

CANADIAN LIFE COMPANIES SPLIT CORP.

2018 SEMI-ANNUAL REPORT  
(UNAUDITED)

CANADIAN  
LIFE SPLIT  
COMPANIES

This report may contain forward-looking statements about the Company. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Company action, is also forward-looking. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Company and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Company. Any number of important factors could contribute to any divergence between what is anticipated and what actually occurs, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technology change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

The above-mentioned list of important factors is not exhaustive. You should consider these and other factors carefully before making any investment decisions and you should avoid placing undue reliance on forward-looking statements. While the Company currently anticipates that subsequent events and developments may cause the Company’s views to change, the Company does not undertake to update any forward-looking statements.

**CANADIAN LIFE COMPANIES SPLIT CORP.**  
**SEMI-ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE**

**MAY 31, 2018**

---

This is the semi-annual Management Report of Fund Performance (MRFP) for the period ended May 31, 2018. This MRFP contains financial highlights but does not contain the complete financial statements of the Company. The semi-annual financial statements and accompanying notes are attached to this report.

Investors may also obtain a copy of the Company's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure by visiting our website at [www.lifesplit.com](http://www.lifesplit.com) or by writing to the Company at Investor Relations, 200 Front Street West, Suite 2510, Toronto, Ontario M5V 3K2 .

These reports are available to view and download at [www.lifesplit.com](http://www.lifesplit.com) or [www.sedar.com](http://www.sedar.com).

---

**INVESTMENT OBJECTIVES AND STRATEGIES**

Canadian Life Companies Split Corp. invests primarily in a portfolio of commons shares which will include each of the Canadian life insurance companies listed below:

Great West Lifeco Inc.	Manulife Financial Corporation
Industrial-Alliance Insurance & Financial Services	Sun Life Financial Inc.

The Company may also invest up to 20% of its net asset value in equity securities of foreign life insurance companies or other Canadian or foreign financial services corporations other than the four Canadian life insurance companies listed above. In order to supplement the dividends received on the portfolio and to reduce risk, the Company will from time to time write covered call options in respect of some or all of the common shares in the portfolio.

The Company offers two types of shares:

**Preferred shares (LFE.PR.B)**

The investment objectives with respect to the Preferred shares are as follows:

1. To provide holders with fixed cumulative preferential monthly cash dividends in the amount of \$0.05208 per Preferred share to yield 6.25% per annum on the original issue price (\$10) of the Preferred shares; and
2. On or about the termination date of December 1, 2018 (subject to further 6 year extensions thereafter) to pay holders the original issue price.

**Class A shares (LFE)**

The investment objectives with respect to the Class A shares are as follows:

1. To provide holders with such dividends as the directors of the Company may from time to time determine; and
2. On or about the termination date to pay holders such amounts as remain after paying the holders of the Preferred shares the amounts owing to them.

---

## **RISK**

The risks of investing in the Company remain as discussed in the Annual Information Form dated February 26, 2018. In addition, note 5 of the semi-annual financial statements (“Management of Risk of Financial Instruments”) contains disclosure on specific types of risks related to the financial investments held by the Company.

---

## **RESULTS OF OPERATIONS**

The market performance of the life insurance companies held in the portfolio was generally flat to slightly down during the period reflecting reduced expectations for further increases in longer term rates due to a slowing economy.

Canada and the U.S. continue to have several demographic trends working in favour of insurers, especially those with wealth and asset management businesses, as an aging population increasingly looks to manage its savings. The wealth management units of life insurance companies continue to be significant drivers of earnings for these companies. This growing component of the earnings of these companies contributes to a more favourable valuation profile.

The net assets per unit (consisting of one Preferred share and one Class A share) finished at \$14.44 as at May 31, 2018, after the payment of \$0.3125 to Preferred shareholders and two monthly payments to Class A shareholders for a total amount of \$0.20.

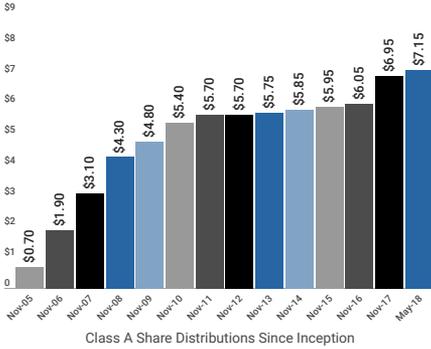

The Company continued to utilize its ability to invest up to 20% of its net assets in financial services companies other than the 4 core life insurance companies.

Net assets of the Company finished the period at \$214.1 million.

The covered call writing program continued to provide additional income and supplemented the dividend income earned in the portfolio

## Class A shares - Distributions

Class A shareholders will receive dividends as the directors of the Company may from time to time determine. The net asset value per unit must remain above the required \$15 per unit threshold for monthly distributions to be paid. Total distributions per Class A share during the period amounted to \$0.20.

