Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

1. NATURE AND CONTINUANCE OF OPERATIONS

Galaxy Digital Holdings LP ("GDH LP" and together with its consolidated subsidiaries, the "Partnership") is a Cayman Islands exempted limited partnership formed on May 11, 2018. The Partnership's principal address is 300 Vesey Street, New York, New York, 10282.

GDH LP, an operating partnership, is managed by the board of managers and officers of the general partner, Galaxy Digital Holdings GP LLC ("GDH GP" or the "General Partner"). Galaxy Digital Holdings Ltd. ("GDH Ltd." or "Company") has a minority investment in the operating partnership and is listed on the Toronto Stock Exchange ("TSX") under the ticker "GLXY". In these financial statements, a reference to "Galaxy", "we", "us", "our" and similar words refer to GDH LP, its subsidiaries and affiliates, or any one of them, as the context requires.

The Partnership is a technology-driven diversified financial services and investment management firm that provides institutions with a full suite of scaled financial solutions spanning the digital assets ecosystem. The Partnership's mission is engineering a new economic paradigm. Today, we are primarily focused on digital assets and blockchain technology, and how these technological innovations will drastically alter the way we store and transfer value. Commencing with the first quarter of 2023, the Partnership began managing and reporting its activities in the following three operating segments: Global Markets, Asset Management and Digital Infrastructure Solutions. Prior periods are presented on a comparable basis.

General Partner

GDH GP, is a limited liability company incorporated under the laws of the Cayman Islands on July 26, 2018 and serves as the general partner of GDH LP. The sole LLC member of the General Partner is Galaxy Group Investments LLC ("GGI"), which is controlled by the Chief Executive Officer ("CEO") of the General Partner, and the General Partner has a Board of Managers.

Financial Statements

These condensed consolidated interim financial statements are prepared on a going concern basis which assumes that the Partnership will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The continuing operations of the Partnership are dependent upon generating sufficient cash flow and/or obtaining necessary financing to meet its commitments as they come due and to continue building a diversified financial services and investment management business in the digital assets sectors. As at June 30, 2023, the Partnership had cash and cash equivalents of \$301.6 million (December 31, 2022 - \$542.1 million) and partners' capital of \$1.5 billion (December 31, 2022 - \$1.4 billion). Management estimates that the Partnership has sufficient financial resources to maintain its operations and activities for the upcoming year.

2. BASIS OF PRESENTATION

Statement of Compliance

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 - *Interim Financial Reporting* as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain disclosures included in the December 31, 2022 audited consolidated financial statements, prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the IASB, have been condensed or omitted. These unaudited condensed consolidated interim financial statements should be read in conjunction with the Partnership's audited consolidated financial statements for the year ended December 31, 2022.

Except for the new accounting policies disclosed in Note 3, the accounting policies applied in these unaudited condensed consolidated interim financial statements are consistent with those applied and disclosed in the Partnership's audited financial statements for the year ended December 31, 2022. The Partnership's interim results are not necessarily indicative of its results for a full year.

These condensed consolidated interim financial statements were approved by the Board of Managers of GDH GP and authorized to be issued on August 8, 2023.

Comparative Figures

Certain comparative figures on the statement of financial position, statement of income (loss) and comprehensive income (loss), statement of changes in equity, and statement of cash flows have been reclassified to conform to the current year's presentation. Fee income on the statement of income (loss) and comprehensive income (loss) includes asset management fees, advisory fees,

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

mining hosting fees, custody technology fees, and validator commissions. The statement of income (loss) and comprehensive income (loss) previously only included advisory and management fees.

Basis of Measurement

The condensed consolidated interim financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair value and digital assets which are measured at fair value less cost to sell.

In addition, the condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for the cash flow disclosure.

Basis of Consolidation

The condensed consolidated interim financial statements include the financial statements of GDH LP and its consolidated subsidiaries, which are controlled by the Partnership. The reporting period, as well as the accounting policies, of the financial statements are consistent across all entities included in the consolidation. All inter-company transactions, balances, income and expenses, and unrealized gains and losses are eliminated in full upon consolidation.

Reportable segments

Effective January 1, 2023, the Partnership updated its reporting segments to reflect how the Partnership's chief operating decision-maker, as well as other members of senior management, review the financial and operational performance of the Partnership. As a result, the Partnership has reorganized its reportable segments into three operating segments: Global Markets, Asset Management and Digital Infrastructure Solutions. Refer to Note 21 for further information on reportable segments.

Allocation of income and loss

Income and loss arising from the Partnership's ordinary course of operations is allocated between the Class A Units and Class B Units pro rata in accordance with the weighted average number of such Units outstanding for the respective periods.

Use of estimates and judgments

The preparation of the condensed consolidated interim financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from those estimates.

Many aspects of the digital assets industry have not yet been addressed by current IFRS guidance. The Partnership is required to make significant assumptions and judgments as to its accounting policies and the application thereof as applicable to digital assets, which is disclosed in the notes to these condensed consolidated interim financial statements. If specific guidance is enacted by the IASB in the future, the impact may result in changes to the Partnership's profit or loss and financial position as currently presented.

Significant judgments in applying accounting policies

The critical judgments that the Partnership has made in the process of applying the Partnership's accounting policies, aside from those involving estimations, that have the most significant effect on the amounts recognized in the Partnership's condensed consolidated interim financial statements are as follows:

Digital assets

There is limited guidance on the recognition and measurement of digital assets. The Partnership has assessed that it acts in a capacity as a commodity broker-trader as defined in IAS 2, *Inventories*, in characterizing certain of its holdings as inventory, or more specifically, digital assets. If assets held by commodity broker-traders are principally acquired for the purpose of selling in the near future and generating a profit from fluctuations in price or broker-traders' margin, such assets are accounted for as inventory, and changes in fair value less cost to sell are recognized in profit or loss.

Income from proprietary mining

The Partnership recognizes income from the provision of transaction verification services within the Bitcoin network, commonly referred to as "cryptocurrency mining". The Partnership participates in mining pools operated by third parties in order to limit its exposure to variability of mining output. The Partnership receives bitcoins from the mining pool operator as consideration for its participation in the pool. Income earned from mining is measured based on the fair value of the bitcoin reward received at the inception of the contract with the mining pool operator. Currently no specific guidance in IFRS or

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

alternative accounting frameworks exist regarding the accounting of digital currencies obtained via mining. The Partnership has exercised judgment in determining the appropriate accounting treatment for the recognition of income from proprietary mining.

Valuation techniques

The fair values of all investments are measured using the market or income approaches (Note 22). The determination of fair value requires significant judgment by the Partnership. The Partnership maintains a valuation policy which requires an appointed Valuation Committee (the "VC"), composed of employees of the Partnership, to act in good faith to fair value its investments on a quarterly basis, in accordance with fair value accounting guidance per IFRS 13, *Fair Value Measurement*.

The VC, on behalf of the Partnership, has engaged an independent consultant to provide independent valuations of its significant investments on a quarterly basis.

The Partnership applies the value in use method when determining recoverable amounts of assets being tested for impairment, utilizing both internal and external metrics.

Level of control and influence over investments and funds

Classification of investments requires judgment on whether the Partnership controls, has joint control or significant influence over the strategic financial and operating decisions relating to the activity of the investee. In assessing the level of control or influence that the Partnership has over an investment, management considers ownership percentages, board representation as well as other relevant provisions in shareholder agreements. As of June 30, 2023 and December 31, 2022, the Partnership had greater than 20% ownership in certain of its underlying investments and board representation in certain investments. The Partnership elected the Fair Value Through Profit and Loss option for investments for which it was concluded that it had significant influence under IAS 28, and records changes in fair value of these investments on its consolidated statements of income (loss) and comprehensive income (loss).

Classification of the funds formed by the Partnership requires judgment on the degree of control and influence over these funds. Key to the assessment of control is determining whether the Partnership, as manager of these funds, is acting as principal or agent. Management considers key factors such as power, returns and its ability to use its power to affect the amount of returns, to determine whether it controls and consolidates a fund or whether it has significant influence and applies the equity method of accounting to an investment in a fund for which we elected the fair value option. As at June 30, 2023 the Partnership has determined it does not have control of managed funds. Prior to December 31, 2022, the Partnership controlled and consolidated certain managed funds. Refer to Note 17 for information on previously consolidated funds.

Income taxes

These condensed consolidated interim financial statements represent the financial position of the Partnership and do not include the other assets and liabilities or income and expenses of the partners. As the Partnership is a Cayman exempted limited partnership treated as a partnership for U.S. Federal tax purposes, items of income, gain, loss, deduction, and credit are allocated to the partners and, as such, income taxes are generally the responsibility of the partners. The Partnership is subject to an entity level New York City unincorporated business tax ("UBT") at a rate of 4.0% on income allocated or apportioned to New York City. Foreign corporate subsidiaries are generally subject to taxes in the foreign jurisdictions where they are treated as domiciled under their respective tax laws. Accordingly, no provision for income taxes has been recorded in these consolidated financial statements other than for the Partnership's UBT obligation and for the entities consolidated by the Partnership that are subject to income taxes in the local jurisdictions in which they operate.

Judgment is required in determining whether deferred tax assets, including those arising from unutilized tax losses, are recognized in the statement of financial position. This analysis requires that management assess the likelihood that the Partnership and/or its subsidiaries will generate taxable earnings in future periods, in order to utilize recognized deferred tax assets. Estimates of future taxable income are based on forecasting cash flows from operations and applying existing tax laws in each jurisdiction. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the Partnership to realize the net deferred tax assets recorded at the date of the statement of financial position could be impacted. Additionally, future changes in tax laws in the jurisdictions in which the Partnership and/or its subsidiaries operate could limit the ability of the Partnership to realize tax deductions in future periods. The allocation of taxable income to partners may vary substantially from net income reported in these condensed consolidated interim financial statements.

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

Key sources of estimation uncertainty

The areas which require management to make significant estimates and assumptions in determining carrying values include, but are not limited to:

Digital assets and investments - valuation

Although many of the Partnership's digital assets are traded in active markets and are valued based upon quoted prices, a portion of such digital assets, as well as the majority of the Partnership's investments, are not actively traded and are valued based upon quoted prices for similar assets or based upon unobservable inputs (Note 22). These valuations require the Partnership to make significant estimates and assumptions.

Derivatives - valuation

Derivatives embedded in other financial liabilities or host contracts are treated as separate stand-alone derivatives when the following conditions are met:

- their economic characteristics and risks are not closely related to those of the host contract;
- a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and
- the combined contract is not held for trading or designated at fair value through profit or loss.

