The following Management's Discussion and Analysis ("MD&A") for Loblaw Companies Limited and its subsidiaries (collectively, the "Company" or "Loblaw") should be read in conjunction with the Company's second quarter 2021 unaudited interim period condensed consolidated financial statements and the accompanying notes included in this Quarterly Report, the audited annual consolidated financial statements and the accompanying notes for the year ended January 2, 2021 and the related annual MD&A included in the Company's 2020 Annual Report – Financial Review ("2020 Annual Report").

The Company's second quarter 2021 unaudited interim period condensed consolidated financial statements and the accompanying notes have been prepared in accordance with International Financial Reporting Standards ("IFRS" or "GAAP"). These unaudited interim period condensed consolidated financial statements include the accounts of the Company and other entities that the Company controls and are reported in Canadian dollars.

Management uses non-GAAP financial measures to exclude the impact of certain expenses and income that must be recognized under GAAP when analyzing consolidated and segment underlying operating performance, as the excluded items are not necessarily reflective of the Company's underlying operating performance and make comparisons of underlying financial performance between periods difficult. The Company excludes additional items if it believes doing so would result in a more effective analysis of underlying operating performance. The exclusion of certain items does not imply that they are non-recurring. See Section 11 "Non-GAAP Financial Measures" for more information on the Company's non-GAAP financial measures.

A glossary of terms used throughout this Quarterly Report can be found at the back of the Company's 2020 Annual Report.

The information in this MD&A is current to July 27, 2021, unless otherwise noted.

Specific forward-looking statements in this Quarterly Report include, but are not limited to, statements with respect to the Company's anticipated future results, events and plans, strategic initiatives and restructuring, regulatory changes including further healthcare reform, future liquidity, planned capital investments, and the status and impact of information technology ("IT") systems implementations. These specific forward-looking statements are contained throughout this Quarterly Report including, without limitation, Section 5 "Liquidity and Capital Resources", Section 10 "Outlook" and Section 11 "Non-GAAP Financial Measures". Forward-looking statements are typically identified by words such as "expect", "anticipate", "believe", "foresee", "could", "estimate", "goal", "intend", "plan", "seek", "strive", "will", "may", "should" and similar expressions, as they relate to the Company and its management.

Forward-looking statements reflect the Company's estimates, beliefs and assumptions, which are based on management's perception of historical trends, current conditions and expected future developments, as well as other factors it believes are appropriate in the circumstances. The Company's expectation of operating and financial performance in 2021 is based on certain assumptions including assumptions about the COVID-19 pandemic, healthcare reform impacts, anticipated cost savings and operating efficiencies and anticipated benefits from strategic initiatives. The Company's estimates, beliefs and assumptions are inherently subject to significant business, economic, competitive and other uncertainties and contingencies regarding future events, including the COVID-19 pandemic and as such, are subject to change. The Company can give no assurance that such estimates, beliefs and assumptions will prove to be correct.

Numerous risks and uncertainties could cause the Company's actual results to differ materially from those expressed, implied or projected in the forward-looking statements, including those described in the Company's MD&A in the 2020 Annual Report, and the Company's 2020 Annual Information Form ("AIF") for the year ended January 2, 2021. Such risks and uncertainties include:

- the duration and impact of the COVID-19 pandemic on the business, operations and financial condition of the Company, as well as on vendor operations, consumer behaviour and the economy in general;
- the inability of the Company's IT infrastructure to support the requirements of the Company's business, or the occurrence of any internal or external security breaches, denial of service attacks, viruses, worms and other known or unknown cybersecurity or data breaches;
- failure to execute the Company's e-commerce initiatives or to adapt its business model to the shifts in the retail landscape caused by digital advances;
- failure to effectively respond to consumer trends or heightened competition, whether from current competitors or new entrants to the marketplace;
- changes to the regulation of generic prescription drug prices, the reduction of reimbursements under public drug benefit plans and the elimination or reduction of professional allowances paid by drug manufacturers;
- failure to realize benefits from investments in the Company's new IT systems;
- failure to maintain an effective supply chain and consequently an appropriate assortment of available product at store level;
- failure to achieve desired results in labour negotiations, including the terms of future collective bargaining agreements;
- public health events including those related to food and drug safety;
- errors made through medication dispensing or errors related to patient services or consultation;
- adverse outcomes of legal and regulatory proceedings and related matters;
- the inability of the Company to manage inventory to minimize the impact of obsolete or excess inventory or control shrink;
- failure to realize the anticipated benefits associated with the Company's strategic priorities and major initiatives, including revenue growth, anticipated cost savings and operating efficiencies, or organizational changes that may impact the relationships with franchisees and Associates;
- failure to attract and retain talent for key roles that may impact the Company's ability to effectively operate and achieve financial performance goals;
- reliance on the performance and retention of third party service providers, including those associated with the Company's supply chain and apparel business and located in both advanced and developing markets;
- changes in economic conditions, including economic recession or changes in the rate of inflation or deflation, employment rates and household debt, political uncertainty, interest rates, currency exchange rates or derivative and commodity prices; and
- changes to any of the laws, rules, regulations or policies applicable to the Company's business.

This is not an exhaustive list of the factors that may affect the Company's forward-looking statements. Other risks and uncertainties not presently known to the Company or that the Company presently believes are not material could also cause actual results or events to differ materially from those expressed in its forward-looking statements. Additional risks and uncertainties are discussed in the Company's materials filed with the Canadian securities regulatory authorities ("securities regulators") from time to time, including, without limitation, the section entitled "Risks" in the Company's 2020 AIF (for the year ended January 2, 2021). Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect the Company's expectations only as of the date of this MD&A. Except as required by law, the Company does not undertake to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

In the second quarter of 2021, Loblaw delivered strong financial performance while lapping the heightened sales and significant COVID-related costs experienced at the beginning of the pandemic in 2020.

Grocery demand continued to benefit from elevated eat-at-home trends in the quarter. Across Loblaw's grocery stores, the Company continued to deliver superior value through its unmatched network of stores and online pick-up or delivery options. This was reflected as the Company recorded volume share gains in the second quarter, continuing its positive momentum in the grocery business. The drug store division continued to see variability in its prescription business and reduced consumer demand for high-value items like cosmetics in its front-store business due to lockdowns. The Company has experienced higher food and convenience sales during the pandemic, with muted acute-prescription and beauty sales. This trend is showing signs of rebalancing as economies re-open across Canada. With a heightened focus on its core retail businesses, including improved promotional effectiveness and cost control, Loblaw delivered another quarter of operational and financial improvements.

Loblaw continues to believe that through its everyday business decisions it has an opportunity and responsibility to have a positive effect in the communities in which it operates. That long-standing sense of responsibility has led the Company to be a corporate responsibility leader and drive change in areas that matter to Canadians. The publication of the Company's 14th annual Corporate Social Responsibility ("CSR") report in the second quarter marks a transition to begin reporting its corporate responsibility actions under an Environmental, Social and Governance ("ESG") framework. The 2020 CSR report contains new disclosures and targets that demonstrate the Company's commitment to ESG transparency, leadership and risk management.

The Company has been reassessed by the Canada Revenue Agency and the Ontario Ministry of Finance on the basis that certain income earned by Glenhuron Bank Limited (“Glenhuron”), a wholly owned Barbadian subsidiary of the Company that was wound up in 2013, should be treated, and taxed, as income in Canada. The reassessments, which were received between 2015 and 2019, are for the 2000 to 2013 taxation years. On September 7, 2018, the Tax Court of Canada (“Tax Court”) released its decision relating to the 2000 to 2010 taxation years. The Tax Court ruled that certain income earned by Glenhuron should be taxed in Canada based on a technical interpretation of the applicable legislation. On October 4, 2018, the Company filed a Notice of Appeal with the Federal Court of Appeal. On October 15, 2019, the matter was heard by the Federal Court of Appeal, and on April 23, 2020, the Federal Court of Appeal released its decision in the Glenhuron case in favour of the Company and reversed the decision of the Tax Court. On October 29, 2020, the Supreme Court of Canada (“Supreme Court”) granted the Crown leave to appeal and on May 13, 2021, the Supreme Court heard the Crown’s appeal, reserving judgment until a later date. The Retail debt to rolling year retail adjusted EBITDA⁽²⁾ ratio as at June 19, 2021 decreased compared to June 13, 2020 and January 2, 2021, primarily due to a decrease in Retail debt relating to the amortization of leases and associate loan programs, and an improvement in adjusted EBITDA⁽²⁾.

PC Bank maintains and monitors a co-ownership interest in credit card receivables with independent securitization trusts, including *Eagle* and Other Independent Securitization Trusts, in accordance with its financing requirements.

The following table summarizes the amounts securitized to independent securitization trusts:

| (millions of Canadian dollars) | As at June 19, 2021 | As at June 13, 2020 | As at January 2, 2021 |
|--|--------------------------------|------------------------|--------------------------|
| Securitized to independent securitization trusts: | | | |

| Securitized to Other Independent Securitization Trusts | 300 | 525 | 575 |
| Total securitized to independent securitization trusts | \$ 1,350 | \$ 1,525 | \$ 1,625 |

This resulted in a realized fair value loss of \$1 million before income taxes, which was cumulatively recorded in other comprehensive loss as unrealized prior to the settlement of the agreement. The loss will be reclassified to the statements of earnings over the life of the *Eagle* notes. This settlement resulted in a net effective interest rate of 1.65% on the *Eagle* notes issued.

There were no security deposits in the second quarter of 2021. During the second quarter of 2020, a repayment accumulation process was triggered due to the upcoming maturity of the *Eagle* Series with \$250 million of senior and subordinated term notes at a weighted average interest rate of 2.23% on September 17, 2020. The accumulated funds were recorded as security deposits beginning on June 1, 2020. As at June 13, 2020, \$71 million was recorded in security deposits. (i) \$29 million of cash consideration related to common shares repurchased under the NCIB for cancellation in the first quarter of 2021 was paid in the second quarter of 2021.

During the first quarter of 2020, the Toronto Stock Exchange (“TSX”) accepted an amendment to the Company’s NCIB. The amendment permitted the Company to purchase its common shares from George Weston Limited (“Weston”) under its NCIB, pursuant to an automatic disposition plan agreement among the Company’s broker, the Company and Weston (“ADP Agreement”), in order for Weston to maintain its proportionate ownership interest in the Company. The maximum number of common shares that may be purchased pursuant to the NCIB will be reduced by the number of common shares purchased from Weston.

In the second quarter of 2021, the Company renewed its NCIB to purchase on the TSX or through alternative trading systems up to 17,106,459 of the Company’s common shares, representing approximately 5% of issued and outstanding common shares. In accordance with the rules of the TSX, the Company may purchase its common shares from time to time at the then market price of such shares. The Company will continue to be permitted to purchase its common shares from Weston in accordance with the exemption granted by the TSX. Purchases from Weston will be made pursuant to the ADP Agreement. As at June 19, 2021, the Company had purchased 4,806,098 common shares for cancellation under its current NCIB.

During the second quarter of 2021, 4,806,098 common shares (2020 – nil) were purchased under the NCIB for cancellation, for aggregate consideration of \$350 million (2020 – nil), including 2,159,071 common shares (2020 – nil) purchased from Weston, for aggregate consideration of \$157 million (2020 – nil). On a year-to-date basis, 10,177,962 common shares (2020 – 2,757,577) were purchased under the NCIB for cancellation, for aggregate consideration of \$700 million (2020 – \$188 million), including 4,937,148 common shares (2020 – 1,355,077) purchased from Weston, for aggregate consideration of \$338 million (2020 – \$92 million).