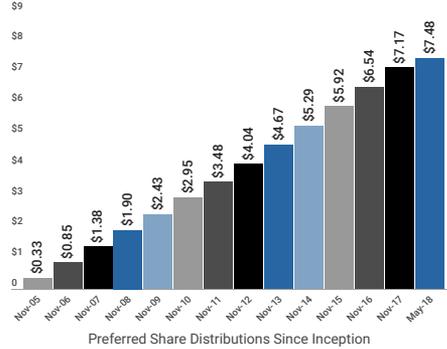

**7.15**

Cumulative total of distributions paid to Class A share since inception

## Preferred shares - Distributions

Preferred Shareholders are entitled to fixed, cumulative preferential monthly cash dividends in the amount of \$0.05208 per Preferred Share to yield 6.25% per annum on the original issue price. Distributions during the period were at the fixed rate for a total of \$0.3125 per Preferred share.

**7.48**

Cumulative total of distributions paid to Preferred share since inception

## RECENT DEVELOPMENTS

There were no developments during the period.

## RELATED PARTY TRANSACTIONS

Quadravest Capital Management Inc. ("Quadravest") as investment manager and manager earns fees from the Company as described below in the Management Fees section.

## FINANCIAL HIGHLIGHTS

The following tables show selected financial information about the Company and are intended to help you understand the Company's financial performance for the past five years. This information is derived from the Company's semi-annual financial statements and previous audited annual financial statements. The information in the following table is presented in accordance with National Instrument ("NI") 81-106 and, as a result, does not act as a continuity of opening and closing net assets per unit.

### The Company's net assets per unit

	May 31, 2018	Years ended November 30 <sup>(4)</sup>				
		2017	2016	2015	2014	2013
Net assets per unit, beginning of period <sup>(1)</sup>	15.51	15.95	14.97	15.06	14.35	12.48
Increase (decrease) from operations						
Total revenue	0.24	0.45	0.52	0.45	0.40	0.42
Total expenses	(0.08)	(0.17)	(0.15)	(0.15)	(0.20)	(0.32)
Realized gains for the period	0.13	0.98	0.39	0.20	0.26	0.03
Unrealized gains for the period	(0.85)	(0.18)	0.82	0.12	0.86	2.66
Total increase from operations <sup>(2)</sup>	<u>(0.56)</u>	<u>1.08</u>	<u>1.58</u>	<u>0.62</u>	<u>1.32</u>	<u>2.79</u>
Distributions <sup>(3)</sup>						
Canadian dividends	<u>(0.51)</u>	<u>(1.52)</u>	<u>(0.73)</u>	<u>(0.73)</u>	<u>(0.73)</u>	<u>(0.68)</u>
Total annual distributions	<u>(0.51)</u>	<u>(1.52)</u>	<u>(0.73)</u>	<u>(0.73)</u>	<u>(0.73)</u>	<u>(0.68)</u>
Net assets per unit at end of period	14.44	15.51	15.95	14.97	15.06	14.34
Net assets per Preferred share	10.00	10.00	10.00	10.00	10.00	10.00
Net assets per Class A share	<u>4.44</u>	<u>5.51</u>	<u>5.95</u>	<u>4.97</u>	<u>5.06</u>	<u>4.34</u>
Net assets per unit at end of period	14.44	15.51	15.95	14.97	15.06	14.34

- (1) Net assets per unit is the difference between the aggregate amount of the Company's assets and the aggregate amount of its liabilities, excluding Preferred shares and net assets attributable to holders of redeemable Class A shares, at the valuation date, divided by the number of units then outstanding.
- (2) Total increase (decrease) from operations is before the payment of Preferred and Class A share distributions and is calculated based on the weighted average number of units outstanding during the period.
- (3) Distributions on the Preferred shares and Class A shares are based on the number of Preferred shares and Class A shares outstanding on the record date for each distribution and were paid in cash. Characterization of distributions is based on the tax treatment that is received by investors.
- (4) Per unit figures presented for 2014 and onwards are derived from the Company's semi-annual financial statements and audited annual financial statements which were prepared in accordance with International Financial Reporting Standards ("IFRS"). Per unit figures presented for periods prior to 2014 were derived from the Company's audited financial statements which were prepared in accordance with Canadian Generally Accepted Accounting Principles ("GAAP") as defined in Part V of the CPA Handbook.

## RATIOS AND SUPPLEMENTAL DATA

	May 31, 2018	Years ended November 30				
		2017	2016	2015	2014	2013
Net asset value (millions) <sup>(1)</sup>	\$214.1	\$230.0	\$236.6	\$240.6	\$245.4	\$190.0
Number of units outstanding	14,830,286	14,830,286	14,830,286	16,074,020	16,291,846	12,489,480
Base management expense ratio <sup>(2)</sup>	1.02%	1.03%	0.95%	0.96%	1.31%	2.31%
Management expense ratio including one time offering expenses <sup>(3)</sup>	1.02%	1.03%	0.95%	0.96%	1.43%	2.69%
Management expense ratio per Class A share <sup>(4)</sup>	16.55%	14.9%	18.61%	16.71%	18.10%	25.14%
Portfolio turnover rate <sup>(5)</sup>	4.87%	24.82%	14.82%	8.6%	24.10%	86.0%
Trading expense ratio <sup>(6)</sup>	0.05%	0.07%	0.07%	0.01%	0.04%	0.12%
Closing market price (TSX): Preferred shares	\$10.28	\$10.31	\$10.26	\$10.23	\$10.27	\$10.02
Closing market price (TSX): Class A shares	\$4.61	\$6.27	\$5.55	\$4.30	\$4.70	\$4.90

(1) This information is provided as at May 31 or November 30.

(2) A separate base management expense ratio has been presented to reflect the normal operating expenses of the Company excluding any one time offering expenses. Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of average net asset value during the period.

(3) Share issue expenses, representing all Agents' fees and other offering expenses are one time initial expenses connected with the launch of the Company or any subsequent secondary offering.

(4) Management expense ratio for Class A shares is based on the requirements of NI 81-106. This instrument requires that all split share companies produce an expense ratio which allocates all operating expenses of the Company, all distributions on Preferred shares and all issuance costs to the Class A shares and expresses this as an annualized percentage of net assets applicable only to the Class A shares during the period. The management expense ratio per Class A shares should not be interpreted as the required return necessary for the Company or the Class A shares to cover the operating expenses of the Company. This calculation is based only on a portion of the Company's assets whereas the Company utilizes its entire assets to generate investment returns. Management believes that the base management expense ratio per unit disclosed in the table above is the most representative ratio in assessing the ongoing efficiency of the administration of the Company, making comparisons to the expense ratios of single unit mutual funds or determining the minimum investment returns necessary by the Company to achieve growth in net asset value per unit.

(5) The Company's portfolio turnover rate indicates how actively Quadravest manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to the Company buying and selling all of the securities in its portfolio once in the course of the period. The Company employs a covered call writing strategy which can cause the portfolio turnover rate to be higher than conventional mutual funds. The higher the Company's portfolio turnover rate in a period, the greater the trading costs payable by the Company in the period and the greater chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of the Company.

(6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of average net asset value during the period.

## MANAGEMENT FEES

Pursuant to the terms of the investment management agreement, Quadravest is entitled to a base management fee payable in arrears at an annual rate equal to 0.65% of the transactional net assets of the Company, which include the outstanding Preferred shares, calculated as at each month-end valuation date. In addition, Quadravest is entitled to receive a performance fee subject to the achievement of certain pre-established total return thresholds.

Pursuant to the management agreement, Quadravest is entitled to an administration fee payable monthly in arrears at an annual rate equal to 0.1% of the net asset value of the Company, which includes the outstanding Preferred shares, calculated as at each month-end valuation date and an amount equal to the service fee payable to dealers on the Class A shares at a rate of 0.50% per annum. No service fee will be paid in any calendar quarter if regular dividends are not paid to holders of Class A shares in respect of each month in such calendar quarter.

The base management fee was used by Quadravest to provide investment analysis, make investment decisions, and make brokerage arrangements for the purchase and sale of securities including the covered call writing program. The administration fee was used to provide or arrange administrative services required by the Company which includes all operational services, financial accounting, shareholder reporting and regulatory reporting.

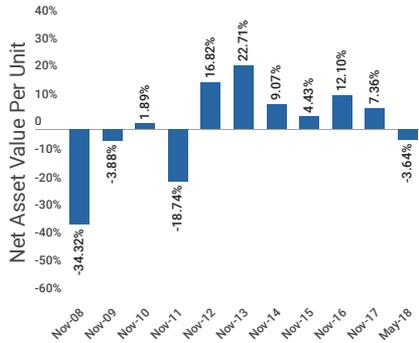

## PAST PERFORMANCE

### Year-by-Year Returns

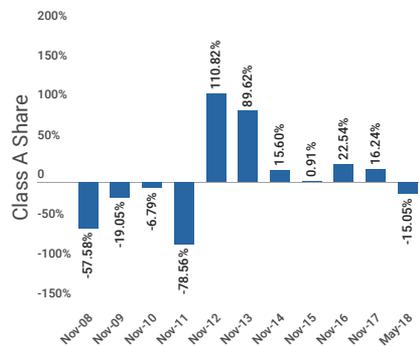

The past performance of 1) the net asset value per unit; 2) the Preferred share on a net asset value basis; and 3) the Class A share on a net asset value basis for each of the last 10 years are presented in the bar charts below. Each bar in the chart reflects the change in percentage terms of how a unit, a Preferred share or a Class A share would have increased or decreased during the applicable year. In respect to the charts displayed below, please note the following:

- The performance information shown assumes that all cash distributions made by the Company during the years shown were reinvested in the applicable additional securities of the Company;
- The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance; and
- Past performance of the Company does not necessarily indicate how it will perform in the future.

