MAGNA INTERNATIONAL INC.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

[Unaudited]

[All amounts in U.S. dollars and all tabular amounts in millions unless otherwise noted]

1. SIGNIFICANT ACCOUNTING POLICIES

[a] Basis of presentation

The unaudited interim consolidated financial statements of Magna International Inc. and its subsidiaries [collectively "Magna" or the "Company"] have been prepared in U.S. dollars following accounting principles generally accepted in the United States of America ["GAAP"]. The unaudited interim consolidated financial statements do not conform in all respects to the requirements of GAAP for annual financial statements. Accordingly, these unaudited interim consolidated financial statements should be read in conjunction with the December 31, 2017 audited consolidated financial statements and notes thereto included in the Company's 2017 Annual Report.

The unaudited interim consolidated financial statements reflect all adjustments, which consist only of normal and recurring adjustments, necessary to present fairly the financial position at September 30, 2018 and the results of operations, changes in equity and cash flows for the three and nine months ended September 30, 2018 and 2017.

Certain amounts in prior periods have been reclassified to conform with current period presentation.

[b] New Segment Structure

The Company announced a realignment of its management structure along product lines in December 2017. As a result, effective January 1, 2018, the Company's results are reported through the following business segments: Body Exteriors & Structures, Power & Vision, Seating Systems and Complete Vehicles. Prior period amounts contained in these unaudited interim consolidated financial statements have been adjusted to conform to the new segment presentation. Refer to Note 19 for additional information.

[c] Recently adopted Accounting Standards

Revenue Recognition

In May 2014, the FASB issued ASU No. 2014-09 (Topic 606), "Revenue from Contracts with Customers". This ASU supersedes most of the existing guidance on revenue recognition in ASC Topic 605, Revenue Recognition and requires entities to recognize revenue when control of promised goods or services is transferred to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. On January 1, 2018, the Company adopted ASC 606, Revenue from Contracts with Customers and all of the related amendments ["new revenue standard"] to all contracts using the full retrospective transition method [note 2].

Income Taxes

In October 2016, the FASB issued ASU No. 2016-16, "Accounting for Income Taxes: Intra-Entity Asset Transfers of Assets Other than Inventory". This guidance requires that the tax effects of all intra-entity sales of assets other than inventory be recognized in the period in which the transaction occurs. The Company adopted ASU No. 2016-16 in the first quarter of 2018 on a modified retrospective basis, through a cumulative-effect adjustment to retained earnings. The adoption of this guidance did not have a significant impact on the Company's consolidated financial statements.

MAGNA INTERNATIONAL INC.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

[Unaudited]

[All amounts in U.S. dollars and all tabular amounts in millions unless otherwise noted]

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial Instruments

In January 2016, the FASB issued ASU No. 2016-01, "Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities (ASU 2016-01)", which addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. ASU 2016-01 requires the Company to measure its investments in private equity securities at fair value, with all gains and losses, realized and unrealized, recognized in the consolidated statement of income. The Company adopted ASU 2016-01 in the first quarter of fiscal 2018 on a prospective basis for its investments in private equity securities.

As of September 30, 2018, the Company's investment balance includes investments in private equity securities of \$337 million [\$50 million as of December 31, 2017]. The Company has elected to use the measurement alternative, defined as cost, less impairments, adjusted by observable price changes to measure its private equity investments. The Company's private equity securities are classified within Level 3 in the fair value hierarchy because the Company estimates the value based on valuation methods using the observable transaction price at the transaction date and other observable inputs including rights and obligations of the securities held by the Company. Net gains recognized for the three and nine month periods ending September 30, 2018 were recorded in other expense (income), net. Since the Company did not sell any of these private equity securities, no amounts were realized during the reporting period.

[d] Future Accounting Standards

Derivatives and Hedging

In August 2017, the FASB issued ASU No. 2017-12, "Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities (ASU 2017-12)" which amends and simplifies existing guidance in order to allow companies to more accurately present the economic effects of risk management activities in the financial statements. The amendments of this ASU are effective for reporting periods beginning after December 15, 2018, with early adoption permitted. The adoption of ASU 2017-12 is not expected to have a significant impact on the Company's consolidated financial statements.