5.7 Off-Balance Sheet Arrangements

The Company uses off-balance sheet arrangements including letters of credit, guarantees and cash collateralization in connection with certain obligations. There were no significant changes to these off-balance sheet arrangements during the second quarter of 2021. For a discussion of the Company’s significant off-balance sheet arrangements see Section 7.7 “Off-Balance Sheet Arrangements” of the Company’s 2020 Annual Report.

6. Financial Derivative Instruments

The Company uses derivative instruments to offset certain of its financial risks. The Company uses bond forwards to manage its anticipated exposure to fluctuations in interest rates on future debt issuances.

Bond Forwards During the second quarter of 2021, PC Bank settled the bond forward of \$175 million. The purpose of the bond forward was to hedge the interest rate risk for the \$300 million *Eagle* notes issued subsequent to the second quarter of 2021. The Company has concluded that this hedge was effective as at the settlement date (see Section 5.3, Components of Total Debt “Independent Securitization Trusts” of this MD&A).

During the second quarter of 2020, the Company has settled the bond forward that was entered into in the first quarter of 2020. The purpose of the bond forward was to hedge the interest rate risk in the appropriate Government of Canada yield curve that corresponded to the term of the May 7, 2030 senior unsecured notes (“2030 Notes”) bearing interest at 2.284% per annum. The Company has concluded that this hedge was effective as at the settlement date. Accordingly, the accumulated other comprehensive income associated with this bond forward will continue to be amortized over the term of the 2030 Notes as net interest expense and other financing charges within the financial statements, resulting in an effective annual interest rate of approximately 3.34%.

The Company also uses futures, options and forward contracts to manage its anticipated exposure to fluctuations in commodity prices and exchange rates in its underlying operations. For further details on the impact of these instruments during the second quarter of 2021 see Section 11 “Non-GAAP financial Measures” of the MD&A.

7. Results by Quarter

Under an accounting convention common in the retail industry, the Company follows a 52-week reporting cycle which periodically necessitates a fiscal year of 53 weeks. Fiscal year 2020 was 53 weeks and fiscal year 2019 was 52 weeks. The 52-week reporting cycle is divided into four quarters of 12 weeks each except for the third quarter, which is 16 weeks in duration. When a fiscal year such as 2020 contains 53 weeks, the fourth quarter is 13 weeks in duration.

- the impact of the 13th/53rd week in the fourth quarter of fiscal year 2020;

8. Internal Control over Financial Reporting

Management is responsible for establishing and maintaining a system of disclosure controls and procedures to provide reasonable assurance that all material information relating to the Company and its subsidiaries is gathered and reported to senior management on a timely basis so that appropriate decisions can be made regarding public disclosure.

Management is also responsible for establishing and maintaining adequate internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with IFRS.

In designing such controls, it should be recognized that due to inherent limitations, any control, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and may not prevent or detect misstatements. Additionally, management is required to use judgment in evaluating controls and procedures.

Changes in Internal Control over Financial Reporting There were no changes in the Company's internal control over financial reporting in the second quarter of 2021 that materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

9. Enterprise Risks and Risk Management

A detailed full set of risks inherent in the Company's business are included in the Company's AIF for the year ended January 2, 2021 and the Company's MD&A in the Company's 2020 Annual Report, which are hereby incorporated by reference. The Company's 2020 Annual Report and AIF are available online on www.sedar.com. Those risks and risk management strategies remain unchanged.

10. Outlook⁽³⁾

The Company cannot predict the precise impacts of COVID-19 on 2021 financial results. However, Loblaw anticipates that grocery sales will remain elevated due to the continued impact of the pandemic, including the impact of lockdown measures in many jurisdictions. As economies reopen, revenue growth will be challenged while lapping elevated 2020 sales. Costs are expected to improve, as the Company laps elevated COVID-19 related expenses, and as Process & Efficiencies and Data-Driven Insights programs continue to deliver benefits.

On a full year basis, the Company continues to expect:

- its core Retail segment business to grow earnings faster than sales;
- growth in PC Financial[®] profitability;
- to invest approximately \$1.2 billion in capital expenditures, net of proceeds from property disposals; and
- to return capital to shareholders by allocating a significant portion of free cash flow to share repurchases.

Based on the Company's operating and financial performance in the first half of 2021, it now expects low to mid-twenties percentage growth in adjusted diluted net earnings per common share⁽²⁾, excluding the impact of the 53rd week in the fourth quarter of fiscal year 2020.

In the four weeks following the end of the second quarter of 2021, Food Retail same-store sales declined by 1.0% when compared to the same period last year.

During the second quarter, COVID-19 related costs were approximately \$70 million, inclusive of approximately \$25 million related to one-time bonuses and benefits for store and distribution centre colleagues. The COVID-19 costs incurred in the four weeks after the end of the second quarter of 2021 amounted to approximately \$9 million.

11. Non-GAAP Financial Measures

The Company uses the following non-GAAP financial measures: Retail segment gross profit; Retail segment adjusted gross profit; Retail segment adjusted gross profit percentage; adjusted earnings before income taxes, net interest expense and other financing charges and depreciation and amortization ("adjusted EBITDA"); adjusted EBITDA margin; adjusted operating income; adjusted net interest expense and other financing charges; adjusted income taxes; adjusted effective tax rate; adjusted net earnings available to common shareholders; adjusted diluted net earnings per common share, free cash flow; retail debt to rolling year retail adjusted EBITDA; rolling year adjusted return on equity; and rolling year adjusted return on capital. The Company believes these non-GAAP financial measures provide useful information to both management and investors in measuring the financial performance and financial condition of the Company for the reasons outlined below.

Management uses these and other non-GAAP financial measures to exclude the impact of certain expenses and income that must be recognized under GAAP when analyzing underlying consolidated and segment operating performance, as the excluded items are not necessarily reflective of the Company's underlying operating performance and make comparisons of underlying financial performance between periods difficult. The Company excludes additional items if it believes doing so would result in a more effective analysis of underlying operating performance. The exclusion of certain items does not imply that they are non-recurring.

These measures do not have a standardized meaning prescribed by GAAP and therefore they may not be comparable to similarly titled measures presented by other publicly traded companies and should not be construed as an alternative to other financial measures determined in accordance with GAAP.

Retail Segment Gross Profit, Retail Segment Adjusted Gross Profit and Retail Segment Adjusted Gross Profit Percentage The following tables reconcile adjusted gross profit by segment to gross profit by segment, which is reconciled to revenue and cost of merchandise inventories sold measures as reported in the condensed consolidated statements of earnings for the periods ended as indicated. The Company believes that Retail segment gross profit and Retail segment adjusted gross profit are useful in assessing the Retail segment's underlying operating performance and in making decisions regarding the ongoing operations of the business.

Retail segment adjusted gross profit percentage is calculated as Retail segment adjusted gross profit divided by Retail segment revenue.

Adjusted Operating Income, Adjusted EBITDA and Adjusted EBITDA Margin The following tables reconcile adjusted operating income and adjusted EBITDA to operating income, which is reconciled to net earnings attributable to shareholders of the Company as reported in the condensed consolidated statements of earnings for the periods ended as indicated. The Company believes that adjusted EBITDA is useful in assessing the performance of its ongoing operations and its ability to generate cash flows to fund its cash requirements, including the Company's capital investment program.

Adjusted EBITDA margin is calculated as adjusted EBITDA divided by revenue.

In addition to the items described in the Retail segment adjusted gross profit section above, adjusted EBITDA was impacted by the following:

Amortization of intangible assets acquired with Shoppers Drug Mart The acquisition of Shoppers Drug Mart in 2014 included approximately \$6,050 million of definite life intangible assets, which are being amortized over their estimated useful lives. Annual amortization associated with the acquired intangibles will be approximately \$500 million until 2024 and will decrease thereafter.

Restructuring and other related costs The Company continuously evaluates strategic and cost reduction initiatives related to its store infrastructure, distribution networks and administrative infrastructure with the objective of ensuring a low cost operating structure. Only restructuring activities that are publicly announced related to these initiatives are considered adjusting items.

