Ron Hochstein, President and CEO commented, "I'm pleased to announce that during the third quarter we achieved the milestone of 2.0 million ounces of production from Fruta del Norte in just under five years of operation. Having produced 366,788 oz year to date, we are confident in achieving our 2024 production target of 450,000 to 500,000 oz. Average throughput in the third quarter was 4,623 tonnes per day, which was higher than planned and helped to offset lower recoveries. We are excited about Lundin Gold's continued success this year and we look forward to bringing the major components of the Process Plant Expansion project on line by year end."
