### ***Corporate Cease Trade Orders and Bankruptcies***

Mr. Yingbin Ian He, a nominee for Director at the Meeting, was previously a director of Huaxing Machinery Corp. ("**Huaxing**") from January 2011 to December 2016. On February 26, 2015, the British Columbia Securities Commission issued a cease trade order requiring all persons to cease trading in the securities of Huaxing until Huaxing files amended and restated audited financial information for the financial years ended December 31, 2013 and 2012. On June 9, 2015, the Alberta Securities Commission issued a cease trader order which required that all trading or purchasing cease in respect of the securities of Huaxing as a result of the failure by Huaxing to file: (i) annual audited financial statements, annual management's discussion and analysis, and certification of annual filings for the year ended December 31, 2014; and (ii) interim unaudited financial statements, interim management's discussion and analysis, and certification of interim filings for the interim period ended March 31, 2015.

To the knowledge of the Company, save as disclosed above, no other proposed Director is or has been, within the past 10 years, a director, chief executive officer or chief financial officer of any company that:

- (a) was subject to an order that was issued while the proposed director was acting in the capacity as director, chief executive officer or chief financial officer; or
- (b) was subject to an order that was issued after the proposed director ceased to be a director, chief executive officer or chief financial officer and which resulted from an event that occurred while that person was acting in the capacity as director, chief executive officer or chief financial officer.

## ***Individual Bankruptcies***

To the knowledge of the Company, no other proposed Director of the Company is or has been, within the past 10 years, a director or executive officer of any company that, while that person was acting in that capacity or within a year of that person ceasing to act in that capacity, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or was or became subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold its assets of the proposed Director.

## ***Penalties or Sanctions***

The Company was notified by Dr. Bielin Shi, a nominee for Director at the Meeting, of an investigation and decision (the “**Decision**”) by the Shanghai Stock Exchange (the “**SSE**”) against Shandong Tyan Home Co., Ltd. (“**Tyan**”) together with its controlling shareholder and 21 current and former directors and officers of Tyan pertaining to certain breaches of continuous disclosure requirements in Tyan’s Annual and Semi-Annual reports for the periods 2014 through and including 2018. Dr. Shi served as Deputy General Manager of Tyan for a short period from July 2017 to March 2019. Dr. Shi was responsible for mineral exploration and investments held by Tyan. He did not have any responsibility for financial disclosure and was not involved with Tyan during most of the periods for which incorrect financial disclosure was filed, but was implicated in the Decision by virtue of serving as an officer of Tyan during the period in which financial reporting was filed for such periods in question. The Decision did not relate to any business or operations of Tyan in which Dr. Shi was involved in. Dr. Shi received a formal warning from the SSE and the China Securities Regulatory Commission and was imposed a fine of RMB30,000.

Dr. Shi resigned as Deputy General Manager Tyan in March 2019 and was not involved in the regulatory proceeding against Tyan. Dr. Shi has informed the Company that he intends to appeal the Decision.

To the knowledge of the Company, no other proposed Director has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority, or has been subject to any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable securityholder in deciding whether to vote for a proposed Director.

## **CORPORATE GOVERNANCE**

### ***Statement of Corporate Governance Practices***

Corporate governance relates to the activities of the Board, the members of which are elected by and are accountable to the Shareholders, and takes into account the role of the individual members of management who are appointed by the Board and who are charged with the day-to-day management of the Company. The Board is committed to sound corporate governance practices which are in the interest of the Shareholders and also contribute to effective and efficient decision making. A description of certain corporate governance practices of the Company in accordance with Form 58-101F1 of National Instrument 58-101 of the Canadian Securities Administrators is attached as “Schedule A – Corporate Governance Disclosure to this Information Circular”.

### ***Director Independence***

The Board and the Nominating and Corporate Governance Committee considered the relationships of each of the Director nominees to the Company and determined that four of the nine proposed nominees for election as Directors qualify as INEDs. The Board and the Nominating and Corporate Governance Committee reviewed independence in light of the requirements of NI58-101, Section 311 of the TSX Company Manual in Canada and Rule 3.13 of the Hong Kong Listing Rules. The INED nominees are: Mr. Yingbin Ian He, Mr. Wei Shao, Dr. Bielin Shi and Ms. Ruixia Han. The non-independent Director nominees are: Mr. Liangyou Jiang, Mr. Shiliang Guan, Mr. Weibin Zhang, Ms. Na Tian and Mr. Junhu Tong. The INED nominees have each confirmed their independence accordingly.

Pursuant to the code provision in paragraph A.4.3 of the Corporate Governance Code set out in Appendix 14 to the Hong Kong Listing Rules, any further appointment of independent non-executive director serving more than nine years should be subject to a separate resolution to be approved by Shareholders. Mr. Yingbin Ian He has served on the Board for more than nine years. Mr. Yingbin Ian He has not been involved in the daily management of the Company nor in any relationships or circumstances which would impair their independent judgment. Mr. Yingbin Ian He has consistently demonstrated his ability to provide independent, balanced and objective advice and insight on the Company's affairs. In addition, the Board is of the opinion that Mr. Yingbin Ian He continues to be independent after reviewing and assessing his annual confirmations of independence based on the criteria set out in Rule 3.13 of the Hong Kong Listing Rules. Accordingly, the Board recommends Mr. Yingbin Ian He for re-election at the AGM.

The INEDs, namely each of Mr. Yingbin Ian He, Mr. Wei Shao, Dr. Bielin Shi and Ms. Ruixia Han, are subject to a separate ordinary resolution to be approved by Shareholders at the AGM. The Board has complied with the Corporate Governance Code Provision E.1.1 with regard to the requirement to propose a separate resolution in respect of each substantially separate issue at any annual general meeting. It is the Company's practice that separate resolutions were proposed at AGM's for the re-election of each individual Director nominee whether such Director is an executive Director, a non-executive Director or an INED. Accordingly, re-election of each individual Director nominee will be voted on individually at the AGM.

In addition, the Audit Committee is currently comprised exclusively of INEDs. Each of the Compensation and Benefits Committee, Nominating and Corporate Governance Committee and Health, Safety and Environmental Committee are currently comprised by a majority of INEDs. If all of the INED nominees proposed by management for election to the Board are elected at the Meeting, it is expected that they will be appointed to each of the Audit Committee, Compensation and Benefits Committee, Nominating and Corporate Governance Committee and Health, Safety and Environmental Committee. The Audit Committee will continue to be comprised exclusively of INEDs with the Compensation and Benefits Committee, Nominating and Corporate Governance Committee and Health, Safety and Environmental Committee comprised by a majority of INEDs.

Mr. John King Burns served as Chairman of the Compensation and Benefits Committee until June 25, 2019, at which time Ms. Ruixia Han was appointed as Chairwoman. From June 25, 2019 to December 31, 2019 Ms. Ruixia Han, Mr. Yingbin Ian He, Mr. Wei Shao, Dr. Bielin Shi and Mr. Yongqing Teng were members of the Compensation and Benefits Committee. If the management's nominees set forth herein are elected or re-elected, as applicable at the Meeting, it is expected that the Compensation and Benefits Committee will be composed of a majority of INEDs. For information regarding the responsibilities, powers and operation of the Compensation and Benefits Committee, see "Schedule A – Corporate Governance Disclosure".

Currently none of the Company's executive officers serve as a member of the Compensation and Benefits Committee or the board of directors of any entity that has an executive officer serving as a member of the Compensation and Benefits Committee or Board.

### ***Compensation Discussion and Analysis***

#### **Compensation and Benefits Committee and Compensation Philosophy**

The Company's executive compensation program is administered by the Compensation and Benefits Committee. Following review and approval by the Compensation and Benefits Committee, decisions relating to executive compensation are reported to and approved by the Board.

The basic philosophy underlying the Company's executive compensation program is that the interests of the Company's executive officers should be aligned as closely as possible with the interests of the Company and its Shareholders as a whole. The Company attempts to bridge its compensation practices with the norms for listed issuers in North America and the norms for Chinese companies. At the same time,

the Company recognizes that competition in the mining industry for highly skilled employees is intense and that the levels of compensation offered by the Company must be comparable to those offered by its competitors in order to attract, retain and motivate executive personnel of the highest caliber.

The Compensation and Benefits Committee assess the individual performance of the Company's executive officers and makes recommendations to the Board. Based on these recommendations, the Board makes decisions concerning the nature and scope of compensation to be paid to the Company's executive officers.

Compensation for the Company's senior executive officers has been traditionally determined with regard to the following considerations in approximately equal level of importance:

- (a) the desirability of providing a strong incentive to management to work as a team to achieve the Company's corporate long term and short-term business development goals;
- (b) the principle that the economic interests of management and those of the Shareholders should be aligned as closely as reasonably possible;
- (c) the competitive environment that exists in the mining industry for the recruitment and retention of qualified personnel and the resulting need to offer levels of executive compensation that are comparable to those offered by the Company's competitors; and
- (d) the development of the Company's business.

The criteria upon which these recommendations are based have reflected the Company's views as to the nature and value of the contributions made by its executive officers to the achievement of the Company's corporate plans and objectives.

The Company's compensation decisions have been largely subjective, based on the Company's compensation philosophy and in particular focusing on retention and available resources.

#### How the Company makes Compensation Decisions

The Compensation and Benefits Committee reviews levels of cash compensation on an ad hoc basis, and makes recommendations to the Board to adjust cash compensation in light of individual and Company performance, improvements in job proficiency, retention risks, succession requirements and compensation changes in the market. The Compensation and Benefits Committee also reviews the corporate goals and objectives relevant to the compensation of the senior executive officers as needed and at least annually based on recommendations from the Chief Executive Officer and other members of the management team. The Board maintains discretionary authority over all compensation awards.

The Compensation and Benefits Committee makes its determinations as to overall compensation levels on the basis of both available third-party data regarding comparable compensation at similar size companies as well as their own industry experience, hiring and retention needs and other subjective factors. The Compensation and Benefits Committee has not formalized a peer comparator group for purposes of making compensation decisions although the Company's compensation practices compare favorably with other Toronto Stock Exchange and Hong Kong Stock Exchange listed issuers with producing mines. Compensation decisions are not currently made on the basis of the achievement of pre-determined objective benchmarks or goals for the various management positions.

#### Elements of Total Compensation

The compensation that the Company's Named Executive Officers receive generally consists of base salary and performance bonuses. Base salary comprises the largest component of each Named Executive Officer's compensation. The following summarizes the primary purpose of each element of compensation and its emphasis within overall compensation for the Named Executive Officers:

- (a) Base salary – paid in cash and is a fixed amount of compensation for performing day-to-day responsibilities; and
- (b) Performance bonuses – bonus awards, paid in cash, earned for achieving short-term goals and other objectives based on the corporate, business unit and individual performance.

In making compensation decisions in respect of these reward categories, the Compensation and Benefits Committee considers the cumulative compensation granted to executives as well as internal comparisons amongst executives.

### Salary Compensation

Salaries are reviewed upon hiring decisions and then again at least annually. Salary adjustments for the following year are considered based on a variety of factors, including the individual's performance and contributions, improvements in job proficiency, retention risks, succession requirements and compensation changes in the market and available cash resources.

Consistent with the practice established by his predecessors with the support of China National Gold, since his appointment as Chief Executive Officer of the Company, Mr. Liangyou Jiang has chosen not to receive any compensation, salary or otherwise, from the Company for carrying out the duties of such role.

