### 1. Nature of operations

Triple Flag Precious Metals Corp. ("**TF Precious Metals**") was incorporated on October 10, 2019 under the *Canada Business Corporations Act*. TF Precious Metals is domiciled in Canada and the address of its registered office is 161 Bay Street, Suite 4535, Toronto, Ontario, M5J 2S1, Canada.

The condensed interim consolidated financial statements of TF Precious Metals for the three and six months ended June 30, 2023 and 2022 comprise TF Precious Metals and its wholly owned subsidiaries (together, the "**Company**" or "**Triple Flag**").

The Company is a gold-focused streaming and royalty company. Its revenues are largely generated from a diversified portfolio of properties in Australia, Canada, Colombia, Mexico, Mongolia, Peru, South Africa and the United States.

### 2. Basis of presentation

These condensed interim consolidated financial statements of TF Precious Metals and its subsidiaries have been prepared in accordance with International Financial Reporting Standards ("**IFRS**") as issued by the International Accounting Standards Board ("**IASB**"), applicable to the preparation of interim financial statements, including International Accounting Standard ("**IAS**") 34, *Interim Financial Reporting*.

These condensed interim consolidated financial statements should be read in conjunction with TF Precious Metals' most recently issued audited financial statements for the years ended December 31, 2022 and 2021 ("**2022 Annual Financial Statements**"), which include information necessary or useful to understanding the Company's business and financial statement presentation. In particular, the Company's significant accounting policies were presented in Note 3 to the 2022 Annual Financial Statements and have been consistently applied in the preparation of these condensed interim consolidated financial statements. Certain comparative figures have been reclassified to conform to current year presentation. There were no new accounting standards effective January 1, 2023 that had a material impact to the Company's financial statements as at June 30, 2023. For judgments, estimates, assumptions and risks related to other areas not discussed in these condensed interim consolidated financial statements, please refer to Note 4 of the 2022 Annual Financial Statements.

#### Accounting for the acquisition of Maverix Metals Inc.

Management determined that the Company's acquisition of Maverix Metals Inc. ("**Maverix**") (Note 4), which owned a portfolio of stream, royalty and other interests, did not meet the definition of a business combination under IFRS 3 – Business Combinations. The acquisition included amounts receivable, mineral interests, financial assets, loans receivable and liabilities. Streams and royalties are standard contractual entitlements and Triple Flag can continue to utilize its existing processes to manage royalty receipts. Accordingly, the acquisition was accounted for as the purchase of individual assets and liabilities in accordance with relevant IFRS standards (IAS 16 – Property, Plant and Equipment, IFRS 9 – Financial Instruments, IAS 37 – Provisions, Contingent Liabilities and Contingent Assets). The identifiable assets and liabilities acquired were measured at their relative fair values at the date of acquisition. The determination of the relative fair values required management to make assumptions and estimates on the future production profiles, metal prices, discount rates, and exchange rates.

IFRS 9 applies an expected credit loss model to evaluate financial assets for impairment. The Company's financial assets which are subject to credit risk include cash and cash equivalents, amounts receivable (excluding sales taxes and prepaid expenses) and loans receivable. The amounts receivable (excluding sales taxes and prepaid expenses) are carried at amortized cost and had a carrying value of \$13,362 as at June 30, 2023 (December 31, 2022: \$8,061). Considering the current turnover and credit risk associated with the amounts receivable (excluding sales taxes and prepaid expenses) and loans receivable, the application of the expected credit loss model did not have a significant impact on the Company's financial assets, because the Company determined that the expected credit losses on its financial assets were nominal.

To provide an indication of the reliability of the inputs used in determining fair value, the Company classifies its financial instruments into the three levels prescribed under the accounting standards. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Refer to Note 7 for additional details on investments that are measured at fair value.

The carrying value of amounts receivable (excluding sales taxes and prepayments), cash and cash equivalents, financial assets (including investments and prepaid gold interests), loans receivable, amounts payable and other liabilities, lease obligations and long-term debt approximate their fair value. Financial assets and financial liabilities as at June 30, 2023 and December 31, 2022 were as follows:
