1 Nature of operations and basis of presentation

Nature of operations

Aritzia Inc. and its subsidiaries (collectively referred to as the "Company") is a vertically integrated design house of exclusive fashion brands. The Company designs apparel and accessories for its collection of exclusive brands. The Company's assortment of women's fashion apparel and accessories addresses a range of style preferences and lifestyle requirements. As at June 2, 2019, there were 92 retail boutiques (May 27, 2018 - 87 retail boutiques).

Aritzia Inc. is a corporation governed by the Business Corporations Act (British Columbia). The address of its registered office is 666 Burrard Street, Suite 1700, Vancouver, B.C., Canada, V6C 2X8.

On March 8, 2019, the Company completed a secondary offering (the "March 2019 Secondary Offering") on a bought deal basis of its subordinate voting shares through a secondary sale of shares by certain shareholders. The March 2019 Secondary Offering of 19,505,000 subordinate voting shares raised gross proceeds of \$329.6 million for the selling shareholders, at a price of \$16.90 per subordinate voting share (the "March 2019 Offering Price"). The Company did not receive any proceeds from the March 2019 Secondary Offering. Underwriting fees were paid by the selling shareholders.

Concurrent with the completion of the March 2019 Secondary Offering, on March 8, 2019, the Company also completed its purchase of 6,333,653 subordinate voting shares and multiple voting shares (the "Shares") for cancellation from certain shareholders, including an investment vehicle (the "Berkshire Shareholder") managed by Berkshire Partners LLC ("Berkshire") (the "Share Repurchase"). The purchase price per Share paid by the Company under the Share Repurchase was the same as the March 2019 Offering Price and resulted in an aggregate purchase price of \$107.0 million paid to the selling shareholders. Total expenses related to the March 2019 Secondary Offering and Share Repurchase of \$2.5 million are being paid by the Company and were reimbursed by the selling shareholders participating in the Share Repurchase, including the Berkshire Shareholder.

Upon completion of the March 2019 Secondary Offering and Share Repurchase on March 8, 2019, the Berkshire Shareholder has no remaining equity interest in the Company.

The Company's subordinate voting shares are listed on the Toronto Stock Exchange under the stock symbol "ATZ".

Basis of presentation

These unaudited condensed interim consolidated financial statements ("interim financial statements") have been prepared under International Financial Reporting Standards ("IFRS") in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB"), on a basis consistent with those accounting policies followed by the Company in the most recent audited annual consolidated financial statements, with the exception of IFRS 16, Leases, as described below. Certain information, in particular the accompanying notes normally included in the audited annual consolidated financial statements prepared in accordance with IFRS, has been omitted or

(Unaudited, in thousands of Canadian dollars, unless otherwise noted)

condensed. Accordingly, these interim financial statements do not include all the information required for full annual financial statements, and, therefore, should be read in conjunction with the audited annual consolidated financial statements and the notes thereto for the year ended March 3, 2019 ("Fiscal 2019"). These unaudited condensed interim consolidated financial statements are presented in Canadian dollars, unless otherwise noted.

These interim financial statements were authorized for issue on July 11, 2019 by the Company's Board of Directors.

Seasonality of interim operations

The Company's business is affected by the pattern of seasonality common to most retail apparel businesses. Accordingly, quarterly performance is not necessarily indicative of annual performance. Historically, the Company has recognized a significant portion of its operating profit in the third and fourth quarters of each fiscal year as a result of increased net revenue during the back-to-school and holiday seasons.

2 Summary of significant accounting policies

These interim financial statements have been prepared using the accounting policies as outlined in note 2 of the Fiscal 2019 audited consolidated financial statements, with the exception of the accounting standards adopted in the year ending March 1, 2020 ("Fiscal 2020"). Changes to significant accounting policies are described below.

3 Significant new accounting standards

Standards recently adopted

IFRS 16 - Leases

In January 2016, the IASB issued IFRS 16, Leases ("IFRS 16"), which sets out a new model for lease accounting replacing IAS 17, Leases ("IAS 17") and related interpretations. The standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. Lessors continue to classify leases as finance and operating leases. Other areas of the lease accounting model have been impacted, including the definition of a lease. IFRS 16 became effective for annual periods beginning on or after January 1, 2019. The Company adopted the standard on March 4, 2019 using the modified retrospective method, with the cumulative effect initially recognized in retained earnings, with no restatement of prior comparative period.

