

Coloured Ties Capital Inc.

Financial Statements

Years ended September 30, 2025 and 2024

Expressed in thousands of Canadian dollars

To the Shareholders of Coloured Ties Capital Inc.:

Opinion

We have audited the financial statements of Coloured Ties Capital Inc. (the "Company"), which comprise the statements of financial position as at September 30, 2025 and September 30, 2024, and the statements of net and comprehensive income (loss), changes in equity and cash flows for the years then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at September 30, 2025 and September 30, 2024, and its financial performance and its cash flows for the years then ended in accordance with IFRS[®] Accounting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of private investments

Key Audit Matter Description

As discussed in Note 6 to the financial statements, the Company's investment portfolio includes certain private investments as of September 30, 2025, which are measured at fair value using significant unobservable inputs. Management applied significant judgments and estimates in determining these significant unobservable inputs, which may include the selection of comparable entities, operating results, market multiples, and third party transactions. We identified the valuation of private investments as a key audit matter due to the high degree of auditor judgment and subjectivity in applying procedures relating to assessing the reasonableness of the estimates and assumptions applied by management.

Audit Response

We responded to this matter by performing procedures in relation to the valuation of private investments. Our audit work in relation to this included, but was not restricted to, the following:

- Obtained an understanding of the Company's process for determining the fair value of investments subject to unobservable inputs.
- For a selection of such investments, we involved valuation professionals with specialized skills and knowledge to assist in the testing of the fair value by assessing the appropriateness of the valuation approach, including assessing the reasonability of the third party transactions and general market information.
- On sample basis, obtained confirmations for major inputs and assumptions used in valuing the investments and assessed the sufficiency of the audit evidence obtained by evaluating the reasonableness of the key assumptions and potential bias in the accounting estimates by comparing to recent transactions, equity financing, and business updates.
- Assessed the related disclosures in the financial statements.

Other Information

Management is responsible for the other information. The other information comprises Management's Discussion and Analysis.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated. We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS® Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Abhishek Kapoor.

Coloured Ties Capital Inc.

Notes to the Financial Statements

For the years ended September 30, 2025 and 2024

(Expressed in thousands of Canadian dollars, except number of shares)

1. OVERVIEW & GENERAL INFORMATION

Coloured Ties Capital Inc. (the “Company”) is a publicly traded company that was formed on August 22, 2008, by an amalgamation of two predecessor entities. The Company is incorporated and domiciled in Canada having its corporate head office located at 1500 Royal Centre, 1055 West Georgia Street, PO box 11117, Vancouver, BC, V6G 2Z6. The Company is primarily listed and trading on the TSX Venture Exchange (“TSXV”) with the trading symbol “TIE”.

The Company’s board decided to shift its focus from mineral exploration to an investment issuer, recognizing this as the best use of resources and receiving final TSXV approval for the change on August 19, 2021.

These financial statements for the years ended September 30, 2025, and 2024 (“Financial Statements”) have been prepared with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The operations of the Company were primarily funded by the issuance of share capital. The issuance of additional equity securities by the Company may result in significant dilution to the equity interests of current shareholders. The Company’s future capital requirements will depend on many factors, including the current capital market environment, global market conditions, and management’s strategic investment decisions.

2. BASIS OF PRESENTATION

Statement of compliance

These Financial Statements have been prepared in accordance with IFRS[®] Accounting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”). The Company has determined that it meets the definition of an investment entity under IFRS.

Basis of measurement

These Financial Statements have been prepared on an accrual basis and are based on historical costs, except for certain financial instruments measured at fair value through profit or loss. Additionally, these Financial Statements have been prepared using the accrual basis of accounting, except for cash flow information.

Unless otherwise noted, these Financial Statements are presented in Canadian dollars, which is also the functional currency of the Company. All dollar amounts reported are expressed in thousands except per income or loss per share.

Approval of the financial statements

These Financial Statements of the Company for year ended September 30, 2025 were approved and authorized for issue by the Board of Directors on January xx, 2026.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies used in the preparation of these Financial Statements are described below.

Foreign currency translation

Functional and presentation currency

The Company’s Financial Statements are presented in Canadian dollars unless otherwise stated. The Company determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. The determination of functional currency is based on the primary economic environment in which an entity operates. The functional currency of an entity reflects the underlying transactions, events and conditions that are relevant to the entity. Factors that an entity considers when determining its functional currency include: (i) the currency that mainly influences sales prices for goods and services, (ii) the currency of the country whose competitive forces and regulations mainly determine the sales prices of its goods and services, (iii) the currency that mainly influences labour, material and other costs of providing goods or services, (iv) the currency in which funds from financing activities are generated, and (v) the currency in which receipts from operating activities are usually retained. When the indicators are mixed, and the functional currency of an entity is not obvious, management uses its judgment to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

Coloured Ties Capital Inc.

Notes to the Financial Statements

For the years ended September 30, 2025 and 2024

(Expressed in thousands of Canadian dollars, except number of shares)

The functional currency of the Company is the Canadian dollar.

Financial instruments

Financial Assets

Under IFRS 9 Financial Instruments (“IFRS 9”), financial assets are classified into one of the following categories:

- those to be measured subsequently at fair value (either through OCI, or through the statement of income (loss)), or
- those to be measured at amortized cost.

The classification depends on the entity’s business model for managing the financial assets and the contractual terms of the cash flows.

The Company initially measures financial assets (except for those classified as fair value through profit or loss) at their cost. Transaction costs of financial assets carried at fair value through profit or loss (“FVPL”) are expensed in the statement of income and comprehensive income on initial recognition.

Financial assets and liabilities are offset, and the net amount is presented in the statement of financial position only when the Company has a legally enforceable right to set off the recognized amounts and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Subsequent measurement of financial assets depends on the Company’s business model for managing the financial asset and the cash flow characteristics of the financial asset. There are three measurement categories into which the Company classifies its financial assets:

Subsequent measurement of financial assets depends on the Company’s business model for managing the financial asset and the cash flow characteristics of the financial asset. There are three measurement categories into which the Company classifies its financial assets:

- **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is recognized using the effective interest method. Foreign exchange gains and losses as well as any gain or loss arising on derecognition are recognized in the statement of income and comprehensive income.
- **FVOCI:** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets’ cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (“FVOCI”). Movements in the carrying amount are recorded through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in the statement of income and comprehensive income. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to the statement of income and comprehensive income.
- **FVPL:** Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognized in the statement of income and comprehensive income.

Changes in the fair value of financial assets at FVPL are recognized in the statement of income and comprehensive income. Impairment losses (and reversal of impairment losses) on equity investments measured at fair value are not reported separately from other changes in fair value. The Company measures all equity investment, including derivative instruments, at FVPL.

The Company derecognizes a financial asset if the contractual rights to the cash flows from the asset expire, or the Company transfers substantially all the risks and rewards of ownership of the financial asset. Gains and losses on derecognition are recognized in the statement of income and comprehensive income.

Equity instruments

Unless an election is made, the Company subsequently measures all equity investments at fair value. As a result of the Company becoming an investment issuer, these gains will now be reported in income or loss whereas they were previously in other

Coloured Ties Capital Inc.

Notes to the Financial Statements

For the years ended September 30, 2025 and 2024

(Expressed in thousands of Canadian dollars, except number of shares)

comprehensive income. There is no subsequent reclassification of fair value gains and losses to the statement of income and comprehensive income following the derecognition of the investment.

Financial Liabilities

Under IFRS 9, the Company's financial liabilities are classified into one of the two categories: at FVPL or at amortized cost.

- **FVPL:** Financial liabilities carried at FVPL are initially recorded at fair value and transaction costs are expensed in the statement of income (loss). Realized and unrealized gains and losses arising from changes in the fair value of the financial liabilities held at FVPL are recognized in the statement of income and comprehensive income in the period in which they arise, except for changes in fair value resulting from an entity's own credit risk which are recognized in other comprehensive income (loss). The deferred payments liability has been classified as a FVPL financial liability. The Company has determined that changes in its credit risk has not materially impacted the fair value of the deferred payments liability.
- **Financial liabilities at amortized cost:** Financial liabilities carried at amortized cost are initially recognized at fair value and subsequently carried at amortized cost less any impairment.

The Company derecognizes a financial liability when the financial liability is discharged, cancelled or expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in the statement of income and comprehensive income.

The following table shows the classification of the Company's financial instruments:

Financial assets

Cash and cash equivalents	Amortized cost
Investments	FVPL
Amount receivable	Amortized cost
Due from related parties	Amortized cost

Financial liabilities

Accounts payable and accrued liabilities	Amortized cost
Due to related parties	Amortized cost

Stock-based compensation

The Company grants stock options to purchase common shares of the Company to directors, officers, employees and consultants.

Employees and others providing similar services

The Board of Directors grants stock options to directors, officers, and employees for periods of up to five years, with vesting periods determined at its sole discretion. Stock options granted to employees and others providing similar services are valued based on the fair value of the equity instruments granted. When stock options granted to employees' vest in instalments over a vesting period, each instalment is treated as a separate grant. The fair value of stock options granted to employees is measured at grant date using the Black-Scholes option pricing model. The fair value is recognized as an expense over the vesting period with a corresponding increase in contributed surplus. The amount recognized as an expense is adjusted to reflect the number of stock options expected to vest.

Non-employees

Stock options granted to non-employees are valued based on the fair value of the goods or services received, unless that fair value cannot be estimated reliably, in which case, the fair value of the goods and services received is measured, indirectly, by reference to the fair value of the equity instruments granted. The fair value is recognized as a cost when the Company obtains the goods or the counterparty renders the service, with a corresponding increase in contributed surplus. The fair value is recognized as a cost over the vesting period, if any. When applicable, the fair value of stock options granted to non-employees is measured using the Black-Scholes option pricing model. The fair value of identifiable goods and services is measured on the date the Company obtains the goods or the counterparty renders the services. The fair value of unidentifiable goods and services is measured at grant date.

Coloured Ties Capital Inc.

Notes to the Financial Statements

For the years ended September 30, 2025 and 2024

(Expressed in thousands of Canadian dollars, except number of shares)

Modifications

Modifications to the vesting periods of stock-based compensation are accounted for prospectively from the modification date to the revised vesting date.

Income tax

Income tax comprises current and deferred tax. Income tax is recognized in the statement of income and comprehensive income except to the extent that it relates to items recognized directly in OCI or directly in equity, in which case the income tax is also recognized directly in OCI or equity, respectively.

Current tax is the expected tax payable on taxable income for the period, using tax rates enacted or substantively enacted, at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

In general, deferred tax is recognized in respect of deferred tax consequences attributable to unused tax loss carry forwards, unused tax credits and temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the following temporary differences do not result in deferred tax assets or liabilities:

- the initial recognition of assets or liabilities, not arising in a business combination, that do not affect accounting or taxable profit,
- goodwill; and
- investments in subsidiaries, branches and associates, and interests in joint arrangements where the timing of reversal of the temporary differences can be controlled and reversal in the foreseeable future is not probable.

Deferred income tax is determined on a non-discounted basis. Deferred tax assets and liabilities are presented as non-current.

Deferred tax assets and liabilities are measured using the enacted or substantively enacted tax rates expected to apply when the asset is realized, or the liability settled. The effect on deferred tax assets and liabilities of a change in tax rate is recognized in the statement of income and comprehensive income in the period that enactment or substantive enactment occurs.

A deferred tax asset, including that related to unused tax loss carry forwards, is recognized to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. To the extent that the Company does not consider it probable that a deferred tax asset will be recovered, the deferred tax asset is reduced.

The Company's unused non-capital tax losses in Canada can be carried forward for twenty years. The Company's capital tax losses in Canada do not expire.

Current tax assets and current tax liabilities are offset if, and only if, the Company has a legally enforceable right to set off the recognized amounts; and the Company intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. Deferred tax assets and deferred tax liabilities are offset if, and only if, the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

Share capital

Common shares are classified as equity. Costs directly attributable to the issuance of shares are recognized as a deduction from equity. Proceeds received on the issuance of units, consisting of common shares and warrants, are allocated using the residual method with the fair value of the warrants determined using the trading price of the Company on the date of the issuance of units. Warrants issued with exercise prices in an entity's functional currency are accounted for as a form of contributed surplus within equity. Upon exercise of these warrants, consideration paid by the holders, together with the amount previously recognized as contributed surplus, is recorded as an increase to share capital.

Redemption of common shares are recorded as a reduction in share capital at the average original share purchase value on a pro rata basis. The amount of any premium or discount on redemption of the common shares is recorded against deficit.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, held at banks, or held with investment brokers as well as short-term investments with an original maturity of 90 days or less, which are readily convertible into known amounts of cash.

Coloured Ties Capital Inc.

Notes to the Financial Statements

For the years ended September 30, 2025 and 2024

(Expressed in thousands of Canadian dollars, except number of shares)

Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing net income (loss) for the period attributable to equity owners excluding the non-controlling interest ("NCI"), of the Company by the weighted average number of common shares outstanding during the period.

Diluted earnings per share is computed by adjusting the weighted average number of common shares outstanding for dilutive instruments. The number of shares included with respect to options, warrants and similar instruments is computed using the treasury stock method, which assumes any proceeds received by the Company upon exercise of the in-the-money instruments would be used to repurchase common shares at the average market price for the period. However, the calculation of diluted loss per share excludes the effects of various conversions and exercise of options and warrants that would be anti-dilutive. Shares held in escrow, other than where their release is subject to the passage of time, are not included in the calculation of the weighted average number of common shares outstanding.

Accounting standards issued but not yet applied

The following amendments to standards have been issued by the International Accounting Standards Board ("IASB") and are applicable to the Company for its annual periods beginning on and after October 1, 2024:

IFRS 18 Presentation and Disclosure in Financial Statements

In April 2024 the IASB issued a new standard, IFRS 18 "Presentation and Disclosure in Financial Statements". This standard will replace IAS 1 and (i) provides a defined structure for the statement of profit or loss and will require items in the statement to be classified into one of five categories: operating, investing, financing, income taxes and discontinued operations, (ii) requires enhanced disclosures within the notes to the financial statements for certain non-GAAP profit or loss performance measures (management defined performance measures, "MPM") that are reported outside an entity's financial statements including a reconciliation between the MPM and the most similar specified subtotal in IFRS Accounting Standards, and (iii) provides clarification on aggregation and disaggregation. The new standard will apply to reporting periods beginning on or after January 1, 2027 and will apply to comparative information. Management is currently evaluating the impact of this future policy on the consolidated financial statements.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these Financial Statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates.

Critical accounting judgements

Critical accounting judgements are accounting policies that have been identified as being complex or involving subjective Judgements or assessments.

Determination of investment issuer status

The Company considered all the available facts and concluded that the Company met all three criteria set forth in IFRS 10 to meet the definition of an investment issuer:

- Obtains funds from one or more investors for the purpose of providing those investor(s) with investment management services;
- Commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- Measures and evaluates the performance of substantially all of its investments on a fair value basis.

