1. INTRODUCTION

The following Management's Discussion & Analysis ("MD&A") is intended to assist in the understanding of the trends and significant changes in the financial condition and results of operations of Enforcer Gold Corp. ("Enforcer" or the "Company") for the six months ended October 31, 2018. It should be read in conjunction with the condensed consolidated interim financial statements and the notes thereto for the same period as noted above (collectively, the "Financial Statements"). The MD&A has been prepared with an effective date of December 7, 2018.

All financial information in this MD&A has been prepared in accordance with International Financial Reporting Standards ("IFRS") and all dollar amounts are expressed in Canadian ("CDN") dollars unless otherwise indicated.

Forward Looking Statements

This document contains certain forward-looking information and forward-looking statements, as defined in applicable securities laws (collectively referred to as "forward-looking statements"). Often, but not always, forward-looking statements can be identified by the use of words such as "plans," "expects" or "does not expect," "is expected," "planned," "budget," "scheduled," "estimates," "continues," "forecasts," "projects," "predicts," "intends," "anticipates" or "does not anticipate," or "believes," or variations of such words and phrases, or statements that certain actions, events or results "may," "could," "would," "should," "might" or "will" be taken, occur or be achieved.

Forward-looking statements included or incorporated by reference in this document include statements with respect to:

- the Company's acquisition strategy;
- the Company's expectations regarding its ability to raise capital and meet its obligations.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any of our future results, performance or achievements expressed or implied by the forward-looking statements; consequently, undue reliance should not be placed on forward-looking statements.

Forward-looking statements are based on a number of assumptions that may prove to be incorrect, including, but not limited to, assumptions about:

- general business and economic conditions;
- the timing of the receipt of required approvals for our operations;
- the availability of equity and other financing on reasonable terms;
- our ability to procure equipment and operating supplies in sufficient quantities and on a timely basis;
- our ability to attract and retain skilled labour and staff; and
- our ongoing relations with our employees and with our business/joint venture partners.

We caution you that the foregoing lists of important risk factors and assumptions are not exhaustive. Events or circumstances could cause our actual results to differ materially from those estimated or projected and expressed in, or implied by, these forward-looking statements. We undertake no obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of factors, whether as a result of new information or future events or otherwise, except as may be required under applicable laws.

2. COMPANY OVERVIEW

Enforcer is a Canadian-based mineral exploration company and trades on the TSX-V Exchange under the symbol VEIN and on the Frankfurt Exchange under the symbol N071. Enforcer has an option to acquire a 50% interest in the advanced-stage Roger Gold-Copper project ("Roger") located 5 km northwest of Chibougamau, Quebec. Enforcer also holds a 100% interest in the Waswanipi Gold Project located 125 km west of Chibougamau and 230 km northeast of Val d'Or. This project is situated within the prolific Abitibi greenstone belt, which has produced over 180 M oz. of gold and over 450 M tonnes of copper-zinc ore since the early 1900s.

On October 29, 2018 the Company announced that it plans to complete a non-brokered private placement of up to \$1,500,000 (the "Private Placement") in conjunction with a property acquisition in the Red Lake area of northwestern Ontario (the "Acquisition") and a share consolidation (the "Consolidation") on the basis of three (3) existing common shares (the "Shares") for one (1) post-Consolidation Share. Completion of the Private Placement, Acquisition and Consolidation will be conditional upon the successful completion of each other and subject to TSX Venture Exchange approval.

3. SUMMARY OF EXPLORATION ACTIVITIES

The technical disclosure provided in this document has been reviewed and approved by Enforcer's President & CEO, Steve Roebuck, PGeo, a qualified person as defined by National Instrument 43-101.

3.1 Roger Gold-Copper Project

Enforcer has an option and joint venture agreement with SOQUEM to earn a 50% interest in the 987-hectare Roger Gold-Copper Project. Roger is advantageously located 5 km north of Chibougamau, Quebec, has all-season road access and is crossed by a power line that serviced the past-producing Troilus Mine.

