## **NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)**

For the nine months ended September 30, 2017

(Expressed in Canadian Dollars)

---

### **1. CORPORATE INFORMATION**

Rackla Metals Inc. (the "Company") is pursuing opportunities related to exploration of mineral resource properties. The Company was incorporated in the Province of British Columbia on September 20, 2011, and is listed on the TSX Venture Exchange ("TSX-V"), having the symbol RAK.

The address of the Company's corporate office and principal place of business is 650, 200 Burrard Street, Vancouver, BC, Canada V6C 3L6.

### **2. BASIS OF PREPARATION**

These condensed interim financial statements are prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting* under International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB"). These condensed interim financial statements follow the same accounting policies and methods of application as the most recent annual financial statements of the Company. These condensed interim financial statements do not contain all of the information required for full annual financial statements. Accordingly, these condensed interim financial statements should be read in conjunction with the Company's most recent annual financial statements, which were prepared in accordance with IFRS as issued by the IASB.

#### **Basis of Measurement**

These condensed interim financial statements have been prepared on the historical cost basis, except for certain financial instruments carried at fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The presentation and functional currency of the Company is the Canadian dollar.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

#### **Nature of Operations and Ability to Continue as a Going Concern**

These condensed interim financial statements have been presented on the basis that the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Realization values may be substantially different from the carrying values shown and these condensed interim financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At September 30, 2017, the Company had not yet achieved profitable operations, has accumulated losses of \$7,789,973 since inception, and is expected to incur further losses in the development of its business, all of which raises significant doubt about its ability to continue as a going concern. The Company will periodically have to raise funds to continue operations; although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future. If the Company is unable to obtain additional financing, management may be required to curtail certain discretionary expenses.

These condensed interim financial statements do not give effect to adjustments to the recoverability of assets and satisfaction of liabilities that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

### 3. STANDARDS, AMENDMENTS AND INTERPRETATIONS NOT YET EFFECTIVE

The Company will be required to adopt the following standards and amendments issued by the IASB as described below. The Company is in the process of evaluating the impact of the new standard and amendments on its financial statements.

#### *IFRS 9 Financial Instruments*

IFRS 9 will replace IAS 39 *Financial Instruments: Recognition and Measurement* and IFRIC 9 *Reassessment of Embedded Derivatives*. The final version of this new standard supersedes the requirements of earlier versions of IFRS 9.

The main features introduced by this new standard compared with predecessor IFRS are as follows:

- *Classification and measurement of financial assets:*  
Debt instruments are classified and measured on the basis of the entity's business model for managing the asset and its contractual cash flow characteristics as either: "amortized cost", "fair value through other comprehensive income", or "fair value through profit or loss" (default). Equity instruments are classified and measured as "fair value through profit or loss" unless upon initial recognition elected to be classified as "fair value through other comprehensive income".
- *Classification and measurement of financial liabilities:*  
When an entity elects to measure a financial liability at fair value, gains or losses due to changes in the entity's own credit risk is recognized in other comprehensive income (as opposed to previously profit or loss). This change may be adopted early in isolation of the remainder of IFRS 9.
- *Impairment of financial assets:*  
An expected credit loss impairment model replaced the incurred loss model and is applied to financial assets at "amortized cost" or "fair value through other comprehensive income", lease receivables, contract assets or loan commitments and financial guarantee contracts. An entity recognizes twelve-month expected credit losses if the credit risk of a financial instrument has not increased significantly since initial recognition and lifetime expected credit losses otherwise.
- *Hedge accounting:*  
Hedge accounting remains a choice, however, is now available for a broader range of hedging strategies. Voluntary termination of a hedging relationship is no longer permitted. Effectiveness testing now needs to be performed prospectively only. Entities may elect to continue to applying IAS 39 hedge accounting on adoption of IFRS 9 (until the IASB has completed its separate project on the accounting for open portfolios and macro hedging).

Effective for the Company's annual period beginning January 1, 2018.

#### **4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS**

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in profit or loss in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

The key areas of judgment applied in the preparation of the condensed interim financial statements that could result in a material adjustment to the carrying amounts of assets and liabilities are as follows:

- i) The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company.

Assets or CGUs are evaluated at each reporting date to determine whether there are any indications of impairment. The Company considers both internal and external sources of information when making the assessment of whether there are indications of impairment for the Company's exploration and evaluation assets.

In respect of costs incurred for its investment in exploration and evaluation assets, management has determined the acquisition costs that have been capitalized may not be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefit, including access to financing to further exploration and development, geologic and metallurgic information, economics assessment/ studies, accessible facilities and existing permits.

- ii) The Company has not recognized a deferred tax asset as management believes that it is not probable that taxable profit will be available against which a deductible temporary difference can be utilized.
- iii) The determination of when an investment is impaired required significant judgment. In making this judgment, the Company evaluates, amongst other things, the duration and extent to which the fair value of the investment is less than its original cost at each reporting period.
- iv) The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its operating expenditures, meet its liabilities for the current year, and to fund planned contractual exploration programs, involves significant judgement based on historical experiences and other factors including expectation of future events that are believed to be reasonable under the circumstances.

#### 5. AVAILABLE-FOR-SALE INVESTMENTS

As of September 30, 2017, available-for-sale investments consisted of 75,000 common shares of Damara Gold Corp. ("Damara"), a public company, and 200,000 common shares of Voyager Gold Corp. ("Voyager"), a private company with a common director. The private company shares were initially measured at fair value and subsequently written down to \$1.

As at September 30, 2017, the carrying amount for the available-for-sale investments was \$10,501 (December 31, 2016: \$3,751).

During the period ended September 30, 2017, there was an increase in value of the Damara shares by \$6,750. This amount was recorded as a fair value gain in other comprehensive income.

For the nine months ended September 30, 2017

(Expressed in Canadian Dollars)

#### 7. EXPLORATION AND EVALUATION ASSETS

The Company has capitalized the following acquisition costs of its mineral property interests as at September 30, 2017:

	Rivier	Scarlet	Sixty Mile	Face	Total
Balance, December 31, 2015	\$ 77,025	\$ 1	\$ 1	\$ 1	\$ 77,028
Write-off acquisition costs	(77,024)	-	-	-	(77,024)
Balance, December 31, 2016	1	1	1	1	4
<b>Balance, September 30, 2017</b>	<b>\$ 1</b>	<b>\$ 1</b>	<b>\$ 1</b>	<b>\$ 1</b>	<b>\$ 4</b>

Details of the Company's mineral property interests are disclosed in full in the financial statements for the year ended December 31, 2016. Significant changes to exploration and evaluation assets since "December 31, 2016 are as follows:

(i) Scarlet Property – Yukon Territory

The Scarlet Property consists of 100% owned claims located in the Mayo Mining District and is divided into two claim blocks, Scarlet East and Scarlet West. During the period ended September 30, 2017, a total 193 Scarlet West claims were allowed to lapse. As at September 30, 2017, the Scarlet Property consists of 550 total claims of which 230 claims are in Scarlet East and 320 claims are in Scarlet West.

(ii) Rivier Property – Yukon Territory

The Rivier Property, located in the Watson Lake Mining District, consisted of 116 claims of which 16 claims are 100% owned and 100 claims were held pursuant to an option agreement (the "Initial Option") with the property owner.

Pursuant to amending agreements dated July 15, 2014, October 28, 2015, and October 28, 2016, in order for the Company to exercise the option, it had to pay a total of \$140,000 cash and issue a total of 250,000 common shares of the Company to the property owner over a period ending October 31, 2020, of which 50,000 common shares have been issued.

Voyager held an option (the "Voyager Option") to acquire from the Company a 60% interest in the Rivier Property. Pursuant to amending agreements dated November 14, 2014, October 28, 2015 and October 28, 2016, in order to keep the Voyager Option in good standing, Voyager had to pay a total of \$200,000 cash to the Company, issue a total of 1,000,000 common shares of Voyager to the Company and incur an aggregate \$1,000,000 in exploration expenditures on the property over a period ending November 30, 2019, of which 200,000 common shares have been received and \$100,000 in expenditures incurred.

The Company was required to keep the Initial Option in good standing as long as the Voyager Option remains outstanding. Subsequent to September 30, 2017, Voyager terminated the Voyager Option and thereafter the Company terminated the Initial Option, resulting in the Rivier Property being reduced to 16 claims that are 100% owned by the Company.

#### 8. EXPLORATION EXPENDITURES

There were no exploration expenditures incurred during the periods ended September 30, 2017 and 2016.

## RACKLA METALS INC.

(An Exploration Stage Company)

### NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

For the nine months ended September 30, 2017

(Expressed in Canadian Dollars)

#### 9. SHARE CAPITAL AND RESERVES

##### (a) Common Shares

The Company is authorized to issue an unlimited number of common shares without par value.

During the period ended September 30, 2017, a total of 350,000 share purchase warrants were exercised for gross proceeds of \$17,500.

##### (b) Share Purchase Warrants

The following is a summary of changes in warrants from January 1, 2016 to September 30, 2017:

	Number of warrants	Weighted average exercise price
Balance, December 31, 2015	5,000,000	\$0.05
Balance, December 31, 2016	5,000,000	\$0.05
Exercised	(350,000)	\$0.05
<b>Balance, September 30, 2017</b>	<b>4,650,000</b>	<b>\$0.05</b>

As at September 30, 2017, the following share purchase warrants were outstanding:

Expiry date	Number of warrants	Exercise price
October 18, 2017	4,650,000	\$0.05

#### 10. SHARE-BASED PAYMENTS

##### Option Plan Details

The Company has in place a stock option plan (the "Plan"), which allows the Board of Directors to grant incentive stock options to the Company's officers, directors, employees and consultants. The exercise price of stock options granted is determined by the Board of Directors at the time of the grant in accordance with the terms of the Plan and the policies of the TSX-V. Options vest on the date of granting unless stated otherwise. Options granted to investor relations consultants vest in accordance with TSX-V regulation. The options are for a maximum term of ten years.

##### Share Purchase Options

There was no stock option activity during the period ended September 30, 2017.

As at September 30, 2017, the following stock options were outstanding:

Expiry date	Number of options	Exercise price
July 19, 2022	245,000	\$0.75

The weighted average remaining contractual life of the options outstanding at September 30, 2017 is 4.80 years (December 31, 2016: 5.55).

For the nine months ended September 30, 2017

(Expressed in Canadian Dollars)

#### 11. RELATED PARTY TRANSACTIONS

The Company had transactions during the periods ended September 30, 2017 and 2016 with related parties consisting of directors, officers and the following companies with common directors:

<u>Related party</u>	<u>Nature of transactions</u>
Gold Group Management Inc. ("Gold Group")	Shared office and administrative related charges
Mill Street Services Ltd. ("Mill Street")	Management services

Balances and transactions with related parties not disclosed elsewhere in these condensed interim financial statements are as follows:

- (a) During the periods ended September 30, 2017 and 2016, the Company reimbursed Gold Group for the following costs:

	<u>Three months ended</u> <u>September 30,</u>		<u>Nine months ended</u> <u>September 30,</u>	
	<u>2017</u>	<u>2016</u>	<u>2017</u>	<u>2016</u>
General and administrative expenses:				
Office and administration	\$ 6,996	\$ 9,535	\$ 22,111	\$ 28,212
Salaries and benefits	2,485	4,420	9,435	17,813
Transfer agent and regulatory fees	500	-	2,896	1,753
Travel and accommodation	248	261	642	1,082
	<b>\$ 10,229</b>	<b>\$ 14,216</b>	<b>\$ 35,084</b>	<b>\$ 48,860</b>

Gold Group is reimbursed by the Company for certain shared costs and other business related expenses paid by Gold Group on behalf of the Company. Salaries and benefits costs paid to Gold Group include those for the Chief Financial Officer and Corporate Secretary.

- (b) Deposits as of September 30, 2017 consist of \$61,000 (December 31, 2016: \$61,000) paid to Gold Group and are related to the shared office and administrative services agreement with Gold Group. Upon termination of the agreement, the deposits, less any outstanding amounts owing to Gold Group, are to be refunded to the Company.
- (c) Amounts due to related parties as of September 30, 2017 consist of \$100,789 (December 31, 2016: \$64,542) due to Gold Group and \$84,525 (December 31, 2016: \$51,450) owed to Mill Street. The balance due to Gold Group is collateralized by a deposit and the balance due to Mill Street is unsecured and due on demand. The amounts due do not bear interest.

#### Key management compensation

Key management personnel are persons responsible for planning, directing and controlling the activities of an entity, and include certain directors and officers. Key management compensation comprises:

	<u>Three months ended</u> <u>September 30,</u>		<u>Nine months ended</u> <u>September 30,</u>

## **12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT**

The Company is exposed to the following financial risks:

- Market Risk
- Credit Risk
- Liquidity Risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these condensed interim financial statements.

### **General Objectives, Policies and Processes**

The Board of Directors has overall responsibility for the determination of the Company's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and policies to the Company's management. The Board of Directors receives periodic reports through which it reviews the effectiveness of the processes put in place and the appropriateness of the objectives and policies it sets.