Leases

In February 2016, the FASB issued ASU No. 2016-02, "Leases: Topic 842 (ASU 2016-02)", to supersede nearly all existing lease guidance under GAAP. The guidance would require lessees to recognize most leases on their balance sheets as lease liabilities with corresponding right-of-use assets. ASU 2016-02 is effective for the Company in the first quarter of fiscal 2019 using a modified retrospective approach with the option to elect certain practical expedients. A project team has been formed to evaluate and implement the new standard. The project team is working to gather the data required to account for leases under the new standard, and on implementing third-party lease accounting software. In addition, the Company is in the process of identifying and implementing the appropriate changes to business processes and controls to support recognition and disclosure under the new standard. The Company plans to adopt the standard as of the first quarter of 2019. The Company is currently evaluating the impact of ASU 2016-02 on its consolidated financial statements.

Internal-Use Software

In August 2018, the FASB issued ASU No. 2018-15, "Intangibles—Goodwill and Other Internal-Use—Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract (ASU 2018-15)". ASU 2018-15 amends current guidance to align the accounting for costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing costs associated with developing or obtaining internal-use software. The guidance in ASU 2018-15 is effective for annual reporting periods beginning after December 15, 2019, with early adoption permitted. The Company plans to adopt the standard as of the first quarter of 2019. The adoption of ASU 2018-15 is not expected to have a significant impact on the Company's consolidated financial statements.

[e] Seasonality

The Company's businesses are generally not seasonal. However, the Company's sales and profits are closely related to its automotive customers' vehicle production schedules. The Company's largest North American customers typically halt production for approximately two weeks in July and one week in December. Additionally, many of the Company's customers in Europe typically shutdown vehicle production during portions of August and one week in December.

MAGNA INTERNATIONAL INC.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

[Unaudited]

[All amounts in U.S. dollars and all tabular amounts in millions unless otherwise noted]

2. REVENUE RECOGNITION

On January 1, 2018, the Company adopted ASC 606, Revenue from Contracts with Customers ["new revenue standard"] using the full retrospective transition method. The Company recognized a net reduction to opening retained earnings of \$5 million as of January 1, 2017 due to the cumulative impact of adopting the new revenue standard. The impact was primarily due to a change in the timing of recognition for customer reimbursements for tooling and pre-production engineering activities.

[a] Accounting Policies

Revenue Recognition

The Company enters into contracts with its customers to provide production parts or assembled vehicles. Contracts do not commit the customer to a specified quantity of products; however, the Company is generally required to fulfill its customers' purchasing requirements for the production life of the vehicle. Contracts do not typically become a performance obligation until the Company receives either a purchase order and/or a customer release for a specific number of parts or assembled vehicles at a specified price. While long-term supply agreements may range from five to seven years, contracts may be terminated by customers at any time. Historically, terminations have been minimal. Contracts may also provide for annual price reductions over the production life of the vehicle, and prices are adjusted on an ongoing basis to reflect changes in product content/cost and other commercial factors.

Revenue is recognized at a point in time when control of the parts produced or assembled vehicles are transferred to the customer according to the terms of the contract. The amount of revenue recognized reflects the consideration that the Company expects to be entitled to in exchange for those products based on purchase orders, annual price reductions and ongoing price adjustments [some of which is accounted for as variable consideration]. The Company uses the expected value method, taking into account historical data and the status of current negotiations, to estimate the amount to which it expects to be entitled. Significant changes to the Company's estimates of variable consideration are not expected.

The Company also performs tooling and engineering activities for its customers that are not part of a long-term production arrangements. Tooling and engineering revenue are recognized at a point in time or over time depending, among other considerations, on whether the Company has an enforceable right to payment plus a reasonable profit, for performance completed to date. Over-time recognition utilizes costs incurred to date relative to total estimated costs at completion, to measure progress toward satisfying performance obligations. Revenue is recognized as control is transferred to customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods and services. Total tooling and engineering sales were \$217.8 million [2017 - \$162.4 million] and \$619.4 million [2017- \$474.0 million] for the three and nine months ended September 30, 2018, respectively.

The Company's customers pay for products received in accordance with payment terms that are customary in the industry, typically 30 to 90 days. The Company's contracts with its customers do not have significant financing components.

Amounts billed to customers related to shipping and handling costs are included in Sales in the Consolidated Statements of Income. Shipping and handling costs are accounted for as fulfillment costs and are included in Cost of goods sold in the Consolidated Statements of Income.

Taxes assessed by a governmental authority that are both imposed on and concurrent with a specific revenue-producing transaction that are collected by the Company from a customer are excluded from revenue.

For revenues disaggregated by product group, refer to Segmented Information [note 19].

MAGNA INTERNATIONAL INC.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

[Unaudited]

[All amounts in U.S. dollars and all tabular amounts in millions unless otherwise noted]

2. REVENUE RECOGNITION (CONTINUED)

Tooling and Pre-Production Engineering Costs Related to Long-Term Supply Agreements

The Company incurs pre-production engineering and tooling costs related to the products produced for its customers under long-term supply agreements. Customer reimbursements for tooling and pre-production engineering activities that are part of a long-term supply arrangement, are accounted for as a reduction of cost. Pre-production costs related to long-term supply arrangements with a contractual guarantee for reimbursement are included in the Company's Other assets *[note 9]*.

The Company expenses all pre-production engineering costs for which reimbursement is not contractually guaranteed by the customer. All pre-production tooling costs related to customer-owned tools for which reimbursement is not contractually guaranteed by the customer or for which the Company does not have a non-cancelable right to use the tooling is also expensed.

Contract Assets and Liabilities

The Company's contract assets include both billed and unbilled accounts receivable and are included in the Accounts Receivable balance. Unbilled amounts typically result from sales of standalone tooling and engineering activities where revenue recognized exceeds the amount billed to the customer. Amounts may not exceed their net realizable value. As at September 30, 2018, the Company's unbilled accounts receivable balance was \$150 million [2017 - \$81 million]. Accounts receivable related to production, tooling and engineering sales were \$5.4 billion as of September 30, 2018 [2017 - \$5.1 billion]. Contract assets do not include the costs of obtaining or fulfilling a contract with a customer, as these amounts are generally expensed as incurred.

Customer advances are recorded as deferred revenue [a contract liability]. There were no significant contract liabilities recorded or recognized in revenue for all periods presented.

Product Warranty

The Company has assurance warranties and records product warranty liabilities based on its individual customer agreements. The Company monitors warranty activity on an ongoing basis and adjusts reserve estimates when it is probable that future warranty costs will be different than those estimates. For further detail on the Company's warranty obligations see Contingencies *[note 18]*.

Practical Expedients and Exemptions

The Company does not disclose the value of unsatisfied performance obligations for [i] contracts with an original expected length of one year or less and [ii] contracts for which it recognizes revenue at the amount to which it has the right to invoice for services performed.

MAGNA INTERNATIONAL INC.
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

2. REVENUE RECOGNITION (CONTINUED)

[b] Impact of Adopting ASC 606

The impact of adopting the new revenue standard affected certain balances in the Consolidated Statements of Income as follows:

	For the three months ended			
	March 31, 2017	June 30, 2017	September 30, 2017	December 31, 2017
Decrease in sales	\$ (472)	\$ (544)	\$ (635)	\$ (707)
Decrease in cost of goods sold	(464)	(532)	(652)	(715)
Increase in depreciation and amortization	2	2	4	3
Decrease in equity Income	3	4	—	1
(Decrease) increase in income from operations before income taxes	(13)	(18)	13	4
(Decrease) increase in income taxes	(3)	(5)	4	1
(Decrease) increase in net income	(10)	(13)	9	3
Decrease in income attributable to non-controlling interests	1	—	—	—
(Decrease) increase in net income attributable to Magna International Inc.	\$ (9)	\$ (13)	\$ 9	\$ 3
Earnings per Common Share:				
Basic	\$ (0.03)	\$ (0.04)	\$ 0.02	\$ 0.01
Diluted	\$ (0.02)	\$ (0.04)	\$ 0.02	\$ 0.01

The decrease in Sales and Cost of goods sold for all periods was primarily a result of the change in the accounting for tooling and pre-production engineering activities as a cost recovery rather than as revenue, and also due to a change in the timing of recognition for customer reimbursements related to tooling and pre-production engineering activities.

The impact of adopting the new revenue standard affected certain balances in the Consolidated Balance Sheets as follows:

	For the three months ended			
	March 31, 2017	June 30, 2017	September 30, 2017	December 31, 2017

3. ASSETS AND LIABILITIES HELD FOR SALE

In the third quarter of 2018, the Company entered into an agreement to sell its global Fluid Pressure & Controls ["FP&C"] business to Hanon Systems. The purchase price for the FP&C business, is approximately \$1.23 billion, subject to customary closing adjustments. The transaction is expected to close in the first quarter of 2019.

The Company determined that the assets and liabilities of the FP&C business met the criteria to be classified as held for sale as of September 30, 2018. Accordingly, the held for sale assets and liabilities of the FP&C business were reclassified in the consolidated balance sheet at September 30, 2018 to current assets held for sale or current liabilities held for sale, respectively, as the sale of such assets and liabilities is expected within one year. The business is included in the Company's Power & Vision segment and did not meet the criteria to be classified as a discontinued operation.

The following table summarizes the carrying value of the major classes of assets and liabilities of the FP&C business which were classified as held for sale as of September 30, 2018:

	September 30, 2018
Accounts receivable	\$ 282
Inventories	158
Prepaid expenses and other	5
Investments	4
Fixed assets, net	305
Goodwill	160
Deferred tax assets	18
Other assets	12
Intangibles	39
Assets held for sale	\$ 983
Accounts payable	\$ 233
Accrued salaries and wages	30
Other accrued liabilities	68
Income taxes payable	2
Long-term employee benefit liabilities	69
Other long-term liabilities	4
Deferred tax liabilities	9
Liabilities held for sale	\$ 415

Since the estimated purchase price of the assets and liabilities, less costs to sell, exceeded the carrying value as at September 30, 2018, no adjustments to the long-lived assets were necessary.

4. OTHER EXPENSE (INCOME), NET

		Nine months ended	
		September 30,	
		2018	2017
Third Quarter			
Restructuring	[a]	\$ 2	\$ 2
Second Quarter			
Unrealized gain on investment revaluation	[b]	(56)	—
Restructuring	[a]	17	3
		(39)	3
First Quarter			
Restructuring	[a]	3	6
		\$ (34)	\$ 11

For the nine months ended September 30, 2018:

[a] Restructuring

During the first, second and third quarters of 2018, the Company recorded net restructuring charges of \$3 million, \$12 million and \$2 million [\$3 million, \$12 million and \$2 million after tax], respectively, for its Power & Vision operations.

During the second quarter of 2018, the Company recorded net restructuring charges of \$5 million [\$5 million after tax], for its Body Exteriors & Structures operations.

[b] Unrealized gain on investment revaluation

During the second quarter of 2018, the Company recorded an unrealized gain of \$56 million [\$53 million after tax] on the revaluation of its private equity investments.

For the nine months ended September 30, 2017:

[a] Restructuring

During the first, second and third quarters of 2017, the Company recorded net restructuring charges of \$6 million, \$3 million and \$2 million [\$6 million, \$3 million and \$2 million after tax], respectively, for its Power & Vision operations.

7. INVENTORIES

Inventories consist of:

	September 30, 2018	December 31, 2017 [As Adjusted – Note 2]
Raw materials and supplies	\$ 1,270	\$ 1,254
Work-in-process	344	331
Finished goods	448	433
Tooling and engineering	1,518	1,524
	\$ 3,580	\$ 3,542

Tooling and engineering inventory represents costs incurred on tooling and engineering services contracts in excess of billed and unbilled amounts included in accounts receivable.

