MINAEAN SP CONSTRUCTION CORP.

Notes to Condensed Interim Consolidated Financial Statements

For the six months ended September 30, 2020

(Unaudited - Expressed in Canadian Dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Minaean SP Construction Corp. (“Minaean” or the “Company”) was incorporated under the Business Corporations Act (Alberta) on November 5, 1998 and continued into British Columbia on August 28, 2015.

As at September 30, 2020, Minaean has three wholly-owned subsidiaries, Minaean Building Solutions Inc. (“MBSolutions”), Minaean Habitat India Private Limited (“MHIPL”), and Minaean (Ghana) Limited (“MGhana”) (collectively the “Company”). During the year ended March 31, 2020, the Company decided to discontinue its operations of Minaean SP SL Limited (“MSL”) as it terminated its subcontract project and does not intend to further operate in Sierra Leone. (Note 3)

The Company is in the business of providing general contracting to the construction industry with a specialty in Light Gauge Steel Quik-Build Systems. The Company also provides a variety of contracting services including consulting on large scale construction projects, engineering, procurement, construction and design-build capabilities in the residential, commercial, industrial, healthcare, and hospitality sectors.

The Company’s head office, principal address and records office is Suite 2050-1055 West Georgia Street, PO Box 11121, Royal Centre, Vancouver, BC V6E 3P3. The registered office is Suite 400, 725 Granville Street, Vancouver, BC V7Y 1G5.

These consolidated financial statements have been prepared on a going concern basis, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. During the period ended September 30, 2020, the Company did not generate any revenues and incurred a net loss of \$68,772. As at September 30, 2020, the Company has an accumulated deficit of \$11,434,322 and working capital deficit of \$167,586.

While the Company has been successful in obtaining its required financing in the past, mainly through the issuance of equity capital and debt financing from both arm’s length and non-arm’s length parties, there is no assurance that such financing will be available or be available on favorable terms. An inability to raise additional financing may impact the future assessment of the Company as a going concern. The consolidated financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. Management estimates that it will have sufficient working capital as the Company received a commitment from its significant shareholder to fund the Company an estimated amount of \$240,000 within the next twelve months to continue its operations. As at September 30, 2020, the Company received \$40,000 and an additional \$25,000 subsequent to September 30, 2020 from this commitment.

The Company has never paid dividends.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on business operations cannot be reasonably estimated at this time. There can be no assurance that the Company will not be impacted by adverse consequences that may be brought about by the pandemic’s impact on its business, results of operations, financial position and cash flows in the future.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

These financial statements were authorized for issue on November 30, 2020 by the directors of the Company.

Statement of compliance and conversion to International Financial Reporting Standards

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Accounts Standards (“IAS”) 34, “Interim Financial Reporting” using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”).

Basis of presentation

The consolidated financial statements of the Company have been prepared on an accrual basis except for cash flow information and are based on historical costs, modified where applicable. The consolidated financial statements are presented in Canadian dollars unless otherwise noted.

Subsidiaries

In addition to the Company, the consolidated financial statements include all subsidiaries. Subsidiaries are all corporations over which the Company is able directly or indirectly, to control financial and operational policies, which is the authority usually connected with holding majority voting rights. Subsidiaries are fully consolidated from the date on which control is acquired by the Company. They are de-consolidated from the date that control by the Company ceases.

The subsidiaries of the Company are as follows:

	Country of incorporation	Percentage owned	
		September 30, 2020	March 31, 2020
Minaean Building Solutions Inc.	Canada	100%	100%
Minaean Habitat India Pvt Ltd.	India	100% ⁽¹⁾	100% ⁽¹⁾
Minaean (Ghana) Limited	Ghana	100%	100%
Minaean SP SL Limited ⁽²⁾	Sierra Leone	--%	100%

(1) owned by Minaean Building Solutions Inc.

(2) The Company discontinued operations during the year ended March 31, 2020. (Note 3) The financial results of this entity has been de-consolidated from the Company.