The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility. Further details regarding these policies are set out below.

#### **(a) Market Risk**

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market prices affecting the Company are comprised of the following types of risk: interest rate risk and equity price risk. The Company is not exposed to the risk related to the fluctuation of foreign currency rates.

##### *Interest Rate Risk*

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company does not have any borrowings. Interest rate risk is limited to potential decreases on the interest rate offered on cash held with chartered Canadian financial institutions. The Company considers this risk to not be significant.

##### *Equity Price Risk*

Equity price risk is the uncertainty associated with the valuation of assets arising from changes in equity markets. The Company's available-for-sale investments are exposed to equity price risk due to the potentially volatile and speculative nature of the businesses in which the available-for-sale investments are held. The common shares held in Damara and Voyager are monitored by management with decisions on sale taken at Board level. A 10% decrease in fair value of the shares would result in a \$1,050 increase or decrease in net loss and comprehensive loss.

#### **(b) Credit Risk**

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its cash and available-for-sale investments. The Company limits exposure to credit risk by maintaining its cash with chartered Canadian financial institutions. The Company does not have cash or available-for-sale investments that are invested in asset-based commercial paper.

## **12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)**

### (c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to provide reasonable assurance that it will have sufficient funds to meet liabilities when due. The Company manages its liquidity risk by forecasting cash flows required by operations and anticipated investing and financing activities. At September 30, 2017, the Company had cash of \$21,576 (December 31, 2016: \$31,254) available to apply against short-term business requirements and current liabilities of \$187,013 (December 31, 2016: \$133,476). All of the Company's financial liabilities have contractual maturities of less than 45 days and are subject to normal trade terms.

### **Determination of Fair value**

Fair values have been determined for measurement and/or disclosure purposes based on the following methods. All financial instruments at September 30, 2017 are carried at amortized cost, apart from the available-for-sale investment in a public company with shares in an active market of \$10,500 (December 31, 2016: \$3,750), which is carried at fair value. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

The statement of financial position carrying amounts for cash, accounts payables and accrued liabilities, and due to related parties approximates fair value due to their short-term nature. Due to the use of subjective judgments and uncertainties in the determination of fair values these values should not be interpreted as being realizable in an immediate settlement of the financial instruments.

The Company has made the following designations of its financial instruments: cash as fair-value-through-profit-or-loss, available-for-sale investments as available-for-sale financial assets, and accounts payable and accrued liabilities and due to related parties as other financial liabilities.

### **Fair Value Hierarchy**

Financial instruments that are measured subsequent to initial recognition at fair value are grouped in Levels 1 to 3 based on the degree to which the fair value is observable:

Level 1	Unadjusted quoted prices in active markets for identical assets or liabilities;
Level 2	Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
Level 3	Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The available-for-sale investment for Damara is based on a quoted price and is therefore considered to be Level 1.

The available-for-sale investment in Voyager was recorded at fair value when it was received and assessed for impairment as at September 30, 2017 and December 31, 2016. This investment is considered to be Level 3.

#### **13. CAPITAL MANAGEMENT**

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to advance its mineral properties. The Company defines its capital as all components of equity. In order to facilitate the management of its capital requirements, the Company prepares periodic budgets that are updated as necessary. The Company manages its capital structure and makes adjustments to it to effectively support the acquisition and exploration of mineral properties. The properties in which the Company currently has an interest are in the exploration stage; as such, the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for general administrative costs, the Company will spend its existing capital resources and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There have been no changes in the Company's approach to capital management during the year. As at September 30, 2017, the Company is not subject to any externally imposed capital requirements. The Company does not expect its capital resources to be sufficient to cover its corporate operating costs and future exploration expenditures through the next twelve months. As such, the Company will seek to raise additional capital and believes it will be able to do so, but recognizes the uncertainty attached thereto.

#### **14. SEGMENTED REPORTING**

The Company is organized into business units based on mineral properties and has one reportable operating segment, being that of acquisition and exploration and evaluation activities. All of the Company's long-term assets and operations are in Canada.

#### **15. EVENTS AFTER THE REPORTING DATE**

Subsequent to September 30, 2017, the following events which have not been disclosed elsewhere in these financial statements have occurred:

- a) 4,650,000 share purchase warrants were exercised at a price of \$0.05 per share for proceeds of \$232,500.