Where an embedded derivative is separable from the host contract but the fair value, at the acquisition or reporting date, cannot be reliably separately measured, the entire combined contract is measured at fair value. Embedded derivatives are generally presented on a combined basis with the host contracts on the consolidated statements of financial position although they are separated for measurement purposes when conditions requiring separation are met. Subsequent changes in fair value of the embedded derivatives are recognized in non-interest income in the consolidated statements of income (loss) and comprehensive income (loss).

All derivatives, including embedded derivatives that must be separately accounted for, are recorded at fair value in the consolidated statements of financial position. The determination of the fair value of derivatives includes consideration of credit risk, estimated funding costs and ongoing direct costs over the life of the instruments.

The Partnership uses the Monte Carlo model to determine the fair value of the embedded derivative related to Notes payable. This estimate requires management to make significant judgments and assumptions about the most appropriate inputs to the valuation model including the volatility, time-step and risk-free rate. If different input assumptions are used, the changes can materially affect the fair value estimate.

Valuation of property and equipment

Depreciation of property and equipment, including right of use assets, are dependent upon estimates of useful lives and estimates of when assets become available for use, which are determined through the exercise of judgment. The assessment of any impairment of these assets is dependent upon estimates of recoverable amounts that take into account factors such as economic and market conditions and the useful lives of such assets.

The Partnership evaluates property and equipment, including mining-related assets, for impairment when indicators of impairment are identified. Indicators of impairment include adverse changes to the conditions of the assets, significant reduction of market values of similar assets, or changes in the Partnership's business plans that relate to the property and equipment. Impairment testing requires determination of recoverable amounts, which includes significant judgments related to the determination of fair value less cost to dispose and value in use of the relevant assets. Refer to Note 14 for additional information on impairment of property and equipment.

Valuation of equity based compensation

The Partnership uses the Black-Scholes Option Pricing Model and other valuation models for the valuation of its equity based compensation. These models require the input of subjective assumptions including expected price volatility, risk-free interest rate, forfeiture rate, fair value per unit calculations and expected term. If different input assumptions are used, the changes can materially affect the fair value estimate.

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

Valuation and economic recoverability of goodwill and intangible assets

Goodwill and intangible assets are capitalized if they are expected to have future economic benefits and are expected to be economically recoverable. Purchased intangibles are valued on acquisition using established methodologies and amortized over their estimated useful economic lives, except in those cases where intangibles are determined to have indefinite lives, where there is no foreseeable limit over which these intangible assets would generate net cash flows. The valuations and lives of goodwill and intangible assets are based on management's best estimates of future performance and periods over which value from intangible assets will be derived. Goodwill and intangible assets are assessed for indicators of impairment throughout the year, and Galaxy performs a formal impairment review annually. Management first reviews qualitative factors in determining if an impairment needs to be recorded. Quantitative factors are then used to calculate the amount of impairment, if needed. The estimates and assumptions are subject to risk and uncertainty; hence there is a possibility that a change in circumstances would alter these projections, which may impact the recoverable amount of the assets.

Income taxes

The consolidated financial statements include estimates and assumptions for determining the future tax rates applicable to subsidiaries and identifying the temporary differences that relate to each subsidiary. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply during the year when the assets are realized or the liabilities settled, using the tax rates and laws enacted or substantively enacted at the consolidated statements of financial position dates. Operating plans and forecasts are used to estimate when a temporary difference will reverse.

3. MATERIAL ACCOUNTING POLICIES

Except for the addition of the mining related policy below, the accounting policies applied in these unaudited condensed consolidated interim financial statements are consistent with those applied and disclosed in the Partnership's audited consolidated financial statements for the year ended December 31, 2022.

Mining Revenue

The Partnership contributes computing resources (i.e. processing power) to mining pools with other digital asset miners for the purpose of validating blockchain transactions to generate returns. The Partnership does not operate the mining pools and receives a portion of the transaction fees paid by blockchain participants for successfully validating transactions and newly-created digital assets (referred to as block rewards) which are issued by a blockchain network as a part of successfully mining a block. The Partnership has a single performance obligation to provide computing power to the mining pool operator. The transaction consideration the Partnership receives, represents noncash consideration, which the Partnership measures at fair value within Income from proprietary mining in the condensed consolidated interim statements of income (loss) and comprehensive income (loss) at the inception of the contract.

The Partnership also enters into agreements with counterparties as a lessor or hosting provider. Income related to such agreements is recognized within Fee income on the Partnership's condensed consolidated interim statements of income (loss) and comprehensive income (loss).

The Partnership enters into power purchase agreements with energy suppliers. These agreements allow the Partnership to purchase power at a fixed rate for the duration of the agreement term. The Partnership accounts for power purchase agreements as derivative instruments. Realized and unrealized gains or losses associated with these agreements are recorded together with mining costs in the General and administrative expenses on the condensed consolidated interim statements of income (loss) and comprehensive income (loss).

4. NEW ACCOUNTING POLICIES AND RECENT ACCOUNTING PRONOUNCEMENTS

Accounting standards and amendments to existing standards that were recently adopted

In February 2021, the IASB issued amendments to IAS 1 *Presentation of Financial Statements*, amendments to IFRS Practice Statement 2 *Making Materiality Judgements* and amendments to IAS 8 *Definition of Accounting Estimate*. The amendments require companies to disclose material accounting policies rather than their significant accounting policies and also help distinguish between changes in accounting estimates versus accounting policies. These amendments are effective for annual periods starting on or after January 1, 2023. Adoption of these amendments did not have a significant impact on the Partnership's condensed consolidated interim financial statements.

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

Accounting standards and amendments to existing standards that are not yet effective

In October 2022, the IASB issued amendments to IAS 1 *Presentation of Financial Statements*. The amendments clarify the impact of covenants of loan arrangements on the classification of a liability as current or non-current at the reporting date. The amendments are effective for annual periods starting on or after January 1, 2024, with early adoption permissible. The Partnership is assessing the impact of these amendments.

In 2021 the Organization for Economic Co-operation and Development (OECD) announced the OECD/G20 Inclusive Framework (the "Framework") on Base Erosion and Profit Shifting which agreed to a two-pillar solution to address tax challenges arising from digitalization of the economy and continues to release additional guidance on these rules proposed to take effect in 2023 and 2024. On May 23, 2023 the IASB issued *International Tax Reform—Pillar Two Model Rules – Amendments* (the "Amendments") to IAS 12 to clarify the application of IAS 12 *Income Taxes* to income taxes arising from tax law enacted or substantively enacted to implement the Framework rules. Included within the Amendments is a mandatory temporary exception to accounting for deferred taxes arising from the jurisdictional implementation of the Pillar Two Model Rules, applicable immediately. It is unclear whether the rules will impact the Partnership given the current state of approval and implementation across jurisdictions where the Partnership operates. The Partnership has not recorded or reported deferred taxes arising from the jurisdictional implementation of the Pillar Two Model Rules for any of the periods presented within these condensed consolidated interim financial statements.

5. KEY TERMS OF LIMITED PARTNERSHIP AGREEMENT

The key terms of limited partnership agreement are consistent with those disclosed in the Partnership's audited consolidated financial statements for the year ended December 31, 2022.

6. BUSINESS COMBINATION

On February 21, 2023, a subsidiary controlled by the Partnership acquired the net assets of GK8 Ltd. from Celsius Network LLC for \$44 million. The Partnership determined that the acquisition of GK8's net assets ("GK8") constituted a business combination under IFRS 3. GK8 is a secure institutional digital asset self-custody platform. It is a leading technology provider for institutions looking to custody their digital assets with the highest possible security, using patented technology to safely store digital assets and execute blockchain transactions.

The consideration transferred was measured at fair value of the cash paid, \$44 million, in exchange for the net identifiable assets of GK8 and goodwill on February 21, 2023 identified below:

(in thousands)	February 21, 2023
Receivables ⁽¹⁾	\$ 814
Prepaid expenses and other assets ⁽¹⁾	190
Property and equipment	128
Intangible assets ⁽¹⁾	23,258
Goodwill ⁽¹⁾	19,612
Total assets	\$ 44,002
Accounts payable and accrued liabilities ⁽¹⁾	109
Total liabilities	\$ 109

(1) During the quarter ended June 30, 2023, the Partnership recorded measurement period adjustments to Receivables of \$0.5 million, Prepaid expenses and other assets of \$0.2 million, Accounts payable and accrued liabilities of \$0.7 million, Intangible assets of \$1.0 million and goodwill of \$1.0 million.

The Partnership recorded \$19.6 million of goodwill, inclusive of measurement period adjustments, which was attributed to the Digital Infrastructure Solutions segment. Goodwill represents the future economic benefit arising from assets acquired which could not be individually identified and separately recognized. Goodwill was attributed to the synergies expected from combining operations with GDH LP and the expected future cash flows of the business. The Partnership expects \$17.2 million of goodwill from this acquisition to be deductible for tax purposes. Additionally, the fair value of the assets and liabilities

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

acquired are based on the Partnership's assessment using the information available as of the date of this filing, and could change if new information is obtained during the measurement period, which ends in February 2024.

Intangible assets acquired included customer relationships valued at \$2.9 million, which will be amortized over an estimated useful life of 3 years, trade names and trademarks valued at \$3.2 million, which will be amortized over an estimated useful life of 3 years and technology valued at \$17.2 million, inclusive of measurement period adjustments, which will be amortized over an estimated useful life of 5 years. The intangible assets are measured at acquisition date fair value using an income approach in accordance with the Partnership's accounting policies.

The Partnership incurred acquisition related transaction costs of \$2.3 million. The majority represented professional fees and were incurred during the year ended December 31, 2022. The proforma impact of the acquisition on the Partnership's revenue and net income for the year ended on December 31, 2022 would not have been material.

7. DIGITAL ASSETS

The Partnership's digital assets are primarily traded in active markets and are purchased with the intent to resell in the near future, generating a profit from the fluctuations in prices or margins. As a result, the Partnership has determined that its holdings of digital assets, both restricted and unrestricted, are accounted for as inventory at fair value less cost to sell, with changes in fair value less cost to sell recognized in profit or loss. Below are the Partnership's digital asset holdings as of June 30, 2023 and December 31, 2022:

(in thousands)	June 30, 2023	December 31, 2022
Digital assets:		
Unrestricted	\$ 1,111,959	\$ 566,690
Restricted	1,818	—
Total	\$ 1,113,777	\$ 566,690

Digital assets are typically part of a decentralized system of recording transactions and issuance of new units that rely on cryptography to secure transactions, to control the creation of additional units, and to verify the transfer of assets. The Partnership holds both unrestricted and restricted digital assets, as defined below.