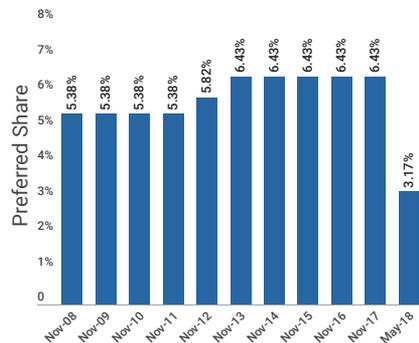

#### NET ASSET VALUE PER UNIT

#### CLASS A SHARE

#### PREFERRED SHARE

- The returns per unit and per Class A share for the year ended November 30, 2013 were calculated using the diluted net asset value per unit and diluted net asset value per Class A share, respectively.
- The return per Class A share for the year ended November 30, 2012 reflects the consolidation of Class A shares on June 25, 2012 and was calculated using the diluted net asset value per Class A share.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2018 AND 2017 (UNAUDITED)

---

### 1. Incorporation

Canadian Life Companies Split Corp. (the “Company”) is a mutual fund corporation established under the laws of the Province of Ontario on March 3, 2005 that began investment operations on April 18, 2005. The manager and the investment manager of the Company is Quadravest Capital Management Inc. (“Quadravest” or “Manager”). The termination date of the Company is December 1, 2018 and may be further extended thereafter at the Company’s discretion for additional terms of six years each. Shareholders would be provided with a special retraction right in connection with any such extension. The Company’s principal office is located at 200 Front Street West, Suite 2510, Toronto, Ontario M5V 3K2. The Company invests primarily in an actively managed portfolio of common shares comprised primarily of 4 core large capitalization Canadian life insurance companies. The Company employs an active covered call writing program to enhance the income earned from the portfolio.

### 2. Basis of presentation

These financial statements have been prepared in compliance with International Financial Reporting Standards (“IFRS”), as applicable to the preparation of interim financial statements, including International Accounting Standard (“IAS”) 34, Interim Financial Reporting. These financial statements should be read in conjunction with the annual financial statements for the year ended November 30, 2017, which were prepared in accordance with IFRS.

These financial statements were approved by the Board of Directors of the Company on July 18, 2018.

### 3. Summary of significant accounting policies

The following is a summary of the significant accounting policies followed by the Company.

#### Investments and financial instruments

The Company recognizes financial instruments at fair value upon initial recognition.

The Company’s investments are designated at fair value through profit and loss (“FVTPL”) and derivatives (including options) are held for trading and also carried at FVTPL.

The Company recognizes regular purchases and sales of financial instruments on the trade date, which is the date on which it commits to purchase or sell the instrument. Transaction costs, such as brokerage commissions, related to financial assets classified or designated as at FVTPL are expensed as incurred and transaction costs related to financial instruments not at FVTPL are included in the carrying amounts thereof. A financial asset is derecognized when the rights to receive cash flows from the investment have expired or have been transferred and when the Company has transferred substantially all the risks and rewards of ownership of the asset. Dividends are recognized as income on the ex-dividend date. Realized gains and losses and unrealized appreciation and depreciation are determined on an average cost basis. The cost of investments is determined using the average cost method.

Written option premiums received by the Company are, so long as the options are outstanding, reflected as a liability, in the Statements of Financial Position and are valued at an amount equal to the current market value of an option that would have the effect of closing the position. Gains or losses realized upon expiration or exercise of the option are included in net realized gain (loss) on investments and derivatives in the Statements of Comprehensive Income/(Loss).

---

# CANADIAN LIFE COMPANIES SPLIT CORP.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2018 AND 2017 (UNAUDITED)

---

The Preferred shares rank prior to the Class A and Class B shares and are thus not subordinate to all other classes of puttable instruments and therefore, the shares have been classified as financial liabilities. These shares are carried at amortized cost. Amortization of premiums or discounts on the issuance of Preferred shares is included in gain (loss) on remeasurement of Preferred shares in the Statements of Comprehensive Income/(Loss).

The Class B shares are subordinate to the Preferred shares but rank prior to the Class A shares and are thus not subordinate to all other classes of puttable instruments and therefore, the shares have been classified as financial liabilities. These shares are carried at amortized cost.

The Class A shares may be retracted monthly, annually, or on the termination date of the Company. As a result, the shares contain multiple contractual obligations, and therefore, have been presented as financial liabilities at the annual redemption amount.

Financial assets and liabilities other than investments, derivatives, and Class A shares are recognized initially at the amount expected to be received or paid less, when material, a discount to reduce them to fair value. Subsequently, they are measured at amortized cost using the effective interest rate method less a provision for impairment, if any. Due to their short-term nature, the fair values of these financial assets and liabilities approximate their carrying amounts.

The net asset value of the Company is determined in accordance with requirements of law, including National Instrument 81-106, Investment Fund Continuous Disclosure, and is used to process shareholder transactions. For financial reporting purposes, net assets of the Company is determined as the difference between the aggregate amount of the Company's assets and the aggregate amount of its liabilities, excluding Preferred shares and net assets attributable to holders of redeemable Class A shares ("Net Assets of the Company").

### **Valuation of investments**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded shares and options) are based on the last traded prices at the close of trading on the reporting date. The Company uses the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances. The Company's policy is to recognize transfers into and out of the fair value hierarchy levels as of the date of the event or change in circumstances giving rise to the transfer.

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date. Valuation techniques include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and others commonly used by market participants and which make the maximum use of observable inputs. Refer to note 5 for further information about the Company's fair value measurements.

### **Cash**

Cash consists of cash on hand.

---

# CANADIAN LIFE COMPANIES SPLIT CORP.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2018 AND 2017 (UNAUDITED)

---

### Translation of foreign currencies

The Company's functional and presentation currency is Canadian dollars. The fair value of investments and other assets and liabilities in foreign currencies are translated into the Company's functional currency at the rates of exchange prevailing at each measurement date. Purchases and sales of investments, income and expenses are translated at the rates of exchange prevailing on the respective dates of such transactions.

### Management fees, administration fees and performance fees

Management fees and administration fees are accrued by the Company over time, as services are rendered by Quadravest. At each measurement date, the Company recognizes an expense and financial liability based on the amount, if any, of performance fees expected to be paid based on the net asset value of the Company. Refer to note 7 for further information about the calculation of management, administration fees and performance fees, if any, of the Company.

### Increase (decrease) in Net Assets Attributable to Holders per Redeemable Class A share

Increase (decrease) in net assets attributable to holders per redeemable Class A share is based on the increase or decrease in net assets attributable to holders of redeemable Class A shares divided by the weighted average number of such shares outstanding during the period. Refer to note 8 for the calculation.

### Taxation

The Company qualifies as a mutual fund corporation under the Income Tax Act (Canada) (the "Tax Act") and it is subject to income tax in each taxation year on the amount of its net income for the taxation year, including net realized taxable capital gains, if any, at the rate applicable to mutual fund corporations. The general income tax rules associated with a public corporation also apply to a mutual fund corporation with the exception that taxes payable on net realized capital gains are refundable on a formula basis when its shares are redeemed or when it pays capital gains dividends out of its capital gains dividend account to its shareholders.

Interest and foreign income are taxed at normal corporate rates applicable to mutual fund corporations and can be reduced by permitted deductions for tax purposes.

All of the Company's expenses including management fees, administration fees and operating expenses will be taken into account in determining its overall tax liability.

As a mutual fund corporation, taxable dividends received from taxable Canadian corporations are subject to a Part IV tax of 38 1/3% (33 1/3% for dividends received on or before December 31, 2015). Such taxes are fully refundable upon payment of taxable dividends to its shareholders on a basis of \$1.15 for every \$3 of dividends paid (\$1 for every \$3 of dividends paid on or before December 31, 2015). Any such tax paid is reported as an amount receivable until recovered through the payment to shareholders of dividends out of net investment income. All tax on net taxable realized capital gains is refundable when the gains are distributed to shareholders as capital gains dividends or through redemption of shares at the request of shareholders, while the Company qualifies as a mutual fund corporation. As a result of the capital gains refund mechanism and Part IV tax refunds, the Company recovers any Canadian income taxes paid in respect of its capital gains and taxable Canadian dividends. As a result, the Company has determined that it is in substance not taxable. Consequently, the tax benefit of capital and non-capital losses and other temporary differences have not been reflected in the Statements of Financial Position as deferred income tax assets or liabilities.

---

# CANADIAN LIFE COMPANIES SPLIT CORP.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2018 AND 2017 (UNAUDITED)

---

The Company has estimated accumulated non capital losses for tax purposes of \$17,325,632 (November 30, 2017-\$19,753,956) that are available to lower taxable income in future years if required and expire after the scheduled termination date of the Company on December 1, 2018. The Company also has estimated accumulated capital losses for tax purposes of \$14,503,082 (November 30, 2017-\$23,646,720) which may be used to lower future capital gains if required.

The Company currently incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense in the Statements of Comprehensive Income/(Loss).

### 4. Critical Accounting Estimates and Judgments

The preparation of these financial statements include estimates and assumptions by management based on past experiences, present conditions and expectations of future events. Where estimates were made, the reported amounts for assets, liabilities, income and expenses may differ from the amounts that would otherwise be reflected if the ultimate outcome of all uncertainties and future events were known at the time these financial statements were prepared. The Company's most significant estimates involve the measurement of investments and derivatives at fair value as described in notes 5. The following discusses the most significant accounting judgments that the Company has made in preparing the financial statements:

#### **Classification and measurement of investments and application of the fair value option**

In classifying and measuring financial instruments held by the Company, the Manager is required to make significant judgments about whether or not the business of the Company is to invest on a total return basis for the purpose of applying the fair value option for financial assets under IAS 39, Financial Instruments - Recognition and Measurement (IAS 39). The most significant judgments made include the determination that certain financial instruments are held-for-trading, and that the fair value option can be applied to investments in financial assets which are not.

### 5. Management of Risk of Financial Instruments

The Company classifies fair value measurements within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and lowest priority to unobservable inputs. The three levels of the fair value hierarchy are:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can assess at the measurement date;

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 - Inputs that are unobservable for the asset or liability.