Critical accounting estimates

Critical accounting estimates are estimates and assumptions made by management that may result in material adjustments to the carrying amounts of assets and liabilities within the next financial period.

Coloured Ties Capital Inc.

Notes to the Financial Statements

For the years ended September 30, 2025 and 2024

(Expressed in thousands of Canadian dollars, except number of shares)

Income taxes

Tax interpretations, regulations and legislation in the various jurisdictions in which the Company operates are subject to change and interpretation. As such, income taxes are subject to measurement uncertainty. Assessing the recoverability of deferred tax assets requires the Company to make significant estimates related to the expectations of future taxable income and the application of existing tax laws. To the extent that future taxable income differs significantly from estimates, the ability of the Company to realize deferred tax assets could be impacted. Additionally, changes in tax laws could limit the ability of the Company to obtain tax deductions in the future.

Privately held equity investments

Estimating fair value requires that significant judgment be applied to each individual investment. For privately held investments, the fair value of each investment is measured using the most appropriate valuation methodology or combination of methodologies in the judgment of management in light of the specific nature, facts and circumstances surrounding that investment. This may take into consideration, but not be limited to, one or more of the following: valuations of recent or in-progress funding rounds, forward revenue and earnings projections, comparable peer valuation multiples, and the initial cost base of the investment. Actual results could differ significantly from these estimates.

Stock-based compensation and derivative instruments

The fair value of share-based payments and warrants held as equity investments are subject to the limitations of the Black-Scholes option pricing model that incorporates market data and involves uncertainty in estimates used by management in the assumptions. Because the Black-Scholes option pricing model requires the input of highly subjective assumptions, including the volatility of share prices, changes in subjective input assumptions can materially affect the fair value estimate. The Company revalued the derivative instrument based on the Black-Scholes model with revised assumptions prevailing at the date of the financial statements.

5. CASH AND CASH EQUIVALENTS

As at September 30, 2025, the Company had a cash balance of \$506 (September 30, 2024 - \$12) held with bank and \$152 (September 31, 2024 - \$70) with investment brokerage.

Pursuant to a client account agreement, one of the investment brokers has provided a margin credit facility to the Company. The amount of margin facility at any given time is based on lower of: a) 30% of the fair market value of the shares held in Patriot Battery Metals Inc. b) \$5,000. The interest rate of the margin facility is prime lending rate plus 3%. As of September 30, 2025, the Company has a payable balance of \$nil (September 30, 2024 - \$456) in the margin facility. During the year ended September 30, 2025, the Company closed the account associated with this facility.

Coloured Ties Capital Inc.

Notes to the Financial Statements

For the years ended September 30, 2025 and 2024

(Expressed in thousands of Canadian dollars, except number of shares)

The continuity of the Company's investments during the year ended September 30, 2025, is as follows:

	September 30, 2024	Transfer of Investments	Purchase of Investments	Sale of Investments	Realized Gains (Losses) (\$)	Unrealized Gains (Losses) (\$)	September 30, 2025
	(\$)	(\$)	(\$)	(\$)	(\$)	(\$)	(\$)
Private equity investments ⁽¹⁾	10,080	(350)	80	-	-	(9,730)	80
Public equity investments	12,698	350	4,988	(6,153)	(1,141)	5,544	16,286
Derivative instruments	193	-	-	-	(88)	173	278
Total	22,971	-	5,068	(6,153)	(1,229)	(4,013)	16,644

The Company has common executives with AuAg Exploration Inc., Akanda Corp., Navco Pharmaceuticals Inc., PAWS Pharmaceuticals Inc. and Hertz Energy Inc., and the Company has common directors with LaFleur Minerals Inc.

On August 21, 2025, Canadian Towers and Fiber Optics Inc. ("Canadian Towers") completed a share purchase agreement with Akanda Corp., whereby Akanda Corp. acquired all of the issued and outstanding shares of Canadian Towers. The Company's shares in Canadian Towers were converted into 82,465 Class A Special Shares and 869,611 Class B Special Shares of Akanda Corp. Each special share converts into common shares of Akanda on a 1:1 basis. The Class B shares convert to common shares on the following basis: 19.9% on February 2, 2026, 2.25% on August 3, 2026, 3.25% on February 3, 2027 and the remaining on August 3, 2027.

Warrants are fair valued using either the listed price on a stock exchange as at September 30, 2025 or the Black-Scholes option pricing model with revised assumptions as of September 30, 2025; such as risk-free rate, volatility, dividend yield, and expected life. Warrants not covered in broker statements are valued using the Black-Scholes option pricing method, incorporating revised assumptions. This approach ensures comprehensive valuation for warrants without readily available market prices on broker statements. The inputs in which the Black-Scholes pricing method to value the warrants are below:

Description	Expiry Date	Warrants	Stock Price	Exercise Price	Discount Rate	Volatility
WT - Brand Pilot AI Inc..	09/05/2030	50,000	0.02	0.05	2.73%	100%
WT- Briacell Therapeutics	02/26/2026	39,200	0.03	0.01	2.5%	100%
WT- Caprock Mining Corp.	02/26/2026	3,335,000	0.05	0.06	2.4%	100%
WT - Hertz Energy Inc.	12/14/2025	500,000	0.07	0.40	2.75%	94.31%
WT- Laiva Gold	02/08/2027	50,000	0.80	1.20	2.47%	100%
WT- Light AI	06/30/2026	100,000	0.19	0.80	2.40%	100%
WT - Leef Brands Inc.	04/19/2026	406,006	0.18	1.50	2.50%	100%
WT - Meal Ticket Brand Systems	06/11/2025	2,500,000	0.15	0.35	2.75%	100%
WT - Honey Badger Silver Inc..	04/11/2026	500,000	0.28	0.18	2.39%	100%
WT - Honey Badger Silver Inc..	01/23/2027	681,818	0.28	0.15	2.47%	100%
WT - Sirios Resources Inc.	12/23/2025	6,250,000	0.08	0.15	2.42%	100%
WT - Spod Lithium Corp.	12/23/2025	767,857	0.02	0.12	2.50%	100%
WT - Digital Commodities Corp.	01/29/2027	666,600	\$ 0.03	\$ 0.15	2.47%	100%

Option pricing models require the use of highly subjective estimates and assumptions. The expected volatility assumption is based on the historical and implied volatility of the investment's common share price on the relevant stock exchange. The risk-free interest rate assumption is based on yield curves on Canadian government zero-coupon bonds with a remaining term equal to the warrants' expected life. The Company uses historical data to estimate option exercise, forfeiture and employee termination within the valuation model.

7. SHARE CAPITAL

Common shares

Authorized shares

Unlimited number of common shares and preferred shares without par value.

Issued

As at September 30, 2025 there were 21,886,934 issued and fully paid common shares (September 30, 2024 – 16,152,491)

Transactions during the year ended September 30, 2025

On October 19, 2024, pursuant to the vesting of the Restricted Share Units (RSUs), the Company issued 1,290,000 common shares to its directors, officers, and consultants. Upon vesting, \$535 of contributed surplus was transferred to share capital

On August 21, 2025, the company completed a private placement 4,444,443 units at a price of \$0.225 per unit for gross proceeds of \$1,000. Each unit is comprised of one common share and one common share purchase warrant. The purchase warrants can be exercised at \$0.28 per common share and expires on August 21, 2028.

Transactions during the year ended September 30, 2024

On May 25, 2024, pursuant to the vesting of the Restricted Share Units (RSUs), the Company issued 840,000 common shares to its directors, officers, and consultants. Upon vesting, \$647 of contributed surplus was transferred to share capital.

On November 30, 2023, pursuant to exercise of the stock options, the Company issued 100,000 common shares for cash consideration of \$31. Upon exercise, \$22 of contributed surplus was transferred from reserve to share capital.

Stock options

Stock option plan

The Company has a stock option plan under which the Board of Directors may from time-to-time grant to directors, senior officers, consultants and employees options to acquire common shares, exercisable for a period of up to ten years from the date of grant. The stock option plan provides that the maximum number of common shares in the capital of the Company that may be reserved for issuance for all purposes under the stock option plan shall not exceed 10% of the total issued and outstanding common shares. The maximum number of common shares that may be reserved for issuance to any individual pursuant to stock options may not

Coloured Ties Capital Inc.

Notes to the Financial Statements

For the years ended September 30, 2025 and 2024

(Expressed in thousands of Canadian dollars, except number of shares)

exceed 5% of the common shares issued and outstanding at the time of grant, and the number of common shares that may be reserved for issuance to all investor relations consultants pursuant to stock options may not exceed 2% of the common shares issued and outstanding at the time of grant. Options become exercisable as long as the optionee holds office or continues to be employed by the Company and 90 days following the cessation of an optionee's position with the Company.

The following is a summary of changes in stock options for the year ended September 30, 2025 and September 30, 2024:

	Number of options	Weighted average exercise price (\$)	Weighted average life
Balance as at September 30, 2023	1,355,000	0.39	2.36
Options exercised	(100,000)	0.31	-
Balance as at September 30, 2024	1,255,000	0.40	1.40
Options cancelled	(1,005,000)	0.31	-
Balance, September 30, 2025	250,000	0.75	2.32

During the year ended September 30, 2025, the Company granted nil (2024 – nil) stock options to directors, officers, and consultants of the Company. During the year ended September 30, 2025, the Company recognized an expense of \$nil (2024 - \$450) for the grant of stock options.

Option pricing models require the use of highly subjective estimates and assumptions. The expected volatility assumption is based on the historical and implied volatility of the Company's common share price on the TSXV. The risk-free interest rate assumption is based on yield curves on Canadian government zero-coupon bonds with a remaining term equal to the stock options' expected life. The Company uses historical data to estimate option exercise, forfeiture and employee termination within the valuation model.

Transactions during the year ended September 30, 2025

During the year, 1,005,000 options granted to directors, consultants and management expired unexercised.

