MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS For the nine month period ended June 30, 2017

BACKGROUND

The following discussion and analysis, prepared as of August 23, 2017, should be read together with the audited consolidated financial statements and the accompanying notes for the year ended September 30, 2016 and the unaudited condensed interim consolidated financial statements and accompanying notes for the three and nine month period ended June 30, 2017 prepared in accordance with International Financial Reporting Standards. All amounts are stated in Canadian dollars unless otherwise indicated.

Statements in this report that are not historical facts are forward-looking statements involving known and unknown risks and uncertainties, and actual results could vary considerably from these statements (see section headed "Forward-Looking Information"). Readers are cautioned not to put undue reliance on forward-looking statements.

DESCRIPTION OF BUSINESS

Unisync Corp. is a British Columbia corporation and reporting issuer in British Columbia, Alberta, Manitoba and Ontario. Unisync's voting Class B common shares are listed and posted for trading on the TSX Venture Exchange under the symbol "UNI". Unisync Corp. and its subsidiaries are hereinafter referred to collectively as "Unisync" or the "Company".

Unisync operates through two business segments: Unisync Group Limited ("UGL") of Mississauga, Ontario and Peerless Garments LP ("Peerless") of Winnipeg, Manitoba. Peerless specializes in the production and distribution of highly technical protective garments, military operational clothing and accessories for a broad spectrum of Federal, Provincial and Municipal government departments and agencies. UGL is a leading customer-focused provider of corporate apparel, serving a list of leading Canadian iconic brands such as Air Canada, Home Hardware, Loblaws, Purolator and TELUS.

Unisync's goal is to make the process of ordering, receiving and wearing of apparel, related accessories and duty gear, a customer friendly experience. Unisync is a vertically integrated Canadian enterprise with exceptional capabilities in garment design, domestic manufacturing and offshore outsourcing, combined with state-of-the-art web based B2B ordering, distribution and program management systems.

Business Strategy

Unisync is one of the largest broadly based independent uniform providers in Canada. The business strategy is to market the combined manufacturing and distribution capabilities of Unisync to secure additional accounts in the government and corporate sectors.

In addition, the Company intends to utilize these manufacturing and distribution platforms for expansion into other segments of the garment industry and/or to add established revenue producing businesses as profitable complimentary acquisition opportunities present themselves at accretive values. Building upon the acquisition of UGL in June 2014, Unisync acquired Carleton Uniforms Inc. ("Carleton") of Carleton Place, Ontario in May 2015 and Omega Uniforms Systems Ltd. ("Omega") of Vancouver, British Columbia in June 2015 to operate under the UGL segment. Carleton is a full service uniform provider specializing in work and dress wear for the Canadian Emergency Services sector while Omega is a western based supplier of corporate uniform programs, image apparel and custom uniforms.

RESULTS OF OPERATIONS

The following table sets out selected consolidated financial information for the previous three fiscal years. Due to the change in year end from November 30, to September 30, the results for the year ended September 30, 2014 are for a ten month period.

The results as at September 30, 2014 and for the ten month period ended September 30, 2014 were restated to recognize the \$1,500,000 redemption amount of the put/call agreement with the minority partner of Peerless Garments LP as a current liability from the inception of the agreement in 2010. The operations of Carleton, Omega and UGL are included in the consolidated financial statements from the respective dates of each acquisition.

Results for the quarter ended June 30, 2017 versus the quarter ended June 30, 2016

Revenue for the three months ended June 30, 2017 of \$17.3 million was up \$4.8 million compared to the three months ended June 30, 2016 on a \$4.4 million revenue increase in the Peerless segment and a \$0.4 million revenue increase in the UGL segment. Peerless segment revenue of \$8.6 million in third quarter 2017 increased by 104% over the same period in the prior year. The current quarter included sales of \$1.5 million held over from the second quarter to accommodate the Department of National Defence ("DND")'s receiving schedule. Also third quarter 2016 Peerless segment revenue was impacted by temporary production delays with the commencement of work on enhanced combat uniforms under options totalling \$16.6 million exercised by the DND in late fiscal 2015. UGL segment revenue of \$8.7 million in the third quarter of 2017 increased by 5% from the corresponding quarter in 2016 on account of a large new uniform rollout to a multi-location Western Canada casino customer.

UNISYNC CORP.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS For the nine month period ended June 30, 2017

Gross profit for the three months ended June 30, 2017 was \$3.0 million or 17% of revenue versus \$1.5 million or 12% of revenue during the three months ended June 30, 2016. With the increase in revenue in the Peerless segment experienced in the current quarter, gross profit of \$2.0 million increased by \$1.2 million from the same period in the prior year and the Peerless segment's gross profit margin improved to 23% of revenue from 18% due to a higher margin product mix and a greater absorption of fixed overhead costs. The UGL segment recorded a gross profit of \$1.0 million or 12% of segment revenue up from a gross profit of \$0.8 million or 10% of segment revenue in the same quarter of the prior fiscal year. The improvement in gross profit and gross profit margin was caused by the higher margin product mix included in the revenue increase.

General and administrative expenses of \$2.2 million increased by \$0.2 million in the three months ended June 30, 2017 from the three months ended June 30, 2016 primarily due to staff changes and additions.

Interest expense of \$180,229 for the current quarter was down from \$243,086 in the same period in fiscal 2016 on account of reduced borrowings in the UGL segment as it's working capital requirements were partially funded by customer deposits received against the cost of producing uniforms for the segment's largest customer's new uniform design.

The Company's net income of \$404,463 for the quarter ended June 30, 2017 compared to a loss of \$529,879 in the third quarter last year as a result of the current period increase in revenue and margin improvement. Cash flow from operations, before non-cash working capital items and distributions to minority partner, was \$985,514 for the three months ended June 30, 2017 versus a loss of \$250,969 for the three month period ended June 30, 2016. With the improved results in the Peerless segment, distributions to minority partner increased to \$141,437 in the current quarter from \$34,552 in the same period last year.

Business Trends

UGL has hedged the exchange rate on the offshore production costs of its largest customer's new uniform design to begin shipping in the fourth quarter of 2017 and it is continuing to make product sourcing changes so the segment's margins are expected to improve through the balance of fiscal 2017 and into 2018. The combination of improved margins and increased absorption of fixed overhead costs associated with an increase in projected revenues from UGL's established and recently acquired accounts, is expected to result in greater profitability for the UGL segment over the rest of 2017 and into 2018.

With \$40 million in firm contracts and options on hand as at June 30 2017, up from \$38 million as at the end of fiscal 2016, the Peerless business segment is well positioned to maintain revenues and profitability for the balance of fiscal 2017 and 2018.

LIQUIDITY

Unisync has established two operating loan facilities totalling \$18,500,000 from a Canadian chartered bank. The maximum amount available under the facilities is based on certain margin requirements and covenants as stipulated in the loan facility agreements.

In June 2014, Unisync obtained a \$6.0 million term loan facility from a Canadian chartered bank to finance the acquisition of Unisync Group Limited. The facility is repayable by way of quarterly principal payments of \$300,000 with an outstanding balance of \$3.0 million as of the date of this MD&A.

During the year ended September 30, 2016, the Company received shareholder advances of \$2,105,000. Interest and the processing fees on the advances are accrued and payable at the time of repayment of the principal amounts of the advances. Repayment of the principal amounts of the advances and the accrued interest and processing fees is due on March 15, 2018.

Excluding the due to the current portion of the term loan facility and the shareholder financing, Unisync had working capital of \$6,760,856 and \$6,893,772 at June 30, 2017 and September 30, 2016, respectively. As at June 30, 2017, the Company had foreign exchange contracts of US\$5,500,000

(September 30, 2016 - nil) and letters of credit totalling \$324,887 (September 30, 2016 - \$324,887) outstanding along with operating loans of \$4,205,204 (September 30, 2016: \$14,166,150) under its two operating loan facilities. The amounts outstanding under the operating loan facilities decreased by \$3,366,318 during the quarter ended June 30, 2017 as a result of deposits received from the UGL segment's largest customer. Deposits received from customers are recorded as deferred revenue and the deposits made on offshore production for those customers' new uniforms are recorded under prepaid expenses.

Capital expenditures on tangible and intangible assets for the three months ended June 30, 2017 of \$295,380 were up from \$68,507 in the same period in the prior year. Capital expenditures relate to the UGL segment's cost of tailoring its web based B2B ordering system to service the launch of new accounts and to equipment automation in its Guelph distribution facility. Capital expenditures for the Peerless segment are expected to be minimal in fiscal 2017 and the UGL segment is expected to incur an approximate \$300,000 increase in capital expenditures primarily for new equipment and leasehold improvements at its Guelph distribution centre following the July 2016 five year lease extension on that facility.

Since the acquisition of UGL, Unisync has suspended dividend payments due to capital requirements from acquisitions and increased business volume. At a later date, Unisync will reconsider its dividend policy.

CRITICAL ACCOUNTING ESTIMATES

Measurement Uncertainty

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions about future events that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

Key areas of estimates and judgments are listed in Note 4 to the condensed interim consolidated financial statements and include but are not limited to the recognition of deferred income taxes, costing allocations of labour and overhead for inventories, the estimated useful lives of property, plant and equipment, recording of accrued liabilities and contingencies, due to minority partner, valuation of investments, valuation of receivables and inventory obsolescence, valuation of goodwill and share based payments and the allocation of purchase consideration on the acquisition of businesses. Actual results could differ from these estimates.

CHANGE IN ACCOUNTING POLICIES

Accounting standards issued but not yet applied

The reader is referred to Note 3 to the condensed interim consolidated financial statements for a summary of new standards which will be effective for future years. The Company is in the process of assessing the impact of these new standards.

FORWARD-LOOKING INFORMATION

This Management Discussion and Analysis contains forward-looking information. Specific forward-looking statements included or incorporated by reference in this document include, but are not limited to, statements with respect to:

- the Company's plan to expand into other segments of the garment industry and/or to add established revenue producing businesses as stated in the Business Strategy section;
- the Company's view that the Government of Canada will increase its purchasing of garments from the Peerless segment at current or better margins and that the UGL segment will increase its market share while experiencing improving margins as outlined in the Business Trends section;
- the forecast that customer deposits received will be used to complete offshore production of uniforms that are expected to be shipped later in 2017 and in 2018 in the Liquidity section;

Often, but not always, forward-looking information can be identified by the use of words such as "plans", "expects" or "does not expect", "is expected", "estimates", "intends", "believes", "anticipates" or "does not anticipate", or variations of such words and phrases or states that certain actions, events, or results "may", "could", "would", "might", "will be taken", "occur", or "be achieved". Forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Unisync to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Although Unisync has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended.

Known and unknown factors could cause actual results or events to differ materially from those projected in the forward-looking statements. Such material factors include, but are not limited to competition, operational risk, litigation, a change in the timing or bidding conditions of future government contracts, customer concentration/economic dependence, working capital, potential conflicts of interest, volatility of