Roger is an advanced-stage exploration property containing the Mop-II porphyry gold-copper deposit with 58,000 m of diamond drilling completed to date and a current mineral resource estimate. In 1988, an underground exploration program on the Mop-II deposit included 1,177 m of underground development, 1,433 m of underground drilling and over 1,000 m of chip sampling.

Recent Exploration and Reporting

The Mop-II was historically explored as a higher-grade, vein type deposit; however, a review of the data indicated there was significant potential to define a high-tonnage, lower-grade deposit that is potentially amenable to lower-cost, open-pit mining techniques.

SOQUEM and Enforcer completed a 3,068 m (11 hole) Phase 1 diamond drilling program in April 2018. The primary objective of the program was the twinning of 8 historic holes on the Main zone, for which the core is no longer available, and deeper drilling (>300m vertical) to determine if mineralization continues at depth on the eastern portion of the deposit.

As reported in the Company's June 20, 2018 press release, the 8 twinned holes verified the results of the 8 historical holes with mineralization beginning at or near surface and continuing for significant lengths down hole. Highlights include:

- Hole 1206-18-85: 0.83 g/t Au over 112 m
- Hole 1206-18-87: 0.71 g/t Au over 147.8 m
 - *including* 1.07 g/t Au over 64.8 m
- Hole 1206-18-88: 0.73 g/t Au over 219.7 m
 - *including* 1.32 g/t Au over 57.7 m
- Hole 1206-18-89: 0.54 g/t Au over 230.1 m
- Hole 1206-18-94: 0.29 g/t Au over 514.5 m
 - *including* 0.89 g/t Au over 81.0 m
 - *including* 0.50 g/t Au over 219.5 m

Holes 1206-18-93 and 94 were collared to the east of the lesser explored North zone and drilled to intersect the Main zone at depth. Both holes intersected mineralization on strike of the North zone, extending its potential strike extent to over 450 m. Hole 1206-18-94 demonstrated continuous lower-grade mineralization over an impressive 514.5 m of core length to a vertical depth of ~400 m. A copper-enriched gold zone correlating with the North zone was intercepted from 79.5-129.5 m down hole, returning 54 m of 0.18 g/t Au and 0.11% Cu (see June 27, 2018 press release). Hole 1206-08-25 was a deepening of historical hole 1206-08-25 from 375 to 521.5 m down hole, also confirming that a very broad halo of lower-grade mineralization extends at depth below the Main zone.

On September 18, 2018, Enforcer and SOQUEM announced an updated and revised mineral resource estimate prepared by GéoPointCom of Val-d'Or, Québec. Using a 0.45 g/t gold equivalent ("AuEq") cut off, the resource estimate for the Mop-II deposit totals 333,000 AuEq oz in the Indicated category and 202,000 AuEq oz in the Inferred category. Over 60% of the amended global resource is in the higher confidence Indicated category.

Pit-Constrained Mineral Resource Estimate on the Mop-II Gold-Copper Deposit – July 4, 2018

Category	AuEq Cut-off (g/t)	Tonnes	AuEq (g/t)	Contained AuEq (oz)	Au (g/t)	Contained Au (oz)
Indicated	0.45	10,900,000	0.95	333,000	0.85	297,000
Inferred	0.45	6,569,000	0.96	202,000	0.75	159,000

Note: Details of the 2018 mineral resource estimate are provided in the Company's press release dated September 18, 2018. Mineral resources that are not mineral reserves do not have demonstrated economic viability.

Enforcer elected to accelerate the earn-in schedule of the option agreement by financing the Phase 2 diamond drilling program that commenced in early October 2018. The Phase 2 program employed 2 drill rigs and was completed in one month with 34 holes totalling 7645m. Core logging and sampling are on-track with 3 geologists and 2 cutting/sampling stations in operation in Chibougamau and a third cutting/sampling station at SOQUEM's headquarters in Val-d'Or, Quebec.