### Bonus Compensation

Executive officers of the Company are eligible for annual incentive compensation in the form of a bonus in cash. Annual incentive awards are based on an assessment of performance of a combination of Company, business unit and individual performance, as well as a consideration of overall compensation targets and market changes. To date, the Company has not implemented a formalized approach to bonuses, although the Company assesses quantitative and qualitative economic measurement criteria to develop a more objective approach to determining annual bonuses.

For the 2019 financial year, the Company did not award any annual incentive bonuses to any Named Executive Officers.

### Other Compensation

The Company does not maintain a current stock option plan. For more information, see "Securities Authorized for Issuance under Equity Compensation Plans".

The Company does not maintain a pension plan or other long-term compensation plan.

For the 2019 financial year, the Company did not provide any other material compensation for its Named Executive Officers beyond the salaries disclosed above.

### Compensation Governance

For the most recently completed financial year ended December 31, 2019 no fees were billed by any consultant or advisor for services related to determining compensation for any of the Company's Directors and executive officers.

### Compensation Risk Management

The Board has considered the implications of the risks associated with the Company's compensation policies and practices. The Board has ultimate oversight of the risks associated with the Company's compensation policies and practices, and carefully reviews the risks associated with the Company's compensation structure. The Company's compensation policies and practices are heavily influenced by those of China National Gold and other Chinese mining companies. The Company's current compensation structure consists of cash compensation in the form of salary and bonus compensation. The Company does

not currently maintain an equity incentive plan nor does it maintain a long-term incentive plan. The Company will adopt a more formalized approach to compensation risk management as its compensation practices evolve. The Company uses the following practices to identify and mitigate compensation policies and practices that could encourage an individual to take inappropriate or excessive risks: (i) the Compensation and Benefits Committee completes an annual review of all forms of compensation provided to the Named Executive Officers, Directors and top paid employees; and (ii) the Board completes an annual review of the Company's compensation philosophy and components. There are no identified risks arising from the Company's compensation policies and practices that are reasonably likely to have a material adverse effect on the Company.

#### **Financial Instruments**

The Company does not have a written policy which restricts its executive officers and Directors from purchasing financial instruments that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the executive officers or Directors.

#### ***Long-term Incentive Plan ("LTIP") Awards***

The Company does not have a LTIP pursuant to which cash or non-cash compensation intended to serve as an incentive for performance (whereby performance is measured by reference to financial performance or the price of the Company's securities) was paid or distributed to any directors, executive officers or employees during the financial year ended December 31, 2019.

#### ***Defined Benefit and Pension Plans***

The Company does not presently provide any defined benefit, pension plan or deferred compensation to its Directors, executive officers or employees.

#### ***Outstanding share-based awards and option-based awards***

There are no outstanding share-based awards and option-based awards held by any of the Named Executive Officers of the Company as of December 31, 2019:

#### ***Incentive Plan Awards – value vested or earned during 2019***

There are no outstanding incentive plan awards held by any of the Named Executive Officers of the Company as of December 31, 2019.

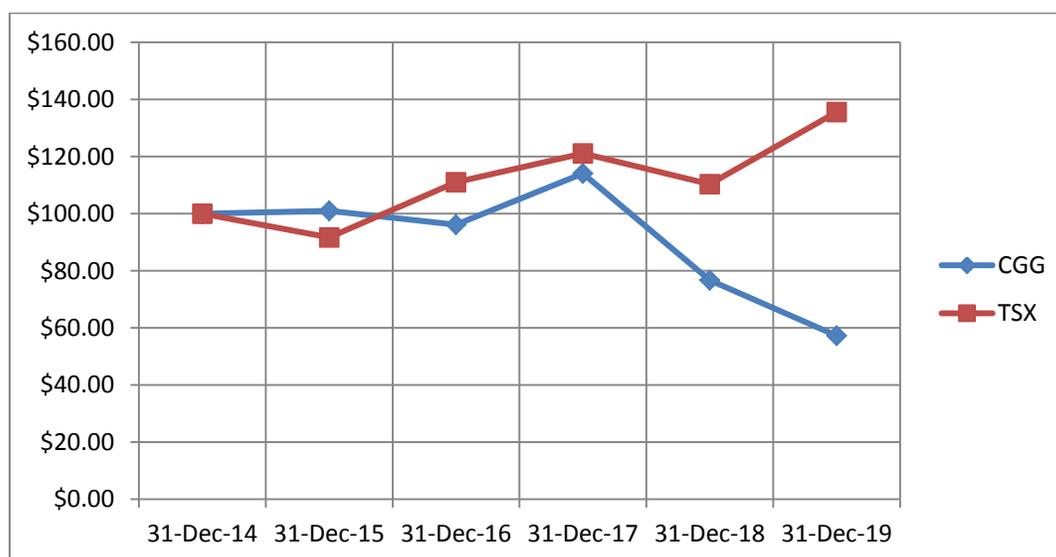

#### ***Termination of Employment, Change in Responsibilities and Employment Contracts***

The Company has employment contracts with each of its Named Executive Officers with the exception of Liangyou Jiang, who does not receive any compensation for acting as Chief Executive Officer. Under employment contracts with the Named Executive Officers, the Named Executive Officers may terminate their employment on notice to the Company. In the case of Mr. Jerry Xie, Mr. Derrick Zhang, Mr. Zhongxin (Gerard) Guo and Mr. Huan Cai, one month's notice is required. In the case of Liangyou Jiang, the Company has a strong working relationship with China National Gold and would terminate employment through that relationship.

Under employment contracts with the Named Executive Officers, the Company may terminate Mr. Jerry Xie's, Mr. Derrick Zhang's, Mr. Zhongxin (Gerard) Guo's, or Mr. Huan Cai's employment for cause, or without cause upon one month's notice or lump sum payment equivalent. In the event of a change of control of the Company and if the employment contract of Mr. Jerry Xie is terminated within twelve months of such change of control, Mr. Jerry Xie will be entitled to the earlier of either 18 months' salary or when the alternate employment is commenced.

### **Implications under the Hong Kong Listing Rules**

As one of the applicable percentage ratios (as defined under Rule 14.07 of the Hong Kong Listing Rules) in respect of the leasing services under the Third Supplemental Products and Services Framework Agreement exceeds 5% but is less than 25%, those leasing services constitute a discloseable transaction for the Company and are subject to the reporting and announcement requirements under Chapter 14 of the Hong Kong Listing Rules.

Since the remaining transactions contemplated under the Third Supplemental Contract for the Purchase and Sale of Doré and the Third Supplemental Products and Services Framework Agreement are of a revenue nature in the ordinary and usual course of business of the Group, they are not subject to the reporting, announcement and Shareholders' approval requirements under Chapter 14 of the Hong Kong Listing Rules.

As at the Latest Practicable Date, China National Gold held approximately 39.3% of issued Shares through CNGGHK, its wholly owned subsidiary, and thus is the ultimate controlling Shareholder of the Company. Accordingly, China National Gold is a connected person of the Company as defined under the Hong Kong Listing Rules.

The transactions contemplated under the Third Supplemental Contract for Purchase and Sale of Doré and the Third Supplemental Products and Services Framework Agreement constitute continuing connected transactions for the Company under Chapter 14A of the Hong Kong Listing Rules.

As one or more of the applicable percentage ratios (as defined under Rule 14.07 of the Hong Kong Listing Rules) in respect of each of the Continuing Connected Transactions exceed 5%, the Continuing Connected Transactions are subject to reporting, announcement and Independent Shareholders' approval requirements under Chapter 14A of the Hong Kong Listing Rules.

The Independent Board Committee comprised of all the INEDs was established by the Company to consider (a) the terms of the Continuing Connected Transactions and the proposed Caps; (b) to determine whether the entering into of each of the Continuing Connected Transactions are in the ordinary course of business of the Company, on normal commercial terms and are fair and reasonable so far as the Company and the Independent Shareholders are concerned; and (c) to advise and make recommendations to the Independent Shareholders as to how to vote at the Meeting on the ordinary resolution(s) regarding each of the Continuing Connected Transactions having taken into account, among other things, the advice of TC Capital, as the Independent Financial Adviser to advise the Independent Board Committee and Independent Shareholders in this regard. Accordingly, the Independent Board Committee recommends the Independent Shareholders to vote in favour of the ordinary resolutions in respect of each of the Continuing Connected Transactions at the Meeting.

#### Implications under Applicable Canadian Securities Laws

As the Company is listed on the TSX, the Company is subject to Multilateral Instrument 61-101 – Protection of Minority Security Holders in Special Transactions (“**MI 61-101**”) which, among other things, regulates related party transactions. Pursuant to MI 61-101, related party transactions are subject to formal valuation and minority shareholder approval requirements unless an exemption is available.

Each of the Continuing Connected Transactions are related party transactions for the Company for purposes of MI 61-101 by virtue of the relationship between the Company and CNG.

The Third Supplemental Contract for Purchase and Sale of Doré is exempt from the valuation requirement of MI 61-101 by virtue of being a sale contract of inventory in the ordinary course of the Company's business. It is subject to minority approval requirements as noted below.

The Third Supplemental Products and Services Framework Agreement is comprised of multiple components that are assessed differently under MI 61-101. The sale of copper concentrates is exempt from the valuation requirement of MI 61-101 by virtue of being a sale contract of inventory in the ordinary course of the Company's business. The provision of services is not expressly addressed in the definition of a related party transaction under MI 61-101, and leasing services are considered in the ordinary course of business on reasonable commercial terms that are not less advantageous to the Company than if the lease was with a counterparty with whom the Company deals at arm's length. Furthermore, the overall value of the portions of the Third Supplemental Products and Services Framework Agreement that are not otherwise

exempt is not more than 25% of the market capitalization of the Company as of the date of such contract. It is subject to minority approval requirements as noted below.

#### Minority Approval Requirements

To be approved under both Chapter 14A of the Hong Kong Listing Rules and MI 61-101, each of the Third Supplemental Contract for Purchase and Sale of Doré and the Third Supplemental Products and Services Framework Agreement, and their respective annual monetary caps, must receive the affirmative vote of not less than a majority of the votes cast thereon by the Independent Shareholders.

#### Ordinary Resolutions

The Independent Shareholders will be asked to consider and, if thought fit, pass the following:

## SCHEDULE A CORPORATE GOVERNANCE DISCLOSURE

NI 58-101 requires the Company to disclose its corporate governance practices with reference to a series of corporate governance practices outlined in National Policy 58-201 – *Corporate Governance Guidelines* that the Canadian Securities Administrators (“CSA”) believe reflect “best practices” standards to which they encourage Canadian public companies to adhere.

### 1. Board of Directors

- (a) Disclose the identity of directors who are independent.

The Board has reviewed the independence of each director on the basis of the definitions in section 1.4 of National Instrument 52-110 (“NI 52-110”), as amended. A director is “independent” if he or she has no direct or indirect material relationship with the Company. A “material relationship” is one that would, or in the view of the Board could, be reasonably expected to interfere with the exercise of a director’s independent judgment. The Board has determined, after reviewing the roles and relationships of each of the nominees proposed by management for election to the Board, that 44% (4 of 9) of such nominees are independent from the Company. The Company has determined that Mr. Yingbin Ian He, Mr. Wei Shao, Dr. Bielin Shi and Ms. Ruixia Han are INEDs and have no material connection to the Company, other than as directors.

- (b) Disclose the identity of directors who are not independent and describe the basis for that determination.

The Board has determined, after reviewing the roles and relationship of each of the nominees proposed by management for election to the Board that 56% (5 of 9) of such nominees are not independent of the Company. The Company has determined that Mr. Liangyou Jiang, Mr. Shiliang Guan, Mr. Weibin Zhang, Ms. Na Tian and Mr. Junhu Tong are not independent of the Company. Liangyou Jiang is not considered independent of the Company because of his senior role as Chairman and Chief Executive Officer of the Company. Mr. Shiliang Guan, Mr. Weibin Zhang, Ms. Na Tian are not considered independent because of their roles as officers of the Company. Mr. Junhu Tong is not considered independent of the Company because of his senior role at China Gold Hong Kong.

- (c) Disclose whether or not a majority of directors are independent. If a majority of directors are not independent, describe what the Board does to facilitate its exercise of independent judgment in carrying out its responsibilities.

As of the Last Practicable Date, four of eight current Board members are INEDs. If each nominee put forward in this Information Circular are elected as directors, Messrs. He, Shao and Shi and Ms. Han, being 44% of the Board, will be considered independent. Although the majority of the director nominees are not independent the Board believes that its current size and composition results in balanced representation among management and non-management directors and enables the INEDs to adequately facilitate the exercise of independent supervision over management. The Company’s Nominating and Corporate Governance Committee is currently composed of a majority of INEDs and one executive director and monitors the disclosure of conflicts of interest by the directors and ensures that no director votes on a matter in respect of which he has a material interest. The Company’s Nominating and Corporate Governance Committee will continue to examine the size and composition of the Board and recommend adjustments from time to time to ensure that the Board continues to be of a size that facilitates effective decision-making. The Company has been committed to improving the governance structure as a listed company. The Company previously established the role of “Lead Independent Director”. Mr. Yingbin Ian He was appointed as Lead INED as of November 13, 2018. The role of Lead INED was created to liaise with Chairman and Chief Executive Officer on behalf of the INEDs and advise the Board on matters

where there may be an actual or perceived conflict of interest to ensure the best possible operation of the Board in accordance with the best corporate governance practices

- (d) If a director is presently or in the last three years a director of any other issuer that is a reporting issuer (or the equivalent) in a jurisdiction or a foreign jurisdiction, identify both the director and the other issuer.

Information respecting those entities that are reporting issuers (or the equivalent) in Canada or elsewhere in which any of the nominees for election as directors also act as directors, is disclosed in the table containing information about each nominee in the section of this Information Circular entitled “Director Biographies”. Other than as disclosed therein, none of the current or proposed directors act as directors of any entities that are reporting issuers (or the equivalent) in Canada, Hong Kong or elsewhere.

- (e) Disclose whether or not the INEDs hold regularly scheduled meetings at which members of management are not in attendance. If the INEDs hold such meetings, disclose the number of meetings held since the beginning of the issuer’s most recently completed financial year. If the INEDs do not hold such meetings, describe what the Board does to facilitate open and candid discussion among its independent non-executive directors.

Although the INEDs do not hold regularly scheduled meetings, they may meet without management being present at the request of any director. The frequency of meetings as well as the nature of agenda items changes depending upon the state of the Company’s affairs and in light of opportunities or issues that the Company may face. Not all meetings of the INEDs are scheduled, a number of the informal, ad hoc meetings were held and communication among this group occurs on an ongoing basis as needs arise. The Audit Committee is comprised entirely of INEDs and held four (4) meetings in 2019. Each of the other Board committees are comprised by a majority of INEDs and held one (1) meeting of the Compensation and Benefits Committee, two (2) meetings of the Nominating and Corporate Governance Committee, and four (4) meetings of the Health, Safety and Environmental Committee in 2019. The Board may establish special committees from time to time to address transactions where there is a conflict of interest or to review a particular transaction or project. In 2019 the Board created a special committee comprised entirely of INEDs. Also, during the most recently completed financial year end the INEDs held an in-camera session after each Board meeting during which session executive and non-executive directors and members of management do not attend.

The Company has established the role of a “Lead Independent Director” in line with best practices for corporate governance where the chair is not an independent director. Mr. Yingbin Ian He was appointed Lead Independent Director as of November 13, 2018. The role of Lead Independent Director was created to enhance the Company’s corporate governance practices and provide leadership to the INEDs, liaise with Chief Executive Officer on behalf of the INEDs and advise the Board on matters where there may be an actual or perceived conflict of interest such as Chief Executive Officer’s performance evaluation to ensure the best possible operation of the Board.

- (f) Disclose whether or not the chair of the Board is an INED. If the Board has a chair or lead director who is an INED, disclose the identity of the independent chair or lead director, and describe his or her role and responsibilities. If the Board has neither a chair that is independent nor a lead director that is independent, describe what the Board does to provide leadership for its independent directors.

On March 29, 2020, the Company announced the appointment of Mr. Liangyou Jiang, the Company’s Chief Executive Officer, as Chairman of the Board. Mr. Jiang, as Chairman of the Board, will direct and lead the Company in its future efforts on operation, growth, capital market and corporate governance. In appointing Mr. Jiang as Chairman of the Board considered applicable corporate governance guidelines applicable to the Company in both Canada and Hong Kong (in particular under National Policy 58-201 – Corporate Governance Guidelines of the Canadian Securities Administrators and the Corporate Governance Code as set forth in Appendix 14 Rules

Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited). The Board concluded that it would be appropriate to have a joint Chief Executive Officer and Chairman as the Company previously established the role of a “Lead Independent Director” to ensure that the Board’s agenda will enable it to successfully carry out its duties in line with best practices for corporate governance. Mr. Yingbin Ian He was appointed Lead Independent Director as of November 13, 2018. The role of Lead Independent Director was created to enhance the Company’s corporate governance practices and provide leadership to the INEDs, liaise with the Chief Executive Officer on behalf of the INEDs and advise the Board on matters where there may be an actual or perceived conflict of interest to ensure the best possible operation of the Board in accordance with the best corporate governance practices.

- (g) Disclose the attendance record of each director for all Board meetings held since the beginning of the issuer’s most recently completed financial year.

The following table discloses the attendance record of each director at meetings of the Board for which that director was eligible to attend during the financial year ended December 31, 2019:

## 2. Board Mandate

Disclose the text of the Board’s written mandate. If the Board does not have a written mandate, describe how the Board delineates its role and responsibilities.

### CHINA GOLD INTERNATIONAL RESOURCES CORP. LTD.

#### BOARD MANDATE

The Board shall have the oversight responsibility, authority and specific duties as described below.

Under the *Business Corporations Act* (British Columbia), the directors of the Company are required to manage the Company’s business and affairs, and in doing so to act honestly and in good faith with a view to the best interests of the Company. In addition, each director must exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

The Board is responsible for supervising the conduct of the Company’s affairs and the management of its business. This includes setting long term goals and objectives for the Company, formulating the plans and

strategies necessary to achieve those objectives and supervising senior management in their implementation. Although the Board delegates the responsibility for managing the day to day affairs of the Company to senior management personnel, the Board retains a supervisory role in respect of, and ultimate responsibility for, all matters relating to the Company and its business.

The Board needs to be satisfied that the Company's senior management will manage the affairs of the Company in the best interest of its stakeholders, and that the arrangements made for the management of the Company's business and affairs are consistent with the Board's duties described above. The Board is responsible for protecting the interests of the Company's stakeholders, including shareholders, debt holders, employees, local communities and the environment. The obligations of the Board must be performed continuously, and not merely from time to time, and in times of crisis or emergency the Board may have to assume a more direct role in managing the affairs of the Company.

In discharging this responsibility, the Board oversees and monitors significant corporate plans and strategic initiatives. The Board's strategic planning process includes annual and quarterly budget reviews and approvals, and discussions with management relating to strategic and budgetary issues. At least one meeting per year is to be devoted substantially to a review of strategic plans proposed by management.

The Board reviews the principal risks inherent in the Company's business, including financial risks, through periodic reports from management of such risks. This review takes place in conjunction with the Board's review of operations and risk issues at each Board meeting, at which time the Board assesses the systems established to manage those risks. Directly and through the Audit Committee, the Board also assesses the integrity of the internal financial control and management information systems.

In addition to those matters that must, by law, be approved by the Board, the Board is required to approve annual operating and capital budgets, any material dispositions, acquisitions and investments outside of the ordinary course of business or not provided for in the approved budgets, long-term strategy, organizational development plans and the appointment of senior executive officers. Management is authorized to act, without Board approval, on all ordinary course matters relating to the Company's business.

The Board also expects management to provide the directors on a timely basis with information concerning the business and affairs of the Company, including financial and operating information and information concerning industry developments as they occur, all with a view to enabling the Board to discharge its stewardship obligations effectively. The Board expects management to efficiently implement its strategic plans for the Company, to keep the Board fully apprised of its progress in doing so and to be fully accountable to the Board in respect to all matters for which it has been assigned responsibility.

The Board has instructed management to maintain procedures to monitor and promptly address shareholder concerns and has directed and will continue to direct management to apprise the Board of any major concerns expressed by Shareholders.

Each Committee of the Board is empowered to engage external advisors as it sees fit. Any individual director is entitled to engage an outsider advisor at the expense of the Company provided such director has obtained the approval of the Nominating and Corporate Governance Committee to do so.

The roles of Chairman, Chief Executive Officer and Lead Director (if any) will be as set forth in position statements as may be established by the Board from time to time.

This Mandate will be reviewed periodically by the Board and supplemented as required from time to time.

### The Roles of the Board

### Organization of the Board

As part of the annual and quarterly meetings, the INEDs also have the opportunity to meet separate from management. Management also communicates informally with members of the Board on a regular basis and solicits the advice of Board members falling within their specific knowledge and experience. Each director shall review all Board meeting materials in advance of each meeting and shall make all reasonable efforts for attendance at all Board and Board Committee meetings.

### 3. Position Descriptions

- (a) Disclose whether or not the Board has developed written position descriptions for the chair and the chair of each Board committee. If the Board has not developed written position descriptions for the chair and/or the chair of each Board committee, briefly describe how the Board delineates the role and responsibilities of each such position.

The Board does not have written position descriptions for the Chair of the Board or of the committees. For each such position, the Chair assumes a leadership role over the relevant organization (Board or committee, as applicable) within the bounds of authority identified in the applicable Board mandate or committee charter, as applicable, including the setting of agenda items at meetings and chairing of those meetings.

- (b) Disclose whether or not the Board and CEO have developed a written position description for the CEO. If the Board and CEO have not developed such a position description, briefly describe how the Board delineates the role and responsibilities of the CEO.

The Board has developed position descriptions for both the Chief Executive Officer and the Chief Financial Officer. Such position descriptions were reviewed by the Nominating and Corporate Governance Committee and approved by the Board and are subject to annual review by the Nominating and Corporate Governance Committee.

#### **4. Orientation and Continuing Education**

- (a) Briefly describe what measures the Board takes to orient new directors regarding (i) the role of the Board, its committees and its directors; and (ii) the nature of the operation of the Company's business.