8. VARIABLE INTEREST ENTITIES

The Company has two investees that are variable interest entities ["VIEs"]. The Company has determined that it is the primary beneficiary and has the power to direct the activities that are considered most significant to these entities. As a result, the assets, liabilities, and results of operations of these variable interest entities are included in the Company's Consolidated Financial Statements. The Company's maximum exposure to any potential losses associated with these affiliated companies is limited to its investment, which was \$180 million at September 30, 2018, and \$137 million at December 31, 2017.

The carrying amounts and classification of assets and liabilities included in the Company's consolidated balance sheet related to the consolidated VIEs are as follows:

	September 30, 2018	December 31, 2017 [As Adjusted – Note 2]
Current assets	\$ 233	\$ 270
Noncurrent assets	129	134
Total assets	\$ 362	\$ 404
Current liabilities	\$ 176	\$ 263
Noncurrent liabilities	6	4
Total liabilities	\$ 182	\$ 267

Assets recognized as a result of consolidating these VIEs do not represent additional assets that could be used to satisfy claims against the Company's general assets. Conversely, liabilities recognized as a result of consolidating these VIEs do not represent additional claims on the Company's general assets; rather, they represent claims against the specific assets of the consolidated VIEs.

9. OTHER ASSETS

Other assets consist of:

	September 30, 2018	December 31, 2017 [As Adjusted – Note 2]
Preproduction costs related to long-term supply agreements with contractual guarantee for reimbursement	\$ 782	\$ 732
Long-term receivables	197	204
Pension overfunded status	20	23
Unrealized gain on cash flow hedges	13	46
Other, net	27	21
	\$ 1,039	\$ 1,026

10. SHORT-TERM BORROWINGS

The Company's short-term borrowings consist of the following:

	September 30, 2018	December 31, 2017
Bank indebtedness [i]	\$ 22	\$ 9
Commercial paper [ii]	1,269	250
	\$ 1,291	\$ 259

[i] The Company has an agreement for a credit facility that is drawn in euros. The Company is required to secure any amounts drawn on the facility with a USD cash deposit of 105% of the outstanding euro balance. As at September 30, 2018, the gross amount outstanding under the credit facility was \$114 million [€98 million]. The credit agreement includes a netting arrangement with the bank that provides for the legal right of setoff. Accordingly, as at September 30, 2018, this liability balance was offset against the related restricted cash equivalent deposit of \$119 million. The remaining net deposit of \$5 million was included in the prepaid expenses and other balance, and is restricted under the terms of the loan. As at December 31, 2017 the gross amount outstanding under the credit facility was \$108 million [€90 million], and net deposit included in the prepaid expenses and other balance was \$5 million.

[ii] The Company has a U.S. commercial paper program [the "U.S. Program"] and a euro-commercial paper program [the "euro-Program"]. Under the U.S. Program, the Company may issue U.S. commercial paper notes [the "U.S. notes"] up to a maximum aggregate amount of U.S. \$1 billion. The U.S. Program is supported by the Company's existing global credit facility. As of September 30, 2018, \$955 million [2017 – \$70 million] of U.S. notes were outstanding, with a weighted-average interest rate of 2.42% [2017 – 1.84%], and maturities less than three months.

Under the euro-Program, the Company may issue euro-commercial paper notes [the "euro notes"] up to a maximum aggregate amount of €500 million or its equivalent in alternative currencies. The euro notes issued are guaranteed by the Company's existing global credit facility. As of September 30, 2018, \$314 million or €270 million [2017 – \$180 million or €150 million] of euro notes were outstanding, with a negative weighted-average interest rate of 0.25% [2017 – negative 0.22%], and maturities less than three months.