Unrestricted – Digital assets held by the Partnership, typically acquired through direct purchase or borrowing. The Partnership also participates in bitcoin mining and proof of stake programs, which generate digital assets directly from the blockchain. Proof of stake protocols are individually assessed for restrictions.

Restricted – Certain digital assets held by the Partnership are restricted by lock-up schedules typically associated with purchases from foundations. Digital assets restricted by lock-up schedules which have not yet been received by the Partnership are recognized as Digital assets receivable, described below. Restricted digital assets also include assets that are bonded to a validator and the transfer of which depends on the network traffic on the corresponding blockchain.

The Partnership's digital assets are typically held in self-custodied wallets, and centralized or decentralized digital asset trading platforms. Digital assets held on trading platforms are used as collateral for margin trading or borrowing. Such assets are not deemed to be restricted as the Partnership retains control of the digital asset. The following table provides a summary of the Partnership's digital assets held by venue as of June 30, 2023 and December 31, 2022:

(in thousands)	June 30, 2023	December 31, 2022
Held in self-custodied wallets	\$ 440,035	\$ 435,507
Held on centralized platforms ⁽¹⁾	533,584	114,423
Held on decentralized platforms ⁽¹⁾	140,158	16,760
Total	\$ 1,113,777	\$ 566,690

⁽¹⁾ Digital assets held on centralized and decentralized platforms collectively support borrowings on these platforms of \$249.4 million and \$96.2 million as of June 30, 2023 and December 31, 2022 respectively. The net exposure to digital asset trading platforms was \$423.8 million and \$34.9 million as of June 30, 2023 and December 31, 2022, respectively.

The Partnership's realized gain or loss on a digital assets is calculated as the proceeds received from the sale of the digital asset less its assigned original cost. The Partnership's unrealized gain or loss on a digital asset consists of both the change in fair

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

value on a digital asset from the beginning of the period and the reversal of any previously recognized unrealized gain or loss on a digital asset sold during the period.

Receivable and payable for digital asset trades

Unsettled trades at the end of each period are reflected in Receivable for digital asset trades and Payable for digital asset trades on the consolidated statements of financial position. All trades were settled shortly after period end.

Digital assets receivables

Digital assets receivables relate to digital assets that are yet to be distributed to the Partnership as of the end of the period and are expected to be distributed over time according to a release schedule (generally in accordance with a token sale agreement). As the digital assets are received by the Partnership, they will be reclassified from digital assets receivable to digital assets. The unrealized gains or losses on the digital assets receivables are recognized in Net unrealized gain (loss) on digital assets. As at June 30, 2023, the Partnership had \$9.6 million (December 31, 2022 - \$12.4 million) in current digital assets receivables and \$4.4 million (December 31, 2022 - \$5.2 million) in non-current digital assets receivables.

8. DIGITAL ASSET LOANS RECEIVABLE AND PAYABLE

Digital asset loans receivable and associated collateral payable

In the ordinary course of business, the Partnership lends digital assets to counterparties.

(in thousands)	June 30, 2023	December 31, 2022
Digital asset loans receivable	\$ 47,099	\$ 60,094
Less: Allowance for credit loss	—	(10,123)
Digital asset loans receivable, net	\$ 47,099	\$ 49,971
Collateral payable - Digital assets	\$ 63,558	\$ 32,772
Collateral payable - Cash	6,542	21,999
Collateral payable associated with digital assets loans receivable	\$ 70,100	\$ 54,771

Collateral payable represents assets which the Partnership has the right to rehypothecate.

Digital asset loans payable and associated collateral receivable

In the ordinary course of business, the Partnership borrows digital assets from counterparties and posts collateral, as required.

(in thousands)	June 30, 2023	December 31, 2022
Master loan agreements	\$ 188,980	\$ 83,226
Credit facilities from exchanges	166,112	87,340
Digital asset loans payable	\$ 355,092	\$ 170,566
Assets posted as collateral - Digital assets	\$ 5,298	\$ 24,475
Assets posted as collateral - Cash	—	—
Assets posted as collateral associated with Digital asset loans payable	\$ 5,298	\$ 24,475

Assets posted as collateral represents assets for which the counterparty has the right to rehypothecate.

9. LOANS RECEIVABLE AND PAYABLE

In the ordinary course of business, the Partnership may borrow and lend fiat currency, such as US dollars, to counterparties to facilitate digital asset trading and lending activity.

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements

(Expressed in US Dollars - unaudited)

Loans receivable, current and non-current

(in thousands)	June 30, 2023	December 31, 2022
Loans receivable	\$ 316,647	\$ 62,611
Loans receivable, non-current	18,698	100,977
Loans receivable, current and non-current	\$ 335,345	\$ 163,588

Non-current loans receivable is comprised of the non-current portion of loans with Argo Blockchain Inc. ("Argo") as of June 30, 2023 (December 31, 2022 - Argo and Blockstream Inc. ("Blockstream")), which was reclassified to current as of June 30, 2023). The loan with Argo is secured by, amongst other assets, the mining equipment of Argo that is physically located in the Helios facility. The Blockstream loan is secured by substantially all physical assets of Blockstream.

The outstanding loans receivable are scheduled to be repaid in the following periods:

(in thousands)	Amounts
2023	\$ 222,630
2024	99,590
2025	13,125
Loans receivable, current and non-current	\$ 335,345

Collateral payable associated with loans receivable, current

(in thousands)	June 30, 2023	December 31, 2022

Collateral payable - Cash	—	29,483
Collateral payable associated with loans receivable, current	\$ 360,876	\$ 64,065

Collateral payable represents assets to which the Partnership has the right to rehypothecate.

Loans payable

(in thousands)	June 30, 2023	December 31, 2022
Loans payable	\$ 1,546	\$ —

The Partnership did not post any collateral in association with its Loans payable as of June 30, 2023 or December 31, 2022.

10. DERIVATIVES ASSETS AND LIABILITIES

For the three and six months ended June 30, 2023, the Partnership recognized \$9.6 million and \$64.7 million, respectively, of net derivative gain (June 30, 2022: \$80.0 million and \$162.0 million, respectively). The net gains for the three and six months ended June 30, 2023 and 2022 were due to economic hedging and as part of a trading strategy. Embedded derivatives are recorded in the same line items on the consolidated statements of financial position as their host instrument. The Partnership's derivative instruments disclosed below, with the exception of the Exchangeable Notes embedded derivatives, each had a maturity date of less than a year as of June 30, 2023.

Collateral payable - Cash	3,073	6,168
Collateral payable associated with derivatives	\$ 9,208	\$ 12,272

Collateral payable represent assets to which the Partnership has the right to rehypothecate.

11. INVESTMENTS

Investments

The Partnership's holdings of investments generally are not traded in active markets. Investments are accounted for as financial assets which are initially recognized at fair value and subsequently measured at fair value through unrealized profit or loss. Below are the Partnership's investments as of June 30, 2023 and December 31, 2022:

(in thousands)	June 30, 2023	December 31, 2022
Common stock	\$ 47,317	\$ 61,648
Convertible notes	20,776	12,649
LP/LLC interests	292,434	255,799
Preferred stock	243,078	258,461
Warrants	4,151	6,565
Total	\$ 607,756	\$ 595,122

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

Common Stock: Class of ownership in a corporation that entitles the holders to a claim on the assets and future earnings of the corporation, as well as certain voting and governance rights over the operations of the corporation.

Convertible Notes: Class of debt that entitles the holders to convert such debt into equity of the issuer under certain circumstances.

Limited Partnership ("LP") / Limited Liability Company ("LLC") Interests: Class of ownership in a LP or LLC that entitles the holders to a claim on the assets and future earnings of the LP or LLC, as well as certain voting or governance rights over the operations of the LP or LLC.

Preferred Stock: Class of ownership in a corporation that typically entitles the holder to a priority claim on the assets and future earnings of the corporation above that of common stock holders, as well as certain voting and governance rights over the operations of the corporation.

Warrants: Warrants represent a security that entitles the holders to purchase the underlying stock of the issuing company at a pre-determined price until the stated expiry date.

Continuity schedule of investments

The below table shows components of the change in investments for the period ended June 30, 2023 and the year ended December 31, 2022:

(in thousands)	Investments
Balance as at December 31, 2021	\$ 1,069,776
Purchases	152,993
Proceeds and distributions from investments ⁽¹⁾	(200,238)
Net change of investments due to deconsolidation of funds	56,256
Transfer out of investments	(12,500)
Net realized gain on investments	19,696
Net unrealized loss on investments	(490,869)
Capitalized interest	8
Balance as at December 31, 2022	595,122
Purchases	78,123
Proceeds and distributions from investments ⁽¹⁾	(121,943)
Transfer out of investments	(6,564)
Net realized gain on investments	45,671
Net unrealized gain on investments	17,347
Balance as at June 30, 2023	\$ 607,756

⁽¹⁾ Includes cash and digital assets from the sale of investments and other realization events.

The Partnership's realized gain or loss on an investment is calculated as the proceeds received from the sale of the investment less its original cost. The Partnership's unrealized gain or loss on an investment consists of both the change in fair value on an investment from the beginning of the period and the reversal of any previously recognized unrealized gain or loss on an investment sold during the period.

Investments sold short

Investments sold short are accounted for as financial liabilities, which are both initially recognized and then subsequently measured at fair value through Net unrealized gain (loss) on investments in the condensed consolidated interim statements of operations. There were no investments sold short held as of June 30, 2023 (December 31, 2022 - \$0.1 million). The unrealized loss on the Partnership's investments sold short for the three and six months ended June 30, 2023 was \$0 million and \$0.2 million, respectively (June 30, 2022 - \$21.1 million and \$21.5 million, respectively).

The Partnership's realized gain or loss on an investment sold short is calculated as the proceeds from the sale of the investment

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

sold short less the cost of the repurchase. The Partnership's unrealized gain or loss on an investment sold short consists of both the change in fair value on an investment sold short from the beginning of the period and the reversal of any previously recognized unrealized gain or loss on an investment sold short during the period. The realized gain of the Partnership's investments sold short for the three and six months ended June 30, 2023 was \$0.7 million and \$0.7 million, respectively (June 30, 2022 - \$0.7 million and \$0.8 million, respectively).

12. RECEIVABLES

The following table represents the Partnership's fiat receivables balance as of June 30, 2023 and December 31, 2022. The Partnership's digital asset receivables and digital asset loans receivable are described in Note 8 and Note 9, respectively.

(in thousands)	June 30, 2023	December 31, 2022
Interest receivable	\$ 3,087	\$ 1,983
Receivables from investments sold	25,214	3,142
Hosting fee receivable	3,609	—
Other ⁽¹⁾	9,858	5,762
Total	\$ 41,768	\$ 10,887

⁽¹⁾ Includes receivables related to non-consolidated funds management activities.

13. OTHER ASSETS

Prepaid expenses and other assets

The following table represents the Partnership's prepaid expenses and other assets as of June 30, 2023 and December 31, 2022:

(in thousands)	June 30, 2023	December 31, 2022
Prepaid rent and security deposits	\$ 1,274	\$ 1,377
Prepaid mining expenses	8,683	5,296
Current tax assets and receivables	15,117	15,354
Prepaid acquisition cost	—	5,400
Other	6,963	5,391
Total	\$ 32,037	\$ 32,818

Other non-current assets

The following table represents the Partnership's other non-current assets as of June 30, 2023 and December 31, 2022:

(in thousands)	June 30, 2023	December 31, 2022
Deferred tax asset	\$ 48,366	\$ 47,746
Intangible assets	34,740	6,948
Right of use assets	12,143	13,735
Other	6,122	—

⁽¹⁾ Corporate assets balances primarily relate to computer equipment, leasehold improvements, and furniture and fixtures.

⁽²⁾ Recognized in general and administrative expenses on the consolidated statements of income (loss) and comprehensive income (loss). The Partnership recorded impairment losses on mining equipment during the year ended December 31, 2022; the impairment on mining equipment was partially reversed during the period ended June 30, 2023 due to increases in the Bitcoin network hash price.

⁽³⁾ WIP / Construction in Progress balance as of June 30, 2023 primarily relates to \$64.1 million of mining equipment and \$6.7 million of mining infrastructure under construction.

The following table represents property and equipment balances, accumulated depreciation and impairment (as applicable) for the periods ended June 30, 2023 and December 31, 2022:

(in thousands)	June 30, 2023	December 31, 2022
Corporate assets	\$ 14,273	\$ 13,350
Mining equipment	81,510	35,439

Less: Accumulated depreciation	(23,396)	(14,807)
Less: Accumulated impairment	(23,814)	(36,303)
Property and equipment, net	\$ 235,739	\$ 208,538

Goodwill

As of June 30, 2023, the Partnership's Goodwill balance was \$44.2 million (December 31, 2022 - \$24.6 million). Goodwill of \$15.5 million, \$9.1 million and \$19.6 million was allocated to the Global Markets, Asset Management and Digital Infrastructure Solutions segments, respectively, attributable to prior and current period acquisitions. No impairment of goodwill was recorded for the periods ended June 30, 2023 or June 30, 2022.

Accounts payable	2,301	12,532
Deferred revenue	75	2,020
Other	2,253	2,851
	<u>\$ 36,710</u>	<u>\$ 67,081</u>

Payables to Customers

During the year ended December 31, 2021, the Partnership commenced its prime brokerage business. As of June 30, 2023, there was \$11.9 million, including accrued interest, due to customers for prime brokerage (December 31, 2022 - \$9.6 million). The corresponding assets are included in the condensed consolidated interim statements of financial position as the Partnership has the right to rehypothecate the funds at any time. In addition, the Partnership holds \$10.7 million (December 31, 2022 - \$10.9 million) of digital assets on behalf of its customers which are not included in the condensed consolidated interim statements of financial position as the Partnership does not have the right to rehypothecate the assets.

16. EQUITY

Issued Partnership Capital

GDH LP has two classes of ownership interests, representing limited partner interests:

- (i) GDH LP Class A Units, which were subdivided into GDH LP A-1 Units, all of which are held directly by GDH Ltd., and GDH LP A-2 Units, all of which are held indirectly by GDH Ltd. through GDH Ltd.'s wholly owned U.S. subsidiary, GDH Intermediate LLC; and
- (ii) GDH LP Class B Units, which are held by GGI, employees of the Partnership, as part of the Partnership's employee compensation plan, and certain former shareholders.

The GDH LP Class A Units and GDH LP Class B Units rank pari passu to all distributions from GDH LP.

Under the terms of the LPA, GDH LP Class B Units will, subject to certain limitations, be exchangeable for GDH Ltd. shares on a one-for-one basis subject to customary adjustments for stock splits, stock dividends and other similar transactions; or, at the election of GP on behalf of GDH LP, GDH LP may deliver an amount of cash in lieu of GDH Ltd. shares to an exchanging GDH LP Class B Unit holder. On receipt of a request to exchange, the Partnership or the General Partner will cancel the Class B Units and will cause GDH Ltd. to issue ordinary shares. In addition, GDH LP will issue Class A Units to GDH Ltd. for the same amount of ordinary shares issued by GDH Ltd.

Private Investment in Public Equity ("PIPE")

On November 12, 2020, GDH Ltd. closed a PIPE with \$50.0 million of aggregate gross proceeds. As part of the PIPE, GDH Ltd. issued 19,070,000 shares and 4,767,500 warrants. Each warrant was exercisable into an ordinary share of the Company for a term of two years from the date of issuance at an exercise price of C\$8.25. Under the terms of the LPA, the Partnership issued a Class A Unit for each GDH Ltd. ordinary share issued and any liability associated with the warrant was pushed down to the Partnership. The gain related to the warrant liability, recognized in the statement of income (loss) and comprehensive income (loss) for the three and six months ended June 30, 2022 was \$17.2 million and \$19.7 million, respectively. All the warrants expired in November 2022.

Exchangeable Notes

On December 9, 2021, GDH LP issued \$500 million aggregate principal amount of 3.00% exchangeable notes ("Exchangeable Notes"). Outstanding Exchangeable Notes will mature and the aggregate principal amount is due in 2026, unless earlier

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

exchanged, redeemed or repurchased. Interest on the Exchangeable Notes is payable semi-annually. There was no discount or premium associated with the notes. The Exchangeable Notes had an initial exchange rate of 7,498.2210 ordinary shares per US\$250,000 principal amount. All Exchangeable Notes issued are subject to certain selling and transfer restrictions set forth in each investor's note purchase agreement, and as set forth in the indenture that governs the Exchangeable Notes.

The Partnership determined that the conversion feature represents a derivative financial instrument embedded in the Exchangeable Notes. The accounting treatment of derivative financial instruments requires that the Partnership record the fair value of that derivative financial instrument as a discount to the value of the Exchangeable Notes as of the inception date. Accordingly, the Partnership recorded an aggregate initial discount of \$71.0 million for the fair value of the derivative liability at inception of the Exchangeable Notes. The Exchangeable Notes and the associated derivative liability are shown as Notes payable in the Partnership's consolidated statements of financial position. As of June 30, 2023 the total amount for Notes payable was \$393.5 million (December 31, 2022 - \$384.5 million), net of repurchases, and the gain (loss) recognized in the Partnership's consolidated statements of income (loss) and comprehensive income (loss) for the three and six months ended June 30, 2023 was \$(0.8) million and \$(2.1) million, respectively (June 30, 2022 - \$51.1 million and \$57.6 million, respectively). As of June 30, 2023 and December 31, 2022, there was \$445 million in principal outstanding of the Exchangeable Notes.

On initial recognition, debt issuance costs of \$13.4 million were recognized as a reduction of Notes payable and are being accreted over the term of the debt. The interest expense from the Exchangeable Notes for the three and six months ended June 30, 2023 was \$6.8 million and \$13.5 million, respectively (June 30, 2022 - \$7.3 million and \$14.6 million, respectively).

Issued Capital

Class A Units

During the period ended June 30, 2023, the Partnership issued 4,696,857 (June 30, 2022 - 11,483,355) Class A Units to GDH Ltd. on exchange of Class B Units, exercise of options, and vesting of restricted share units. The Partnership cancelled 2,675,399 ordinary shares during the six months ended June 30, 2023, 2,050,399 of which were cancelled in association with withholding obligations on exercised stock options and vested restricted share units.

On May 26, 2023, GDH Ltd. announced that the TSX approved the Company's plan to commence a normal course issuer bid to purchase up to 10,056,193 ordinary shares (10% of the Company's public float as of May 19, 2023). As of the date of this filing, the Company has not repurchased any shares under the plan.

On May 16, 2022, GDH Ltd. announced that the TSX approved the Company's plan to commence a normal course issuer bid (a "Bid") to purchase up to 10,596,720 ordinary shares (10% of the Company's public float as of May 10, 2022). GDH Ltd. began repurchasing shares on May 18, 2022. The Company completed its normal course issuer bid program on October 24, 2022. As of December 31, 2022, GDH Ltd. repurchased a total of 10,596,720 shares for a total cost of \$53.3 million under the plan. All repurchased shares of GDH Ltd. and the equivalent number of Class A Units in the Partnership were cancelled.

Class B Units

During the period ended June 30, 2023, 30,121 Class B Units (June 30, 2022 - 8,951,763) were exchanged for ordinary shares of GDH Ltd.

As of June 30, 2023, there were 106,832,997 (December 31, 2022 - 104,811,539) Class A Units and 215,913,248 (December 31, 2022 - 215,943,369) Class B Units outstanding. The change during the period ended June 30, 2023 was due to exchanges of Class B Units for ordinary shares of GDH Ltd. (and into Class A Units of GDH LP), issuance of shares for stock option exercises, restricted share units vesting and cancellations of ordinary shares.

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

Equity Based Compensation

The Partnership has awarded compensatory Class B Units, stock options and restricted share units (equity instruments) to eligible officers and employees. For the periods ended June 30, 2023 and June 30, 2022, equity based compensation expense was recognized as follows:

(in thousands)	Three months ended June 30, 2023	Three months ended June 30, 2022	Six months ended June 30, 2023	Six months ended June 30, 2022
Stock options	\$ 4,506	\$ 9,187	\$ 9,980	\$ 15,777
Restricted Units ⁽¹⁾	11,238	21,713	29,229	37,655
Compensatory Class B Units	(107)	234	135	464
	15,637	31,134	39,344	53,896
Deferred share units awarded to directors included in general and administrative	211	133	445	291
Total	\$ 15,848	\$ 31,267	\$ 39,789	\$ 54,187

⁽¹⁾ Includes expense associated with restricted stock issued in connection with the Partnership's acquisition of Vision Hill in May 2021.

The forfeiture rate assumed for equity based compensation ranged from 10% - 33% (June 30, 2022: 0% - 50%). Forfeiture rate is determined using historical data to estimate option exercises and employee terminations.

