officers

The Corporation's compensation philosophy for Named Executive Officers follows three underlying principles:

- (a) to provide compensation packages that encourage and motivate performance;
- (b) to be competitive with other companies of similar size and scope of operations so as to attract and retain talented executives; and
- (c) to align the interests of its executive officers with the long-term interests of the Corporation and its shareholders through stock related programs.

When determining compensation policies and individual compensation levels for the Corporation's executive officers, the Corporation takes into consideration a variety of factors including management's understanding of the amount of compensation generally paid by similarly situated companies to their executives with similar roles and responsibilities; each executive officer's individual performance during the fiscal year; each executive officer's experience, skills and level of responsibility; the executive's historical compensation and performance within the Corporation; and existing market standards within the mining industry. Management presents its recommendations to the Board of Directors.

Elements of NEO Compensation

Compensation Mix

In keeping with the Corporation's philosophy to link executive compensation to corporate performance and to motivate executives to achieve exceptional levels of performance, the Corporation has adopted a model that includes both base salary and "at-risk" compensation comprised of participation in the Corporation's Long Term Incentive Plan (stock options), as described below.

Base Salary

Mr. Ling Zhu, the Corporation's Chief Executive Officer, received a base salary of \$150,000 in 2015 and \$Nil in 2016.

Ms. Patricia Wong, the Corporation's Chief Financial Officer, received a base salary of \$105,768 in 2015 and \$102,334 in 2016.

Directors are also eligible to receive a rate for consulting services when requested by the Corporation to provide services not normally considered to be within the scope of Directors' duties. The Board considers that this is appropriate for the Corporation's current stage of development. Base salaries are reviewed annually to ensure they reflect each respective executive's performance and experience in fulfilling his or her role and to ensure executive retention.

Long Term Incentive Plan (Stock Options)

Long term incentives are performance-based grants of stock options. The awards are intended to align executive interests with those of shareholders by tying compensation to share performance and to assist in retention through vesting provisions. Grants of stock options are based on:

- (a) the executive's performance;
- (b) the executive's level of responsibility within the Corporation;
- (c) the number and exercise price of options previously issued to the executive; and
- (d) the overall aggregate total compensation package provided to the executive.

The value of any long term options allocated is determined using the Black-Scholes model.

Management makes recommendations to the Compensation Committee and the Board concerning the Corporation's Long Term Incentive Plan based on the above criteria. Options are typically granted on an annual basis in connection with the review of executives' compensation packages. Options may also be granted to executives upon hire or promotion and as special recognition for extraordinary performance.

Stock compensation awards are also granted, at the discretion of the Board, to existing directors, employees, and consultants based on award levels in the past and Corporation performance, in compliance with applicable securities law, stock exchange, and other regulatory requirements. Share compensation grants may also be issued, at the discretion of the Board, throughout the year, to attract new directors, officers, employees or consultants. The Corporation's Board of Directors considers previous grants of options and the overall number of options that are outstanding relative to the number of outstanding common shares in determining whether to make any new grants of options and the size and terms of any such grants, as well as the level of effort, time, responsibility, ability, experience, and level of commitment of the director, officer, employee, or consultant in determining the level of incentive stock option compensation.

Benefits and Perquisites

The Corporation's NEOs do not receive any benefits or perquisites. For additional details, see "Description of the Long Term Incentive Plan" below.

STATEMENT OF CORPORATE GOVERNANCE

General

Corporate governance refers to the policies and structure of the board of directors of a company whose members is elected by and is accountable to the shareholders of the company. Corporate governance encourages establishing a reasonable degree of independence of the board of directors from executive management and the adoption of policies to ensure the board of directors recognizes the principles of good management. The Board is committed to sound corporate governance practices; as such practices are both in the interests of shareholders and help to contribute to effective and efficient decision-making.

This section describes the Company's approach to corporate governance.

Board of Directors

As of the date of this Circular, the Board consisted of four (4) directors: Ling Zhu, Zheng Zhou, Bernard Kahlert and Mao Sun.

Directors are considered to be independent if they have no direct or indirect material relationship with the Company. A “material relationship” is a relationship which could, in the view of the Company’s board of directors, be reasonably expected to interfere with the exercise of a director’s independent judgment.

The Board facilitates its independent supervision over management by holding periodic board meetings to discuss the operations of the Company. The Board is responsible for determining whether or not each director is an independent director. To do this, the Board analyzes all the relationships of the directors with the Company and its subsidiaries. None of the independent directors is engaged in the day-to-day operations of the Company or is a party to any material on-going contracts with the Company. More information about each director can be found above in this Information Circular under Election of Directors.

The current independent members of the Board are Bernard Kahlert and Mao Sun. Following the Meeting, the independent members of the Board are Bernard Kahlert and Mao Sun.

The non-independent directors are Ling Zhu, the Chairman and Chief Executive Officer of the Company and Zheng Zhou, a controlling shareholder of the Company through SkyOcean and CMH, companies for which Mr. Zhou is the sole shareholder.

The following directors of the Corporation hold directorships in other reporting issuers as set out below:

Name of Director	Name of Other Reporting Issuer	Name of Exchange
Bernard Kahlert	<i>Commander Resources Ltd. Adamera Minerals Corp. (formerly Diamonds North Resources Ltd.) Maritime Resources Corp.</i>	<i>TSXV TSXV TSXV</i>
Mao Sun	<i>SouthGobi Resources Ltd. HFX Holding Corp.</i>	<i>TSX, Hong Kong TSXV</i>

Stewardship of the Company

The Board performs its functions through quarterly and special meetings and has delegated certain of its responsibilities to those committees described below. In addition, the Board has established policies and procedures that limit the ability of management to carry out certain specific activities without the prior approval of the Board.

The Board, through its audit committee, has the responsibility of identifying the principal risks of the Company’s business. It has worked with management to implement policies to identify the risks and to establish systems and procedures to ensure that these risks are monitored. In particular, fixed price contracts are an important element of the Company’s business and, in entering into such contracts; the Company assumes certain risks in relation to its ability to deliver projects profitably. To reduce such risks, the Company has a management team (comprised of Vice-President Exploration and two senior managers) to review project bids, contract negotiations and ongoing project performance.

The Board has, together with the Chief Executive Officer, developed a written position description for the Chief Executive Officer. As well, the Board meets at least quarterly with the Management Committee to review and approve the Management Committee’s quarterly and annual objectives.

The Board delegates responsibility for the integrity of internal controls and management information systems to the audit committee. The Company’s external auditors report directly to the audit committee. In its regular meetings with the external auditors, the audit committee discusses, among other things, the Company’s financial statements and the adequacy and effectiveness of the Company’s internal controls and management information systems.

Orientation and Continuing Education

The Corporation does not provide a formal orientation and education program for new directors; however, any new directors will be given the opportunity to familiarize themselves with the

Corporation, the current directors and members of management. Directors are also encouraged and given the opportunity for continuing education.

Ethical Business Conduct

The Board has found that the fiduciary duties placed on individual directors by the Company's governing corporate legislation and the common law and the restrictions placed by applicable corporate legislation on an individual director's participation in decisions of the Board in which the director has an interest have been sufficient to ensure that the Board operates independently of management and in the best interests of the Company.

The Company has adopted a Disclosure Policy, a Securities Trading Policy, and a Whistleblower Policy.

The objectives of the Disclosure Policy are to disclose information in a timely, consistent and appropriate manner; to protect and prevent the improper use or disclosure of material information and Company information; and to broadly disseminate material information in accordance with all applicable securities law requirements.

The objectives of the Securities Trading Policy are to establish a policy that directors, officers, insiders and employees of the Company will follow in connection with the purchase or sale of the Company's securities. The Securities Trading Policy is also intended to raise the awareness of the trading and confidentiality obligations of directors, officers, insiders and employees.

The purpose of the Whistleblower Policy is to establish procedures for receipt, recording and treatment of complaints and concerns regarding accounting activities, internal controls or auditing matters and the confidential submission by employees of any concerns in these areas.

Nomination of Directors

The Board considers its size each year when it considers the number of directors to recommend to the shareholders for election at the annual meeting of shareholders, taking into account the number required to carry out the Board's duties effectively and to maintain a diversity of views and experience. The Board does not have a nominating committee: these functions are currently performed by the Board as a whole. However, if there is a change in the number or composition of directors required by the Company, this policy will be reviewed.

Other Board Committees

Aside from the Audit Committee, the Company has no other Board committees.

Assessments

The Board monitors the adequacy of information given to directors, communication between the Board and management, and the strategic direction and processes of the Board and committees.

PARTICULARS OF OTHER MATTERS TO BE ACTED UPON

1. Approval of Stock Option Plan

The proposed new stock option plan (the "**Option Plan**") was prepared in accordance with current policies of the TSX Venture Exchange (the "**TSX-V**"). The Option Plan is set out in Schedule B to this Information Circular. A copy of the Option Plan is available upon request by any shareholder of the Company at no charge, or may be reviewed at the Corporation's registered office during normal business hours until the date of the Meeting.

The Option Plan is a "rolling" stock option plan which sets the number of options available for grant by the Corporation at an amount equal to up to a maximum of 10% of the Corporation's issued and outstanding common shares from time to time, less any common shares reserved for issuance under other share compensation arrangements. Under TSX-V policies, the Option Plan must be approved by the Corporation's shareholders on an annual basis. Therefore, shareholders are being asked to approve the Option Plan at the Meeting.

Pursuant to the Option Plan: (i) the maximum number of common shares reserved for issuance under the Option Plan and any other share compensation arrangement in any 12 month period to any one optionee other than a consultant may not exceed 5% of the issued and outstanding common shares at the date of the grant; (ii) the maximum number of common shares reserved for issuance under the

Option Plan and any other share compensation arrangement in any 12 month period to any consultant may not exceed 2% of the issued and outstanding common shares at the date of the grant; and (iii) the maximum number of common shares reserved for issuance under the Option Plan and any other share compensation arrangement in any 12 month period to all persons engaged in investor relations activities may not exceed 2% of the issued and outstanding number of common shares at the date of the grant.