The Board takes steps to ensure that prospective directors fully understand the role of the Board and its committees and the contribution individual directors are expected to make, including, in particular, the commitment of time and energy that the Company expects of its directors. New directors receive a detailed briefing with the Chair of the Board and of its committees and a comprehensive information package, including pertinent corporate documents and a director's manual containing information on the duties, responsibilities and liabilities of directors. New directors are also briefed by management as to the status of the Company's business. When identifying candidates for election or appointment to the Board, the Nominating and Corporate Governance Committee is guided by the principles of its diversity policy adopted by the Company in 2014, setting out the diversity criteria representing genders, age, cultural communities and geographic areas. The Company recognizes and embraces the benefits of diversity of Board members. The Nominating and Corporate Governance Committee works hard to ensure that the Board has a balance of skills, experience and diversity of perspectives appropriate to the requirements of the Company's business. All Board appointments will continue to be made on a merit basis with due regard for the benefits of diversity of the Board members. Selection of candidates will be based on a range of diversity perspectives, including, but not limited to, (i) business experience; (ii) specialized skills and other experiences; (iii) race, ethnicity, international background, gender and age; (iv) applicable regulatory requirements; and (v) issues involving possible conflicts of interest. The ultimate decision will be made upon the merits and contribution that the selected candidates will bring to the Board.

No measurable objectives for achieving diversity were specifically set by the Nominating and Corporate Governance Committee at this time, other than the recruitment of the most suitable candidate for a position.

The Nominating and Corporate Governance Committee adopted a Majority Voting Policy for the election of the directors pursuant to the TSX requirements of listed companies. The policy states that should a director nominee not receive more than 50% of the votes cast in favour of his or her appointment, the director nominee is compelled to resign.

## **10. Director Term Limits and Other Mechanisms of Board Renewal**

Directors can be re-elected to the Board annually. The Board has not adopted a term limit for directors or established a retirement age for directors. ### HONG KONG LISTING RULES RELATING TO THE REPURCHASE OF SHARES

The Hong Kong Listing Rules permit companies whose primary listing is on the Hong Kong Stock Exchange to repurchase their shares on the Hong Kong Stock Exchange, Toronto Stock Exchange or other stock exchange subject to certain restrictions. ### SHARE CAPITAL

As of the Latest Practicable Date, the issued and outstanding share capital of the Company comprised of 396,413,753 fully paid up Shares. Subject to the passing of the proposed resolution for the approval of the Share Purchase Mandate and in accordance with the terms therein, and on the basis that no further Shares will be issued or repurchased prior to the Meeting, the Company will be allowed to repurchase up to a maximum of 39,641,375 Shares under the Share Repurchase Mandate, representing 10% of the number of issued Shares of the Company as of the Latest Practicable Date.

### REASONS FOR THE REPURCHASES

The Board believes that the flexibility afforded to them by the Share Repurchase Mandate would be in the best interests of the Company and the Shareholders. Repurchases pursuant to such mandate may, depending on market conditions and funding arrangements at the time, lead to an enhancement of the net assets and/or the earnings per share and will only be made when the Board believes that such actions will benefit the Company and the Shareholders as a whole. Notwithstanding the foregoing, any repurchase of the Company's securities as contemplated in the Share Repurchase Mandate will still require compliance with Canadian securities laws and, the rules and regulations of the Toronto Stock Exchange and the Hong Kong Listing Rules.

### FUNDING OF REPURCHASES

In repurchasing Shares, the Company may only apply funds legally available for such purpose in accordance with its Articles and the *Business Corporations Act* (British Columbia). It is expected that the Company will fund any repurchase of Shares from its available internal resources.

Pursuant to the *Business Corporations Act* (British Columbia), a company may not redeem or repurchase any of its share capital if it is insolvent at the time of such redemption or repurchase or, if by virtue of such redemption or repurchase, would become insolvent.

### IMPACT ON THE WORKING CAPITAL OR GEARING POSITION

However, the Board does not propose to exercise such mandate to such extent as would, in the circumstances, have a material adverse effect on the working capital requirements or the gearing levels of the Company at the time of the relevant repurchases unless the Board determines that such repurchases are, taking into account of all relevant factors, in the best interests of the Company.

## EFFECT OF THE CODE OF TAKEOVERS AND MERGERS OF HONG KONG (“TAKEOVERS CODE”)

A Shareholder’s proportionate interest in the voting rights of the Company will increase upon the Company’s exercise of its powers to repurchase the Shares pursuant to the Share Repurchase Mandate, and such increase will be treated as an acquisition for the purposes of Rule 32 of the Takeovers Code. As a result, a Shareholder or a group of Shareholders acting in concert, depending on the level of increase in his/her or their shareholding interest, could obtain or consolidate control of the Company and become obliged to make a mandatory offer in accordance with Rule 26 of the Takeovers Code.

As of the Latest Practicable Date, China National Gold, through its wholly owned subsidiary, CNGGHK, held 155,794,830 Shares, representing 39.3% of the issued Shares of the Company. On the basis that no further Shares are issued or repurchased prior to the Meeting and in the event that the Board exercises in full the power to repurchase Shares pursuant to the Share Repurchase Mandate, the shareholding interest held by China National Gold (through CNGGHK) would be increased to approximately 43.67% of the issued share capital of the Company. Such increase would give rise to an obligation to make a mandatory offer under Rule 26 of the Takeovers Code. In such an event, the Board will take all steps necessary to comply with the Hong Kong Listing Rules and Takeovers Code.

In addition, assuming that there is no issue of Shares between the Latest Practicable Date and the date of repurchase, an exercise of the Share Repurchase Mandate whether in whole or in part will not result in less than 25% of the issued share capital of the Company being held by the public, being the prescribed minimum percentage of shares required under the Hong Kong Listing Rules. Please refer to the information circular of the Company dated February 14, 2012 for details of the 2012 Contract for Purchase and Sale of Doré.

On April 26, 2013, Inner Mongolia Pacific entered into a Supplemental Contract for Purchase and Sale of Doré with China National Gold to revise the original payment terms of the 2012 Contract for Purchase and Sale of Doré, pursuant to which Inner Mongolia Pacific will deliver to China National Gold an invoice for the resulting settlement weight, and China National Gold will have 30 calendar days to effect payment. Except for such revision, no material changes have been made to the terms and conditions under the 2012 Contract for Purchase and Sale of Doré. Please refer to the information circular of the Company dated May 21, 2013 for details of the Supplemental Contract for Purchase and Sale of Doré.

On May 7, 2014, Inner Mongolia Pacific entered into the Contract for Purchase and Sale of Doré with China National Gold for the sale by Inner Mongolia Pacific and the purchase by China National Gold of gold doré bars and silver by-products produced at the CSH Mine through to December 31, 2017. On May 26, 2017, Inner Mongolia Pacific and China National Gold entered into the First Supplemental Contract for Purchase and Sale of Doré to extend the Contract for Purchase and Sale of Doré for another three-year term commencing January 1, 2018 and expiring on December 31, 2020. Please refer to the information circular of the Company dated May 31, 2017 for details of the First Supplemental Contract for Purchase and Sale of Doré. The Independent Shareholders approved the non-exempt continuing connected transactions relating to the First Supplemental Contract for Purchase and Sale of Doré and the relevant annual caps for the years ending December 31, 2020.

On March 28, 2018, Inner Mongolia Pacific entered into the Second Supplemental Contract for Purchase and Sale of Doré with China National Gold, pursuant to which both parties agreed to make certain immaterial and non-consequential amendments to the purchase terms of gold doré products by amending the reference price for gold doré from “the real-time price of Au9995 gold ingot at Shanghai Gold Exchange on the notification date less RMB0.95 per gram” to the monthly average price of the AU(T+D) contract on the Shanghai Gold Exchange less RMB1.50 per gram.

Inner Mongolia Pacific and China National Gold expects to continue the continuing connected transactions relating to the Second Supplemental Contract for Purchase and Sale of Doré after December 31, 2020 and therefore will, in accordance with the Hong Kong Listing Rules, re-comply with the provisions of Chapter 14A of the Listing Rules in relation to the continuing connected transactions relating to the Second Supplemental Contract for Purchase and Sale of Doré for the next three years from January 1, 2021 to December 31, 2023, including disclosing information thereof in this Information Circular and seeking Independent Shareholders’ approval for the non-exempt continuing connected transactions relating to the Third Supplemental Contract for Purchase and Sale of Doré (including the relevant proposed annual monetary caps).

On May 6, 2020, Inner Mongolia Pacific and China National Gold entered into the Third Supplemental Contract for Purchase and Sale of Doré to extend the term of the Contract for Purchase and Sale of Doré (as amended by the First Supplemental Contract for Purchase and Sale of Doré and the Second Supplemental Contract for the Purchase and Sale of Doré) for an additional three-year term commencing on January 1, 2021 and expiring on December 31, 2023, conditional upon the Independent Shareholders’ approval at the Meeting. The Third Supplemental Contract for Purchase and Sale of Doré is substantially on the same terms and conditions as the terms and conditions contained in the Contract for Purchase and Sale of Doré (as amended by the First Supplemental Contract for Purchase and Sale of Doré and the Second Supplemental Contract for the Purchase and Sale of Doré) entered into by China National Gold and Inner Mongolia Pacific, as described in the information circulars dated May 14, 2014 and May 31, 2017, respectively.

#### A. Third Supplemental Contract for Purchase and Sale of Doré

<b>Date:</b>	May 6, 2020
<b>Parties:</b>	(a) Inner Mongolia Pacific (as the seller); and (b) China National Gold (as the purchaser)
<b>Amendments:</b>	Extend the term of the of the Contract for Purchase and Sale of Doré (as amended by the First Supplemental Contract for Purchase and Sale of Doré and the Second Supplemental Contract for Purchase and Sale of Doré) for an additional three-year term commencing on January 1, 2021 and expiring on December 31, 2023
<b>Effect:</b>	Only the extension of term is modified, all other terms and conditions of the Contract for Purchase and Sale of Doré (as amended by the First Supplemental Contract for Purchase and Sale of Doré and the Second Supplemental Contract for Purchase and Sale of Doré) remain unchanged.
<b>Subject Matter:</b>	The sale and purchase of gold doré bars and silver by-products produced at the CSH Mine owned and operated by Inner Mongolia Pacific in Inner Mongolia, PRC.

**Term:** Subject to the approval of the Independent Shareholders at the Meeting and compliance with other requirements under the Hong Kong Listing Rules, the effective from January 1, 2021 to December 31, 2023.

**Payment Terms:** Pricing for gold doré bar products is referenced to the monthly average price of AU(T+D) contract as quoted on the Shanghai Gold Exchange less RMB1.50 per gram, multiplied by the settlement weight. The amount of RMB1.50 per gram to be deducted from the quoted price is the cost of refining gold doré bars by the purchaser plus compensation for the gold price fluctuation risk born by the purchaser with monthly average price which was determined based on and is consistent with prevailing market practice.

Pricing for silver by-products is referenced to the price of No. 2 silver at the Shanghai Huatong White Platinum & Silver Exchange at the time and date to be notified by the seller to the purchaser at least 48 hours prior to delivery of shipment of silver by-products less RMB0.5 per gram, multiplied by the settlement weight. The amount of RMB0.5 per gram to be deducted from the quoted price is the cost of refining silver by-products which was determined based on and is consistent with prevailing market practice and with historical transactions with independent third parties. Considering the current and anticipated prices of silver during the term of the Third Supplemental Contract for Purchase and Sale of Doré, the refining cost is expected to equal but not be less than the costs to be incurred by the purchaser, so there is a potential for a very small profit element which the Company considers to be de minimis.