Compensatory Class B Unit Awards

The Partnership has awarded Class B Unit awards to eligible officers and employees. The following table summarizes the activity related to the compensatory Class B Units during the respective periods:

Description	Class B Units
Balance, December 31, 2021	14,890,203
Exchanged	(4,097,259)
Forfeited	—
Balance, December 31, 2022	10,792,944
Exchanged	—
Forfeited	—
Balance, June 30, 2023	10,792,944
Compensatory Class B Units exercisable, June 30, 2023 and December 31, 2022	10,762,492

Under the terms of the LPA, the General Partner may elect, at its sole discretion, to pay an amount of cash equal to the current market price of the applicable number of shares in lieu of delivering the applicable number of shares. However, as the Partnership does not have a present obligation to settle in cash, the Class B Units are accounted for as equity settled awards.

Equity Plan

The Partnership has granted stock options to employees, officers, directors and consultants of the Partnership under the GDH Ltd. stock option plan (the "Plan"), subject to the approval of the board of directors of GDH Ltd. The exercise price of each option may not be less than the market price of GDH Ltd.'s shares at the date of grant. Options granted under the Plan will have a term not to exceed 5 years and will be subject to vesting provisions as determined by the board of directors of GDH Ltd., who administer the Plan. On exercise of an option, the holder will receive one ordinary share in GDH Ltd. and GDH LP will issue one Class A Unit to GDH Ltd. The maximum number of shares reserved for issuance under the Plan is fixed at 45,565,739 shares of GDH Ltd. Following the approval of the Long Term Incentive Plan, the Company no longer makes grants under the Plan and future grants will be made from the Long Term Incentive Plan. The Plan reserve has been rolled over into the Long Term Incentive Plan.

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

Long Term Incentive Plan

In May 2021, the board of directors of GDH Ltd. approved the GDH Ltd. Long Term Incentive Plan (“LTIP”) to grant stock options, stock appreciation rights, restricted stock, and share units in the form of restricted share units and/or performance share units to employees, officers, and consultants of GDH Ltd. and its affiliates (inclusive of the Partnership) and deferred share units to non-employee directors of GDH Ltd. and non-employee managers of the board of managers of the General Partner. Under the LTIP Plan, the exercise price of each option may not be less than the market price of GDH Ltd.’s shares at the date of grant. Options granted under the LTIP typically have a term not to exceed five years and are subject to vesting provisions as determined by the board of directors of GDH Ltd., who administer the LTIP. On exercise of an option, the holder will receive one ordinary share in GDH Ltd. and GDH LP will issue one Class A Unit to GDH Ltd. The maximum number of shares reserved for issuance under the LTIP is fixed at 48,290,478 shares of GDH Ltd.

Non-Treasury Plan

In May 2021, the board of directors of the Company approved the GDH Ltd. Non-Treasury Share Unit Plan (“Non-Treasury Plan”) as a supplement to the LTIP under which grants are settled solely in cash. Two types of share units exist under the Non-Treasury Plan: restricted share units and performance share units.

Stock options

The fair value of the options granted was measured using the Black-Scholes option pricing model with the following inputs.

Inputs to the Black-Scholes Model	June 30, 2023	December 31, 2022
Share price ⁽¹⁾	C\$4.05 - C\$5.33	C\$4.83 - C\$20.40
Exercise price	C\$4.19 - C\$6.75	C\$5.39 - C\$21.3
Expected annual volatility ⁽²⁾	85%	98% - 120%
Expected term (years)	5.00	5.00
Dividend yield	0%	0%
Risk-free interest rate ⁽³⁾	2.91% - 3.00%	2.48% - 3.00%

⁽¹⁾ The closing price of GDH Ltd. shares on the respective grant dates were used.

⁽²⁾ Volatility was selected based on the holdings of the Partnership, a review of the historical volatility of digital assets, and academic studies of historical venture equity volatility. In addition, the historical trading volatility of the shares of GDH Ltd. was considered.

⁽³⁾ The risk-free interest rate was calculated by interpolating Government of Canada bond yields over the expected terms of the respective option grants.

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

The following table summarizes the activity related to the stock options during the periods ended June 30, 2023 and December 31, 2022:

Description	Number of options	Weighted average exercise price (C\$)
Balance, December 31, 2021	30,413,345	7.64
Granted	1,565,000	19.63
Exercised	(2,627,053)	2.68
Forfeited	(1,698,749)	11.26
Balance, December 31, 2022	<u>27,652,543</u>	8.56
Granted ⁽¹⁾	9,513,780	6.25
Stock options replaced by replacement awards	(1,875,000)	23.08
Exercised ⁽²⁾	(2,850,001)	2.79
Forfeited	(4,612,323)	9.09
Expired / Cancelled / Repurchased	(1,578,334)	4.43
Balance, June 30, 2023	<u>26,250,665</u>	7.47
Options exercisable as of June 30, 2023	11,603,516	
Options exercisable as of December 31, 2022	14,180,883	

⁽¹⁾ Includes stock options granted due to stock option modification.

⁽²⁾ Includes 76,900 stock options that were exercised during the three months ended June 30, 2023 and were settled in the subsequent quarter.

The weighted average fair value for stock options granted during the six months ended June 30, 2023 was \$3.87 per option (December 31, 2022 - \$10.80 per option). For stock options outstanding as of June 30, 2023, the weighted average remaining contractual life is 3.2 years (December 31, 2022 - 2.62 years).

Modification of stock options previously granted

Effective March 29, 2023, certain outstanding stock option awards were modified ("stock option modification") reducing the number of options and exercise price. 1,875,000 previously granted options were reduced to 1,500,000 options, and the exercise price of the modified awards was reduced to C\$6.75. The incremental fair value of the replacement awards will be recognized over the modified vesting period. The impact to the period ended June 30, 2023 was not material.

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

The following table represents a summary of the stock options outstanding as at June 30, 2023:

Grant date	Number outstanding	Number exercisable	Exercise price (C\$)	Expiry date
Employees and Officers:				
July 31, 2018	90,000	90,000	3.00 - 5.00	July 23, 2023
June 25, 2019	1,310,950	1,310,950	2.15	June 25, 2024
April 9, 2020	1,952,475	1,952,475	1.35 - 1.85	April 9, 2025
June 25, 2020	750,000	750,000	1.39	June 25, 2025
November 16, 2020	5,327,150	2,386,317	5.65	November 16, 2025
December 3, 2020	3,634,300	3,634,300	6.21	December 3, 2025
December 8, 2020	452,500	225,000	6.00	December 8, 2025
December 21, 2020	100,000	50,000	8.02	December 21, 2025
May 27, 2021	2,250,000	907,500	23.12 - 25	May 27, 2026
December 1, 2021	450,000	112,500	30.76	December 1, 2026
April 1, 2022	190,000	66,250	21.30 - 23.00	April 1, 2027
May 11, 2022	200,000	25,000	10.52	May 11, 2027
June 30, 2022	50,000	12,500	5.39	June 30, 2027
March 27, 2023	6,413,194	—	6.75	March 27, 2028
March 29, 2023	2,495,096	80,724	4.19 - 6.75	March 29, 2028
May 10, 2023	585,000	—	6.75	May 10, 2028
Total	26,250,665	11,603,516		

Under certain circumstances, the options may be settled by cash payments at the election of the Partnership. However, as the Partnership does not have a present obligation to settle in cash, the stock options are accounted for as equity settled awards.

Restricted share units and Deferred share units

The following table summarizes the activity related to the restricted and deferred share units for the periods ended June 30, 2023 and December 31, 2022:

Description	Number of units	Weighted average fair value per unit (C\$)
Balance, December 31, 2021	7,833,659	23.32

(Expressed in US Dollars - unaudited)

Cash settled grants

During the six months ended June 30, 2023, the Partnership granted 298,283 restricted share units under the Non-Treasury Share Unit Plan which will be settled in cash. The restricted share units vest over three to four years with varying vesting schedules and had a fair value of \$0.9 million at grant date. The outstanding liability related to cash settled units as of June 30, 2023 was \$1.9 million.

During the six months ended June 30, 2023, the Partnership granted 299,151 Stock Appreciation Rights ("SARs") under the LTIP which will be settled in cash. These SARs vest over three years and had a grant date fair value of \$0.5 million. The outstanding liability as of June 30, 2023 related to the SARs was \$0.2 million.

Net Income (Loss) per Unit

The tables below present total Class A and B income (loss) per unit for the periods ended June 30, 2023 and June 30, 2022 as Class A Units and Class B Units rank equal in all economic respects.

(in thousands, except unit and per unit data)	Three months ended June 30, 2023	Three months ended June 30, 2022	Six months ended June 30, 2023	Six months ended June 30, 2022
Basic income (loss) per unit	\$ (0.14)	\$ (1.69)	\$ 0.28	\$ (2.03)
Diluted income (loss) per unit	(0.14)	(1.74)	0.27	(2.08)
Net income (loss) used in the calculation of basic income (loss) per unit	\$ (46,040)	\$ (554,701)	\$ 88,162	\$ (665,909)
Net income (loss) used in the calculation of diluted income (loss) per unit	(46,040)	(571,378)	88,162	\$ (685,195)
Weighted average number of units for the purposes of basic income (loss) per unit	321,392,562	328,899,160	320,391,466	328,316,833
Weighted average number of units for the purposes of diluted income (loss) per unit	321,392,562	329,139,528	327,417,371	328,947,139

Reconciliation of weighted average number of units for the purposes of basic income (loss) per unit to weighted average number of units for the purposes of diluted income (loss) per unit:

	Three months ended June 30, 2023	Three months ended June 30, 2022	Six months ended June 30, 2023	Six months ended June 30, 2022
Weighted average number of units for the purposes of basic income (loss) per unit	321,392,562	328,899,160	320,391,466	328,316,833
Diluted units:				
Compensatory Class B Unit awards	—	—	—	—
Stock options	—	—	4,592,968	—
Restricted share units	—	—	2,432,937	—
Held back shares	—	—	—	—
Warrants	—	240,368	—	630,306
Exchangeable notes	—	—	—	—
Weighted average number of units for the purposes of diluted income (loss) per unit	321,392,562	329,139,528	327,417,371	328,947,139

For the six months ended June 30, 2023, the weighted average number of total units for the purposes of diluted income per unit assumes the potential exercise of dilutive stock options and vesting of restricted share units.

Total		\$ 15,050	\$ 34,160	\$ 30,186	\$ 52,108

⁽¹⁾ Includes mining hosting fees of \$0.4 million and \$1.1 million for the three and six months ended June 30, 2023, respectively (June 2022: \$3.9 million and \$5.1 million, respectively); and power purchase costs, net of credits, of \$5.1 million and \$10.3 million for the three and six months ended June 30, 2023, respectively (June 2022: \$0); offset by \$5.6 million and \$0 of unrealized gains on power purchase derivatives for the three and six months ended June 30, 2023, respectively (June 2022: \$0).