The Phase 2 drilling program was designed to expand the Mop-II mineral resource in areas where the opportunity for rapidly defining extensions appears most encouraging. Approximately 80% of the holes were drilled to increase and upgrade the current resource in the conceptual pits by filling gaps between the widely-spaced holes and testing the at-depth and on-strike extensions of the known zones. The remaining 20% were exploratory holes targeting potential extensions of the North zone beyond the modelled resource area. One hole tested a completely different setting of mineralization intersected in previous SOQUEM drilling, where sub-horizontal massive sulfide horizons occur within the ultramafic Roberge Sill near its contact with the feldspar porphyry that is host to the Main and North zones (see July 19, 2018 press release).

Core samples from the Phase 2 will be analysed at SGS Canada Inc.'s analytical laboratory in Lakefield, Ontario. Assay results will be released once received and compiled.

Enforcer and SOQUEM are committed to advancing the Roger project and expanding and upgrading the mineral resource on the Mop-II deposit.

Terms of the Roger Option Agreement

Under the terms of the option agreement (the "Option"), Enforcer can earn a 50% undivided interest in the Property after Enforcer invests \$2,000,000 in a work program over 3 years and issues 1,000,000 common shares of Enforcer to SOQUEM as follows:

- Financing \$2,000,000 in work program investments as follows:
 - \$500,000 by the end of year 1 (January 8, 2019) - *completed*;
 - \$750,000 by the end of year 2 (January 8, 2020); and
 - \$750,000 by the end of year 3 (January 8, 2021).

- Issuing a total of 1,000,000 common shares of Enforcer as follows:
 - 250,000 by the end of year 1 (January 8, 2019);
 - 250,000 by the end of year 2 (January 8, 2020); and
 - 500,000 by the end of year 1 (January 8, 2021).

The Option can be earned prior to the end of the 3-year period if Enforcer completes the work requirement and issues the common shares earlier.

SOQUEM will act as the sole manager of the Property prior to the exercise of the Option and will add a 10% management fee to the funds they manage, or in the case of third party work a 5% management fee. Upon exercise of the Option, a joint venture (the "Joint Venture") will be established to continue the exploration and potential development, construction, commercial production, mine closure and rehabilitation. Prior to the establishment of the Joint Venture, it is deemed that each party has contributed \$2,000,000 to the Property. Subsequent contributions to the Property will determine the interest of each party moving forward. If both parties agree to spend their relative proportion, the Joint Venture will continue on a 50-50 basis.

3.2 Montalembert Gold Project

The Montalembert Gold Project is located 125 km west of Chibougamau and 230 km northeast of Val d'Or in the Abitibi greenstone belt of central Quebec. On November 16, 2016, Enforcer entered an option agreement with Globex Mining Enterprises Inc. ("Globex") (TSX: GMX) to earn a 100% interest in the Montalembert Gold Project, the terms of which are presented in the Company's November 16, 2016 press release. The option agreement was later amended as announced in the Company's November 15, 2017 press release. On August 17, 2018, Enforcer announced its election not to proceed with the option and provided ninety (90) days written notice to Globex to terminate the option, effective November 15, 2018.

3.3 Waswanipi Gold Project

Enforcer holds a 100% interest in its Waswanipi Gold Project, a 19,352-hectare (47,818-acre) property acquired in 2018 that adjoins to the west and northeast of the Montalembert property. The land position covers a classic Abitibi greenstone belt sequence of deformed intermediate to mafic volcanics, felsic to mafic intrusive rocks and feldspar porphyry. Based on government assessment files, very limited exploration for gold has been conducted over the project area. Of this land package, Globex retains a 1.5% NSR on all claims acquired within 3 km of the external boundary of the Montalembert Property (see press release dated February 1, 2018). No work was conducted on the project during the three month period ended October 31, 2018.

4. SELECTED FINANCIAL INFORMATION

As at October 31, 2018, the Company was a Tier 2 mining issuer and had not achieved any commercial operations. Accordingly, the Company has not recorded any revenues, and depends upon share issuances to fund its administrative expenses.

The following financial data are derived from the Company's financial statements for the six months ended October 31, 2018, October 31, 2017 and October 31, 2016 which have been prepared in accordance with IFRS:

The Company realized a gain of \$26,945 during the current quarter versus a loss of \$52,681 in the previous quarter. The quarterly variation is mainly attributable to the flow-through share premium recognized in the quarter.

The Company is still in the exploration phase and thus has not generated any revenues to date.

6. RELATED PARTY TRANSACTIONS

Summary of related party transactions and key management compensation:

	Six Months Ended	
	October 31,	
	2018	2017
Salaries	\$ 43,019	\$ 122,151.51
Professional Fees	-	174,015
Stock-based compensation	-	196,995
Total	\$ 43,019	\$ 493,162

Included in taxes and other receivables at October 31, 2018 is \$110,763 (April 30, 2018 - \$139,964) owing from a corporation with certain directors and officers in common with the Company. The amount is unsecured, non-interest bearing with no fixed terms of repayment.

Professional fees consist of the Company's legal personnel and consultants. In 2018, these costs were significantly lower than the comparable year due to a reduction in the use of legal personnel and consultants.

7. LIQUIDITY AND CAPITAL RESOURCES

The Company's cash position (cash and cash equivalents) as at October 31, 2018 was \$328,593 compared to \$3,866,493 as at October 31, 2017.

At October 31, 2018, the Company had an accumulated deficit of \$10,478,823 since inception (October 31, 2017 - \$5,265,021), expects to incur further losses in the development of its business, and had a net working capital surplus of \$532,722 (April 30, 2018 - \$1,390,406).

Enforcer Gold's financial instruments consists of cash and cash equivalents, other receivables and accounts payable and accrued liabilities. Enforcer Gold estimates that the fair value of its financial instruments approximate its carrying values.

The Company will need to raise sufficient capital to further explore its properties. At this time, the Company will rely on its ability to obtain equity or debt financing for the foreseeable future. Although the Company was successful during the year in obtaining financing, there is no guarantee that it will be able to obtain adequate financing in the future or that such financing will be advantageous to the Company. See also the discussion under the heading "Risks and Uncertainties" in the MD&A.

These material uncertainties cast significant doubt about the Company's ability to continue as a going concern.

8. OFF-BALANCE SHEET ARRANGEMENTS

The Company did not enter into any off-balance sheet arrangements during the period.

9. COMMITMENTS

Pursuant to the terms of the flow-through share agreements, the Company is in the process of complying with its flow-through contractual obligations with subscribers with respect to the Income Tax Act (Canada) requirements for flow-through shares. As at October 31, 2018 the Company is committed to incurring approximately \$607,478 in Canadian Exploration Expenditures by December 31, 2018. The Company has indemnified the subscribers of current and previous flow-through share offerings against any tax related amounts that become payable by the shareholder as a result of the Company not meeting its expenditure commitments.

Under the terms of the Company's lease agreement for office space, the Company is obligated to minimum annual rent and lease payments of \$57,400 in 2019 and \$33,700 in 2020.

The Company is party to certain management contracts. These contracts contain minimum commitments of approximately \$162,000 and additional contingent payments of up to approximately \$324,000 upon the occurrence of a change of control. As a triggering event has not taken place, the contingent payments have not been reflected in the condensed consolidated interim financial statements as at and for the period ended October 31, 2018.

10. DISCLOSURE CONTROLS AND PROCEDURES

Management has established processes, which are in place to provide them with sufficient knowledge to support management representations that they have exercised reasonable diligence that:

- (i) the filings do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, with respect to the periods covered by the filings; and
- (ii) the financial statements together with the other financial information included in the interim filings of the Company fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented by the filings.

In contrast to the certificate required of non-venture issuers under National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings ("NI 52-109"), the Company utilizes the Venture Issuer Basic Certificate which does not include representations relating to the establishment and maintenance of disclosure controls and procedures ("DC&P") and internal control over financial reporting ("ICFR"), as

defined in NI 52-109. In particular, the certifying officers filing the Certificate are not making any representations relating to the establishment and maintenance of:

- (i) controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
- (ii) a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP.

The certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making. Investors should be aware that inherent limitations on the ability of certifying officers of a venture issuer, such as the Company, to design and implement on a cost-effective basis DC&P and ICFR as defined in NI 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

11. CHANGES IN ACCOUNTING POLICIES

The following standards and amendments to existing standards have been adopted by the Company effective May 1, 2018:

IFRS 9, Financial instruments: classification and measurement

The adoption of this standard did not have an impact on the condensed consolidated interim financial statements.

Accounting pronouncements not yet adopted

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after May 1, 2019. Many are not applicable or are not expected to have a significant impact to the Company and have been excluded. The company has not yet assessed the potential impact, if any, that these standards may have on its consolidated financial statements. The following have not yet been adopted:

- a) *IFRS 10 – Consolidated Financial Statements (“IFRS 10”) and IAS 28: Investments in Associates and Joint Ventures (“IAS 28”)* was amended in September 2014 to address a conflict between the requirements of IAS 28 and IFRS 10 and clarify that in a transaction involving an associate or joint venture, the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business. The effective date of these amendments is yet to be determined, however early adoption is permitted.
- b) *IFRS 16 – Leases* specifies the recognition, measurement, presentation and disclosure of leases. It will result in almost all leases being recognized on the statement of financial position, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognized. The only exceptions are short-term and low-value leases.

The accounting for lessors will not significantly change.

The standard will affect primarily the accounting for the Company's operating leases. The Company has not yet determined to what extent these commitments will result in the recognition of an asset and a liability for future payments and how this will affect the Company's profit and classification of cash flows. Some of the commitments may be covered by the exception for short-term and low-value leases and some commitments may relate to arrangements that will not qualify as leases under IFRS 16.

The standard is mandatory for financial years commencing on or after January 1, 2019.

- c) *IFRIC 23 – Uncertainty Over Income Tax Treatments (“IFRIC 23”)* was issued in June 2017 and clarifies the accounting for uncertainties in income taxes. The interpretation committee concluded that an entity shall consider whether it is probable that a taxation authority will accept an uncertain tax treatment. If an entity concludes it is probable that the taxation authority will accept an uncertain tax treatment, then the entity shall determine taxable profit (tax loss), tax bases, unused tax losses and credits or tax rates consistently with the tax treatment used or planned to be used in its income tax filings. If an entity concludes it is not probable that the taxation authority will accept an uncertain tax treatment, the entity shall reflect the effect of uncertainty in determining the related taxable profit (tax loss), tax bases, unused tax losses and credits or tax rates.

The Company has not yet assessed the potential impact of the application of this standard, nor determined whether it will adopt the standard early.

12. RISKS AND UNCERTAINTIES

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate and foreign exchange rate risk).

Risk management is carried out by the Company's management team with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

Credit Risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfil its payment obligations. The Company's credit risk is primarily attributable to cash and cash equivalents. Cash and cash equivalents consist of cash on deposits with banks and cash held in escrow with the Company's legal counsel. Included in taxes and other receivables is \$424,877 (2017 - \$499,178) relating to sales taxes receivable from various Canadian governments. The remaining balance of \$126,363 (2017 - \$45,600) relates to expense reimbursements due from third parties. Management believe that the credit risk concentration with respect to its financial instruments is remote

Liquidity Risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at October 31, 2018, the Company had cash and cash equivalents and taxes and other receivable balances of \$607,478 (April 30, 2018 - \$2,002,439) to settle current liabilities of \$635,679 (April 30, 2018 - \$621,290). All of the Company's accounts payable and accrued liabilities have contractual

maturities of less than 30 days and are subject to normal trade terms. The Company remains dependent upon financing from capital markets.

Market Risk

Market risk is the risk of loss that might arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

i) Interest Rate Risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company is exposed to limited interest rate risk, as it only holds cash and does not have any interest-bearing debt.

ii) Foreign Currency Risk:

The Company also holds a bank account denominated in United States dollars; therefore, it is subject to risk in fluctuations in the exchange rate of the United States dollar. However, as at October 31, 2018, the Company had a minimal balance in its US bank balance; therefore, any change in the Canadian dollar versus the United States would be insignificant.
