The Company did not file the material change report more than 21 days before the expected closing date of the Offering as the details of the Private Placement and the participation therein by each "related party" of the Company were not settled until shortly prior to the closing of the Offering, and the Company wished to close the Offering on an expedited basis for sound business reasons.

The Company is relying on exemptions from the formal valuation and minority shareholder approval requirements available under MI 61-101. The Company is exempt from the formal valuation requirement in section 5.4 of MI 61-101 in reliance on sections 5.5(a) and (b) of MI 61-101 as the fair market value of the transaction, insofar as it involves interested parties, is not more than the 25% of the Company's market capitalization, and no securities of the Company are listed or quoted for trading on prescribed stock exchanges or stock markets. The Offering was unanimously approved at a meeting of the board of directors of the Company. In connection with the Offering, the Company entered into a subscription agreement with each participant in the Offering (including insiders of the Company) which included standard terms and conditions in respect of such participant's investment.