Substantially all of the Company's existing leases are real estate leases for its boutiques, distribution centers and support offices and all were classified as operating leases prior to adoption of IFRS 16. The Company recognized right-of-use assets and lease liabilities for leases previously classified as operating

(Unaudited, in thousands of Canadian dollars, unless otherwise noted)

leases under IAS 17. The depreciation expense on the right-of-use assets and the finance charge on the lease liabilities substantially replaced the lease-related expenses recorded in costs of goods sold and selling, general and administrative expenses, previously recognized on a straight-line basis over the lease term under IAS 17. Variable lease payments and non-lease components are expensed as incurred.

The new standard does not change the amount of cash transferred between the lessor and lessee, but changes the presentation of the operating and financing cash flows presented on the Company's consolidated statement of cash flows.

The Company has elected to apply the following recognition exemptions and practical expedients, as described under IFRS 16:

- i) recognition exemption of short term leases;
- ii) recognition exemption of low-value leases;
- iii) grandfather prior conclusions on contracts containing leases on transition;
- iv) a single discount rate was applied to a portfolio of leases with similar characteristics on transition;
- v) initial direct costs were excluded in the measurement of the right-of-use assets on transition; and
- vi) hindsight was used in determining lease term at the date of transition.

The lease liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as at March 4, 2019. The right-of-use assets were measured as if the standard had been applied since the commencement date of the lease, but discounted using the lessee's incremental borrowing rate at the date of initial application. The cumulative adjustment was recognized directly to retained earnings at March 4, 2019.

Aritzia Inc.

Notes to Condensed Interim Consolidated Financial Statements

June 2, 2019

(Unaudited, in thousands of Canadian dollars, unless otherwise noted)

The following tables summarize the adjustments to opening balances resulting from the initial adoption of IFRS 16, with the effects on transition being recognized directly to retained earnings:

	As previously reported under IAS 17, March 3, 2019	IFRS 16 transition adjustments	Balance at March 4, 2019

Prepaid expenses and other current assets	\$ 18,422	\$ (9,510)	\$ 8,912

Other non-current liabilities	69,828	(64,685)	5,143
Deferred tax liabilities	20,002	(1,483)	18,519
Retained earnings	109,339	(42,402)	66,937
Total impact on liabilities and shareholders' equity	\$ 375,840		

Upon adoption of IFRS 16, the Company updated its lease accounting policies as follows:

The Company assesses whether a contract is or contains a lease at the inception of the contract. Leases are recognized as a right-of-use asset and corresponding lease liability at the lease commencement date. The lease liability is measured at the present value of the future fixed payments and variable lease payments that depend on an index or rate over the lease term, less any lease incentives receivable, discounted using the lessee's incremental borrowing rate, unless the implicit rate interest rate in the lease can be easily determined. Lease liabilities are subsequently measured at amortized cost using the effective interest rate method.

Lease terms applied are the contractual non-cancellable periods of the lease, plus periods covered by renewal or termination options, if the Company is reasonably certain to exercise those options. Lease liabilities are remeasured (with a corresponding adjustment to the right-of-use asset) when there is a change in the lease term, a change in the future lease payments resulting from a change in an index or rate used to determine those payments, or when the lease contract is modified and the lease modification is not accounted for as a separate lease.

The right-of-use assets include the initial measurement of the corresponding lease liabilities, lease payments at or before the commencement date, any initial direct costs, less any lease incentives received before the commencement date. The right-of-use assets are subsequently measured at cost and are depreciated on a straight-line basis from the date the underlying asset is available for use over the lease term.

Aritzia Inc.

Notes to Condensed Interim Consolidated Financial Statements

June 2, 2019

(Unaudited, in thousands of Canadian dollars, unless otherwise noted)

Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liabilities and are recognized in cost of goods sold and selling, general and administrative expenses as incurred.

4 Critical accounting estimates and judgments

The preparation of unaudited condensed interim consolidated financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Estimates and assumptions are continuously evaluated and are based on management's best judgments and experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Actual results may differ from these estimates.

In preparing these interim financial statements, the significant judgments made by management in applying the Company's accounting policies and key sources of estimation of uncertainty were the same as those applied in note 4 of the Fiscal 2019 audited consolidated financial statements, except as noted below relating to the adoption of IFRS 16.

The Company exercises judgment in determining the appropriate lease term on a lease by lease basis and considers all facts and circumstances that create an economic incentive to exercise a renewal or termination option. The periods covered by renewal options are included in the least term only if the Company is reasonably certain it will exercise such renewal options.

The Company uses the lessee's incremental borrowing rate when determining the carrying amount of right-of-use assets and lease liabilities, as the interest rates implicit in the lease agreements are not readily available. The Company determines the incremental borrowing rate of each leased asset as the rate of interest that the Company would have to pay to borrow, over a similar term with a similar security, the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment.

All of the Company's inventory is pledged as security for the Credit Facilities (note 10).

6 Property and equipment and intangible assets

During the 13-week period ended June 2, 2019, the Company had property and equipment additions of \$7.5 million, the majority of which were related to leasehold improvements made to its retail boutiques and the purchase of furniture and equipment for such boutiques (May 27, 2018 - \$14.7 million). During the same period, the Company also had intangible asset additions of \$0.4 million (May 27, 2018 - \$2.4 million), the majority of which were related to internally developed computer software.

under these facilities is reduced to \$29.6 million (March 3, 2019 - \$31.9 million) by certain open letters of credit (note 17(b)).

The Credit Facilities are collateralized by a first priority lien on all assets, leased real property interests and inventory. In addition, the Company is to maintain certain financial covenants. As at June 2, 2019 and March 3, 2019, the Company was in compliance with all financial covenants.

11 Share capital

On May 10, 2018, the Company announced the commencement of a normal course issuer bid ("NCIB") to repurchase and cancel up to 5,429,658 subordinate voting shares over the 12-month period commencing May 15, 2018 and ending May 14, 2019. All repurchases are made through the facilities of the Toronto Stock Exchange and are done at market prices. The amounts paid above the average book value of the subordinate voting shares are charged to retained earnings. During the 13-week period ended May 27, 2018, the Company repurchased a total of 52,100 subordinate voting shares for cancellation at an average price of \$13.65 per subordinate voting share. In connection with the March 2019 Secondary Offering and Share Repurchase, the NCIB was suspended.

On March 5, 2019, in connection with the March 2019 Secondary Offering and Share Repurchase, certain selling shareholders exchanged 14,996,824 of their multiple voting shares for subordinate voting shares (note 1).

As at June 2, 2019, there were 24,537,349 multiple voting shares and 83,271,153 subordinate voting shares issued and outstanding. There were no preferred shares issued and outstanding as at June 2, 2019. Neither the multiple voting shares nor the subordinate voting shares issued have a par value.

Subsequent to the 13-week period ended June 2, 2019, on July 11, 2019, the Company announced its intention to proceed with a NCIB through the facilities of the TSX to repurchase and cancel up to 3,624,915 of its subordinate voting shares, representing approximately 5% of the public float, during the 12-month period commencing July 16, 2019 and ending July 15, 2020.

13 Net income per share

a) Basic

Basic net income per share is calculated by dividing the income attributable to shareholders of the Company by the weighted average number of multiple voting shares and subordinate voting shares outstanding during the period. As all the classes of shares are subject to the same distribution rights, the Company performs the net income per share calculations as if all shares are a single class.

15 Income taxes

The income tax expense is recognized based on management's best estimate of the weighted average annual income tax rate expected for the full fiscal year. To the extent that forecasts differ from actual results, adjustments are recognized in subsequent periods. The statutory income tax rate for the 13-week period ended June 2, 2019 is 26.9% (May 27, 2018 - 26.9%). The Company's effective income tax rate for the 13-week period ended June 2, 2019 is 29.2% (May 27, 2018 - 32.8%).

16 Segment information

The Company defines an operating segment on the same basis that it uses to evaluate performance internally and to allocate resources by the Chief Operating Decision Maker (the "CODM"). The Company has determined that the Chief Executive Officer is its CODM and there is one operating segment. Therefore, the Company reports as a single segment. This includes all sales channels accessed by the Company's clients, including sales through the Company's eCommerce website and sales at the Company's boutiques.

The following table summarizes net revenue by geographic location of clients:
