Oversight and Description of Director and NEO Compensation

The Compensation Committee of the Company's Board is responsible for ensuring that the Company has appropriate procedures for making recommendations to the Board with respect to the compensation of the Company's executive officers and directors. The Compensation Committee consists of William Katzin, Mario Szotlender and Simon Ridgway, of whom Messrs. Katzin and Szotlender are independent directors.

The general philosophy of the Company's compensation strategy is to: (a) encourage management to achieve a high level of performance and results with a view to increasing long-term shareholder value; (b) align management's interests with the long-term interest of shareholders; (c) provide a compensation package that is designed to attract and retain highly qualified executives and directors; and (d) ensure that total compensation paid takes into account the Company's overall financial position.

Compensation to the Company's NEOs is comprised of cash salaries and/or incentive stock options. The compensation to the Company's NEOs for the fiscal year ended December 31, 2022 consisted solely of cash salaries. The Company granted incentive stock options to its NEOs and directors in June 2023, and may in the future grant stock options to its NEOs and directors.

In establishing levels of cash compensation and the granting of stock options, the individual's performance, level of expertise, and responsibilities are considered. Stock options are generally granted at the time of the individual's appointment and periodically thereafter. Previous grants of options are taken into account by the Board when it considers the granting of new stock options.

Incentive stock options are granted pursuant to the Company's stock option plan which is designed to encourage share ownership on the part of the Company's management, directors, employees and consultants. The Board believes that the stock option plan aligns the interests of the Company's personnel with shareholders by linking compensation to the longer term performance of the Company's shares. The granting of incentive stock options is an important component of executive compensation as it allows the Company to reward an individual's efforts to increase shareholder value without requiring the use of the Company's cash reserves.
