NEWS RELEASE

WestBond Posts Record Sales Performance and Declares Quarterly Dividend Payment Date

Delta, BC November 21, 2019 – WestBond Enterprises Corporation (TSX-V: WBE) has posted a profit of \$136,909 for the three months ended September 30, 2019. This represents an increase of 124% over the profit of \$61,134 for the three months ended September 30, 2018. Sales for the period increased 10.3% to a record high of \$3,007,023 this year compared to \$2,725,671 for the three months ended September 30, 2018. Further sales growth was hindered by a temporary shortage of personal hygiene paper supply early in the period, which was resolved by the end of the period.

Sales of the company's air laid products and clinical lines continue strong. WestBond intends to continue to develop these markets and increase profitability by improving production efficiencies and lowering overhead costs.

The quarterly report and other information can be found on the company's website at www.westbond.ca and on SEDAR at www.sedar.com.

The board of directors has declared the quarterly dividend of \$0.0025 per share is payable on December 20, 2019 to shareholders of record on December 5, 2019.

Cautionary Note Regarding Forward Looking Statements: *This release includes certain statements and information that constitute forward-looking information within the meaning of applicable Canadian securities laws, including statements regarding the Company's intentions. Generally, forward-looking statements and information can be identified by the use of forward-looking terminology such as "intends" or "anticipates", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "should" or "would" occur. Forward-looking statements are based on certain material assumptions and analysis made by the Company and the opinions and estimates of management as of the date of this press release, including the ability to develop markets and increase profitability. Although the Company considers these assumptions to be reasonable based on information currently available to it, they may prove to be incorrect, and the forward-looking statements in this release are subject to numerous risks, uncertainties and other factors that may cause future results to differ materially from those expressed or implied in such forward-looking statements. Such risk factors may include, among others, changes in operating performance, availability of and prices for raw materials, availability of trained labour, foreign currency exchange rate fluctuations, unexpected competition and other technical, market and economic factors. Although management of the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements or forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements and forward-looking information. Readers are cautioned that reliance on such information may not be appropriate for other purposes. The Company does not undertake to update any forward-looking statement, forward-looking information or financial outlook that is incorporated by reference herein, except in accordance with applicable securities laws. We seek safe harbour.*
