FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

INDEPENDENT AUDITORS' REPORT

TO THE SHAREHOLDERS OF RACKLA METALS INC.

We have audited the accompanying financial statements of Rackla Metals Inc., which comprise the statements of financial position as at December 31, 2016 and 2015 and the statements of comprehensive loss, changes in shareholders' equity (deficiency) and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Rackla Metals Inc. as at December 31, 2016 and 2015, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

Emphasis of Matter

Without qualifying our opinion, we draw attention to note 2 in the financial statements, which describes matters and conditions that indicate the existence of material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern.

(An Exploration Stage Company)

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

1. CORPORATE INFORMATION

Rackla Metals Inc. (the "Company") is pursuing opportunities related to exploration of mineral resource properties. The Company was incorporated in the province of British Columbia on September 20, 2011, and is listed on the TSX Venture Exchange ("TSX-V"), having the symbol RAK.

The address of the Company's corporate office and principal place of business is 650 - 200 Burrard Street, Vancouver, BC, Canada V6C 3L6.

2. BASIS OF PREPARATION

Statement of Compliance

These financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB").

Basis of Measurement

These financial statements have been prepared on the historical cost basis, except for certain financial instruments carried at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The presentation and functional currency of the Company is the Canadian dollar.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

Ability to Continue as a Going Concern

These financial statements have been presented on the basis that the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Realization values may be substantially different from the carrying values shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At December 31, 2016, the Company had not yet achieved profitable operations, has accumulated deficit of \$7,707,207 since inception, and is expected to incur further losses in the development of its business, all of which raises significant doubt about its ability to continue as a going concern. The Company will periodically have to raise funds to continue operations; although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future. If the Company is unable to obtain additional financing, management may be required to curtail certain discretionary expenses.

These financial statements do not give effect to adjustments to the recoverability of assets and satisfaction of liabilities that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all years presented in these financial statements.

(a) Loss Per Share

The Company presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of shares outstanding during the period. Diluted loss per share is determined by adjusting the weighted average number of common shares outstanding for the effects of all dilutive potential common shares. In a loss year, potentially dilutive equity instruments are excluded from the loss per share calculation, as the effect would be anti-dilutive. Basic and diluted loss per share is the same for all years presented.

(b) Income Taxes

Income tax on profit or loss for the periods presented comprises current and deferred tax. Income tax is recognized in profit or loss, except to the extent that it relates to items recognized directly in equity or other comprehensive loss, in which case the income tax is recognized in equity or other comprehensive loss.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted, or substantively enacted, at the end of the reporting period, and any adjustment to tax payable in respect of previous years. Current tax assets and current tax liabilities are only offset if a legally enforceable right exists to set off the amounts, and the Company intends to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax is provided for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Temporary differences are not provided for the initial recognition of assets or liabilities in a transaction that is not a business combination and affects neither accounting nor taxable profit. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amounts of assets and liabilities, on a non-discounted basis using tax rates at the end of the reporting period applicable to the period of expected realization.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

(c) Foreign Currency Translation

The functional currency of the Company is the Canadian dollar. Amounts recorded in foreign currency are translated into Canadian dollars as follows:

- (i) Monetary assets and liabilities, at the exchange rate in effect as at the statement of financial position date;
- (ii) Non-monetary assets and liabilities, at the exchange rates prevailing at the time of the acquisition of the assets or assumption of the liabilities; and
- (iii) Revenues and expenses, at the exchange rates on the date of the transactions.

Exchange differences arising from the translations are recorded as a gain or loss on foreign currency translation in profit or loss.

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(d) Property, Equipment and Amortization

Recognition and Measurement

Property and equipment are recorded at cost less accumulated amortization and any impairment losses.

Amortization

Amortization is recognized in profit or loss. Property and equipment are amortized over their estimated useful lives using the following method:

Leasehold improvements	7 to 8 years straight-line
------------------------	----------------------------

Additions during the year are amortized on a pro-rated basis.

(e) Exploration and Evaluation Assets and Expenditures

Acquisition costs for exploration and evaluation assets, net of recoveries, are capitalized on a property-by-property basis. Acquisition costs may include cash consideration, the value of common shares issued based on fair values, and the fair value of share purchase warrants and options issued based on amounts determined using the Black-Scholes option pricing model.

Exploration expenditures, net of recoveries, are charged to operations as incurred. After a property is determined by management to be commercially feasible, development expenditures on the property are capitalized.

When there is little prospect of further work on a property being carried out by the Company or its optionee, when a property is abandoned or when the capitalized costs are no longer considered recoverable, the related property costs are written down to management's estimate of their net recoverable amount. Acquisition costs are also tested for impairment before the assets are transferred to development properties. The costs related to a property from which there is production, together with the costs of production equipment, will be depleted and amortized using the unit-of-production method.

Exploration and evaluation assets acquired under an option agreement where payments are made at the sole discretion of the Company are capitalized at the time of payment. The Company may occasionally enter into farm-out arrangements, whereby the Company will transfer part of a mineral interest, as consideration, for an agreement by the transferee to meet certain exploration and evaluation expenditures, which would have otherwise been undertaken by the Company. The Company does not record any expenditures made by the farmee on its behalf. Any cash consideration received from the agreement is credited against the costs previously capitalized, with any excess cash recognized in profit or loss.

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(f) Impairment of Non-Financial Assets

Impairment tests on non-financial assets, including exploration and evaluation assets, are undertaken annually at the financial year-end and whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount, which is the higher of value in use and fair value less costs to sell, the asset is written down accordingly.

Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the asset's cash-generating unit ("CGU"), which is the lowest group of assets in which the asset belongs for which there are separately identifiable cash inflows that are largely independent of the cash inflows from other assets.

An impairment loss is charged to profit or loss, except to the extent it reverses gains previously recognized in other comprehensive loss.

(g) Provisions

Rehabilitation Provision

The Company is subject to various government laws and regulations relating to environmental disturbances caused by exploration and evaluation activities. The Company records the present value of the estimated costs of legal and constructive obligations required to restore the exploration sites in the year in which the obligation is incurred. The nature of the rehabilitation activities includes restoration, reclamation and revegetation of the affected exploration sites.

The rehabilitation provision generally arises when the environmental disturbance is subject to government laws and regulations. When the liability is recognized, the present value of the estimated costs is capitalized by increasing the carrying amount of the related exploration properties. Over time, the discounted liability is increased for the changes in present value based on current market discount rates and liability specific risks.

At December 31, 2016 and 2015, exploration and evaluation rehabilitation costs were \$Nil.

Other Provisions

Provisions are recognized where a legal or constructive obligation has been incurred as a result of past events, where it is probable that an outflow of resources embodying economic benefit will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. If material, provisions are measured at the present value of the expenditures expected to be required to settle the obligation. The increase in any provision due to passage of time is recognized as accretion expense.

(h) Share Capital

Equity instruments are contracts that give a residual interest in the net assets of the Company. Financial instruments issued by the Company are classified as equity only to the extent that they do not meet the definition of a financial liability or financial asset. The Company's common shares, share warrants and options are classified as equity instruments.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from proceeds.

Warrants issued by the Company typically accompany an issuance of shares in the Company (a "unit"), and entitle the warrant holder to exercise the warrants for a stated price and a stated number of common shares in the Company. The fair value of the unit components sold is measured using the residual value approach.

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(i) Share-based Payments

Where equity-settled share options are awarded to employees, the fair value of the options at the date of grant is charged to profit or loss over the vesting period using the graded vesting method. Performance vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at each reporting date so that, ultimately, the cumulative amount recognized over the vesting period is based on the number of options that eventually vest. As long as all other vesting conditions are satisfied, a charge is made irrespective of whether these vesting conditions are satisfied. The cumulative expense is not adjusted for failure to achieve a market vesting condition or where a non-vesting condition is not satisfied.

