NOTES TO INTERIM UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited - in Canadian dollars)

FOR THE THREE MONTHS ENDED AUGUST 31, 2019 and 2018

1. REPORTING ENTITY AND GOING CONCERN

Braveheart Resources Inc. (the “Company”) is an exploration stage company engaged in locating, acquiring and exploring for precious metals in Canada. The Company was incorporated pursuant to the laws of Ontario on October 13, 2009. The Company is listed on the TSX Venture Exchange, having the symbol BHT as well as the OTCQB Venture Market in the United States, having the symbol RIINF, and is in the process of exploring its mineral properties.

The address of the Company's corporate office and principal place of business is 2520 – 16th Street NW, Calgary, Alberta T2M 3R2, Canada.

On January 18, 2019 the Company acquired all shares of Purcell Basin Minerals Inc. (Purcell) pursuant to a plan of arrangement and these financial statements include the operating results of Purcell and its subsidiaries (Bul River Mineral Corporation, Gallowai Metal Mining Corporation, Grand Mineral Corporation, and Stanfield Mining Group of Canada Ltd.).

Going Concern

These consolidated financial statements have been prepared on a going concern basis, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in future profitable mining operations and the Company has incurred significant losses to date resulting in a cumulative deficit of \$13,334,371 as at August 31, 2019. The recoverability of the carrying value of exploration properties and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise alternative financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. The Company is subject to risks and challenges similar to companies in a comparable stage of exploration and development. As a result of these risks, there remains doubt which constitutes a material uncertainty as to the appropriateness of the going concern assumption. There is no assurance that the Company's funding initiatives will continue to be successful and these audited financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statements of financial position classifications that would be necessary if the going concern assumption was inappropriate. These adjustments could be material. The Company will have to raise additional funds to advance its exploration, development and production efforts and, while it has been successful in doing so in the past, there can be no assurance that it will be able to do so in the future.

For the three months ended August 31, 2019, the Company had a net loss of \$1,938,790 and cash flow used in operations of \$240,714. As at period end, the Company had working capital of \$2,362,381, including cash of \$1,233,081.

The Company has a history of operating losses. In recent years, it had negative cash flows operations and working capital deficiencies.

Whether and when the Company can attain profitability and positive cash flows is uncertain. These uncertainties cast significant doubt upon the Company's ability to continue as a going concern.

Management continues to actively pursue additional sources of financing, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future.

FOR THE THREE MONTHS AUGUST 31, 2019 and 2018

2. BASIS OF PRESENTATION

2.1 Statement of compliance

The interim unaudited condensed financial statements have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34"), as issued by the International Accounting Standards Board ("IASB") and therefore, do not contain all disclosures required by International Financial Report Standards ("IFRS") for annual financial statements. Accordingly, these interim unaudited condensed financial statements should be read in conjunction with the Company's most recently prepared audited annual financial statements for the fiscal year ended May 31, 2019.

The policies applied in these interim unaudited condensed financial statements are consistent with the policies disclosed in Notes 2, 3, and 4 of the audited annual financial statements for the year ended May 31, 2019.

The interim unaudited condensed financial statements were authorized for issue by the Board of Directors on October 29, 2019.

2.2 Recently Issued Accounting Pronouncements Adopted

On June 1, 2019, the Company adopted the recent accounting pronouncements, as follows:

- (i) On January 13, 2016 the IASB issued IFRS 16, "Leases". The new standard is effective for annual periods beginning on or after January 1, 2019. Earlier application is permitted for entities that apply IFRS 15, "Revenue from contracts with customers" at or before the date of initial adoption of IFRS 16. IFRS 16 will replace IAS 17, "Leases". This standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. This standard substantially carries forward the lessor accounting requirements of IAS 17, while requiring enhanced disclosures to be provided by lessors. Other areas of the lease accounting model have been impacted, including the definition of a lease. Transitional provisions have been provided. The adoption of this standard has not had a material impact on the financial statements.

3. ACQUISITION OF PURCELL BASIN MINERALS INC.

3.1 Summary of Acquisition

On January 18, 2019 the Company completed a definitive agreement to acquire the shares of Purcell Basin Minerals Inc. (Purcell) pursuant to a plan of arrangement and made pursuant to the Companies' Creditors Arrangement Act (CCAA). This was an arm's length transaction. The acquisition of Purcell received approval from all required parties and the transaction closed on January 18, 2019.

Under the terms of the Plan, Braveheart settled all priority payables including the costs of the Court appointed Monitor under the CCAA proceedings, related legal expenses and the interim financing that was in place and being paid by the debtor in possession. The cash cost of the priority payables was \$1,184,652.

The unit holders of CuVeras LLC ("CuVeras"), one of two secured creditors of Purcell, have been issued 10 million common shares of Braveheart and 10 million warrants of Braveheart, with each warrant entitling the holder to purchase a Braveheart common share at a price of \$0.15 per share for a period of 12 months.

Braveheart has purchased CuVeras' senior secured position for \$6,000,000 in the form of a convertible debenture, which will mature three years from the date of issuance. The debenture bears annual interest of 0%, 1% and 2% respectively in the first, second and third year of the debenture. After two years, 40% of the principal amount of the debenture can be converted into shares of Braveheart at a price of \$0.40 per share. After three years, the remaining 60% of the principal amount of the debenture can be converted into shares of Braveheart at a price of \$0.50 per share. If the convertible debenture is fully converted into common shares of Braveheart, an aggregate of 13,200,000 common shares would be issuable to CuVeras. (See also Note 19)

Highlands Pacific LLC and Highlands Pacific Partners LP and related entities controlled by Brendan MacMillan ("MacMillan Group"), the second secured creditor of Purcell, has been paid \$2,500,000 in exchange for releasing all claims against the assets of Purcell and all claims against CuVeras and those parties have settled all litigation between them.

Unsecured creditors of Purcell have received 30% of their claim value in common shares of Braveheart at a price of \$0.10 per share based on a satisfactory proof of claim, resulting in the issuance of 4,276,248 common shares of Braveheart.