In addition, unless the Corporation has received disinterested shareholder approval to do so: (i) the aggregate number of common shares reserved for issuance to insiders under the Option Plan and any other share compensation arrangement shall not exceed 10% of the outstanding common shares at the time of the grant; and (ii) the aggregate number of common shares reserved for issuance to insiders in any 12 month period under the Option Plan and any other share compensation arrangement shall not exceed 10% of the outstanding common shares at the time of the grant.

Subject to minimum exercise price of \$0.05 per common share, the exercise price per common share for an option shall be not less than the "Discounted Market Price" as calculated pursuant to the TSX-V policies, or such other minimum price as may be required by the TSX-V. If options are granted within 90 days of a distribution by the Corporation by prospectus, the exercise price per common share for such options shall not be less than the greater of the minimum exercise price calculated pursuant to the above and the price per common share paid by the public investors for common shares acquired pursuant to such distribution.

Every option granted under the stock option plan shall have a term not exceeding and shall therefore expire no later than 10 years after the date of grant.

Subject to the Option Plan and otherwise in compliance with the policies of the TSX-V, the Board shall determine the manner in which an option shall vest and become exercisable. Options granted to consultants performing investor relations activities shall vest over a minimum of 12 months with no more than one-quarter (1/4) of such options vesting in any three month period.

According to the Option Plan, if a director, officer, employee or consultant (each, a "**Participant**") is terminated for cause, then each option held by such Participant shall terminate and shall therefore cease to be exercisable no later than the earlier of the expiry date and the date which is 30 days after such termination for cause. If a Participant is prevented, by order or similar decision of the British Columbia Securities Commission or other regulatory authority having jurisdiction over the Corporation or its affairs, from holding an option, then each option held by such Participant shall terminate and shall therefore cease to be exercisable upon the making of such order or similar decision. If a Participant dies prior to otherwise ceasing to be an eligible person, each option held by such Participant shall terminate and shall therefore cease to be exercisable no later than the earlier of the expiry date and the date which is twelve months after the date of the Participant's death. If a Participant ceases to be an eligible person other than in the circumstances set out in the Option Plan, each option held by such Participant shall terminate and shall therefore cease to be exercisable no later than the earlier of the expiry date and the date which is 90 days after such terminating event, always provided that the Board may allow for each option held by such Participant to terminate and cease to be exercisable on such later date following the Participant ceasing to be an eligible person as the Board in its discretion may determine is reasonable.

For greater certainty, if a Participant dies, each option held by such Participant shall be exercisable by the legal representative of such Participant until such option terminates and therefore ceases to be exercisable pursuant to the terms of the Option Plan. If any portion of an option is not vested at the time a Participant ceases, for any reason whatsoever, to be an eligible person, such unvested portion of the option may not be thereafter exercised by the Participant or its legal representative, as the case may be, always provided that the Board may, in its discretion, thereafter permit the Participant or its legal representative, as the case may be, to exercise all or any part of such unvested portion of the option that would have vested prior to the time such option otherwise terminates and therefore ceases to be exercisable pursuant to the terms of the Option Plan. For greater certainty, and without limitation, this provision will apply regardless of whether the Participant ceases to be an eligible person voluntarily or involuntarily, was dismissed with or without cause, and regardless of whether the Participant received compensation in respect of dismissal or was entitled to a notice of termination for a period which would otherwise have permitted a greater portion of an option to vest.

In accordance with good corporate governance practices and as recommended by National Policy 51-201 *Disclosure Standards*, the Corporation may impose black-out periods restricting the trading of its

securities by directors, officers, employees and consultants during periods from time to time when deemed necessary by management and the board of directors. In order to ensure that optionees are not prejudiced by the imposition of such black-out periods, the Option Plan includes a provision (the "Black-Out Provision") to the effect that any outstanding stock options with an expiry date that falls during a management imposed black-out period or within five days thereafter will be automatically extended to a date that is ten trading days following the end of the black-out period.

The Option Plan provides that if a change of control (as defined therein) occurs, or if the Corporation is subject to a take-over bid, all shares subject to stock options shall immediately become vested and may thereupon be exercised in whole or in part by the option holder. The Board of Directors of the Corporation may also accelerate the expiry date of outstanding stock options in connection with a take-over bid. The Option Plan permits the Corporation to make such arrangements as it shall deem appropriate for the exercise of outstanding options or continuance of outstanding options in the event of a change of control.

The Option Plan contains adjustment provisions with respect to outstanding options in cases of share reorganizations, special distributions and other corporation reorganizations including an arrangement or other transaction under which the business or assets of the Corporation become, collectively, the business and assets of two or more companies with the same shareholder group upon the distribution to the Corporation's shareholders, or the exchange with the Corporation's shareholders, of securities of the Corporation or securities of another company.

The Option Plan provides that where an optionee is terminated for cause, any outstanding options (whether vested or unvested) are cancelled as of the date of termination. If an optionee retires or voluntarily resigns or is otherwise terminated by the Corporation other than for cause, then all vested options held by such optionee will expire at the earlier of (i) the expiry date of such options and (ii) the date which is 90 days (30 days if the optionee was engaged in investor relations activities) after the optionee ceases to be an eligible person under the Option Plan provided that the Board of Directors of the Corporation may, in certain circumstances, extend the expiry date to a later date within a reasonable period in accordance with TSX-V policies.

The Option Plan contains a provision that, if pursuant to the operation of certain of the plan's adjustment provisions, in respect of options granted under the Option Plan (the "Subject Options"), an optionee receives options to purchase securities of another company (the "New Company"), such new options shall expire on the earlier of: (i) the expiry date of the Subject Options; (ii) if the optionee does not become an eligible person in respect of the New Company, the date that the Subject Options expire pursuant to the applicable provisions of the Option Plan relating to expiration of options in cases of death, disability or termination of employment discussed in the preceding paragraph above (the "Termination Provisions"); (iii) if the optionee becomes an eligible person in respect of the New Company, the date that such new options expire pursuant to the terms of the New Company's stock option plan that correspond to the Termination Provisions; and (iv) the date that is one year after the optionee ceases to be an eligible person in respect of the New Company or such shorter period as determined by the board.

Shareholder Approval Being Sought

As of the date hereof, 189,873,268 common shares of the Corporation are issued and outstanding. As of such date, the number of common shares issuable upon exercise of options that may be granted under the Option Plan is 18,987,326 or 10% of such number. As of the date hereof, the Corporation had 1,315,000 options outstanding under the Option Plan (representing approximately 0.69% of the issued and outstanding common shares).

At the Meeting, shareholders will be asked to consider and, if deemed appropriate, to pass, with or without variation, a resolution, in the form set out below (the "**Option Plan Resolution**"), subject to such amendments, variations or additions as may be approved at the Meeting, approving the continuation of the Option Plan.

The Board and management recommend the approval of the New Stock Option Plan.

To be effective, the Option Plan Resolution must be approved by not less than a majority of the votes cast by the holders of common shares present in person, or represented by proxy, at the Meeting. **Unless otherwise indicated, the persons designated as proxyholders in the accompanying form of proxy will vote the common shares represented by such form of proxy, properly executed, FOR the New Stock Option Plan Resolution.**

The text of the Option Plan Resolution to be submitted to shareholders at the Meeting is set forth below:

"BE IT RESOLVED THAT:

1. Subject to regulatory approval, the Option Plan pursuant to which the directors may, from time to time, authorize the issuance of options to directors, officers, employees and consultants of the Corporation and its subsidiaries to a maximum of 10% of the issued and outstanding common shares at the time of the grant, be and is hereby ratified, confirmed and approved; and
2. Any director or officer of the Corporation is hereby authorized and directed, acting for, in the name of, and on behalf of, the Corporation, to execute or cause to be executed, and to deliver or cause to be delivered, such other documents and instruments, and to do or cause to be done all such acts and things, as may in the opinion of such director or officer be necessary or desirable to carry out the intent of the foregoing resolution."

Shareholder approval of the Option Plan is required by the terms of the Option Plan and the policies of the TSX-V.

2. Consolidation of Common Shares

The Company is asking the holders of the Company's common shares to approve a potential consolidation (the "**Consolidation**") of its issued and outstanding common shares on the basis of up to one new common share without par value for every existing twenty-five (25) common shares without par value or on such other basis or ratio as the board of directors determines. The Consolidation requires approval by way of an ordinary resolution of the holders of the Company's common shares, being an ordinary resolution passed by not less than 1/2 of the votes of the holders of the Company's common shares represented in person or by proxy at the Meeting. Included in the Consolidation Resolution, the Board is seeking authority from the shareholders to defer acting on the Consolidation Resolution or to revoke the Consolidation Resolution before it is acted upon without further approval of the shareholders. In exercising its authority, the Board will consider the advisability of proceeding to complete the Consolidation.

Reasons for the Stock Consolidation

The Board of Directors believe that it may be in the best interests of the Company to reduce the number of outstanding common shares by way of the Consolidation to allow the Company to raise additional capital at a higher price per share.

The appropriateness of carrying out the Consolidation, and the most advantageous time for carrying out a share consolidation, will be dependent upon a number of factors, including market conditions and any future financing considerations.

The Consolidation will constitute an amendment to the Company's Articles of Incorporation and, accordingly, the holders of the Company's common shares will be asked to consider and, if deemed appropriate, approve an ordinary resolution substantially in the following form:

"BE IT RESOLVED AS A SPECIAL RESOLUTION THAT:

1. the directors of the Company be authorized to effect the consolidation (the "**Share Consolidation**") of all of the issued and outstanding common shares ("**Common Shares**") without par value in the capital of the Company (or such other number of fully paid and issued Common Shares that are outstanding on the effective date of the Share Consolidation) on the basis of up to twenty-five (25) old Common Shares for one (1) new Common Share (25:1);
2. the directors of the Company be and are hereby authorized to fix the ratio of the pre-consolidation to post-consolidation Common Shares to be used in the Share Consolidation (the "**Final Consolidation Ratio**"), but the maximum Final Consolidation Ratio will not exceed twenty-five to one (25:1);
3. any fractional Common Shares arising from the Share Consolidation be rounded down or up to the nearest whole Common Share, with 0.5 of a Common Share being rounded up;
4. any officer or director of the Company is hereby authorized and directed for and on behalf of the Company to execute, deliver and file or cause to be executed, delivered and filed, all such documents and instruments as are necessary or desirable to give effect to the Share

Consolidation and to perform or cause to be performed all such other acts and things as in such person's opinion may be necessary or desirable to give full effect to the foregoing resolutions and the matters authorized thereby, such determination to be conclusively evidenced by the execution and delivery of such document, agreement or instrument or doing of any such act or thing;

5. the directors of the Company, in their sole and complete discretion, may act upon this resolution to effect the Share Consolidation, or, if deemed appropriate and without any further approval from the shareholders of the Company, may choose not to act upon this resolution notwithstanding shareholder approval of the Share Consolidation and are authorized to revoke this resolution in their sole discretion at any time prior to effecting the Share Consolidation; and
6. any officer or director of the Company is authorized to cancel (or cause to be cancelled) any certificates evidencing the existing Common Shares and to issue (or cause to be issued) certificates representing the new Common Shares to the holders thereof."

The Board of Directors intends to implement the Consolidation only if it believes that this action would be in the best interests of the Company. If the Consolidation is approved by the shareholders, the Board of Directors will have the discretion to implement either of the following consolidation ratios: (i) one post-consolidation share for every twenty-five pre-consolidation shares, or (ii) such lesser ratio as the Board of Directors deems appropriate, or (iii) to affect no Consolidation at all. If the shareholders approve the Consolidation, the stock consolidation would be affected if at all, only upon a determination by the Board of Directors of the Company that the Consolidation (and the ratio selected) is in the best interests of the Company and its shareholders at that time. No further action on the part of the shareholders will be required to either affect or abandon the Consolidation.

Even though a stock consolidation, by itself, does not impact a Company's assets or prospects, stock consolidations can result in a decrease in the aggregate market value of a Company's equity capital. The Board of Directors, however, believes that under certain circumstances this risk may be offset by the prospect that the stock consolidation would make an investment in the Company's common shares more attractive for certain investors.

Effect of the Stock Consolidation

The principal effect of the Consolidation will be that the number of shares of common stock issued and outstanding will be reduced from 189,873,268 as of the date of this Circular to approximately 7,594,930 shares (if consolidated on a one post-consolidation shares for every ten pre-consolidation shares basis), depending on the number of fractional shares that are rounded up or rounded down on conversion.

The Consolidation will not affect any shareholder's proportionate equity interest in the Company or the rights, preferences privileges or priorities of any shareholder. However, because the number of authorized shares of the Company's common shares will not be reduced, the Consolidation will increase the Company's Board of Director's ability to issue authorized and unissued shares without further shareholder action. The implementation of the Consolidation would not affect the total shareholder's equity of the Company or any components of shareholders' equity as reflected on the Company financial statements except: (1) to change the number of issued and outstanding common shares, and (2) to change the stated capital of the common shares to reflect the Consolidation. In connection with the Consolidation, proportionate adjustments to the per share exercise or conversion price and the number of shares obtainable upon exercise of outstanding stock options and warrants would be made. The number of shares issuable under the Company's current stock option plan would also be reduced proportionately based on the Consolidation ratio. No fractional shares will be issued in connection with the Consolidation. If as a result of the Consolidation, the holder becomes entitled to a fractional share, such fraction will be rounded to the nearest whole number.

Effect on Convertible Securities, Stock Options and Other Arrangements

The exercise or conversion price and/or the number of common shares of the Company issuable under any outstanding convertible securities, including the Company's stock options and any other similar securities, will be proportionately adjusted upon the implementation of the Consolidation, in accordance with the terms of such securities, based on the Consolidation ratio selected by the Company's Board of Directors.

Effecting the Stock Consolidation

The proposed Consolidation would become effective at the effective time specified by the Board of Directors in a board resolution adopted by it authorizing the implementation of the Consolidation. Management of the Company will publicly announce the effective date of any Consolidation.

Certain Risks Associated with the Stock Consolidation

There are certain risks associated with a stock consolidation, some of which are as follows:

- The Company's total market capitalization immediately after the proposed Consolidation may be lower than immediately before the proposed Consolidation.
- A decline in the market price of the Company's common shares after the Consolidation may result in a greater percentage decline than would occur in the absence of a consolidation, and the liquidity of the common shares could be adversely affected following such a Consolidation.
- The Consolidation may result in some shareholders owning "odd lots" of less than 100 common shares on a post share consolidation basis which may be more difficult to sell, or require greater transaction costs per share to sell.
- The issuance of additional shares after the Consolidation may have a greater effect of diluting the interest of shareholders than before the Consolidation.

Potential Anti-Takeover Effect

Although the increased proportion of unissued authorized shares to issued shares could, under certain circumstances, have an anti-takeover effect (for example, by permitting issuances that would dilute the stock ownership of a person seeking to effect a change in the composition of the Company's Board of Directors or contemplating a tender offer or other transaction for the combination of the Company with another company), the share consolidation proposal is not being proposed in response to any effort of which management is aware to accumulate the Company's common shares or obtain control of the Company, nor is it part of a play by management to recommend to the Board of Directors and the shareholders of the Company a series of amendments to the Notice of Articles of the Company. Other than the stock consolidation proposal, the Board of Directors does not currently contemplate recommending the adoption of any other amendments to the Company's Notice of Articles that could be construed to affect the ability of third parties to take over or change the control of the Company.

Accounting Matters

The stock consolidation will not affect the par value of the Company's common shares. As a result, as of the effective time of the stock consolidation, the stated capital attributable to the Company's common shares on its balance sheet will be reduced proportionately based on the stock consolidation ratio and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. The per-share net income or loss and net book value of the common shares of the Company will be restated because there will be fewer shares of the Company's common shares outstanding.

Summary

The Company is requesting its shareholders approve the proposed amendment. The affirmative vote of at least 1/2 of the votes cast on the resolution is required for approval of this proposal.

Form of Resolution

Management of the Company recommends that shareholders vote in favour of the foregoing resolution, and the persons named in the enclosed form of proxy intend to vote for the approval of the foregoing resolution at the Meeting unless otherwise directed by the shareholders appointing them.

7. **Option Agreement**

A written agreement will be entered into between the Corporation and each Optionee to whom an Option is granted hereunder, which agreement will set out the number of Common Shares subject to option, the exercise price and any other terms and conditions approved by the Board of Directors, all in accordance with the provisions of this Plan (herein referred to as the “**Stock Option Agreement**”). The Stock Option Agreement will be in such form as the Board of Directors may from time to time approve, and may contain such terms as may be considered necessary in order that the Option will comply with any provisions respecting options in the income tax or other laws in force in any country or jurisdiction of which the Optionee may from time to time be a resident or citizen or the rules of any regulatory body having jurisdiction over the Corporation.

Subject to Exchange Policies and any limitations imposed by any relevant regulatory authority, the exercise price of an Option granted under the Plan shall be as determined by the Board of Directors when such Option is granted and shall be an amount at least equal to the Discounted Market Price of the Common Shares.

9. **Exercise of Options**

An Optionee shall be entitled to exercise an Option granted to him at any time prior to the expiry of the Option Period, subject to Sections 10 and 11 hereof and to vesting limitations which may be imposed by the Board of Directors at the time such Option is granted. Subject to Exchange Policies, the Board of Directors may, in its sole discretion, determine the time during which an Option shall vest and the method of vesting, or that no vesting restriction shall exist.

The exercise of any Option will be conditional upon receipt by the Corporation at its head office of a written notice of exercise, specifying the number of Common Shares in respect of which the Option is being exercised, accompanied by cash payment, certified cheques or bank draft for the full purchase price of such Common Shares with respect to which the Option is being exercised.

The Corporation or any subsidiary of the Corporation may take such steps as are considered necessary or appropriate for the withholding and/or remittance of any taxes which the Corporation or any subsidiary of the Corporation is required by any law or regulation of any governmental authority whatsoever to withhold and/or remit in connection with any Option or Option exercise including, without limiting the generality of the foregoing, the withholding and/or remitting of all or any portion of any payment or the withholding of the issue of Common Shares to be issued upon the exercise of any Option until such time as the Optionee has paid to the Corporation or any subsidiary of the Corporation (in addition to the exercise price payable for the exercise of Options) the amount which the Corporation or subsidiary of the Corporation reasonably determines is required to be withheld and/or remitted with respect to such taxes.

For greater certainty, any Optionee who is deemed to be an employee of the Corporation pursuant to any medical or disability plan of the Corporation shall be deemed to be an employee for the purposes of the Plan.

Termination for Cause

If the Optionee ceases to be an eligible person as a result of "termination for cause" of such Optionee by the Corporation or its subsidiary (or in the case of an Optionee who is a Management Company Employee or Consultant, by the Optionee's employer), as that term is interpreted by the courts of the jurisdiction in which the Optionee is employed or engaged, any outstanding Option held by such Optionee on the date of such termination, whether in respect of Option Shares that are Vested or not, shall be cancelled as of that date.