Settlement shall take place three working days after the purchaser has received the material at the refinery unless samples are sent to an umpire analysis. The seller shall deliver an invoice to the purchaser for the resulting settlement weight, and the purchaser will have 30 calendar days to effect payment to the seller.

The Board is of the view that making references to unit price of gold and silver in the two exchanges located in Shanghai is fair and reasonable having considered that (i) the Company's principal market of gold doré bar products and silver by-products is in PRC, (ii) the Shanghai Gold Exchange and the Shanghai Huatong White Platinum & Silver Exchange are the two most influential precious metal and non-ferrous metal exchanges in PRC and (iii) it is the prevailing market and industry practice to determine price of gold and silver with reference to prices quoted on these two exchanges.

The Board considers that granting 30 days credit period to the purchaser is fair and reasonable having considered (i) contract terms have been negotiated at arm's length and (ii) the prevailing market and industry practice. It is also the industry practice to take into account the refinery cost in determining the settlement price of gold doré bars and silver by-products.

**Conditions Precedent:** The Third Supplemental Contract for Purchase and Sale of Doré is conditional on the approval of the Independent Shareholders' at the Meeting and the Company' compliance with MI 61-101 and the Hong Kong Listing Rules and applicable relevant regulations. These conditions precedent cannot be waived.

## B. Reasons for and benefits of the Third Supplemental Contract for Purchase and Sale of Doré

The reasons for and benefits of the Third Supplemental Contract for Purchase and Sale of Doré mainly include:

- (a) the Group (including Inner Mongolia Pacific) has established a long-term cooperative relationship with China National Gold since 2008 in similar transactions and Inner Mongolia Pacific has the flexibility to determine the timing of sale (as it is entitled but not obligated to designate one delivery date per week, and may cancel any shipment without penalty up to two working days prior to the relevant delivery date). Therefore, the Third Supplemental Contract for Purchase and Sale of Doré will provide the Group with a ready buyer of the gold doré bars and silver by-products produced at the CSH Mine and the Group (including Inner Mongolia Pacific) is able to execute the transactions with China National Gold with more flexibility and on more favourable terms;
- (b) China National Gold, being one of the largest gold producers in China, has good credibility in the industry. This lends assurance to the Group (including Inner Mongolia Pacific) that the risks it may face in conducting business with China National Gold would be low;
- (c) the terms and conditions of the Third Supplemental Contract for Purchase and Sale of Doré are substantially unchanged from the Contract for Purchase and Sale of Doré (as amended by the First Supplemental Contract for Purchase and Sale of Doré and the Second Supplemental Contract for Purchase and Sale of Doré). To date, the Contract for Purchase and Sale of Doré (as amended) has been well executed which further demonstrates the good cooperative relationship between Inner Mongolia Pacific and China National Gold as well as the credibility of China National Gold;
- (d) the pricing term under the Third Contract for Purchase and Sale of Doré is fair, reasonable and beneficial to Inner Mongolia Pacific; and
- (e) gold production at the CSH Mine is expected to remain stable at the current levels during the proposed term of the Third Supplemental Contract for Purchase and Sale of Doré.

## C. Proposed annual monetary caps and the basis of determination for caps under the Third Supplemental Contract for Purchase and Sale of Doré

Set out below are (1) the existing caps for the three years ending December 31, 2020 under the Second Supplemental Contract for Purchase and Sale of Doré; (2) the actual transaction amount for the two years ended December 31, 2019 and the two months ended February 29, 2020; and (3) the proposed Caps for the financial years ending December 31, 2021, 2022 and 2023.

	For the financial year ended December 31					
	2018 (RMB in thousands)	2019 (RMB in thousands)	2020 (RMB in thousands)	2021 (RMB in thousands)	2022 (RMB in thousands)	2023 (RMB in thousands)
Existing Caps	2,700,000	2,700,000	2,700,000	n/a	n/a	n/a
Actual transaction amounts	1,216,000	1,414,732	244,945 (Jan-Feb)	n/a	n/a	n/a
Utilization Rate (%)	45%	52.4%	9.07% (Jan-Feb)	n/a	n/a	n/a
Proposed Caps	n/a	n/a	n/a	2,800,000	2,800,000	2,800,000

The Caps of RMB2,800 million have been determined with reference to (i) the expected sales volume of gold doré at 5 tonnes (i.e. 5 million grams) per year, (ii) the expected sales price of gold doré at RMB400 per gram and (iii) the expected price volatility of gold doré of approximately 40%. The Company has taken into account only the sales of gold doré bars in determining the Caps without consideration of the sales of silver by-products under the Third Supplemental Contract for Purchase and Sale of Doré, as silver by-products are not material to the content of the doré and are reflected in the calculation of the price volatility of gold doré since historically a material increase in the price of gold usually results in a comparable increase in the price of silver.

The Directors (including the INEDs) consider that (i) the terms and the proposed annual monetary caps of the Third Supplemental Contract for Purchase and Sale of Doré are fair and reasonable; (ii) the Third Supplemental Contract for Purchase and Sale of Doré is on normal commercial terms and in the ordinary and usual course of business; and (iii) entering the Third Supplemental Contract for Purchase and Sale of Doré is in the interest of the Company and its Shareholders as a whole.

#### D. Internal Control Measures

In order to secure the Independent Shareholders' interests and ensure compliance with the terms and proposed annual monetary caps of the Third Supplemental Contract for Purchase and Sale of Doré, the Company has adopted the following internal control measures:

- (a) after receiving the proposed settlement price of each transaction from China National Gold, the finance department of Inner Mongolia Pacific will review the prevailing market price for gold and silver on the Shanghai Gold Exchange and Shanghai Huatong White Platinum & Silver Exchange and verify whether the proposed settlement price of each transaction is consistent with the payment terms under the Third Supplemental Contract for Purchase and Sale of Doré;
- (b) the Company's financial reporting department will monitor on a monthly and quarterly basis the reconciliation to the proposed annual monetary caps for the Third Supplemental Contract for Purchase and Sale of Doré; and
- (c) the Company's auditors will review the transactions completed under the Third Supplemental Contract for Purchase and Sale of Doré and the proposed annual monetary caps thereunder and report to the INEDs.

<b>Selection of Providers or Suppliers</b>	<p>The provider for each category of services and products will be determined by the Company through an arm's length negotiation process or an open market tendering process, depending on the number of potential providers or suppliers in the market for a particular product or service. Where prices are to be determined through arms' length negotiation, in order to ensure that the pricing is fair and reasonable and in line with market practices, the Company has adopted the following measures (the "Internal Measures"): (i) the applicable purchase department will have regular contact with market providers or suppliers (including China National Gold) to keep abreast of market developments and pricing trends; (ii) before entering into an individual purchase agreement, the Company will invite at least three providers or suppliers (including China National Gold) to submit quotations or proposals; and (iii) the Company will have the providers or suppliers and pricing of the products determined and confirmed by the collective decision of the management, comprising, as appropriate, representatives from the production department, sales department, audit department and finance department and then the proposal would be submitted to the deputy general manager or the general manager for final approval. These departments will compare the quotations or proposals received and assess them based on various factors such as pricing and other terms.</p> <p>The Company utilizes open market tendering processes to the maximum extent possible, and generally only utilizes arm's length negotiations for products and services which are not subject to the pricing requirements under the relevant PRC laws and regulations and where there are no comparable historical prices or active trading markets such that an open market tendering process would be unlikely to obtain the best possible price and terms for the required product or service. #### B. The reasons for and benefits of the Third Supplemental Products and Services Framework Agreement

The reasons for and benefits of the Third Supplemental Products and Services Framework Agreement mainly include:

- (a) the ability to leverage on China National Gold's expertise in mining related services like mining and stripping, exploration, research and development, mining design, its centralized procurement system and technological capabilities to maximize productivity;
- (b) with respect to sales of copper concentrates, in view of the unfavourable market condition for copper producers, by entering such agreement, the Company can leverage on China National Gold's strong smelting and purchase capabilities; and
- (c) with respect to leasing services, providing the Company with an alternative source of funding and potentially reducing the taxation expense of the Group since equipment leasing costs would be recorded as operating expenses as opposed to capitalized acquisitions of equipment, which will reduce the operating profits and taxes payable at the operating subsidiary level.

\*Certain figures have been subject to rounding adjustments. Accordingly, figures shown as totals in the table may not be an arithmetic aggregation of the figures preceding them.

As stated in the announcement of the Company dated July 3, 2018, the Jiama Mine's phase II expansion commenced commercial production on July 1, 2018. Jiama Mine's phase II expansion consisted of series I

and series II, each having a mineral processing capacity of 22,000 tpd. The full design capacity of ore processing at Jiama Mine will increase to 50,000 tpd from the previous capacity of 28,000 tpd once series II reaches its full design capacity. With the higher processing capacity of each series of the phase II expansion, the Jiama Mine will have a larger demand of stripping and related services and a higher production amount of copper concentrates.

The Company also reserved an approximately 40% buffer in determining the proposed annual monetary caps for the Third Supplemental Products and Services Framework Agreement. The 40% buffer is necessary because the Board expects that the sale of copper concentrates will constitute the majority part of the transactions contemplated under the Third Supplemental Products and Services Framework Agreement. The historical copper price has been volatile, and it is hard to predict the future trend of copper price. Therefore, a higher annual monetary cap with sufficient buffer is necessary considering the cyclical nature of the copper production industry and the volatility of copper price.

#### D. Internal Control Measures

In order to secure the Independent Shareholders' interests and ensure compliance with the terms and proposed Caps for the Third Supplemental Products and Services Framework Agreement, the Company has adopted certain internal control measures.

All specific contracts under the Third Supplemental Products and Services Framework Agreement are provided from the mine sites to the Company's corporate office through its record management system for review by the legal team, finance or other relevant departments. After the contracts are approved by the management, all contracts above a pre-authorized value are provided to the Company's INEDs to review and approve.

The Company's legal department has been and will continue to be responsible for maintaining a record of all contracts and monitoring whether the pricing terms of the transactions conducted are consistent with the Third Supplemental Products and Services Framework Agreement and whether the relevant annual monetary caps have been exceeded. On a quarterly basis, the legal department is responsible for verifying the aggregated amount of the transactions directly with the finance department of the mine sites. The report is then provided to the Company's external independent auditors, who will review all contracts from the mine sites to verify (among other things) whether the pricing terms of the Third Supplemental Products and Services Framework Agreement have been adhered to and whether the relevant annual monetary caps have been exceeded. The auditors' report on the Continuing Connected Transactions will then be provided to the Company's INEDs for review.

The Group has internal control measures in place for choosing between China National Gold and other independent third-party buyers for the Group's copper concentrates. Under such measures, the Group will select the buyer of the Group's products including the copper concentrates by way of tender. In particular, before entering into specific purchase and sales contract with the potential buyer, at least 3 quotations from different parties (including China National Gold) will be obtained by the Group and the Group will assess each potential buyer based on the following criteria:

- (a) Pricing terms
- (b) Payment terms
- (c) Payment ability (with the assessment on historical payment record of potential buyers)
- (d) Volume of the proposed transactions (buyers with the ability to take up a large volume of the Group's products will be preferred)

The screening process, rationale and result on the potential buyers will be documented and submitted to the senior management of the Group for review and final approval before entering into specific purchase and sales contract with the successful buyers.

After considering the above including the pricing basis and the internal control measures mentioned above, the Directors (including the INEDs) are of the view that the transactions contemplated under the Products and Services Framework Agreement, as amended, will continue to be conducted on normal commercial terms or better and are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

The Directors (including the INEDs) consider that (i) the terms and proposed annual monetary caps of the Third Supplemental Products and Service Framework Agreement are fair and reasonable; (ii) the Third Supplemental Products and Services Framework Agreement are on normal commercial terms and are in the ordinary and usual course of business of the Group; and (iii) entering into the Third Supplemental Products and Services Framework Agreement are in the interest of the Company and its Shareholders as a whole.

## REGULATORY MATTERS

### Canadian Securities Laws

Pursuant to Multilateral Instrument 61-101 – Protection of Minority Security Holders in Special Transactions (“MI 61-101”), the Continuing Connected Transactions along with their respective Caps are considered “related party transactions” because CNGGHK has direct ownership and control over the securities of the Company carrying more than 10% of the voting rights attached to all of Company’s outstanding voting securities. Each of the Continuing Connected Transaction Contracts and their respective Caps is therefore a “related party transaction” pursuant to MI 61-101.

MI 61-101 provides that an issuer shall not carry out a related party transaction unless the issuer has obtained the approval of the shareholders excluding the shareholder who is an “interested party” or a related party of an interested party in accordance with MI 61-101. In accordance with the foregoing requirements, the Company seeks Independent Shareholders’ approval in connection with the Continuing Connected Transactions and their respective Caps. MI 61-101 also prescribes certain valuation requirements for related party transactions which are not applicable to the Continuing Connected Transactions.

### The Hong Kong Listing Rules

#### Discloseable Transaction

As one of the applicable percentage ratios (as defined under Rule 14.07 of the Hong Kong Listing Rules) in respect of the leasing services under the Third Supplemental Products and Services Framework Agreement exceeds 5% but is less than 25%, those leasing services constitute a discloseable transaction for the Company and are subject to the reporting and announcement requirements under Chapter 14 of the Hong Kong Listing Rules.

Since the remaining transactions contemplated under the Third Supplemental Contract for the Purchase and Sale of Doré and the Third Supplemental Products and Services Framework Agreement are of a revenue nature in the ordinary and usual course of business of the Group, they are not subject to the reporting, announcement and Shareholders’ approval requirements under Chapter 14 of the Hong Kong Listing Rules.

#### Continuing Connected Transactions

As at the Latest Practicable Date, China National Gold held approximately 39.3% of the issued Shares of the Company through CNGGHK, its wholly-owned subsidiary, and thus is the ultimate controlling Shareholder of the Company. Accordingly, China National Gold is a connected person of the Company as defined under the Hong Kong Listing Rules.

The transactions contemplated under the Continuing Connected Transactions constitute continuing connected transactions for the Company under Chapter 14A of the Hong Kong Listing Rules. As one or more applicable percentage ratios (as defined under Rule 14.07 of the Hong Kong Listing Rules) in respect

of each of the Continuing Connected Transactions exceed 5%, the Continuing Connected Transactions are subject to reporting, announcement and Independent Shareholders' approval requirements under Chapter 14A of the Hong Kong Listing Rules.

Each of Mr. Liangyou Jiang (Chairman, chief executive officer and executive Director), Mr. Shiliang Guan (executive Director), Mr. Yongqing Teng and Ms. Fuzhan Kang (non-executive Directors) are considered to have a material interest in the Continuing Connected Transactions by virtue of their being officers or affiliates of China National Gold. All of them abstained from voting on the relevant resolutions at the Board meeting to approve the Continuing Connected Transactions. All the remaining Directors have confirmed at such Board meeting that they have no material interest in the Continuing Connected Transactions.

## FINANCIAL EFFECTS OF THE CONTINUING CONNECTED TRANSACTIONS

The Company does not anticipate that the Continuing Connected Transactions will have any material financial effects. Each of the Continuing Connected Transactions amounts to a renewal and/or amendment of existing connected transactions on virtually identical terms as are currently in force. Given the past performance and the benefits realized by the Company under the existing terms of the Continuing Connected Transactions, the Directors consider that the Continuing Connected Transactions constitute transactions in the ordinary course of business of the Group and will not have a significant impact on the financial results of the Company that is different from the financial effects the Company has realized in the past.

The Third Supplemental Contract for Purchase and Sale of Doré will continue the current agreement whereby China National Gold purchases gold doré produced at the CSH Mine. Under the Third Supplemental Contract for Purchase and Sale of Doré, the Company will have a ready buyer of the gold doré and silver by-products and will be able to execute the transactions with China National Gold with more flexibility and on more favourable terms.

The Third Supplemental Products and Services Framework Agreement will continue the current agreement whereby China National Gold provides products and services for the Jiama Mine and with respect to sales of copper concentrates from the Jiama Mine, the Company can leverage on China National Gold's strong smelting and purchase capabilities.

## IMPACT ON THE GEARING POSITION

The Directors (including the INEDs) do not expect that entering into of each of the Continuing Connected Transactions would have any adverse financial impact on the earnings, assets and liabilities or its gearing levels, as compared with the position disclosed in the Company's audited financial statements for the year ended December 31, 2019 (the most recent published audited financial statements).

China National Gold is one of the largest gold producer in China by gold output, according to the China Gold Association.

#### **b. The Third Supplemental Products and Services Framework Agreement**

On 26 April 2013, the Company entered into the Products and Services Framework Agreement with China National Gold, pursuant to which China National Gold agreed to provide (i) stripping and related services; (ii) mining research, development and design; (iii) environmental, safety and occupational health management; (iv) tendering agency service; (v) office lease; and (vi) auxiliary equipment to the Company effective until 18 June 2016.

On 29 May 2015, the Company entered into the First Supplemental Products and Services Framework Agreement with China National Gold to (i) revise the expiry date of the Products and Services Framework Agreement to 31 December 2017 and (ii) include the sales and purchase transaction of copper concentrates into the product and service scope of the Products and Services Framework Agreement.

On 26 May 2017, the Company entered into the Second Supplemental Products and Services Framework Agreement with China National Gold, pursuant to which both parties agreed to (i) include the provision of the leasing services into the product and service scope of the Products and Services Framework Agreement; and (ii) extend the expiry date of the Products and Services Framework Agreement to 31 December 2020.

According to the Board Letter, we understand that the entering into the Third Supplemental Products and Services Framework Agreement would allow the Group to continue relying on (a) the professional mining related services like mining and stripping, exploration, research and development, mining design, centralised procurement system and technological capacities provided by China National Gold; (b) the strong smelting and purchase capabilities of China National Gold; and (c) the leasing services provided by Zhongxin International Financial Leasing (Shenzhen) Co. Ltd. (the “**Zhongxin International**”) so as to continue to provide the Group an alternative source of funding and potentially reduce the taxation expense of the Group in future.

In accordance to our online research on the China National Gold’s website, China National Gold ranks No.1 in gold resource reserve, mineral gold output, refined gold output, gold investment products market share and gold dressing and processing technology in the PRC. China National Gold also owns the only national-level gold research institute, national technology industry demonstration base, national-level enterprise technology center and post-doctoral work-station in the PRC. As such, we consider that it would be in the best interest of the Group to continue relying on the professional mining related services (i.e. mining and stripping, exploration, research and development) provided by China National Gold going forward in order to maximise the productivity of the Group.

Further to our online research on the China National Gold’s website, we also noted that China National Gold and its subsidiaries (a) have developed strong domestic and overseas markets; (b) specialise in import and export of non-ferrous metals, such as copper, aluminum, lead and zinc, and (c) specialise in sales of mineral products and steel. We also noted that China National Gold has formed strategic alliances with more than 20 large-scale domestic machinery manufacturers and maintains a good business relationship with more than 40 large-scale enterprises and banks. Moreover, referring to the information circular of the Company dated 21 May 2013, we noted that China National Gold has been purchasing copper concentrate from the Group since 2013. As such, we consider that it would be in the best interest of the Group to continue to rely on the strong purchase capabilities of copper concentrates of China National Gold going forward.

With reference to the information circular issued by the Company on 31 May 2017, we understood that the leasing services contemplated under the Products and Services Framework Agreement (which subsequently supplemented by the First Supplemental Products and

Services Framework Agreement and the Second Supplemental Products and Services Framework Agreement) was provided by Zhongxin International, the shares of which are 80% owned by China National Gold. Zhongxin International is principally engaged in the provision of finance lease, operating lease, commercial factoring services etc.. We also concur with the Directors' view that the leasing services, in particular the finance lease services rendered by Zhongxin International, is able to continue to provide the Group an alternative source of funding and potentially reducing the taxation expense of the Group in future. We believe that using the financial lease services instead of directly purchasing the target assets helps the Group to maintain a steady cash flow profile given the cash outflow related to financial leasing are usually spread out over several years, hence saving the burden of one-time significant cash payment for purchase. Such arrangement also releases capital for the Group to fund its other capital needs or to save money for a better capital investment decision in future. In addition, value added tax invoices for the interest payments under certain types of finance lease arrangement such as direct financing lease can be used to deduct value added tax under the relevant PRC domestic bonded zone regulations. Furthermore, according to the Annual Report 2019, the Group's non-current assets were amounted to approximately US\$2,677.7 million as at 31 December 2019 of which were mainly composed of property, plant and equipment (approximately 63.8% of the total non-current assets). Given the huge amount of fixed assets owned by the Group, we are of the view that the sale and leaseback services under the leasing services is able to provide the Group an alternative and quick source of funding by offloading its assets to Zhongxin International.

Based on the foregoing and the fact that other than the further extension of the expiry date of the Products and Services Framework Agreement to 31 December 2023, other terms and conditions under the Products and Services Framework Agreement, the First Supplemental Products and Services Framework Agreement and the Second Supplemental Products and Services Framework Agreement, which were approved by the Independent Shareholders in the 2013 AGM, the 2015 AGM and the 2017 AGM respectively, remain unchanged, we are therefore of the view that the Third Supplemental Products and Services Framework Agreement was entered into within the ordinary and usual course of business of the Group and is in the interests of the Company and the Shareholders as a whole.

c. The Third Supplemental Contract for Purchase and Sale of Doré

On 7 May 2014, Inner Mongolia Pacific and China National Gold entered into the Contract for Purchase and Sale of Doré, pursuant to which China National Gold agreed to purchase and Inner Mongolia Pacific agreed to sell gold doré bars and silver by-products produced at the CSH Mine for the three years ended 31 December 2017.

On 26 May 2017, Inner Mongolia Pacific entered into the First Supplemental Contract for Purchase and Sale of Doré with China National Gold, pursuant to which both parties agreed to (i) amend the notification time of delivery of shipment from "no less than three working days" to "no less than 48 hours", (ii) amend the reference price for gold doré bar products from the "daily average price" to the "real-time price" of Au9995 gold ingot at the Shanghai Gold Exchange on notification date less RMB0.95 per gram and (iii) extend the expiry date of the Contract for Purchase and Sale of Doré to 31 December 2020.

On 28 March 2018, Inner Mongolia Pacific entered into the Second Supplemental Contract for Purchase and Sale of Doré with China National Gold, pursuant to which both parties agreed to amend the reference for gold doré bar products from "the real-time price of Au9995 gold ingot at the Shanghai Gold Exchange on the notification date less RMB0.95 per gram" to "the monthly

average price of the AU(T+D) contract on the Shanghai Gold Exchange less RMB1.50 per gram, multiplied by the settlement weight”.

As set out in the Board Letter, in light of the expected stable gold production of CSH Mine going forward, the Directors anticipate that the transactions contemplated under Contract for Purchase and Sale of Doré will allow the Group to continue to rely on the sales of gold doré bars to China National Gold by the further extension to 31 December 2023.

According to the Annual Report 2017, the Annual Report 2018 and the Annual Report 2019, the production of gold at the CSH Mine was 186,957 ounces, 144,896 ounces and 146,805 ounces for each of the three years ended 31 December 2019. Also, as advised by the management of the Company, it is expected the gold production at CSH Mine will remain at similar level in the upcoming years. The stable output for CSH Mine shows a continuous need for Inner Mongolia Pacific to sell the gold doré to China National Gold through the Contract for Purchase and Sale of Doré beyond its current expiry date.

Based on the foregoing and the fact that other than the further extension of the expiry date of the Contract for Purchase and Sale of Doré to 31 December 2023, other terms and conditions under the Contract for Purchase and Sale of Doré, the First Supplemental Contract for Purchase and Sale of Doré (which were approved by the Independent Shareholders in the 2014 AGM and the 2017 AGM respectively) and the Second Supplemental Contract for Purchase and Sale of Doré remain unchanged, we are therefore of the view that the Third Supplemental Contract for Purchase and Sale of Doré was entered into within the ordinary and usual course of business of the Group and is in the interests of the Company and the Shareholders as a whole.

## **II. Principal terms of the Third Supplemental Products and Services Framework Agreement and the Third Supplemental Contract for Purchase and Sale of Doré**

### *a. The Third Supplemental Products and Services Framework Agreement*

According to the Board Letter, except for the further extension of the expiry date to 31 December 2023, no material changes have been made to the terms and conditions under the Products and Services Framework Agreement (which subsequently supplemented by the First Supplemental Products and Services Framework Agreement and the Second Supplemental Products and Services Framework Agreement) under the Third Supplemental Products and Services Framework Agreement. Given the expiry date of the Products and Services Framework Agreement is 31 December 2020, the term of the Third Supplemental Products and Services Framework Agreement, which intends to extend the Products and Services Framework Agreement to 31 December 2023, does not exceed 3 years. Please refer to the Board Letter for details of the terms of the Third Supplemental Products and Services Framework Agreement.

We understood that the pricing principles for connected transactions set out under the Third Supplemental Products and Services Framework Agreement are the same as that of the Products and Services Framework Agreement (which subsequently supplemented by the First Supplemental Products and Services Framework Agreement and the Second Supplemental Products and Services Framework Agreement), which are as follows:

- (i) prices as may be stipulated by the PRC Government or its local bureaus (if any); if there are no such stipulated prices;
- (ii) prices as may be determined by offering of tender, if an active market exists; if there is no active market;

- (iii) prices as with reference to identical or similar transacted prices as observed from the market; otherwise
- (iv) an agreed price consisting of the actual costs plus a reasonable profit margin.

According to the Third Products and Services Framework Agreement, China National Gold represented and warranted that, the products and services offered by China National Gold to the Company will not be less favourable than those it offered to independent third parties.

In assessing the effectiveness of internal control imposed by the Group in choosing between China National Gold and other independent third party for the products and services stipulated in the Third Supplemental Products and Services Framework Agreement, we have discussed with the management of the Company and we understand that the relevant subsidiary of the Group will select the successful suppliers and service providers by obtaining at least 3 quotations from different parties (including China National Gold). The screening process, rationale and result on the potential parties will be documented and submitted to the senior management of the relevant subsidiary of the Group for review and final approval before entering into specific contract with the successful parties. We have also reviewed the quotations provided by other independent third parties obtained by the Group for transactions in relation to product / services category that occurred during the term of the Second Supplemental Products and Services Framework Agreement and we noted that the major terms offered by China National Gold to the Group were better than those offered by independent third parties to the Group previously and hence we are of the view that the above mentioned internal control is properly in place.

Having considered that (i) China National Gold represented and warranted that the terms and services that it offered to the Company will not be less favourable than those it offered to independent third parties; and (ii) the sound internal mechanism in the selection of suppliers and services providers of the Group, we are of the opinion that the terms of the Third Supplemental Products and Services Framework Agreement are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

*b. The Third Supplemental Contract for Purchase and Sale of Doré*

According to the Board Letter, except for the extension of the expiry date of the Contract for Purchase and Sale of Doré to 31 December 2023, no material changes have been made to the terms and conditions under the Contract for Purchase and Sale of Doré (which subsequently supplemented by the First Supplemental Contract for Purchase and Sale of Doré and the Second Supplemental Contract for Purchase and Sale of Doré) under the Third Supplemental Contract for Purchase and Sale of Doré. Given the expiry date of the Contract for Purchase and Sale of Doré is 31 December 2020, the term of Third Supplemental Contract for Purchase and Sale of Doré, which intends to further extend the Contract for Purchase and Sale of Doré to 31 December 2023, does not exceed 3 years. Please refer to the Board Letter for details of the terms of the Third Supplemental Contract for Purchase and Sale of Doré.

Under the Contract for Purchase and Sale of Doré (which subsequently supplemented by the First Supplemental Contract for Purchase and Sale of Doré and Second Supplemental Contract for Purchase and Sale of Doré), the pricing for gold doré bar products is referenced to the monthly average price of AU(T+D) contract price as quoted on the Shanghai Gold Exchange less RMB1.5 per gram, which represents the cost of refining of gold doré bars and the compensation for the gold price fluctuation risk born by the purchaser, and multiplied by the settlement weight. On the other hand, the pricing for silver by-products is referenced to the daily

average price of No. 2 silver at the Shanghai Huatong Platinum & Silver Exchange on the notification date to be notified by the seller to the purchaser no less than 48 hours prior to delivery of shipment of silver by-products less RMB0.5 per gram, which represent the cost of refining of silver by-products by the purchaser, multiplied by the settlement weight.

According to the Second Supplemental Contract for Purchase and Sale of Doré, we noted that both parties agreed to amend the pricing reference for gold doré bar products from “the real-time price of Au9995 gold ingot at the Shanghai Gold Exchange on the notification date less RMB0.95 per gram” (the “**2017 Pricing Term**”) to “the monthly average price of AU(T+D) contract on the Shanghai Gold Exchange less RMB1.50 per gram” (the “**2018 Pricing Term**”). As mentioned in the Board Letter and we agree that the adoption of monthly average price of AU(T+D) could enable the Group to reduce its exposure to daily commodity price fluctuations. As further advised by the management of the Company, the transaction amount of the relevant trading products that referred to AU(T+D) contract price is higher than those referred to AU9995 real-time price. Therefore, AU(T+D) contract price is more representative than AU9995 real-time price given its relatively higher transaction amount. With regards to determination of the selling prices of gold doré bars based the price quotation on the Shanghai Gold Exchange, we have discussed with the Company and noted that the Shanghai Gold Exchange is the most influential precious metal exchange in the PRC, and it is the industry practice to determine the price of gold with reference to the Shanghai Gold Exchange. Furthermore, based on our research, we note that the Shanghai Gold Exchange is approved by the State Council of the PRC to organise the gold transactions with the principle of openness, fairness, justness and honesty and the gold prices published there are always referred by the domestic gold player to price their products. Also, we were advised by the Company that sale of gold doré bars is for domestic only, we thus concur with the Directors that it is reasonable that the selling price of gold doré bars is referenced to the local exchange in the PRC. In addition, we reviewed historical transaction amount published on the official website of the Shanghai Gold Exchange and understand that the daily transaction amount of the relevant trading products of AU(T+D) contract is substantially higher than those referred to AU9995. As a result, we are of the view that it is acceptable of the Company to make reference on AU(T+D) contract price to determine selling price of gold doré products. Regarding the basis of RMB1.50 per gram deduction from the gold reference price in determining the selling price of gold doré bar products from Inner Mongolia Pacific to China National Gold, we were advised by the management of the Company that such amount consists of two components including the cost of refining of gold doré bars and the compensation fee for the gold price fluctuation risk born by the purchaser. In assessing the fairness and reasonableness of the amount of deduction from the gold reference price in determining the selling price of gold doré bar products from Inner Mongolia Pacific to China National Gold, we have been provided with independent third party’s quotation and we noted the deduction amount under the 2018 Pricing Term is no less favorable than the independent third party’s quotation. We are of the view that the deduction amount under the 2018 Pricing Term is in line with market practice.

We also understood that the pricing for silver by-products under the Third Supplemental Contract for Purchase and Sale of Doré is the same as that of the Contract for Purchase and Sale of Doré (which subsequently supplemented by the First Supplemental Contract for Purchase and Sale of Doré and the Second Supplemental Contract for Purchase and Sale of Doré). Nevertheless, we were advised by the management of the Company that in light of the increase in the depth of mining and corresponding change in the composition of ore in the CSH Mine, the Group expects that no silver by-products will be produced or sold from the CSH Mine going forward and therefore the pricing of the silver by-products in the Third Supplemental Contract for Purchase and Sale of Doré is for reference only. We concur with the management of the Company in this regard as we noted from the 2018 Annual Report and 2019 Annual Report

that (i) the revenue contributed by the CSH Mine was generated from sale of gold doré for the three years ended 31 December 2019, (ii) only gold resources and reserves were reported for CSH Mine under NI 43-101 and (iii) the Group anticipates that CSH Mine will produce gold doré only in the next decade based on the latest production schedule.

Having considered the above, we are of the opinion that the terms of the Third Supplemental Contract for Purchase and Sale of Doré are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

### III. Proposed Annual Caps

#### a. The P&S Annual Caps

Set out below are (1) the existing annual caps for the three years ending 31 December 2020 under the Second Supplemental Products and Services Framework Agreement; (2) the actual transaction amount for the two years ended 31 December 2019 and for the two months ended 29 February 2020; and (3) the P&S Annual Caps:

				6,300	6,300*	6,300*

\*Certain figures have been subject to rounding adjustments. Accordingly, figures shown as totals in above table may not be an arithmetic aggregation of the figures preceding them.

As set out in above table, other than (i) stripping and related services; (ii) auxiliary equipment; (iii) sales of copper concentrates; and (iv) the leasing services, the proposed transaction amounts for types of products and services assumed by the Company in determining the P&S Annual Caps are either less than or similar to the historical transaction amount in the prior years. The Company also established an approximately 40% buffer in determining the P&S Annual Caps.

In order to assess the reasonableness of the increase in the proposed transaction amounts of (i) stripping and related services and (ii) auxiliary equipment under the Third Supplemental Products and Services Framework Agreement as compared to relevant historical actual transaction amount, we have enquired the management of the Company and are advised that the Company expects that the scale of production of the Jiama Mine will be expanded after its phase II reached its commercial production from 1 July 2018, and such expansion will increase the Company's demand on stripping and related services as well as auxiliary equipment. Hence, the Group expects to have more business dealings regarding the provision of concentrator maintenance services and related equipment and materials with China National Gold for the three years ending 31 December 2023.

In assessing the reasonableness of the significant increase in the proposed transaction amount of the sales of copper concentrates from the Group to China National Gold under the Third Supplemental Products and Services Framework Agreement as compared to relevant historical actual transaction amount, we have obtained (i) the actual sales amount of copper concentrates broken down by metals types under the Second Supplemental Products and Services Framework Agreement for the two years ended 31 December 2019; and (ii) the basis used by

the Group to determine the proposed annual caps for copper concentrates sales under the Third Supplemental Products and Services Framework Agreement of RMB 4,102 million for each of the three years ending 31 December 2023, of which are set out below:

	2018	2019	2021-2023
<i>Annual sales quantities</i>			
Gold (g)	651,772	385,889	2,400,000
Silver (g)	27,435,752	20,508,294	120,000,000
Copper (tonne)	17,428	11,990	72,000
<i>Price per unit (RMB)</i>			
Gold (per g)	223.7	248.6	328.0
Silver (per g)	2.3	2.4	3.5
Copper (per tonne)	35,639.8	33,561.8	40,293.0
<i>Amount (RMB million)</i>			
Gold	146	96	787
Silver	63	50	414
Copper	621	402	2,901
Total	830	548	4,102

As illustrated in the above table, we noted the major underlying metals in determining the expected annual transaction amount of copper concentrates under the Third Supplemental Products and Services Framework Agreement was copper.

As discussed with the management of the Company, we are given to understand that the forecasted annual sales quantities of copper of 72,000 tonnes for each of the three years ending 31 December 2023 has taken into account of the expected copper production of the Group in the upcoming years. We noted from the Annual Report 2019 that the Group anticipates the production of copper would be approximately 145 million pounds (equivalent to approximately 65,800 tonnes) in 2020. As advised by the management of the Company, the Company sets a higher forecasted annual sales quantities of copper of 72,000 tonnes for each of the three years ending 31 December 2023 than the expected copper production of approximately 65,800 tonnes in 2020 as the Company expected the Jiama Mine will commence producing higher grade ores after completion of (i) the development of its underground mine by end of 2021 and (ii) the technical improvement plans in 2020 which will increase its equipment efficiency and mineral recovery rate. Given abovementioned, it is justifiable to use 72,000 tonnes as the forecasted annual sales quantities of copper for each of the three years ending 31 December 2023 under the Third Supplemental Products and Services Framework Agreement.

As illustrated in the above table, we also noted that the forecasted price of copper for each of the three year ending 31 December 2023 used to determine the expected annual transaction amount of copper concentrates under the Third Supplemental Products and Services Framework Agreement is approximately RMB40,293 per tonne. In assessing the fairness and reasonableness of the expected price of copper used by the Group to determine the expected annual transaction amount of copper concentrates under the Third Supplemental Products and Services Framework Agreement, we have made reference to the recent Shanghai Changjiang Copper Spot price from 1 January 2020 to 10 April 2020 and we noted that the average daily Shanghai Changjiang Copper Spot price quoted from the Bloomberg for the same period was approximately RMB44,464 per tonne, which is higher than the forecasted price of copper for each of the three year ending 31 December 2023 used by the Group to determine the expected annual transaction amount of copper concentrates under the Third Supplemental Products and

Services Framework Agreement of RMB40,293 per tonne. Therefore, the forecasted price of copper for each of the three years ending 31 December 2023 used by the Group to determine the expected annual transaction amount of copper concentrates under the Third Supplemental Products and Services Framework Agreement is considered as conservative.

Based on the foregoing analysis, we are of the view that the significant increase in the proposed transaction amount of the sales of copper concentrates from the Group to China National Gold under the Third Supplemental Products and Services Framework Agreement is justifiable and is fair and reasonable so far as the Independent Shareholders are concerned, and in the interests of the Company and Shareholders as a whole.

In assessing the reasonableness of proposed transaction amount of leasing services under the Third Supplemental Products and Services Framework Agreement of RMB 200.0 million in light of the fact that no relevant transaction amount was incurred for the two years ended 31 December 2019, we have enquired and discussed with the management of the Company, and have been advised that the Company had chosen such services provided by other independent third parties in Tibet at a relatively better preferential interest rate than Zhongxin International, and hence, there was no transaction amount incurred for the two years ended 31 December 2019. The management of the Company further explained that the leasing services under the Third Supplemental Products and Services Framework Agreement is a back-up financing alternative of the Group, and the Company intends to maximise the Group's flexibility in the alternative funding source by using the sale and leaseback services provided by Zhongxin International. In light of the large amount of non-current assets owned by the Group, in particular approximately US\$2,677.75 million (equivalent to approximately RMB18,823.78 million) as at 31 December 2019 according to the Annual Report 2019, of which is much higher than the proposed transaction amount of leasing services of RMB200.0 million, we are of the view that the proposed transaction amount of leasing services under the Third Supplemental Products and Services Framework Agreement is conservative.

In assessing the reasonableness of the 40% buffer rate imposed on the proposed aggregate transaction amount to determine the P&S Annual Caps, we have discussed with the management of the Company and we are given to understand that such buffer was set for the potential fluctuation of copper price in future. Given the proposed transaction amount of copper concentrates contributed the most in the total proposed transaction amount under the Third Supplemental Products and Services Framework Agreement, we concur with the Directors' view in this regard. Set out below the historical Shanghai Changjiang Copper Spot price quoted from the Bloomberg from 1 January 2017 to 10 April 2020 (the "**Copper Price Reference Period**").

Source: Bloomberg

As shown in the chart above, the highest and lowest copper price in the Copper Price Reference Period was RMB56,080 per tonne and RMB36,570 per tonne respectively or approximately 53.3% difference. Given the volatility of the historical copper price and the unforeseeable nature of copper price in future, we therefore considered the incorporation of 40% buffer is fair and reasonable in determining the P&S Annual Caps.

Last but not least, we noted that the utilisation rate of the existing annual caps for the three years ending 31 December 2020 under the Second Supplemental Products and Services Framework Agreement was relatively low. In particular, the expected annual sales of copper concentrates for each of the three years ending 31 December 2023 of approximately RMB4,102 million is significantly higher than actual annual sales of copper concentrates to China National Gold of approximately RMB830 million and RMB548 million for the year ended 31 December 2018 and 2019 respectively. We have discussed with the management of the Company and were advised that such low utilisation was mainly due to that the Group conducted the relevant transactions with independent third-party which offered same as or a relatively more favourable term than that offered by China National Gold in the same years. In spite of the above, we agree with the view of the management of the Company to set the P&S Annual Caps based on (i) the aggregate of the highest transaction amount of each product and service item under the Third Supplemental Products and Services Framework Agreement and (ii) the 40% buffer in order to cater for the possible circumstance that the terms to be offered by China National Gold might be better than that offered by the independent third-party throughout the term of the Third Supplemental Products and Services Framework Agreement so the Group can maximise its profitability under this scenario.

Based on the foregoing analysis, we are of the view that the P&S Annual Caps are fair and reasonable so far as the Independent Shareholders are concerned, and in the interests of the Company and Shareholders as a whole.

*b. The Gold Doré Annual Caps*

Set out below are (i) the existing annual caps for the three years ending 31 December 2020 under the First Supplemental Contract for Purchase and Sale of Doré and the Second Supplemental Contract for Purchase and Sale of Doré; (ii) the actual transaction amount for the two years ended 31 December 2019 and the two months ended 29 February 2020; and (iii) the Gold Doré Annual Caps:

	2018	2019	2020	2021	2022	2023
The existing annual caps (RMB million)	2,700	2,700	2,700	-	-	-
The actual transaction amounts (RMB million)	1,216	1,415	245 (Jan – Feb)	-	-	-
Utilisation rate (%)	45.0	52.4	9.1 (Jan – Feb)	-	-	-

The Gold Doré Annual Caps (RMB in million)	N/A	N/A	N/A	2,800	2,800	2,800
---	-----	-----	-----	-------	-------	-------

As discussed with the management of the Company, the annual caps of RMB2,800 million under the Third Supplemental Contract for Purchase and Sale of Doré have been determined with reference to (i) the expected sales volume of gold doré at 5 million grams for each of the three years ending 31 December 2023, (ii) the expected sales price of gold doré at RMB400 per gram, and (iii) the expected price volatility of gold doré of approximately 40%. As further advised by the management of the Company, in light of the increase in the depth of mining and corresponding change in the composition of ore in the CSH Mine, the Group expects that no silver by-products will be produced or sold from the CSH Mine going forward and therefore the Company has prudently taken into account only sale of gold doré bars in determining the annual caps without consideration of sale of silver by-products under the Third Supplemental Contract for Purchase and Sale of Doré.

In assessing the fairness and reasonableness of the Gold Doré Annual Caps, we have considered the followings:

- (1) As referred to an production schedule of CSH Mine as set out in the management's discussion and analysis in the Annual Report 2019, the Group anticipates the gold doré production from CSH Mine for 2021, 2022 and 2023 to be approximately 4.8 million grams, 4.6 million grams and 4.9 million grams, respectively, with an average expected gold production of approximately 4.8 million grams. As such, the assumption of expected sales volume of gold doré at 5 million grams per year used by the Group to determine the Gold Doré Annual Caps is therefore close to the expected gold doré production at the CSH Mine. Given abovementioned, we are of the view that the expected sales volume of gold doré at 5 million grams per year used by the Group to determine the Gold Doré Annual Caps is fair and reasonable in this regard.

In assessing the fairness and reasonableness of the expected price of gold doré used by the Group to determine the Gold Doré Annual Caps, we have made reference to market price of gold future contracts published in the website of CME Group, which is a world's leading and most diverse derivatives marketplace offer futures contracts and options of all major asset classes including agricultural products, currencies, energy, interest rates, metals, and stock indexes through its CME Globex trading platforms. We noted that market price of the gold future contracts with expiration date of December 2021, December 2022 and December 2023 ranges from US\$1,460.3 per ounce (equivalent to approximately RMB363.7 per gram) to US\$1,757.9 per ounce (equivalent to approximately RMB437.8 per gram) from 1 January 2020 to 10 April 2020. Hence, the forecasted price of gold doré of RMB400 per gram for each of the three years ending 31 December 2023 used by the Group to determine the Gold Doré Annual Caps is within the expected market price range of the gold future contracts which expired in Dec 2021, Dec 2022 and Dec 2023 and therefore is considered as reasonable.

- (2) In assessing the reasonableness of the 40% buffer rate imposed on the proposed transaction amount to determine the Gold Doré Annual Caps, we have discussed with the management of the Company and we are given to understand that such buffer was set for the potential fluctuation of gold price in future. Accordingly, we made reference to the daily AU(T+D) contract price quoted from the Shanghai Gold Exchange from 1 January 2017 to 10 April 2020 ("**Gold Price Reference Period**") as presented below:

*Source: official website of the Shanghai Gold Exchange*

As shown in the chart above extracted from the website of the Shanghai Gold Exchange, the highest and the lowest gold price in the Gold Price Reference Period was RMB381.0 per gram and RMB261.0 per gram respectively or approximately 46.0% difference. Given the volatility of the historical gold price and the unforeseeable nature of copper price in future, we therefore considered the incorporation of 40% buffer in determining the Gold Doré Annual Caps is therefore fair and reasonable so far as the Independent Shareholders are concerned, and in the interests of the Company and Shareholders as a whole.