Transactions during the year ended September 30, 2024

On November 30, 2023, pursuant to exercise of the stock options, the Company issued 100,000 common shares for cash consideration of \$31. Upon exercise, \$22 of contributed surplus was reclassified to share capital.

Warrants

As at September 30, 2025, the Company had 6,327,520 (September 30, 2024 - 1,883,076) warrants outstanding.

	Number of Warrants	Weighted average exercise price (\$)	Weighted average life
Balance as at September 30, 2023	1,883,076	0.80	2.81
Balance as at September 30, 2024	1,883,076	0.80	1.81
Warrants Granted	4,444,444	0.28	2.89
Balance as at September 30, 2025	6,327,520	0.43	2.27

Transactions during the year ended September 30, 2025

4,444,444 common share purchase warrants were granted during the year ended September 30, 2025. The warrants can be exercised at a price of \$0.28 per common share and expire on August 21, 2028.

Transactions during the year ended September 30, 2024

There were no warrants transactions during the year ended September 30, 2024.

Coloured Ties Capital Inc.

Notes to the Financial Statements

For the years ended September 30, 2025 and 2024

(Expressed in thousands of Canadian dollars, except number of shares)

Restricted Stock Units

Restricted Stock Units Plan

The Company's stock option plan allows the Board of Directors to issue Restricted Share Units (RSUs) to eligible persons at its discretion. RSUs cannot be paid out in shares until necessary approvals are obtained from the Company, shareholders, disinterested shareholders, the TSXV, and other regulatory bodies. The plan permits a maximum of 2,211,186 shares for issuance from treasury. Cancelled or terminated RSUs not paid out will be available for future issuance under the plan.

The following is a summary of changes in RSU for the year ended September 30, 2025, and September 30, 2024:

	Number
Balance as at September 30, 2023	2,205,000
RSU vested	(840,000)
Balance as at September 30, 2024	1,365,000
RSU vested	(1,290,000)
RSU Forfeited	(75,000)
Balance as at September 30, 2025	-

Transactions during the year ended September 30, 2025

No RSU's were issued during the year ended September 30, 2025.

Transactions during the year ended September 30, 2024

No RSU's were issued during the year ended September 30, 2024.

8. GENERAL AND ADMINISTRATIVE EXPENSES

	Years ended	
	September 30, 2025	September 30, 2024
	\$	\$

	943	1,985

Coloured Ties Capital Inc.

Notes to the Financial Statements

For the years ended September 30, 2025 and 2024

(Expressed in thousands of Canadian dollars, except number of shares)

9. OTHER INCOME (EXPENSE)

	Years ended	
	September 30, 2025	September 30, 2024
	\$	\$
Interest income	170	69
Recovery of bad debts	-	1,269
Other income	-	7
Foreign exchange gain (loss)	13	27
Gain (Loss) on sale of assets		(8)
	183	1,364

10. INCOME (LOSS) PER SHARE

The calculation of income per share is based on the following data:

	Years ended	
	September 30, 2025	September 30, 2024
Net income (loss) for the year	(6,002)	1,456
Weighted average number of shares - Basic	17,878,113	15,592,901
Weighted average number of shares - Diluted	17,878,113	17,080,468
Income (loss) per share - Basic	(0.34)	0.09
Income (loss) per share - Diluted	(0.34)	0.09

Basic income (loss) per share is calculated by dividing the net loss by the weighted average number of common shares outstanding. Diluted income (loss) per share considers potentially dilutive securities, such as stock options and warrants, if their inclusion would lower earnings per share. However, when the Company is in a loss position, these securities become anti-dilutive and are excluded from the calculation.

11. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

Fair value estimation of financial instruments

The carrying value of cash and cash equivalents, due from related party, accounts payable and accrued liabilities, and due to related parties approximate their fair values due to the short-term maturity of the financial instruments. Public investments and derivatives are fair valued using the quoted price and observable inputs, respectively. Therefore, their carrying value represents their fair value. Private equity investments are fair valued using unobservable inputs, which involves significant assumptions based on the conditions prevailing at the reporting date.

Financial instruments measured at fair value

Financial instruments that are measured at fair value subsequent to initial recognition are grouped in a hierarchy based on the degree to which the fair value is observable. The levels in the hierarchy are:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 – inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 – inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Fair value of financial instruments

The Company is responsible for performing the valuation of fair value measurements included in the Financial Statements, including Level 3 fair values. The valuation processes and results for recurring measurements are reviewed at least once every quarter, in line with the Company's quarterly reporting dates.

The following is a summary of the Company's financial instruments categorized in the fair value hierarchy as at September 30, 2025, and September 30, 2024.

Coloured Ties Capital Inc.

Notes to the Financial Statements

Financial risk management

The Company is exposed to certain financial risks related to its financial instruments, including currency risk, interest rate risk, credit risk and liquidity risk. Except as disclosed below, the Company's exposure to these risks and its methods of managing the risks remain consistent.

Currency risk

The Company is exposed to financial risk related to fluctuations in foreign exchange rates. Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

As at September 30, 2025, the Company's head office held United States dollars ("US\$") \$8 (September 30, 2024 – US\$25) of foreign currency in cash and cash equivalents and US\$324 (September 30, 2024 – US\$69) in investments. The Company had \$nil owed to the Margin facility (September 30, 2024 - \$132) The Company estimates that a 5% weakening of the Canadian dollar vis-à-vis the US\$ at September 30, 2025, would have increased the Company's reported net loss for year ended September 30, 2025, by approximately \$17 (September 30, 2024 - \$3). A 5% strengthening of the Canadian dollar at September 30, 2025, would have had an equal but opposite effect.

Interest rate risk

Interest rate risk is the potential fluctuation in the fair value or future cash flows of a financial instrument due to market interest rate changes. When investing, the Company staggers maturity dates to minimize exposure. The Company has a margin facility with an interest rate of prime lending rate plus 3%, actively monitored to optimize financing costs. No derivatives manage this risk, and management believes the Company has minimal interest rate exposure. As of September 30, 2025, the Company had a payable balance of \$nil (September 30, 2024 - \$456) in the margin facility. During the year ended September 30, 2025, the Company paid interest of \$71 (2024 - \$208)

Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligation. The Company's exposure to credit risk is related to its cash and cash equivalents and loan receivable. The carrying value of the financial assets represents the maximum exposure to credit risk. The Company's exposure to credit risk is considered to be low-moderate, given the size and nature of the various counterparties involved and their history of performance.

As at September 30, 2025, the Company had \$506 (September 30, 2024 - \$12) held with financial institutions that have been assigned a long-term issuer default rating of AAA (Fitch Ratings), and \$152 (September 30, 2024 - \$70) held with the investment brokers in Canada.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company attempts to ensure that there are sufficient funds to meet its short-term business requirements, taking into account its holdings of cash. All of the Company's financial liabilities are short-term and without fixed terms of repayment.

To date, the Company has relied on cash flows from operations, equity financing, and sale of assets to fund its operations.

Coloured Ties Capital Inc.

Notes to the Financial Statements

For the years ended September 30, 2025 and 2024

(Expressed in thousands of Canadian dollars, except number of shares)

Equity price risk

Equity price risk is the uncertainty associated with the valuation of assets arising from changes in equity markets. The Company's equity investments consisting of common shares and investments consisting of share purchase warrants and options are exposed to significant equity price risk due to the potentially volatile and speculative nature of the businesses in which the investments are held. The Company's investments are monitored by the Board with decisions on sale or exercise taken by Management. An 10% decrease in fair value of the equity and derivative investments would result in an approximate \$1,656 increase in the net loss for year ended September 30, 2025 (2024 – decrease in net income by \$1,289).

12. RELATED PARTY TRANSACTIONS

The Company's related parties consist of key management personnel and companies owned or controlled directly or indirectly by key management personnel.

Key management personnel, including executive and non-executive members of the Board of Directors and corporate officers (Chief Executive Officer ("CEO"), chief Financial Officer ("CFO"), and Chief Development Officer ("CDO")), are responsible for planning, directing, and controlling the activities of the Company. Management fees for the corporate officers are reported under "Management Fees," while Director fees are grouped within "Professional and Consulting Fees" in the financial statements.

As at September 30, 2025, the Company has a balance of \$411 due from related parties (September 30, 2024 - \$399).

During the year ended September 30, 2023, the Company entered into a loan agreement with Canuck Lithium Corp. ("CLC") to advance \$265 to assist CLC in its mineral exploration projects. The amount bears interest at a rate of 4% and is due to be payable on December 31, 2023. On December 31, 2023, the Company entered into an amended agreement with Canuck to extend the due date of the promissory note from December 31, 2023, to December 31, 2024. As at September 30, 2025, the Company has accrued \$25 (2024 - \$14) as interest receivable on the promissory note. On December 31, 2024, the Company further amended the agreement to extend the due date of the promissory note to December 31, 2025.

During the year ended September 30, 2023, the Company advanced \$1,150 to LFLR via a promissory note bearing interest at 4% per annum, due on December 31, 2024. During the fiscal year 2023, the Company accrued \$12 in interest receivable and recorded a \$1,162 allowance for doubtful accounts based on expected credit losses to write off the total balance. During the year ended September 30, 2024, subsequent to LFLR being funded, the Company reversed the allowance and further accrued interest of \$118, making the total balance to be \$1,280. On May 24, 2024, LaFleur Minerals Inc. settled \$1,200 of the total debt owed to the Company by transferring 6,666,666 shares of Superior Mining International Corporation.

On January 24, 2024, the Company received a \$350 loan from CEO Kulwant Malhi, with a 10% annual interest rate. The loan and interest are payable on demand. During the year ended September 30, 2025, the Company repaid \$250 of the principal balance. As at September 30, 2025, the principal outstanding is \$100 and interest of \$55 (2024 - \$25) is accrued.

On January 25, 2024, the Company received a loan of \$30 from FLE and signed a promissory note bearing an interest of 4% per annum. The loan will mature on January 30, 2025. This loan was repaid on March 5, 2024, in full.

Coloured Ties Capital Inc.

Notes to the Financial Statements

For the years ended September 30, 2025 and 2024

(Expressed in thousands of Canadian dollars, except number of shares)

On January 30, 2024, the Company received two loans from FLE: \$161 at 4% interest and \$1,300 at 9.5% interest, both maturing on January 30, 2025. The \$161 loan was fully repaid on March 5, 2024. As at September 30, 2025, \$1,049 of the \$1,300 loan was repaid, with \$55 (2024 - \$10) accrued as interest expense.

On June 27, 2024, the Company entered into a loan agreement with Bullrun Capital Inc. (“Bullrun”) a company controlled by the CEO. Pursuant to the agreement, the Company borrowed \$100 from BullRun. The loan bears an interest rate of 4.0% per annum and was due in full on June 27, 2025. As at September 30, 2025, the Company has accrued an interest of \$5 (2024 - \$1) on this loan and it is considered due on demand

13. CAPITAL MANAGEMENT

The Company’s objectives in managing liquidity and capital are to safeguard the Company’s ability to continue as a going concern and provide the financial capacity to meet its strategic objectives. The Company defines its capital as equity attributable to shareholders of the Company. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt and/or acquire or dispose of assets to facilitate the management of its capital requirements. The Company’s investment policy is to invest in equity, debt and/or convertible securities, with the intention to hold both for long-term capital appreciation and shorter-term gains. The Company prepares annual expenditure budgets that are updated as necessary depending upon various factors, including successful capital deployment and general industry conditions. The Company’s board of directors approves the annual and updated budgets.

The Company is not subject to any external imposed capital requirements and there were no changes in the Company’s capital management during the year ended September 30, 2025, and year ended September 30, 2024.

14. INCOME TAXES

Reported income tax expense differs from the amount computed by applying the combined Canadian federal and provincial income tax rate to loss before income tax due to the following:

	September 30, 2025	September 30, 2024
	\$	\$
Income (loss) before income tax	(6,002)	1,456
Canadian statutory income tax rate	27%	27%
Expected income tax expense (recovery)	(1,620)	393
Items not deductible for tax purposes	(39)	(127)
Under provided in prior years	(884)	4,576
Unused tax losses and tax offsets not recognized	1,835	(4,842)
Non-deductible portion of capital items	708	-
Change in unrecognized deferred tax assets	-	-
Income tax expense (recovery)	-	-

The tax effected items that give rise to significant portions of the deferred income tax assets and deferred income tax liabilities as at year-end are presented below:

	September 30, 2025	September 30, 2024
	\$	\$
Deferred income tax asset		
Non capital losses	384	1,767
Total deferred income tax liabilities	384	1,767
Deferred income tax liabilities		
Investments – fair value	(384)	(1,767)
Total deferred income tax liabilities	(384)	(1,767)
Net deferred income tax liabilities	-	-

Coloured Ties Capital Inc.

Notes to the Financial Statements

For the years ended September 30, 2025 and 2024

(Expressed in thousands of Canadian dollars, except number of shares)

The Company recognizes tax benefits on losses or other deductible amounts where the probable criteria for the recognition of deferred tax assets has been met. The Company's unrecognized deductible temporary differences and unused tax losses for which no deferred tax asset is recognized consist of the following amounts:

	September 30, 2025	September 30, 2024
	\$	\$
Unrecognized deductible temporary differences and unused tax losses:		
Non capital losses	59,410	53,380
Property, plant and equipment	271	271
Due to related parties (unpaid bonus)	637	637
Net capital losses	63,230	62,461
	123,548	116,749

The Company has net capital losses of \$63,230 (2024 - \$62,461) that can be carried forward indefinitely. The Company's non-capital loss carry forwards in Canada expire as follows (in Canadian dollars before applying the applicable tax rates):

	\$
2030	3,505
2031	6,878
2032	2,475
2033	-
2034	5,857
2035	18,758
2036	3,740
2037	6,091
2038	3,146
2039	1,999
2040	-
2041	-
2042	4,031
2043	-
2044	2,025
2045	905
Total	59,410

15. SUPPLEMENTAL CASH FLOW INFORMATION

Following table depicts the supplemental cash flow information for years September 30, 2025, and 2024.

	September 30, 2025	September 30, 2024
	\$	\$
Cash paid for the year for:		
Interest	7	208

(Expressed in thousands of Canadian dollars, except number of shares)

16. SEGMENT DISCLOSURE

The Company has one operating segment, being the acquisition and sale of investments in other companies.

17. COMMITMENTS AND CONTINGENCIES

On December 2, 2021, the Company entered into a consulting agreement with the CEO. In consideration of the CEO's services, the Company is committed to compensating him with a bonus equal to 10% of the Company's EBITDA stipulated at the end of each fiscal year-end. During the year ended September 30, 2025, the Company accrued \$nil (2024 - \$200) associated with a bonus for the CEO, based on 10% of the 2025 fiscal year's earnings before interest, tax, depreciation, and amortization ("EBITDA").