Early Retirement, Voluntary Resignation or Termination Other than For Cause

If the Optionee or, in the case of a Management Company Employee or a Consultant Company, the Optionee's employer, ceases to be an Eligible Person due to his or her retirement at the request of his or her employer earlier than the normal retirement date under the Corporation's retirement policy then in force, or due to his or her termination by the Corporation other than for cause, or due to his or her voluntary resignation, the Option then held by the Optionee shall be exercisable to acquire Unissued Option Shares at any time up to but not after the earlier of the Expiry Date and the date which is 90 days (30 days if the Optionee was engaged in Investor Relations Activities) after the Optionee or, in the case of a Management Company Employee or a Consultant Company, the Optionee's employer, ceases to be an Eligible Person. Notwithstanding the foregoing, the Board of Directors of the Corporation may, in its sole discretion if it determines such is in the best interests of the Corporation, extend the Expiry Date of the Option of an Optionee to a later date within a reasonable period in accordance with Exchange Policy 4.4 (Section 2.8(i)).

11. Death of Optionee

In the event of the death of an Optionee, the Option previously granted to him shall be exercisable within one (1) year following the date of the death of the Optionee or prior to the expiry of the Option Period, whichever is earlier, and then only:

- (a) by the person or persons to whom the Optionee's rights under the Option shall pass by the Optionee's will or the laws of descent and distribution, or by the Optionee's legal personal representative; and
- (b) to the extent that the Optionee was entitled to exercise the Option at the date of the Optionee's death.

12. Optionee's Rights Not Transferable

No right or interest of any Optionee in or under the Plan is assignable or transferable, in whole or in part, either directly or by operation of law or otherwise in any manner except by bequeath or the laws of descent and distribution, subject to the requirements of the Exchange, or as otherwise allowed by the Exchange.

Subject to the foregoing, the terms of the Plan shall bind the Corporation and its successors and assigns, and each Optionee and his heirs, executors, administrators and personal representatives.

13. Takeover or Change of Control

The Corporation shall have the power, in the event of:

- (a) any disposition of all or substantially all of the assets of the Corporation, or the dissolution, merger, amalgamation or consolidation of the Corporation with or into any other company or of such company into the Corporation, or
- (b) any change in control of the Corporation,

to make such arrangements as it shall deem appropriate for the exercise of outstanding Options or continuance of outstanding Options, including without limitation, to amend any Stock Option Agreement to permit the exercise of any or all of the remaining Options prior to the completion of any such transaction. If the Corporation shall exercise such power, the Option shall be deemed to have been amended to permit the exercise thereof in whole or in part by the Optionee at any time or from time to time as determined by the Corporation prior to the completion of such transaction.

14. Anti-Dilution of the Option

In the event of:

- (a) any subdivision, redivision or change of the Common Shares at any time during the term of the Option into a greater number of Common Shares, the Corporation shall deliver, at the time of

any exercise thereafter of the Option, such number of Common Shares as would have resulted from such subdivision, redivision or change if the exercise of the Option had been made prior to the date of such subdivision, redivision or change;

- (b) any consolidation or change of the Common Shares at any time during the term of the Option into a lesser number of Common Shares, the number of Common Shares deliverable by the Corporation on any exercise thereafter of the Option shall be reduced to such number of Common Shares as would have resulted from such consolidation or change if the exercise of the Option had been made prior to the date of such consolidation or change;
- (c) any reclassification of the Common Shares at any time outstanding or change of the Common Shares into other shares, or in case of the consolidation, amalgamation or merger of the Corporation with or into any other company (other than a consolidation, amalgamation or merger which does not result in a reclassification of the outstanding Common Shares or a change of the Common Shares into other shares), or in case of any transfer of the undertaking or assets of the Corporation as an entirety or substantially as an entirety to another company, at any time during the term of the Option, the Optionee shall be entitled to receive, and shall accept, in lieu of the number of Common Shares to which he was theretofore entitled upon exercise of the Option, the kind and amount of shares and other securities or property which such holder would have been entitled to receive as a result of such reclassification, change, consolidation, amalgamation, merger or transfer if, on the effective date thereof, he had been the holder of the number of Common Shares to which he was entitled upon exercise of the Option.

Adjustments shall be made successively whenever any event referred to in this section shall occur. For greater certainty, the Optionee shall pay for the number of shares, other securities or property as aforesaid, the amount the Optionee would have paid if the Optionee had exercised the Option prior to the effective date of such subdivision, redivision, consolidation or change of the Common Shares or such reclassification, consolidation, amalgamation, merger or transfer, as the case may be.

15. **Costs**

The Corporation shall pay all costs of administering the Plan.

16. **Termination and Amendment**

- (a) The Board of Directors may amend or terminate this Plan or any outstanding Option granted hereunder at any time without the approval of the shareholders of the Corporation or any Optionee whose Option is amended or terminated, in order to conform this Plan or such Option, as the case may be, to applicable law or regulation or the requirements of the Exchange or any relevant regulatory authority, whether or not such amendment or termination would affect any accrued rights, subject to the approval of the Exchange or such regulatory authority.
- (b) The Board of Directors may amend or terminate this Plan or any outstanding Option granted hereunder for any reason other than the reasons set forth in Section 16(a) hereof, subject to the approval of the Exchange or any relevant regulatory authority and the approval of the shareholders of the Corporation if required by the Exchange or such regulatory authority. Subject to Exchange Policies, disinterested shareholder approval will be obtained for any reduction in the exercise price of an Option if the Optionee is an Insider of the Corporation at the time of the proposed amendment. No such amendment or termination will, without the consent of an Optionee, alter or impair any rights which have accrued to him prior to the effective date thereof.
- (c) The Plan and any amendments thereto shall be subject to acceptance and approval by the Exchange. Any Options granted prior to such approval and acceptance shall be conditional upon such approval and acceptance being given and no such Options may be exercised unless and until such approval and acceptance are given.

17. **Applicable Law**

In the event that the Optionee dies, the Options shall be exercisable by the legal representative of the Optionee until the Options terminate and therefore cease to be exercisable pursuant to the terms of subsection (b) above.

If any portion of the Options are not vested at the time the Optionee ceases for any reason to be an Eligible Person, such unvested portion of the Options may not be thereafter exercised by the Optionee or its legal representative, as the case may be, provided that the Corporation may, in its discretion, permit the Optionee or its legal representative, as the case may be, to exercise all or any part of such unvested portion of the Options that would have vested prior to the time such Options otherwise terminate and therefore cease to be exercisable pursuant to the terms of hereof.

6. Exchange Matters. If the Optionee is not a director or senior officer of the Corporation, the Optionee and the Corporation represent and warrant to each other that the Optionee:

7. **Non-Continuation.** The Optionee hereby acknowledges and agrees that the Options granted hereunder shall not confer upon the Optionee any right to continue in the employ or engagement of the Corporation or any subsidiary or affiliate, or affect in any way the right of the Corporation or any subsidiary or affiliate to terminate the Optionee, with or without cause, at any time. Further, and if applicable, the Optionee hereby acknowledges and agrees that the Options granted herein shall in no way constitute the basis for a claim for damages by the Optionee in the event of the Optionee's termination of employment with the Corporation or any of its subsidiaries or affiliates for any reason whatsoever, including but not limited to the Optionee's wrongful dismissal, and the Optionee hereby forever releases and discharges the Corporation and all of its directors and officers from any and all claims and rights of action for damages whatsoever based upon or arising under the terms of this Agreement.
8. **No Rights as Shareholder.** The Optionee shall not have any rights or privileges as a shareholder of the Corporation in respect of any Common Shares issuable upon exercise of the Options until such time as the Common Shares have been paid for in full with valid consideration and such Common Shares have been issued to the Optionee in accordance with the terms of this Agreement and the Stock Option Plan.
9. **Adjustment.** If there is a change in the outstanding Common Shares by reason of any share consolidation or split, reclassification or other capital reorganization, or a stock dividend, arrangement, amalgamation, merger or combination, or any other change to, event affecting, exchange of or corporate change or transaction affecting the Common Shares, the board of directors of the Corporation (the "**Board**") shall make, as it shall deem advisable and subject to the requisite approval of the relevant regulatory authorities, appropriate substitution and/or adjustment in:

- and if the Corporation undertakes an arrangement or is amalgamated, merged or combined with another corporation, the Board shall make such provision for the protection of the rights of the Optionee as it shall deem advisable
10. **Non-Assignment.** The Options granted hereby are personal to the Optionee and may not be assigned nor transferred in whole or in part.
11. **Applicable Laws and Policies.** The grant of Options to the Optionee and the obligations of the Corporation to issue and deliver Common Shares to the Optionee in accordance with the terms of this Agreement and the Stock Option Plan shall be subject to all applicable federal, provincial and foreign laws, policies, rules and regulations, to the policies, rules and regulations of any stock exchanges or other markets on which the Common Shares are listed or quoted for trading, and to such approvals by any governmental or regulatory agency, or any stock exchanges or other markets on which the Common Shares are listed or quoted for trading, as may, in the opinion of counsel to the Corporation, be required. The Optionee agrees to comply with all such laws, policies, rules, regulations and approvals in the exercise, holding and disposition of any Common Shares of the Corporation or other securities acquired pursuant to the exercise of the Options.
12. **Hold Period and Trading Restrictions.** The Optionee hereby acknowledges and agrees that in accordance with applicable securities legislation and the provisions of the policies of the TSXV,

Common Shares issuable upon exercise of the Options may be subject to a hold period or trading restrictions.

13. **Stock Option Plan.** The Options shall be subject to the Corporation's stock option plan in effect from time to time (the "**Stock Option Plan**"). In the event that any provision of this Agreement conflicts with any provision of the Stock Option Plan, the provisions of the Stock Option Plan shall prevail.
14. **Personal Information.** The Optionee consents to: (a) the disclosure of Personal Information (as hereinafter defined) by the Corporation (and by any senior officer or director of the Corporation) to the Exchange (defined as the TSX Venture Exchange Inc. and its affiliates, authorized agents, subsidiaries and divisions, including the TSXV) pursuant to the filing of a Form 4G as promulgated under the policies of the TSXV (the "**Form**"); and (b) the collection, use and disclosure of Personal Information by the Exchange for the purposes described in Appendix 6A of the policies of the TSXV or as otherwise identified by the Exchange, from time to time.