The following table illustrates the classification of the Company's financial instruments within the fair value hierarchy as at May 31, 2018 and November 30, 2017:

Financial assets and liabilities at fair value as at May 31, 2018

	Level 1	Level 2	Level 3	Total
Equities	\$196,776,634	-	-	\$196,776,634
Options	<u>(\$87,309)</u>	<u>-</u>	<u>-</u>	<u>(\$87,309)</u>
	<b>\$196,689,325</b>	<b>-</b>	<b>-</b>	<b>\$196,689,325</b>

---

**CANADIAN LIFE COMPANIES SPLIT CORP.****NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIOD ENDED MAY 31, 2018 AND 2017 (UNAUDITED)

---

## Financial assets and liabilities at fair value as at November 30, 2017

	Level 1	Level 2	Level 3	Total
Equities	\$202,713,561	-	-	\$202,713,561
Options	(\$437,719)	-	-	(\$437,719)
	<u>\$202,275,842</u>	<u>-</u>	<u>-</u>	<u>\$202,275,842</u>

All fair value measurements above are recurring and fair values are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. There were no transfers or reclassifications between levels for the periods ended May 31, 2018 or 2017.

The Company's net gain (loss) on financial instruments that are held for trading and those designated at FVTPL are as follows:\*

	May 31, 2018	May 31, 2017
Realized gain (loss) on derivatives held for trading	\$54,168	\$262,730
Realized gain (loss) on investments designated at FVTPL	\$1,893,430	\$2,052,743
Net change in unrealized appreciation (depreciation) on investments	(\$13,029,343)	(\$15,938,806)
Net change in unrealized appreciation (depreciation) on derivatives	\$358,528	\$1,127,810
Dividends	\$3,490,116	\$3,505,651
Interest	\$38,167	\$946
	<u>(\$7,194,934)</u>	<u>(\$8,988,926)</u>

\* The Company employs an active and integrated strategy of writing call options on the underlying equity holdings in the portfolio. The requirement to measure and attribute gains separately to either derivatives or the underlying equities may not reflect the relative contributions and benefits from implementing this strategy. As an example, written call options that are subsequently repurchased and/or rolled as part of the active covered call writing program would have had the effect of lowering reported gains from derivatives (which would have otherwise occurred had the written call option been exercised or expired), while achieving other gains to the portfolio that would have been measured and attributed to the underlying equity holdings.

The Company's investment activities expose it to a variety of financial risks: market risk (including price risk, interest rate risk and currency risk), credit risk and liquidity risk.

Any sensitivity analysis presented below may differ from actual results and the difference could be material.

**Market Price Risk**

All securities investments present a risk of loss of capital. The 4 core holdings were selected because of their long term history of above average market price appreciation and dividend growth. These portfolio companies were selected from the life insurance sector of the financial services indices of the S&P/TSX 60 and are among the largest financial services companies in Canada.

The market price risk is affected by three main components: price risk, interest rate risk and foreign currency movements.

**Price risk**

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk).

---

## CANADIAN LIFE COMPANIES SPLIT CORP.

### NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2018 AND 2017 (UNAUDITED)

---

The Company is exposed to other price risk from its investment in equity securities and written options. As at May 31, 2018, had the prices on the respective stock exchanges for these equity securities increased by 10%, with all other variables held constant, Net Assets of the Company would have increased by \$17,778,000 (November 30, 2017-\$18,221,000). Similarly, had the prices on the respective stock exchanges for these equity securities decreased by 10%, with all other variables held constant, Net Assets of the Company would have decreased by \$19,590,000 (November 30, 2017-\$20,016,000).

#### **Interest rate risk**

Interest rate risk is the risk that the fair value of interest bearing investments will fluctuate due to changes in market interest rates. The majority of the Company's financial assets and liabilities are non interest bearing. As a result, the Company is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates and considers interest rate risk insignificant (consistent with previous period).

#### **Currency risk**

Currency risk is the risk that financial instruments that are denominated in a currency other than the Canadian dollar, which is the Company's reporting currency, will fluctuate due to changes in exchange rates. Four portfolio companies are U.S. financial services companies that are listed on the New York Stock Exchange and trade in U.S. dollars. As at May 31, 2018, 11.7% (November 30, 2017-11.5%) of the Net Assets of the Company are invested in U.S. dollar denominated assets which includes U.S. dollar cash. As a result, the Net Assets of the Company will be affected by changes in the U.S. dollar relative to the Canadian dollar which is the functional currency of the Company. The Company has not entered into currency hedging contracts. As a result, if the Canadian dollar appreciated/depreciated by 5% against the U.S. dollar, the Net Assets of the Company would currently decrease/increase by approximately \$1,254,000 (November 30, 2017-\$1,322,000).

#### **Other risks**

##### **Credit risk**

Credit risk is the risk that a counterparty will be unable to pay amounts in full when due. All of the Company's transactions are in listed securities and options and are settled and paid for using approved brokers. The risk of default is considered minimal as delivery of securities sold is only made once the broker has received payment (consistent with previous period). Payment is made on purchase once the securities have been received by the broker. Credit risk of cash is considered low as it is held at a AA-rated Canadian bank (consistent with previous period).

##### **Liquidity risk**

Liquidity risk is the risk that the Company may not be able to settle or meet its obligations on time or at a reasonable price. The Company is exposed to liquidity risk primarily through its monthly and annual retractions of Class A shares and Preferred shares. The Company receives adequate notice for all retraction requests. The Company's portfolio is invested in highly liquid large capitalization investments that trade on the Toronto Stock Exchange ("TSX") and the New York Stock Exchange (consistent with previous period). All Class A shares and Preferred shares outstanding are redeemable on a monthly and annual basis but are scheduled to be redeemed on the termination date of the Company. All other financial liabilities are payable within three months from the end of the period.