In the second quarter of 2021, the Company recorded \$8 million of restructuring and other related charges related to the previously announced closure of two distribution centres in Laval and Ottawa. The year-to-date restructuring and other related charges were \$12 million. The Company is investing to build a modern and efficient expansion to its Cornwall distribution centre to serve its food and drug retail businesses in Ontario and Quebec. Volumes from the distribution centres in Laval and Ottawa will be transferred to Cornwall and the Company expects to incur additional restructuring costs throughout 2021 and through to 2022 related to these closures.

Fair value adjustment on fuel and foreign currency contracts The Company is exposed to commodity price and U.S. dollar exchange rate fluctuations. In accordance with the Company's commodity risk management policy, the Company enters into exchange traded futures contracts and forward contracts to minimize cost volatility relating to fuel prices and the U.S. dollar exchange rate. These derivatives are not acquired for trading or speculative purposes. Pursuant to the Company's derivative instruments accounting policy, changes in the fair value of these instruments, which include realized and unrealized gains and losses, are recorded in operating income. Despite the impact of accounting for these commodity and foreign currency derivatives on the Company's reported results, the derivatives have the economic impact of largely mitigating the associated risks arising from price and exchange rate fluctuations in the underlying commodities and U.S. dollar commitments.

Gain/loss on sale of non-operating properties In the second quarter of 2021, the Company did not record a gain/loss related to the sale of non-operating properties. Year-to-date, the Company disposed of non-operating properties to a third party and recorded a gain of \$5 million related to the sale.

Adjusted Net Interest Expense and Other Financing Charges The following table reconciles adjusted net interest expense and other financing charges to net interest expense and other financing charges as reported in the condensed consolidated statements of earnings for the periods ended as indicated. The Company believes that adjusted net interest expense and other financing charges is useful in assessing the Company's underlying financial performance and in making decisions regarding the financial operations of the business.

Adjusted Income Taxes and Adjusted Effective Tax Rate The following table reconciles adjusted income taxes to income taxes as reported in the condensed consolidated statements of earnings for the periods ended as indicated. The Company believes that adjusted income taxes is useful in assessing the Company's underlying operating performance and in making decisions regarding the ongoing operations of its business.

Adjusted effective tax rate is calculated as adjusted income taxes divided by the sum of adjusted operating income less adjusted net interest expense and other financing charges.

Retail Debt to Rolling Year Retail Adjusted EBITDA, Rolling Year Adjusted Return on Equity and Rolling Year Adjusted Return on Capital The Company uses the following metrics to measure its leverage and profitability. The definitions of these ratios are presented below.

- **Retail Debt to Rolling Year Retail Adjusted EBITDA** Retail segment total debt divided by Retail segment adjusted EBITDA for the last four quarters.
- **Rolling Year Adjusted Return on Equity** Adjusted net earnings available to common shareholders of the Company for the last four quarters divided by average total equity attributable to common shareholders of the Company.
- **Rolling Year Adjusted Return on Capital** Tax-effected adjusted operating income for the last four quarters divided by average capital where capital is defined as total debt, plus equity attributable to shareholders of the Company, less cash and cash equivalents, and short term investments.

Non-GAAP Financial Measures Policy Change Effective First Quarter of 2021 In 2020, management undertook a review of historical adjusting items as part of an effort to reduce the number of items it excludes from its non-GAAP financial measures. Management concluded that, in order to present adjusting items in a manner more consistent with that of its Canadian and U.S. peers, the Company will no longer adjust for fixed asset and other related impairments (net of recoveries), certain restructuring and other related costs, pension settlement costs, statutory income tax rate changes or other items.

Starting in the first quarter of 2021, restructuring and other related costs will be considered an adjusting item only if significant and if part of a publicly announced restructuring plan. Other unusual items will be assessed on a case by case basis based on their nature, magnitude and propensity to re-occur. This change took effect in the first quarter of 2021 with restatement of comparative periods at that time.

The below summary reconciles the non-GAAP financial measures as previously reported in 2020 and 2019 to those reported under the new policy starting in the first quarter of 2021:
