## Item 7.01 Regulation FD Disclosure.

During our earnings conference call on July 30, 2019, we highlighted the following outlook for the third quarter 2019.

*(Dollar amounts are approximations)*

For the third quarter of the year, we estimate our revenue to be approximately \$1.405 billion. We expect price growth for solid waste to be approximately 5.0%, with volume growth of approximately 0.5%. Net income attributable to Waste Connections is estimated to be approximately \$166.1 million. Adjusted EBITDA, as reconciled below, is estimated to be approximately 31.5% of revenue, or about \$442 million.

### Q3 2019 OUTLOOK NON-GAAP RECONCILIATION SCHEDULE (in thousands of U.S. dollars, except where noted)

#### Reconciliation of Adjusted EBITDA:

	Q3 2019 Outlook	
	Estimate	Observation
Net income attributable to Waste Connections	\$ 166,100	
Plus: Income tax provision	46,900	Approximately 22.0% effective rate*
Plus: Interest expense, net of interest income	36,000	
Plus: Depreciation and depletion	158,000	Approximately 11.3% of revenue
Plus: Amortization	31,500	Approximately 2.2% of revenue, or about \$0.09 per diluted share net of taxes
Plus: Closure and post-closure accretion	3,500	
Adjusted EBITDA	\$ 442,000	Approximately 31.5% of revenue

\*Our effective tax rate in the third quarter is estimated to be about 22%. We estimate that the Q3 rate would increase to approximately 30.5% in the event that the proposed regulations as originally drafted are enacted during the period, which would result in an impact of approximately \$0.07 per share.

These estimates assume no change in the current economic and operating environment. They also exclude any impact from additional acquisitions that may close during the remainder of the year, and expensing of transaction-related items during the period.

Adjusted EBITDA, a non-GAAP financial measure, is provided supplementally because it is widely used by investors as a performance and valuation measure in the solid waste industry. Management uses adjusted EBITDA as one of the principal measures to evaluate and monitor the ongoing financial performance of our operations. We define adjusted EBITDA as net income attributable to Waste Connections, plus or minus net income (loss) attributable to noncontrolling interests, plus income tax provision, plus interest expense, less interest income, plus depreciation and amortization expense, plus closure and post-closure accretion expense, plus or minus any loss or gain on impairments and other operating items, plus other expense, less other income, plus foreign currency transaction loss, less foreign currency transaction gain. We further adjust this calculation to exclude the effects of other items management believes impact the ability to assess the operating performance of our business. This measure is not a substitute for, and should be used in conjunction with, GAAP financial measures. Other companies may calculate adjusted EBITDA differently.

The information furnished in Item 7.01 is not deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, is not subject to the liabilities of that section, and is not deemed incorporated by reference in any filing under the Securities Act of 1933, as amended.