---

**CANADIAN LIFE COMPANIES SPLIT CORP.****NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIOD ENDED MAY 31, 2018 AND 2017 (UNAUDITED)

---

**Concentration risk**

The Company's 4 core holdings are concentrated in the life insurance sector and as such will be exposed to the specific factors that affect this sector (consistent with previous period). An individual portfolio holding could be as high as 30% of the net asset value of the Company.

**The Company's investment portfolio is concentrated in the following segments as at:**

	May 31, 2018	November 30, 2017
Canadian Core Common Equities	74.6%	71.6%
Other Canadian Common Equities	9.2%	7.1%
Other U.S. Common Equities	8.1%	9.4%
Canadian Call Options written	0.0%	-0.2%
U.S. Call Options written	0.0%	0.0%
Other Assets less Liabilities (excluding Preferred shares and warrants)	8.1%	12.1%
	<u>100.0%</u>	<u>100.0%</u>

**6. Redeemable Units****Preferred shares**

The Company is authorized to issue an unlimited number of Preferred shares.

<u>Preferred share transactions</u>	May 31, 2018	May 31, 2017
Beginning of period	14,830,286	14,830,286
Issued during the period	-	-
Redemptions during the period	-	-
End of period	<u>14,830,286</u>	<u>14,830,286</u>

Preferred shares were issued at \$10 per share.

Preferred shareholders receive dividends at annual rate of 6.25% based on the original issue price (\$10 per Preferred share). All Preferred shares outstanding on the termination date will be redeemed by the Company. The Preferred shares have been presented as liabilities in the financial statements.

Preferred shares trade under the symbol "LFE.PR.B" on the TSX. Preferred shares trading price on the TSX was \$10.28 as at May 31, 2018 (November 30, 2017-\$10.31). Preferred shares may be surrendered at any time for retraction at specified retraction amounts, but will be retracted only on the last day of each month. Shareholders who concurrently retract a Preferred share and a Class A share (together, a "unit") in the month of March in each year will be entitled to receive an amount equal to the net asset value per unit calculated on the last day of March. Preferred shares retracted in any other month will receive a retraction price based on a discounted specified retraction formula. Under the terms of a recirculation agreement, the Company may, but is not obligated to, require the recirculation agent to use its best efforts to find purchasers for any Preferred shares or Class A shares tendered for retraction. Gains or losses from the redemption of shares, if any, are recorded in gain (loss) on redemptions on the Statements of Comprehensive Income/ (Loss).

The Preferred shares rank in priority to the Class A shares with respect to the payment of dividends. Preferred shares rank in priority to the Class A shares upon termination of the Company.

---

# CANADIAN LIFE COMPANIES SPLIT CORP.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2018 AND 2017 (UNAUDITED)

---

### Class A shares and Class B shares

#### Authorized

An unlimited number of Class A shares

1,000 Class B shares

<u>Class A share transactions</u>	May 31, 2018	May 31, 2017
Beginning of period	14,830,286	14,830,286
Issued during the period	-	-
Redemptions during the period	-	-
End of period	<u>14,830,286</u>	<u>14,830,286</u>

Class A shares trade under the symbol "LFE" on the TSX. Class A shares trading price on the TSX was \$4.61 as at May 31, 2018 (November 30, 2017-\$6.27). Class A shares may be surrendered at any time for retraction at specified retraction amounts, but will be retracted only on the last day of each month. Shareholders who concurrently retract a Class A share and a Preferred share (together, a "unit") in the month of March in each year will be entitled to receive an amount equal to the net asset value per unit calculated on the last day of March. Class A shares retracted in any other month will receive a retraction price based on a discounted specified retraction formula. Under the terms of a recirculation agreement, the Company may, but is not obligated to, require the recirculation agent to use its best efforts to find purchasers for any Preferred shares or Class A shares tendered for retraction. Gains or losses from the redemption of shares, if any, are recorded in gain (loss) on redemptions on the Statements of Comprehensive Income/(Loss).

The Preferred shares rank in priority to the Class A shares with respect to the payment of dividends. All Class A shares outstanding will be redeemed by the Company on the termination date. Upon the termination of the Company, Class A shareholders will receive an amount equal to the net asset value per unit less \$10 (the redemption value of the Preferred shares).

The holders of Class B shares are not entitled to receive dividends. The Class B shares are retractable at a price of \$1 per share. Class B shareholders are entitled to one vote per share.

### 7. Expenses

The Company is responsible for all expenses incurred in connection with the operation and administration of the Company, including, but not limited to, ongoing custodian, transfer agent, legal and audit expenses.

Pursuant to the administration agreement, Quadravest is entitled to an administration fee payable monthly in arrears at an annual rate of 0.10% of the net asset value of the Company, which includes the outstanding Preferred shares, calculated as at each month-end valuation date and an amount equal to the service fee payable to dealers on the Class A shares at a rate of 0.50% of the net asset value attributable to Class A shares per annum. No service fee will be paid in any calendar quarter if regular dividends are not paid to holders of Class A shares in respect of each month in such calendar quarter.