Where terms and conditions of options are modified before they expire, the increase in the fair value of the options, measured immediately before and after the modification, is also charged to profit or loss over the remaining vesting period.

Where equity instruments are granted to employees, they are recorded at the fair value of the equity instrument granted at the grant date. The grant date fair value is recognized in profit or loss over the vesting period, described as the period during which all the vesting conditions are to be satisfied.

Where equity instruments are granted to non-employees, they are recorded at the fair value of the goods or services received in profit or loss. Options or warrants granted related to the issuance of shares are recorded as a reduction of share capital.

When the fair value of goods or services received in exchange for the share-based payment cannot be reliably estimated, they are measured by use of a valuation model.

All equity-settled share-based payments are reflected in other equity reserves, until exercised. Upon exercise, shares are issued from treasury and the amount reflected in other equity reserves is credited to share capital, adjusted for any consideration paid. For those unexercised options and share purchase warrants that expired, the recorded value is transferred to deficit.

Where a grant of options is cancelled or settled during the vesting period, excluding forfeitures when vesting conditions are not satisfied, the Company immediately accounts for the cancellation as an acceleration of vesting and recognizes the amount that otherwise would have been recognized for services received over the remainder of the vesting period. Any payment made to the employee on the cancellation is accounted for as the repurchase of an equity interest, except to the extent the payment exceeds the fair value of the equity instrument granted, measured at the repurchase date. Any such excess is recognized as an expense.

(j) Financial Instruments

Financial Assets

Financial assets are classified into one of the following categories based on the purpose for which the asset was acquired. All transactions related to financial instruments are recorded on a trade date basis. The Company's accounting policy for each category is as follows:

Fair Value Through Profit or Loss ("FVTPL")

A financial instrument is classified at FVTPL if it is held for trading or is designated as such upon initial recognition. Financial instruments are designated at FVTPL if the Company manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Company's documented risk management or investment strategy. Financial instruments at FVTPL are measured at fair value and changes therein are recognized in income (loss).

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(j) Financial Instruments (cont'd)

Loans and Receivables

These assets are non-derivative financial assets resulting from the delivery of cash or other assets by a lender to a borrower in return for a promise to repay on a specified date or dates, or on demand. They are initially recognized at fair value plus transaction costs that are directly attributable to their acquisition or issue and subsequently carried at amortized cost, using the effective interest rate method, less any impairment losses. Amortized cost is calculated taking into account any discount or premium on acquisition and includes fees that are an integral part of the effective interest rate and transaction costs. Gains and losses are recognized in profit or loss when the loans and receivables are derecognized or impaired, as well as through the amortization process.

Held-to-Maturity Investments

Non-derivative financial assets with fixed or determinable payments and fixed maturities that the Company has the positive intention and ability to hold to maturity are classified as held-to-maturity. Financial assets classified as held-to-maturity are measured at amortized cost using the effective interest method.

Available-for-Sale Investments

Non-derivative financial assets that do not meet the definition of loans and receivables are classified as available-for-sale and comprise principally the Company's strategic investments in entities not qualifying as subsidiaries or associates. Available-for-sale investments are carried at fair value with changes in fair value recognized in other comprehensive loss. Where there is a significant or prolonged decline in the fair value of an available-for-sale financial asset (which constitutes objective evidence of impairment), the full amount of the impairment, including any amount previously recognized in other comprehensive loss, is recognized in profit or loss. If there is no quoted market price in an active market and fair value cannot be readily determined, available-for-sale investments are carried at cost.

On sale or impairment, the cumulative amount recognized in other comprehensive loss is reclassified from accumulated other comprehensive loss to profit or loss.

Impairment of Financial Assets

At each reporting date, the Company assesses whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and that event has an impact on the estimated future cash flows of the financial asset or the group of financial assets.

Financial Liabilities

Financial liabilities are classified as other financial liabilities, based on the purpose for which the liability was incurred. These liabilities are initially recognized at fair value net of any transaction costs directly attributable to the issuance of the instrument and subsequently carried at amortized cost using the effective interest rate method. This ensures that any interest expense over the period to repayment is at a constant rate on the balance of the liability carried in the statement of financial position. Interest expense in this context includes initial transaction costs and premiums payable on redemptions, as well as any interest or coupon payable while the liability is outstanding.

Accounts payable and accrued liabilities represent liabilities for goods and services provided to the Company prior to the end of the period, which are unpaid. Accounts payable and accrued liabilities amounts are unsecured and are usually paid within 45 days of recognition.

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(j) Financial Instruments (cont'd)

The Company has made the following designations of its financial instruments:

Cash	FVTPL
Available-for-sale investments	Available-for-sale financial assets
Accounts payable and accrued liabilities	Other financial liabilities
Due to related parties	Other financial liabilities

(k) New Standards and Interpretations Not Yet Adopted

The Company will be required to adopt the following standards and amendments issued by the IASB as described below. The Company is in the process of evaluating the impact of the new standard and amendments on its financial statements.

Disclosure Initiative (Amendments to IAS 7 *Statement of Cash Flows*)

The amendments require entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities.

Effective for the Company's annual period beginning January 1, 2017.

Recognition of Deferred Tax Assets for Unrealized Losses (Amendments to IAS 12 *Income Taxes*)

The amendments clarify how to account for deferred tax assets related to debt instruments measured at fair value.

Effective for the Company's annual period beginning January 1, 2017.

IFRS 9 *Financial Instruments*

IFRS 9 will replace IAS 39 *Financial Instruments: Recognition and Measurement* and IFRIC 9 *Reassessment of Embedded Derivatives*. The final version of this new standard supersedes the requirements of earlier versions of IFRS 9.

The main features introduced by this new standard compared with predecessor IFRS are as follows:

- **Classification and measurement of financial assets:**
Debt instruments are classified and measured on the basis of the entity's business model for managing the asset and its contractual cash flow characteristics as either: "amortized cost", "fair value through other comprehensive income", or "fair value through profit or loss" (default). Equity instruments are classified and measured as "fair value through profit or loss" unless upon initial recognition elected to be classified as "fair value through other comprehensive income".
- **Classification and measurement of financial liabilities:**
When an entity elects to measure a financial liability at fair value, gains or losses due to changes in the entity's own credit risk is recognized in other comprehensive income (as opposed to previously profit or loss). This change may be adopted early in isolation of the remainder of IFRS 9.
- **Impairment of financial assets:**
An expected credit loss impairment model replaced the incurred loss model and is applied to financial assets at "amortized cost" or "fair value through other comprehensive income", lease receivables, contract assets or loan commitments and financial guarantee contracts. An entity recognizes twelve-month expected credit losses if the credit risk of a financial instrument has not increased significantly since initial recognition and lifetime expected credit losses otherwise.

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(k) New Standards and Interpretations Not Yet Adopted (cont'd)

- *Hedge accounting:*

Hedge accounting remains a choice, however, is now available for a broader range of hedging strategies. Voluntary termination of a hedging relationship is no longer permitted. Effectiveness testing now needs to be performed prospectively only. Entities may elect to continue to applying IAS 39 hedge accounting on adoption of IFRS 9 (until the IASB has completed its separate project on the accounting for open portfolios and macro hedging).

Effective for the Company's annual period beginning January 1, 2018.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in profit or loss in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

The key areas of judgment applied in the preparation of the financial statements that could result in a material adjustment to the carrying amounts of assets and liabilities are as follows:

- i) The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company.

Assets or CGUs are evaluated at each reporting date to determine whether there are any indications of impairment. The Company considers both internal and external sources of information when making the assessment of whether there are indications of impairment for the Company's exploration and evaluation assets.

In respect of costs incurred for its investment in exploration and evaluation assets, management has determined the acquisition costs that have been capitalized may not be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefit, including access to financing to further exploration and development, geologic and metallurgic information, economics assessment/studies, accessible facilities and existing permits.

- ii) The Company has not recognized a deferred tax asset as management believes that it is not probable that taxable profit will be available against which a deductible temporary difference can be utilized.
- iii) The determination of when an investment is impaired requires significant judgment. In making this judgment, the Company evaluates, amongst other things, the duration and extent to which the fair value of the investment is less than its original cost at each reporting period.
- iv) The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its operating expenditures, meet its liabilities for the subsequent year, and to fund planned contractual exploration programs, involves significant judgement based on historical experiences and other factors including expectation of future events that are believed to be reasonable under the circumstances.

(Expressed in Canadian Dollars)

5. AVAILABLE-FOR-SALE INVESTMENTS

As of December 31, 2016, available-for-sale investments consisted of 75,000 common shares of Damara Gold Corp. ("Damara"), a public company, and 200,000 common shares of Voyager Gold Corp. ("Voyager"), a private company with a common director. The private company shares were initially measured at fair value and subsequently written down to \$1.

As at December 31, 2016, the carrying amount for the available-for-sale investments was \$3,751 (2015: \$3,751).

During the year ended December 31, 2016, there was a decline in value of the Damara shares by \$750. This amount was recorded as an impairment charge instead of a fair value loss in other comprehensive income due to management assessing the decline to be significant and prolonged. As at December 31, 2016, the value of the Damara shares increased by \$750 from the point of last impairment and was recorded as a fair value gain in other comprehensive income.

During the year ended December 31, 2015, there was a decline in value of the Damara shares by \$6,750. Due to the Company having recorded an impairment on the Damara shares in a prior fiscal year, \$3,000 of the decline in value was recorded as a change in fair value to bring the accumulated other comprehensive income balance relating to the Damara shares to \$Nil and recorded a further decrease in fair value which was deemed to be prolonged and recorded as an impairment charge of \$3,750 during 2015.

	Damara	Voyager	Total
Balance, December 31, 2014	\$ 10,500	\$ 1	\$ 10,501

Balance, December 31, 2016	\$ 1	\$ 1	\$ 1	\$ 1	\$ 4

(i) Rivier Property – Yukon Territory

The Rivier Property, located in the Watson Lake Mining District, consists of 116 claims of which 16 claims are 100% owned and 100 claims are held pursuant to an option agreement (the "Initial Option") with the property owner.

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

7. EXPLORATION AND EVALUATION ASSETS (cont'd)

(i) Rivier Property – Yukon Territory (cont'd)

Pursuant to amending agreements dated July 15, 2014, October 28, 2015 and October 28, 2016, in order for the Company to exercise the option, it must make cash and share payments to the property owner according to the following schedule:

- (a) 50,000 common shares on or before July 18, 2012 (shares issued);
- (b) 50,000 common shares on or before October 31, 2017;
- (c) \$20,000 cash and 50,000 common shares on or before October 31, 2018;
- (d) \$40,000 cash and 50,000 common shares on or before October 31, 2019; and
- (e) \$80,000 cash and 50,000 common shares on or before October 31, 2020.

Voyager holds an option (the "Voyager Option") to acquire from the Company a 60% interest in the Rivier Property. Pursuant to amending agreements dated November 14, 2014, October 28, 2015 and October 28, 2016, in order to keep the Voyager Option in good standing, Voyager must pay \$200,000 cash to the Company, issue a total of 1,000,000 common shares of Voyager to the Company and incur an aggregate \$1,000,000 in exploration expenditures on the property, as follows:

Due date	Cash	Shares	Expenditures
Upon completion of the Arrangement (shares received December 9, 2011)	\$ -	200,000	\$ -
By December 31, 2011 (expenditures incurred)	-	-	100,000
On public listing of Voyager	-	200,000	-
By November 30, 2017	50,000	200,000	200,000
By November 30, 2018	50,000	200,000	300,000
By November 30, 2019	100,000	200,000	400,000
	\$ 200,000	1,000,000	\$ 1,000,000

The 200,000 Voyager shares issued to the Company had a fair value of \$11,000 at the date of transaction.

The Company must keep the Initial Option in good standing as long as the Voyager Option remains outstanding. Assuming the Initial Option and the Voyager Option are exercised, a joint venture will be formed to further develop the property on the basis of Voyager 60%/the Company 40%. Pursuant to the Initial Option, the Company's and Voyager's ownership will be subject to a 3% net smelter return royalty ("NSR"). An advance royalty payment of \$20,000 is to be paid to the property owner annually beginning October 31, 2021 until the property is deemed to be in production. The Company and Voyager may jointly elect to reduce the NSR to 2% by making a one-time payment to the property owner of \$1,000,000.

During the year ended December 31, 2016, the Company determined the carrying value of the Rivier Property to be impaired and recorded a write-down of \$77,024 (2015 - \$Nil) in accordance with Level 3 of the fair value hierarchy.

(ii) Scarlet Property – Yukon Territory

As at December 31, 2016, the Scarlet Property consisted of 743 100% owned claims located in the Mayo Mining District. The property was divided into two claim blocks: Scarlet East, which consists of 230 claims; and Scarlet West, which consisted of 513 claims. Subsequent to December 31, 2016, a total 193 Scarlet West claims were allowed to lapse, bringing the total number of Scarlet Property claims to 550, of which 320 are in the Scarlet West claim block.

7. EXPLORATION AND EVALUATION ASSETS *(cont'd)*

(iii) Sixty Mile Area – Yukon Territory

As at December 31, 2016, the Sixty Mile Property consists of 508 100% owned claims located in the Dawson Mining District. During the year ended December 31, 2016, a total of 130 claims within the Sixty Mile Property lapsed.

(iv) Face Property – Yukon Territory

As at December 31, 2016, the Face Property consists of 49 100% owned claims located in the Dawson Mining District. During the year ended December 31, 2016, a total of 98 claims within the Face Property lapsed.

8. EXPLORATION EXPENDITURES

During the year ended December 31, 2016, the Company incurred \$260 (2015: \$1,410) on general care and maintenance of its Scarlet and Sixty Mile mineral properties.

9. SHARE CAPITAL AND RESERVES

(a) Common Shares

The Company is authorized to issue an unlimited number of common shares without par value.

There was no share capital activity during the year ended December 31, 2016.

On October 19, 2015, the Company closed a private placement of 5,000,000 units at \$0.05 per unit for gross proceeds of \$250,000, of which 1,000,000 units were purchased by Radius Gold Inc., a company with common directors. Each unit consists of one common share and one full share purchase warrant entitling the holder to purchase an additional common share exercisable for two years at a price of \$0.05. Share issuance costs associated with this financing totalled \$2,000.

9. SHARE CAPITAL AND RESERVES (cont'd)

(b) Share Purchase Warrants

A summary of share purchase warrants activity for the years ended December 31, 2016 and 2015 is as follows:

	Number of warrants	Weighted average exercise price
Balance, December 31, 2014	-	\$0.00
Issued	5,000,000	\$0.05
Balance, December 31, 2015	5,000,000	\$0.05
Balance, December 31, 2016	5,000,000	\$0.05

As at December 31, 2016, the following share purchase warrants were outstanding:

Expiry date	Number of warrants	Exercise price
October 18, 2017	5,000,000	\$0.05

10. SHARE-BASED PAYMENTS

Option Plan Details

The Company has in place a stock option plan (the "Plan") that allows the Board of Directors to grant incentive stock options to the Company's officers, directors, employees and consultants. The exercise price of stock options granted is determined by the Board of Directors at the time of the grant in accordance with the terms of the Plan and the policies of the TSX-V. Options vest on the date of granting unless stated otherwise. Options granted to investor relations consultants vest in accordance with TSX-V regulation. The options are for a maximum term of ten years.

Share Purchase Options

There was no stock option activity during the years ended December 31, 2016 and 2015.

As at December 31, 2016 and 2015, the following stock options were outstanding:

Expiry date	Number of options	Exercise price
July 19, 2022	245,000	\$0.75

The weighted average remaining contractual life of the options outstanding at December 31, 2016 is 5.55 (2015: 6.55) years.

(An Exploration Stage Company)

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

11. INCOME TAXES

Income tax expense differs from the amount that would be computed by applying the Canadian statutory income tax rate of 26.00% (2015: 26.00%) to income before income taxes. The reasons for the differences are as follows:

	2016	2015
Net loss for the year	\$ (219,288)	\$ (161,835)
Canadian statutory tax rate	26.00%	26.00%
Income tax recovery computed at statutory rates	(57,015)	(42,077)
Items not deductible for tax purposes	157	-
Change in timing differences	18,987	(193)
Unused tax losses and tax offsets not recognized in tax asset	37,871	42,270
Deferred income tax recovery	\$ -	\$ -

The Company recognizes tax benefits on losses or other deductible amounts where it is probable that the Company will generate sufficient taxable income to utilize its deferred tax assets. The Company's unrecognized deductible temporary differences and unused tax losses for which no deferred tax asset is recognized consist of the following amounts:

	2016	2015
Non-capital losses	\$ 1,056,000	\$ 911,000
Available-for-sale investments	103,000	103,000
Share issue costs and other	13,000	17,000
Mineral properties	1,286,000	1,281,000
Capital losses	136,000	136,000
Unrecognized deductible temporary differences	\$ 2,594,000	\$ 2,448,000

As at December 31, 2016, the Company has estimated non-capital losses for Canadian income tax purposes that may be carried forward to reduce taxable income derived in future years.

Non-capital Canadian tax losses expire as follows:

Year of expiry	Taxable losses
2031	\$ 21,000
2032	349,000
2033	209,000
2034	170,000
2035	162,000
2036	145,000
	\$ 1,056,000

12. RELATED PARTY TRANSACTIONS

The Company had transactions during the years ended December 31, 2016 and 2015 with related parties consisting of directors, officers and the following companies with common directors:

<u>Related party</u>	<u>Nature of transactions</u>
Gold Group Management Inc. ("Gold Group")	Shared office and administrative related charges
Mill Street Services Ltd. ("Mill Street")	Management services

Balances and transactions with related parties not disclosed elsewhere in these financial statements are as follows:

- (a) During the years ended December 31, 2016 and 2015, the Company reimbursed Gold Group for the following costs:

	<u>2016</u>	<u>2015</u>
General and administrative expenses:		
Office and administrative	\$ 38,494	\$ 39,183
Salaries and benefits	21,669	17,821
Transfer agent and regulatory fees	1,798	5,739
Travel and accommodation	1,518	1,624
	<u>\$ 63,479</u>	<u>\$ 64,367</u>

Gold Group is reimbursed by the Company for certain shared costs and other business related expenses paid by Gold Group on behalf of the Company. Salaries and benefits costs paid to Gold Group include those for the Chief Financial Officer and Corporate Secretary.

- (b) Deposit as of December 31, 2016 consist of \$61,000 (2015: \$61,000) paid to Gold Group and are related to the shared office and administrative services agreement with Gold Group that was effective July 1, 2012. Upon termination of the agreement, the deposits, less any outstanding amounts owing to Gold Group, are to be refunded to the Company.
- (c) Amounts due to related parties as of December 31, 2016 consist of \$64,542 (2015: \$12,014) due to Gold Group and \$51,450 (2015: \$7,350) owed to Mill Street. The balance due to Gold Group is collateralized by a deposit and the balance due to Mill Street is unsecured and due on demand. The amounts due are non-interest-bearing.

These transactions are measured at fair value of the services rendered.

Key management compensation

Key management personnel are persons responsible for planning, directing and controlling the activities of an entity, and include certain directors and officers. Key management compensation comprises:

	<u>2016</u>	<u>2015</u>
Management fees ¹	\$ 42,000	\$ 42,000
Salaries and benefits	4,124	4,583
	<u>\$ 46,124</u>	<u>\$ 46,583</u>

¹ Paid to a company controlled by related party (CEO).

(An Exploration Stage Company)

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company is exposed to the following financial risks:

- Market Risk
- Credit Risk
- Liquidity Risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

General Objectives, Policies and Processes

The Board of Directors has overall responsibility for the determination of the Company's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and policies to the Company's management. The Board of Directors receives periodic reports through which it reviews the effectiveness of the processes put in place and the appropriateness of the objectives and policies it sets.

The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility. Further details regarding these policies are set out below.

(a) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market prices affecting the Company are comprised of the following types of risk: interest rate risk and equity price risk. The Company is not exposed to the risk related to the fluctuation of foreign currency rates.

Interest Rate Risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company does not have any borrowings. Interest rate risk is limited to potential decreases on the interest rate offered on cash held with chartered Canadian financial institutions. The Company considers this risk to not be significant.

Equity Price Risk

Equity price risk is the uncertainty associated with the valuation of assets arising from changes in equity markets. The Company's available-for-sale investments are exposed to equity price risk due to the potentially volatile and speculative nature of the businesses in which the available-for-sale investments are held. The common shares held in Damara and Voyager are monitored by management with decisions on sale taken at Board level. A 10% change in fair value of the shares would result in a \$375 increase or decrease in net loss and comprehensive loss.

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)

(b) Credit Risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its cash and available-for-sale investments. The Company limits exposure to credit risk by maintaining its cash with chartered Canadian financial institutions. The Company does not have cash or available-for-sale investments that are invested in asset-based commercial paper.

(c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to provide reasonable assurance that it will have sufficient funds to meet liabilities when due. The Company manages its liquidity risk by forecasting cash flows required by operations and anticipated investing and financing activities. At December 31, 2016, the Company had cash of \$31,254 (2015: \$77,552) available to apply against short-term business requirements and current liabilities of \$133,476 (2015: \$41,760). All of the Company's financial liabilities have contractual maturities of less than 45 days and are subject to normal trade terms.

Determination of Fair Value

Fair values have been determined for measurement and/or disclosure purposes based on the following methods. All financial instruments at December 31, 2016 are carried at amortized cost, apart from the available-for-sale investment in a public company with shares in an active market of \$3,750 (2015: \$3,750), which is carried at fair value. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

The statement of financial position carrying amounts for cash, accounts payables and accrued liabilities, and due to related parties approximate fair value due to their short-term nature. Due to the use of subjective judgments and uncertainties in the determination of fair values these values should not be interpreted as being realizable in an immediate settlement of the financial instruments.

Fair Value Hierarchy

Financial instruments that are measured subsequent to initial recognition at fair value are grouped in Levels 1 to 3 based on the degree to which the fair value is observable:

Level 1	Unadjusted quoted prices in active markets for identical assets or liabilities;
Level 2	Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
Level 3	Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The available-for-sale investment in Damara is based on a quoted price and is therefore considered to be Level 1.

The available-for-sale investment in Voyager was recorded at fair value when it was acquired and assessed for impairment as at December 31, 2016 and 2015. This investment is considered to be Level 3.

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2016 and 2015

(Expressed in Canadian Dollars)

14. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to advance its mineral properties. The Company defines its capital as all components of equity. In order to facilitate the management of its capital requirements, the Company prepares periodic budgets that are updated as necessary. The Company manages its capital structure and makes adjustments to it to effectively support the acquisition and exploration of mineral properties. The properties in which the Company currently has an interest are in the exploration stage; as such, the Company is dependent on external financing to fund its activities. In order to carry out any planned exploration and pay for general administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There have been no changes in the Company's approach to capital management during the year ended December 31, 2016. As at December 31, 2016, the Company is not subject to any externally imposed capital requirements. The Company does not expect its capital resources to be sufficient to cover its corporate operating costs and future exploration expenditures through the next twelve months. As such, the Company will seek to raise additional capital and believes it will be able to do so, but recognizes the uncertainty attached thereto.

15. SEGMENTED REPORTING

The Company is organized into business units based on mineral properties and has one reportable operating segment, being that of acquisition and exploration and evaluation activities. All of the Company's long-term assets and operations are in Canada.
