Notes to Condensed Consolidated Interim Financial Statements
Six months ended June 30, 2020 and 2019

(Tabular amounts expressed in thousands, except share and per share amounts)

1. Nature of operations:

Canlan Ice Sports Corp. and its subsidiaries (collectively referred to as the "Company") focus on the development, lease, acquisition and operation of multi-purpose recreation and entertainment facilities in North America. Canlan Ice Sports Corp. is a company incorporated in Canada, whose shares are publicly traded on the Toronto Stock Exchange. The Company's head office is located at 6501 Sprott Street, Burnaby, British Columbia, Canada.

COVID-19

On March 11, 2020 the COVID-19 outbreak was declared a pandemic by the World Health Organization and the Company had to temporarily suspend facility operations at the end of business day March 13, 2020. Since that date, the Company has been managing the business impact of facility closures and preparing for the resumption of business operations in Canada and the United States. During the week of June 15, 2020, the Company resumed facility operations on a limited capacity basis. As at the date of issuance of these interim financial statements, approximately 50% of the Company's sport surfaces have been made available for rental and in-house programs, and facilities are operating in accordance with local health and safety regulations. Restaurant and retail operations remain closed at the present time.

The situation is dynamic and the ultimate duration and magnitude of the impact on the economy and our business are not known at this time. The impact could include the inability to obtain debt and equity financing, impairments in the value of our facilities, or potential future decreases in revenue or the profitability of our ongoing operations. However, the Company has established measures to preserve liquidity and to strengthen the Company's resilience in managing the effects of a reduction in business activity. Measures taken to date include a reduction of labour and other operating costs, payment deferrals of trade accounts payables arranged with suppliers and lessors where possible, application for the Canadian government's Emergency Wage Subsidy, and collaboration with the Company's banks to establish temporary revisions of credit terms (notes 9 and 16). The pace of recovery following the pandemic cannot be accurately predicted at this time but management will continue to adjust policies and procedures as appropriate to plan for and execute a return to full operations in accordance with government regulations.

2. Basis of preparation:

(a) Statement of compliance:

The condensed consolidated interim financial statements of the Company were prepared using the same accounting policies and methods as those used in the Company's consolidated financial statements for the year ended December 31, 2019. These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 ("IAS 34"), Interim Financial Reporting. Accordingly, certain information and footnote disclosure normally included in annual consolidated financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), have been omitted or condensed.

The consolidated financial statements were authorized for issue by the Board of Directors on August 12, 2020.

CANLAN ICE SPORTS CORP.

Notes to Condensed Consolidated Interim Financial Statements
Six months ended June 30, 2020 and 2019

(Tabular amounts expressed in thousands, except share and per share amounts)

(b) Basis of measurement:

The consolidated financial statements have been prepared on the historical cost basis, except for interest rate swaps, which are measured at fair value.

(c) Basis of presentation:

The notes presented in these interim financial statements include only significant changes and transactions that have occurred since the last fiscal year end.

(d) Functional and presentation currency:

The Company's presentation currency is the Canadian dollar. The functional currency of the Company's Canadian entities is the Canadian dollar and for the United States (U.S.) subsidiaries is the U.S. dollar. Accordingly, the financial statements of the Company's U.S. subsidiaries have been translated into Canadian dollars as follows:

- i) Asset and liability amounts are translated at the exchange rate at the end of each reporting period;
- ii) Amounts included in the determination of earnings are translated at the respective monthly average exchange rates; and
- iii) Any gains or losses from the translation of amounts determined in (i) and (ii) above are recognized in other comprehensive income and accumulated in the foreign currency translation reserve, which is a separate component of shareholders' equity.

Transactions in currencies other than the Company's functional currency, and not related to the Company's U.S. subsidiaries, are translated at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Foreign currency differences arising on the retranslation are recognized in net earnings.

(d) Use of estimates and judgments:

The preparation of the condensed consolidated interim financial statements in conformity with IAS 34 requires management to make judgments, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

Estimates and judgments are continually evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Key sources of estimation uncertainty are the areas where assumptions and estimates have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities. These are:

CANLAN ICE SPORTS CORP.

Notes to Condensed Consolidated Interim Financial Statements
Six months ended June 30, 2020 and 2019

(Tabular amounts expressed in thousands, except share and per share amounts)

- *Accounts receivable* - in determining the valuation of accounts receivable and the allowance for doubtful accounts, the Company relies on current customer information, payment history, and trends.
- *Employee benefits* - the Company's long-term incentive program provides cash compensation to officers and directors based upon the future equity value of the Company as calculated by a specified formula. Compensation expense is recognized based upon the best estimate of the undiscounted amount that is expected to be paid pro-rated over the life of the vesting term.
- *Revenue recognition* - revenue from recreational facility operations is recognized as the Company's performance obligations are satisfied. Deferred revenue relates to amounts received in advance for the Company's sports leagues, programs, and rentals; revenue is recognized over time as games and lessons occur, and as ice or field times are used. A certain amount of judgment is required in the determination of revenue recognition based on the Company's estimates. Any differences are recognized upon completion of the season.
- *Deferred income tax* - deferred income tax assets and liabilities are calculated by assessing temporary differences resulting from differing treatment of items for tax and accounting purposes and net operating losses carried forward. The valuation of deferred tax assets are measured based on management's estimates of future taxable income and expected timing of reversals of temporary differences.

Critical judgments that have a higher degree of judgment and the most significant effect on the Company's financial reporting, apart from those involving estimates (discussed above), include:

- *Recoverability of property, plant, and equipment* - the recoverability of the Company's recreational properties is based on future discounted cash flows expected to be generated from such assets. These cash flows are based on management's approved budgets and projections. When appropriate, third-party appraisals will also be used to assess the recoverability of recreational properties. Due to the COVID-19 pandemic that curtailed business activity of the Company's recreation properties, management has reviewed the recoverability of property, plant, and equipment, and has concluded that there has been no impairment in the recoverability of the properties at June 30, 2020.
- *Useful lives of property, plant, and equipment* - property, plant, and equipment are depreciated on a straight-line basis over their estimated useful life. Approximately 80% of the Company's total assets are comprised of recreational properties. The method of depreciation and length of the depreciation period could have a material impact on depreciation expense and the net book value of the Company's assets. Assets may become obsolete or require replacement before the end of their estimated useful lives, in which case any remaining unamortized costs would be written off.

3. Significant accounting policies:

These condensed consolidated interim financial statements were prepared using the same accounting policies and methods as those used in the December 31, 2019 consolidated financial statements except for the following:

Government grant:

Government grant is recognized when there is reasonable assurance that the Company will comply with any conditions attached to the grant and the grant will be received. The grant is recognized in profit or loss on a systematic basis over the periods in which the Company recognizes the related wages expenses for which the grant is intended to compensate.

4. Restricted cash

Cash and cash equivalents include \$500,000 (2019 – \$880,000) of restricted cash representing funds held in trust in accordance with the terms of a lease agreement with a third party. These funds are maintained as operating reserves and the balance will change as reserve requirements are adjusted.

5. Note receivable:

On August 20, 2019, the Company completed the sale of a recreation facility in Fort Wayne, Indiana for proceeds of US\$5,950,000, which included a combination of cash and a promissory note of US\$1,950,000. The note receivable is amortized over 20 years, matures on August 20, 2024, bears interest at 5.97% per annum payable monthly, and is categorized as Level 2 within the fair value hierarchy (note 15). At issuance, the note receivable was measured at its fair value of \$2,589,000 (US\$1,950,000) at 5.97%. At June 30, 2020, the current portion of the note receivable outstanding was \$74,000, and the non-current portion was \$2,525,000.

This note receivable is secured by a second mortgage on the property sold.

On April 23, 2020, the Bank provided a temporary amendment to the repayment terms, such that interest only payments shall be made from May 1, 2020 until July 31, 2020. The credit facility's maturity date of May 25, 2023 remains unchanged. This amendment was initiated in response to the COVID-19 outbreak that resulted in a temporary suspension of the Company's business operations (note 1). In addition, \$10,000,000 of this revolving credit facility was made available for working capital purposes from April 23, 2020 until December 31, 2020. Amounts drawn on this working capital credit facility will accrue interest at Prime rate plus 0.50% and interest only shall be payable until December 31, 2020. On January 1, 2021, the amount drawn for working capital purposes will be transitioned to term debt and be amortized over 15 years and principal plus interest shall be repayable monthly. In addition, the revolving capital expenditure loan available will revert to \$20,000,000 less amounts drawn for capital expenditures. As at the date of reporting, no amounts have been drawn from this \$10,000,000 working capital credit facility;
- \$7,100,000 loan amortized over 15 years, maturing on September 30, 2023, interest at CDOR plus 2.1% per annum payable monthly. At June 30, 2020, the balance outstanding was \$6,351,000. On March 31, 2020, the Bank provided a temporary amendment to the repayment terms, such that interest only payments shall be made from April 1, 2020 until June 30, 2020. The credit facility's maturity date of September 30, 2023 remains unchanged. In addition, the bank provided a waiver on covenant compliance requirements for March 31, 2020 and June 30, 2020. These amendments were initiated in response to the COVID-19 outbreak that resulted in a temporary suspension of the Company's business operations (note 1); and
- \$745,000 demand revolving operating loan, interest at Prime rate plus 0.50% per annum. No amounts have been drawn on this loan to date.

These credit facilities are secured by first mortgages, demand debentures, general security agreements, general assignments of book debts, assignments of rents and insurance, and specific pledging of title to, and interest in the respective land and buildings.

Amortization of deferred financing costs related to these facilities totaling \$68,000 (2019 - \$41,000) was recorded in finance costs.

On November 14, 2019, the Company declared a quarterly dividend of \$0.0275 per share which was paid on January 16, 2020. On March 24, 2020, the Company suspended its quarterly dividend policy to preserve liquidity in response to the COVID-19 pandemic (note 1).

11. Long-term incentive plan:

On January 1, 2020, a new long-term incentive plan, (the LTI Plan) commenced and units were granted to eligible directors and employees of the company. This plan replaced the Stock Appreciation Rights Plan (2016) that matured on November 29, 2019.

The LTI Plan granted on January 1, 2020 will vest and be exercisable at December 31, 2022. The amount compensated to these unit holders shall be equal to the increase in "enterprise value" per common share of the company from December 31, 2018 to December 31, 2022. The "enterprise value" per common share is calculated based on a formula set out in the LTI Plan.

The table below summarizes the LTI Plan units outstanding at June 30, 2020:

	Number of units	Base enterprise value
Number of units granted, January 1, 2020	1,013,600	\$ 5.17
Exercised	-	
Balance, June 30, 2020	1,013,600	\$ 5.17

During the six months ended June 30, 2020, no compensation expense with respect to the LTI Plan was recorded (2019 - \$179,000).

12. General and administration expenses:

General and administration expenses consist of the following:

	\$ 2,614	\$ 2,951

13. Commitments and contingencies:

- Due to the nature of the sports and recreation business, various lawsuits involving the Company are pending. The financial impact of these lawsuits is not determinable, but management believes, based on legal counsels' opinions, that the outcome will not materially affect the Company's financial position.
- At June 30, 2020, the Company has letters of guarantee outstanding with various vendors in the amount of \$1,005,000 (2019 - \$1,105,000).

15. Financial instruments:

(a) Fair value:

The Company has the following financial instruments:

	Accounting classification	Fair value level
Financial assets not measured at fair value:		
Cash and cash equivalents (i)	Amortized cost	2
Accounts and note receivable (i)	Amortized cost	2
Financial assets measured at fair value:		
Interest rate swap (iii)	FVTPL	2
Financial liabilities not measured at fair value:		
Accounts payable and accrued liabilities (i)	Amortized cost	2
Lease liabilities (ii)	Amortized cost	2
Debt	Amortized cost	2

(i) The carrying values of cash and cash equivalents, accounts and note receivable, and accounts payable and accrued liabilities are considered by management to approximate their fair values due to their short-term nature.

(ii) The carrying values of lease liabilities are considered by management to approximate their fair values due to the lease rate at reporting date being consistent with the lease rate at inception date.

(iii) In June 2016, the Company entered into an interest rate swap agreement (seven-year term) to fix the interest rate on a portion of its debt (note 9). The fair value of this derivative instrument has been presented as interest rate swap on the statement of financial position. Changes in fair value of the instrument are recognized in net earnings. For the period ended June 30, 2020, a loss of \$1,184,000 (\$706,000 in 2019) was recognized.

(b) Financial risk management:

(i) Interest rate risk:

The terms of the Company's outstanding debt are described in note 9. As certain of the Company's debt instruments bear interest at floating rates and are not economically hedged by interest rate swaps, fluctuations in these rates will impact the cost of financing incurred in future periods. A change in the base market rates upon which these loans accrue interest by 1% will increase or decrease interest expense by approximately \$267,000 (December 31, 2019 - \$273,000) per annum.