Consolidation

Assets, liabilities, revenues and expenses of the subsidiaries are recognized in accordance with the Company’s accounting policies. Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated on consolidation.

Critical Accounting Estimates and Judgments

The preparation of these consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the period. Actual results could differ from these estimates.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

Critical Accounting Estimates and Judgments (cont'd)

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- 1) *Receivables* An 'expected credit loss' impairment model applies which requires a loss allowance to be recognized based on expected credit losses. The estimated present value of future cash flows associated with the asset is determined and an impairment loss is recognized for the difference between this amount and the carrying amount as follows: the carrying amount of the asset is reduced to estimated present value of the future cash flows associated with the asset, discounted at the financial asset's original effective interest rate, either directly or through the use of an allowance account and the resulting loss is recognized in profit or loss for the period.

In a subsequent period, if the amount of the impairment loss related to financial assets measured at amortized cost decreases, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

The information about significant areas of judgment considered by management in preparing the consolidated financial statements are as follows:

Determination of functional currency

The effect of Changes in Foreign Exchange Rates (IAS 21) defines the functional currency as the currency of the primary economic environment in which an entity operates. The determination of functional currency, which is performed on an entity by entity basis, is based on various judgmental factors outlined in IAS 21. Based on assessment of the factors in IAS 21, primarily those that influence labour, material and other costs of goods or services received by its subsidiary, management determined that the functional currency for the Company and its subsidiaries is the Canadian dollar, with the exception of Minaean Habitat India Pvt Ltd. which is the Rupee.

Accounting standards issued but not yet effective

Certain accounting standards or amendments to existing accounting standards that have been issued by have future effective dates are either not applicable or not expected to have a significant impact on the Company's financial statements.

3. DISCONTINUED OPERATIONS

In 2016, the Company incorporated Minaean SP SL Ltd., a wholly owned subsidiary of the Company in Sierra Leone, for the purpose of carrying out a subcontract construction project in this region. Due to financial limitations by the project owner, the project has been stalled. During the year ended March 31, 2020, the Company's management have determined that it was in the Company's best interest to terminate the subcontract and to discontinue operations of Minaean SP SL Ltd.

MINAEAN SP CONSTRUCTION CORP.

Notes to Condensed Interim Consolidated Financial Statements

(Unaudited - Expressed in Canadian Dollars)

4. INVESTMENTS

Investments consist of highly liquid Indian Rupee denominated term deposits. Short-term investments have a term to maturity of greater than ninety days but not more than one year and long-term investments have a term to maturity of greater than one year. The counter-party is a financial institution. At September 30, 2020 and March 31, 2020, the Company held the following investments:

	September 30, 2020	March 31, 2020
Indian term deposits yielding an interest rate between 6% and 9.7%	\$ 19,807	\$ 20,570
	\$ 19,807	\$ 20,570

The Indian term deposits are invested with State Bank of India as guarantee against performance bonds issued on Government awarded contracts. Performance bonds are held until the completion of the contract close out and redeemable within a minimum of twelve months of contract close out date as negotiated in the contract.

5. RECEIVABLES

Short-term receivables consist of amounts due within twelve months.

	September 30, 2020	March 31, 2020
Trade receivables	\$ 243,814	\$ 285,482
Government sales input tax credits	9,936	6,926
	\$ 253,750	\$ 292,408

Long-term receivables of \$996,001 (March 31, 2020 - \$1,018,072) consists of \$255,401 in amounts for various government tax credits and refunds under re-assessment and have been withheld by the government pending completion of their review and \$740,600 in trade receivables that are estimated to be collected in excess of a twelve month period.

6. HOLDBACK RECEIVABLE

Holdback receivables represent amounts retained by the client on construction contracts as per milestones established in the contract released upon the expiration of the twelve month lien period after the construction project has completed in its entirety as negotiated in the contract.

Certain equipment and vehicle were not used during the period ended September 30, 2020 and the year ended March 31, 2020, therefore no amortization was taken during these periods.