⁽²⁾ Includes the reversal of impairment of mining equipment during the three and six months ended June 30, 2023; applicable impairment was recognized in the second half of 2022.

For the three and six months ended June 30, 2023, the Partnership recognized GDH Ltd. reimbursable expenses of \$0.8 million and \$1.5 million, respectively (June 30, 2022 - \$0.9 million and \$1.6 million, respectively).

20. RELATED PARTY TRANSACTIONS

The Partnership's related parties include its subsidiaries, associates over which it exercises significant influence, and key management personnel. Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the Partnership, directly or indirectly. Key management personnel include officers, directors, companies controlled by officers or directors and companies with common directors of the Partnership. The transactions the Partnership enters into with related parties are made on terms equivalent to those that prevail in arm's length transactions.

Compensation of Key Management Personnel

Key management personnel include nine individuals (June 30, 2022 - eleven individuals). The following table represents compensation provided to key management personnel for the three and six months ended June 30, 2023 and 2022:

(in thousands)	Three months ended June 30, 2023	Three months ended June 30, 2022	Six months ended June 30, 2023	Six months ended June 30, 2022
Base compensation and accrued bonuses ⁽¹⁾	\$ 1,558	\$ (550)	\$ 3,032	\$ 6,189
Benefits	76	111	219	234

Total	\$ 7,909	\$ 8,598	\$ 17,207	\$ 22,714

⁽¹⁾ As of June 30, 2023, the amount includes approximately \$1.5 million of accrued bonuses within accounts payable and accrued liabilities.

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

GDH LP, an operating partnership, is managed by the board of managers and officers of the General Partner, Galaxy Digital Holdings GP LLC. Director fees, including equity based compensation provided to the directors was \$0.2 million and \$0.5 million for the three and six months ended June 30, 2023, respectively (June 30, 2022 - \$0.2 million and \$0.4 million, respectively).

Distributions

A tax-related distribution of \$22.4 million was declared and partially paid during the six months ended June 30, 2023 (June 30, 2022 - \$137.2 million). The majority of the recipients of the distributions are related parties.

Sublease

Galaxy Investment Partners LLC, which has leased office space located on the 8th floor of 107 Grand Street, New York, New York 10013, subleased to Galaxy Digital Services to occupy the 8th floor on the same terms as the master lease. During the year ended December 31, 2021, the Partnership exited the premises prior to the conclusion of the sublease term. The Partnership made payments on the sublease through June 2023, the expiration of the sublease, (Note 24) and has no associated lease liability as of June 30, 2023 (December 31, 2022 -\$1.3 million).

Transactions with GDH Ltd.

In accordance with the LPA (Note 5), the Partnership will reimburse or pay for all reasonably incurred expenses in the conduct of the Company's business. For the three and six months ended June 30, 2023, the Partnership paid or accrued \$0.8 million and \$1.5 million, respectively (June 30, 2022 - \$0.9 million and \$1.6 million, respectively), on behalf of GDH Ltd., which has been included in general and administrative expenses (Note 19).

On April 14, 2022, the Partnership entered into a Promissory Note (amended and restated on May 8, 2023, the "Promissory Note") with GDH Intermediate LLC ("GDHI LLC"), a subsidiary of GDH Ltd. Under the terms of the Promissory Note, the Partnership can request that GDHI LLC make advances to the Partnership from time to time, which decision is at GDHI LLC's sole and absolute discretion. As of June 30, 2023, GDHI LLC had advanced \$66.9 million to the Partnership.

Under the terms of the Promissory Note, interest accrues on any outstanding advances at a rate per annum equal to 7.0%. Interest is payable semi-annually in arrears on June 30 and December 31 of each year, commencing on December 31, 2022, subject to the right of GDHI LLC to elect that the amount of any such interest payment be capitalized and increase the principal amount of the Promissory Note in lieu of being paid in cash by the Partnership. As of June 30, 2023, there was no interest payable on the Promissory Note. The Promissory Note may be recalled in whole or in part by GDHI LLC at any time during the term of the note. Otherwise, it will mature, and the principal amount of all outstanding advances, plus any accrued and unpaid interest, will be due and payable on December 31, 2024, unless extended by GDHI LLC.

As at June 30, 2023, the Partnership had \$64.2 million (December 31, 2022 - \$45.2 million) in payables to GDH Ltd. representing the aforementioned Promissory Note partially offset by receivables for stock option exercises and withholding tax associated with restricted share units vesting.

Other

The Partnership's CEO serves as co-chairman of the board of another company, resulting in the Partnership and that company being related parties. As at June 30, 2023, the Partnership had an investment in the company valued at \$21.2 million (December 31, 2022 - \$16.2 million).

The Partnership has sub-advisory arrangements with a beneficial owner of GDH Ltd. which invests in certain funds managed by the Partnership. Such sub-advisory arrangements have been entered into with Galaxy Digital Capital Management LP, a consolidated subsidiary of the Partnership, in its capacity as an investment advisor registered under the Advisers Act, and any fee arrangements, have been on an arms-length basis. For the three and six months ended June 30, 2023, the total amount of advisory fees received from the sub-advisory arrangements was \$0.2 million and \$0.4 million, respectively (June 30, 2022 - \$0.3 million and \$0.7 million, respectively).

The CEO of the Company, through an entity which he controls, owns a private aircraft that the Partnership uses for business purposes in the ordinary course of operations, on terms that are advantageous to the Partnership. The CEO paid for the purchase of this aircraft with his personal funds and has borne all operating, personnel and maintenance costs associated with its operation and use. During the three and six months ended June 30, 2023, the Partnership incurred \$0.1 million and \$0.5 million, respectively (June 30, 2022: \$0.0 million and \$0.5 million, respectively) for such use negotiated on an arms-length basis in

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

compliance with our aviation matters policy adopted in August 2022.

In addition, the Partnership has from time to time made use of the CEO's private boat to host corporate meetings and for other business purposes in the ordinary course of the Partnership's operations, on terms that are advantageous to the Partnership. The CEO paid for the purchase of this boat with his personal funds and has borne most of the operating, personnel and maintenance costs associated with its operation and use, while the Partnership paid for the cost of any food and beverage consumption and a portion of operating fees. During the three and six months ended June 30, 2023, the Partnership incurred \$0.0 million and \$0.1 million, respectively in relation to this boat. During the six months ended June 30, 2022, the Partnership did not reimburse the CEO for its use of this boat.

In connection with the receipt of surety bonds for the purpose state money transmission licenses on behalf of a subsidiary of the Partnership, GGI agreed to act as indemnitor, along with the Partnership, at the request of the insurers. The Partnership was liable to GGI for fees of \$0.4 million for the indemnity through June 30, 2023, which was calculated as 1% of the aggregate notional amount of the surety bonds held on behalf of the subsidiary. The Partnership will continue to incur fees due to GGI of 1% for the duration of these outstanding surety bonds which are renewed annually.

Prior to joining the Company's board in September 2021, the current chairman of the Company's board entered into a consulting agreement with the Partnership in April 2021. Under the terms of the consulting agreement, the chairman was engaged to provide professional services to the Partnership for a period of three years beginning on September 1, 2021. In 2021, the chairman received 1,500,000 RSUs and 500,000 options under the LTIP in connection with the consulting agreement. The equity based compensation related to this grant for the three and six months ended June 30, 2023 was \$2.3 million and \$4.6 million respectively (June 30, 2022: \$5.8 million and \$9.9 million respectively).

In February 2023, the Partnership entered into a consulting agreement with a board member of the Company. The Partnership paid \$0.3 million and \$0.4 million under this agreement during the three and six months ended June 30, 2023.

Investments in Galaxy Funds

Our directors and senior officers are generally permitted to invest their own capital (or capital of estate planning vehicles controlled by them or their immediate family members) directly in our sponsored funds and affiliated entities. In general, such investments are not subject to management fees, and in certain instances may not be subject to performance fees. The fair value of such investments made by related parties aggregated to \$9.4 million as of June 30, 2023 (December 31, 2022 - \$8.5 million).

21. REPORTABLE SEGMENTS

The Partnership manages and reports its activities in the following operating businesses: Global Markets, Asset Management and Digital Infrastructure Solutions. In the first quarter of 2023, the Partnership began managing and reporting activities in these three operating businesses consistent with changes in our operations, from organic growth and recent acquisitions, and our management structure. Prior periods are presented on a comparable basis. In determining the Partnership's segment structure, the Partnership considered the basis on which the chief operating decision-maker, as well as other members of senior management, review the financial and operational performance of the Partnership.

Global Markets

The new Global Markets segment is comprised of the Partnership's proprietary and counterparty trading activities, lending, as well as advisory and capital market activities. It combines activities that were previously included in the Trading and Investment Banking segments. The Global Markets segment generates revenue primarily from fee income and principal trading. It includes realized and unrealized gains and losses on digital assets and certain equity investments.

Asset Management

The former Principal Investments segment was merged into the legacy Asset Management segment. The new Asset Management segment manages investments in the digital asset ecosystem both on behalf of the Partnership and external limited partners. The segment generates management and performance-based fee revenue. Management fees generated off the Partnership's principal investments are eliminated in the Corporate & Other segment. Realized and unrealized gains and losses on the Partnership's principal investments were included in this segment.

Digital Infrastructure Solutions

The Digital Infrastructure Solutions segment includes the Partnership's investment in emerging and crypto-native technologies. In addition to the Partnership's mining operation, the Digital Infrastructure Solutions segment includes the GK8 custody

Galaxy Digital Holdings LP

 For the Three and Six Months Ended June 30, 2023 and 2022
 (Expressed in US Dollars - unaudited)

technology business acquired in February 2023 and validator staking services. Commissions generated off the Partnership's proprietary digital assets are eliminated in the Corporate & Other segment.

Corporate and Other consists of the Partnership's unallocated corporate overhead, other unallocated costs not identifiable to any of the three reportable segments, and eliminations of inter-segment transactions as required for consolidation. Transactions between segments are based on specific criteria or approximate third party rates.

The following table represents assets and liabilities by each of the reportable segments as of June 30, 2023:

(in thousands)	Global Markets	Asset Management	Digital Infrastructure Solutions	Corporate and Other	Totals

22. FINANCIAL INSTRUMENTS, DIGITAL ASSETS AND RISK

The fair values of all financial instruments and digital assets are measured using market or income approaches. The financial instruments and digital assets measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values, with the designation based upon the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy are:

Level 1 Inputs: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2 Inputs: Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

Level 3 Inputs: One or more inputs to the valuation are unobservable and significant to the fair value measurement of the asset or liability. Unobservable inputs reflect management's assumptions on how market participants would price the asset or liability based on the information available.

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

Transfers in and out of Level 3 are considered to have occurred at the beginning of the period the transfer occurred. Total transfers out of Level 3 were \$11.7 million for the six months ended June 30, 2023. The transfers out of Level 3 for digital assets receivables were due to vesting of digital assets as expected.

The following table represents a reconciliation of Level 3 assets and liabilities for the year ended December 31, 2022:

Assets (in thousands)	Fair value at December 31, 2021	Purchases	Sales/distributions	Net realized gain/(loss) on digital assets and investments	Net unrealized gain/(loss) on digital assets and investments	Transfers in/(out) of Level 3	Fair value at December 31, 2022
Digital Assets	\$ 4,144	\$ —	\$ —	\$ —	\$ —	\$ (4,144)	\$ —
Digital assets receivables	61,621	45,965	—	—	(55,206)	(36,326)	16,054
Common stock	215,185	250	(2,910)	2,153	(131,676)	(32,613)	50,389
Convertible notes	9,768	2,000	—	—	1,542	(661)	12,649
LP/LLC interests	383,279	97,739	(92,607)	50,464	(184,376)	—	254,499
Preferred stock	382,182	42,957	(25,143)	24,789	(147,110)	(19,214)	258,461
Warrants	15,290	3,054	(2,658)	(487)	(8,634)	—	6,565
Total Digital assets, Digital assets receivables and Investments	\$ 1,071,469	\$ 191,965	\$ (123,318)	\$ 76,919	\$ (525,460)	\$ (92,958)	\$ 598,617

Liabilities (in thousands)	Fair value at December 31, 2021	Conversions	Issuance	Revaluation	Fair value at December 31, 2022
Warrant liability	\$ 20,488	\$ (166)	\$ —	\$ (20,322)	\$ —
Embedded derivative - Notes payable	\$ 58,866	\$ —	\$ —	\$ (57,998)	\$ 868

Transfers in and out of Level 3 are considered to have occurred at the beginning of the period the transfer occurred. Total transfers out of Level 3 were \$93.0 million for the year ended December 31, 2022. The transfers out of Level 3 for investments were due to removal of restrictions. The transfers out of Level 3 for digital assets and digital assets receivable were due to vesting of digital assets as expected. There were two investments that changed investment type category during the year ended December 31, 2022: \$0.7 million transferred out of convertible notes into preferred stock and \$19.9 million transferred out of common stock into preferred stock. These are included in the "Transfers in/(out) of Level 3" column in the above table.

The carrying values of the Partnership's cash, receivable for digital asset trades, digital asset loans receivable, assets posted as collateral, receivables, due to / due from related parties, loans receivable, accounts payable and accrued liabilities, payables to customers, payable for digital asset trades, digital asset loans payable and collateral payable approximate fair value due to their short maturities. The carrying value of the Partnership's lease liability is measured as the present value of the discounted future cash flows.

(Expressed in US Dollars - unaudited)

Industry

As of June 30, 2023 and December 31, 2022, details of the industry composition of the Partnership's digital assets and investments are as follows:

Industry	June 30, 2023		December 31, 2022	
	Percentage	# of Investments	Percentage	# of Investments
Digital assets	65 %	222	49 %	180
Finance	21	52	28	51
High tech industries	8	44	15	50
Services: Business	3	19	4	20
Software	2	11	2	11
Finance technology	<1	4	1	7
Media: Diversified and production	<1	6	1	6
Mining	<1	1	<1	1
Total	100 %	359	100 %	326

In the table above, multiple portfolio Partnership investments across the capital structure of one investee are considered one investment.

Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into, causing the other party to incur a financial loss. The Partnership's cash, receivables, receivable for digital asset trades, prepaid assets, assets posted as collateral, and loans (including digital asset loans) receivable are exposed to credit risk.

Centralized and Decentralized Platforms

The Partnership limits its credit risk by placing its cash with high credit quality financial institutions and digital assets with digital asset platforms on which the Partnership has performed internal due diligence procedures. The Partnership deems these procedures necessary as some platforms are not subject to regulatory oversight. As of June 30, 2023, the Partnership held \$79.9 million of cash at brokers (December 31, 2022 - \$65.2 million) and \$74.9 million of cash at exchanges (December 31, 2022 - \$58.7 million).

Furthermore, certain centralized digital asset platforms engage in the practice of commingling their clients' assets in the platform's wallets. When digital assets are commingled, transactions are not recorded on the applicable blockchain ledger but are only recorded by the platform operator. Therefore, there is risk around the occurrence of transactions or the existence of period end balances represented by the platforms. Decentralized digital asset platforms allow users to borrow digital assets deposited by other users. Although these borrowings are on over-collateralized terms and are subject to automatic liquidation if the value of the collateral decreases to a certain threshold, there is an element of credit risk present on balances held on such decentralized platforms. The Partnership's due diligence procedures around digital asset platforms include, but are not limited to, internal control procedures around on-boarding new platforms which includes review of the platforms' anti-money laundering ("AML") and know-your-client ("KYC") policies by the Partnership's chief compliance officer, obtaining a security ratings report by an independent third-party on certain platforms, constant review of market information specifically regarding the exchanges' security and solvency risk, including reviewing wallets that interact with decentralized platforms, setting balance limits for each platform account based on risk exposure thresholds and preparing daily asset management reports to ensure limits are being followed and having a fail-over plan to move cash and digital assets held on a platform in instances where risk exposure significantly changes.

The Partnership conducts digital asset trades using both direct principal to principal transactions with counterparties and with centralized or decentralized platforms. Digital assets held on centralized platforms are subject to operational custody of the platform operators and could potentially be lost or impaired due to fraud or negligence of the platform operators or, in the case of decentralized platforms, exploits of smart contracts. The Partnership mitigates this risk by performing regular reviews of each platform it transacts on, distributing its digital assets across multiple platforms to reduce concentration risk, and holding assets in self-custody where appropriate. As of June 30, 2023, approximately \$673.7 million of the Partnership's digital assets are held on centralized and decentralized platforms (December 31, 2022 - \$131.1 million). Two such platforms individually

For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

held more than 10% as of June 30, 2023 (December 31, 2022 - One), each holding approximately 15% of the Partnership's digital assets.

Receivables

The Partnership limits its credit risk with respect to its loans receivable, digital asset loans receivable, prepaid assets, receivables, receivables for digital asset trades, and digital assets receivables by transacting with credit worthy counterparties that are believed to have sufficient capital to meet their obligations as they come due and, with regards to OTC and Master Loan Agreement (MLA) counterparties for the trading business, on which the Partnership has satisfactorily performed the relevant AML and KYC procedures and requiring the posting of collateral, if deemed necessary. As of each reporting period, the Partnership assesses if there are expected credit losses requiring recognition of a loss allowance. As of June 30, 2023 and subsequently, the Partnership does not expect a material loss on any of its loans. The Partnership is also subject to concentrations of credit risk related to its loans (including digital asset loans) receivable. As of June 30, 2023, one counterparty and its related parties collectively account for 48% of the Partnership's total loans receivable. The loans with this counterparty are supported by collateral valued at more than 150% of the outstanding loan balances. While the Partnership intends to only transact with counterparties or exchanges that it believes to be creditworthy, there can be no assurance that a counterparty will not default and that the Partnership will not sustain a material loss on a transaction as a result.

Derivative-related credit risk

Credit risk from derivative transactions is generated by the potential for the counterparty to default on its contractual obligations when one or more transactions have a positive market value to the Partnership.

The Partnership manages derivative-related credit risk by transacting with counterparties that have gone through an internal due diligence approval process and requiring the posting of collateral, if deemed necessary. The Partnership has also established mark-to-market provisions in its agreements with some counterparties which provide it with the right to request that the counterparties pay down or collateralize the current market value of their derivatives when the value exceeds a specified amount.

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. General interest rate fluctuations may have an impact on the Partnership's investment opportunities, primarily within its asset management segment. An increase in interest rates may make it more expensive to utilize a leverage facility in the future to make investments. To the extent the Partnership invests in debt instruments, interest rate changes may affect the value of the instrument indirectly in the case of fixed rate obligations, or directly in the case of adjustable rate instruments. In general, rising rates will negatively impact the price of a fixed rate debt instrument and falling interest rates will have a positive effect on price. Interest rate sensitivity generally is more pronounced and less predictable in instruments with uncertain payment or prepayment schedules. Adjustable rate instruments also react to interest rate changes in a similar manner although generally to a lesser degree (depending, however, on the characteristics of the reset terms, including the index chosen, frequency of reset and reset caps or floors, among other factors). Interest rate changes would also affect the Partnership's ability to earn interest income or borrow at variable rates. The Partnership's digital assets loans receivable and payable (Note 8) and fiat loans receivable and payable (Note 9) are generally at fixed rates of interest, however, the majority of the loans are callable on demand or have a short maturity. As of June 30, 2023, the Partnership's exposure to interest rate risk is limited.

Liquidity Risk

Liquidity risk is the risk that the Partnership will not be able to meet its financial obligations as they come due, as well as the risk of not being able to liquidate assets at reasonable prices. The Partnership manages liquidity risk by maintaining sufficient cash balances to enable settlement of its liabilities. Accounts payable and accrued liabilities, other than accrued compensation, and payables for digital asset trades generally have maturities of 30 days or less or are due on demand, or in the case of digital assets loan payable, on 5 to 20 business days' notice or at the end of a set term unless renewed. The Partnership intends to manage its short-term liquidity needs through its available cash balance and cash inflows from its ongoing business activities. In addition as of June 30, 2023, 95.1% (December 31, 2022 - 97.0%) of the Partnership's digital assets portfolio was in liquid, actively traded digital asset markets which can be monetized at reasonable prices in short order.

(Expressed in US Dollars - unaudited)

Foreign Currency Risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. To the extent these financial instruments are unhedged or not adequately hedged, the value of the Partnership's financial instruments may fluctuate with exchange rates. The value of the financial assets may therefore be unfavorably affected by fluctuations in currency rates and exchange control regulations. For the period ended June 30, 2023, the Partnership minimized exposure to foreign currencies by entering into foreign currency derivative instruments.

Market Risk

Market risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or foreign currency risk), whether caused by factors specific to an individual investment, its issuer, or factors affecting all instruments traded in a market or market segment. All investments present a risk of loss of capital. The maximum risk resulting from financial instruments is equivalent to their fair value. The Partnership's investments are also susceptible to market risk arising from uncertainties about future prices of the instruments. The Partnership moderates this risk through various investment strategies within the parameters of the Partnership's investment guidelines.

As of June 30, 2023, management's estimate of the effect on equity of a +/- 20% change in the market prices of the Partnership's investments and investments sold short, with all other variables held constant, was +/- \$121.6 million (December 31, 2022 - \$119.0 million).

Digital Asset Risk

Digital assets are measured at fair value less cost to sell. Digital currency or digital asset prices are affected by various forces including global supply and demand, interest rates, exchanges rates, inflation or deflation and political and economic conditions. Further, digital assets have no underlying backing or contracts to enforce recovery of invested amounts.

The profitability of the Partnership is related to the current and future market price of digital assets; in addition, the Partnership may not be able to liquidate its inventory of digital assets at its desired price, if necessary. Investing in digital assets is speculative, prices are volatile, and market movements are difficult to predict. Supply and demand for such currencies change rapidly and are affected by a variety of factors, including regulation and general economic trends. Digital assets have a limited history, their fair values have historically been volatile, and the value of digital assets held by the Partnership could decline rapidly. A decline in the market prices of digital assets could negatively impact the Partnership's future operations. Historical performance of digital assets is not indicative of their future performance.

Many digital asset networks are online end-user-to-end-user networks that host a public transaction ledger (blockchain) and the source code that comprises the basis for the cryptographic and algorithmic protocols governing such networks. In many digital asset transactions, the recipient or the buyer must provide its public key, which serves as an address for a digital wallet, to the seller. In the data packets distributed from digital asset software programs to confirm transaction activity, each party to the transaction must sign the transactions with a data code derived from entering the private key into a hashing algorithm; this signature serves as validation that the transaction has been authorized by the owner of the digital asset. This process is vulnerable to hacking and malware, and could lead to theft of the Partnership's digital wallets and the loss of the Partnership's digital assets.

Digital assets are loosely regulated and there is no central marketplace for exchange. Supply is determined by a computer code, not a central bank. Additionally, exchanges may suffer from operational issues, such as delayed execution, that could have adverse effects on the Partnership.

The digital asset exchanges on which the Partnership may trade are relatively new and, in many cases, largely unregulated. They, therefore, may be more exposed to fraud and failure than regulated exchanges for other assets.

Any financial, security, or operational difficulties experienced by such exchanges may result in an inability of the Partnership to recover money or digital assets being held on the exchange. Further, the Partnership may be unable to recover digital assets awaiting transmission into or out of the Partnership, all of which could adversely affect an investment of the Partnership. Additionally, to the extent that the digital asset exchanges representing a substantial portion of the volume in digital asset trading are involved in fraud or experience security failures or other operational issues, such digital asset exchanges' failures may result in loss or less favorable prices of digital assets, and may adversely affect the Partnership, its operations and its investments.

For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

As of June 30, 2023, management's estimate of the effect on equity of a +/- 20% change in the market prices of the Partnership's digital assets, with all other variables held constant, was +/- \$222.8 million (December 31, 2022 - \$113.3 million).

23. CAPITAL MANAGEMENT

The Partnership's objectives when managing capital are to safeguard its ability to continue as a going concern, to meet the capital needs of its ongoing operations, and to maintain a flexible capital structure which optimizes the cost of capital. The Partnership considers current economic conditions as well as the risk profile of its portfolio and overall business when managing its capital structure. The Partnership has an ongoing process whereby actual expenditures and cash needs are compared against budgets to ensure that there is sufficient capital on hand to meet ongoing obligations. As of June 30, 2023 and December 31, 2022, the Partnership had \$1.5 billion and \$1.4 billion in equity, respectively. The Partnership has the flexibility to acquire or dispose of assets and to issue debt or equity to adjust its capital structure in the future. The Partnership is not subject to externally imposed capital requirements other than the minimum net capital requirement for its broker dealer of \$0.1 million, nor were there any changes to the Partnership's approach to capital management during the period ended June 30, 2023.

24. COMMITMENTS AND CONTINGENCIES

Leases

As of June 30, 2023, the Partnership has lease commitments for the next five years as follows:

(in thousands)	Rent Due
2023	2,670
2024	4,626
2025	2,944
2026	2,557
2027	2,572
2028 and beyond	3,001
Total	\$ 18,370

For the three and six months ended June 30, 2023, the Partnership recognized interest expense on the lease liability of \$0.5 million and \$0.9 million, respectively (June 2022 - \$0.3 million and \$0.7 million, respectively), which was recorded within interest expense.

Investment and loan commitments

As of June 30, 2023, the Partnership had a commitment to 8 investment funds to fund up to \$77.0 million, of which \$0.5 million was funded subsequent to period end.

As of June 30, 2023, the Partnership had outstanding loan commitments of \$120.0 million (December 31, 2022 - \$210.0 million) under revolving credit agreements, out of which \$0 (December 31, 2022 - \$0) was funded.

Mining commitments

As of June 30, 2023, the Partnership had an obligation of approximately \$22.1 million under a power purchase agreement for its mining operation in Texas. The power purchase agreement is scheduled to expire in December 2023.

Other

The Partnership has provided standard representations for agreements and customary indemnification for claims and legal proceedings. Insurance has been purchased to mitigate certain of these risks. Generally, there are no stated or notional amounts included in these indemnifications and the contingencies triggering the obligation for indemnification are not expected to occur. Furthermore, counterparties to these transactions often provide comparable indemnifications. The Partnership is unable to develop an estimate of the maximum payout under these indemnifications for several reasons. In addition to the lack of a stated or notional amount in a majority of such indemnifications, it is not possible to predict the nature of events that would trigger indemnification or the level of indemnification for a certain event. The Partnership believes, however, that the possibility of making any material payments for these indemnifications is remote. As of June 30, 2023 and December 31, 2022, there was no liability accrued under these arrangements.

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
For the Three and Six Months Ended June 30, 2023 and 2022
(Expressed in US Dollars - unaudited)

In the ordinary course of business, the Partnership and its subsidiaries may be threatened with, named as defendants in, or made parties to pending and potential legal actions. Except as discussed below, the Partnership does not believe that the ultimate outcome of these and any outstanding matters will have a material effect upon our business, results of operations or financial condition.

We are currently in the process of responding to inquiries from U.S. regulators which, in some cases, may implicate our compliance with U.S. securities laws. In particular, members of the staff of the SEC's Division of Enforcement have raised whether certain of the digital assets that we trade are securities and therefore such trading activities should be conducted through a registered entity. Discussions with the SEC staff are ongoing and we have not received notice stating that the staff has made a determination to recommend enforcement action to the SEC. We believe there are good defenses to any assertion that our activities implicate entity registration requirements. It is premature to predict the potential outcome of these discussions and any potential impact on our business, results of operations or financial condition.

Financial Support of GDH Ltd.

In accordance with the LPA, the Partnership will reimburse or pay for all reasonably incurred expenses in the conduct of GDH Ltd.'s business (Note 5).

Tax Distributions

The LPA also allows the Partnership to make distributions, as and when determined by the General Partner, in its sole discretion so as to enable unit holders to pay anticipated taxes with respect to allocated Partnership taxable income and / or gains. Amounts distributed pursuant to the tax distribution provision are treated as an advance against, and reduce (on a dollar for dollar basis), future amounts that would otherwise be distributable to such limited partners. The LPA provides that the value of any tax distribution made shall not exceed 25% of the Partnership's market capitalization determined at the time the General Partner determines to make such distribution.

During the quarter ended June 30, 2023, the General Partner declared a tax distribution of \$22.4 million.

In December 2021, the Partnership contributed approximately \$523.0 million into wholly-owned subsidiaries through which the Partnership is operating bitcoin mining activities and exploring ways to operate other qualified digital assets and blockchain-related activities, in qualified opportunity zones. The qualified opportunity zone program was established by Congress under the Tax Cuts and Jobs Act of 2017 to encourage long-term investments in low-income urban and rural communities nationwide, and through which taxpayers may defer eligible capital gains provided they meet the program's requirements. In December 2026, the Partnership will be required to recognize capital gains on 90% of the contributed amount for U.S. Federal tax purposes, which will be allocated to its partners in accordance with their ownership interests at that time. As such depending on facts and circumstances at that time, the Partnership may be required to make additional tax distributions to its partners, including GDH Ltd.

25. INCOME TAXES

GDH LP is a Cayman exempted limited partnership treated as a partnership for US Federal tax purposes, and as such, income taxes are generally the responsibility of the partners through an allocation of GDH LP's taxable income (loss), and not that of GDH LP. GDH LP is subject to a 4.0% entity level New York City unincorporated business tax ("UBT") on income allocated or apportioned to New York City. Foreign corporate subsidiaries are generally subject to taxes in the foreign jurisdictions where they are located. Accordingly, no provision for income taxes has been recorded in these interim condensed consolidated financial statements other than for GDH LP's UBT obligation and for the entities in the consolidated GDH LP group subject to income taxes in the local jurisdictions in which they operate. The allocation of taxable income to members may vary substantially from net income reported in these condensed consolidated interim financial statements

The following table represents Income tax recognized on the Partnership's interim condensed consolidated statements of income (loss) and comprehensive income (loss) for the three and six months ended June 30, 2023 and 2022:

Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements
 For the Three and Six Months Ended June 30, 2023 and 2022
 (Expressed in US Dollars - unaudited)

(in thousands)	Three months ended June 30, 2023	Three months ended June 30, 2022	Six months ended June 30, 2023	Six months ended June 30, 2022
Current income tax expense (benefit)	\$ 1,680	\$ (6,009)	\$ 4,549	\$ 7,900
Deferred income tax expense (benefit)	(3,580)	(12,500)	(723)	(32,528)
Income taxes expense (benefit)	\$ (1,900)	\$ (18,509)	\$ 3,826	\$ (24,628)

The effective income tax rate of 4.0% and 4.2% for the three and six months ended June 30, 2023, was generally higher than the Cayman Island statutory rate of 0.0% due to the entity level UBT tax imposed by New York City and higher tax rates in certain jurisdictions where the Partnership's foreign corporate subsidiaries operate. The effective income tax rate for the three months ended June 30, 2023 was 4.0%, compared to 3.2% for the three months ended June 30, 2022. The effective income tax rate for the six months ended June 30, 2023 of 4.2% was generally higher than the effective income tax rate for the six months ended June 30, 2022 of 3.6% primarily due to changes in the jurisdictional mix of earnings.