(ii) Liquidity risk:

Liquidity risk is the risk from the Company's potential inability to meet its financial obligations. The Company constantly monitors its cash flows and operations to ensure current and long-term obligations can be met. The Company's capital resources are comprised of cash and cash equivalents and cash flow from operating activities. Cash and cash equivalents is comprised of cash balances and deposits with financial institutions and other short-term, highly liquid investments with original maturities of three months or less when acquired, that are readily convertible to cash. Due to the seasonality of the business, the Company finances a portion of its assets through customer deposits received in advance of the services being provided. At June 30, 2020, the Company has a working capital deficiency of \$3,411,000 (December 31, 2019 - \$112,000). Throughout the year, the Company has access to a demand revolving operating loan to provide working capital, if necessary. Due to the effects the COVID-19 pandemic on business operations, management has implemented measures to preserve liquidity (note 1) and, in addition to the normal operating loan, the Company has made arrangements with its banks to temporarily revise credit terms on existing loan facilities that helps to mitigate the effects on cash flow (note 9).

(iii) Credit risk:

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's accounts and note receivable. Effective collection management procedures and monitoring of credit risk of amounts receivable are core control procedures of the Company. In addition, a subordinated charge on real property has been obtained as security related to a note receivable from a third party. Appropriate provisions, if required, are recorded for impaired accounts. Historically, the Company has not experienced significant losses related to trade accounts receivable from individual customers. The Company does not face any material concentrations of credit risk. The Company's credit risk on cash and cash equivalents is limited as it maintains its holdings with large highly rated financial institutions.

(iv) Currency risk:

The Company is exposed to currency risk on sales, purchases, and amounts receivable that are denominated in a currency other than the respective functional currency of the Company, the Canadian dollar. The currency in which these transactions primarily are denominated is the U.S. dollar. The Company is exposed to the risk of loss depending on the relative movement of this currency against the Canadian dollar. The Company has not entered into forward contracts to mitigate this risk; however, cash generated from U.S. business activities is used to service working capital needs of U.S. operations. As at June 30, 2020, the Company has a note receivable denominated in U.S. dollars (note 5).

16. Capital risk management:

The Company defines capital that it manages as the sum of cash and cash equivalents, long-term borrowings, and shareholders' equity.

The Company's objectives when managing its capital are:

- (a) To safeguard the Company's ability to continue as a going concern so that it can provide services to its customers and continue to reduce debt;
- (b) To comply with debt covenants;
- (c) To maintain a financial position suitable for supporting the Company's growth strategies and provide an adequate return to shareholders; and
- (d) To return excess cash to shareholders through payment of dividends.

The Company executes a planning and budgeting process to determine the funds required to ensure the Company has appropriate liquidity to meet its operating and growth objectives. The Company ensures there are sufficient credit facilities to meet its current and future business requirements, taking into account its anticipated cash flows from operations and its holding of cash and cash equivalents. The Company is required to comply with covenant criteria established by its lenders. These include tangible net worth and debt coverage ratio measurements. As at June 30, 2020 and December 31, 2019, the Company was in compliance with these covenants.

The Company is not subject to any statutory capital requirements but has adjusted its overall capital management strategy during the six months ended June 30, 2020 in response to the effects that the COVID-19 pandemic has had on business operations (note 1).

17. Related party transactions:

- (a) During the six months ended June 30, 2020, the Company expensed \$72,000 (2019 - \$118,000) in directors' fees.
- (b) A Director of the Company is the Chairman of the Board of Directors of a vendor from which the Company purchases services in the normal course of business. Purchases from this vendor for the six months ended June 30, 2020 was \$9,800 (2019 - nil).
- (c) The Company's majority shareholder is Bartrac Investments Ltd. ("Bartrac"). One of the Company's Directors is also a Director of Bartrac. During the six months ended June 30, 2020 and 2019, there were no related party transactions between the Company and Bartrac.

21. Subsequent events:

- a) On August 7, 2020, one covenant related to the Company's debt coverage ratio that is measured annually based on the Company's December 31, 2020 consolidated financial results has been waived by the Company's senior lenders in light of the unusual effects that the COVID-19 pandemic is anticipated to have on business operations during the 2020 fiscal year. In its place, a minimum liquidity covenant has been established that is based on the sum of the Company's cash-on-hand plus undrawn working capital credit facilities at each period end. This covenant waiver will be in effect for December 31, 2020 while the new minimum liquidity covenant will be in effect for each quarter end from September 2020 to September 2021.
- b) On July 3, 2020, a parcel of vacant land that was included in assets held for sale at June 30, 2020 (note 8) was sold to a third party for net proceeds of \$2,400,000.