8. GOVERNMENT LOAN AND GRANT

In response to the global outbreak of Novel Coronavirus (“COVID-19”), the federal government of Canada introduced the Canada Emergency Business Account (“CEBA”). CEBA provides an interest-free loan (“CEBA Loan”) of \$40,000 to eligible businesses. The CEBA Loan has an initial term that expires on December 31, 2022, throughout which, the CEBA Loan remains interest free. Repayment of \$30,000 by December 31, 2022, results in a \$10,000 loan forgiveness. In April 2020, the Company applied for and received a CEBA Loan.

Pursuant to IAS 20 *Accounting for Government Grants and Disclosure of Government Assistance*, the benefit of a government loan at below-market rate is treated as a government grant and measured in accordance with IFRS 9 *Financial Instruments*: the benefit of below-market rate shall be measured as the difference between the initial carrying value of the loan (being the present value of a similar loan at market rates) and the proceeds received. The Company has estimated the initial carrying value of the CEBA Loan at \$30,671, using a discount rate of 10%, which was the estimated rate for a similar loan without the interest-free component. The difference of \$9,329 will be accreted to the loan liability over the term of the CEBA Loan and offset to other income on the statements of loss and comprehensive loss.

To date, the Company spent an aggregate of \$24,833 of the CEBA Loan on eligible non-deferrable expenses. Accordingly, \$5,791 of the loan liability was recognized as other income.

14. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments based on the funds available in order to support continued operation and future business opportunities. The board of directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company considers its shareholders' capital to be capital.

During the period, the Company did not generate cash flow from revenues. In order to carry out potential expansion and to continue operations, and pay for administrative costs, the Company will spend its existing working capital, and raise additional amounts as needed.

Management estimates that the collection of its receivables will be sufficient to cover the operating expenses of the Company for the next twelve months of operations and to satisfy its liabilities.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the period ended September 30, 2020. The Company is not subject to externally imposed capital requirements.

15. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The Company's current assets and liabilities approximate fair value due to the short term nature of these instruments. The Company's holdback receivable and long-term receivable approximate fair value due to the nature of these items, which primarily includes government refunds, holdback receivables which will be collected upon expiration of warranty period in effect from the completion of construction projects, and trades receivables.

Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. Management believes that the credit risk concentration with respect to financial instruments included in cash is remote. Current receivables are due primarily from one customer consisting of 79% of total receivables. The Company's long-term receivables related to long-term portion of trade receivable and various government tax credits and refunds are at various stages of review by government authorities in India. Should the Company receive an unfavorable ruling, a loss provision will be made in the year incurred. The Company has credit risk as it relates to the collection of these receivables. Management continues to monitor the credit granted to all customers and has used the services of Export Development Canada where possible.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when they come due. As at September 30, 2020, the Company had a working capital deficiency of \$167,586 including cash deposits of \$36,569, short term investment of \$19,807, receivables and holdback receivables of \$274,140, and prepaid expenses and deposits of \$1,308 to settle current liabilities of \$499,410.

15. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and equity prices. These fluctuations may be significant and the Company, as all other companies in its industry, has exposure to these risks.

(a) Interest rate risk

Interest rate risk is the risk that an investment's value will change due to a change in the level of interest rates. The Company is exposed to interest rate risk as its bank account earns interest income at variable rates. The income earned on the bank account is subject to the movements in interest rates. Management considers the risk to be minimal.

(b) Foreign currency risk

The Company is exposed to foreign currency risk on fluctuations related to cash, short-term investments, receivables, holdback receivable, trades payable and accrued liabilities and due to related parties that are denominated in Indian Rupees and Sierra Leonean Leone. Management does not hedge its exposure to foreign exchange risk and does not believe the Company's net exposure to foreign currency risk is significant.

As at September 30, 2020, MHIPL had net financial assets of Rs 8,399,247. A 10% change in the Canadian dollar versus the Rupee would give rise to a gain/loss of approximately \$15,228.

(c) Price risk

The Company does not feel it is significantly exposed to price risk with respect to equity prices.