Pursuant to the terms of the investment management agreement, Quadravest is entitled to a base management fee payable in arrears at an annual rate equal to 0.65% of the net asset value of the Company, which includes the outstanding Preferred shares, calculated as at each month-end valuation date. In addition, Quadravest is entitled to receive a performance fee subject to the achievement of certain pre-established total return thresholds.

In addition, the monthly discount to net asset value of 2% applicable to redemptions of Preferred shares and Class A shares is paid to Quadravest. Redemption fees paid for the period ended May 31, 2018 were \$NIL (May 31, 2017-\$NIL).

---

**CANADIAN LIFE COMPANIES SPLIT CORP.****NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIOD ENDED MAY 31, 2018 AND 2017 (UNAUDITED)

---

Total management fees of \$821,571 (May 31, 2017-\$864,224), incurred during the period, include the administration fee and base management fee. As at May 31, 2018, \$137,615 (November 30, 2017-\$141,902) was payable to the Manager with respect to management and administrative fees. No performance fees were paid in 2018 or 2017.

Total brokerage commission paid during the period by the Company for its portfolio transactions were \$56,018 (May 31, 2017-\$66,853).

**8. Increase (decrease) in net assets attributable to holders per redeemable Class A share**

The increase (decrease) in net assets attributable to holders per redeemable Class A share for the periods ended May 31, 2018 and 2017 is calculated as follows:

	2018	2017
Increase (decrease) in net assets attributable to holders of redeemable Class A shares	(\$12,914,635)	(\$14,987,385)
Weighted average Class A shares outstanding	14,830,286	14,830,286
Increase (decrease) in net assets attributable to holders per redeemable Class A shares per share	(\$0.87)	(\$1.01)

**9. Distributions**

Distributions per share were as follows:

	May 31, 2018	May 31, 2017
Preferred shares	\$0.3125	\$0.3125
Class A shares	\$0.20	\$0.50

**10. Capital Management**

The Company considers its capital to consist of Class A, Class B and Preferred shares.

The Company's objectives in managing its capital are:

- i) to provide holders of Preferred shares with fixed cumulative preferential monthly cash dividends in an amount of \$0.05208 per Preferred share to yield 6.25% per annum on the original issue price and to return the original issue price to their holders on the termination of the Company; and
- ii) to provide holders of Class A shares with such dividends as the directors of the Company may from time to time determine and to pay on the termination date such amounts as remain after paying the holders of Preferred shares the amounts owing to them. The net asset value per unit must remain above the required \$15 per unit threshold for distributions to be declared.

In order to manage its capital structure, the Company may adjust the amount of dividends paid to shareholders or return capital to shareholders.

**11. Accounting Standards, Interpretations and Amendments to Existing Standards Not Yet Effective**

IFRS 9, Financial Instruments, addresses the classification, measurement and derecognition of financial assets and liabilities. It replaces the multiple classification and measurement models in IAS 39 and is effective for reporting periods beginning on or after January 1, 2018.

Classification and measurement of debt assets will be driven by the entity's business model for managing the financial assets and contractual cash flow characteristics of the financial assets. Derivative and equity instruments are measured at fair value through profit or loss, for equity instruments not held for trading, an irrevocable option is taken to measure at fair value through other comprehensive income. A debt instrument is measured at amortized cost if the objective of the business model is to hold the financial asset for the collection of the contractual cash flows and the contractual cash flows under instrument solely represent payments of principal and interest (SPPI). A debt instrument is measure at fair value through other comprehensive income if the objective of the business model is to hold the financial asset both to collect contractual cash flows SPPI and to sell. All other debt instruments must be recognized at fair value through profit or loss. An entity may however, at initial recognition, irrevocably designate a financial asset as measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency. IFRS 9 also introduces a new expected credit loss (ECL) impairment model.

On adoption of IFRS 9 the Company's investment portfolio will continue to be classified as fair value through profit or loss. Other financial assets which are held for collection will continue to be measured at amortized cost with no material impact expected from application of the new impairment model. As a result, the adoption of IFRS 9 is not expected to have a material impact on the Company's financial statements.

**12. Reconciliation of net asset value per Class A share to net assets attributable to holders per redeemable Class A share**

As at May 31, 2018 and November 30, 2017, there were no differences between net asset value per Class A share used for transactional purposes and assets attributable to holders per redeemable Class A share for financial reporting purposes.

## **QUADRAVEST CAPITAL MANAGEMENT INC.**

Quadravest Capital Management Inc. was formed in 1997 and is focused on the creation and management of enhanced yield products for retail investors. The investment strategy combines fundamental based equity investing with covered call writing. Guided by four key principles, Quadravest sets attainable investment objectives that allow the team to stay focused on a long-term investment strategy.

The four principles – innovation in financial products, discipline in investment management, solid results for investors, and excellence in client service – form the foundation of Quadravest. Each member of the firm’s tight-knit team is committed to upholding these principles, ensuring a coherence and dedication that is unique to the Company.

Quadravest has raised over \$2.5 billion in initial public offerings.