11. INCOME TAXES

On December 22, 2017, the United States enacted the Tax Cuts and Jobs Act [the "US Tax Reform"], which reduces the U.S. federal corporate tax rate from 35% to 21% beginning in 2018, requires companies to pay a one-time transition tax on all offshore earnings that were previously tax deferred and creates new taxes on certain foreign sourced earnings, in addition to other changes. For the year ended December 31, 2017, in accordance with guidance provided by SEC Staff Accounting Bulletin No. 118 ["SAB 118"], the Company made a reasonable estimate of its effects and recognized a provisional \$23 million net reduction in income tax expense. The Company anticipates that additional analysis and regulatory guidance could impact the provisional amount recorded in respect of 2017, as well as the Company's estimated annual effective tax rate for the current period. The Company has not made any adjustments during the nine months ended September 30, 2018, and expects to finalize its provisional amounts by the fourth quarter of 2018.

For the three months and nine months ended September 30, 2018, the Company's effective tax rate was also impacted by the expected sale of the FP&C business. The Company reassessed its positions in deferred taxes in anticipation of closing the FP&C transaction in the first quarter of 2019, recognizing a \$21 million net reduction in deferred tax expense.

12. COMMITMENTS

On July 27, 2018, the Company exercised its rights of first refusal to acquire two properties in the United States that it currently leases from Granite Real Estate Investment Trust. Subsequently, the Company rescinded its rights to acquire both properties.

13. WARRANTY

17. FINANCIAL INSTRUMENTS (CONTINUED)

[b] Derivatives designated as effective hedges, measured at fair value

The Company presents derivatives that are designated as effective hedges at gross fair values in the consolidated balance sheets. However, master netting and other similar arrangements allow net settlements under certain conditions. The following table shows the Company's derivative foreign currency contracts at gross fair value as reflected in the consolidated balance sheets and the unrecognized impacts of master netting arrangements:

	Gross amounts presented in consolidated balance sheets	Gross amounts not offset in consolidated balance sheets	Net amounts
September 30, 2018			
Assets	\$ 47	\$ 25	\$ 22
Liabilities	\$ (31)	\$ (25)	\$ (6)
December 31, 2017			
Assets	\$ 101	\$ 47	\$ 54
Liabilities	\$ (49)	\$ (47)	\$ (2)

[c] Fair value

The Company determined the estimated fair values of its financial instruments based on valuation methodologies it believes are appropriate; however, considerable judgment is required to develop these estimates. Accordingly, these estimated fair values are not necessarily indicative of the amounts the Company could realize in a current market exchange. The estimated fair value amounts can be materially affected by the use of different assumptions or methodologies. The methods and assumptions used to estimate the fair value of financial instruments are described below:

Cash and cash equivalents, restricted cash equivalents, accounts receivable, short-term borrowings and accounts payable.

Due to the short period to maturity of the instruments, the carrying values as presented in the consolidated balance sheets are reasonable estimates of fair values.

Commercial Paper

Due to the short period to maturity of the commercial paper, the carrying value as presented in the consolidated balance sheet is a reasonable estimate of its fair value.

Term debt

The Company's term debt includes \$231 million due within one year. Due to the short period to maturity of this debt, the carrying value as presented in the consolidated balance sheets is a reasonable estimate of its fair value.

Senior Notes

The fair value of our senior notes are classified as Level 1 when we use quoted prices in active markets and Level 2 when the quoted prices are from less active markets or when other observable inputs are used to determine fair value. At September 30, 2018, the net book value of the Company's Senior Notes was \$3.07 billion and the estimated fair value was \$3.09 billion.

MAGNA INTERNATIONAL INC.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

[Unaudited]

[All amounts in U.S. dollars and all tabular amounts in millions unless otherwise noted]

17. FINANCIAL INSTRUMENTS (CONTINUED)

[d] Credit risk

The Company's financial assets that are exposed to credit risk consist primarily of cash and cash equivalents, restricted cash equivalents, accounts receivable, and foreign exchange forward contracts with positive fair values.

Cash and cash equivalents and restricted cash equivalents which consists of short-term investments, are only invested in bank term deposits and bank commercial paper with an investment grade credit rating. Credit risk is further reduced by limiting the amount which is invested in certain major financial institutions.

The Company is also exposed to credit risk from the potential default by any of its counterparties on its foreign exchange forward contracts. The Company mitigates this credit risk by dealing with counterparties who are major financial institutions that the Company anticipates will satisfy their obligations under the contracts.

In the normal course of business, the Company is exposed to credit risk from its customers, substantially all of which are in the automotive industry and are subject to credit risks associated with the automotive industry. For the three and nine month periods ended September 30, 2018, sales to the Company's six largest customers represented 76% and 77% of the Company's total sales, respectively, and substantially all of the Company's sales are to customers in which it has ongoing contractual relationships.

[e] Interest rate risk

The Company is not exposed to significant interest rate risk due to the short-term maturity of its monetary current assets and current liabilities. In particular, the amount of interest income earned on the Company's cash and cash equivalents is impacted more by the investment decisions made and the demands to have available cash on hand, than by movements in the interest rates over a given period.

In addition, the Company is not exposed to interest rate risk on its term debt and Senior Notes as the interest rates on these instruments are fixed.

[f] Currency risk and foreign exchange contracts

The Company is exposed to fluctuations in foreign exchange rates when manufacturing facilities have committed to the delivery of products for which the selling price has been quoted in currencies other than the facilities' functional currency, and when materials and equipment are purchased in currencies other than the facilities' functional currency. In an effort to manage this net foreign exchange exposure, the Company employs hedging programs, primarily through the use of foreign exchange forward contracts.

At September 30, 2018, the Company had outstanding foreign exchange forward contracts representing commitments to buy and sell various foreign currencies. Significant commitments are as follows:

	Buys	Sells
For Canadian dollars		
U.S. amount	186	(1,638)
euro amount	20	(12)
Korean won amount	21,100	—
For U.S. dollars		
Peso amount	7,001	—
Korean won amount	7,262	(445)
For euros		
U.S. amount	211	(163)
GBP amount	16	(39)
Czech Koruna amount	6,919	—
Polish Zlotys amount	477	—

Forward contracts mature at various dates through 2022. Foreign currency exposures are reviewed quarterly.

18. CONTINGENCIES

From time to time, the Company may become involved in regulatory proceedings, or become liable for legal, contractual and other claims by various parties, including customers, suppliers, former employees, class action plaintiffs and others. On an ongoing basis, the Company attempts to assess the likelihood of any adverse judgments or outcomes to these proceedings or claims, together with potential ranges of probable costs and losses. A determination of the provision required, if any, for these contingencies is made after analysis of each individual issue. The required provision may change in the future due to new developments in each matter or changes in approach such as a change in settlement strategy in dealing with these matters.

- [a] In September 2014, the Conselho Administrativo de Defesa Economica, Brazil's Federal competition authority, attended at one of the Company's operating divisions in Brazil to obtain information in connection with an ongoing antitrust investigation relating to suppliers of automotive door latches and related products. Proceedings of this nature can often continue for several years. At this time, management is unable to predict the duration or outcome of the Brazilian investigation.

The Company's policy is to comply with all applicable laws, including antitrust and competition laws. The Company has completed its previously announced global review focused on antitrust risk and does not currently anticipate any material liabilities in connection with the review.

In the event of an antitrust violation, Magna could be subject to fines, penalties, restitution settlements and civil, administrative or criminal legal proceedings and other consequences, including reputational damage.

- [b] In certain circumstances, the Company is at risk for warranty costs including product liability and recall costs. Due to the nature of the costs, the Company makes its best estimate of the expected future costs *[note 13]*; however, the ultimate amount of such costs could be materially different. The Company continues to experience increased customer pressure to assume greater warranty responsibility. Currently, under most customer agreements, the Company only accounts for existing or probable claims. Under certain complete vehicle engineering and assembly contracts, and with respect to our powertrain systems programs, the Company records an estimate of future warranty-related costs based on the terms of the specific customer agreements, and the specific customer's [or the Company's] warranty experience.

19. SEGMENTED INFORMATION

Magna is a global automotive supplier which has complete vehicle engineering and contract manufacturing expertise, as well as product capabilities which include body, chassis, exterior, seating, powertrain, active driver assistance, electronics, vision, closure and roof systems. Magna also has electronic and software capabilities across many of these areas.

Previously, the Company organized its businesses into four reportable operating segments: North America, Europe, Asia and Rest of World. In December 2017, the Company announced a realignment of its management structure along product lines. As a result, beginning with the first quarter of 2018, the Company changed its segments to align with the way its business is now managed.

The Company is now organized under four operating segments which have been determined on the basis of technological opportunities, product similarities, and market and operating factors. These operating segments are also the Company's reportable segments:

- Body Exteriors & Structures includes our body and chassis business, exteriors, roof systems, sealing systems and fuel systems operations;
- Power & Vision includes our powertrain, electronics, mirrors, lighting and mechatronics operations;
- Seating Systems is comprised of our complete seat assembly facilities and our foam, trim, structures and mechanisms operations; and
- Complete Vehicles is comprised of our contract manufacturing operations as well as our complete vehicle engineering centers.

The results of each segment are regularly reviewed by the Company's chief operating decision maker to assess the performance of the segment and make decisions regarding the allocation of resources. The Company's chief operating decision maker uses Adjusted Earnings before Interest and Income Taxes ["Adjusted EBIT"] as the measure of segment profit or loss, since management believes Adjusted EBIT is the most appropriate measure of operational profitability or loss for its reporting segments. Adjusted EBIT is calculated by taking net income from operations and adding back income taxes, interest expense, net, and other expense (income), net.

The accounting policies of each segment are the same as those found in the Company's 2017 Annual Report, in the Notes to the consolidated financial statements set out under "Significant Accounting Policies". The most recent updates to these policies can be found in "Recently adopted Accounting Standards" under Note 1 – Significant Accounting Policies. All intersegment sales and transfers are accounted for at fair market value.

Accounts payable	(6,181)	(6,283)
Accrued salaries and wages	(813)	(836)
Other accrued liabilities	(1,853)	(1,739)
Liabilities held for sale	(415)	—
Segment Net Assets	\$ 16,126	\$ 15,574

20. SUBSEQUENT EVENTS

Normal Course Issuer Bid

Subsequent to September 30, 2018, the Company purchased for cancellation 3,030,500 Common Shares under an existing normal course issuer bid for cash consideration of \$150 million through a pre-defined automatic securities purchase plan with a designated broker.

Subject to approval by the Toronto Stock Exchange ["TSX"] and the New York Stock Exchange ["NYSE"], the Company's Board of Directors approved a new normal course issuer bid to purchase up to 33.2 million of the Company's Common Shares, representing approximately 10% of the Company's public float of Common Shares. The primary purposes of the normal course issuer bid are purchases for cancellation as well as purchases to fund our stock-based compensation awards or programs and/or its obligations to its deferred profit sharing plans. The normal course issuer bid is expected to commence on or about November 15, 2018 and will terminate one year later. All purchases of Common Shares will be made at the market price at the time of purchase in accordance with the rules and policies of the TSX or on the NYSE in compliance with Rule 10b-18 under the U.S. Securities Exchange Act of 1934.

Purchases may also be made through other published markets, or by such other means permitted by the TSX, including by private agreement or specific share repurchase program at a discount to the prevailing market price, pursuant to an issuer bid exemption order issued by a securities regulatory authority.

Credit Facility

On October 12, 2018, the Company entered into a 364-day syndicated credit agreement that provides for a USD \$300 million revolving credit facility in Canada to be used for general corporate purposes. As of November 7, 2018, the Company has not borrowed any funds under this credit facility.

Acquisition of OLSA S.p.A.

On October 31, 2018, the Company completed the acquisition of 100% of the equity interest in OLSA S.p.A ["OLSA"]. OLSA is a global company which designs, engineers and manufactures tail lamps and other lighting products. The purchase price was \$275 million [net of cash acquired and including debt assumed], and is subject to working capital and other customary purchase price adjustments. The transaction will be accounted for as a business combination, however given the timing of the closing of the acquisition, the purchase accounting is incomplete at this time. As a result, it is not practicable for the Company to disclose the allocation of the purchase price to assets acquired and liabilities assumed. This information will be included in the Company's 2018 Annual Report to Shareholders.
