

Form 45-106F19
Listed Issuer Financing
Document

INSTRUCTIONS

1. Overview of the offering document

This is the form an issuer must use as the offering document for a distribution under section 5A.2 of the Instrument. In these instructions, the form is also referred to as the “offering document.”

The objective of the offering document is to provide information about the offering.

Present information in the offering document using a question-and-answer format.

2. Incorporating information by reference

Do not incorporate information into the offering document by reference.

3. Plain language

Use plain, easy to understand language in preparing the offering document. Avoid technical terms but if they are necessary, explain them in a clear and concise manner.

4. Format

Except as otherwise stated, use the questions presented in this form as headings in the offering document. To make the document easier to understand, present information in tables.

5. Date of information

Unless this form indicates otherwise, present the information in this form as of the date of the offering document.

6. Forward-looking information

If the issuer discloses forward-looking information in the offering document, the issuer must comply with Part 4A.3 of National Instrument 51-102 *Continuous Disclosure Obligations*.

- **The issuer will not allocate the available funds from this offering to an acquisition that is a significant acquisition or restructuring transaction under securities law or to any other transaction for which the issuer seeks security holder approval.”**

PART 2 SUMMARY DESCRIPTION OF BUSINESS

4. Summary description of business

“What is our business?”

Homerun Resources Inc. is focused on the exploration and development to production of minerals in the critical elements and energy metals sectors.

5. Recent developments

“Recent developments”

- Executed the purchase option for the Ze Manoel copper-gold project in Goias state, Brazil
- Executed the formal agreement, paid the \$7,500 cash payment, and issued the first tranche of 250,000 common shares under the option to purchase a 100-per-cent interest in the Tatooine silica project in British Columbia.
- Amended the terms of the purchase option for the Ze Manoel copper-gold project where the Company previously had the option to reimburse the vendor for certain historical expenses incurred by the vendor and issue, in stages, a total of 12 million common shares over four years for up to a 100-per-cent direct ownership in the Ze Manoel copper-gold project. The company and the vendor have amended the purchase option agreement to expedite the Company’s ownership of the ZM project by changing the payment period for the 12 million common shares. The common shares will now be issued in their entirety upon the TSX Venture Exchange approval of the purchase option.

6. Material facts

If there is a material fact about the securities being distributed that has not been disclosed elsewhere in this offering document or in any other document filed since the date that is the earlier of the date that is 12 months before the date of this offering document and the date that the issuer’s most recent audited annual financial statements were filed, disclose that material fact. **N/A**

7. Business objectives and milestones

“What are the business objectives that we expect to accomplish using the available funds?”

The Company is working to advance exploration of both the Ze Manoel copper-gold project and the Tatooine silica project over the next 12 months. The first stage of exploration of the Ze Manoel copper-gold project is detailed in the NI 43-101 Technical Report and is targeted for completion in the six month period after the final closing of this offering. Subject to the success of that first stage, the Company will advance the exploration program to the next stage as detailed in the NI 43-101 Technical Report.

Stage 1 - All costs in US\$	INFORMATION	US\$
Ground geophysical survey (magnetics)	Assist in target generation	50,000
Trenching (includes geologist and assay costs)	Assist in target generation for drilling	50,000

The first stage of exploration on the Tatoonie silica project will be a geophysics program that will be completed prior to the end of the 2023 calendar year.

The company is actively targeting further critical elements and energy metals assets to add to its portfolio of projects in the sector.
